## A BIG CONVENTION

### AND GENUINE ENTHUSIASM MARK THE DAY

When the Democracy Assembled at Grand Rapids—Washtenaw's Influence on the Convention.

The democratic state convention at Grand Rapids, Thursday of last week, was among the most enthusiastic conventions ever held in the state. It greatly exceeded in numbers, in ability, and in enthusiasm, the republican convention held two or three days previous in the same city. Our authority for this statement, is the word of republicans, who stayed over from their convention to witness the democratic convention.

It was a harmonious convention, although of course there was considerable strife among the various candidates who wished the honor of attending the convention in St. Louis that is to nominate the next president. It was an enthusiastic convention, and one giving promise of success. It was a Cleveland convention, cheering wildly whenever his name was mentioned. It was a tariff reform convention, calling for a reduction of taxation on the necessities of life. The enthusiasm was genuine, money was not used to inflate it, the "favorite son" racket was not used to augment it, yet it far exceeded that of the Alger convention.

Washtenaw county was well represented in the convention, Hon. Chas. R. Whitman, regent of the University, was the chairman and spokesman of the delegation. J. Willard Babbitt, prominently mentioned in connection with the probate judgeship, was there. So likewise were ex-Supervisor, Leopold Blaess, of Lodi, Hon. Nathan E. Sutton, and Hon. Charles S. Gregory, ex-members of the state legislature, Dr. Houston, of Ypsilanti, ex-state Senator from Wayne, City Recorder, J. R. Bach, Sheriff Wm. Walsh, Phillip Duffy, of Northfield, Register of Deeds, James Kearns, J. Manly Young, of Saline. William H. McIntyre, Edmund Clancy, George E. Roberts, of Ypsilanti town, William H. Louden, of Augusta, Will Clements and F. J. Swayne, of Ypsilanti and S. W. Beakes.

Eight of the delegation, Whitman, Blaess, Babbitt, Kearns, Walsh, Bach, Duffy and Beakes occupied one room at the Morton House, and they occupied it too. William H. McIntyre staid at his brothers, and Nathan E. Sutton visited his sister, Mrs. Johnson. The later arrivals, Gregory, Lowden, Young, Roberts, Houston and others occupied rooms at Hewitt's.

Washtenaw voted as a unit in the convention and she voted on the winning side every time. As her vote was always cast among the first, she exerted a greater degree of influence with her eighteen votes that would have been the case later on. Monroe usually voted against Washtenaw and on some ballots, Washtenaw, alone of the entire district, voted with the majority. The delegation returned home highly pleased with the result.

The delegates to St. Louis from this congressional district are Charles R. Whitman and Lester H. Salsbury. The alternates are C. F. Cook and J. M. Sterling. The members of the State Central Committee from the district are C. S. Gregory, of Dexter, and Chas. Humphrey, of Adrian. J. Willard Babbitt, of Ypsilanti, was a member of the committee on permanent organization and order of business. The delegates at large to the St. Louis convention are I. M. Weston, George L. Yapple, Marvin H. Chamberlain and Peter White. Yapple is expected to second the nomination of Cleveland.

Not only was Washtenaw's influence in the convention made known by her vote, but the speech made by Regent Whitman went very far towards securing the election of ex-mayor Chamberlain, a delegate at large. He clearly held up the need of recognizing Wayne county with her five thousand democratic majority, that when fifty-six out of sixty-three delegates asked for ex-mayor Chamberlain, it was plainly evident whom Wayne county desired. E. D. Conely, whom the seven Wayne county dissenters desired, received only eleven votes in the convention. He was spotted as the anti-administration and was doomed from the first, for this was plainly a Cleveland convention.

The platform adopted declares the bed rock principle of democratic government, is to secure the greatest good to the greatest number, denounces class legislation and declares the democracy in fullest sympathy with the president's message, and in favor of a gradual but certain reduction of tax upon the imports. It denounces imported contract labor, favors just and liberal pension laws, appreciates the appointment of Don M. Dickinson. It further declares:

That in Grover Cleveland we have found a fearless, honest and able leader; a man with ability to form convictions and moral courage, to assert and enforce them; a true exponent of democratic principles, and a safe man to execute the laws governing a free and independent people. We therefore join in the spontaneous and universal demand for his re-nomination and reelection.

Ex-Department Commander Rutledge, of the G. A. R., ably presided over the convention. When he called upon the soldier delegates in the convention to arise, over 100 sprang to their feet. This does not look as if the republican party alone saved the nation.

Every mention of Cleveland's name brought out round upon round of applause. There wasn't any anti-Cleveland sentiment in that convention. Never did a candidate have a more hearty backing from his party.

At the ratification meeting, held in the evening of convention day, rousing speeches were made by the prominent delegates of the convention. By far the most eloquent of these was made by Hon. Charles R. Whitman, of this city. He carried the audience with him. Old Washtenaw came in for her share of the applause, as Mr. Whitman introduced his remarks by telling how democratic majorities were growing in this neck of the woods.

Democratic editors were out in force. Among the craft present were Scherhorn, the brilliant young editor of the Hudson Gazette, Field, the faithful chronicler of the Tecumseh News, Crampton, the able editor of the Monroe Democrat, Klein, formerly a Dexter boy, editor of that enterprising paper the Caro Democrat, that democrat of democrats, whose advise in political matters is so often followed, Rowley, of the Lansing Journal, Blackman, of the Hillsdale Democrat, who has built up a strong paper in a republican wilderness and Bryan, of the Charlotte Democrat. Bryan was formerly editor of the Register in this city, but was out of his sphere. He is now editing a democratic paper and an excellent one too.

Taking it all in all, the democratic convention to elect delegates to St. Louis, was a grand success. It will do the party good and stir up the workers to renewed efforts for the party.

### The Liquor Tax Crawling Up.

Up to yesterday noon, the county treasurer had received \$20,660 liquor tax, one half of which, or \$10,330 goes into the county treasury. The amount so far paid in from Ann Arbor city is \$8,530, of which the city treasurer receives \$4,415. From Ypsilanti \$2,865 have been paid in, \$2,300 from Chelsea, \$2,100 from Dexter, \$1,500 from Saline, \$300 from Lodi, \$300 from Lima, \$300 from Augusta, \$300 from Bridgewater. The following saloonkeepers have paid their license since last week. In the city, John Schneider, Jr., \$300; Chris. Carey, \$500; Albrecht Gwinner, \$500; Fred Rettich, Jr., \$500; Werner & Brenner, \$500; Eugene Gibney, \$500. From Augusta Chas. Schmidt has paid in \$300. From Ypsilanti Adam Scharrer, \$500; George J. Ament, \$500; George Thum, \$500; Nicholas Max, \$500; Geo. C. Richel, \$400. From Manchester Wm. H. Lehr has paid in \$500.

### The Circuit Court.

The circuit court this week is presided over by Judge Lane, of the Lenawee circuit. The judge has made an excellent impression. He is a graduate of the University and decidedly of a judicial frame of mind.

Abram Gorslin vs. Dewitt Bucklin was tried Monday and submitted to the court upon proofs in open court. Tuesday, Wednesday and Thursday forenoon was taken up in the trial of two red line wheat notes. They were brought against George and Fred Alber on notes of \$300, given at the same time and for a purchase of 20 bushels of wheat at \$15 each. Clearly the wheat agents had managed to get \$30 a bushel. The defence of the second case was that the note was forged, through the genuineness of the signature was not really disputed. The first case of Henry Leisner vs. Alber & Alber was given to the jury, Wednesday and after being out several hours the jury were unable to agree. They stood eleven to one in favor of the defendants. The second case was that of Charles M. Webb vs. George Alber and Fred Alber and in this case the jury rendered a verdict of nocaue of action. The wheat agents had sold both the notes, evidence being introduced tending to show both Leisner and Webb innocent purchasers. The fact that they bought without knowledge of what the notes were given for was controverted by the defence.

Charles E. Davis vs. John G. Wagner. Judgmtm of non-suit with costs for defendant was entered Tuesday and set aside Wednesday and the suit was discontinued, defendants costs being taxed at \$20.

## Found Dead by the Roadside.

Tuesday morning, the body of Henry Wright, a colored man, forty-eight years of age, was found by the roadside on the Geddesburg road near this city. When found, he was lying on his face, and had evidently been dead for some time. At a coroner's inquest it was found that he had died in a convulsion incident upon an advanced stage of Brights disease. He had evidently been on his way home from his work Monday evening when he was seized with the convulsion, rolled down the embankment by the roadside, and died. He had engaged to work for ex-supervisor Foster, Tuesday, corn planting and had no premonitions of the near approach of death. The coroner's jury rendered a verdict in accordance with the facts stated.

## Extending the Free Delivery Limits.

Some months ago Postmaster Duffy made application for an increase in the number of letter carriers so that he might extend the free delivery limits. He applied while Col. Vilas was postmaster general, but his application lay unacted upon until recently when he called Postmaster General Dickinson's attention to it. With commendable promptitude, government inspector, E. B. Spangler, was sent to this city. Wednesday he rode over the city with Postmaster Duffy. He admitted that the carriers were doing all the work that could be expected of them. The postmaster requested two extra carriers, but the inspector decided to recommend but one, and although this would not allow the entire city to be covered, the limits will be very much extended. The districts will be revised and the limits extended as soon as the necessary red tape is gone through with and the extra carrier is appointed.

## Beautiful Presque Isle Park.

The grand opening of the season at Presque Isle Park, the beautiful summer resort on Lake Erie, six miles below Toledo, will take place on Saturday and Sunday, June 9 and 10. The park has undergone many improvements since last season, which will add to the pleasure and comfort of its patrons. There has been an entire change in the management of Presque Isle Park this year, and a new policy will govern all the details in connection with this beautiful resort. The opening attraction will be Gilmore's Band, which will be heard in a mighty musical jubilee. Gilmore's Band comprises 65 musicians, besides 13 matchless soloists, and is the greatest aggregation of musical talent on earth. Gilmore will give four performances in all, Saturday and Sunday afternoons and evenings. There will be a grand chorus of 150 voices, supplemented by the anvil brigade and a battery of six pieces of artillery. It will be one of the grandest jubilees ever heard in America. Arrangements are now in progress whereby a grand excursion will run over the Ann Arbor road on one of these dates. Following the band the McCollin Opera Company will begin a three weeks engagement, to be followed by other standard attractions in the way of minstrelsy, light opera, burlesque and the spectacular drama.

A little item inserted in these columns some weeks ago without any desire to give offense, so piqued an editor of a country exchange that he endeavored to retaliate by making what he considered as severe a charge against the editor of this paper as he could. So he accused us of having once upon a time edited a prohibition paper. There was not the least foundation for the charge. With as much foundation might he have accused us of murder. He corrected the accusation the following week, but the lie seems to be travelling around among some of our exchanges.

A good joke is related on the deputy game warden and one of our good natured doctors. A colored fish peddler in town last week, brought some bass for the said doctor, by previous arrangement, and the game warden catching sight of them, volunteered the information that it was unlawful to catch said fish. The doctor became frightened, and while the warden was hunting up the law in question, took the fish back to the peddler, who also caught the scare infection and hustled out of town as fast as he could go. After

he had gone it was found that the bass had been caught in Lake Erie, where the law makes an exception, only applying to the interior waters of the state, but the doctor had lost his fish.—Saline Observer.

The Methodists have postponed their May day festival because of the measles scare.

J. H. Bortle has fitted up an eating room in the rear part of his store. An improvement.

Weather permitting, two of our wheelmen will run to Detroit Saturday to spend a few days.

G. L. Parsons of C. Parson's firm, opened a clothing and gent's furnishing goods store Wednesday with about \$6,000 stock.

S. H. Hartwell was at home the first of the week. He is traveling for the Albion Manufacturing Co., selling farming implements.

Barnum's bill posters decorated the church sheds and scattered flyers about town one day last week, as though printers ink and paper did not cost them much.

S. D. Bechtel had the misfortune last Monday to drop one of the "pony" millstones on his foot, consequently he wears a large slipper and limps when he walks.

Union schools give a free public entertainment in chapel hall Friday evening this week. The German class will render a play in German with the assistance of their instructor, Miss M. R. DePuy.

Miss Mattie Pickle died last week Friday morning, with measles and congestion of the brain, after less than one week's illness. 'Tis a sad loss for her mother, as she was the only child. Age about 14 years.

"Have you had the measles?" is a common interrogative here of late. About forty scholars are out of school this week for fear of catching them, though at date of correspondence (Wednesday) there are only 3 or 4 cases reported. Should there be more cases the schools will probably close for a time.

H. Collum's case is becoming serious to all appearances. The hand that was injured in the Saline mills some time ago is doing nicely, but an abscess has formed on the right arm. If medical aid can pull him through, that which he is receiving will do it. He is member of the I. O. O. F. lodge here, and they are rendering aid in more ways than one.

South Lyon.

South Lyon has a dentist office, located with W. C. Brown, M. D.

William Greig is better and will soon be able to take charge of the furniture factory business again.

Dr. Walker now has his telephone line working in good shape which proves a great saving in driving and time.

It is rumored that W. W. Waite, dentist, of Brighton, sentenced to states prison for five years is to have a new trial.

It is rumored that Ringsley Calkins will add to his grocery stock a full line of clothing and gents furnishing goods.

It is a fact that more Ann Arbor flour is sold in South Lyon than all other brands, which speaks well for the mills of that place.

Ed. Sellman and L. B. Manning will return to Iowa in a few days where they will continue in the employ of Johns Bros. selling fruit trees and seeds.

The number of cases of Measles is not so large as last week but in some cases where a relapse sets in patients are very sick but none have proved fatal.

D. E. Smith and A. F. Vanatta has brought up all the stock of the Salem cooperative Co. and are closing out a greater portion of the stock at very low prices.

The thermometer is a very good thing to have around but does not please our gardeners to look at these days. Yesterday morning all the tomato plants were frozen which only makes a double sale for our hot house man.

That Tired Feeling Afflicts nearly every one in the spring. The system having become accustomed to the bracing air of winter, is weakened by the warm days of the changing season, and readily yields to attacks of disease. Hood's Sarsaparilla is just the medicine needed. It tones and builds up every part of the body, and also expels all impurities from the blood. Try it this season.

"How do you like this new hat of mine, Quimby?" "First rate. It looks much better than when I saw it last." "When did you see it last?" "When I took it to the second-hand store to sell it." "Ah me!" sighed Potts. "I am tired of living. The world is hollow, ambition's vain. 'Come now!' said his chum, 'I know the sympathy; it's all your liver—that's very plain. You need not suffer, for help is easy; Pietro's Pellets go right to the place. A friend to the bilious; I've tried call them. There's nothing better; they'll suit your case.' Potts ceased his sighing and bought the "Pellets."

No more he mourneth his hapless lot! His face is cheery, his heart is lightsome, His melancholy is quite forgot!

It was an enthusiastic gathering and the speeches were received with noisy demonstrations. John W. Hart, of Rockford, chair-

DIVERSIFIED COUNSELS.

SOME OF WHICH WILL PROBABLY SAVE THE COUNTRY.

A Multiplicity of Policies Represented in Convention—The Stock So Varied That He is Hard to Please Who Can Not Find Something to His Mind—Three National Conventions at Work, Besides Numerous State Gatherings.

CINCINNATI, May 16.—The distinction of having two national conventions in session at the same time fell upon this city yesterday when the delegates to the Union Labor and United Labor national conventions met. Although the two organizations profess to have the same object in view, yet they widely differ as to the course that should be pursued to accomplish their purpose, and one common object of the leaders of the two bodies is to find a ground of action upon which they both can operate as one organization.

Among the prominent men present as delegates to the two conventions are Robert Schilling and Mrs. Julia Severance, of Milwaukee; John M. Potter and Ben Caley, of Michigan; George Schilling and Robert Buchanan, of Chicago; Dr. McGlynn and Messrs. McMakin, Barnes and Blakeny, of New York. The United Labor people hold their convention at the Grand Opera house.

Twenty-eight states are represented at the Union Labor convention as reported to the national executive committee when they met yesterday to settle up at noon the past year's business, and the convention was called to order at the Odeon and the following temporary officers chosen: Chairman, S. F. Norton, Chicago; secretary, J. S. House, Missouri; assistant secretary, I. F. McDonald, Cincinnati; chief sergeant-at-arms, John Burrell; assistant, W. F. Flood, Cincinnati.

The committees on permanent organization, credentials and resolutions were appointed and the convention was about to take recess until 3 p. m. when Hilliard, of Kentucky, offered a resolution that Dr. McGlynn be invited to attend the afternoon session. This created a great commotion, and objections were shouted from all parts of the hall.

Hilliard was heard loudly protesting against any attempt to interfere with free speech, but it was no use, the chair decided that his resolution was not in order and the convention took recess.

The convention reassembled at 3 o'clock, but it was nearly 6 before the committee on credentials was ready to present its report. In the interval the platform was occupied by Jesse Harper, of Illinois, Mrs. Marion Todd, and Mrs. Emery, of Michigan. After the report of the committee on credentials had been adopted there was a long and animated debate upon a proposition to allow the delegates from each state to cast the entire vote of such state, no matter whether the actual representation was one or twenty. This was strongly resisted by the western delegates, on the ground that it would give the ten New Yorkers seventy votes and practically put them, with the Pennsylvania and Maine delegates, in control of the convention. Finally the proposition was voted down.

A communication was received from the United Labor convention, in session at the Grand Opera house, asking that a committee of conference be appointed, and the request was complied with, one delegate from each state represented being elected. Several other committees were appointed and the convention adjourned until 9 o'clock this morning.

Immediately after adjournment the committee went into joint conference, and it is reported that an agreement is likely to be reached upon the basis of the lead plank in the Knights of Labor platform. Rev. Dr. McGlynn occupied a front seat in the Grand Opera house when John McMakin, of New York, called to order the national convention of the United Labor party. About 150 delegates were in attendance, W. B. Ogden, of Kentucky, was selected as permanent chairman, and in his speech emphasized

REV. EDWARD MCGLYNN the fact that the single world theory was the central idea around which the party revolved. A committee was appointed to confer with the Union Labor convention, and the rest of the session was occupied with routine business. The convention adjourned until 10 a. m. to-day.

ANOTHER NATIONAL CONVENTION. It Voted by Mail and Nominated Mrs. Belva A. Lockwood.

DES MOINES, Ia., May 16.—The national convention of the Equal Rights party met in this city yesterday afternoon. The convention was called to order by Mrs. Nettie Sanford Chapin, of Marshalltown, chairman of the national committee. Arrangements had been made so that delegates unable to attend could send ballots by mail. The ballots thus received showed the following result: For president of the United States, Belva A. Lockwood, of Washington; for vice president, Alfred H. Love, of Philadelphia. Each received 310 votes, and were declared duly nominated. There were forty votes scattering for Blaine, Allison, Gen. Clinton B. Fisk, Elizabeth Cady Stanton, Susan B. Anthony, and others. The convention adopted a platform favoring woman suffrage, pensions for all needy soldiers and sailors, protective tariff with free sugar and lumber, and repeal of the tax on whisky and tobacco, and against unrestricted immigration, after which the convention adjourned sine die.

ILLINOIS PROHIBITIONISTS. Largest Convention Ever Held in the State and Very Enthusiastic.

SPRINGFIELD, Ills., May 16.—The Prohibition state convention held here yesterday was the largest ever held by the third party in this state. There were about 1,800 delegates in attendance, and some of the congressional delegations had to go into the galleries to obtain seats, the capacity of the floor being insufficient to accommodate them. Some 200 or 300 of the delegates were women, but the great majority of the convention was composed of gray-haired men.

It was an enthusiastic gathering and the speeches were received with noisy demonstrations. John W. Hart, of Rockford, chair-

man of the state central committee called the convention to order and Hon. James Lamont, the solitary Prohibition representative in the last general assembly, was made temporary chairman. Both made speeches and both arraigned the two old parties as unfit to receive the suffrage of the people. Permanent officers were then selected as follows: President Dr. Jarvis G. Evans, of Ironopolis county; secretary, R. A. Burnett, of Cook county.

Upon taking the gravel Dr. Evans paid his compliments to the Democrats and Republicans and another scene of wild enthusiasm followed. It was decided that counties be limited in voting to the number of delegates actually present, and several thousand dollars were raised for campaign expenses.

The convention took recess until evening, when a mass-meeting was held and the following delegates at-large to the national convention chosen: Frances E. Willard, of Cook county; James Lamont, of Winnebago county; J. B. Hobbs, of Cook county; Hale Johnson, of Jasper county. The alternates are: Mary A. West, of Cook; J. C. Pepper, of Mercer; David J. McCulloch, of Peoria; Jacob Hoofsittler, of Whitesides.

NEW YORK DEMOCRATS. NEW YORK, May 15.—Chairman Edward Murphy, Jr., of the state committee, called the Democratic convention to order, and stated that by the direction of the state committee he nominated Hon. Frederick Couderk, of New York, temporary chairman.

An eloquent eulogy on the Democratic party and its leader, Grover Cleveland, was delivered by Daniel Dougherty. Roswell P. Flower, of New York; George Raines, of Rochester; Alfred C. Chapin, of Brooklyn, and Edward Cooper, of New York were chosen by the committee on delegates as delegates at-large to the national Democratic convention; Governor Hill's name was put in nomination as a delegate at-large, but received only five votes; and this action was ratified by the convention. The electors at large are: Oswald Ottendorfer, of New York, and Wilson S. Bissell, of Buffalo.

At 9:23 p. m. the convention adjourned without day.

The popular blood purifier, Hood's Sarsaparilla, is having a tremendous sale this season. Nearly everybody takes it. Try it yourself. "My errand here to-night," said a young lawyer to a damsel on whom he had called, "reminds me of the cry of an angel."

"Indeed," said the maiden; "what is your errand here to-night?" "Courtship. To wit, to woo."

A Woman's Discovery. "Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Miss Luther Lutz." Thus writes W. C. Hemrick & Co., of Shelby, N. C.—Get a free trial bottle at Eberbach & Son's Drug Store.

Sometimes a noble failure serves the world as faithfully as a distinguished success.—Dowden.

Advice to Mothers. Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

It is said that the body of a man with his head twisted off was found in an alleyway back of a Chicago photograph gallery. The coroner's jury brought in a verdict of "found dead" but they censured the photographer for not being more careful when posing his customers.

The Verdict Unanimous. W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of rheumatism of ten years' standing." Abraham Hare, druggist, Belville, Ohio, affirms: "The best selling medicine I ever handled in my 20 years' experience is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all disease of the Liver, Kidneys or Blood. Only a half dollar a bottle at Eberbach & Son's drug store.

BASE BALL ATTRACTIONS.

Scores of League Clubs in the Contest for the Pennant.

CHICAGO, May 10.—Yesterday was a good day for base ball, nearly all the scheduled games being played. The league scores were: At Chicago—Chicago 13, Washington 2; at Detroit—Detroit 6, Boston 13; at Indianapolis—Indianapolis 4, New York 18; at Pittsburgh—Pittsburg 1, Philadelphia 2.

CHICAGO, May 11.—The Chicago Base Ball club met the New York Giants yesterday and began the series by losing the game by the score: New York 5, Chicago 2. Other League scores were: At Detroit—Detroit 2, Philadelphia 3; at Indianapolis—Indianapolis 7, Washington 1; at Pittsburgh—Pittsburg 11, Boston 10.

CHICAGO, May 12.—The National league base ball scores yesterday were as follows: At Chicago—Chicago-New York postponed—rain; at Pittsburgh 0, Boston 2; at Indianapolis—Indianapolis 5, Washington 6; at Detroit—Detroit 6, Philadelphia 4.

CHICAGO, Ills., May 14.—The loss of a game by Boston and the winning of one by Chicago Saturday, give the Windy City boys of the National Base Ball league a decided lead in the record for the pennant. In the game here Anson's pets "got onto" Titcomb's delivery in great shape and pounded the New York pitcher all over the field, while the New York team somehow could not find the balls pitched by Baldwin. The records of the different base ball aggregations up to and including Saturday's playing are given below:

NATIONAL LEAGUE.	Played.	Won.	Lost.	Per cent.
Chicago	16	13	3	.812
Boston	18	5	13	.278
New York	17	11	6	.647
Detroit	18	10	8	.556
Philadelphia	18	8	10	.444
Pittsburg	18	7	11	.388
Indianapolis	19	5	14	.263
Washington	16	3	13	.187

The playing on Saturday in the league resulted in the following scores: At Pittsburgh—Pittsburg 7, Boston 4; at Indianapolis—Indianapolis 11, Washington 0; at Detroit—Detroit 3 Philadelphia 1; at Chicago—Chicago 9, New York 3.

CHICAGO, May 15.—The scores made on the diamond yesterday by League players were as follows: At Chicago—New York 1, Chicago 5; at Indianapolis—Washington 1, Indianapolis 7; at Pittsburgh—Boston 6, Pittsburg 5; at Detroit—Detroit 10, Boston 0.

CHICAGO, May 16.—Anson's pets met the \$20,000 aggregation of talent which Spalding has sold to the Boston base ballists during the past two years yesterday, and were given a bad shaking up in the first game the two heavy teams of the league have met each other this season. It seemed evident that playing with Clarkson was not a good way to learn his curves, and that the first thing the Chicago boys want to do is to study said curves very attentively now they are playing against the great twirler. The score was 20 to 5 in favor of the visitors. That was all; except that all this was done in six innings. Suppose the whole game had been played!

The other league games resulted as follows: At Pittsburgh—New York 3, Pittsburg 3—eleven innings, darkness; at Detroit—Washington 5, Detroit 11; at Indianapolis—rain.

Congressmen Chipman and Tarsney should have been present at the Grand Rapids convention last week. It would have done them good and might have exercised a healthy influence upon their speeches.

WHENCE comes Alger's sudden popularity. Four years ago he ran for Governor and received a plurality of 3,953. At the expiration of his term it was generally believed that he would be beaten if re-nominated. Surely his running record shows no elements of remarkable popularity. It seems that there must be considerable wind about Alger's boom.

THE New York state democratic convention declares emphatically in favor of Cleveland and the platform as laid down by his message. It instructs its delegates to vote for Cleveland in the National convention. The instructions were passed unanimously. Burke Cochran, the Tammany hall congressman, who made such a bitter fight in the convention against Cleveland four years ago, strongly indorsed him in a speech at the state convention Tuesday. Old dissensions have been healed and the democracy support Cleveland solidly this year.

Congressman Allen made his tariff speech, Wednesday. We peruse in vain the extracts given in the papers for the statement of some economic truth. The Congressman has taken pains that we should not get the Congressional Record to see the full text of the speech. We confess we are disappointed. We look for something else in a Congressman besides voice and sound. Captain Allen's forte is not ridicule and instead of outlining cartoons for Puck, he might better employ his time in discussing the effect of the Mills bill in saving money to the people and leaving it in the pocket of those who earn it.

WHY cannot the Detroit Free Press and Evening News rise above mere local jealousy in discussing the medical department of the University. They are state papers, rather than Detroit papers and should so conduct their columns. This week, the Evening News calls for the entire abolition of the medical department of the University. The reason impliedly given is that this would build up or strengthen a small, private institution known as the Detroit Medical College. For the same reason, thought it does not so state, the Free Press this week again returns to its demand that the medical department be divided and half of it removed to Detroit and annexed to the Detroit Medical College. Now this same small medical fledgling is not a state institution and the state at large has no interest in it. Hence it is clearly out of place to consider its welfare in deciding upon the future of the medical department. To every thinking man, it must be clear than, there is no strength in division. Nor is there any dearth of clinical material obtainable here. The medical clinics are full.

THE Register has a hobby, which it is just now riding to death. It is the prohibition hobby. It strove to secure it by passing constitutional amendment and failed. It strove to secure it at the local option election this spring but failed by over 1600. Failing in this, it seems to have been of the opinion that the common council of the city should give it the prohibition it sought but could not obtain by the vote of the people. And because the majority of the council saw fit to interpret the liquor law relating to the bonds in a manner differing from the interpretation of the editor of our prohibition contemporary, who possibly never saw the inside of a law book, the columns of his paper have been filled for the past two weeks with denunciations of the aldermen and the mayor. We shall not consider them at length. Suffice it to state that the object of the

law relating to the bonds is to provide ample security for the collection of any damages which might be obtained against a saloon keeper for breaking the laws in selling to minors, drunkards, etc. It has been many years since as good a set of bondsmen have been secured as this year. Even the aldermen who side with the Register admit this. And we believe that judgments obtained against any saloon keeper in the city are collectable to the amount of the bonds. The object of the law is obtained, the security is ample. Furthermore there has been no violation of the laws on the part of the council. Our prohibition contemporary should consider that the council have no power to keep down the number of saloons. There is no such thing as a saloon license, granted at the pleasure of the council in this state. Any one who pays the \$500 tax and furnishes a bond must be given the right to sell liquor. The council have no choice in the matter, further than to see that the security is ample.

FOR GOVERNOR—WELLINGTON R. BURT.

The democrats of this state by making wise nominations and putting forth extra exertions have a better prospect of carrying the state this fall than do the republicans. Four years ago the republican majority was only about three thousand. A large number of new voters have been made since then, a majority of whom are democrats and the elections recently held show strong democratic gains, the upper peninsula election, where the democrats gained over 7,000, being only one instance. It will thus be seen that other things being even, on the basis of past election returns, allowing for the new voters, the democrats are in the majority in the state.

The question then arises, what gubernatorial nomination will most increase the chances of carrying the state for the democracy this fall. After carefully looking over the field, it seems to us that Wellington R. Burt, of the Saginaw valley, is the most available candidate this year.

He is one of the very best business men in the state, a man whose ability to manage his own large interests, proves his ability to handle those of the state. He is popular with the business interests and popular with the workmen. Although he has had 1,500 to 2,000 men in his employ in troublous labor times, his men have never struck. He is a host in the Saginaw valley and to him more than any other man was due Tim Tarsney's election to congress. Although the president of the Michigan Salt Association, he plants himself squarely upon President Cleveland's message. He opposes class legislation and wants legislation to be for the people rather than for the few rich men. Mr. Burt, while a millionaire himself, the result of his own good business management, sees clearly the evils of the legislation which enables the rich to grow richer by making the poor, poorer, and ranges himself on the side of the people. As long as the governor of Michigan receives a salary of only \$1,000 a year, which will go only a small way towards paying his legitimate campaign assessment, no poor man need apply. Hence when we find a rich man taking up the side of the people against the millionaires, he is the man for the people to elect.

Mr. Burt is the candidate of Tim Nester, who has been the leading republican of the upper peninsula, and wields a vast deal of power in that section. Nester will come over to the democracy if Burt is nominated, and he will not come alone. Burt is a live, active campaigner. It would be a fight from the nomination, and large gains would be made by him in the Saginaw valley and the upper peninsula.

We ought not to be too anxious to encourage untied innovation, in cases of doubtful improvement. For a quarter of a century Dr. Sage's Catarrh Remedy has been before the public and passed through the severest tests and is pronounced the most reliable remedy for that disagreeable malady. Thousands of testimonials of its virtue. 50 cents per bottle. By druggists.

More than half of the Manchester saloons have closed.

Never had a preparation a more appropriate name than Ayer's Hair Vigor. When the capillary glands become enfeebled by disease, age, or neglect, this dressing imparts renewed life to the scalp, so that the hair assumes much of its youthful fullness and beauty.

#### A GOVERNMENT DAM GIVES WAY.

Over \$100,000 Damage Done at Rock Island and Moline, Ills.

ROCK ISLAND, Ill., May 12.—The Mississippi river, which has been rising steadily at this point for several days, caused great damage yesterday. The water held in check by the big government dam at Moline, which is built of solid masonry, rose with the flood, until yesterday the pressure became too great for even the immense dam to support, and about 600 feet of it gave way. The water rushed down the sluice in torrents, forcing all the mills and factories along it to shut down. Among these is the government arsenal. The damage to the dam is estimated at \$100,000.

At this point the avalanche of water broke the boom of the Rock Island Lumber company, and turned loose 10,000,000 feet of logs, valued at \$15,000, and carried off the warehouse of the St. Louis & St. Paul Packet company. It flooded the levee and the streets and lots for several blocks.

At Davenport, across the river, the flood played havoc in portions of the city exposed to the river front. In one neighborhood thirty families were driven from their homes, while many of the warehouses and wholesale houses were obliged to hastily remove their goods to places of safety. The western part of the city is inundated, and much damage is threatened to mills and other manufacturing industries.

CHICAGO, May 12.—Telegrams from St. Paul, Minn.; Marinette, Wis.; Des Moines and Keokuk, Ia.; Fulton, Ills., and other points report the Mississippi and other streams out of their banks, farms and towns flooded and the usual list of spring freshet damages, submerged railroads, etc. Many families have been compelled to leave their homes, and in some places the water is five and six feet deep over what was dry land a few days ago. At St. Paul the father of waters is within a few inches of its highest record.

#### Governor "Bob" Gets the Nomination.

#### WELL DESERVED HANGING.

A Negro Murderer Swing Off in the Jail at Chicago.

CHICAGO, May 14.—Zeph Davis, the negro brute who murdered Maggie Gaughan in February last, was hung in the jail in this city Saturday before a small and select audience. The prisoner had a shorter shirt than most murderers get in Chicago, and had the other distinction of having been the first negro officially hung here. For some time after his conviction he was morose, dogged and dangerous, having assaulted one or two people who got in his reach, but for a week previous to his death he calmed down, and asked to see a clergyman. He professed penitence on the scaffold, and confessed his crime in a written statement which was read just before the drop was sprung. He died coolly, and without any appearance of fear, declaring that he believed his sins were forgiven. His death was instantaneous. An effort was made to have his sentence commuted on the ground of insanity, his mother, a respectable negro woman of this city, visiting Governor Oglesby to plead her case, but the governor was inexorable.

A Brighton man, well loaded with the juice that inebriates, went home late at night and drove his wife out of the house, clad only in her night apparel. W. K. In due time Mr. C. received a reply stating that not only the waters of the lake were his individual property, but the earth beneath it also; and if he liked, the sky above it, or all that portion he could make use of, might be included. This would seem to settle and make valid the claim of ownership by those owning land that entirely surrounds small bodies of water.

## INDIGNANT CHURCH MEMBERS.

They Resist the Laying of Street Car Tracks at Grand Rapids.

GRAND RAPIDS, Mich., May 12.—The street railroad company under their ordinance are extending the Reed's Lake dummy line three blocks in East street along the city line. The property owners object, and members of the Holland Reformed church, past which cars will run, are especially indignant. An injunction restraining the building of the road was dissolved and the company gathered a large gang of workmen and built the road over the disputed territory in a single night. The neighborhood was summoned by the ringing of the church bell and arose in arms. They were mainly Hollanders and members of the church, and being encouraged by their pastor, Rev. Sipke Sevensma, put the railroad employees who were defending the property to flight by a volley of stones and clubs and tore up the track. The police were summoned and the mob greeted them with stones and then dispersed. Several were hurt, but none seriously. The company relaid the tracks, completing the work late at night under police protection and with rain descending in torrents. When the last spike was driven a dummy engine was started out to confirm possession, and this was the signal for another sortie. The church bell again summoned the indignant church members and population and when the dummy appeared it was greeted with a heavy shower of rocks and clubs. The officers made a flank movement and captured one man and secured the names of several others. The prisoner is a deacon of the church and is now in jail. The railroad company has the court decision at its back and is preparing to resort to stern measures if necessary.

**Killed by Careless Workmen.**  
ISHPEMING, Mich., May 12.—Careless "trammers" at Cleveland mine allowed a tram-car loaded with two tons of iron to fall down the shaft. August Turquist, aged 27, was killed, and J. J. Sibley injured at the bottom of the shaft.

**WILKINS, THE BIGAMIST.**

The First Wife to Sue Wife No. 2 for Alienating Her Husband's Affections.

ST. PAUL, Minn., May 12.—John F. Wilkins, who recently gained much notoriety through having seven wives, all living, will come before the public again soon in a very racy civil suit. He is now living with wife No. 2, nee Stetson. The first Mrs. Wilkins, now divorced, has brought action against the present Mrs. Wilkins, who is wealthy, for \$10,000, for having alienated John's affections by her seductive ways. The answer is to the effect that the wiles were all on the side of John; that she married him believing him single, and that since the marriage she has entirely supported him. While he was in jail in St. Paul and engaged in staving off his lawful wife, he was writing letters to the Stetson woman, who was in Minneapolis, and also to a St. Paul widow. When he was released he joined Miss Stetson and finally married her. Wife No. 1 now is now trying to get her revenge by securing some of the Stetson cash. The singular part of the affair is that Wilkins objects to his present wife defending the action. It is asserted that he has a definite object in view, and that he and the first wife understand each other. The letters written by him in jail, which are of the raciest possible character, will be introduced in evidence.

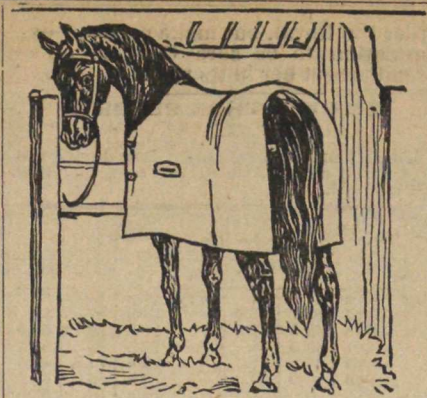

**DENBY FOR SECOND PLACE.**

The Minister to China Vigorously Boomed Against Gov. Gray.

EVANSVILLE, Ind., May 14.—The Democrats engineering the canvass of Col. Charles Denby for second place on the National ticket are pushing it with determined vigor, and sending out a mass of literature to all delegates and prominent party men in every part of the union. The number of prominent men in this state who have espoused his cause despite Gray's indorsement has astonished the partisans of the latter, and some of the Democratic press claim that it is worked up by the friends of Senator McDonald, who is known to be friendly to Gray. On the other hand, the friends of Denby claim to have practically carried the delegations of Arkansas and Louisiana, with great encouragement from several other southern states to stimulate their efforts.

**Kicked His Wife to Death.**

ELYRIA, Ohio, May 15.—James Smith, of Lorain, is in jail here charged with a brutal assault upon his wife, which caused her death. About ten months ago Smith, who is 21 years old, married Ella White, aged 15. They did not live happily together. Thursday evening, on coming home, Smith found his wife preparing to attend a dance. This enraged him, and he commenced tearing her clothes. She escaped and ran into the street, and he followed, and, knocking her down, kicked her viciously. For this assault he was arrested and fined. The young wife lingered in agony all day Friday, and finally died during the night. Smith was re-arrested and brought to this city. He does not deny that he beat his wife. She was a very beautiful young woman.

Concerning Company A's Election. EDITOR ARGUS:—Some of the members of company A do not seem to understand the position Lieut. H. D. Merrithew has taken in the protest of Sidney W. Millard as captain of said company. In the certificate of election of commissioned officers of said company, the presiding officer of the election must certify that the officers were elected solely by members of the company, who have been duly mustered into the service of the state. This, Lieut. Merrithew, who was presiding officer, did except as to five persons who had been admitted to the company and took part in the election, but according to general order number one, issued January 1st, 1886, were not considered in the service of the state and therefore had no right to vote, but did vote and gave S. W. Millard two votes more than a majority. This question should, according to section 11, page 97, of rules and regulations governing M. S. T., have been decided by the Judge Advocate but was not so decided. In justice to Lieut. Merrithew and members of the company, I think it should go to the proper authority for a decision and not be decided by the military board, who have no authority to decide in a contested election. Section 11 page 97, rules and regulation governing M. S. T. says: "The Judge Advocate shall have the care and management of all things relating to the administration of justice among the military forces of the state. He shall in like manner, report in all cases of contested elections." Therefore S. W. Millard was not properly commissioned as captain of Company A, 1st Regt., M. S. T. A MEMBER OF CO. A. Scanlan in "The Irish Minstrel". The Cincinnati Enquirer says: Wit and repartee will be the counterpoint at the Grand Opera house, the occasion being the first appearance in this city for the season of that inimitable representative of the pure Irish drama, Mr. W. J. Scanlan, who will present his ever popular play, "The Irish Minstrel." This piece has been seen here before, and at the time of its production it met with unbounded favor. Since then it has been rewritten and rearranged by its author, Mr. Fred Marsder, and now, with its many new songs, it is more attractive than ever. As "Larry O'Lynn," the Irish minstrel, Mr. Scanlan is seen at his best. Of Mr. Scanlan's ability as an actor it is unnecessary to speak. Those who have seen him know how thoroughly he has developed himself, and it is to this study of self that he owes his success as a delineator of the genuine Irishman. In fact there is not a better exponent of the Irish drama on the stage to-day than Mr. Scanlan, and he it is on or off the boards, he is always the open-hearted, open-handed Irishman, with whom we are all more or less familiar. Of his singing we can only speak in praise. While a musician or poet might find fault with the length or breadth of certain syllables, the people never do, and they are always the best judges. The play will be handsomely mounted, with appropriate properties and new scenery most of which arrived here a few days ago from New York, where it was painted for this production. The company supporting Mr. Scanlan is composed of competent actors and actresses. The Danger Before us. We have already alluded to the importance of housekeepers paying more attention to the kind of baking powder used in leavening their bread. This is a matter to which we cannot draw attention too often, because it is something which involves the most serious consequences to the general body of mankind. Temperance apostles tell us—and there is ample foundation for the statement—that there is disease, both moral and physical, in the intoxicating cup; and in the same way there is disease, slow perhaps, but certain, in the lime and alum leavening agents employed in many of the homes on this continent. No punishment is too severe for those manufacturers who place these poisonous alum and lime baking powders before the public with the assurance that they are pure and wholesome articles. In the belief of truth of such statements such baking powders are largely used in the preparation of food and in this way the poisonous ingredients are taken into the system without a suspicion of their presence. By and by some spells of headache, distress in the stomach, loss of appetite, a fluttering of the heart; the child is seized with an apparently causeless cough. The coating of the stomach is destroyed, perhaps; one of the vital organs is rendered almost useless; the kidneys are attacked with Bright's disease. The health of the child is irreparably broken down; the adult becomes a chronic invalid. These are the doings of the modern cheap baking powders that are composed of lime and alum, or that contain sulphuric or phosphatic acids. In view of these facts surely all housewives should exercise the care that is, we know, now exercised by some in the selection of a proper brand of baking powder. She who does not do so, whether the neglect is the result of ignorance or recklessness, cannot free herself from the responsibility for the health, perhaps life, thereby endangered. No housewife need be ignorant of the quality and composition of the article which she uses to leaven her bread, biscuit and cake. The official reports of the government chemists, who are certainly unprejudiced, have been published and show very clearly the quality and strength of all the baking powders in the market. The Royal Baking Powder, which is accessible at every hand, is reported absolutely free from lime, alum, phosphoric acid, or any injurious ingredient. It is further stated by the most eminent authorities on food hygiene that food leavened with it is more wholesome than when raised by any other method. It is therefore to be commended. It is to be regretted that no other baking powder, when there are so many in the market, some of which will find their way into use, is free from all of these substances. The official analysis assures us, however, that all except the Royal contain either lime or alum. The housekeeper who regards the health of her loved ones should not only
