#### JOHN O'NEILL COMMITS SUICIDE IN NORTHFIELD.

The New Toledo Depot—The High School and St. Thomas' School Commencements—Infanticide at Whitmore Lake—Crop Prospects and Other Interesting Items.

#### The Republican National Convention.

The republican national convention has been in session all the week at Chicago. It has not been harmonious and has been very slow getting to work. After adopting a platform yesterday the candidates for president, Gresham, Harrison, Sherman, Allison, Alger, Depew, Hawley, etc., were placed in nomination. The convention had not at the latest writing nominated a ticket.

#### Inspecting the Schools.

Secretary Warner, whose business it is to inspect every school in the county, has been making his rounds. He has been meeting with varied experiences. In one district he reports finding an officer of the school who had been such an office for fifteen years and yet had never visited the school more than twice. Another district he found when one of the directors wanted his best girl employed as teacher of the school. The other two opposed this and the outcome of the row was that no school was being held. Some of the district schools he praises very highly. All districts should strive to deserve such praise.

#### A Mad Dog Scare.

A mad dog scare alarmed many of the residents in the vicinity of First and North streets, Wednesday morning. A small mongrel dog belonging to Eddie Morrison was frothing at the mouth, running aimlessly about and snapping at everything within reach. Some men ran him into a sewer pipe at the corner of First and North streets and plugged up the entrances with stones. Marshal Siple was sent for and when he arrived he endeavored to get the dog out of the sewer, but it refused to go. It could not be poked out with a pole and refused to be smoked out. The hose cart was brought out and the minute the water began to run in the pipe the dog bounded out and was immediately shot.

#### A Gang of Tramps Arrested.

Sheriff Walsh, Marshal Siple and several deputies had a set-to with a gang of tramps yesterday afternoon, who were located at Swift's race near the dam, with a keg of beer. The tramps, who were a dozen in number, showed fight, going so far as to draw knives on the officers. One jumped into the river and was followed by Siple, who captured him. The officers clubbed the tramps into submission and secured seven of them, who were taken to jail, making the air blue with oaths and imprecations on the way. The tramps may get the best of the Jackson officers, but when the Washenaw officers really get after them, they have to come.

#### A Child Murder.

The body of an infant was washed up on the shore of Whitmore Lake, last Sunday, near the steamboat landing at the Grand Trunk depot, and was found by a little boy who at first supposed it the body of a lamb. A rope was tied around its body and a noose at the other end of the rope, indicating that it had been fastened to a stone or some weight to keep the body down. The rope was a new one. The body had evidently been in the water about three months and was somewhat mutilated. It was clearly a case of infanticide. A coroner's jury was called in the case by the Livingston county officers. Funeral services were held over the body on Tuesday and it was given Christian burial. The parties guilty of the murder should be ferreted out.

#### Commencement at St. Thomas School.

The annual commencement of St. Thomas' school was held Tuesday and the exercises Tuesday evening were largely attended and greatly appreciated. Among those present were Rev. Fr. Baumgardner, of Pontiac, Rev. Fr. Muir, Rev. Fr. Fierle and Rev. Fr. DeBever, of Ypsilanti. The dialogues were excellent, the declamations good and the various calisthenic evolutions surprisingly well done by very small children. The children were dressed in various taking costumes. A number of the boys took the part of grasshoppers in appropriate costumes. The funeral services of a cat were held. The music and singing was excellent and everyone present was highly pleased with the exercises. Miss May Seabolt, daughter of M. M. Seabolt, secured the gold medal.

You can never know till you try, how quickly a dose of Ayer's Pills will cure your sick headache. Your stomach and bowels need cleansing, and these pills will accomplish it more effectually than any other medicine you can find.

#### At Whitmore Lake.

Whitmore Lake retains its old-time popularity in Ann Arbor as a summer resort. So near is it and so easily reached by either stage, railroad or carriage that there is already a rush for the lake in hot weather, and no better place can be found for real enjoyment. The season at the Clifton opened last Friday and a goodly number could be seen on Saturday. A new boat house has been erected and the house is supplied with excellent boats. The Clifton sets a good table and arrangements have been made to accommodate a large number of guests. As a summer resort the lake is all that can be desired. Fishing is excellent this year, and although most of the fish caught are small, there are plenty of them. The little steamer on the lake under the charge of Mr. Snell commenced running last Saturday. It makes its trips at reasonable rates. A new dock has been built to Weidemann's grove, which makes it easier for the steamer to reach the grove. Water lilies have put in appearance and divide the attention of the ladies with the piscatorial art.

#### A Civil Damage Suit Under the Liquor Laws.

Another civil damage case under the liquor laws, was commenced in the circuit court Monday, when the complaint of Mrs. Martha Kuhl against Conrad Naumann, a Manchester saloonkeeper, was filed by Hewett & Freeman, her attorneys. Mrs. Kuhl claims to have been damaged \$3,000 by Naumann's selling liquor to her husband, although forbidden so to do, up to February 20. She sets up that her husband, Lambert Kuhl, was under contract to work the Millard farm, in Manchester township, of 400 acres, and that he thus supported her and their 6 children, ranging in age from three to nineteen years. By reason of the liquor obtained at Naumann's, she avers, Kuhl became sick and was confined to his bed for a month, rendering medical services necessary and considerable expense, besides leaving him shattered in mind and body, causing her anguish of mind, mental suffering and disgrace. Catherine Wolf and Warren Kimble, who were the sureties on Naumann's bond last year were also made defendants in the case.

#### High School Class Day.

The graduating class of the Ann Arbor high school held their exercises Wednesday at the Clifton House, Whitmore Lake. The class oration was delivered by Austin C. Gormley and was entitled "Not the End but the Beginning" which appropriately described the lesson taught in the oration. The poem the Gail of Wisdom, was read by Miss Matilda Neumann. Ray J. McColl read the class history from which we find that the class consists of 80 members, their aggregate age being 53,239 days and height 5,357 inches. The two tallest members are six feet and the shortest five feet. The aggregate weight is 10,467 pounds. The class prophecy by Miss Nellie Cutler followed after music after which Hattie V. Haviland read her essay, All the World's a Stage. The whole class joined in singing the class song to the tune of "Greenville" and the class president, Marion G. Paul made a very brief closing address. Dinner was held in the grove and the banquet was spread at nine. Dancing in the hall followed the banquet and the happy seniors returned home at not an early hour.

#### Washtenaw Crop Prospects.

The June crop report issued by the secretary of state estimates wheat at 63 per cent of an average crop in the state, which would mean a total yield in the state of 16,450,000 bushels. It estimates that on June 1 there was left not to exceed 1,900,000 bushels in the farmers' hands in excess of the amount needed for their own use. Oats average 97 per cent, barley 95 and clover 96. In this county more oats are reported sown than last year and the crop is put at 92 per cent of an average yield. The report puts the average wages of farm hands in the county, with board, at \$18.05 a month, which is \$1.33 greater than the average for the state. The wages per month, without board, is put at \$25.88. The apple crop in the county is estimated at 97 per cent of an average, and peaches at 91 per cent. In Monroe county the average peach crop is put at 113 per cent. The difference in the prospects of the two counties is undoubtedly due to the difference in the temperament of the crop reporters. Jacob Ganzhorn, of this city, writes that peaches, apples and all other fruits in this county show a full average crop. Eight elevators and mills out of the twenty-five in the county, report 17,873 bushels of wheat as marketed during May, making a total of 561,027 bushels marketed in this county since August 1, 1887.

The word Birmingham, so common in naming town and cities, is compounded of three words, which together mean "the hill which is the home of the broom," an English shrub.

#### Suicide of an Old Soldier.

John O'Neill, an old soldier, committed suicide Wednesday night, by hanging. He lived in this city during the winter and during the summer months worked in the country. Wednesday evening he was found on the Whitmore Lake road apparently much exhausted from the heat. He was assisted along and determined to stop in the barn of J. G. Zwinck, in the town of Northfield. He was seen to enter the barn, field, by the family, who supposed he had gone there to stay all night. He was not under the influence of liquor and nothing was thought strange about his entering the barn, as he had been working for Mr. Zwinck. When the men went out to do the chores at four o'clock yesterday morning they found O'Neill suspended by the neck with a halter tied to a beam. The body was cold and he had evidently been dead some hours. It is supposed that he hung himself shortly after entering the barn in a fit of insanity superinduced by despondency. He was an unmarried man, sixty years of age and a quiet inoffensive person. He has one brother living in this city. He served for three years in company K, 4th Michigan infantry and was honorably discharged. He was in the city Tuesday, at which time he forwarded a voucher for his pension.

#### The New Toledo Depot and the Henning Property.

The common council held a special meeting, Wednesday night, when they considered the petition for opening Second street through to west Jefferson street. Sedgwick Dean and Col. H. S. Dean advocated the opening of the street. It was the first time the Toledo road had asked the city to do anything for them. Public interest demanded that access to the new depot they were about to build should be had without crossing the railroad track. The location was decided upon because it was the only one where there was an absence of a grade, in the heart of the city, where the cars would not start of themselves unless the brakes were kept set. The company would like to build a good depot of stone or brick, but their means were not large enough. They expected to build a \$3,500 frame depot and had already ordered the material. It would be a better depot than the old

Michigan Central depot. Mr. Philip Bach opposed the opening of the street. It took his land and greatly damaged his property. He didn't think the city was called upon to expend money in opening the street. A long discussion followed among the aldermen, interspersed with remarks by Messrs. Deans and Bach. The cost of opening the street was adverted to and the fear expressed that it would cost the city more to open and grade the street than it would the railroad to build such a depot as they talked of doing. The council finally decided that the street should be opened and appointed the mayor and Aldermen Allmendinger and Miller a committee to see what could be done in the way of obtaining releases of right of way by gift or purchase. The city engineer was requested to furnish an estimate of the cost of grading the proposed extension of the street, building a culvert over the street, etc. The objects of the resolution are to find out the cost of opening Second street and putting the street in shape. The council may then intelligently determine whether the street should be opened. There seemed, however, to be a strong sentiment not to do anything for the Toledo road unless they would build a depot costing more than \$3,500.

D. J. Ross was given permission to use half of Huron and Thayer streets while building the new high school addition.

The saloon bond of Gustave Roehm was accepted. The two orders held by the electric light company were ordered paid out of the contingent fund. Ald. Wines' resolution forbidding playing on the city parks passed after opposition.

The streets committee presented an unanimous report in the David Henning matter and upon their recommendation the following resolution was passed:

WHEREAS, David Henning has presented a communication to this common council relative to damages accruing to him by reason of the embankment adjoining his property on Pontiac street between the Michigan Central railroad company and the Huron river bridge, and also for damages to him by reason of the vacating and discontinuing by the common council of that portion of State street between the north boundary line of Fuller street and the north line of the right of way of said railroad company; and

WHEREAS, All the proceedings taken and resolutions adopted by the common council relative thereto were taken and adopted under the advice and upon the recommendation of Hon. E. D. Kinne, then city attorney, and of John F. Lawrence, Esq., then an alderman and member of said common council, who were counseled and advised with in the whole matter by the Hon. Alpheus Felch and the Hon. Thomas M. Cooley, to the end that the city's interests should be fully and completely protected, and that in the opinion of this council the legal ability and learning employed were amply sufficient for the purpose and object, and that in the belief of this council such interests from the eminent legal counsel employed, must be conclusively presumed by this council to have been fully protected; therefore,

#### Resolved, That the said communication of David Henning be laid upon the table and that no further action be taken thereon.

Clothes soaked for an hour in a tub of hot water in which some of THE DINGMAN SOAP has been dissolved, and covered over with a thick cloth of any kind to keep the hot steam in the tub, will require little or no rubbing, as the dirt will squeeze or wring right out.

It is the great labor saver and invention of the age. Remember the name of Dingman, and beware of imitations claiming to be like it, as there is no soap made like the Dingman soap is made. Ask for it, and take no other until you try it.

DEMOCRATIC STATE CONVENTION.

The Democrats of Michigan will meet in State Convention in the Detroit Opera House at Detroit, on

Thursday, July 19th, 1888.

At eleven o'clock a. m. to nominate candidates for State Officers and for Electors of President and Vice-President of the United States, and for the transaction of such other business as may properly come before the convention.

According to the rule adopted by the state convention held at Detroit in 1880, every county is entitled to one delegate for each 500 votes cast for governor at the last general election, and one additional delegate for a fraction of not less than 250 votes, but any county is entitled to at least two delegates. All delegates must be residents of the counties they represent.

The delegates from each Congressional District will meet in caucus at 10 o'clock a. m., on day of the convention.

E. M. WESTON, Chairman. WM. J. McGEHEE, Assistant Secretary.

THE Ypsilantian quotes us as saying that our wool dealers here squandered twenty-five to thirty thousand dollars last year keeping the price up five cents above what it was worth. With all due deference to the Ypsilantian, we hope that we may be allowed to state that we never made any such statement.

It seems a very funny procedure for the Detroit Evening News to denounce the ladies who are asking the state officials to close the dens of infamy in the upper peninsula, and then to publish the fact that it would send an emissary to Dan Dunn's den to spy out what he could find. Does it not look as if the News wanted Dunn to have everything smoothed over by the time the News man gets there?

Many of the republican papers are now pitching into the supreme court because they declared the section of the liquor law prohibiting brewers from going upon bonds, unconstitutional. They could not do otherwise. Our republican friends should read the decision carefully and also recollect that the constitution of Michigan prohibits the granting of liquor licenses. It is impossible, lawfully, to make a license law out of our tax law.

Mr. Blaine in his "Twenty Years of Congress," says of Thurman: "His rank in the senate was established from the day he took his seat, and was never lowered during the period of his service. His retirement from the senate was a serious loss to his party—a loss indeed, to the body. He left behind him the respect of all with whom he had been associated during his twelve years of honorable service." The loss felt by Thurman's retirement as depicted by Mr. Blaine will be repaired on the fourth of March next when Mr. Thurman will return to preside over the senate.

THE Michigan Farmer leans towards a republican high tariff. Yet in its last issue, in a protective tariff article, the Farmer quotes from the New York Sun, another high tariff paper: "There is only one country in Europe in which the wages of labor are within a half of what they are in this country. That is Great Britain. Wages in Germany, France, Belgium and Switzerland are only one-third of what they are here." We quote these statements from these two high tariff papers because they utterly destroy the argument that a low tariff means a less sum of money paid for wages. Great Britain enjoys free trade. Germany is a very highly protected nation, and yet wages in Great Britain are much higher than they are in Germany. This is the best answer in the world to give those who would contrast the wages of this country with those of Great Britain. Why not contrast them also with Germany where the tariff is so high.

THE republicans are prone to set this congressional district down as assuredly republican this fall. They do so because Capt. Allen carried it by 1032 plurality two years ago. One fact they lose sight of. Allen carried it on a very light vote. In

1886 he received 1174 less votes than he did in 1884 when he was defeated and the stay at home vote was mostly democratic. The vote in the district was 3,333 less than in 1884. That the difference in the result was caused by the democratic vote not being out in 1886 is shown by the fact that in 1884, Cleveland had 813 plurality in this congressional district. Two years later Luce's plurality, on a vote over 3,000 less was 469 and last spring on a light vote also, the fusionists had a plurality of 60 in the district. The signs all point to a Cleveland majority of 1200 or over in this district this fall. Can Allen overcome that lead? Two years ago he lead the state ticket in majority 563. There are no indications that he can do better than that this year if the democrats and greenbackers give their candidate a united support. With 1200 majority for Cleveland ought we not to have a democratic congressman? There will be no stay at home vote this fall and Allen will have to poll 2,000 more votes than two years ago to be elected.

JOHN Boyle O'Reilly, editor of the leading Irish-American paper, the Boston Pilot, was a supporter of Blaine four years ago having deserted the democratic party to follow Blaine's leadership. He now expresses the sentiments of a great number of Irish-Americans who voted for Blaine in 1884, when he says:

There is not a sincere democrat in the country, with whom principle is deeper than personality, who does not profoundly believe that Mr. Cleveland is the best man the democratic party could nominate, and that he deserves the great place for his wise, firm and magnanimous course during the past four years.

The mistakes of the democratic administration have not been the President's mistakes. Some of the men he selected for his cabinet have hampered his work and most gravely threatened the stability of the democratic party. But these men were in truth more the choice of the party itself than of the president.

Mr. Cleveland will lead an undivided national party to the polls. His opponents have not a man large enough to show against him, now that Blaine is out of the field. We shall march onward to a democratic victory that must result in such a reaffirmation of democratic loyalty to principles as the fathers of the republic would approve and the future will indorse.

Lost in London.

Says the New York World concerning Lost in London to be presented at the opera house next Monday evening:

When a play possesses dramatic interest and not only serves to please the eye by means of its attractive dress but as musical features as well, there can be little question of its popularity. Such a piece is "Lost in London" as it is performed at the Grand Opera House. The melodrama is based upon a story which has been utilized time out of mind, but which always enlist the sympathies and hold the attention of theatre-goers. The theme is effectively handled and the climaxes are dramatic. In short, from a purely dramatic standpoint, Newton Beers' "Lost in London" can stand upon its merits, but inasmuch as the resources of the scenic artist and stage machinist have been drawn upon, and the musical element has been introduced, the production at once becomes especially attractive. Job Armroyd, last night became a strong favorite with the patrons of the Grand. The characterization is consistently conceived and well executed throughout, and was received unmistakable evidence that the actors efforts were appreciated.

Incidental to the play, the North Britain Pan Pipe Singers appeared in their national costumes, and rendered a number of north country songs and glees in a manner that secured a number of encores. The piece was mounted in spectacular style. The scenery by Seavey was seen to excellent advantage, and the slow effect and Job's Vision were both fine bits of stage illusion.

William Shakespeare portrayed by himself: A revelation of the poet in the career and character of one of his dramatic heroes, by Robert Waters, author of "Life of Cobbett," etc. All the known incidents of the life of the poet, his traits of character, are shown to correspond in a remarkable way with those of one of his own dramatic heroes. The author of this volume makes it evident that Shakespeare's early roystering career, his subsequent studious life, his gentle disposition, his idiosyncrasies, his fondness for wit and humor, his deep contemplations "behind the veil of wildness," are all reflected and vividly presented in this dramatic character. It is a work of real solid merit and will be hailed by every lover of Shakespeare. It also gives a complete and crushing answer to the Baconians and Copheromans. One volume, 12mo, \$1.25. Worthington Co., New York.

A fire broke out in the picking house of Hay & Todd's woolen factory, in Ypsilanti, Wednesday afternoon, from a hot box on one of the pickers. The fire spread rapidly to the factory, which was saved only after a hard fight by the factory hands and the Ypsilanti fire department. The loss will reach \$2,500, fully insured.

Frank Caffee has shipped seventy-five head of nice young horses to be here between June 28 and July 1. They are an assorted lot and better horses than the mustangs Mr. Caffee sold here last year. Last year was Mr. Caffee's first trip here and he judged that the people of this vicinity appreciated the value of the better grade of mustangs.

A meeting of the fruitgrowers and farmers, who have apple orchards, will be held next Saturday at 4 p. m., in the basement of the court house, to discuss the better distribution of fruit and cheaper transportation. Prof. B. E. Nichols, chairman of the committee on fruit exchange, will report and lay before the meeting the necessity of organized work.

The first part of the programme for commencement concert will be "The Passing Summer," and the second part will consist of miscellaneous selections of a very interesting character. The orchestra will give a very beautiful selection and the Amphion club will sing a gypsy song in costume and action. The glee club will also furnish a liberal part of the programme.

Miss Jennie N. VanDeventer, who for the last sixteen years has been employed in the Courier bookbindery, died last Saturday at the residence of Mrs. John Boylan, in the fourth ward, of typhoid fever, after a long illness. She formerly resided in Dundee and was 36 years, 10 months and 10 day old. The funeral services were held at three o'clock Sunday afternoon.

Mrs. Harriet L. Browne died Wednesday evening at the residence of her son-in-law, Capt. J. McGilvry on Packard street of pneumonia. She was the widow of the late W. T. Browne, who was superintendent of the state insane asylum at Stockton, California. Her husband's father, Dabney Browne was president of Wil-

NATIONAL LEGISLATURE.

A SUMMARY OF THE WEEK'S PROCEEDINGS IN CONGRESS.

Business Booming in Both Branches and Some Solid Work Being Accomplished by the Law-Makers—Record of the Past Six Days Containing All the Important Doings of Congress.

WASHINGTON CITY, June 14.—The concurrent resolution in favor of international arbitration was reported favorably in the senate yesterday. Hale spoke on the fisheries treaty in answer to Morgan, and the matter was postponed until the 25th inst. The District appropriation bill was passed, as was Stewart's resolution regarding bond purchases, Cockrell withdrawing his amendment to omit names of sellers. The bill to adjust accounts of workmen under the eight hour law was filibustered against by the Democrats on a motion to take it up, and the senate adjourned.

A bill for a public building at Fort Dodge, Ia., was reported favorably to the house, as was a bill appropriating \$150,000 to enable A. de Mousset to build an air-ship. In committee of the whole the tariff bill was resumed and several propositions to strike articles off the free list were rejected, but bags of jute for grain were added thereto. The question of tin plates brought up a long discussion, on a motion to strike it off the free list. The motion was pending when the committee rose and the house adjourned.

WASHINGTON CITY, June 15.—The senate disposed of a quantity of business yesterday. An amendment was reported to the sundry civil bill appropriating \$224,500 to survey the Mexican frontier line. The following bills were passed: Agricultural department bill, with an additional appropriation of \$100,000 for sorghum experiments; postoffice appropriation, with a number of amendments; bill appropriating \$275,000 for the reconstruction of the dam at Rock Island, Ill., and the construction of a temporary dam, with an amendment declaring that the government is not obligated to maintain the dam. The following resolutions were also passed: Granting leave of absence to government employes who are veterans of Gettysburg to attend the reunion there July 3; requesting the president to invite negotiations looking to international arbitration. A bill appropriating \$40,000 to enable the departments to participate in the Columbus, O., centennial next autumn was also passed. An executive session was held, and the senate adjourned until Monday.

Bills were introduced in the house to create an assistant secretary of war and to put Gen. Alfred Pleasanton on the retired list. In committee of the whole tin was retained on the free list of the Mills bill and glue, gelatine and isinglass were stricken therefrom as were alum compounds and leucoric. Nitrate of soda was added to the list. During the debate Buchanan had read the resolutions of the Amalgamated association condemning the bill. Seventy-five lines of the bill have been disposed of in the past two weeks' debate, of which forty-five were considered yesterday. A point of no quorum caused the committee to rise, and the house adjourned.

WASHINGTON CITY, June 16.—The house yesterday refused to consider the army appropriation bill, and took up the consideration of the bills on the senate calendar. So averse to transacting any business were the members, however, that after several hours of talk these bills were laid aside, and a resolution of sympathy with Germany on the death of the Emperor Frederick passed, after Smith of Wisconsin had been induced to withdraw an objection he interposed. The house then took recess, and at the evening session passed a number of private pension bills, and then adjourned.

WASHINGTON CITY, June 18.—Bills were reported to the house Saturday as follows: Sundry civil appropriation; for a world's exposition at this city of the three Americas. The army appropriation bill was then taken up. It was amended by appropriating \$300,000 for the Highwood military post near Chicago, and \$30,000 for powder to fire morning and evening guns at military posts, and passed, after which the house adjourned.

WASHINGTON CITY, June 19.—The attendance in the senate yesterday was very slim, owing to the Chicago convention. The bill appropriating for government representation at the Columbus, Ohio, centennial was passed, after reducing the appropriation to \$40,000. A bill was passed authorizing a railway bridge across the Mississippi at Alma, Wis., and a number of other bills of local importance only. The conference report on the Indian appropriation was agreed to. The senate then went into secret session, and the treaty providing for reopening the claims of American citizens against Venezuela was ratified. The senate then adjourned.

The house appropriated \$50,000 for the public building at Wichita, Kan., and then Townsend of Illinois tried to have the bill appropriating \$25,000 for the Gettysburg celebration passed. A vote showing no quorum (the house being in the same fix as the senate), Burrows of Michigan raised the point and the bill failed. Burrows and Browne of Indiana opposed the bill on the general principle that congress should not give money for such purposes, and Townsend withdrew his motion, saying he would leave the responsibility with the Republicans. In committee of the whole the sundry civil bill was taken up and \$20,000 put in for repairs to the Chicago postoffice. It was also amended to provide that no extended use of steam presses shall be made in the engraving and printing bureau. The committee rose without completing the bill, and the conference report on the Indiana appropriation was agreed to. Townsend tried to get a bill through authorizing the loan of tents to the Pittsburg reunion, but failed on a point of no quorum made by Burrows, and the house adjourned.

WASHINGTON CITY, June 20.—The senate put in the day yesterday clearing the calendar, and a number of bills were passed, among them the following: Appropriating \$100,000 for pneumatic gun carriages and \$500,000 for a fire-proof national museum building; authorizing a bridge across the Great River of the North, and a house resolution providing for the loan of tents, etc., for the use of the Society of the Army of the Potomac at the Gettysburg reunion. The senate then adjourned.

The house received two vetoes of private pension bills from the president. Consideration of the sundry civil bill was resumed, and the appropriation of \$500,000 for continuing work on the congressional library building was stricken out and work stopped until plans from five eminent architects for a building to cost not more than \$3,000,000 can be obtained. The appropriation for salaries of registers and receivers of land offices was increased from \$500,000 to \$524,000. The bill was then laid aside, and the house adjourned.

Nearly \$8,000,000 Less Than Estimates. WASHINGTON CITY, June 18.—Randall reported to the house Saturday morning the sundry civil appropriation bill. The total of the bill is \$23,713,794, being \$5,027,897 less than the regular estimates, and \$7,851,378 less than the regular and special estimates. The amount appropriated for the same purpose for the current fiscal year was \$23,606,410.

ASSAULTED BY A LUNATIC.

A New Jersey Woman's Narrow Escape from a Madman.

New York, June 19.—Mrs. Louis Lambkin, wife of a German living in Jacksonville, N. J., in the locality known as Cheesequake, was startled late at night by the sudden appearance in her house of a large man with wild eyes and a heavy sandy mustache. The man sprang toward her, but she avoided him, seized her two children, and fled from the house. Knocking the woman down, the pursuing man began to pluck savagely at her eyes with his finger nails. Mrs. Lambkin resisted as well as she was able, getting one of her assailant's hands in her mouth and biting it. She screamed loudly and attracted the attention of men who came as speedily as possible to her rescue. Before they reached the scene of the struggle, however, the brute had succeeded in gouging out one eye completely and seriously injuring the other. The assailant was bound securely with ropes, and was identified as Charles Walter, a bricklayer. He is undoubtedly insane.

IS EXPLORER STANLEY DEAD?

An Ominous Report from the Congo Free State.

BRUSSELS, June 18.—Letters which have been received here recently from the Congo Free State confirm the fears felt for Henry M. Stanley, and that Mr. Ward, who is returning from Africa, bears bad news of the explorer. The worst is feared, and many look upon Stanley as lost long ago.

SWEEP OF THE FIRE KING.

THE BUSINESS PORTION OF DUBOIS, PA., ENTIRELY DESTROYED.

DUBOIS, Pa., June 19.—A fire broke out at 1 o'clock in the afternoon in the Baker house, on Railroad avenue, in the center of the town, and, owing to the high wind blowing at the time, it could not be controlled until it had destroyed the whole business portion of the town and several hundred residences. The loss is put by insurance agents at \$1,000,000, but this is probably a large estimate, and as most of the insurance is written outside of the town the agents who have placed the most of it can not be seen to obtain any figures.

An area a mile long by an average of almost half a mile wide, extending from the Rochester collieries stores to the Serpe house, and to the extreme end of Long street, on the east side of town, is a complete ruin. Blackened walls and piles of coals are all that are left of one of the most prosperous towns within 100 miles.

Three thousand people are shelterless and destitute and in need of immediate aid, or they must suffer. The flames spread so rapidly that many of them escaped with barely the clothing which they wore. The origin of the fire could not be determined. Various causes are given, but the most plausible is that a kitchen flue was defective. At midnight the fire had exhausted itself, having no more available ground to work on.

The insurance is very light. Among the losses are the following:

- E. F. Voburg, \$ 8,000 City Mills, \$10,000
J. P. Taylor, 7,000 Gorton House, 5,000
W. W. Rainey, 10,000 Hotel Brunswick, 5,000
Nicholson house, 8,000 Belle Bros., 4,000
D. T. Riser, 6,000 John Goodyear, 5,000
Heighiton's store, 2,000 Monthtop & McGee, 15,000
Cleveland, 4,000
Sprinkle & Ziegler, 4,000 J. Toole, 6,000
Gaulin, stationery, 2,000 Grier Bros., 20,000
Hibner, Hollister, George A. Barrett, 3,000
& Co., 25,000 O. H. Brady, 3,000
First National, 3,320 Lefter, clothing, 1,000
Express Pub. Co., 5,000 E. A. Dunning, 6,000
C. Sealen, 10,000 Davis & Skirscal, 6,000
D. L. Corbett, 16,000 P. S. Weber, 8,000
Gaulin, stationery, 2,000 Grier Bros., 20,000
S. J. Mean, 30,000 Daily Courier, 5,000
Central hotel, 5,000 H. S. Knarr, 25,000
Thomas Hartman, 4,000 J. Loeb, 30,000
Mrs. Geo. Schwert, 12,000 J. H. Bieley, 15,000

The Methodist and Evangelical churches lose their buildings, worth about \$4,000 each. It was rumored that one or two people perished, but this could not be verified. The losses of the Dubois Deposit bank will depend upon the condition of the safe.

WHIPPED AND TOLD TO GO.

Mormon Missionaries Will Probably Stay Away from Here.

PITTSBURG, Pa., June 19.—For some time Mormon missionaries have been doing a thriving business in Westmoreland county, this state. They have gathered in about fifty converts, some of whom have already left for Salt Lake City. Some of these people are respectable and well off in a temporal sense. Citizens of a settlement near Greenburg a few weeks ago held a meeting and ordered the missionaries to leave. The order was not obeyed and they went to the house where one of them was stopping, took him out of bed, carried him to the woods, and whipped him unmercifully. They then told him to get, which he is supposed to have done, as he has not been seen since. His name is George Stevens. The other missionaries say they will go in a few days. If they don't the citizens say they will treat them to the same medicine that they gave to Stevens.

In Memory of Stuart.

RICHMOND, Va., June 19.—The monument to the Confederate dead buried in Emmanuel Church cemetery, four miles from this city, has been dedicated with appropriate honors. The dedication ceremonies were participated in by Hanover troops and the Stuart Horse guard of this city, both companies being in Stuart's command during the war. Seventy-six Confederates lie in the cemetery, twenty-eight of whom are unknown. On the monument are the names of those known and numbers for the unknown. Governor Lee was present. The address was delivered by Rev. H. M. Jackson, of this city. After the ceremonies here were concluded, the procession marched to Yellow Tavern to unveil a shaft erected to mark the spot where Gen. J. E. B. Stuart fell. The shaft was unveiled by Governor Lee, who delivered a feeling and eloquent address. On the shaft is the inscription: "Upon this field Maj. Gen. J. E. B. Stuart, commander of the Confederate cavalry, A. N. V., received his mortal wound, May 11, 1862."

Adventure of Two Boys.

NORFOLK, June 18.—The schooner Florida, from Taunton to New York, put into this place Friday evening to land two boys whom it had picked up in a skiff several miles outside in the sound. The boys proved to be James S. Robinson, aged 12, and Howard E. Barnes, aged 10, who while playing in a skiff at Rocky Point on Thursday last, were carried out of the harbor by a strong tide. The little fellows spent all of Thursday night in the open boat, and when they were picked up at 4 p. m. Friday they were nearly exhausted by hunger and fright.

Nova Scotia Presbyterians.

HALIFAX, N. S., June 19.—The Presbyterian general assembly which is in session here, has agreed to send a memorial to the British government asking for such a change in the marriage and other laws in India as will put the Presbyterian missionaries on the same footing in that country as that enjoyed by the churches of England and Scotland.

Seven coke works in the Connellsville region have shut down on account of a strike of the employees. Two thousand men are thrown out of employment.

## The Emperor of Germany Succumbs to His Fatal Malady.

### INTENSE EXCITEMENT IN BERLIN.

Talk of Prospective War Heard on Every Hand—William Now the Reigning Sovereign of the German Empire—Description of the Castle in Which the Emperor Died—Sketch of His Life.

BERLIN, June 15.—Emperor Frederick is dead. He expired surrounded by his family and physicians. The direct cause of his death was suffocation, the doctors being unable to keep the passage in his throat open. The emperor died at 10 o'clock Friday forenoon and it was immediately announced at Potsdam and wired to Berlin, where the

public had been expecting the sad tidings since Thursday evening. No material change in the emperor's condition was apparent during the night. He seemed to be apathetic until his death. The members of the royal family remained at the castle until after midnight. The empress watched by the dying emperor's side from 4 o'clock Thursday morning until he died.

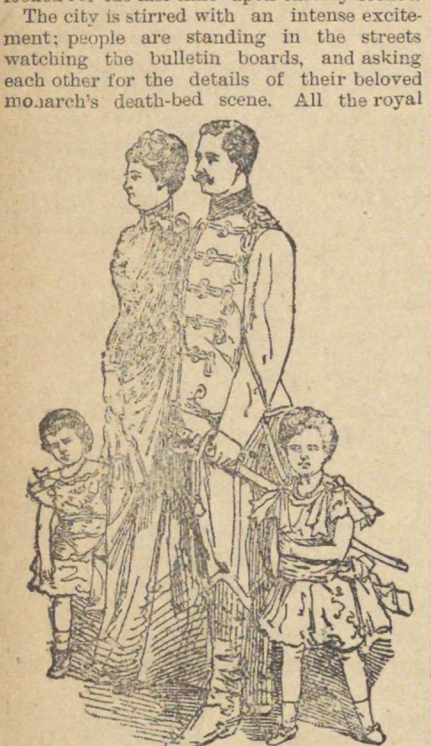

With the death of Emperor Frederick the crown passes to William, who, although not yet crowned, is in fact reigning sovereign of the empire. His coronation will take place at the palace in Berlin three days after the funeral of Emperor Frederick.

Castle Friedrichskron, where Kaiser Frederick ended his fight with his dread disease, was his favorite summer residence. It is perhaps the most beautiful of all the royal Prussian palaces. It was erected in great magnificence by Frederick the Great, and with its exquisite gardens and park was a delightful place in which to live quietly away from the noise of the capital. The room in which the emperor died is on the first floor, and is large and light. It is furnished

and decorated in the finest taste. The walls are covered with crimson damask and gold lace, and white and gold is the predominant character of the painting of the room. On one side a long window reaches to the floor out of a terrace, while opposite a door enters the study, out of the windows of which a view is obtained across the garden and down the principal avenue of Potsdam. The doctors' consulting room is near the bedroom, and the physicians' quarters are all in the same wing that contained the sick chamber, the kaiser, stretched on a plain brass bed, within a few feet of the room in which he was born, looked for the last time upon earthly scenes. The city is stirred with an intense excitement; people are standing in the streets watching the bulletin boards, and asking each other for the details of their beloved monarch's death-bed scene. All the royal

family, numerous ministers of state, and foreign ambassadors were present at the death chamber when the Emperor Frederick died. A ministerial council was held in the morning just before the emperor's death. Prince Bismarck, who presided, was greatly agitated and made the meeting as short as possible.

The air is filled with rumors of the warlike policy that will characterize the reign of the young crown prince, now emperor, with Bismarck in fuller power than he has yet known as chancellor. Talk of prospective war is heard on every hand, as it is known that William and Bismarck are one in their foreign policy, which is aggressive to the last degree.

Frederick William was born Oct. 18, 1831, at Potsdam. As a boy he was weak and sickly but he grew up strong and manly. On Jan. 25, 1858, he was married to Victoria, daughter of Queen Victoria of England. He has taken part in the Danubian, Austrian and French wars; in the first more as a spectator than a participant, but in the Austrian and

French wars he took an active and leading part, distinguishing himself as an officer of great bravery and won in succession all the military honors and decorations to be bestowed. The malady which was the cause of his death was believed to be hereditary, his grandmother, Louise of Prussia, having died of cancerous tumor. Besides Wilhelm, the present emperor, he leaves five children, Princesses Charlotte, Victoria, Sophia and Margherita and Prince Heinrich, who was recently married to Princess Irene of Hesse.

### Sorrow in London.

LONDON, June 15.—In London here, where Emperor Frederick was greatly beloved and very popular, the sorrow at his death is profound. All public buildings display flags at half mast, and the blinds of private dwellings are lowered, and generally throughout the city mourning signs are visible. Numerous messages of condolence have been sent to Empress Victoria from England. The queen instantly telegraphed her daughter a sympathetic message. The prince of Wales left Ascot where he was attending the races immediately upon learning of the emperor's death. He will start for Berlin immediately.

The Rt. Hon. William Henry Smith, government leader in the house of commons, announced to that body the news of the German emperor's death and gave notice that on Monday he would move an address of deep sorrow at the calamity which had overtaken the royal family and people of Germany. The flags of the American and other legations were displayed at half-mast as soon as the news of the death of Emperor Frederick reached here. The news was not received at the German embassy until 2:30 o'clock in the afternoon, when the flag was placed at half-mast and the blinds drawn.

### The Woman Still Pursues Him.

St. Louis, Mo., June 19.—The woman who made Congressman John K. O'Neil perspire when the temperature was over zero has arrived in the city again, and proposes to resume her campaign against him. Her object here is to file a suit for divorce. "I have the means," she said, "and I propose to fight to the bitter end. As I shall soon become a mother I propose to vindicate my honor. The stories he has recently been circulating hastened this step."

### Banker Hill Day.

BOSTON, Mass., June 18.—"Banker Hill Day" was celebrated in about the usual manner. Mercantile business and operations in the exchanges were generally suspended. The interest of the day centered in Charlestown, where the parades, exercises, etc., at the monument took place. There were a number of civic parades, two base ball games between the Boston and Chicago regattas of the Dorchester and Bayview Yacht clubs and a number of minor sports.

### Resignation of a United States Judge.

KANSAS CITY, Mo., June 19.—United States District Judge Kregel has resigned, the papers having been forwarded to Washington on June 9. He has been suffering from a complication of diseases for some time which have completely baffled the skill of the physicians. The judge endured the strain until it prevented his attending to his official duties and then decided to retire. Judge Phillips and O. H. Dean, an attorney of this city, are aspirants for the position.

### IDEAS FOR DRESS.

English crepe is no longer the exclusive trimming for mourning attire, many good dressmakers preferring folds of the gown stuff, mixed with dull jet and lusterless ribbon.

Clustered rows of ribbon, or ribbon-like braid, are seen above the hems of many new gowns, while clustered tucks, with ribbon between, fairly run riot in the bodies of the summer

Mourning bouquets, no matter what their fabric, are more trimmed than was once good form, and the veils very much shorter, and arranged in a way that, to say the least, has a hint of possible consolation.

Nun's veiling, with selvege from one to three inches wide, is the best stuff for a summer mourning street suit, while for evening wear serge meshed Brussels net in many layers, with folds and side plaiting, is the correct wear.

For summer riding London again sanctions the pique jacket buttoned once over a loose shirt, and with a stiff tie matching the hair line of color in the jacket, with which the jockey cap must take the place of the high hat.

The empire coat has limitations. It can only be worn by women with fine figures and what Worth credits to all American women—the art of knowing how to wear clothes. At least so say a very high authority this side the water.
