OUR COUNTY FAIR.

BETTER ENTRIES AND BETTER DISPLAYS THAN USUAL.

The Success for Which the Managers Worked.—A Brief Description of the Sights as Seen Wednesday Noon.

Did you ever know a fair week, without rain; the rain didn't come until the entries were made but it arrived Wednesday afternoon in time to prevent a great many from visiting the grounds. The fortieth annual fair was well up to the standard. In fact it was better than usual. In some particulars it beat the state fair. For instance there were better Shorthorns on the ground than exhibited at Jackson and this is only one of several instances. The officers of the association did hard, faithful work. They deserve the credit for the success of the fair which they are receiving.

These was an absence of games of chance on the ground. A merry-go-round with a number of riders first attracted attention on entering the grounds. There were plenty of stands, and crowds of children watching the process of candy making, just as there usually are on occasions of this kind.

THE VEGETABLES.

There are naturally the first things that one sees, when attempting a hurried round of the grounds. The exhibits are of large and well selected vegetables. The big pumpkins indicate what Washtenaw can grow, as do the enormous beets and rutabagas, the monstrous potatoes and big onions. The onion exhibit shows some extra large specimens. H. C. Markham showed the best exhibit of potatoes ever made at any of the fairs of the society. There were twenty-seven varieties of potatoes, and all with one or two exceptions, of new varieties. He also showed some fine carrots and beets. H. C. Clark, the market gardener, as usual, is on hand with a fine display of vegetables of all kinds, which are up to the high standard he has set. John Allman has the sole cauliflower display, but it is an excellent one. Our visit was made Wednesday morning, and it was hard to find out to whom some of the fine looking vegetables belonged.

THE POMOLOGICAL DISPLAY.

John Almand was in his element superintending the fruit and sweetmeat display. You ought not to miss that canned fruit display, by the way, for it is far above the average one. The fruits were excellently canned and perfectly preserved. The Ann Arbor Preserving Company exhibit twenty-seven varieties of canned fruit and pickles. The large bottle of pickles of various kinds was well worth stopping a minute over. H. C. Markham is the sole exhibitor of honey.

Prof. Emil Baur as usual has a large display of fruit, including eighteen varieties of grapes, twenty-one varieties of pears and sixteen of apples. He exhibits fine specimens of the best varieties. Very fine exhibits of grapes are shown by Evert H. Scott, Jacob Ganzhorn, W. F. Bird, Charles Woodruff and Mrs. L. Gruner. Homer Findlay also exhibits a plate of grapes. Evert H. Scott also has a fine exhibit of large pears, showing twelve varieties. Louis Hall shows eleven varieties of pears and very large ones they are too. S. M. Mills also has a number of varieties of nice looking pears. The peach exhibit is likewise a good one and was made by J. J. Parrshall, L. Gruner, J. Ganzhorn and W. F. Bird. William Mauldin shows seventeen varieties of apples. George Sperry, J. Ganzhorn, J. J. Parrshall and E. Baur also have fine displays. Quinces are shown by Messrs. Scott and Ganzhorn. The fruit department, take it all in all, is a decided success.

FLORAL HALL.

Our merchants, manufacturers, photographers and the ladies made floral hall an enjoyable room. As you enter by the eastern door you come upon the displays of J. T. Jacobs & Co. and Schuh & Muehlig, neighbors here as they are in business. Schuh & Muehlig show a very handsome grate and mantle, many varieties of the Garland stove, extra nice gas fixtures and a number of articles of hardware. J. F. Schuh has a good display of sewing machines, which are busily running. J. T. Jacobs & Co. have their booth roofed with American flags denoting their patriotism and nobby styles of gents clothing are shown, fancy suspenders, boxes of gloves, gay silk handkerchiefs, trunks and many gents furnishings are neatly arranged. Wines & Worden have a handsome booth, displaying carpets, curtains and oil cloths. The arrangement shows excellent taste.

Entering the south door, one comes upon the Fine Art and Needle-work department. The ladies have done well this year and a great deal of taste has been shown in arranging the exhibits. The entries are large and it is the verdict of competent judges that never was there a handsomer display. Mrs. Samuel Hendrickson has a dainty hand-

Painted china tea set on exhibition. The painting is carefully and accurately done and the designing shows artistic taste. Miss Mattie Harriman has a large number of paintings. In one of them, Judge Harriman's old straw hat, with holes in the rim and one side partially torn away, is shown filled to overflowing with apples. Miss Hendrickson also exhibits several paintings, and Miss Cowan has two, one a beautiful lily and the other a crag which forms a resting place for birds. Miss Miley has a case filled with dainty ladies' fancy work. As one of the ladies expressed it, of course the work is nicely done, for Miss Miley is a professional. Mrs. J. A. Maynard exhibits two handsome crazy quilts and several embroideries. There are a large number of other entries well worthy of mention. Across from this display may be seen a photographic display by Krueger, after seeing which one can well understand why Krueger has so many medals. Some beautiful pastoral scenes are here and also his better known pictures, "Cast up by the Sea," "Hiawatha" and large portraits delineating the subjects to perfection. Mr. Alvin Wilsey has a display of musical instruments, sewing machines, etc., which were not arranged when our reporter made the rounds of the hall. Alphonso Covert has a case of birds, which shows his skill as a taxidermist.

As you enter the west door of the floral hall you find a good display of chemicals and chemical apparatus by Eberbach & Co., for which there exists a wide sale. On the opposite side, Koch & Henne have a parlor and dining room. Much of the parlor furniture is of their own make and all of it is elegant. The sideboard in the dining room is a neat one, and a handsome dressing case is shown. Curtains and draperies are well displayed in arranging the booth. Gibson has a fine display of cabinet photographs, for which he is especially noted, and Lew Clement has a fine display of Haines Bros.' pianos, many smaller musical instruments and sheet music.

Entering the north door, we come upon the exhibit of the Allmendinger Piano and Organ Company. They show their own make of pianos and organs, fine toned instruments, in handsome cases. J. P. Hoffman has a display of musical instruments, pianos, etc., among them being the Herophon, a new and peculiar instrument. A. L. Noble has a well-filled booth. In it are crowded a great variety of boys' clothing, numbers of canes and umbrellas and handsome styles of gents' furnishing goods. The goods are of good quality, like those in Noble's store.

In the center of the hall, Cousins & Hall have a fine floral display, including both plants and cut flowers. Their green house has been drawn on heavily for the fair, but such quantities of flowers do they have that it has not begun to tax their resources. H. J. Brown has some very pretty cases of druggist fancy articles, which quickly catch the eye.

CARRIAGES AND CARTS.

Ferguson's celebrated road carts are exhibited here, as at nine other fairs this week. They are just as good as they used to be and are now selling in all parts of the union. Mr. Ferguson has built up a first-class business in this city. Wagner & Bro. have a display of fine carriages, dandy buggies and handsome surreys.

THE CATTLE DEPARTMENT.

The cattle stalls are full. The exhibit of shorthorns is said by those who were at the state fair this year, to be much better than those exhibited there. W. E. Boyden has eleven head of shorthorns among them the big bull, which is probably the largest in the state. H. T. Phelps has eight head of shorthorns, full-blooded and beauties. Mr. Richard Nowland also exhibits eight head of fine shorthorns. C. C. Warner has two full-blooded shorthorn calves here and very pretty calves they are too. I. E. Wood shows seven head of shorthorns all full-blooded and grades, including a fine seventeen hundred pound two year old bull. J. S. Sperry shows a well-built yearling bull of excellent promise. P. E. Galpin exhibits two cows and a bull, handsome cattle. A. Wood, of Hickory Grove farm, shows six head of shorthorns. Altogether the shorthorn exhibit is a very fine one.

Mills Bros. are sure to carry off the premiums in Holsteins as they have their fine herd of seventeen head on the grounds, the prize winners at the state fair, and beauties they are. William Bush has a two year old Holstein here. Jerseys are represented by a herd of eight fine ones belonging to N. B. Covert, the youngest of which was just half a day old when the reporter made the rounds Wednesday. A right lively youngster it was.

S. O. Tubbs, of Delhi Mills, has a herd of Galloways here, three of which

are of the full-blood. They are black cattle without horns, hardy looking and prized by many. Some of the grade Galloways are of a red color, but they all retain the peculiarity of having no horns. The youngest Galloway is a big black calf, five days old.

SWINE.

The cards were not all up, Wednesday, P. H. Rouse exhibits a thoroughbred registered Poland China boar, a large fellow, and three pigs. A. Wood has three pens of Poland Chinas, Tobias Sutherland has four pens of Berkshires.

SHEEP.

The Shropshires were well represented and hold their own as mutton sheep. John A. Walsh had twelve head of Shropshires and Hampshire Downs on exhibition. He took first prize on the Hampshire, first on unregistered Shropshire yearlings, first on three-year-olds and second on registered. E. E. LeLand had some fine registered Shropshires, three of which were imported. He took first prize on registered ram, first on registered yearling ewe, first on registered lamb, second on ewe lambs and second on two-year-old ewes. E. A. Garlock, of Howell, had six Shropshires on exhibition, some of which were prize winners. William Bush exhibited eight of his fine flock of Shropshires and captured the first prizes on two-year-old ewe and pair of lambs and the second on three-year-olds. He has twenty-two Shropshire lambs for sale, of seven-eighths blood, which weigh 1923 pounds.

The Merinos were well represented and there were some fine specimens there. A. A. Wood had a very large number there, some of which had been many times decorated with blue and red ribbons. R. W. Mills and C. R. Parsons also had the pick of fine flocks here.

HORSES.

The department of horses is filled to overflowing. Handsome horses, useful horses, gay horses, well-bred horses. Young horses predominated. The number of entries in all classes was large.

Eugene Helber, of Saline, exhibits some very handsome Cleveland bays. Lord Wenlock, No. 258 is a three year old beauty, a bay horse with black points and black mane and tail. He has a grand neck, back and loin. Two mares three and four years old are shown. These are just the breed for carriage horses.

Orcutt's three year old Hambletonian stallion, Don O'Dell is a fine horse, a graceful mover, a handsome animal—in fact what is termed, "pretty as a picture."

C. A. Lemen exhibits Alcoa, a three year old Hambletonian sired by Agile, dam by Golden and Pendennis Sprague, sired by Pendennis, dam by Governor Sprague.

A. Gorslin shows Golden Gate, a seal brown six year old, sixteen hands high, dam, Blandina by Mambrino chief, sire, Annapolis, by Woodford's Mambrino.

C. C. Warner exhibits an immense two year old horse, a son of Raven.

The rainy weather Thursday greatly lessened the attendance but about \$700 was taken in at the gates. Capt. Allen, the speaker for the republicans advertised in small hand bills, failed to appear. A further account of the fair will be given next week.

Trains from Here to East Saginaw.

The Toledo, Ann Arbor and North Michigan railroad has purchased the Toledo, Durand and Saginaw road which has just been completed and runs between Durand and East Saginaw. Through passenger trains will be placed on the road running between East Saginaw and Toledo. This will give Ann Arbor more trains a day going north and south on the road and will open up a new country. It is expected that the running of these trains will commence about October 10th and the running time of all the trains on the "Ann Arbor" road will be changed at that time.

Ten cars of steel rails passed through here, Wednesday, for the extension of the road north of Cadillac. The road now has 1,200 men and four construction trains at work building the road north of Cadillac. The men are laying, on the average, a mile of road a day and at this rate it will not be long before the road strikes the lake. The "Ann Arbor" road is pushing out rapidly and gives Ann Arbor much better facilities as a shipping point and also makes it easier to get to Ann Arbor from any part of the state. The road is opening up a rich and unworked territory and Ann Arbor ought to be a good point for the establishment of manufactories.

To Remain Longer.

Professor Phillips, scientific optician, stopping with Wm. Arnold, jeweler, will remain next week by request. Do not fail to see the professor, if you are troubled with sight or eyes. All examinations free.

Call and have your eyes tested free, by Prof. Phillips, at Wm. Arnold's, until Oct. 7th.

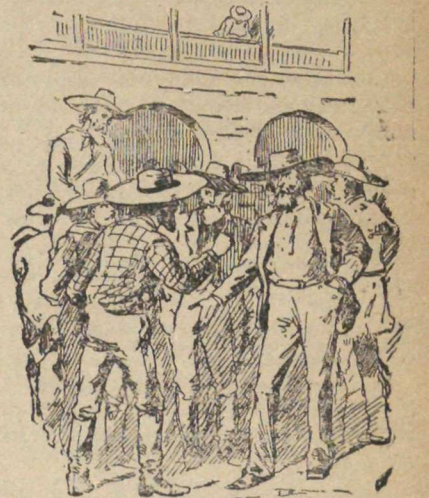

ALARM ON THE BORDER.

A General Massacre of Texas Citizens Feared.

MEXICAN MOB AT RIO GRANDE CITY.

Howling for the Life of Revenue Officer Sebree, Who Killed Editor Garza—Texas Rangers Ordered to the Scene by Governor Ross—An International Complication Probable.

New York, Sept. 25.—The Austin, Tex., correspondent of The Herald telegraphs as follows: The most alarming telegrams continue to pour in on Governor Ross, informing him that there is war, bloody and fierce, now raging on the Texas frontier, and that Rio Grande city is in possession of an armed Mexican mob. All the telegrams thus received have come either from John P. Kel-

STREET SCENE IN RIO GRANDE CITY.

sey, county judge of Starr county, or the sheriff, and each succeeding one is more startling and sensational than the other. They all demand troops immediately, and convey the impression, in plain words, that Anarchy runs riot on the border, and that the lives of American citizens in that section are in imminent peril.

This extraordinary and sensational state of affairs had its origin in the fatal encounter which took place in Rio Grande city last Saturday between Catrino E. Garza, editor of El Comercio Mexicano, and United States Revenue Officer Victor Sebree. In the fight Sebree shot and killed Garza, who was very popular all along the Rio Grande, and as a result the Mexicans rose in revolt and endeavored to lynch Sebree. The Texas officials, however, saved him for the time being from the fury of the mob, and wired Governor Ross as follows:

"Great riot is raging here. Armed men are parading the streets. Send state rangers or call on United States troops at Fort Ringgold."

This dispatch was followed by another from Mr. T. W. Kennedy, member of the legislature, as follows:

"Send all the available troops you can, and at once. Armed Mexicans are in control of the city and the county."

Similar messages of consternation kept coming, the last one reading as follows: "A fight has just taken place between two Mexicans and one American, one Mexican killed. The Mexicans now demand the American to be delivered to them. Riot prevented by placing the American under arrest."

Another telegram reads: "Over 150 armed Mexicans are attempting to lynch Sebree. Send rangers at once. The riot continues."

Rio Grande city is eighty miles from the nearest railroad station, and it is extremely difficult to reach. Governor Ross has, notwithstanding, ordered the entire ranger force of Texas to proceed with all possible haste to the scene of the battle, as the massacre of Texas citizens is feared. The Mexicans outnumber, ten to one, the white citizens in that section, and there is no telling to what excesses they will resort, especially as they have no difficulty in escaping to Mexico if it suits them. Governor Ross has also telegraphed all the sheriffs of all the counties on the border, or contiguous to it, to proceed by forced marches to the troubled district, and take armed posse along with them. He likewise telegraphed to the San Antonio rifles, to the Belknap rifles, and the famous Houston Light guard to hold themselves in readiness to march at a moment's notice.

It is believed there will be a general massacre of Texas citizens unless the United States troops from Fort Ringgold come to their rescue. The event is likely to lead to an international complication and should a massacre occur swift and wholesale retribution is certain to follow. Governor Ross says the situation is extremely grave, and the absence of advices for several hours gives rise to the worst fears.

Will the County Pay It.

Our readers will remember that a woman named Elizabeth Walker Susanah Theobald, fifty-two years of age, living on the Isle of Thanet in England, had set up a claim of being an own cousin of Thomas Harvey, who died in Manchester, April 15, 1873, leaving an estate valued at \$4,556.66 for which no claimant had appeared. The money was paid into the county treasury and the county has had it for some years. Mrs. Theobald filed her claim in the probate court and on last Friday, Judge Harriman rendered a decree, awarding her the money as the rightful claimant. Three demands have been made upon Treasurer Belser in accordance with the order of the court, for the payment of the amount to Mrs. Theobald, but Mr. Belser has refused to pay over the amount on the advice of the prosecuting attorney. Prosecuting Attorney Norris has taken an appeal from the decision of the probate court. The matter will come up probably at the meeting of the board of supervisors week after next.

Professor Phillips, optician, again next week (until Oct. 7) at Wm. Arnold's jewelry store. All tests free.

Mr. Peter B. Blue and Ella M. Craig were married by Justice M. Webb, September 25th, 1888.

The pupils of the Saline union school give a social in the school hall on Friday evening, October 5th.

Another boy to Mr. and Mrs. John Gillen. John is rearing his base ball nine. Only two more are needed.

Saline is getting to be somewhat noted; two fights on Saturday evening. In the future the lockup will be open ready to receive all such characters.

Messrs. Dennis & Glover, Saline's wideawake merchants, exhibited their engine, little Daisy, at the Jackson and Ypsilanti fairs. It is a beauty, just the thing for farmers.

The democratic convention for the second representative district of Washtenaw county, was held at Wallace Hall, on September 22, with a full attendance of delegates. Mr. James L. Loudon, of Augusta, was unanimously nominated for representative. Grover Cleveland and the democratic platform were fully endorsed. Harmony and good feeling prevailed.

Willis

T. Adair and wife spent Sunday in Willis.

The brick school begins on Monday, Oct. 1st, with Walter Ballard as teacher.

Mrs. George Russell, of this place, was robbed of a gold watch on Thursday of last week while attending the fair at Ypsilanti.

Wm. and Walter Ballard have got tired of farming and will sell their personal property consisting of stock, crops and tools on Wednesday, Sept. 26.

"Nasal Voices, Catarrh and False Teeth."

A prominent English woman says the American women all have high, shrill nasal voices and false teeth. Americans don't like the constant twittering they get about this nasal twang, and yet it is a fact caused by our dry stimulating atmosphere, and the universal presence of catarrhal difficulties.

But why should so many of our women have false teeth?

That is more of a poser to the English. It is quite impossible to account for it except on the theory of deranged stomach action caused by imprudence in eating and by want of regular exercise.

Both conditions are unnatural. Catarrh troubles everywhere prevail and end in cough and consumption, which are promoted by mal-nutrition and induced by deranged stomach action. The condition is a modern one, unknown to our ancestors who prevented the catarrh, cold, cough and consumption by abundant and regular use of what is known as Warner's Log Cabin cough and consumption remedy and Log Cabin sarsaparilla, two old-fashioned standard remedies handed down from our ancestors, and now exclusively put forth under the strongest guarantees of purity and efficacy by the world-famed makers of Warner's safe cure.

These two remedies plentifully used as the fall and winter season advance, together with an occasional use of Warner's Log Cabin rose cream, to strengthen and protect the nasal membranes, give a positive assurance of freedom, both from catarrh and those dreadful and if neglected, inevitable consequences, pneumonia, lung troubles and consumption, which so generally and fatally prevail among our people.

Comrade Eli Fisher, of Salem, Henry Co., Iowa, served four years in the late war and contracted a disease called consumption by the doctors. He had frequent hemorrhages. After using Warner's Log Cabin cough and consumption remedy, he says, under a date of Jan. 19th, 1888: "I do not bleed at the lungs any more, my cough does not bother me, and I do not have any more smothering spells." Warner's Log Cabin rose cream cured his wife of catarrh and she is "sound and well."

Of course we do not like to have our women called nose talkers and false teeth owners, but these conditions can be readily overcome in the manner indicated.

Their Business Booming.

Probably no one thing has caused such a general revival of trade at Eberbach & Son's drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, cold, asthma, bronchitis, croup and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle guaranteed.

Peculiarities of American Eyes.

The efforts of the war department to secure a field glass for the service of greater power than the one they now use has discovered the fact that the eyes of the average American are closer together than those of men in foreign countries. The double glass, known as the field glass, now used is weaker than that used in the armies of Europe. It is of only from five to six powers—entirely too weak for the purpose. The only glass they can get of sufficient power is a single spy glass, which is defective in that it does not take in a broad enough field. This is a very serious defect in the equipment of the American army, but there seems to be no immediate prospect of its correction, because our eyes are too close together. Some of the colored troops may be able to use a different glass, but the white Yankee soldier cannot overcome the national peculiarity. The best military field glass in use is that with which the German army is supplied. An attempt was made to adopt them by the war department, but it was found that the eyes of the glasses were so far apart that they could not be used by Americans. The department is studying how to overcome this difficulty.—Washington Letter.

A Deep Distinction.

Little Winifred was visiting at her aunt's and the children were very much amused by her funny speeches. "You think you are very smart, don't you?" one of the boys said teasingly. "Yes, I think I am, but I know better," the thoughtful little girl answered.—Youth's Companion.

Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELLA A. GOFF, 61 Terrace Street, Boston.

Fernandina's Deceptions Regarding the Fever.

SHAMEFUL CONCEALMENT CHARGED

The Authorities Only Forced to Tell the Truth When a Government Inspector Was Looked For—North Carolina Refuses to Receive Refugees—Frost in Alabama—Situation at Decatur and Jackson—"Suspicious Case" at Memphis.

JACKSONVILLE, Fla., Sept. 26.—There have been about a dozen deaths in Fernandina during the past two weeks. Stephen A. Sessar, civil engineer, died Sept. 16, of alleged gastric fever. L. B. Aiken, died Sept. 15. T. B. Pryor was said to have died of typhoid fever, and several colored persons, among them S. B. Payne, principal of the colored school. On the 22nd inst. the county board of health denounced reports of yellow fever as untrue, Dr. Palmer not agreeing to the statement, but being out-voted 6 to 1. The mayor and other prominent officials endorsed the denial. It was only Monday, when it was learned that a marine hospital surgeon would inspect the town, that the presence of yellow fever was acknowledged, after being concealed several weeks, but being locally known, and many persons having quietly left the place. This course is gravely censured. It was an outrage on other towns, like Gainesville, which kept up communication with Fernandina on the strength of the official denial that there was no yellow fever there.

The official bulletin for Jacksonville for the twenty-four hours ended at 6 p. m. yesterday is as follows: New cases, 143, of which 85 are colored people; deaths, 4—J. L. Burch, Mrs. Hall (colored), Otto Tripp, Miss Florence Stowe; Total cases to date, 2,134; total deaths, 221.

The type of the fever appears to be growing milder, and the death rate continues low, producing a more hopeful feeling. One death—that of Jonathan Law—is reported from McClenny.

The board of health announces that the city is well supplied with physicians and nurses at present. It is requested that before any are engaged to come here the board of health be communicated with as to its needs. The appearance of sporadic or imported cases of yellow fever at high and healthy points in the interior has added to the alarm in some sections, but is not regarded here as serious.

TELEGRAMS TO WASHINGTON.

Reports of Train Suspensions—The Mississippi Mob Quarantine.

WASHINGTON CITY, Sept. 26.—The post-office department yesterday afternoon received a telegram from a postal official, dated Atlanta, Ga., stating that no trains are running between Memphis and New Orleans except accommodation trains; none between New Orleans and Wilson, La., nor between Greenwood and Jackson, Jackson and Natchez, Moxdan and Shreveport, Moxdan and New Orleans, Cairo and Mobile, Aberdeen and Durant, Selma and Moxdan, Chattanooga and Moxdan, except a short train between Birmingham and Tuscaloosa.

Another telegram says: "No new cases of yellow fever or deaths occurred at Jackson yesterday, but this fact does not seem to abate the excitement in the least. There are no trains running between Selma, and Moxdan and Montgomery and Akron. A fumigation station has been established at Decatur. No station can as yet be placed at Jackson, as the neighboring towns threaten that if mail on anything else, fumigated or not, is taken on at or near Jackson they will tear up the track and burn the bridges. Arrangements have been made to establish a station at Jackson as soon as the excitement subsides. There are slight evidences of reaction. Business men begin to feel the pressure and are commencing to resist the mob element."

SHUT OUT OF NORTH CAROLINA.

That State Closes Its Doors Against Refugees from the Fever.

RALEIGH, N. C., Sept. 26.—Governor Scales has written the following letter to the president of the board of health of Jacksonville, Fla.: I am in deep sympathy with your people, struggling with a terrible scourge, and am anxious to aid you in every way possible, consistent with the safety of our people. Many towns in the mountains of North Carolina invited the citizens of Jacksonville, under proper precautions and restrictions, to take refuge with them. This arrangement has been managed so loosely and with so little regard to the health interests of those of our people among whom your citizens have taken refuge, that our physicians, many of whom before in their humanity, advised such action, now regard any similar colonization of refugees in our midst as dangerous, and earnestly advise against it. This is, therefore, to notify you, and all other persons from infected yellow fever districts in Florida and elsewhere, that in future such colonization will not be allowed in this state, and in every effort will be employed to prevent it.

SANGUINE DECATUR PHYSICIANS.

They Think the Worst Is Over in Spite of an Unfavorable Showing.

NASHVILLE, Tenn., Sept. 26.—A special to The American from Decatur says: The deserted streets, the closed business houses and the general melancholy appearance of everything, show the real condition of things. Two deaths have been reported since Monday night—J. H. Weakley and his son, L. S. Weakley. They were from Brownsville, Tenn., and had been in Decatur but a short time. Two new cases were reported yesterday. Notwithstanding the unfavorable showing the doctors still think the worst is over. The supply of provisions and money is about exhausted, and is coming in very slowly. No trains, either freight or passenger, are allowed to stop, and communication can only be had by telegraph.

The Discouraging "Suspicious Case."

MEMPHIS, Tenn., Sept. 26.—A suspicious case of sickness is reported in the suburbs of this city. It is that of B. H. Binford, traveler for a Cincinnati coffee house. He came from Decatur. It is not certain that it is yellow fever. An official statement of what the disease is will be made as soon as possible.

Sioux City's Corn Palace.

SIoux CITY, Iowa, Sept. 26.—The first day of the corn palace festival was all that could be desired as to weather, and the attendance was greater than was anticipated. All the railroads centering here ran special trains, and these were filled in the morning and crowded in the afternoon, bringing in altogether about 8,000 visitors. The corn palace was thrown open to the public at noon, and within an hour was filled to its utmost capacity. There were no formal ceremonies. The Elgin Military band, consisting of forty-six pieces, arrived Monday morning and gave two concerts in the festival building. The palace presents an even more attractive appearance under illumination at night than during the day.

LUCK ON WALL STREET.

SIGNS WHICH BROKERS BELIEVE INDICATIVE OF BAD FORTUNE.

Wall Street a Hotbed of Superstition. How Hunchbacks Affect the Market. The Wrong Foot Foremost—The Number 13—Lucky Suits of Clothes.

While eating lunch the other day with a prominent broker, I chanced to ask him about the stock market. Before the question was out of my mouth his hand went under the table like a flash and three ominous raps greeted my inquiry. "Spirits!" said I, distrustfully eyeing him.

"Luck," he answered, sipping his coffee. "I rapped for luck, as every sensible man should when the market is referred to in a restaurant."

Outside the circle of Spiritualists hundreds of prominent persons are superstitious. We consider ourselves at the meridian of civilization, but, as Emerson says, we are only at the cock crowing and the morning star. Hundreds of people consult swindlers who call themselves astrologers. A large proportion of the population here believe in signs indicative of good luck or ill luck, or else they believe that certain persons are favored with good luck, while others are naturally unlucky. The Rothschilds will have nothing to do with a man whom they consider unlucky. Commodore Vanderbilt, one of the ablest railroad financiers this country ever produced, believed in luck.

BAD LUCK ON FRIDAY.

Hundreds of intelligent persons have a superstitious reluctance to engage in any important enterprise on Friday. This includes as cool and matter of fact a man as Jay Gould. Under no circumstances will he use an elevator. The late Jesse Hoyt, the millionaire grain merchant, would never engage in any important business undertaking on Friday, and many of the speculators on the big exchanges are similarly superstitious. They consider every Friday a Black Friday. The prejudice against Friday probably dates back to the Middle Ages, or to even a remoter period, as the day on which Christ was executed. It is only one of innumerable old superstitions which still survive.

Many investors and speculators in Wall Street are superstitious about dropping things. If they find themselves constantly dropping articles which they happen to be carrying they take it as a sign that they must sell their bonds and stocks. Many have a superstitious fear of holding stocks over a holiday.

Some firms will not display the ominous 13 if it happens to be the number of their places of business.

"I confess," said the manager of a large banking and brokerage house, "that I have a superstition about the 13th day of the month. It is not generally a lucky day. One unlucky instance I remember, too, about Friday. A big lake steamer that plied between Buffalo and Chicago a number of years ago was launched on Friday, sailed on Friday and sank on Friday."

Some stock brokers think it is very good luck to see a hunchback. If they can touch the deformity it will bring big gains. Such a touch is also supposed to cure headaches. To see a negro the first thing in the morning is a favorable sign.

In the play "Henrietta" a youth who speculates in stocks when asked by his broker whether he wishes to buy or sell answers gravely, "I will consider it." Then he turns his back and tosses a cent to determine his course. This is really founded partly on fact. A person in the habit of speculating in stocks found he was losing steadily. At length he hit upon the idea of tossing a half dollar which he always carried for luck, and if it proved to be "head" he bought the first stock that came out on the tape; if it was "tail" he sold. For a time at least he was far more successful by this method than he had ever been through the exercise of common sense.

THE WRONG FOOT FOREMOST.

Some persons on rising in the morning have a superstitious fear of putting the left foot out of bed first. Others believe in always putting on the left shoe first. If they meet a negro or a cross eyed woman they spit for good luck. Everybody wants to pick up a horseshoe.

On the Cotton Exchange there is one prominent member who consults the "spirits" for points on the market. On a dark day, when the gas is lighted, some of the brokers consider it a sign that the market will advance. Others say it is good luck to meet a Sister of Charity.

"I shouldn't care," said a popular oil operator, "to be long of 13,000 barrels of oil here and short that much in Oil City. I would make it 14,000 at all hazards. Of course it is all nonsense, but I should feel better to change the figures at once. Then I have an unlucky suit of clothes. I may sound laughable, but it is so. I have a fine gray suit at home which I have only worn four or five times in the last three years, and it has already cost me ten times what I gave for it. I borrowed a diamond ring from a friend and thought it might give me luck. It was just the reverse. As sure as I wear that diamond ring the market breaks. Another thing, I never trade on Friday if I have seen that day a cross eyed woman or a red headed man."

One of the best known traders in the oil ring of the Consolidated Exchange will never cross a street diagonally, but always at right angles. Between Wall Street and Exchange place on narrow New Street, on which both Stock Exchanges abut, the brokers walk in the middle of the street about as much as they do on the sidewalks; but the oil operator referred to always keeps carefully to the sidewalks, and if he has occasion to cross at the intersection of another street takes in each corner on the way rather than cut across corner-corner. He has a German coin that he could not be induced to sell. It gives good luck.

Hundreds of brokers on the two Stock Exchanges consider that they have their lucky suits of clothes.

On the Consolidated Exchange, especially in the shouting, gesticulating, pushing and rolling oil group, it is considered a very bad omen to open an umbrella and raise it over the head. Putting up an umbrella in a board room would seem under all circumstances to be unnecessary. It is worse. It brings bad luck. There is a skeptical wag in the crowd, however, who on dull days, when the brokers are skyarking, will raise an umbrella and run into the trading ring and hold it over as many traders as he can. They scamper like a flock of frightened sheep.—New York Cor. Globe-Democrat.

Second Guest—Yes, I have to go, for my health.

Warner's Log Cabin Remedies—old fashioned, simple compounds, used in the days of our hardy forefathers, are "old timers" but "old reliable." They comprise a "Sarsaparilla," "Hops and Buchu Remedy," "Hair Tonic," "Extract," for External and Internal Use, "Plasters," "Rose Cream," for Catarrh, and "Liver Pills." They are put up by H. H. Warner & Co., proprietors of Warner's Safe Remedies, and promise to equal the standard value of those great preparations. All druggists keep them.

There is such a demand for Maine spruce gum that there are fears expressed that the trees are giving out. A correspondent suggests that they may be coaxed to give more if treated, as the gum trees of the east. The natives back the bark with their hatchets, and in due time the tree weeps gum.

M. Paul Leroy Beaulieu gives figures showing the quantity of tobacco consumed in the different countries of Europe. The rate per 100 inhabitants is, according to him, as follows: Spain, 110 pounds; Italy, 128 pounds; Great Britain, 138 pounds; Russia, 182 pounds; Denmark, 234 pounds; Norway, 229 pounds; Austria, 273 pounds.

Owing to the stringent law against selling antiques in Greece many objects are broken when found by the peasants or thrown into the sea. A similar move in Egypt under Said Pasha produced similar results. A new decree makes it unlawful to deal in antiques, and will make the Arabs who find tombs and scattered antiques yet more secretive and lead them to destroy objects rather than allow their existence to be known.

QUEER AND CURIOUS.

It is said that a stockman of Neuces county, Tex., has a cow 5 years old which rejoices in eighteen horns—two on her head, after the usual fashion, and four upon each leg.

In Augusta, Ga., the other day, a tree was cut in the forest at 6 o'clock in the morning, and by night it had been turned into printed papers and the people were reading in them the news of the day.

A letter has reached the Chicago post-office addressed to "A young lady that wants to marry" it is from Tyler, Tex., and the writer's sole condition is that the recipient must be 21 years old and at work for herself—in which case she may consider herself and 320 acres of land at her disposal.

The Illinois State Fair.

OLNEY, Ill., Sept. 25.—The Illinois state fair opened in this city Monday and was largely attended. A good rain fell Saturday, leaving the roads in fine condition and the farmers are turning out well. The display of live stock is excellent, surpassing all previous exhibits. The entries in the coach and draft horse department are very large, and the show of fancy drivers and trotters is a third larger than last year.

Inter-State Industrial Exposition of Chicago.

For the sixteenth consecutive year Chicago opens up its great Inter-State Industrial Exposition, replete with the best products of Science, Industry and Art, on Wednesday, September 5th, and closing Saturday, October 20th.

The immense structure is now laden to its fullest capacity with the finest and most magnificent exhibits ever displayed; from almost every quarter of the civilized world, illustrating as it does every avenue of human industry in its most complete form, it is almost a necessity that they who would keep abreast of our most advanced ideas in both industry, science and art, should not fail to visit this great Exposition.

Every railroad and transportation line unning into the city have made reduced rates and there is every indication that a much larger attendance will follow than any year that has preceded.

Have You Any Idea What It Costs TO MAKE A CHICAGO DAILY NEWS?

You haven't? Well, let us give you just a glimpse into the business, perhaps it will interest you.

To begin with, the work of the paper is divided into Seventeen Different Departments, each under its own responsible Superintendent. Let us take them in order as they stand on the weekly pay-roll:—

1. The Editorial Department.—This includes managing editors, city editors, telegraph editors, exchange editors, editorial writers, special writers, and about thirty reporters. THE DAILY NEWS staff is admittedly without a superior in the West, and numbers 56
 2. The Telegraph Room.—To save time special wires are run into THE DAILY NEWS building, and the paper's own operators take the messages and hand them immediately to the telegraph editor. The number of operators is 3
 3. The Compositor's Room.—When "copy" has passed the hands of the proper revising editor it goes to the type-setter. There are a good many of him in THE DAILY NEWS office—on an average 73
 4. The Linotype Room.—But the compositor doesn't do all the type-setting. The "Linotype" machine "sets type" by casting a line-of-type, on somewhat the same principle as the type-founder casts a single type. Fourteen of these machines are in use in THE DAILY NEWS office, and the number of persons required in this department is 29
 5. The Artists' and Engravers' Department.—But the metropolitan daily now gives its readers not only reading matter, but also illustrations. By the aid of good artists, zinc etchers and photography by electric light THE DAILY NEWS is now printing the best newspaper illustrations in America. This takes the best service of skilled workers to the number of 7
 6. The Stereotype Foundry.—The matter—type and pictures—being now "locked up" in the "forms" the work is next transferred to the foundry. A metropolitan daily no longer prints from its type. In order to print a large edition quickly it is necessary to multiply the printing surfaces, and this is accomplished by casting duplicate stereotyped plates, from which, after they have been fastened to the presses, the printing is done. Of stereotypers THE DAILY NEWS requires 8
 7. The Press Room.—THE DAILY NEWS uses six double perfecting presses, capable of printing 100,000 complete papers per hour. To run these there are required men to the number of 26
 8. The Mailing and Delivery Department.—"The mailers" and the delivery clerks handle over a million papers a week. The force numbers 25
 9. The Engine Room.—To supply the motive power requires three steam boilers of 175-horse-power capacity, and three engines with an aggregate of 270-horse-power. All departments are lighted by the Edison incandescent system, which here comprises three dynamo machines and 500 lamps. The employees of this department number 5
 10. The Circulation Department.—The paper is now a manufactured article, and it is the business of this department to develop the market for it. The average number of workers is 16
 11. The Subscription Room.—All the subscriptions from out-of-town, whether of individual readers or wholesale news agents, pass through this department, and this department employs on the average 17
 12. The Business Office.—The general clerical work of the paper, such as receiving and caring for the advertisements—of which over fifteen hundred are received and handled every day—receiving and paying out cash, the general bookkeeping of the business, requires a counting-room force of 27
 13. The Care of Building requires the constant service of three janitors 3
 14. The Watchman.—To insure perfect protection against risk of fire two watchmen are constantly on duty. 2
 15. The New York Office.—This engages the entire time of a general manager and assistant 1
 16. The Washington Bureau.—In charge of its own special Washington staff correspondent 1
 17. The Milwaukee Bureau.—To facilitate Northwestern news gathering, one man 1
- From which it appears that the number of regular employees is 302
- And the pay roll runs from \$5,500 to \$6,000 per week, aggregating during the year \$300,000.
- Then there is even a larger annual expenditure for white paper, and telegraph and cable tolls sometimes run nearly a thousand dollars a week. Take it all together the expenditures of THE DAILY NEWS for the year 1888 will vary very little from \$900,000.

The foregoing takes no account of the special correspondents at hundreds of places throughout the country; of European correspondents; of fifteen hundred news agents throughout the Northwest who distribute THE DAILY NEWS to its out of town readers; of two hundred city carriers; of forty-two wholesale city dealers with their horses and wagons; of one hundred and fifty branch advertisement offices throughout the city, all connected with the main office by telephone, nor of the about three thousand newsboys who make a living, in whole or in part, selling THE DAILY NEWS in Chicago. This is what it costs the publisher to make a CHICAGO DAILY NEWS. It costs the reader to buy it one cent a day. Measured by the cost of its production, THE DAILY NEWS is worth its price, isn't it? The Chicago Daily News is sold by all newsdealers, or will be mailed, postage paid, for \$3.00 per year, or 25 cents per month. Address VICTOR F. LAWSON, Publisher THE DAILY NEWS, Chicago.

Brace Up. You are feeling depressed, your appetite is poor, you are bothered with headache, you are dizzy, nervous and generally out of sorts and want to brace up. Brace up but not with stimulants, spring medicines or bitters, which have for their basis very cheap, bad whiskey, and which stimulate you for an hour, and then leave you in a worse condition than before. What you want is an alterative that will purify your blood, start healthy action of Liver and Kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters and only 50 cents a bottle at Eberbach and Son's drug store.

It is perfectly proper to carve out your own fortune, but you should not chisel other people in doing it.

Log Cabins were not hot houses and the people who dwelt in them were not hot-house growths. They were a hardy, healthy generation and the remedies used were simple preparations reproduced in Warner's Log Cabin cough and consumption remedy and Warner's "Tippecanoe" the great stomach tonic.

The boy who is well shingled by his parents for going in swimming is likely to shed water for some time.

Look and Live. My lady reader don't pass me by with the unkind remark, "Only an advertisement." I may do you good. I may unfold to you the "pearl of great price." I may be the means of restoring to you health and happiness. I surely will if you are suffering from any form of nervousness or female weakness, and will act upon my suggestion. I bring to your notice, with every confidence in its merits, a remedy justly compounded to meet just the requirements of your case—Dr. Pierce's Favorite Prescription, bidding you look and live! Ladies, everywhere, who have used it, speak volumes in its praise.

Advice to Mothers. Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, always all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Senatorial Convention.

The Democratic Senatorial convention for the purpose of nominating a Senator in the State Legislature for the 4th. Senatorial district, comprising the counties of Washtenaw and Monroe will be held at the village of Milan on Tuesday the 2nd day of October, 1888, at 1 o'clock, P. M.

By order of Senatorial Committee.

The democrats have made a good nomination for representative in the second district. James M. Loudon will make a good member of the legislature.

We are looking for the Pittsfield and Lodi democrats to give a good account of themselves this fall. Those poles should mark the polar road for the republicans.

If you buy a set of crockery which costs you \$12, you pay a tax of \$6.60. Did you ever stop to think of it? If the Mills bill had passed you could have purchased that crockery for \$9.60 and the tax would only have been \$4.20.

The Courier this week affirms that free trade between nations as between states is a beautiful sentiment. No republican protectionist can afford to vote for candidates supported by such a free trade paper. Of course this squib is arrant nonsense, but it is a fair sample of Courier editorials.

HENRY A. ROBINSON, who ran in the Detroit district two years ago, for congress on the republican and labor tickets, has declared for Cleveland and tariff reform and is out with a strong letter supporting his position. He is a recognized labor leader in Detroit, everywhere respected for his honesty. His letter and influence will have a good effect in this state.

Horatio Seymour on being asked what the farmers most needed at the hands of the government, replied "Relief from some of the burdens of taxation." To the inquiry "what was their next greatest need?" he replied "relief from some more of the burdens of taxation." That is just what the farmers want today—relief from some of the burdens of taxation.

The Courier this week finds nothing better to write about than pitching into Mr. Stearns, our nominee for congress and into the Argus. We don't care to reply, but we will say that insinuations regarding a candidate for office, which a paper knows to be untrue, it ought not to publish. It so weakens its editorial columns that its opinions, assertions and arguments come to be regarded as worthless.

Nor very long ago, the Adrian Times and the Ann Arbor Register called attention to the great type trusts which were grinding down the newspaper publishers and called for the abolition of the tariff on type as a sure means of breaking up the trust. The Mills bill reduces the tariff on type from 25 percent to 15 per cent and yet the Times and the Register have not a word of praise for the Mills bill, but make the absurd claim that it will ruin the industries of the country. It may ruin a few trusts but that would be a great blessing.

The republicans are claiming everything this year, admitting nothing. So desperate are they, that they are even resorting to forgeries to regain power. We refer now to a campaign card with the English flag at the head and supposed extracts from English papers to the effect that the only use England has for an Irishman is to send him to America to vote for free trade. The quotations are forgeries. They were never found in the papers from which they were pretended to be quoted. Their case must be desperate indeed when they seek to win by such means.

SOME of our republican exchanges are talking of Cleveland as an enemy of the soldier. There never was a time in the history of this government since the war when there were more union soldiers employed in her service than now. If that is being an enemy of the soldiers, no doubt our boys in blue wish they had more such enemies. President Cleveland has appointed just seventeen pension agents, sixteen of these were union soldiers and the other one is the widow of a union soldier. The only other pension agent now in office is a union soldier appointed by Arthur and kept in office by Cleveland.

THE present tariff is a tariff which discriminates against the poor and in favor of the rich. For instance the duty on common woolen shawls is 86 per cent but on the finest India shawls it is only 40 1/2 per cent. Spool thread pays a duty of 51 per cent but the finest thread lace pays only 30 per cent. Castor oil pays a duty of 180 per cent but otter of roses is admitted free of duty. Horse-shoe nails pay a duty of 116 per cent but gold studs are admitted with only 25 per cent duty. And so you may run through the list. The necessities of life are heavily taxed, the luxuries more lightly. The tariff sadly needs revision. Lower the tax on the necessities of life which the poor man must have!

BLAINE'S continual barking at Cleveland reminds us of the parrot and the owl: "There was a small mealy parrot once that found himself in the same cage with an owl. He looked at the owl and he didn't like him. The more he look at him the less he liked him. And at last he turned on the owl and said: 'You have got no style about you anyhow. Your eyes look like a tapioca pudding with a black bead in the middle. You're no good.' In about a minute the owl hopped down and picked the parrot clean to the skin. As soon as he could collect his thoughts, the parrot leaned his head up against the side of the cage and said: 'Great Heavens! I talk too much.'"—Pontiac Gazette.

THE democrats stand for reduction of taxation both in the nation and state. To show how taxation grows under the republicans we have only to contrast the state taxes in Michigan in 1884, the last year of a democratic governor, Begole, with the taxes of 1887, under Luce and see. The taxes of 1885, the first year of Alger, can also be included in the comparison to indicate how expenses are steadily growing.

Table with 2 columns: Year, Taxes. 1884 (Begole) \$86,123.90; 1885 (Alger) 1,655,361.40; 1887 (Luce) 1,950,085.76

We hear some republican friends caviling that 1884 was the low tax year of Begole's administration and 1887, the high tax year of Luce's administration. Let them gaze on these figures.

Table with 2 columns: Year, Taxes. Taxes Two Years Under Luce \$3,408,551.20; Taxes Two Years Under Begole 2,372,795.19

Increased Taxation \$1,135,756.04. Is not that an enormous increase for four years? How long can the people stand fifty per cent increase in taxation? Do they want another two years of Luce and high state taxation?

If a high tariff raises wages by keeping out the foreign goods, why is it that China, which has been protected for centuries only pays twenty cents a day for skilled labor? As one of our protection friends remarked the other day, "China is so thickly settled, that makes wages lower." Apply that argument to England, then. She is much more thickly settled than this country. Is that not ample reason for wages being lower, according to our protectionist friend? But why, if protection lowers wages, have wages in England increased fifty per cent since she adopted free trade? Will some of our protection friends study over that problem a little. If that is to hard a problem for them to answer, perhaps they can answer this. The average amount of wages paid by the protected manufacturer in producing \$1 worth of goods is less than 20 cents, while the average tariff is 47 cents. The question is how much of that 27 cents goes into the manufacturer's pocket and how much is fried out of him to elect the republican candidate for president?

THE democratic administration is doing more work for less money than previous republican administrations. The clerks in the departments at Washington are required to work. Take for instance the second comptroller office in the treasury department. During the last three years of the republican administration there were employed 75 clerks. During the first three years of democratic administration 71 clerks. But the 71 clerks under democratic administration did more than double the amount of work done by the 75 clerks under republican administration. For instance the republican clerks averaged 25,665 claims and accounts examined yearly, while the democratic clerks averaged 51,231 yearly. The democratic clerks wrote 7,360 letters per year while the republican clerks wrote 1,750 letters yearly. The demo-

cratic clerks examined 2,431,512 vouchers while the republican clerks examined 1,196,971 vouchers. Nor is this merely an isolated instance. The same thing can be shown in other departments. The democratic administration is an economical administration.

THE last democratic governor of Michigan before the war, was Robert McClelland who served his second term in the years 1853 and 1854. These are the last years in which the democrats controlled the state government of Michigan. Since that date Michigan has elected republican governors, excepting in 1882 when Begole was elected, since that date Michigan's legislatures have been republican. The years 1853 and 1854 were, then, the last years in which the democrats controlled the state government and legislation. In the year 1853 the state taxation was only \$10,000. In 1854, it was only \$30,000. Compare this last two years of democratic administration with the last two of republican administration. In 1887, state taxes were \$1,950,085.16. In 1888 they were \$1,458,466.04. In the last two years of republican administration state taxes were \$3,408,551.20. In the last two years of democratic administration the taxes were \$40,000. Of course the state could not be supported on such a small amount as that alone. But we must remember that the state had been managed by democrats for a series of years and had become forehanded. The state population in 1854 was 507,521. In 1884 it was 1,853,658. In other words, our population is not more than four times as large, but our taxes are eighty-five times as heavy.

THE TARIFF TAX—WHO PAYS IT?

In one breath the Republican expounders of protection—the paper Chinese wall designed to shut foreign poachers out of the domestic preserves—tell their hearers that the duty laid on imports does not increase the price of the protected article to the consumer,—in fact that it cheapens the taxed fabric in the market; then, failing to explain to the satisfaction of some curious and incredulous inquisitor how such an absurdity can be, they assert that the foreign manufacturer or producer of the imported goods pays the duty and contributes that much to the support of our government. If this be so, it is easy to determine just how much the employer of free trade pauper labor in England, or protected pauper labor in France, Germany, Italy or elsewhere, is willing to pay for the privilege of selling the products of his factory, field or vineyard in competition with the protected manufacturer and producer—not employee or laborer—of the United States in the markets of the United States. A few illustrations ought to suffice.

I. The duty on prepared opium is \$10 a lb., an average duty on the importations for the fiscal year ending June 30, 1887, of 110 per cent. The importations for the same year were 60,902 lbs.; the invoice valuation on which duty was paid, \$549,040; and the duty paid \$609,020. What must the combined capital and philanthropy of the Turkish or other opium producers, be to induce or enable him to give our government a bonus of \$609,020 to secure the sale of \$549,040 worth of his poppy juice? The stupidity of such a deal would indicate that he had fed on his own opium.

II. The duty imposed on window glass over 16x24 and under 24x30 inches is 2 3/4 cents a pound or over 106 per cent. The importations of the last fiscal year were 16,419,970 pounds, the invoice valuation \$307,146, and if our republican friends are right in the statement as to who pays the duty, the foreign manufacturer paid to Uncle Sam's custom house collectors \$389,974 for the privilege of filling American windows with \$367,146 worth of glass. The duty on window glass larger than 24x30 inches is 10 1/2 per cent., and the foreign manufacturer contributed in the same year \$506,242 for the pleasure (if not profit) of selling to our importers \$466,603 worth of glass. On plate glass above 24x60 inches in size the duty is 50 cents a square foot, or 152.94 percent. Anxious to give the universal Yankee nation unobstructed light and a good bargain, the enterprising and generous foreign manufacturer of plate glass donated to the already plethoric treasury of our paternal government \$853,368 for the privilege of unloading in a mission of pure charity—the protection of their brother glass manufacturers in Indiana—\$57,968 worth of plate glass. And taking the whole glass schedule, the whole-souled foreign manufacturers voluntarily paid duties aggregating \$4,510,312 on the \$7,301,340 worth of glass sold to the American importer. Isn't that shedding one's light abroad almost without money and without price.

III. The duty on spirits distilled from grain is \$2 a gallon, or 396.43 per cent. The importations for the fiscal year ending June 30th, 1887, were 645,873 gallons, invoiced at

\$325,846, and the duty collected, \$1,291,747. The same year \$450,156 duty was paid on \$118,715 worth of spirits distilled from other materials, or 379.19 per cent. If this duty was paid by the foreign distillers one would naturally think that both their capital and spirits would soon be depressed, and that the American consumer would have to rely on home production for stimulus and motive power. The same year the cigar makers and tobacco growers of Cuba, Spain and elsewhere generously deposited in the treasury vaults \$3,563,298 in order to work off \$3,301,177 worth of cigars and \$5,333,523, worth of tobacco in order to induce American manufacturers to use \$7,493,662 worth of unmanufactured leaf. Verily, was such liberality ever heard of before. It exceeds even that of the G. O. P., which proposes to take off the internal revenue tax from home-grown tobacco, and home-made spirits in aid of agriculture, and to insure the families of the consumers of tobacco and alcoholic beverages, better living.

Not to multiply illustrations, it is safe to say that the statement that the foreign manufacturer and not the consumer pays the duty is the baldest falsehood that can be uttered. By the inevitable laws of trade, all articles of commerce, whether grown or manufactured, go to the consumer with their cost of production increased by the commission or profit of the importer, jobber, broker, and retail dealer, plus taxes, freights, insurance and any other charges before the consumer comes into possession. And if protection protects, the home manufacturer or producer increases the sale prices of his products of whatever name to the limit of the import duty. E. B. P.

The prospects are that the attendance upon the University will be as large this year as last year, when it was the highest in the history of the University.

F. J. Schleede is painting and repapering his store on State street recently occupied by George Moore. It will be occupied by Voorheis & Dietas, merchant tailors.

A new walk has been laid in front of Mrs. Cheever's store on Main street, which will be occupied by the Two Sams. The walk is made of Portland cement.

Mary Shuter and Free Strawhaker paid \$14.05 costs and agreed to leave the city, Monday. They were disreputable women, charged with being disorderly.

Ferguson has just received another order from the California house which handles his roadcarts, making \$17,000 worth of roadcarts he has sold this one firm this year.

A hickory pole raising will be held in Mooreville to-morrow and speeches will be made afternoon and evening by Hon. J. Willard Babbitt, Capt. C. H. Manly and M. J. Lehman Esq.

The democrats of Pittsfield will have a meeting next Thursday, October 4th, in Pittsfield town hall to be addressed by Senator Gorman and Louis Boyle. It should be a well attended meeting.

Now is the time to get married. Handsome new marriage certificates have just been received by the county clerk from the secretary of state. They are worth the dollar the license costs.

Henry Minear was put off a Michigan Central train at Dexter Tuesday night, and in attempting to get on again he fell into the cattle guard, injuring his left arm in such a manner that it had to be amputated.

H. Randall returns this week from his eastern trip. He has secured the services of a New York city milliner to take charge of his millinery parlors. The date of opening will be announced in the ARGUS of next week.

Capt. Manly accompanied Congressman Stearns—we might say well commence to say Congressman Stearns and get in practice—to Camden, Hillsdale county, Tuesday, where he delivered one of his old time speeches.

R. W. Harrison, of 30 East Huron, is greatly interested in the single tax movement as advocated by Henry George and would like to have the addresses of those who believe in the single tax, in this city and vicinity.

Agent Paisley of the T. A. A. and N. M. rail road will sell tickets to St. Louis, via the Toledo and the Wabash roads for \$15.70 for the round trip. The date of sale will be from Sept. 29th, to October 6th, and the tickets will be good to return to October 8th.

The Washtenaw Farmer's Mutual Insurance Company pay Martin Breining, of Augusta, \$616.16 for a barn and contents destroyed by fire. John Brogan, of Pittsfield, \$110 for a horse killed by lightning and Henry Preston, of Pittsfield, for three horses, \$266.66.

Rev. Mr. Bradshaw, of Galesburg, Ill., who was last week called to the Congregational church in this city, has accepted, and will remove here with his family and take possession of his charge about the first of November. He will occupy Dr. Wilson's residence on Division street.

W. H. McIntyre, administrator of the estate of Richard Roach, will sell at the late residence, four miles east of Pebbles corners, in the township of Salem on Thursday, October 4th, two horses, cow, heifer, steers, forty sheep, lambs, agricultural implements, wheat, corn, hay and oats.

Miss Ellen Caldwell Frueauff, the only daughter of Maj. J. F. Frueauff, deceased, of Denver, Col., was married in that city, September 27 to Frank Holmes, an assayer. The bride who is a niece of Eugene K. Frueauff Esq., graduated from the Ann Arbor high school about five years ago.

The Peoples Theatre Company have been playing here this week. The bad weather caused light houses the first of the week. The prices were low ones and the company were deserving of full houses. They play to-night and to-morrow evening. They have a first-class repertoire of plays.

A special meeting of the common council Monday night empowered the committee on mixed questions of law and fact to employ counsel to defend the city from the suit commenced by David Henning for damages to his property by the closing of State street and the raising of the grade of Detroit street.

John Weidamon, who was stabbed by Jacob Weidelich with a jack-knife in February last, died last Friday. The wounds then received had undoubtedly much to do with causing his death. The affray, it will be remembered, occurred in Pittsfield. Weidelich was tried in the circuit court and acquitted on the ground of self-defense.

Mrs. Anna Gross, charged by Mrs. Frederika Hanuise with having entered her house last Friday and with clubbing the children, was brought before Justice Frueauff, plead not guilty and had her trial set for next Tuesday. The quarrel grew out of quarrels between the children of the two women, during the course of which sticks and stones are said to have been freely thrown.

Col. Raffensberger, who recently removed to this city, died Wednesday from the effects of a stroke of paralysis with which he had been afflicted for some years. He was a prominent real estate dealer and had had dealings in all parts of the Union. He came here from Toledo. He was fifty-six years of age. The funeral services will be held at three o'clock this afternoon.

Washtenaw county's share of the state tax this year is \$46,278.47. Of this \$2,981.83 goes to the University, \$2,698.25 to the normal school, \$1,983.18 to the mining school in the upper peninsula, \$2,234.92 to the soldiers' home, \$8,664.13 to our state prisons and other reformatory institutions, \$23,917.18 to general purposes, and the balance for military purposes, Gettysburg monument, fish expenses, etc.

The democrats, of the fifth ward, erected a very handsome 125 foot pole last Tuesday evening. In spite of the rain, a good sized crowd gathered. The Governor's Guards, Cleveland and Thurman marching club turned out in

uniform headed by the city band. Louis Boyle made a ringing tariff reform speech, logical and full of close reasoning, showing a familiarity with the subject. The fifth ward will give a good account of herself in November.

Simeon G. Rowley died in Ypsilanti last Thursday night. He was born Nov. 6, 1818, in New York and came to Pittsfield in 1832. He removed to Ypsilanti in 1861. The funeral services were held last Sunday under the auspices of the Odd Fellows of Ypsilanti. He was a member of Ann Arbor encampment No. 7. I. O. O. F. and a number of Odd Fellows of this city attended the funeral. He was the father of Robert M. Rowley of this city.

E. S. Serviss, Geo. Bailey and Harry Cole started on a week's fishing and hunting trip last Monday. They rigged up a good sized boat with a sail put in a small stock of provisions, a folding stove and plenty of condiments for fish and game. They planned to float down the raging Huron river and down the Detroit river. They thought if the wind were right they might make Toledo. They were to fish as they floated and try their skill at hunting in favorable localities. We will report results next week.

The Pontiac Gazette of last week has the following concerning Rev. Mr. Gelston. "Rev. J. M. Gelston, of the first Presbyterian church, of this city, recently received a call to Ann Arbor, which he has under consideration and will probably accept. For nearly fourteen years the gentleman has labored earnestly and faithfully in Pontiac, and while he is perfectly satisfied with his salary, the people and surroundings, he feels like entering a larger field. There are many citizens here who will regret very much to have existing pleasant relations severed, and it is hoped that Mr. Gelston will not accept the Ann Arbor proposal."

Miss Rose Goodall, the leading lady of the People's Theatre Company, was saved from death last Monday night by the heavy wig she wore. Between the third and fourth acts of the play, the work of changing the scenery began before two of the actresses were off the stage. A heavy plank fell upon them, striking one upon the shoulder and Miss Goodall upon the head. She wore a heavily padded wig, and in spite of that was knocked senseless. She was at once conveyed to her room and medical attendance summoned. She showed considerable pluck by appearing on the stage Tuesday evening, although she had been unable to leave her bed until seven that evening.

NATIONAL LEGISLATURE.

THE WEEK'S PROCEEDINGS IN SENATE AND HOUSE. A Summarized Statement of What the National Law-Makers Are Doing—Record of the Bills and Resolutions Introduced in Both Branches of Congress During the Past Week.

WASHINGTON CITY, Sept. 20.—Edmunds reported to the senate yesterday an order of the foreign relations committee directing the presiding officer to withhold the Chinese bill from the house until further directions. He wanted immediate consideration, but Teller objected. A resolution was passed appropriating \$100,000 to be used exclusively for relief of yellow fever sufferers, and not for quarantine. Jones of Arkansas spoke at length on the tariff, declaring it a system of naked robbery, and Stewart replied declaring the demonetization of silver the cause of all the trouble. Bills were passed: Appropriating \$750,000 for a public building at St. Paul; granting Duluth & Winnipeg railway right-of-way through Fond du Lac Indian reservation in Minnesota; forfeiting lands granted Michigan to aid the Ontonagon & Marquette railway; appropriating \$75,000 for a public building at Kalamazoo, Mich. The senate then adjourned.

The house spent the whole day debating the public library clause in the sundry civil bill, and when a vote was taken on the conference report to agree or not to agree, it stood yes, 68; nays, 67—no quorum—and the house at 2:55 adjourned. WASHINGTON CITY, Sept. 21.—A bill was reported to the senate yesterday to amend the act for the relief of the Stockbridge and Munee tribes of Indians in Wisconsin. Edmunds, for the reason that the Chinese exclusion bill had passed out of control of the senate, moved to lay on the table the resolution directing that the bill be withheld; agreed to. Mitchell made a long speech against the Mills tariff bill. The senate then held a short secret session, after which the bill to create an executive department of agriculture was taken up, and it was agreed to vote to-day at 3 p. m. on the proposition to transfer the weather bureau to the proposed new department. The senate then adjourned.

The house refused to agree to the conference report on the sundry civil bill—32 to 47—and a further conference was ordered. A bill was reported suspending the timber culture, pre-emption and desert land laws until action is taken on pending legislation on those subjects. Morrow offered as a question of privilege a resolution directing the enrolled bills committee to immediately transmit the Chinese exclusion bill to the president. Declared no question of privilege by the chair. The house, at 3:15 adjourned.

WASHINGTON CITY, Sept. 22.—Stewart introduced a bill in the senate yesterday providing that bills which have passed both houses shall be immediately transmitted to the president; also a resolution requesting the house to require its officers to so transmit bills. To the latter Edmunds objected. The clause in the house bill providing for an executive department of agriculture which transfers the weather bureau to the new department was rejected, and the bill passed. The conference report on the sundry civil bill was agreed to, and a motion adopted to drop the library clause entirely from the bill in case of further disagreement. The senate then adjourned until Monday.

In the house Kilgore, by objecting, prevented the passage of the senate bill appropriating \$100,000 to aid the yellow fever sufferers. The senate bill forgoing the Marquette & Ontonagon land grant was amended, limiting the forfeiture to lands along the unconstructed part of the road, and extending it to lands granted to the line from Ontonagon to the Wisconsin state line, and then passed. Hopkins of New York objected to unanimous consent to consider the bill providing for the suppression of trusts. The bill to suspend the pre-emption, timber culture and desert land laws was amended by striking out the suspension part and leaving the provisions that railroad claimants shall not secure any better claim to lands, nor the right of the United States to forfeit be in any way diminished during the pendency of the forfeiture legislation. The bill was passed. Several private bills were then passed, and recess taken to 8 p. m., at which time the Mrs. Sheridan pension bill came up, but Cheadle of Indiana objected. It was then proposed to make the bill special order for Dec. 6, but Kilgore of Texas objected. Thirty-two private pension bills were passed, and the house, at 10:30, adjourned till Monday.

WASHINGTON CITY, Sept. 25.—A bill was reported to the senate yesterday allowing any person (not only veterans) who has relinquished a homestead entry to make another one provided he is not a speculator. Plumb spoke in favor of forfeiting certain land granted the Northern Pacific railway. Ten thousand dollars was appropriated for a monument to commemorate the surrender of Burgoyne. The general deficiency bill was taken up and an amendment agreed to inserting each of the items contained in the book of estimates which had been omitted from the bill except those for the Pacific railway companies. Other amendments appropriated \$276,000 for indemnity to persecuted Chinese; provided for two additional associate justices for the Dakota supreme court; appropriated \$25,000 for the annual leaves of absence of employees in the government printing office, and extended the criminal laws over the public land strip. The bill was then passed. Stewart introduced a sweeping measure of Chinese exclusion requiring the abrogation of all treaty obligations permitting the immigration of Chinese laborers. A bill was introduced to appoint a commission of seven physicians of different schools to go south and investigate the yellow fever. Plumb introduced a bill to pay a reward of \$100,000 to the proprietor of the copyrighted remedy that cures 981 out of 1,000 yellow fever patients. The senate then adjourned.

The house passed a bill authorizing the construction of a bridge over the Mississippi at LaCrosse, Wis. Other bills offered were: To establish yellow fever refugee camps at proper points in the south and equip the same; to prevent aliens being employed on public works. A joint resolution extending the existing appropriations for sundry civil expenses to Oct. 15 was adopted. Sayres of Texas made a speech defending the administration from the charge of extravagance, and laying the blame on the senate. Further conference was ordered on the public library clause in the sundry civil bill, the rest of the report being agreed to. Holman asked immediate consideration of a bill to extend the criminal laws over the public land strip, but the friends of the Oklahoma bill notified him that a quorum would be insisted upon. McMillin of Tennessee objected to a proposition to fix a day to consider the Blair educational bill, and the house adjourned.

WASHINGTON CITY, Sept. 26.—Stewart offered a resolution in the senate yesterday calling on the president for such information as he has regarding the Chinese treaty, received since the 7th inst. Edmunds said that was a matter for executive session and the senate thereupon closed the doors and a secret session was held, during which Stewart

withdrew his resolution in favor of a more comprehensive one that Edmunds offered. Upon resuming the open session Morgan continued and concluded a speech on Sherman's resolution for an inquiry into the relations between Great Britain and this country. The house joint resolution, for continuance of last year's appropriation for sundry civil expenses was adopted, being the fifth resolution of the kind this session of congress. The bill granting a pension of \$3,500 per year to Mrs. Sheridan was passed, Berry of Arkansas alone voting no. Then in forty-five minutes the senate passed 114 private pension bills. The bill granting the St. Louis & San Francisco railway right-of-way through Indian territory was passed, as well as a number of other miscellaneous measures. Jones and Platt had a personal controversy over a bill to pay for captured cotton, which was stopped by the presiding officer, and the senate adjourned. The house passed a joint resolution accepting the invitation of Germany to take part in an international geodetic association, and for the appointment of a commission to settle the Mexican boundary line question. A bill regulating the course at the Naval academy and making the limit of ages 16 to 21 years was passed, and the house adjourned.

BASE BALL ATTRACTIONS.

Scores of League Clubs in the Contest for the Pennant. The standing of the league nines, including Tuesday's games, is as follows:

Table with columns: League, Won, Lost, cent. Rows include New York, Chicago, Detroit, Boston, Philadelphia, Pittsburg, Indianapolis, Washington.

CHICAGO, Sept. 20.—For the third time the Quakers showed Anson's nine how to play ball yesterday, giving them a goose egg for their score this time. New York also dropped a game. League scores were: At Chicago—Chicago 0, Philadelphia 3; at Pittsburg—Pittsburg 4, New York 1; at Detroit—Detroit 2, Boston 0; at Indianapolis—(exhibition game) Indianapolis 14, Washington 7.

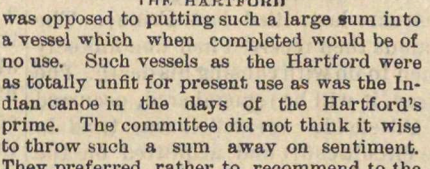

CHICAGO, Sept. 21.—The Local league base ball club did an unusual thing yesterday by beating a tail-end two games in succession. Two new pitchers were in the Chicago box—Gumbert and Dwyer, and the first game resulted in a blank for the visitors. League scores yesterday were: At Chicago—(first game) Washington, 0, Chicago 11; (second game) Washington 1, Chicago 5; at Detroit—New York 5, Detroit 4; at Indianapolis—Philadelphia 2, Indianapolis 1; at Pittsburg—Boston 4, Pittsburg 0.

CHICAGO, Sept. 22.—League scores yesterday: At Chicago—(first game) Chicago 2, Washington 8; (second game) Chicago 10, Washington 0—six innings—darkness; at Pittsburg—Pittsburg 2, Boston 1—ten innings; at Indianapolis—Indianapolis 2, Philadelphia 3; at Detroit—Detroit 3, New York 3—eight innings—darkness. The playing in the different organizations Saturday and yesterday gave the following scores: National League: At Chicago—Chicago 3, Washington 2; at Indianapolis—Indianapolis 5, Philadelphia 6—eleven innings; at Detroit—Detroit 6, New York 3; at Pittsburg—Pittsburg 1, Boston 7.

CHICAGO, Sept. 25.—Following are the scores at base ball made by National league clubs yesterday: At Chicago—Chicago 10, Indianapolis 3; at Pittsburg 5, Detroit 1; at Washington—Washington 1, New York 2; at Boston—Boston 4, Philadelphia 1. CHICAGO, Sept. 26.—The only interesting feature of League base ball playing from this out is the race for third place between Detroit, Boston and Philadelphia. New York has the pennant without any doubt. The League scores yesterday were: At Chicago—Chicago 6, Indianapolis 7; at Pittsburg—(first game) Pittsburg 0, Detroit 4; (second game) Pittsburg 6, Detroit 3; at Boston—Boston 0, Philadelphia 10.

THE FLAGSHIP HARTFORD.

No Action To Be Taken on the Bill to Repair the Vessel. WASHINGTON CITY, Sept. 22.—Senator Hale said Friday that the senate naval committee had decided to take no action on the bill appropriating \$100,000 to repair the old flagship Hartford. The committee, he said,

THE HARTFORD was opposed to putting such a large sum into a vessel which when completed would be of no use. Such vessels as the Hartford were as totally unfit for present use as was the Indian canoe in the days of the Hartford's prime. The committee did not think it wise to throw such a sum away on sentiment. They preferred rather to recommend to the senate that all money be spent in building up a navy that would be of service in time of war in competing with the great navies of the world.

Holding Their Cotton from Market. ATLANTA, Ga., Sept. 22.—The merchants all over the state are greatly agitated over the failure of the farmers to bring in their cotton. This failure is due to the fact that the southern farmers have absolutely declined to use jute bagging at all, and are holding their cotton in their gin-houses waiting to find some way to get ahead of the cotton bagging trust. Up to this time a year ago 7,143 bales of cotton had been received in Atlanta. This year up to the present time only 300 bales have been received here. What is true of Atlanta is true of this section generally.

The Jones County Calf Case Ended. WATERLOO, Iowa, Sept. 24.—The jury in the celebrated Jones county calf case after being out forty-eight hours returned a verdict for the plaintiff for \$1,000. Robert Johnson, the plaintiff, says this will end the case, which has been in the courts for twenty years and has cost thousands of dollars. Five calves, said to have been stolen from various herds and worth about \$1 each, were found among Johnson's cattle. Johnson was charged with theft and was acquitted after several trials, since which time he has continued to sue his accusers for false prosecution.

China Rejects the Treaty. WASHINGTON CITY, Sept. 22.—The president has received official information of the refusal of the Chinese government to ratify the amended treaty. Secretary Bayard, in an interview with a representative of the United Press, when asked about the rejection of the Chinese treaty by that government, said the information was received at the state department in a dispatch from Minister Donby, in which he simply stated that the Chinese government had refused to ratify the amended treaty.

The Old Doctors

Drew blood, modern doctors cleanse it; hence the increased demand for Alteratives. It is now well known that most diseases are due, not to over-abundance, but to impurity, of the Blood; and it is equally well attested that no blood medicine is so efficacious as Ayer's Sarsaparilla.

"One of my children had a large sore break out on the leg. We applied simple remedies, for a while, thinking the sore would shortly heal. But it grew worse. We sought medical advice, and were told that an alterative medicine was necessary. Ayer's Sarsaparilla being

above all others, we used it with marvelous results. The sore healed and health and strength rapidly returned." — J. Armstrong, Weimar, Texas.

"I find Ayer's Sarsaparilla to be an admirable remedy for the cure of blood diseases. I prescribe it, and it does the work every time." — E. L. Pater, M. D., Manhattan, Kansas.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommend it when asked to name the best blood-purifier." — W. T. McLean, Druggist, Augusta, Ohio.

"Ayer's medicines continue to be the standard remedies in spite of all competition." — T. W. Richmond, Bear Lake, Mich.

MICHIGAN STATE NEWS.

The story is told of a Lapeer county nag that has attained the venerable age of 30 years, which has been traded so often that when stranger approaches, the v. n. voluntarily opens its mouth to show that it has the teeth of a young horse, and is therefore valuable trading property.

An express train on the Saginaw, Tuscola & Huron railway struck a burned section near Berne station and left the rails, and was afterward entirely destroyed by fire. Several bad bruises resulted from the accident but no one was killed. The smoke was so dense from the forest fires of the vicinity that one could see but a few feet away.

A lady living at Lexington claims to know all about the Crouch murder case that once caused so much commotion at Jackson, and that she's able to clear away the mystery that has hitherto surrounded that bloody transaction. We give this as a pointer to the detectives who worked so long and unsuccessfully on the case.

'Tis claimed that the forgeries of Miss Jennie Sweatland, committed when that lady was employed as a clerk in the Kalamazoo abstract office, will amount to at least \$10,000. Jennie is now in jail.

H. H. Graves, a Detroit builder and contractor, was robbed the other night of \$2,040 in cash. He intended to use the money next day to pay off his men.

Memphis folks got a wee little bit of a peep into the future on a recent Sunday, and some jumpy foutine tells got \$150.

J. M. Turner is a Lansing man with a good farm and lots of fine stock, and he raked in \$338 worth of premiums at the state fair.

The contract for papering a Davison church was let on a recent Sunday, and the church folks are wondering what's coming next.

A Barry county justice of the peace was applied to the other day for a dose of matrimony, the groom weighing 100 pounds and the bride 300. He proved equal to the occasion, and the little man went away with his big jewel, happy as a king.

The Bellaire Breeze offers to take water-melons on subscription. The publisher is lucky to get even a watermelon from a certain class of subscribers—the don't-pay kind.

Girls, just read this, and then when your fellow pops the question, do—well, do as you're a mind to. A Grand Rapids lady, married too, has been left a large fortune by a Chicago man whom she once refused to marry.

A Lansing man died the other day and was gathered to his fathers as even the Lansing man must do and his eight big brothers acted as pall-bearers at the funeral.

And now they claim to have found rock at Ishpeming that assays more than \$100,000 to the ton. If these golden stories keep on increasing at this rate we'll either have to stop printing Ishpeming items or else buy a new font of figures.

An East Saginaw dry goods establishment extensively advertised its opening day, and 5,000 ladies swarmed through the establishment on that occasion. And the lazy, shiftless, sleepy merchant still drew out the old tuns—advertising—don't—pay.

Nelson Potter, who was Jeddo's postmaster for more than thirty years, has taken a trip across the dark river, at the age of 76.

Smith Wood, a Bronson boy of 70 summers, has been gathered to his fathers. He was an old-time resident, and a justice of the peace for twenty-four years, and highly respected, too.

The low water in the Cass river has had the effect of tanging up over 11,000,000 feet of logs in that stream.

Muskegon has a 60 years-old dancing master who steps off as lively as when, on his younger years, he first taught "sweet sixteen" how to waltz.

While the roller skating craze has petered out nearly everywhere, Battle Creek folks hang on to their rink and patronize it, which proves the Creek to be more than a common sort of town.

F. F. Jacobs, the Chicago Evangelist, will engineer the state Sunday school union at East Saginaw, on Dec. 4.

While handling a revolver Mrs. William Johnson, a Romeo lady, accidentally shot herself and her husband. The latter may not recover.

The Norway circuit court gave a man named Taylor a twelve years prison job for shooting his brother's wife, and a chap named Warren six years for trying to shoot his own wife.

A Kalamazoo church has a boy choir that sings just too sweet on Sunday, and plays base ball the balance of the week. And 'tis claimed that the new scheme "draws like a porous plaster."

J. A. Doehne, a Genesee county farmer, became tired of life, and taking a rope, went to his barn and ended this earthly career by the hanging act.

A Flint firm—dealer in wet goods—have been arrested for running a gambling shop. The charge was preferred by a woman whose husband lost \$2,000 bucking the tiger, which will compel her to go without a new hat for a whole year to come. No failures among the local millinery firms are looked for, however.

A Barry county editor has bought a repeating shotgun, and after he's practiced awhile, will start out in pursuit of delinquent subscribers. If he catches 'em all, he's a clipper.

The courage of the Salvation Army seems to be unbounded. It has tackled Big Rapids sinners.

William Levers, a Pavilion farmer, doesn't old dogs in very high esteem since they muttoned forty of his best sheep.

The crop of hay fever patients at Petoskey now numbers something more than 500. What a sneezing congregation they must be.

Michigan's cranberry crop is unusually good. And that's what the consumer says about the price.

Sibley & Bearington, East Saginaw lumbermen, recently invested \$100,000 of their surplus wealth in 450,000 feet of British Columbia lumber.

The Buchanan Windmill company is sending its wheels to Cuba, South America, Australia and several places nearer home.

Grand Rapids schools employ 213 teachers, and the teachers give employment to the birch and ferule.

Luther's bear crop seems to be unusually abundant, but the Lutherans haven't yet begun the harvest in earnest.

The Hancock Chemical company has just built a storage house in which they propose to pile up 8,000 cases of giant powder. The fellow who accidentally touches off the stuff will have his case attended in short order.

Sarah Campbell, a Jackson county lady, recently celebrated her 102d birthday, and related incidents that occurred when she was a wee bit of a girl, only 2½ years old. A fine example of a retentive memory.

Nottawa revival harvested sixty-five converts.

Walter Fisher, who lives at Flint, is a somnambulist of the pronounced type. He arose the other night and walked out of a second story window, and although the ground caught him sixty feet below, he didn't awake until he called on a neighbor some distance away.

Pretty well along towards 500,000 baskets of peaches were shipped last week from the Sangateck fruit region.

The Flint authorities are going to keep the urchins of that town in school if there is any compulsory school law, albeit Young America is a frisky animal to drive.

A Luther man raised more'n 500 pounds of squashes from a single vine this season. Must be that the squash bugs of that vicinity took a vacation last summer.

What are claimed to be the largest sticks of timber ever sawed in Michigan were cut the other day at Cummer's Cadillac mill. They were six in number, being twelve by ten inches and sixty-six feet in length, the half-dozen sticks measuring 4,75½ feet of timber. One end of the mill had to be taken out entirely in order to do the work.

MATRIMONY BY WHOLESALE.

Mr. Brown's Too Numerous Nuptial Enterprises Weigh Him Down.

DETROIT, Sept. 26.—The recorder's court yesterday afternoon swarmed with women. There were old and young women, blondes and brunettes, Lomely and comely women. They formed a small contingent of the dupes who once thought they were lawful wives of James W. Brown, who is reported to have been married thirty-seven times since 1873. Brown, supported by an officer on either side, came in palatial and decrepit. He looked neither to the front nor to the rear of him, shunning the eyes of the women. A few minutes later another female contingent arrived, followed by several persons in clerical garb and sorrowful mien, who had each performed marriage ceremonies in which Brown had figured as bridegroom. There were by actual count just nineteen women and five preachers present who we re, or had been personally and directly interested in Brown. Then the trial began, the specific charge against Brown being that of unlawfully marrying Mary Benjamin on the 27th day of August, 1887, at Detroit, while he yet had another wife living. The evidence was convincing, and Brown was speedily found guilty. He will be sentenced in a day or two.

WASHINGTON CITY, Sept. 25.—The acting secretary of war Tuesday afternoon ordered United States troops to be sent to Rio Grande city for the protection of life and property there.

FEDERATION ADOPTED.

Proceedings of the Switchmen's Aid Association at St. Louis.

ST. LOUIS, Sept. 25.—In the Switchmen's Aid association meeting Tuesday morning the plan of federation as proposed by the Firemen's brotherhood was adopted, and Messrs. Bailey, Sweeney and Downey were appointed a committee to confer with the locomotive engineers, firemen, brakemen, railway telegraphers and the Knights of Labor to complete the work of federation. The details of the plan are carefully concealed, but from the fact that a conference is to be held with the telegraphers and the Knights of Labor, it is the opinion that the plan embraces both these bodies, as well as the four original railroad men's organizations. Officers for the ensuing year were then elected as follows: Grand master, Frank Sweeney; vice grand master, John Downey; grand organizer, George S. Bailey; grand secretary and treasurer, William A. Simrott; board of directors, J. W. Callahan, S. K. Hardin, J. Scullin, E. M. Hutchinson and J. M. Kelly.

The Partridge as a Drummer.

During the time the hen was laying her eggs and setting, he often gave us the "stormy music of his drum." It was small trill to arrange bushes on a fence near by so that one could creep up unseen and get a full view of the gallant thunderer perched on a knotty old hemlock log mossy, and half buried in the ground and "children of a larger growth" as well as the boys and girls, availed themselves of the opportunity. Of the many who saw him in the act of drumming I do not recall one who had a correct idea beforehand of the way in which the "partridge thunder" is produced. It was supposed to be made by the striking of the bird's wings either against the log or against his body; whereas it was now plainly to be seen that the performer stood straight up, like a junk bottle, and brought his wings in front of him with quick, strong strokes, smiting nothing but the air—not even his "own proud breast," as one distinguished observer has suggested.

Wilson thinks the drumming may be heard nearly half a mile. He might safely have doubted the distance, though, when we consider the low pitch, B flat, second line in bass staff, the fact is surprising. The tones somewhat resemble those of any deep drum, being very deceptive as to distance, often sounding near when far off, and far off when near. I would describe the drumming as a succession of thumps, the first dozen of which may be compared to the first three or four of a comparatively slow, then they increase rapidly in force and frequency, rushing onward into a furious whirl, the whirl subsiding into a sudden, but graduated, diminish. The entire power of the partridge must be thrown into this exercise. His appearance immediately afterward attests this, as well as the volume of sound, for drooping as if he would never move again. In a few minutes, however, perhaps five, he begins to have nervous motions of the head, up, up it goes and his body with it, till he is perfectly erect—legs, body, neck and all. And then for the thunder once more—Simeon Pease Cheney in The Century.

Log Cab'n Success.

What ails the young men? Robert Garrett's father left him a fortune of twenty million. He was from childhood reared in luxury; he received a splendid education with an especial training into the thorough knowledge of railroad management and was expected to succeed his father as a railroad king.

Within three years after the responsibilities which his father's death threw upon him were assumed, he is reported a broken down man, with mind and health permanently shattered.

George Law is another young man left with millions of money, who is reported among the "wrecks." His father, bred a stone mason, was of gigantic size and strength, with commensurate brain power, so he became a great contractor, then a railroad king and left a half dozen millions for his son to dissipate. The young man is a success as a dissipator.

The founders of both of these estates were born in the most humble walks of life, grew strong, mentally and physically, by simple living and honest labor and developed into financial giants. Their sons were reared in the lap of luxury and developed into intellectual pigmies.

The great men of our country have not, as a rule, come from the elegant mansions of the cities, but from the Log Cabins of the rural districts. Simple ways of living, freedom from dissipation and enervating pleasures, simple remedies for disease, effective and which leave no poison in the system, develop brawny, brainy men, who compel the world to recognize their strength and power.

The wholesome, old-fashioned Log Cabin remedies are the safest and surgest for family use. Our grandmothers knew how to prepare the teas and syrups of roots, herbs and balsams which drive disease out of the system by after-methods and leave no after ill effects. The most potent of these old time remedies were, after long and searching investigation secured by H. H. Warner of safe cure fame, and are now put out for the "healing of the nations" in the Warner's Log Cabin remedies.

Regulate the regulator with Warner's Log Cabin sarsaparilla and with pure blood giving health, strength, mental and bodily vigor, you may hope to cope successfully with the most gigantic financial problems of the age, without wrecking health and manhood.

Columns of Society Twaddle.

No one today is secure from gossip. Where comes this license? It comes from the men and women among Mr. McAllister's four hundred, whose itch for notoriety impels them to send every bit of little tattle concerning the interior of their domestic life to the newspapers for publication. It will hardly be pretended by any man or any woman who today complains of the tattling of the newspapers concerning him or her that he or she has not heretofore utilized this very tendency. Run down to Newport next summer. Keep your eye on the correspondents of the great metropolitan journals. See how eagerly they are sought by these four hundred flappers. Look in their mail box morning after morning. Follow their continual intercourse with the people concerning whom they write, and draw your own conclusions as to the source of their information.

Why, I distinctly recall in the office of a once leading Sunday newspaper, seeing upon the desk of the society editor, as he was called, a poor devil to whom they paid \$4 a week for furnishing from four to fourteen columns of society rot, a bushel of letters at a time, and every one of them contained either a ticket to some place of entertainment, or a bit of gossip from Mr. Toodles, or Mr. Traddles, concerning a betrothal, a wedding, a social festivity of some sort or kind, with the names of the guests, and quite likely the cost of the whole affair. Now who was to blame the \$4 a week man or Mr. Traddles, who sent the information, inclosing a \$5 bill to secure its publication?—Joe Howard in New York Graphic.

Can't Get Back Again.

By the way, have you ever noticed that it costs a great deal more to go back to Europe than it cost originally to come from there? Look at the number of people who on very small wages have saved up enough to leave Germany and Ireland and other places and come to America, and can't on very large wages save enough to go back. It is funny when you come to think about it that a man who came to California years ago at a cost of about \$75, tells you today he can't afford to take a trip to the old country because it would cost him too much money. America seems to change people a good deal.—San Francisco Chronicle.

BEDELL'S WICKENESS.

IT Results in the Suicide of Cashier Charles E. Dodge.

NEW YORK, Sept. 25.—Charles E. Dodge, cashier of the law firm of Shipman, Barlow, Laroque & Choate, the losers of something over \$50,000 by the forgeries of their confidential clerk, James E. Bedell, was found dead in his bed at his house, 61 Townsend avenue, Clifton, S. I., Tuesday morning. The gas was turned on, but unlighted, and the room was filled with gas.

At the office of the law firm ex-Judge Shipman said: "Mr. Dodge has been with us for ten years and we had implicit faith in him and believe that he was perfectly honest. He has been very much distressed by the discovery of Bedell's forgeries and was doubtless more or less worked up at the idea that he had been even innocently an aid to him in his nefarious work. We have found Mr. Dodge's books perfectly straight in every item, and not the slightest suspicion has ever been attached to him."

Bidwell Doesn't Complain.

DETROIT, Sept. 25.—Mr. and Mrs. V. V. Bidwell, who figured extensively in the Waldron defalcation at Hillsdale a few weeks ago, registered at the Griswold house Sunday night and left town yesterday. The husband did not complain of his wife's adventure.

Bidwells Having Trouble.

THE Complaisant Husband Arrested—His Wife Outwits the Officers.

QUINCY, Mich., Sept. 26.—Mrs. Bidwell, who left with Waldron, the bank wrecker, returned to her husband Monday, and that evening Bidwell appeared on the street here, telling a remarkable story about his wife having been confined in an insane asylum, whence she had returned cured. Early yesterday morning an officer from Hillsdale came here, and at the instance of Bidwell, charging him with conspiring with his wife to defraud Waldron. He was taken to Hillsdale. It leaked out that a warrant had been issued for the arrest of Mrs. Bidwell, at the instance of Mrs. Waldron, on the charge of improper relations, and as soon as the woman learned this she took a team and started south, crossing the Indiana state line at noon. She was followed by a number of officers, but outwitted them.

Killed by a Boiler Explosion.

EAST SAGINAW, Mich., Sept. 25.—Low water in the boiler in J. H. Freney's sawmill caused an explosion yesterday morning. The boiler was cracked 500 feet. Noah Smith, fireman, was instantly killed, and William Woolley so badly injured he will die. M. Jones and Fred Hartford were slightly injured. Damage, \$5,000.

Bismarck in a Passion.

When you are on good terms with Bismarck there is no better companion. His originality of thought is only surpassed by his originality of expression. Some of his repartees are characteristic. "What do you care?" he asked me one day, "when you are angry? I don't think you get angry as often as I do." "Bah!" I replied, "I never get angry except at the stupidity of people, never at their wickedness." "Don't you find that it is then a great relief to smash something?" he continued. "It's lucky that you are not in my place, for there would soon not be a whole piece of furniture left in the house." "Do you see the chamber of the Emperor William?" he added, pointing to the bath chalet at Gastein, where this conversation took place. "I was in a terrible rage there once. I left the room; in banging the door the key remained in my hand; I went to Lehndorff's and threw it against a washbowl, breaking the bowl into a thousand pieces. 'Are you ill?' said Lehndorff. 'I was,' I replied, 'but now I am perfectly well!'"—Count Beust's Memoir.

Uncle Sam Aroused.

WASHINGTON CITY, Sept. 25.—The acting secretary of war Tuesday afternoon ordered United States troops to be sent to Rio Grande city for the protection of life and property there.

Federation Adopted.

Proceedings of the Switchmen's Aid Association at St. Louis.

ST. LOUIS, Sept. 25.—In the Switchmen's Aid association meeting Tuesday morning the plan of federation as proposed by the Firemen's brotherhood was adopted, and Messrs. Bailey, Sweeney and Downey were appointed a committee to confer with the locomotive engineers, firemen, brakemen, railway telegraphers and the Knights of Labor to complete the work of federation. The details of the plan are carefully concealed, but from the fact that a conference is to be held with the telegraphers and the Knights of Labor, it is the opinion that the plan embraces both these bodies, as well as the four original railroad men's organizations. Officers for the ensuing year were then elected as follows: Grand master, Frank Sweeney; vice grand master, John Downey; grand organizer, George S. Bailey; grand secretary and treasurer, William A. Simrott; board of directors, J. W. Callahan, S. K. Hardin, J. Scullin, E. M. Hutchinson and J. M. Kelly.

The Partridge as a Drummer.

During the time the hen was laying her eggs and setting, he often gave us the "stormy music of his drum." It was small trill to arrange bushes on a fence near by so that one could creep up unseen and get a full view of the gallant thunderer perched on a knotty old hemlock log mossy, and half buried in the ground and "children of a larger growth" as well as the boys and girls, availed themselves of the opportunity. Of the many who saw him in the act of drumming I do not recall one who had a correct idea beforehand of the way in which the "partridge thunder" is produced. It was supposed to be made by the striking of the bird's wings either against the log or against his body; whereas it was now plainly to be seen that the performer stood straight up, like a junk bottle, and brought his wings in front of him with quick, strong strokes, smiting nothing but the air—not even his "own proud breast," as one distinguished observer has suggested.

Wilson thinks the drumming may be heard nearly half a mile. He might safely have doubted the distance, though, when we consider the low pitch, B flat, second line in bass staff, the fact is surprising. The tones somewhat resemble those of any deep drum, being very deceptive as to distance, often sounding near when far off, and far off when near. I would describe the drumming as a succession of thumps, the first dozen of which may be compared to the first three or four of a comparatively slow, then they increase rapidly in force and frequency, rushing onward into a furious whirl, the whirl subsiding into a sudden, but graduated, diminish. The entire power of the partridge must be thrown into this exercise. His appearance immediately afterward attests this, as well as the volume of sound, for drooping as if he would never move again. In a few minutes, however, perhaps five, he begins to have nervous motions of the head, up, up it goes and his body with it, till he is perfectly erect—legs, body, neck and all. And then for the thunder once more—Simeon Pease Cheney in The Century.

Log Cab'n Success.

What ails the young men? Robert Garrett's father left him a fortune of twenty million. He was from childhood reared in luxury; he received a splendid education with an especial training into the thorough knowledge of railroad management and was expected to succeed his father as a railroad king.

Within three years after the responsibilities which his father's death threw upon him were assumed, he is reported a broken down man, with mind and health permanently shattered.

George Law is another young man left with millions of money, who is reported among the "wrecks." His father, bred a stone mason, was of gigantic size and strength, with commensurate brain power, so he became a great contractor, then a railroad king and left a half dozen millions for his son to dissipate. The young man is a success as a dissipator.

Death of Mrs. L. J. Liesimer.

Mrs. Louis J. Liesimer died at her home in this city at eight o'clock last Wednesday evening of typhoid fever, from which she had been seriously ill for a couple of weeks. Mrs. Liesimer had been the local editor of the Washnetaw Post since the establishment of that paper by her husband. She was possessed of many accomplishments, finely educated and was a good writer in both German and English. She graduated from the Ypsilanti normal school and at the age of eighteen was made preceptress of the Hudson schools. Hers had been an active, busy life, and the friends she fastened to her will greatly mourn her loss. To her husband her loss will be irreparable. She had been indeed a helpmate for him. She leaves a little daughter. The funeral services will be held at 10:40 a. m. to-morrow (Saturday) from the house.

She Wants a Divorce.

Mrs. Favoretta Nina Neir, of Ypsilanti, filed a bill last Saturday in the circuit court asking for a divorce from George W. Neir, whom she married September 5, 1883, at Dixboro. The couple have two children aged four and two years. Mrs. Neir asks for the divorce on the ground of desertion. She claims that four months after the marriage, he left her for a year. He then returned and they afterwards lived together at Battle Creek, where in January, 1887, he drew his wages, handed her a dollar and departed for parts unknown, since which time she has supported herself and children. Afterwards, she says, she went to Petoskey at his request. He left word that he had gone to the timber woods and would be out in the spring. Spring came and though he came once or twice to see the children, he failed to support them or her and she lost track of him again. So she came home to her father's in Ypsilanti. She did not know where he was, until two days before she filed her bill, when she heard that he was working for a farmer in Superior. She describes her husband as a healthy, able-bodied man, twenty-four years of age.

Robbed by Their Conductors. NEW YORK, Sept. 25.—Much excitement has been caused in the railway circles here by the discovery that the Wagner Palace Car company has been robbed by their conductors of a sum reported to aggregate some \$50,000. The thiefing, it is said, has been carried on systematically for some months past by the conductors, and there seems to be no immediate possibility of convicting the thieves. Numerous conductors have already been discharged, no explanations being offered. The first clue to the robbery is reported to have been gained through the remarks of a conductor overheard in a Sixth avenue restaurant. Shortly after the chief check clerk, Smith, mysteriously vanished, and nothing has been heard of him since, though it is supposed that he is in Canada.

HARRISON AND THE IRISH.

An Emphatic Statement From an Irishman of Honor. The Catholic News reprints the following article thus commending it to the attention of all loyal Irishmen: When the republic in papers and politicians attempt to face Mr. William Condon down in his statement of Harrison's fatal abuse on the Irish, they will find they are not brushing aside a lying allegation by some irresponsible little campaign prevaricator, but are facing the solemn assertion of an old citizen and influential business man of unblemished reputation, and whose word is as good as his bond. It cannot be set aside on the flimsy ground that some other man fails to recall it.

Mr. Wm. Condon, Sr., was seen by a Bulletin reporter and asked as to the statements as to this morning's Pantagraph in reference to his charge against Harrison for having slandered the Irish people. Mr. Condon has talked the matter over with gentlemen who also heard Harrison's vile speech here at Dudley hall, and has come to the conclusion that it was in the campaign of 1876 and not eight years ago.

Mr. Condon said: "Harrison the republican presidential candidate, spoke here on an afternoon a few days before the election of 1876, and Colfax spoke in the evening of the same day, I think, although I did not hear Colfax. The abusive words from Ben Harrison came out in this way: 'Harrison had praised all the nationalities, except the Irish, and was just quitting this feature of his address, when an old man with an Irish accent asked: 'How about the Irish, and where were Meagher, Sheridan, Shields, Muligan and others?' The crowd hissed the question and shouted, 'Put him out.' While they were taking the old gentleman from the building Harrison said exactly, or almost exactly the following words: 'It is easy to know that man's race; you all know what they are; if it were not for them we would not need half of our penitentiaries which are almost full of them; they have no intelligence; they are only good to shovel dirt and grade railroads, for they receive more than they are worth as they are no acquisition to the American people.'

I have frequently mentioned the language to many people, and long before Harrison was prominently mentioned for the presidency, and therefore I speak of the matter now for mere political effect. I was surprised to find my letter in print, indeed. In my letter I made merely an incidental reference to the matter, not thinking that or any other portion would be copied by the press. I stand by every material statement I have made. Many of my neighbors who did not hear Harrison remember that at the time a great deal was said about his abusive remarks, which were more bitter than anything I have ever heard from anyone. I dislike to bring any foreign nationality into our American politics in a free country where we all are or should be Americans, for American interests only; but Harrison has provoked this matter by his own false and bitter words on the stump. I have no prejudice against nationalities; on the contrary it is a pleasure to remember that all races have contributed to the growth and grandeur of our country, and that in the terrible conflict for the maintenance of the union the Celt and the brave heroes from the German fatherland fought side by side with the American born.

The false alarm of those who say the democratic party favors a tariff system favorable to England and detrimental to America, should blind no Irish-American to the fact that a rascous defamer of his race is running against Cleveland, that fearless honest man whose principles are calculated to give cheap food and clothing to the poor, and to preserve the blessings of this government for Americans yet unborn. Like every individual, every race has virtues as well as faults and therefore, I protest against Harrison's sweeping vilification of the Irish people, who usually come here to obey the laws and help develop the mental and physical capacities of our common country. The Pantagraph talks about producing an affidavit that Harrison did not make the abusive remarks. Well there will be a number of counter affidavits from Irish-Americans. It is hard to prove a negative, but we can prove it was a positive fact."—Bloomington Ill. Bulletin.

A Millionaire in a Minute. Instances are on record where toilers in gold mines and diamond fields, who, by one turn of a spade, a single movement of the hand, have been transformed from penniless laborers to millionaires. But they were not so lucky as is the consumptive who finds a means of restoration to health, who learns that the dread disease from which he suffers not incurable. Dr. Pierce's Golden Medical Discovery will cure consumption (which is lung scrofula,) and nothing else will. For all diseases of the blood, such as blotches, pimples, eruptions, scrofulous sores and swellings, it is unequalled.
