GERMAN-AMERICAN DAY

How it was Celebrated in Manchester on Wednesday.

WHERE ENJOYMENT REIGNED SUPREME.

The Large Procession and Good Speeches. A Regular German Dinner.—The American Flag Numerously Displayed.—A Sham Battle.

German-American day was celebrated in this county on Wednesday last, at Manchester. The celebration was in every way a great success. The business places of Manchester were handsomely decorated and three beautiful arches spanned the streets. About 5,000 people were present and took part in the celebration and everything passed off pleasantly, quietly and happily. The Ann Arbor contingent who were present returned with cheery faces and speak in high terms of the celebration of the day. The railroads brought in many visitors but many more came in wagons. Bands of music from Monroe, Ann Arbor, Ypsilanti, Jackson and Saline enlivened the day with music.

The procession of the day was a very long one. School children with United States flags were in the van followed by the President and speakers of the day, the village and township officers and the following societies: Ann Arbor A. U. V., Turnverein, A. O. U. W., Harugari lodge, Schwaebischen U. V., Landwehr U. V., and United Friends, the Ypsilanti A. U. V., Chelsea Arbeiter Verein, Manchester K. of H., Arbeiter Verein and other societies. A cavalry company from Freedom sixty strong, armed with spears, wagons of the county agricultural society and from the towns of Bridgewater, Sharon, Ann Arbor, Sylvan, Webster, Northfield, Dexter, Scio, Augusta, Pittsfield, Lima, York, Superior, Lyndon and Freedom and the Manchester merchants were also in the procession. The Bridgewater wagon representing Germania was very fine and was drawn by two beautiful horses. The German general, Armenius, who defeated the Roman general, Varus, in the year 9 B. C., was represented in armor, surrounded by four or five attendants armed with heavy war clubs and wearing the ancient head dress.

At the grounds a substantial dinner was served in a tent which seated 250 at a time, the dinner consisting of genuine German dishes, greatly enjoyed by those present.

A. F. Freeman, Esq., of Manchester, delivered a neat address of welcome to the various German societies of the county. He spoke of the fact that they met as patriotic American citizens. The Germans of the county were of the highest class of citizens, prudent, honorable and saving. He dwelt especially upon the fact that it was not German day but German-American day that they celebrated.

Paul G. Suekey. president of the day, was the orator of the occasion. His speech is so highly spoken of, that we aim to give it in full next week. The crowded condition of our columns and the fact that we could not get a proper translation in time, precludes our giving it this week. A speech was also made by a New York travelling agent for a Schwabian paper of that city.

The Ann Arbor people had headquarters which were well patronized. During the afternoon the five bands, numbering 90 musicians, got together and played in unison under the leadership of Mr. Boehme of the Monroe band.

The Landwehr of this city and of Sharon, and the cavalry company from Freedom had a sham battle in the afternoon which furnished considerable amusement. It resulted much more fortunately than the real battles, for no one was killed.

Take it all in all, the day was most appropiately celebrated. There was no disturbance of any kind whatever. The arrangements were well made and carried out, and every one enjoyed the day.

It was determined to hold the celebration next year at Ypsilanti.

Vetoed $1,660 of Appropriations.

Mayor Doty filed three messages yesterday vetoing five appropriations of the council, made Monday evening, amounting to $1,660. The messages are as follows:

CITY OF ANN ARBOR, MAYOR'S OFFICE. August 19, 1891.

To the Honorable, the Common Council:

I herewith return to you, with my disapproval, so much of the record of your proceedings at your last stated meeting as relates to the purchase of a map for the walls of the Council Room at an expense of one hundred and sixty dollars.

The contingent fund, out of which this expense must be borne, is already overdrawn and I respectfully ask your honorable body to forego your personal convenience in the matter until such time as the city's financial condition will warrant so large an outlay for objects which are undoubtedly artistic, but whose utility is not always measured by the cost of their production.

Respectfully,

WM. G. DOTY, Mayor.

CITY OF ANN ARBOR, MAYOR'S OFFICE, August 19, 1891.

To the Honorable, the Common Council:

GENTLEMEN:—I herewith return to you with my disapproval so much of the record of your action at your last stated meeting as relates to the following resolution:

"By Ald. Wines.—Resolved, that the sum of three hundred and fifty dollars be and the same is hereby appropriated from the street fund for coping on South University avenue."

While I am of the opinion from personal inspection that the expenditure of this sum of money would materially add to the attractiveness of that beautiful avenue, I am yet reminded that the condition of the city's funds, as shown by the last report of the Treasurer, is not such as will warrant the expenditure of public money during the remainder of the fiscal year for objects which are more largely ornamental than necessary.

In this connection I take the liberty to quote from the Report of your Committee on Streets, made to your honorable body at your meeting August 3rd inst. and adopted by you the same evening:

"The coping on South University avenue is a matter which may be deferred until next year to advantage."

I am convinced that your Street Committee gave the subject their careful attention and that their expert opinion is worthy of your thoughtful consideration.

A perusal of your late proceedings discloses the fact that your honorable body reconsidered the vote by which the said Committee report had been adopted, but I find no record of the reconsideration of the report itself.

Had such action been had, I am confident that your wise and deliberate judgment would, again, have been adverse to the appropriation.

Respectfully,

WM. G. DOTY, Mayor.

CITY OF ANN ARBOR, MAYOR'S OFFICE, August 19, 1891.

To the Honorable, the Common Council:

GENTLEMEN:—I herewith return to you with my disapproval so much of the record of the proceedings of your honorable body, at your last stated meeting, as relate to your action in regard to culverts on Hill street, Fifth street, and Felch street in said city.

Reference to the report of your Street Committee made to your honorable body August 3, inst., and adopted by you the same evening, discloses the following statement in regard to these culverts:

"In regard to the culverts, we think that inasmuch as the streets are little frequented and a small outlay for planks and timbers would put them (the culverts) in as good a condition as new, it is not advisable at this time to undertake the construction of entirely new culverts."

I fail to find in the record of your proceedings any reversal of your deliberate, legislative judgment of August 3, the vote by which that report was adopted having only been reconsidered and not the report itself. To my mind the record does not show even a substantial compliance with the provisions of Section 137 of the Charter in regard to public improvements and the expenditure of money therefor.

In view of the large overdraft upon the street fund, now amounting to over $5,000.00 (a pleasant fiction for a debt of that amount in this department) and in view of what I can but conceive to be inconsiderate action on your part which your calmer judgment wonld refuse to approve, I respectfully ask a continuance of your efforts for municipal economy in the lines suggested by your committee.

From personal inspection I am convinced that all of the aforesaid culverts could be advantageously repaired at slight expense, except possibly the Felch street culvert, where the necessity is greater; for the repair of this culvert I especially bespeak the considerate attention of the authorities, to the end that the public convenience and safety may there be preserved and assured.

Respectfully,

WM. G. DOTY, Mayor.

Of etherial form and languishing eye,
Who faints in the sunshine and drops in the shade,

With the vigor of youth in her movements of grace,
Oh, that is the maiden for me!

Gentlemen:—My wife and babe, four teen months old, and a boy of five have suffered for years from hereditay scrofula or King's evil, and would frequently break out in sores. Words cannot describe the value of your medicine as a blood purifier. I shall recommend it to all who are troubled from impure blood.

Throws It Off.

There is no disease more disagreeable and uncomfortable than catarrh, It attacks the young and the old, and it is too often allowed to take its course. In such cases it frequently becomes dangerous, The poison extends to the throat and lungs, resulting in complications that are not readily overcome. All forms of catarrh, however, disappear before S. S. S., and that medicine is now recognized as an almost infallible remedy for the disease. It regulates the liver, improves the digestion, and brings about conditions that enable the system to throw off the malady. Catarrh and its attendant aggravations disappear before S. S. S., and so do all other diseases that grew out of a bad liver and impure blood.

The way to speak with power is to speak honestly.

Pronounced Hopeless, Yet Saved

From a letter written by Mrs. Ada E. Hurd, of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and colds. I gave it a trial, took in all, eight bottles; it has cured me, and thank God I am now a well and hearty woman.' Trial bottles free at drugstores of Eberbach & Son, Ann Arbor; and Geo. COUNTY.

The big picnic at Devil's lake will be held August 27.

Even Ypsilanti went into mourning for Mr. Burlingame.

Sparks & Lane are now running the Chelsea roller mills.

Ypsilanti is to have a creamery to be run under the new process.

The old M. E. church in Ypsilanti is being removed to give place to the new structure.

Last week Monday, James Coquillard, an Ypsilanti plasterer, fell dead on a street of that city.

The Chelsea Standard of the 14th inst, contained an excellent article on the August meteors.

Glen V. Mills is getting up a new directory of the county, and is making a thorough canvass.

The amount of carpenter work now being done in Ann Arbor looms up to $150,000.—Saline Observer.

Chelsea is nothing if not musical. She has now two bands, and the tortured citizens are taking to the woods.

Look out for the man who is going about selling seed wheat for Ferry. He is said to be a fraud.—Manchester Enterprise.

It is said that during the storm on Wednesday last, hailstones as large as goose eggs fell on a farm near Litchfield.

Miss Grace Smith, of Saline, has been engaged as preceptress of the Manchester high school for next year.—Tecumseh News.

Manchester is to have a broom factory soon, a company of young business men of the town combining for that worthy object.—Enterprise.

A farmer near Clinton has a turkey gobbler that has hatched out a nice lot of young turkeys and is now raising them. How about the eggs?

What a number of sour-looking people there must be in Ypsilanti. They keep a pickle factory running full capacity all the time to supply them.

Frank Stohl, employed in a box factory in Ypsilanti, while oiling machinery a few days ago, had a finger so badly mashed that it had to be amputated.

Wm. Eames, of Evansville, Ind., will move his extensive windmill and pump works to Ypsilanti. A company has been formed to run the business with a capital stock of $25,000.

There will be an annual farmers' picnic to-morrow in Frank Palmer's grove, in Bridgewater. Speakers from Hillsdale, Manchester, Saline and Ann Arbor will address the gathering.

M. F. King, of Saline, has in his possession an old saber used in the war of 1812 by Blodgett Smith, one of the pioneers of Lodi. The weapon is in as good condition now as when new.

Russell Parker, who occupies the Clements farm, in Lima, raised 360 bushels of wheat this year from twelve acres, an average of thirty bushels per acre. The wheat is stated to be of the "Nigger" variety.

Stewart Ballou, of Cone, had his right arm amputated by Dundee physicians last week. While working at his home last January he received a wound in his finger from which blood poisoning set in.—Tecumseh News.

Who has not thought the last few days of petitioning Mr. Blaine for a treaty of limited reciprocity in the matter of weather, with the king of the polar regions? Such a treaty would be a big boom for a man with presidental aspirations.–Ypsilantian.

While in Detroit encampment week, Jas. Hudler met Calvin Lawrence, of the 32nd Mass. Vol. who also lost a leg in the war, and lay beside him in the hospital. Mr. Hudler had not seen him for 28 years, so he invited him to Chelsea, where he remained a few days and talked over old times.—Chelsea Herald.

Grass Lake may boast of her beautiful women, Dexter of her fine horses, etc., but when it comes to dogs, Chelsea leads. It is estimated that we have more dogs to the square inch than any other place in the state. We have large dogs, small dogs, good dogs, bad dogs, fat dogs, lean dogs, he dogs, she dogs, sun dogs, etc.—Chelsea Herald.

Jonathan Mitchell and a boy fifteen years old, living near Ypsilanti, met with a serious accident. They were taking a load of straw to town, and at the junction of Washington and Huron streets met a traction engine. The horses became frightened and ran away, upsetting the load, under which the man and boy were buried, the horses and wagon disappearing down the street, When they were extricated from the straw, it was found that Mr. Mitchell's leg was broken close to the hip joint, while the boy was injured internally and is in a critical condition.

Burglars, in many of our neighboring towns, are making good the opportunities given them by people leaving their doors open during the night and simply hook the screen. They cut a small hole through the wire, unhook it and then have full possession.—Saline Observer.

Bruce, the young son of S. M. Bixby, at the York mill, narrowly escaped what might have been quite a serious accident a few days since. He was standing near the elevator through which was conveyed wheat to an upper story and accidentally dropping his hand into the opening was caught in the rim of one of the buckets and two fingers badly cut and torn, also a gash across the hand.—Saline Observer.

Mad dog season is on us and not one dog in ten wears a muzzle. The life of one human being is worth all the dogs in the state. It will not avail to assume that there is no such disease as hydrophobia from the bite of a dog unless the animal shall be really afflicted with rabies. Experience proves that the bite of almost any dog dnring the heated term produces hpdrophobia in cases where the victim is of a timid or imaginative temperament.—Chelsea Herald.

I Had Faith.

About six months ago I was advised to consult Mrs. Hall, a great Spiritualist doctor to see if she could cure me of Scrofula from which I had suffered from childhood. She said if I would have faith in the medicine she gave me, that she could cure me, I took her medicine, and in less than three months I was cured. Why, the way the medicine worked was a miracle. I begged of her to tell me what the medicine was made of, but she said she could not do so. Finally she told me the medicine was Sulphur Bitters, and that she never knew it to fail in such cases as mine.—Mrs. Clara Knowlton, 35 Hanover street, Boston, Mass.

The French army maneuvers are to surpass all previous years, both in the numbers engaged and the resemblance to real warfare. The object will be to teach the men, not fighting alone, but how best to bear the fatigue of the march and carry on the duties of the camp. The army is now thoroughly equipped with the best modern weapons, and is believed by the French to be equal in discipline, if not superior, to the German. The French officers are determined to leave no doubt on the subject hereafter.

Edward Molitor says in reference to the dispatch from Mt. Clemens concerning his murdered brother, Albert, that the statements in it are wholly untrue. The statement that he was a copperhead is utterly inconsistent with the fact that he enlisted at the first call for troops with the Thirteenth New York battery; later was with the engineers' corps, and was from there transferred to Gen. Siegel's staff. In 1863 he was appointed by Col. Graham as chief of the lake survey; then served in the same position under Gen. W. F. Reynolds up to 1869, when he went to Rogers City. There he was always a hard working republican, and helped make Presque Isle the banner republican county of the state.

A rival of the famous Schweinfurth has appeared in the probate court in Cleveland, O., in the person of Bloomfield J. Bernard. He is a young man, formerly employed as a typewriter in that city, and was brought home a few days ago from a private asylum in New York. He claims that it has been revealed to him in a dream that he is Christ and nothing can shake his faith in his delusion. He pretends to perform miracles and says that for the last few days he has been visiting the sick. He insists upon being called by his divine title, although he will permit the use of his earthly name. At times he imagines that he is the prodigal son of the new testament and delights in reciting the story of his wanderings and misfortunes. He is married and the father of three children. He was committed to the asylum where it is thought that his case will soon yield to treatment.

THE SONG OF THE "No. 9."

My dress is of fine polished oak,
As rich as the finest fur cloak,
And for handsome design
You just should see mine—
No. 9, No. 9.

I'm beloved by the poor and the rich,
For both I impartially stitch;
In the cabin I shine,
In the mansion I'm fine—
No. 9, No. 9.

I never get surly nor tired,
With zeal I always am fired;
To hard work I incline,
For rest I ne'er pine—
No. 9, No. 9.

I am easily purchased by all,
With instalments that monthly do fall;
And when I am thine,
Then life is benign—
No. 9, No. 9.

To the Paris Exposition I went,
Upon getting the Grand Prize intent;
I left all behind,
The Grand Prize was mine—
No. 9, No. 9.

At the Universal Exposition of 1889, at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France. This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered—the GRAND PRIZE—giving other companies only gold, silver and bronze medals.

The French government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor—the most prized honor of France.

The No. 9, for family use, and the No, 12, for manufacturing uses, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best it will be your own fault.

Ask your sewing machine dealer for the No. 9 Wheeler & Wilson machine. If he doesn't keep them, write to us for descriptive catalogue and terms. Agents wanted in all unoccupied territory. WHEELER & WILSON MFG. CO. Chicago, Ill.

TERMS.—$1.00 PER YEAR IN ADVANCE.

OFFICIAL PAPER OF THE CITY.

Entered at the Post-Office, in Ann Arbor, Mich., as second-class matter.

FRIDAY, AUGUST 21, 1891.

MRS. POLK, the aged widow of James K. Polk, the tenth president of the United States, died at her home in Nashville, Tenn., at 7:30, last Friday morning, in her eighty-eighth year. She was a lady of noble character and a sincere and consistent Christian, and death for her had no terrors.

WE trust that in making up his board of control of the prisons and reformatories, Governor Winans will not select representatives from the various cities in which the prisons and reformatories are located. The design of the new law is to secure reform in prison management and a reduction to the state in the expense of conducting them. Local representatives are prone to look out for local interests which are not always in the line of state economy, and a board so constituted is apt to divide the work, the recommendation of the local members governing. That we believe is exactly contrary to what our level headed governor desires. We want a reform board.

A WORD OF EXPLANATION.

The Times of Wednesday evening editorially assumes to give the views of the editor of this paper regarding sewerage as follows,

Mr. Beakes was questioned some time ago in regard to the matter, and the result was about like this "Are you in favor of sewerage Mr. Beakes?" "Yes, I am in favor of sewerage."

"Are you in favor of emptying the sewerage into the Huron river?" "No, I am not in favor of that."

"You are aware, are you not, that there is no other plan practicable?" "Yes, I think that is true. The dry earth closet system is about the only other plan, and I do not believe that it can be carried out."

The interviewer evidently writes from memory concerning a talk had some weeks ago, for he put some of his own words into our mouth. Consequently we must repudiate the interview. We did say that we were in favor of sewerage but that we did not with our present knowledge favor emptying sewerage into the Huron river. But we did not say that we thought no other plan was practicable. That was a statement Mr. Brown himself made. To the Times theory that no matter what one's belief concerning the possibility of the Huron carrying off sewage, he must if a friend of sewerage favor a plan proposed to the council because it was the only plan they would adopt, we would most emphatically dissent. A true friend of sewerage will not favor such a system of sewerage as will not promote the good health of the city. If the Huron river will not carry off the sewage of the city but will deposit it as a festering source of disease just outside the city limits, the foul odor to be blown back over portions of the city, then to empty crude sewage there will not promote the good health of the city. The object of expending money is not to have a system of sewerage merely. It is to promote good health. If the Huron river carried as much water as it did in the days it earned its name as the raging Huron, then we believe Prof. Greene's system in its entirety would be the most proper to adopt here. For we believe the size of his pipes, which the Times calls too small, has been shown by experience to be the most practicable for the purpose intended. But in the hot dry days of summer, the water in the Huron is low. The two large dams of the Cornwell's and of Sinclair's mill hold back, many times, the little water that does come down, and there are places near the city where the river bed is entirely filled up with grasses, through which tiny rivulets slowly trickle. This is not the kind of a river needed. Perhaps our boyhood recollections of the odors blown back over a town where we prepared for college because the stream of water into which the sewerage emptied was small, may have prejudiced us. But the recollections of it and of the heavy damage suits in the air when we left the town, and the knowledge of supreme court decisions, against cities who fouled streams and the statements made two or three years ago by Mr. G. Frank Allmendinger, the chairman of the present sewerage committee concerning the sewerage of Rochester, were enough to put us on the inquiry.

But we repudiate having part in killing sewerage, as the Times plainly intimates. We were not in the city when the committee finally made up their report and had no communication with any one in the city until our return after the meeting of the council. We did no log rolling and had taken no further interest in the matter than had Mr. Brown or any other citizen. Nor do we believe sewerage is dead. Nor did we ever declare as a certain editor who assumes to denounce us as an enemy of sewerage that if this plan failed to carry, we would oppose any other plan of sewerage no matter how good, that might come up two years from now.

Ann Arbor will have sewerage and that at no distant day. But when it comes, it will come as the best system. She will not load up with a system which requires a large expense to make good. To her credit be it said she does not rush headlong into debt, as does a sister city, who, if it were not for the high taxes engendered by that habit, would with her progressive business men and manufacturing industries be running a neck and neck race with us in population and wealth.

COUNCIL PROCEEDINGS.

[OFFICIAL.]

COUNCIL CHAMBER,
Ann Arbor, August 17, 1891.

Regular meeting. Called to order by Pres. Cooley.

Roll call.

Present—Ald. Mann, Wines, Herz, Martin, Allmendinger, Fillmore, O'Hearn, Ferguson, Taylor, Rehberg, Hall, Kitson and Pres. Cooley—13.

Absent—None.

Minutes of previous meeting read and approved.

PETITIONS AND COMMUNICATIONS.

To the Common Council:

The Board of Public Works would respectfully recommend, that the following sidewalks be ordered built:

On Traver street, on the northeasterly side, from Moore street to Mrs. Fisher's north line, said walk to be 4 feet in width.

On Seventh street, west side, from Madison street to West Jefferson street and would further recommend that the appropriation of $75 be granted for paving part of Alley between Main and Ashley streets from Washington to Huron streets, and would recommend that the grades on Catherine and Clark streets be established as given by Prof. J. B. Davis. We further recommend that the expense of this grading be done by the University, they to have surplus dirt for their use in grading their grounds.

The above was agreed to in a meeting of Street Committee and Board of Public Works, Oct. 27th, 1890.

The estimate cost of a first-class iron bridge over the Huron river, bridge No. 3, is all according to what kind of a bridge is wanted, but a first-class bridge, (a single span 112 feet) will cost from $2,000 to $2.500.

Respectfully submitted.

By order of the Board of Public Works. W. J. MILLER, Clerk.

Referred to Sidewalk and Street Committees.

A petition signed by seventy-three residents and property holders of the City of Ann Arbor, asking for the extension of South Fourth avenue, on the lines of Fourth avenue, as now located, in said city, from Madison street to Hill street.

Received and referred to Street and Ordinance Committees.

REPORT OF SPECIAL COMMITTEE.

The Committee on sewerage made a report and included Prof. C. E. Greene's report on "Ann Arbor's Suggested Sewerage System" which report, on motion of Ald. Allmendinger, was laid upon the table by yeas and nays as follows:

Yeas—Aldermen Herz, Allmendinger, Fillmore, O'Hearn, Ferguson, Taylor, Rehberg.—7

Nays—Aldermen Mann, Wines, Martin, Hall, Kitson and Pres. Cooley.—6

To the Common Council of the City of Ann Arbor:

Your committee to whom was referred the painting of a wall map of the city, designed to hang in the council chamber, respectfully submit that proper specifications—which accompany this report—were drawn up, and that they have received three bids, one of which was not in proper form and hence received no consideration.

Although the price named in the bid acceptable to the committee is in excess of that originally deemed necessary, it has become evident that anything less than a map painted in oil colors and on artists canvas would be a questionable expense.

The two bids given by Messers. B. B. Morgan and George B. Schwab have been carefully examined, and after a thorough investigation of all the required conditions for a map suitable for the use of the council, we respectfully recommend that if the map be ordered, the contract be given to Mr. B. B. Morgan for one hundred and sixty dollars. ($160.)

We also recommended that the item in the specification requiring the lot lines in each block, be omitted.

Mr. Morgan also agrees to insert the necessary lines to describe the sewer system, whenever the council may order it.

Respectfully submitted.

Committee.

Ald. Wines moved that the report of the committee be accepted and adopted, and Mr. Morgan make a map according to sample and specifications, which motion prevailed by a yea and nay vote as follows:

Yeas—Ald. Mann, Wines, Allmendinger, Martin, Fillmore, Furgeson, O'Hearn, Hall, Kitson, Rehberg, Taylor and Cooley.—12.

Nay—Herz.—1.

To the Common Council:

Your special committee to whom was erferred the duty of negotiating for the extension of Summit st., respectfully report that they have had the matter under consideration, that they have interviewed the owners of the lands required for that purpose, The Ann Arbor Gas Co. and Mrs. Mary A. Foley. The lands of the Gas Co. including all of lot No 16 can be obtained for $300, thus enabling the city not only to widen Detroit st. for a distance of 163 feet, and at a point where the same is greatly needed on account of the street railway tracks, as well as extending Summit street.

The least sum Mrs. Foley would take for that part of lot 15 needed, was $600. Your committee are of the opinion that such a sum is greatly in excess of the real worth of the lands required, including all possible damage to come from the opening of such street, the amount of land required being less than 1,000 square feet, and your committee decllined to accept any such offer, being of the opinion that such land is worth less than $100 and that her other lands will be benefited rather than injured by the extension of Summit street as proposed.

Your committee therefore must report that they were not able to make or conclude any agreement with such land owners, for the extension of such street, and, without making any recommendations whatever on the premises, ask to be discharged from further consideration of the subject.

Dated August 3rd, 1891.

Respectfully submitted
A. H. FILLMORE.
E. G. MANN.
WALTER L. TAYLOR.
Committee.

Ald. O' Hearn moved that the report be accepted and the committee discharged from the further considertion of the same, which motion prevailed.

Resolved, That the City Clerk do certify this resolution to the City Attorney, who is hereby directed forthwith to institute proceedings in condemnation, and acquire such right of way and settle such and all such claims for damages.

Ald. Mann moved to lay said resolution on the table, which motion prevailed by a yea and nay vote as follows:

Yeas—Ald. Mann, Wines, Herz, Martin, Taylor, Kitson, Pres. and Cooley.—7.

Nays—Ald. Allmendinger, Fillmore, O'Hearn, Ferguson, Rehberg, and Hall.—6.

Thos. L. Hewitt is building the new plank walk on Spring street, opposite the property once owned by the Bower family. Several other of those ordered on that street are being put down.

We regret to learn that Chauncey G. Orcutt will probably have to cut down and destroy all his peach trees on account of the "yellows." This is hard; but there seems to be no alternative.

The grading is being done for a plank walk on the south side of West Catherine between Ashley and First streets. It has been in a state of nature from time immemorial until now.

The low stretch on Spring street lying east of the old Bower property has been nicely graded up and graveled. Formerly, after heavy rains, it was always more or less flooded and a sea of mud.

The dog and pony show of Prof. Gentry which was announced to exhibit here last Friday and Saturday evenings, did not materialize, on account of the illness of the "professor," and no future date has as yet been fixed upon. Business is lively in the City Mills. To keep up with their orders they are compelled to work night and day, and have been doing so for some time. They are using the new wheat almost exclusively, and say it is of uncommonly good grade. A limited quantity of old wheat is still on hand, but will soon be exhausted.

Allen Pond, the Chicago architect who has just furnished the plans for the Michigan building at the World's Fair, is a son of Justice E. B. Pond, of this city. While living in Ann Arbor, he planned several houses for both this city and Detroit, remodeling the opera house at the latter place. Since moving to Chicago he has met with excellent success.

One of the things which no fellow can find out is why somebody (the T. & A. A. company, for instance) does not complete the sidewalk recently built on the north side of Felch street. It stops abruptly at the boundary of the Waldron property, and between that point and the railroad track a yawning chasm intervenes which renders the walk useless. This should be attended to at once.

It is a pleasure to make note of the neat and clean appearance of the apartments occupied by the fire department. The floors always look as if they had just been mopped over, everything burnishable about the engines, trucks and other paraphernalia shines, and no pains seem spared to keep all the appliances in the best condition for high and prompt efficiency.

The Chubb street fruit farm produced about five hundred bushels of berries this season, which were all shipped to Detroit. The prospects are exceedingly good for large crops of potatoes, wheat, rye, barley and oats in Ireland this year.

The wheat crop of France will be short 82,500,000 bushels, and that quantity will have to be imported, which means a lively demand for American wheat.

The report of an alleged famine in Russia raised the price of wheat two cents in Chicago, last Saturday, and the chances seem fair for a continued advance in price. Why doesn't somebody credit this to the McKinley bill?

Eight years ago, West Superior, Wis., at the extreme limit of navigation on Lake Superior, had only one house. Now it is a city of 25,000 inhabitants, and threatens to overshadow Duluth. At least so says Edgar Weeks in an Evening News interview.

Banning explorers have found a mighty mass of moving ice in a deep canyon on Graybuck mountain, Cal. The formation is about 25 feet thick and 60 feet wide. Immense rocks have been pushed from their beds by the moving of the great ice mass and lie on top of it. The sun does not reach the ice more than one hour a day.

At a summer resort near Denver, Col., last Sunday, a young couple accompanied Prof. King in a balloon ascension, to be married in the clouds. They landed with such a thud, however, that the occupants were picked up unconscious. The supply of fools never runs out.

Talk's cheap, but when it's backed up by a pledge of the *hard cash* of a financially responsible firm, or company, of world-wide reputation for fair and honorable dealing, *it means business!*

Now, there are scores of sarsaparillas and other blood-purifiers, all cracked up to be the best, purest, most peculiar and wonderful, but bear in mind (for your own sake), there's only *one guaranteed* blood-purifier and remedy for torpid liver and all diseases that come from bad blood.

That *one*—standing solitary and alone—sold *on trial*, is

Dr. Pierce's Golden Medical Discovery.

If it don't do good in skin, scalp and scrofulous diseases—and pulmonary consumption is only lung-scrofula—just let its makers know and get your money back.

Talk's cheap, but to back a poor medicine, or a common one, by selling it *on trial*, as "Golden Medical Discovery" is sold, would bankrupt the largest fortune.

Talk's cheap, but only "Discovery" is *guaranteed.*

The Hart manufacturing company's plant in Detroit was entirely consumed by fire last week Thursday. The loss is estimated at $150,000, with insurance of $70,000. It will be rebuilt at once.

At Central Lake, on the line of the C. & N. W. railroad, is a sinkhole, into which over 100 feet of earth filling has disappeared. A lake several rods distant is being filled by the earth slide. A strip of timber that formerly stood between the railroad and the lake, now stands in the lake.

We venture the prediction that could this statistician get a kodak ranged on the average inhabitant in his bed chamber one of these hot nights, the camera would show a vastly less amount than fourteen pounds.—Adrian Times.

The Marshall Chronicle refers to the K. O. T. M. state meeting in these words: "The Maccabee meeting closed at Jackson yesterday. The old ringers were re-elected to office, and this year succeeded in getting their salaries raised. They tried it last year, but in would not work. This time, however, they seemed to have the thing fixed, so it went through all right."

Private Secretary Coffeen has just returned from a visit to Mayor Washburne, at Mackinaw, but he is unable to give any information to the numerous inquiries regarding the mayor's return. Hemp has clearly deserted us for the entire summer, and anybody who wants to see him before snow flies will have to go Mackinaw to do it. Mackinaw is a towu in upper Michigan and may be reached by both steamboats and railroads.—Chicago Herald. Yes, that's where it is, and people who have seen both Chicago and Mackinaw wouldn't blame Mr. Washburne if he stayed where he is forever.—Detroit News.

Ambrose Clouse, a farmer residing near Bronson, cut a crop in his field the other day that had been planted by other hands than his. While cutting wheat with a new binder he ran onto nearly a hundred pieces of telegraph wire that had been cut about as long as the wheat was high and set up in the field. He did not find it out until he had ruined his machine. A short time ago Clouse prosecuted some fellows for stealing his chickens and they said then they would get even with him.—Tecumseh Herald.

A spider is the novel pet of a Laingsburg girl. It is of the family Araneidæ, and measures nearly two inches from tip of forefeet to back. He is kept under a goblet and carefully fed, positively refusing to begin a meal until three or four flies have been thrust into his apartment. These he lets walk around him and even over him, allowing them to think him perfectly harmless, until in some of their trips under his nose he apparently wakes up and grabs them. After one of these meals he loses his appetite for about 48 hours. He seems quite content with ten flies a week.

Fred Seavy, of the Franklin barn, not fully understanding how the machinery of of a mustang worked, undertook the other day to steer one into the barn by the nose. Did the mustang go in? No, the mustang did not go in. Did he whirl around three or four times while Seavy's heels swept through the air, and did he then deposit Seavy on the cold earth a rod away? Yes, verily, the mustang did all that and is ready to be tried again. He then fled out into the street and was captured out in Madison township. Seavy was captured in the barn yard and Dr. Piersol performed the repairs on him. He has no doubt that the world moves, and that things turn round, as frequently as once a day and often oftener.—Adrian Press.

A bottle has been picked up on the beach near Benton Harbor containing a piece of brown paper, on which the following was written: "We, the undersigned, are passengers on the Thomas Hume. The schooner's hold is rapidly filling with water, add we have no hope of escape. We are on the St. Joseph course and have been drifting for hours. We have friends in McCook, Neb., and Elkhart, Ind. Please notify them of our fate. (Signed), Frank M. Maynard, Wilber Grover." The schooner Hume was lost on Lake Michigan about May 10 last, with seven men on board. Not the slightest trace of the vessel has yet been found. It was owned by Hockley & Hume, of Muskegon.—Detroit Journal.

The detection and arrest of the abductors of Detroit's millionaire, Joseph Perrien, is attributed by the papers of that city to the full publicity given to all the known facts in the case by the advice—very unusual—of the Perrien lawyer. This at once made every citizen a detective, caused such a general hubbub all over the city that the abductors became frightened and released their captive, having learned through the papers that no ransom money would be forthcoming and also put the police in possession of the clues which finally, after six months carefully following up, have led, it is said, to fastening the daring crime on the famous "Considine gang," long a terror to the City of the Straits. Suppression of facts by the police in case of crime hinders rather than helps the detection and arrest of the offenders in nine cases out of ten, just as the suppression of court proceedings handicaps justice and enables rascals to successfully work their blackmailing, fraudulent divorce and other iniquitous schemes. —Grand Rapids Leader.

Frank Worcester, who formerly resided in Adrian, is now on an expedition for coal and seal, to Alaska. He left San Francisco, June 5th, and late letters tell of a most enjoyable voyage up Puget sound. On either side of the shore are dense forests of pine, and from the American side the snow-capped Olympian mountains were gleaming through the clouds. The entire country is lovely and rapidly coming to the front. They were eight days from Cape Flattery to Sitka. The climate is delightful, thermometer standing at 70 degrees nearly every day since there, and lovely wild flowers on every side, while on the mainland, only *six miles* away, everything is a mass of snow and ice. There is a warm current of water surrounding the island, which accounts for the difference in temperature. The water here is fine, cold as ice, and pure and clear as crystal. The days are very long, as the sun rises at 2 a. m., and sets at 9 p. m. It does not get dark at all, only a soft, dreamy twilight. The mines are about three-quarters of a mile from the residences. Frank enjoys the freedom of outdoor life very much, and is full of speculations for his new and strange adventure.—Adrian Times.

There will be a mission festival at the Bethlehem Evangelical church, Sunday, and good speakers will be present.

John Miller, jr., has begun suit against the Central for $10,000 damages for the loss of a leg here three years ago.

The mission festival of Zion's Lutheran church, Sunday, was an interesting and successful one, and was well attended.

G. H. Wild was married Wednesday evening to Miss Martha Wurster, of Dexter, by Rev. E. Spoehr, of Detroit. They have the Argus' best wishes.

Enoch Dieterle, of this city, and Miss Lydia Fiegel were married yesterday afternoon at the residence of the bride's parents, Mr. and Mrs. John Fiegel, in Pittsfield.

Mrs. Patrick Boner died Tuesday after a long illness. She was born in Ireland fifty-nine years ago, and came to this city in 1853. Her husband and six children survive her.

Intelligence has reached here of the death, at San Jose, Cal., of George Halsey, a son-in-law of Judge Harriman. He died on the 6th inst., and leaves a wife, son and daughter.

City Clerk Miller, in addition to his work as clerk, which is no sinecure, takes orders for pumps at his office and does the general office work of George Miller & Son, pump manufacturers.

The New York Mail and Express thinks that ex-President Andrew D. White, of Cornell, formerly professor of history in Michigan University will be the next republican nominee for governor of New York.

Christian H. Overbeck and Miss Maria Burkhardt, of this city, were married Tuesday evening by Rev. John Neumann, at the residence of the bride's parents. They received many presents and loads of good wishes.

At the German Celebration in Manchester, on Wednesday, the county fair association were represented by a four-horse wagon filled with young ladies, one from each township, each wearing a badge upon which was the name of her town. They proved a great attraction, and it was a good way to advertise the fair.

Col. John L. Burleigh, formerly of Ann Arbor, well known here, came near playing a part in a pistol duet in New York. He made some joking remarks about the size of Col. von Ulrich, of Germany, and the latter became furious and wanted to fight. Friends interfered and both colonels are whole.—Jackson Patriot.

The annual picnic for the sewing school will be held in the grove opposite the old fair ground Friday afternoon August 28. Friends wishing to donate eatables of any kind, or money, can leave them at Miss Brown's, No. 13 South State street or at Mr. Holmes, on Forest avenue, Thursday afternoon or Friday morning. We must provide for one hundred children and hope our friends will not forget us.

N. J. Kyer is making many improvements at his residence near the City mills on North Main street. His house has received a coat of paint and looks beautiful. Oscar Sorg did the painting and Mr. Kyer is more than pleased with the job. He is also extending his lawns, and as the street in front has just been graded up and improved, his property will be the handsomest in that part of the city. The new addition to his house makes it a very commodious home.

At the German Day celebration at Manchester, on Wednesday, each township was represented by a young lady selected for her pre-eminent beauty, and "labeled," if we may use the expression, with a nicely-painted scarf bearing the name of the town in gilt letters on bluish cloth. The scarfs were painted by Albert Sorg, of this city. The young ladies were drawn by handsomely caparisoned horses attached to a suitable vehicle, and were the cyno-sure of all eyes.

Five colums of matter crowded out of to-days' Argus.

The annual state encampment of the Patriarchs Militant, I. O. O. F., of Ohio, will be held at Toledo, August 18 to 24. Sunday, the 23d. will be the big day, as the grand dress parade will then take place. A special boat will be run to Presque Isle park, in connection with the T. & A. A. railroad. The road will give an excursion from Owosso to Toledo on Sunday, the train leaving Ann Arbor at 9:17 a. m. The fare from here will be one dollar, and will include the boat ride to the island and admission to the opera house.

A cooking school will be opened in Hobart Hall in this city next fall and Mrs. Ewing, of Philadelphia, will begin a course of lectures November 2. She gave a course of lectures in Cleveland in June, which proved so successful that she has been engaged to return for two more courses of lectures in October. Good cooking is one of the desideratums of the age and it is deserving of scientific treatment. It promotes good health and consequently happiness and the ladies of the city will no doubt be glad of an opportunity to listen to an authority on the subject.

Francis Gould, a York farmer, about 45 years of age was arrested and brought to town last Monday, charged with the crime of incest. The hearing will occur next Tuesday, Gould having made recognizance in the sum of $1,000 to appear before Justice Pond at that time. The crime is said to have been committed two years ago, his daughter Leah, then 17 years of age, being the victim. Fear of violence from her father is assigned by her as the reason for not disclosing the matter. However, she recently gathered courage to tell her friends, the result being Gould's arrest.

A paragraph in the Washtenaw Evening Times, of Saturday last, conveys the impression that the high school lawn is not receiving the care that it should have. This incited the Argus reporter to stroll up there and look at it. The west side is in very good condition, but would be improved by a more industrious use of the lawn mower. So also on the south side, which is also in fairly good condition. But the east front cannot receive even this modified commendation, having a somewhat neglected appearance. This may be partly accounted for by the fact that that portion of the lawn was principally used for the laying down of building materials during the construction of the magnificent addition on the north side of the old building, and the grass has not yet recovered its pristine strength, or indeed reappeared at all in many places, though many weeds have, which unfortunately add to the unkempt appearance of that part of the lawn. The conclusion is inevitable that that portion of the grounds should have been properly prepared for seeding after its use as a dumping ground for building materials, and then freely sown with grass-seed. That this has not been done, may not, however, be the fault of the janitor. But it should be attended to at once, by somebody.

The furniture dealer, Martin Haller, has been in Grand Rapids and Chicago with a view to prepare for fall trade. He says he selected a line of goods that will surpass anything that has been brought into our University city yet.

A Girl Baby Abandoned.

A baby girl was found on the door steps of the residence of Prof. Reighard, Wednesday night at ten o'clock. It was comfortably dressed, had a nursing bottle with it, and was apparently about three or four weeks old. It was a healthy, well formed child, with good lungs. The authorities were notified and the child was taken to the county house to be cared for pending investigatton. If any child of that age belonged in the city in will probably be missed by neighbors and the parentage thus discovered. More probably the child was brought from outside the city and abandoned here. Brute creatures will not desert thetr offspring. What can be said of a human mother who will?

Found Dead in Scio.

About half-past seven o'clock Monday morning, near the residence of Richard Loan, in Scio, was found the body of a man named James Smith, lying head downward at the foot of a slight declivity, his face being terribly congested with blood. It seems from the evidence that he had been visiting at Mr. Loan's on Sunday, and had on his person a liberal supply of liquor, of which he partook in large quantity, and was in a very intoxicated condition when he started for the residence of Supervisor Hughes, with whom he had been living for about two years. He seems to have stumbled and fallen, and was unable to raise himself from his abnormal position, on account of his inebriate condition. He was conveyed to Mr. Loan's house, and the coroner summoned. Mr. Clark impannelled a jury and held an inquest, who found the facts substantially as above stated, and rendered a verdict of death from congestion of the brain and lungs. Smith was an unmarried man, so far as we are able to ascertain, and was about forty-six years old. He is said to have a brother and a cousin living somewhere in that neighborhood.

Chills and Fever, Malaria and Ague.

In regular malarious localities there is enough of the poison called malaria generated to produce in all who are not acclimated regular chills and fever. Pe-ru-na, in large doses, will break the chills every time. In other localities there is just enough malarial poison to make many people feel indescribably bad without producing regular chills. There will be slight, irregular, chilly sensations, with flashes of heat and cold, clammy perspiration, aching bones and muscles, bad breath and stomach, periodical headache or neuralgia, nervousness, sleeplessness, stupor and weakness. For this condition Pe-ru-na is a prompt and positive cure. It rids the system of the poison, builds up the flagging powers, and brings back appetite and sleep. A few weeks' use of the wonderful anti-malarial remedy produces such an entire renovation and rejuvination of the whole body that the patient feels as if he was living in another world.

A Wonderful Exhibit. How Carpets were Made 600 Years ago.

At the coming Detroit International Fair and Exposition will be a complete representation of carpet making, from its earliest history. The first scene will be an Armenian weaving carpet as it was woven 600 years ago. The family are at camp on the Arabian Plain, and surrounding the weaver are the camels from which the carpet wool is obtained, and the Angora sheep that also furnish wool. All this in real life. In the background is the wall city, with its mosques and minarets. Another representation is in the days of 1776, where the New England home is represented with the wool spinning wheel 150 years old in active operation. The old rag carpet loom and weaver, in process of producing the universal carpet of ye olden time, the old fireplace and tall clock, etc., etc., making a strikingly interesting picture. This total exhibit of Gamble & Partridge, the carpet house of Detroit, is 100 feet in length. Their exhibit of two years ago was acknowledged by all who visited the Exposition to be the most interesting in the main building, but their exhibit this year will be far more entertaining than that of two years ago, and it alone will more than pay any one to go a long way to see it. They will also present to visitors a work of art of 16 pages of illustrations in half tone.

The Exposition.

For the Detroit Fair and Expositlon the C. & W. M. and D. L. & N. railways will sell excursion tickets Augusi 25th to September 4th, good to return until Sept. 5th inclusive, at one lowest fare for the round trip, with 50 cts. added ior admission to the Exposition. These lines are the "favorites" to Detroit. GEO. DEHAVEN, G. P. A.
