M.; Mrs. Fannie R. Thompson, President Benediction....Rev. Martin L. D'Ooge.

The building, although small, is one of the handsomest of any in the city, and was completed and fully furnished for \$17,000. The church is a mission of the Christian Woman's Board of Missions, with headquarters at Indianapolis, Ind. The wor kwas undertaken in 1886, the lot being purchased and the foundation laid in 1888. Work was suspended for a time on account of a lack of funds, but arrangements being made the building was completdianapolis, Ind. Mrs. Sarah Hawley Scott, of Detroit, left \$10,719.95 of her estate to the church, and a handsome memorial tablet is placed in the church in her memory. The church has a seating capacity of 600 and the pastor, Rev. C. A. Young, is a bright and attractive speaker.

Close of a Bright Young Life.

Urania V. Brown, the eldest daughter of Mr. and Mrs. H. J. Brown, of N. Division street, died on Saturday afternoon, of peritonitis, after an illness of one short week. The funeral was held at the residence, Monday afternoon at four o'clock, Rev. H. Tatlock officiating, and was one of the largest attended funerals held in Ann Arbor in years. The class of the Grammar School and the class of St. Andrews' Sunday school, of which she was a member, attended the funeral in a body, each contributing a beautiful floral tribute to their classmate's memory.

The death of Ray is a sad bereavement to the father and mother, as well as to her younger brothers and sisters. Although but fourteen years of age, she was mature beyond her years, and took many of the family cares from her mother. Her disposition was generous, lovable and yielding and she was a special favorite with all who knew her. She was an ardent young church worker and was vicepresident of the junior auxiliary of St. Andrews' church. She was a regular communicant of St. Andrews', having been confirmed by Bishop Davies in the spring of 1890. In her school life she was brightand studious. The blow to Mr. and Mrs. Brown is a heavy one and they have the sympathy of the entire community.

The Presbyterian Program for the Years' Work.

The Presbyterian church Sunday school courses this year are varied. A course will be given by Dr. Prescott in the audience room of the church in Religious Teachings of Chemical Science. Prof Kelsey's class in the church parlors are taking a course in "The Christian Church and the Roman Empire." A class of young men under the leadership of E. T. Austin, are studying the life of Christ. A class of young ladies led by Mrs. S. M. Browne, are studying the Pauline Epistles. Rev. W. Wetmore has a Bible class for elderly people.

The church calendar for the year is as follows: Sundays, services at 10:30 a. m. and 7:30 p. m.; Sunday school from 12 m. to 1 p. m. Youny peoples' meetings, 6:30 p. m.; "Helper's Band' at 4:00 on the first Sunday of each month. "Willing Hearts" at 4:00 p. m. on the last Sunday of the month. Wednesday evening at 7:30 prayer meeting. The bi-monthly social is held on the second Thursday of the month. The ladies' foreign missionary society meets on the second Friday. The ladies' home missionery society meets on the fourth Friday of each month. A course known as the Tappan lectures is given during the year.

An Enjoyable Reception.

The Hon. Daniel Dougherty, of New York, who delivered an address at the opera house, last evening, for the benefit of the new church fund of St. Thomas' parish, arrived in the city Wednesday afternoon, and remained here since as the guest of Fr. Kelly. On Wednesday evening, a complimentary reception was tendered him at the Cook House parlors and an opportunity was given our citizens to meet this distinguished gentleman. The citizens were not slow in grasping the chance, and between the hours of eight and nine not far from 500 Ann Arborites had the pleasure of making the acquaintance of Mr. Dougherty, among the number being included President Angell and many of the University Senate, and a number of ladies. Mr. Dougherty was found by all to be as polished a gentleman and brilliant conversationalist, as he is a great orator, and never in Ann Arbor has a more pleasant reception been held, nor a more enjoyable evening spent than was that in the presence of Mr. Dougherty.

During the latter part of the evening a pleasant little episode occurred, the committee deciding to present to Mr. Dougherty a slight memorial of his visit here, and they took Mayor Doty into the plan and induced him to express their thanks and present a souvenir of Ann Arbor to Mr. Dougherty. The entire affair was impromptu. The Mayor introduced his remarks ay alluding to the fact that there was a lull in the conversation and that he was tempted to utilize the opportunity which it afforded for the purpose of a confession. . He said:

"The committee of young men who have had in charge the arrangements for this most enjoyable reception have been singularly harmonious and unanimous in all their efforts and undertakings, save one, and that has been a generous rivalry as to who of them all by serving you the best, Mr. Dougherty, could honor himself the most." The Mayor continued, "That rivalry culminated late this evening when the question arose as to who, of that committee, should enjoy the honor of addressing to you, Mr. Dougherty, the thanks of the young men of the committee, and of our citizens as well, for the distinguished honor you have bestowed upon us by your affable and delightful intercourse this evening. The dispute finally terminated by resort to the Mayor. It was said that he was a sort of general utility man, and this additional honor he ought to carry as easily as 'the swain could bear the snowy fleece,' and so, Mr. Dougherty, I have the unexpected pleasure and the great honor of presenting to you the thanks of the young men of the committee and of the citizens for the honor you have done

Drawing a small parcel from his pocket, the Mayor continued as he handed to Mr. Dougherty a handsome 'Ann Arbor' souvenir spoon upon which were engraved the names of the committee: "I Am further deputed to present to you this little souvenir of Ann Arbor whi,ch the committee hope you will be pleased to accept, not for its intrinsic value, but as a pledge and a reminder of their friendship and esteem. In the days to come for the memory of 'Auld Lang Syne,' as shown by official examinations.

may its silver bowl touch as with a magic wand that silver tongue, which to all true Americans in both the sweet delight and the sure defense, decus et tutamen."

During Mayor Doty's remarks Mr. Dougherty leaned against a piano and followed with his eyes, every motion of the Mayor's lips. When it came time for a response from him, GOVERNOR WINANS' SENSIBLE REMARKS. he had not recovered from his surprise and said that he hardly thought it fair to be taken at so great a disadvantage. He, however, assured the Mayor and the committee that the token would be endeared with pleasant memories to him and that the occasion was one that he had much to thank the committee for.

Thursday, Mr. Dougherty visited the several departments of the University and other points of interest in the city, in company with Mayor Doty, Prof. Knowlton and J. V. Sheehan. At the law department he treated the seniors to a few remarks, which were received with rounds of applause. The committee having the reception

in charge was composed of the following: J. D. Ryan, chairman; T. D. Kearney, J. J. Quarry, J. V. Sheehan J. N. Riley, Dr. J. A. Wessinger, J. E.

A MILLION A YEAR.

Lottery and Prize Schemes used to sell Alum and Ammonia Baking Powders.

A New York concern, manufacturers of an ammonia baking powder, boasts that its yearly profits are over a million dollars. While, perhaps, none of the makers of alum powders individually can show so large earnings yet their profits are enormous.

A business so profitable will always attract to itself those whose greed will cause them to utterly disregard the effect their traffic may have upon the health or life of others .

Alum baking powders are introduced largely by gifts, prizes and lottery schemes. A piece of glassware or china, a child's wagon, sled, a pewter spoon or some other article of intrinsic value or cost is given with each purchase or a number is attached to the can which entitles the customer to a similarly numbered article ot to a prize of some kind. It is in some such way as this that the trade in alum and ammonia baking powders, which has now attained such giant proportions and their consumption by the public which has reached an extent whic his truly alarming.

The highest authorities of all countries condemn the use of alum in bread without reserve. In America the most distinguished physicians, chemists and hygienists have declared that the traffic in alum baking powders should be suppressed by law. In England and France where the subject of pure food, and its effects upon the system, has been more fully considered and made the subject of extended experiments by the scientists, so serious a matter is the use of alum in bread and other food considered to be, that most stringent laws have been enacted to prevent it. These laws are rigidly enforced, and the sale of alum baking powders would not be permitted for an hour. Any one who attempted to make them for use in food, or attempted to use them for raising bread, biscuit or cake would suffer severe penalties.

Th eill effects upon the system of food raised by alum baking powders are the more dangerous because of their insidious character. It would be less dangerous to the community were it fatal at once, for then such food would be avoided; but their deleterious action because imperceptible at first is no less certain.

The puckering effet which alum has when taken in the mouth is familiar to everyone. Physicians say this same effect is produced by it upon the delicate coats o fthe stomach and intes-

What housewife would take home to her family a can of alum or ammonia baking powder if she knew it. Such powders not only undermine the system, but it is pointed out that ammonia taken into the system in even infintisimal dose day after day imparts to the complexion a sallow and blotched appearance.

It is safe to discard all baking powders sold with a prize or gift.

What a misnomer are the words "Absolutely Pure," as applied to baking powders two of the largest selling brands, one made from alum, the other containing ammonia and both of these drugged baking powders have stamped sity they were nearly all so situated upon their labels and circulars these words absolutely pure, as a matter of fact they are "Absolutely Poor,"

Which Leaves Some Money in the Fair Association's Treasury.

Excellent Races Close the Fair-An Agricultural Authority's Opinion of the Fair-Some Stock Notes-Etc.

The fair on Thursday and Friday turned out better than even the most sanguine had hoped for. Thursday morning the crowd began to assemble at the grounds, on foot, horseback and in every kind of a conveyance. The electric cars were unable eo accomodate nearly all who wished to take that route, and on the Ypsi. road three cars were put on each train and these were crowded each trip. It was a steady stream to the ticket office and through the gates from early in the morning until about three o'clock, the officials for once having an assurance of taking in enough to pay all premiums and expenses and leave a balance in the treasury. The crowd continued to grow until not less than 10,000 persons were within the gates.

The attraction on Thursday was the promised presence of Gov. E. B. Winans, who is more than popular with the farmers of Michigan. He was on hand and after an introduction, the governor gave an interesting address on the farmers' life and its advantages. His address was over an hour long, but during that time he held an audience of 4,000 or 5,000.

Following a pleasant introduction by Mayor Doty, Gov. Winans said that he had recently finished an extensive journey over the state of Michigan. He dwelt for some time on the rank which Michigan holds among the states of the union, and of her magattractive appearance, but of small nificent resources-agricultural and mineral-and the development which had been reached in these great resources, and also in manufacturing; of the fame of the state for the advancement of its citizens in education and all that goes to civilize, refine and improve them in mental and moral

> He next touched upon taxation as an everpresent burden and recommended the people to a better fulfillment of their duty as citizens in the choice of public officers. Without such care it was inevitable that the tax-payers would suffer for the penalty. Careless, insufficient or corrupt officials saddle oppressive burdens on the people. Any neglect to make proper selections was sure to increase the amount of taxes. The whole list of public officials, from local officers up, ought to be chosen with discriminition, for their good judgment, honesty and business capability. The Governor laid stress on the choice of legislative officers and condemned the practice of selecting such because of political influence, without regard to the superior qualifications of integrity, honor and well-fixed and intelligent ideas of what was due to the people, rather than the politicians, who ought to regulate these things, for there was no lack of good material, and good and fit men should have the preference. By making qualifications of this sort a requisite for office, the people would best govern themselves and make more honorable the choice to an official station.

Gov. Winans enlarged upon the desirability of having good roads. The amount of money expended upon the public highways of the state every year was large, and these expenditures had been going on for many years. We had little to show for it. The roads to-day are in no better condition than they were thirty years ago. This was a point which he asekd the farmers to bear in mind, and to keep at the work until every highway should be materially bettered, and soon reach its highest condition of improvement. Thereafter the cost of keeping it in condition would be reduced to a minimum, and the whole community would reap the benefit.

Gov. Winans addressed himself to the farmers as a class upon whom rested, in a very great degree, the responsibility for whatever advancement the people might attain. While farmers were men of toil from necesas to be able to take for their own improvement a certain amount of leisure time. It was their duty to make their surroundings comfortable and

A BRILLIANT SUCCESS.

agreeable. Farm life should have its pleasures multiplied. It ought to be made attractive to the farmer's children. The home had its duties, and the joys of home life might be materially enhanced and refined by placing in the household that which is best fitted to interest, improve and comfort the inmates. Farmers, as a class, had a wider and better knowledge of matters which engaged public attention than any other class, but with all this they might greatly enlarge their knowledge by judicious reading. He spoke not only of the current intelligence of the day, but of publications devoted to farm pursuits, but of the broader culture which came from reading good and useful books. The duty of providing such books for the household and encouraging the refinements which came from rational social intercourse was deserving the attention of, farmers to a greater than mos tfarmers charged themselves

The discourse of Gov. Winans was well received and frequently applauded It took well with the farmers and was highly complimented.

Mr. Robert Gibbons, of the Michigan Farmer, was called out. He spoke with much earnestness and vigor upon opportunities which farmers enjoyed of, not only improving themselves, but their farms, their livestock and all their surroundings by the imitation of the most successful farmers and the exercise of judgment and industry characteristic of the good farmer everywhere. Mr. Gibbons spoke favorably of the rank and standing of the farmers of Washtenaw county.

At the conclusion the governor, with Mayor Doty and Col. Dean as an escort, visited all parts of the grounds and shook hands until his arm ached.

Before the crowd left the vicinity of the speaker's stand, a little surprise was sprung on President Braun and Superintendent Mills, in the shape of handsome gold headed canes which Col. Dean presented to each in behalf of the officers and employees of the society. Two prouder men than these never lived, as they recovered from their surprises.

Friday was "Citizens' Day" and never before have so many persons attended a closing day of the fair. Nearly all of the business places in the city closed during the afternoon, the proprietors, clerks and friends for once going to the fair, the crowd in the afternoon numbering about 5,000 Among the attractions of the afternoon was an exhibition drill by the Ann Arbor Light Infantry, under command of Capt. C. E. Hiscock. The company turned out fifty men and after clearing the crowd off of a space in front of the grand stand and posting guards to keep the crowd back, gave a very creditable exhibition of military drill, althuogh badly hampered for lac ko froom. Later in the afternoon the Infantry divided into two companies in command of Lieuts. Watts and Armstrong, and held a dress parade with Capt. Hiscock acting as colonel and Maj. Millard as adjutant.

Another interesting sight fot the crowd Friday afternoon, was the smashing of the sulky of the horse Fred W., and the running away of the horse down the stretch in the 2:50 race. Fortunately the driver was uninjured and the horse was caught before running far.

THE BALLOON ASCENSIONS.

The balloon ascensions were a drawing card for the fair, the crowd watching the big-silken bag from the time Prof. Bartholemew commenced to inflate it until it had dropped from the clouds out of sight. Miss Gertie Carmo, who made such a successful ascent and drop no Wednesday, again went up on Thursday but was not so fortunate as on the previous day. As she dropped with the parachute she swung and sawyed and finally came down in the top of a large oak tree on the old Hill property on Hill-st. As she dropped into the tree, she let go of the bar of the trapeze and tried to grasp a limb. She missed it and fell to the ground, a distance of twenty-five feet. She was taken to the home of B. Cole, west of the city. Drs. Kapp and Breakey examined her injuries but found no bones broken, although she was badly shaken up and bruised. On Friday, Prof. Bartholemew made the ascent, landing safely but a short distance from the fair grounds.

THE RACES.

The races at the fair this year had much to do with attracting the crowd. and more steady interest was shown than in previous years in the speed trials. The purses hung up were fair but not large enough to attract the faster horses on the circuit. The track was in poor condition except on the home stretch. The races Thursday and Friday were as follows:

2.30 PACE.

Lady Rothchild, C. D. Bills, Tecumseh 1 1 Little Joker, W. E. Price, Plymouth. 2 2 Johnnie Miller, M. D. Conklin, Detroit 3 3 Time, 2.371/4, 2.471/4, 2.38.

three contestants, one of them, how- osity. They have very little waste ever, Trixy, being but three years There was quite a strife between the other two, but Frank B. was too fast and won easily in three straight heats as follows:

Time, 3.091/2, 3.11, 3.04.

FREE FOR-ALL, PACE AND TROT.

One of the most interesting and yet easiest won races was the free-for-all. takrn by Little Joker, but a good finish being made each time by William H. Hunter, with a record of 2:23 1-2 made no attempt to keep ecompany with the pacers, and under other rules would have been given a distance. The fastest heat during the fair was the first in this race. The score was as follows:

Little Joker, W. E. Price, Plymouth. 1 William H., W. S. Walters. Flat Rock. 2 Hunter, C. D. Bills, Tecumseh....... 3 Time, 23434, 2.41, 2.36.

2.50 PACE AND TROTTING.

The next exciting race during the fair was the 2:50 class. Friday afternoon. There were five starters and at dusk six heats had been trotted, all close, giving two heats to each of two horses and one heat apiece to two others. The judges adjourned the deciding heat until Saturday morning, when the heat and race was given to Gowanda, although the heat was taken by two open lengths by Johnnie Miller, but he was ruled out of the race for foul driving.

In the second heat Fred W. added to the interest by running away down the home stretch, the sulky breaking and the driver being thrown, but no injuries sustained. The score was as

Gowanda, W. E. Price, Plymouth 4 1 1 4 5 2 1 exas Jim, A. Harmon, Saline... Johnnie Miller, M. S. Conklin, De-

Time, 2.48%, 2.45, 2.44%, 2.48, 2.49, 2.47%, 2.44%. The judges were unable to award second money, a protest having been filed against Texas Jim, it being claim-

ed that he has a record under 2:45.

The fair was the most successful one in the history of the society. The receipts from the gates and grand stand were \$2,576.38 and from the booths, \$219.42, a total of \$2,795.80 After paying all expenses a surplus of from \$300 to \$500 will be left. And the society will start out next year

with money in the treasury. As one prominent exhibitor said to the Argus, in many respects the exhibits were ahead of the state fair this year. And the attendance on Thursday he said, was as large as the attendance at the state fair on any day excepting one. There is really no reason why the Washtenaw fair should not be as good as the state fair for the county is the best agricultural county in the state.

Naturally in our article of last week some of the exhibits were overlooked or slighted, but they were there just the same and admired by thousands

Charles D. Koch received the first premium in the Percheron class on his fine stallion Telamaque and five of his get. A very accurate cut of this fine stallion is given below.

TELAMAQUE.

H. M. Russell, of Saline, had a couple of very fine black carriage colts, one two-year-old and one suckling colt. Fine large animals they are, of good form and of course took first premium.

In horses of all work, some very excellent animals were shown, L. R. Lee, of Dexter, took first on Tom Palmer and Philip Blum, jr., second on a fine three-year-old mare. There | herd of Galloways well represented, were twenty-two entries in this class and competition was brisk.

A. P. Ferguson had two large tents filled with carts and carriages. He was generous in his praise of the fair. 'Why," he said, "just look at these sales," and he pointed to buggies and carts bearing the legend, "sold to." The buggies were sold to L. Warner, Ald. A. H. Fillmore, E. Treadwell, W. G. Kempf, Geo. Gilbert, R. Parker, and carts to W. G. Kempf, L. M. Stevens and W. W. Watts.

M. Staebler, as usual, made a fine display of agricultural implements of which he has a very large and very fine assortment.

A. S. Hayden, of Milan, was on hand with the Aermotor, of which he has sold a large number throughout the county.

W. R. White, of Bloomington, Ill., had a very useful farm gate on exhibition, readily opened from a carriage or on horseback and shut without dismounting. The gate is evidently proof against animals and was Nervous Diseases, free at Eberbach & greatly admired.

room for seeds. A half of a pumpkin which found its way to our office shows this. It is nine inches in diameter, but the space taken by seeds is only two by three inches.

The Michigan Farmer, whose editor spent Thursday on the grounds, says the fair proved an unqualified success. The new grounds of the society are

being improved, and as they are nicely located, and are ample in dimensions, they will soon be among the very best in the state This will surely be the case if the same energy shown by the management in the past two years is continued. The grounds are reached by an electric railway, extending from the depots, and a branch of which connects Ann Arbor and Ypsilanti. Ann Arbor, as one of the main stations on the Michigan Central, has as fine railway facilities as could be desired, especially as the Ann Arboe & Toledo railway has one of its main stations here. And then Ann Arbor itself, with its great University, its clean streets, handsome residences and public buildings, and fine business houses, is worth a visit once a year from every citizen of the state, who must feel a just pride in its history and standing in the educa-

With these advantages, and surrounded as it is by one of the most prosperous agricultural communities in the state, it would be singular indeed if a properly conducted fair located near it should not be a suc-

As Mr. Gibbons is an experienced agricultural writer, we subjoin a few of his comments on the stock and cattle shown: "H. P. Finley, of Ann Arbor, had his handsome son of Mambrino Patchen 58, Golden Era 8182, with a number of his yearlings, and the show he made was proof that this stallion gets as useful a lot of colts as one could wish for-strong boned lean limbed, and put up for business. They are all growthy, too, and will make excellent hoad horses with a good load behind them.'

"One beautiful blach yearling filly by Coralloid, 2:19 1-4, owned by Mr. George Wood, of Saline, is an honor to her sire. She is standard bred, running to Black Haw k5, if we remember correctly, on her dam's side. She ought to be fast, and also a great brood mare when matured.'

"E. Helber, of Saline, had his grand imported Cleveland Bay, Lord Wenlock, with a bunch of his colts. As he made nine entries and received eight blue ribbons and one red one, we need not say anything more regarding his part of the show. One of the get of Lord Wenlock, a filly out of a mare by Waverly, and bred by J. Evarts Smith, of Ypsilanti, is an especially clean built, handsome animal. Her head and neck are as shapely and clean cut as a thoroughbred's.

"Mr. Nowlin is a veteran breeder, has a herd of useful cattle, good size, shapely, and showing dairy quali-ties. His bull was bred by H. T. Puelps, is a Young Mary of the Curtis strain, and is sired by Barrington Duke

"Mr. Galpin has been improving his herd the past two years, and the breeder who can step into the ring and down those four big roan cows of his must have grand good ones. He has them in nice shape, and is breeding then to a young bull by Boyden's Young Hilpa, and from a Cruickshank cow, a straight, square built young fellow. If the calevs are not good ones, then like does not produce like. This herd has its foundation in the Boyden herd, and is made up of the sort which has made Springbrook

B. D. Kelly had at the head of his herd a bull by Homer's Duke of Flat Creek, and from the Bloom cow once owned by Homer Brooks, who had this different ages, and all looking in good

"G .W. Inman had five head of Shorthorns, headed by a son of Waterloo Duke, which was bred by Prof. A. J. This is a red bull with some white marks and a straight animal much resembling his sire, A couple of young calves from him were good ones. 'The Holstein-Friesians were well represented. H. S. Day, of Willis, had 15 head of different ages, mostly in

milk, and headed by an old veteran Ykema. He is looking fine, weighs 2,400 lbs., and is a show in himself?" "F. S. Olds, of York, had 11 head, headed by the young bull, Tritomia's Mercedes Clifton Clyde, bred by Olds & Bacon, and sired by Tritomia's Mercedes Clifton, owned by the Mills

"The Mills Brothers only brought out 10 head of their fine herd, as they did not want to crowd other exhibitors. We counted seven first premiums on their stalls, however, with several red ribbons, so it was evident they were getting a fair share of the "S. O. Tubbs, of Delhi Mills, had his

showing 14 head of different ages. His stock bull has greatly improved the past year, and will show up well with any in the state. His cows looked rugged, are in good breeding condition and are raising some good calves. "In Jerseys, J. F. Avery, of Saline, showed some choice cows, nine head in all, headed by the handsome bull York Strok ePogis 26,456, a medium sized smooth bull, well marked, a steel gray on back, and quite dark underneath, and an excellent handler. He also showed some calves from him which

are quite promising." A Husband's Mistake.

Husbands too often permit wives, and parents their children, to suffer from headache, dizziness, neuralgia, sleeplessness, fits, nervousness, when by the use of Dr. Miles' Restorative Nervine such serious results could easily be prevented. A Michigan Central Railroad Employee Wins His Case after Seven Years' Contest.

While employed as agent of the Michigan Central railroad company at Augusta, Mich., my kidneys became diseased, and from an impoverished and impure state of the blood, my general health was entirely undermined. I consulted the leading physicians of this city and Ann Arbor, and all pronounced my case Bright's disease. In October last, I began taking Hibbard's Rheumatic Syrup, and am to-day a well man. It affords me pleasure to render suffering humanity any good that I can, and I wish to say that I think it the greatest blood, kidney and liver medicine in the world.

Drs. Batwell, Post and Felt dressed the wound and amputated the left arm below the elbow.

TO DANCE BEFORE THE QUEEN.

Four Pretty Americans to Entertain Her Majesty With a Minuet.

New York, October 5.-Fashionable circles in this city are much exercised as to the identity of four pretty American girls who have arrived in London to dance a minuet before the Queen.

Their chaperon refuses to give their names, but says they are all well known in the best New York society. A picture however is printed in the October number of the New York and Paris Young Ladies' Fashion Bazar, entitled "Pretty girls learning to dance the minuet," which gives some clue to their identity.

Society here also is interested in the fact that each of the four Americans is to wear a dress similar to the one illustrated and marked No. 8 in the colored plates of the magazine, which has partly revealed their personality and set fashionable circles

The young ladies have been practicing the minuet for eight months before venturing to ask the privilege which has been granted, of dancing before Her Majesty.

The New York and Paris Young Ladies' Bazar is for sale by all news-dealers. It will also be sent, postage prepaid, for 25 cents per single copy. The subscription price is \$3.00 per year. GEORGE MUNRO,

NEVER A FAILURE.

The Red River Valley of Minnesota and North Dakota has never

had a failure of crops.

It produced 30,000,000 bushels of wheat besides other cereals in 1890. Farms can be had

crop plan, or long time cash payments. It is not an uncommon thing to pay for a farm

on the

from the proceeds of one crop. It has all of the advantages of an old country in the shape of school, church, market, postal & railway facilities

and all the chances of a new country in the way of cheap lands, rich soil, and increase in values.

It is one of the most fertile and promising regions in America not yet fully occupied.

In the rush to the far west, however, this rich valley has been over-looked.

It has room for a million more people.

At the Universal Exposition of 1889, at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France. This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered—the GRAND PRIZE—giving other companies only gold, silver and bronze medals.

The French government, as a further recognition of superiority, decorated Mr. Nathaniel Wiccier, president of the company, with the Cross of the Legion of Honor—the most prized honor of Brance.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best it will be your own fault.

Ask your sewing machine dealer for the No. 9 Wheeler & Wilson machine. If he doesn't keep them, write to us for descriptive catalogue and terms. Agents wanted in all unoccupied territory.

FRIDAY, OCTOBER 9, 1891.

The Courier's usual style of political argument is exceedingly refined. When hit hard it meets assertions with such expressions as this: "The Argus states an untruth," or "the Argus lies," or some similar phrase. We beg leave to remind our highly esteemed contemporary that the reputation of this paper has always been at least the peer of the Courier's, and such gentle insinuations will not tend to lower it.

The results of a judicious choice be-tween evils are well shown by the report of the surgeon general of the army. He says that under the canteen system of dispensing liquors the sick rate of the army has decreased, and the cases of alcoholism reduced from a yearly average of 56.68 per 1,000 soldiers and Sanitarium and most of the food is 41.43 in 1869, to 4.37 during the last prepared in Battle Creek. Board is \$3 year, besides, of course, a great reductance a week, but no meats, tea, coffee or pie in cases of discipline and the demoralization of the troops. 'Tis well -half a loaf is better than no bread. If the army cannot have total, let it looks as if toasted clear through. Our have partial abstinence—Degroit Jour-informant sampled the food and speaks

And yet the Detroit Journal, which published the above editorially, went into hysterics over the fact that the canteen systeem was introduced at the state encampment.

The success of the fair last week, demonstrates what good management can do. With such excellent results, the management should be encouraged to persevere in the methods which brought it about. Aside from the regular attractions of fairs which should be kept up to a high standard, novelties should be introduced, which would draw the people who complain of a sameness about fairs. This year the balloon ascensions proved a great attraction. Next year something equally good should be brought here. If possible, something which people have never seen. A fair should have a number of strings to pull people in. Some like horse races, and as good ones should be provided as this year. Others like to examine stock, and these can be well accommodated. Others still are seekers afternovelties. It is to be hoped that our home manufacturers may see fit next year to eclipse all past displays. Excellent displays of their productions will prove profitable ad-

The friends of the proposition to vote upon sewerage brought the matter up in the council last Monday evening, with the expectation of carrying it, as two of the aldermen opposed to it were absent. They ran against a snag, however, in the provision of the charter majority of the aldermen elect, and, as they couldn't muster such a majority, the fact that they had a majority of those present at the meeting was of no avail to them. The provision of the charter was designed to prevent any advantage being taken of any chance absentee to pass a measure to which a majority of the aldermen elect were opposed. In all probability, the council will vote at their next meeting to submit the question at the next spring election, when every one will have an opportnnity to vote. The aldermen who wanted to vote for the proposition this month will have to take back their arguments made last Monday night, if they vote in favor of submitting it at the time of the spring Arbor, \$800.

The Useful Motor Line.

The Manchester Enterprise thinks a great many more would have attended the Ann Arbor fair if they had better facilities for reaching it. They didn't tumble to the new arrangement. They need only to have got on the "huckleline crossing, and they would have been set down at the fair ground in no time.

They can come to the junction of the motor line, and get there any hour from 6 a. m. to 10 p. m.

The buggies and other conveyances around the stables here proved that a great many people drove in from a distance, put up their teams here, and took the motor to the Ann Arbor fair. They could not have driven all the way to Ann Arbor and home again the same day, and had time left to see the sights, but by driving here in the morning and taking the "rapid transit" motor they got there early, had a good long visit, and came down after the balloon ascension with plenty of time to get home in good season. The motor line develops new conveniences every day.—Ypsilanti Sentinel.

An Advent Students Boarding Place. The Adventist students in the University are rapidly gaining in numbers. This year they have a boarding house of their own. It is known as othe Battle Creek Sanitarium Home and is located on the corner of Jefferson and Thompson streets, and is managed by Mr. Hubbard, a medical student. It has already twenty-five boarders. The menu is that given at the Battle Creek Sanitarium and most of the food is a week, but no meats, tea, coffee or pie is allowed. The bread is the celebrated Swabuck, baked several heurs, and informant sampled the food and speaks in high terms of praise of it. The students who patronize the house hold services in the house every Saturday, which is the Sabbath of the Adventists. The establishment of the home will have a tendency to increase the numbers of the advent students.

Science in Bread Making.

At the recent annual meeting of the American Chemical Society, held in Washington D. C., the question of the value of carbonate of ammonia as a leavening agent in bread, or as used in baking powders came up for discussion, in which Dr. Parker, of the University of Pennsylvania, and President of the Society; Dr. Richardson, late of the United States Department of Agriculture in Washington; Dr. Wm. McMurtrie, late Prof. of Chemistry in the University of Illinois; Dr. E. H. Bartley, late Chemist of the Brooklyn, N. Y., Board of Health, and Prof. of Chemistry of the Long Island College, and others, took part.

The consensus of opinion was overwhelming in favor of the employment of ammonia. It was stated as a fact that ammonia rendered the gluten of the flour more soluble than the original gluten, and that the bread in which this action was produced by carbonate of ammonia must be more digestible and hence more healthful, and because of the extreme volatility of carbonate of ammonia, and its complete expulsion from the bread in the process of baking, it is one of the most useful, most healthful and most valuable leavening agents known.

These conclusions are borne out by the very elaborate and exhaustive experiments made by Prof. J. W. Mallet, of the University of Virginia, which show conclusively that bread made with a baking powder in which one per cent. of carbonate of ammonia is used, in connection with cream of tartar and soda, is not only of uniformly better color and texture, but a product more wholesome, because the ammonia serves to neutralize any organic or lactic acids present in the

How to Make Fairs Successful.

One of the prominent fair managers gives his opinion of the manner in which our fairs should be conducted, as follows: "Washtenaw county has had one successful fair and there is no reason why we should not have more. My idea is that the races, balloon ascensions, military drill and other innovations had much to do with the success attained. The time has passed when large pumpkins, big cattle and a fine show of live stock will attract the crowd. We want these but we want other attractions also. My opinion is that good races will do more to draw a crowd than any other one thing. If a good round sum is spent in fixing the track so that it will be inferior to none in the state and enough is raised to insure large enough purses to attract some of the best horses on this circuit, I would be willing to guarantee a nice profit for the next fair, and for just as many fairs as are conducted on this principle. Good racing meetings in connection with good agricultural, stock and machinery exhibits is what is needed to make fairs a success now-

Increase in Insanity.

Insanity has been rapidly increasing in this county during the past few years. The first year that Probate Register Doty was in office the total number committed to the asylum was nine. Each year has increased this number, in 1890 it being 25, until the report for the year ending September 30th, shows that 32 persons were decided insane in the probate court for this county and were sent to the asylum. Of this number seven were sent as private patients, one as a state charge and one as a charge of Jackson county. The remaining 23 are charges of this county. Thirteen of those committed were women and ningteen Of those committed fourteen were from Ann Arbor city and town, four from Sylvan, three from Scio, two from York, two from Bridgewater. and one each from Pittsfield, Webster, Sharon, Augusta, Ypsilanti, Jackson and Pennsylvania.

Sneak Thieves Make a Haul.

Saturday morning, while Tony ter in front of his store on North Main street, sneak thieves tapped his till of between \$90 and \$100. A stranger engaged him in conversation, while a confederate slipped into the store and took the money from the cash an honorary member of Arbor Tent drawer. He then slipped through the store and out of the back door and ran. The back door had an iron bar across, which the thief dropped in his hurry, the noise attracting Schiappacassee's attention, and he went to see what was the matter.

Immediately on discovering his loss Schiappacassee reported it to the officials. Sheriff Dwyer and Deputy Peterson learned that five men had gone west on a freight train and telephoned to Chelsea to watch out for them, immediately starting for that place. The men got off the train at Chelsea and seeing that they were watched, started down the track on a run, the officers in pursuit. The men jumped on a dray and drove the horses on a run to the big swamp near the village. There they jumped out and sattered. The swamp covpossible for the officers to guard all sides of it. They finally captured one, who gave the name of Maynard, under cover of darnkess. Maynard was well dressed and said that he came from Toledo. On being searched \$20 in dimes and small change, the same as stolen frmo Schiappacassee's was found on him, which he claimed he saved up while in Toledo.

An embarrassing episode occurred at the Methodist church, Sunday evening. Rev. Coburn announced the closing hymn, read it; the choir and congregation arose, prepared to sing the hymn. The organist struck one key after another on the big organ, but no sound came forth. Everybody stood silent for a time, but one member of the choir finally decided that the trouble was with the boy who pumps the organ and hastened to his station, where he found the boy sound asleep. He awoke him and soon the necessary wind was furnished and the organ pealed forth, much to the relief of everybody.

An infant child of Thomas A. Bogle, of Hill street, had a narrow esape from being run over by an electric car, Thursday. As a heavily loaded car rounded the curve on Hill street, the motorman saw a child sitting between the rails, playing and unconscious of danger. The motorman, Frank Kapp, put on the breaks and reversed the current, but there being a down grade, he could not stop the car. A passenger on the steps finally jumped off and grabbed the child almost from in under the car and an instant more would have ended the child's life. When Mr. Bogle heard what had occurred he was overcome. He made the young man a handsome in lung trouble. The funeral was present, as a token of his appreciation of what he had done.

MOTIONS AND RESOLUTIONS.

By Alderman Hall:

WHEREAS, In the opinion of the Common Council of the city of Ann Arbor, the time has come when a main

determine whether such electors will, by ballot, vote, direct and authorize said Common Council to raise for such

purpose, by general tax upon the taxable property in said city, the sum of \$20,000, payable in 1892,

That said electors who shall at such meeting so called cast a ballot having written or printed thereon the words, "For the Sewer Tax, Yes," shall be deemed to have voted to authorize the raising of said sum of \$20,000 by tax as aforesaid, to be appropriated as aforesaid; and such electors who shall cast a ballot at such meeting with the words written or printed thereon, "For the Sewer Tax, No," shall be deemed to have voted against the raising of said sum of \$20,000 by tax as aforesaid; and that the Mayor and Clerk cause notice to be given of said meeting, as required

by the charter of said city. Ald. O'Hearn moved as an amendment that the date of the election be postponed to the next spring election, which amendment was lost by yeas

and nays as follows: Yeas-Ald. Allmendinger, Fillmore, O'Hearn, Taylor, Rehberg-5.

Nays-Ald. Mann, Wines, Martin, Hall, Kitson, Pres. Cooley-6.

Alderman Wines moved to amend by fixing the date as October 19. Yeas-Ald. Mann, Wines, Martin,

Hall, Kitson, Pres. Cooley-6. Nays-Ald. Allmendinger, Fillmore, O'Hearn, Taylor, Rehberg—5.

The original resolution being now put, it was lost, a majority of all the alderman elect not having voted therefor, by yeas and nays as follows:

The Medical Profession.

The attitude of the medical profession toward what is known as "patent medicines" is not at all unreasonable. Thousands of these nostrums are offered to the public every year. Some of them are dangerous and most of are futile. Swift's Specific(S. S .S.). we are all glad to say, is not classified among these nostrums. It has overcome the wholesale prejudices of physicians in all parts of the country, and some of the strongest testimonials in its behalf come from medical men who have used it in their practice, and who do not hesitate to indorse its wonderful results. This is extremely gratifying, but by no means astonishing, for every claim that is put forward in behalf of S. S. S. is based on a series of actual experiments extended over a long period of time.

A Stove That Cost \$16,000.

"Some twenty-five or thirty years ago," remarked G. S. Hubbard, Jr., "Mr. Harrison owned eighty acres of land which is now on the line of the Burlington raflway, between Chicago and Riverside. I saw that the property was bound to increase in value, and so I made up my mind to offer Mr. Harrison \$200 an acre for it. I found him in his office, seated on a rickety old sofa beside a dilapidated become untied and wandered around desk and warming himself before the fire centained in a disreputable looking, rusty, begrimed old stove. Well, I made George Harris, a young colored man my offer and he promptly rejected it. He said he wanted \$250. I saw that he meant what he said, and the conversation soon drifted to other topics. Presently I remarked the ancient and hardly creditable appearance of the stove.

"'Yes, Carter,' said he, 'it is pretty were about to leave with the license tough, but it holds the coal, and that's

> "'You ought to be ashamed of yourself, I returned. 'Tll tell you what I'll do. I'll just go out and buy you a stove as a present.

"'You will? he eagerly asked. 'Honthose eighty acres at \$200.'

"So I went out and bought a stove and had it put up in Carter's office. The whole thing cost me \$14.25. As soon as the fire was burning brightly in it I demanded the deed to the land, paid the money and walked out of the office the

absolute owner of those eighty acres. "Within a twelvemonth I was offered \$400 an acre for the land and refused it. The next time I saw Carter after this offer had been made I told him about it. " 'You don't say!' he exclaimed. 'Come

down to my office.' "We went. Carter took down his books and in my presence made the entry:

"'To one office stove-\$16,000." "And he carried it right through his books too. Afterward I sold the land for \$200,000."-Chicago Post.

A Girl's Dressing Table.

A girl's dressing table is the pride of her room. She may have pretty pictures, a collection of photographs of her The Ann Arbor Argus says there were 20 prisoners in jail last week. What a wicked lot of people there must be in Washtenaw county. Almost equals Lenawee. Monroe is the banner moral county. She never has more than three or four criminals in jail, and usually has none.—Monroe permeerat. is the pride and the piece de resistance, so to speak, of the room. The sweetest dressing table is all of glass and is provided with two shelves, an upper shelf and a lower shelf. These are of beveled glass and are held in place by beautiful gold legs. Another kind of a dressing table, less expensive, has simply a beveled glass cover on top, and is just a plain table elsewhere.

On top of the table go the silver manicuring implements, the celluloid brush and comb and the ivory backed glasses and brushes. Besides this there must be the dozens of little fancy boxes, powder and puffs and bottle of cologne and perfumery. To make these bottles more ornamental manufacturers have supplied cut glass pitchers and odd shaped things filled with perfumery of all colors. One can thus, if she be a dainty miss, and particular as to the appointments of her room, have her perfumery to match the general color of the boudoir.—New York

THE FIGHT FOR PURE FOOD.

Success of the Efforts to Scotch Bad Baking Powders.

The aggressive war waged by the Royal Baking Powder Company upon the hosts of adulterated and impure baking powders sold throughout the country is having a desirable effect The slandalous attacks upon the Royal company by the manufacturers of the impure goods (which are made doubtless from a spirit of revenge and in hope of breaking the effect of the damaging exposures) show that they are hit, while the official reports which have come from various public authorities fully corroborating the statements made by the Royal company have awakened a wholesome public sentiment in favor of repressive J. Miller, of Port Huron, spent laws, which means mischief to the illegitimate traffic.

The Royal Baking Powder Company set out some time ago to expose the character and to break up the sale of adulterated baking powders. Having found from an examination of many specimens that there was a large number of actually injurious powders in the market, they brought the matter before the public and denouned the makers by name in the press and to the health authorities. The affair was taken up by physicians, Boards of Health, and Legislatutres through out the country, chemists were employed to test the various powders in the market, and the government itself directed analysis to be made before it would purchase the supplies needed for army, navy, and Indian

The result justified the charges made by the Royal company. Not only were the majority of baking powders in the market found to be largely adulterated, but many of them were ascertained to contain alum and other poisonous ingredients to such an extent as to render them positively unsafe for use in human food.

In making the charges the Royal Baking Powder company did not hesitate to enter into competition with every other baking powder in the country, and it is a public satisfac tion that in the official tests by the government and state chemists and by Boards of Health, the Royal Baking Powder has been declared to be the superior of all others in strength, purity and wholesomeness, and absolutely free from all inferior or detrimental substances.

From recent official reports it is impure goods have again come upon the market in dangerous quantities and their old enemy, the Royal is again upon the warpath. In continuing its warfare against these goods the Royal is meeting with the oldthe Royal is meeting with the oldtime opposition and abuse. The public, however, will appreciate, as heretofore, both the object of the abuse and the action of the Royal company, and award full justice to the company that so fearlessly stands up to its protection from such adventurers.
