The Cornwell-Swift Case Affirmed.

An opinion was handed down in he supreme court, Wednesday, affirming the decision and damages given in the Cornwell-Swift case.

The care was started by the Cornwell M'f'g Co., four years ago against J. M. Swift et al. to compel the defendants to lower the flash boards on their dam. The defendants then commenced a cross-suit to compel the Cornwells to remove the dam which they had erected. On these suits an alternative verdict was rendered, which has now been affirmed 3,416 farms averaging 113.54 acres by the supreme court. The Corn- each. well M'f'g Co. was to pay J. M. Swift &Co. \$15,500 and the Ann Arbor Agricultural Co. \$5,000 or else remove the dam at the pulp mill, and the defendants were allowed to raise the flash-boards on their dam to four feet.

Keep Their Stables Locked.

A number of our most prominent farmers throughout the county complain that they have been taken in by a sharper who has been here recent ly. A few weeks ago, a young, welldressed man appeared here and announced that he wanted to purchase horses to be sent to the lumber camps. He visited the farms about the northern part of the county, selected the very best horses that he could find, and agreed to purchase. He would then go to another farmer and do the same, in this way visiting a dozen or more and arranging to purchase as He always enjoyed many teams. the hospitality of the farmers. suddenly disappeared and has not been seen since. What his motives were is not known, but those whom he made bargains for horses with have concluded that they were not good ones at any rate, and they have placed extra locks on their stables and keep a watch on their stock.

News From a Washtenawian.

Christian Fritz, of Lima, has recently received a letter rom his son, Reuben Fritz, who went west a couple of years ago. He is now foreman at the lumber yard at Clatskanie, Oregon, and has recently taken up 160 acres of government land on which it is estimated that there is from twelve to fifteen million feet of standing timber. He sends a photograph and description of probably the largest stick of timber ever cut. The December Crop Report.

The December crop report, the last to bear the official signature of Dan'l E. Soper, the ex-secretary of state, The Supreme Court Affirms the Decision in this has been received. It shows returns from 603 correspondents who reside in 510 townships. These reports show the condition of wheat better than in November, but still far from satisfactory. In the southern counties damage by the Hessian fly is reported The total amount of wheat marketed in the state in November was 1,688,968 bushels, making the total for the past four months 7,010,955 bushels.

In Washtennaw county, the showing is above the average. The condition of wheat is 98 per cent. as compared with average years; horses, 99 per cent.; cattle, 96 per cent.; sheep, 98 per cent.; swine, 98 per cent.

The number of bushels of wheat reported marketed at fifteen mills and elevators in the county during November was 45,448, which with the 149,-608 bushels before reported makes 195,056 bushels marketed since Aug.

The number of aeres of improved land in the county is 278,538, and unimproved 109,317, making a total of 387,855 acres This is divided into

News from the East.

The following is taken from the Ypsilantian, regarding a young man well known in this city, who is now on an exploring trip in the Philippine Islands:

"We notice that Mr. F. S. Bourns, whose father was once pastor of the M. E. church here, and who is one of the party now among the Philippine Is ands collecting natural history specimens, is writing some very interesting letters to the Minneapolis papers. The party is visiting the different islands and find much to instruct and many specimens which will be sent home. The following clipping refers to an interesting interview he had with a priest on the island of San Antonio Signifor and shows that the boys are not entirely destitute of amusement. Here is what the priest told him:

First I was informed that Columbus discovered America. Fortunaetly he did not know the date of the discovery was spared that pain. was told of a few of the settlements that were made by the Spaniards in America. Then he took a skip and came down to the time when, as my instructor told me, England was busy imposing taxes on tea, etc. Then he told us a very interesting little story in which a cherry tree, a hatchet and a small boy named Washington figured. Then he told me that the Spaniard swould always remember with gratitude Washington's visit to Spain and his campaign with the allied troops in 1814! He spoke of the size of our country and told me that we had 24 states. At this point my national pride overcame my discretion and I ventured to remark that the Insurance Co., and at the time of his number had recently been increased somewhat so that we now had 44 states. But I was rebuked for my presumption and was told that I had been misinformed. I was completely crushed and did not again attempt to display my ignoran e."

Death of Ex-Regent McIntyre.

Donald McIntyre died at his residence on W. Huron street, Monday evening, of general debility and old age. For several years past he has been breaking down and his mind has been failing, until for some months past he has been as helpless as a child.

Mr. McIntyre was born at Johnstown, N. Y., in 1807. He came to Ann Arbor in 1845 and opened a bank in this village soon afterwards. He continued in business here until 1871, spent the next ten years of his life. In has since lived a quiet and retired life in this city.

He was always a public man, although taking but little interest in partisan politics. He was a leading member of the Presbyterian church.

Mr. McIntyre was married twice and was the father of a large family. His second wife and four children survive him-Mrs. J. H. Burleson, Jersey City, N. J.; Mrs. W. W. Wetmore, Ann Arbor; Mrs. A. B. Pomeroy, Westmoreland, Ks.; Donald D. McIntyre, Cadillac.

Death of Henry Paul.

Died, at his residence in Pittsfield, Sunday evening, Dec. 20th at 9.45 o'clock, Henry Paul, aged 51 years and 6 months.

Mr. Paul had been suffering for about two years of cancer of the stomach and his death was not unexpected, the only thing which kept him alive for some time past being his rugged constitution and strong will-power. He suffered greatly, but on Saturday became unconscious and remained so until his death.

Probably no more popular nor more prominent farmer than Mr. Paul resided within the borders of Washtenaw county. He was born in the township of Scio, June 3rd, 1840, his parents being Jacob and Mary Paul, who came to this country from Wurtemberg, Germany, in 1830 and took up the farm from the government on which the subject of this sketch was born. He worked on the farm for his father and by frugality and economy was able to purchase the home stead of his father in 1862, continuing to occupy it until 1866. In that year he moved to Ann Arbor, which he made his home for the succeeding twelve years. He was engaged in various enterprises here, among which was the furniture manufacture, originating the Michigan Furniture Co., which succeeded him. In 1877, he gave up a mercantile life and again returned to farming, purchasing and movingupon the farm where he died in Pittsfield township. His educational advantages were meagre, being only those offered by the district schools, yet he attained an education in practical life which served him far

better than books. Mr. Paul was a democrat in politics and served the public in various offices, having been elected supervisor of Pittsfield, although that township was strongly republican, and he was also a school trustee for thirteen years. He has also been treasurer of the Washtenaw County Agricultural and Horticultural Society and of the death held the position of secretary of the latter organization.

On May 29th, 1862, he was married to Miss Catherine Koch, who with three children survive him.

The funeral was held at the residence in Pittsfield, Wednesday morning, services afterwards being held at Bethlehem church in this city. The remanswere interred in the German cemetery on the Jackson road and were followed to the grave by a large number of sorrowing relatives and

AN APOLOGY DUE AND MADE.

The Tribune yesterday morning republished from the columns of the Grand Rapids Press an article concerning the Soper scandal and certain alleged influences which led to the appointment of L. E. Rowley as deputy secretary of state, which it takes the earliest occasion to now disavow, and for which it promptly apologizes both to its own readers and to those reputable gentlemen of the state whose names were mentioned in that article. The matter in question was inadvertently published in careless violation of established rules in this office, occurrence. Messrs. D. J. Campau, O. M. Barnes, Richard Montgomery and Frank L. Dodge are too well known in Michigan as upright citizens and honorable gentlemen to be injured by the screed of the Grand Rapids paper referred to, and no one of these gentlemen has communicated with the Tribune concerning it. But this employer.

They are now wiped out of existence and steel ones have taken their place. The last lot of iron rails we bought cost us \$6.72 per ton duty, which scarcely paid us for the labor of converting them into rods. Then there is the tremendously high tariff on pig iron. The inter-state commerce law works greatly to the disadvantage of the New England manuafacturers. Under these circumstances we could not continue business, for, to tell the truth, while we were not losing money, we were unable to make it profitable.

Of course there are a few people in some states, like the Carnegie combine in Pennsylvania, who can make millions of dollars a year out of American and imported foreign labor through protective taxation, but they are very few when compared with the vast number who are injured. It is because many New England manufacturers are damaged by the enormous taxes levied on the materials they use that protection is changing their politics, and making tariff reformers of their most On Saturday, Senator Plumb, of intelligent citizens. Housekeepers Should Remember

The great success of the Royal Baking Powder is due to the extreme care exercised by its manufacturers to make it entirely pure, uniform in quality, and of the highest leavening power. All the scientific knowledge, care, and skill attained by twenty-five years' practical experience are contributed toward this end, and no preparation can be made with a greater accuracy, precision, and exact-

Every article used is absolutely pure. Chemists are employed to test he strength of each ingredient, so that its exact effect in combination with its co-ingredients is definitely known. Nothing is trusted to chance, and no person is employed in the preparation of the materials used, or the manufacture of the powder, who is not an expert in his particular branch of the business.

As a consequence, the Royal Baking Powder is of the highest grade of excellence, always pure, wholesome, and uniform in quality. Each box is exactly like every other, and will retain its power, and produce the same and the highest leavening effect in any climate, at any time.

The Government Chemists, after having analyzed all the principal brands in the market, in their reports placed the Royal Baking Powder at the head of the list for strength, purity, and wholesomeness; and thousands of tests all over the country have further demonstrated the fact that its qualities are, in every respect, unrivaled.

MISCELLANEOUS BUSINESS. Prof. Chas. E. Greene made a fur-

The report of Prof. Greene is as follows:

To the Common Council of the City of Ann Arbor. Gentlemen:—Under the resolution of the common council of Nov. 16th, 1891, I have made the following es-timate of cost of a main sewer for the city of Ann Arbor, from the creek on Hill st., to the Huron river, and I submit with the estimate a plan and profile for the sewer, shoving the line from Bunker's Dam and the R. R. bridge to Liberty st., whiel, in connection with the general plan nade and reported by me two years 1go, will cover all the points referred to in the above resolution.

"The estimate of cost for a pipe sewer from the R. R. bridge to Hill st. at the creek, as per my original plan, is:—

plan, is:—
R. R. bridge to foot of Main st., 6500 ft.
\$9,466 22 in. pipe \$9,466 Foot of Main st. to Miller ave., 2600 ft. 3,104 william st. to Hill st. and creek, 3500 ft.
12 in, pipe

If the above line is continued to Bun-ker's Dam, add 1900 ft., 22 in. pipe_____ Plus 10 \$

If the above line is built with 24" pipe in place of 22" and 18" from the R. R. bridge as far as Miller ave., and then with 18" pipe to Hill st., the estimate will be:

R. R. bridge to Miller ave., 9100 ft , 24 in. Miller ave. to Hill st. and creek, 5400 ft. 18 in pipe

Engineering and Contingencies, 10 %____

If the line is continued to Bunker's Dam add 1900 ft., 24 in. pipe______Plus 10 #

If the line is built with 24 in. pipe from R. R. bridge as far as Hill st., and 22 in. pipe from thence to creek, we will have 14000 ft. 24 in. pipe.

Engineering and Contingencies, 10%___

If continued to Bunker's Dam add as above _____

The resolution of Nov. 16th, calls for an estimate for a main sever, from Bunker's Dam, with 30", first quality sewer pipe from its outlet to the south side of Huron st., and 26" pipe from Huron st. to south line of Hill st., and 22" pipe from Hill st to stopping place as indicated on mip. As I understand that no larger size of sewer pipe than 24" is made, I have felt obliged to estimate on 30" brick sewer for the lower portion, a 24" pipe from Huron to Hill st., and a 22" pipe for the remaining distance. The quantities, therefore will be,

Engineering and Contingencies, 10 %----

As will be seen by inspection of the profile, to carry the sewer to Bunker's Dam, will require a lessening of the grade and hence a diminution of the velocity. I am, therefore, of the opinion that this lesser grade and the further diminution of velocity from the greater roughness of the interior will render 30" brick sewer no more efficient for conveyance of sewage than

WM. J. MILLER, Clerk.
Ann Arbor, Dec. 21, 1891.

MOTIONS AND RESOLUTIONS.
By Ald. Herz.
Resolved, That the mayor and city clerk be and they are hereby authorized to contract with the Ann Arbor T. H. Electric Co., for the city to light the city according to the terms of last year's contract, except that when poles or lights are ordered moved or changed, the said company shall change or remove the same at their

private property, as indicated approximately by the dotted line, thus avoiding the deep cutting shown on the profile on First st., from Catharine to Washington st., and in a less degree at the corner of Main and Felch sts. For the deepest cut the saving would be from \$1.50 to \$2 per running foot.

While from an engineering and saniwhile from an engineering and santary point of view I am unable to see why it is suggested that the outlet should be carried down to Bunker's Dam, I have estimated to that point, Dam, I have estimated to that point, as requested, in addition to the line originally proposed. I am still of the opinion, as expressed in my first report, that, while it is wise to plan a grade which will admit of extension to the R. R. bridge, there is no necessity, for the present, of carrying the saving further, than the foot of ing the sewer farther than the foot of

13th street.

SCRIBNER'S MAGAZINE

An Exceptional Year.

THE Year 1891 has been marked by a greater advance than any similar period since the Magazine was established. Not only has the literary and artistic excellence been maintained and increased, but a corresponding gain has been made in the sale and influence of the Magazine. At the end of 1891 the circulation has risen to more than 140,000. It may justly be promised that the further improvements for the coming year will be proportionate to these largely increased opportunities.

For Next Year.

It is not possible to give, in a brief space, an account of all the features in preparation, but the material is deficient in neither importance nor range of subject. Among the subjects treated:

The Poor in the World's Great Cities.

It is proposed to publish a series of articles, upon a scale not before attempted, giving the results of special study and work among the poor of the great cities. The plan will include an account of the conditions of life in those cities (in many lands) where the results of research will be helpful for purposes of comparison as well as for their own intrinsic interest. While, from a scientific point of view, the articles will be a contribution of great importance, the treatment will be thoroughly popular, and the elaborate illustrations will serve to make the presentation of the subject vivid as well as picturesque. Washington Allston. Unpublished Reminiscences and Letters of this foremost among early American painters. A number of illustrations will lend additional interest to the articles.

Important Moments.

The aim of this series of very short articles is to describe the signal occasions when some decisive event took place, or when some great experiment was first shown to be successful-such moments as that of the first use of the Atlantic cable, the first use of the telegraph and telephone, the first successful experiment with ether the night of the Chicago fire, the scene at the moment of the vote on the impeachment of Andrew Johnson, etc., etc.

Out of Door Papers. In the early spring will be begun a number of seasonable articles, among them being: Small Country Places, how to lay out and beautify them, by SAMUEL

Fishing Lore from an Angler's Note Book, by Dr. Leroy M. Yale. Mountain Station Life in New Zealand, by Sidney Dickinson. Racing in Australia, by Sidney Dickinson, with illustrations by BIRGE HARRISON.

Congressman Culberson Does Not Want

the Inter-State Vacancy. WASHINGTON, Dec. 18 -Congressman Culberson of Texas is going to make a reputation as a decliner. Last October he declined a tender of a place on the Inter-State Commerce commission to succeed Gen. Bragg of Alabama Last saturday, after a talk with his Texas friends and with Commissioner Morrison, he formally accepted. A few days' reflection seems to have changed his mind, for to-day he with equal formality, notified the President of his final declaration. Three years of Commissioner Bragg's term remain, and Culberson at the end of that period would undoubtedly have been reappointed for the full six years' term. He had, therefore, a certainty of drawing \$7,500 a year for the next nine years. His friends say that when he looked into the duties of the position he found there was too much routine, to many details about railroad management, and he thought in justice to himself and to the President he should not accept a place where he would not fe I at home. The true reason was that he had decided to go into the Texas Senatorial fight and thinks he can win.

Culberson's declination will throw upon the President the duty of finding another Southern man. He will probably make short work of this, as the longer he keeps it open the greater the pressure will be. The three most likely men now mentioned are ex-Congressman Clements of Georgia, ex-Gov. Porter of Tennessee, and Judge Lindsay of Kentucky.

The declination of Culberson will not affect the chances of the candidates who want so succeed Commissioner Cooley. This choice will be made from west of the Mississippi, and the President's mind is poised pretty evenly between his old collegemate, Judge Mc-Dill of Iowa, and Judge Lambertson of Nebraska. But if he throws the Demoeratic appointment east of the Mississippi and north as far as Tennessee he will have a chance to go as far southwest as Kansas. Telegrams signed by all the State officers have been coming in to-day urging the selection of ex-Gov. George T. Anthony of that State. How far the opposition of Col. D. R. Anthony of Leavenworth to his kinsman's appointment will count no one knows. The idea is that if Gov. Anthony is not named it will be because somebody else has stronger claims.

CANAL AROUND NIAGARA.

Senator Davis of Minnesota Has Unique Plan.

WASHINGTON, Dec. 18.—Senator Davis of Minnesota has a plan for a ship canal around Niagara Falls. It is of importance to the whole lake shipping interest. The bill he introduced to-day provides for such a canal to be built, paid for, and controlled by the general government. The canal is to be big enough to enable the largest vessels on the lakes to pass through it. This measure is arrived at by requiring that it shall be able carry vessels of the same dimensions, tonnage and draft as can pass the Sault Ste. Marie Falls and locks. The canal is to be in Niagara county, N. Y., and of the enterprise think it a good time sight of when the improvement of the interior waterways is under discussion. They declare the scheme is entirely States independent of the Welland

Change in Weather Report Service. Washington, Dec. 18 -The Depart-

ment of Agriculture proposes to adopt an improvement in the Weather Bureau service. The predictions heretofore made were on the observations at 8 a. m. and for the twenty-four hours from the time the observations were taken. These predictions were necessarily a little belated, as it was several hours before they could be placed before the public. Those published in the moraing papers were for a time which already nearly half expired, case was still worse, as the portion of the time covered had already elapsed for which the predictions were of most value. The proposed improvement consists in having the predictions in each case cover the time until midnight of the next day. When this takes place, which will be on Jan. 1 next, the predictions printed in the morning papers will appear early in the day to which they apply, while those in the evening papers will be for the day after. The public will be informed on the evening before of the expected weather, and will be given an improved forecast the next morning if improvement is needed.

ST. GEORGE) It is said that in a lake near the city of Silene, in DRAGON. England, a huge dragon dwelt, whose nsatiable maw seemed satisfied with nothing the people could give him. In their despair they cast lots to determine who among their dearest ones should be flung to the beast, and the lot fell to the King's daughter. As she was going, like Jeptha's daughter, to meet her terrible fate, she was met by George of Cappadocia, who, after hearing her sad story, bade her fear not, and making a sign of the cross he brandished his lance, attacked and transfixed the dragon, and leading him into the city beheaded him in the presence of all the people. For this noble deed he became the Patron Saint of England. Many a dragon in the form of disease, while leading his victim to death, as sure as that which would have befallen the King's daughter but for her timely rescue, has been demolished by the use of S. Its edstorial page is broad in range, independent, elevating, and interesting in quality. Its literary department is of a remarkably high Its political correspondence is furnished by independent, well-informed and capable writers. It publishes, moreover, a great variety of interesting and valuable general correspondence and selections.

THE SUNDAY REPUBLICAN

Was first published in 1878 in response to a real public demand in Western Massachusetts for a first-class, high-toned Sunday newspaper. Since that time it has been constantly improved and it has been twice enlarged. Fully four-fifths of its 56 columns of space is devoted to reading matter of a high order, embracing news, special correspondence, a full page of and for the evening papers the editorial matter, a department of books, authors and art, a first-rate weekly story and a weekly sermon, sporting and theatrical news and notes, special articles, original and selected poetry, etc. THE SUNDAY REPUBLICAN is a thoroughly wholesome, excellent and interesting jonrnal, well adapted to the tastes and wants of the intelligent New England public.

THE WEEKLY REPUBLICAN

Is now more than 67 years old, but age only improves its quality. It continues to be what it has long been, a remarkably faithful and comprehensive record of American life. Its weekly review of the news is very carefully compiled, and its 12 broad pages contain in addition to the news, a wonderfully rich collection of valuable and entertaining reading matter. All the best features of THE DAILY and SUNDAY REPUBLICAN are reproduced in THE WEEKLY in full or but slightly abridged, and arranged with admirable skill and intelligence for the convenience and pleasure of the reader. The result is a weekly news and family journal which far exceeds in interest and worth any similar publication in the United States. It is a paper that New Englanders at home and abroad will find of special value, and

Nearly every pattern of 5/A Horse Blanket is imitated in color and style. In most cases the imitation looks just as good as the genuine, but it hasn't the warp threads, and so lacks strength, and while it sells for only a little less than the genuine it isn't worth one-half as much. The fact that 5/A Horse Blankets are copied is strong evidence that they are THE STANDARD, and every buyer should see that the 3/A trade mark is sewed on the inside of the Blanket.

No. 9, No. 9.

At the Universal Exposition of 1889, at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France. This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered—the GRAND PRIZE—giving other companies only gold, silver and bronze medals.

The French government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor—the most prized honor of France.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.
