Michigan's World's Fair Educational Exhibit.

Michigan has always been proud of having the best educational system in the Union. Yet she appropriates only \$4,000 to exhibit its advantages. A generous appropriation would have shown Michigan's true rank among the states.

genial companion. He had many friends and he was a man who deserved many friends. He was a member of Fraternity Lodge F. and A. M., and was for several terms Master of the lodge. He was a Knight Templar, a member of Washtenaw Lodge I. O. O. F., and a charter member of the Ann Arbor Typographical Union. His mother, and two brothers, Dr. J. and W. H. Martin, of this city, served him. The funeral services, which were held at the residence of his mother, Monday afternoon, were largely attended.

Death of Edward J. Morton. Edward J. Morton died last Saturday morning after a very long illness. He was born in Cambridge, Wisconsin, December 19, 1855, and was the son of the late William Morton. Nearly his whole life was spent in Ann Arbor, where as child, boy and man he was widely known and highly esteemed. He learned the printer's trade in the printing office of the late Rice A. Beal, and was afterward foreman of the office. Then for several years he was employed in the government printing office at Washington. Later, he became foreman of the Register office in this city. Retiring on account of his health, he made an extended western trip and returned to Ann Arbor much improved in health. In September, 1886, he purchased a half interest in the Ann Arbor Argus, of S. W. Beakes who had purchased the paper in June of that year. At once a reorganization of the printing office was made, a work for which Mr. Morton was well fitted, as he deservedly held the reputation of being one of the very best all around printers in this part of the state. His health again failing, he reluctantly disposed of his interest in the paper in January, 1890. Mr. Morton was a man of unswerving integrity, of kind heart, of good business capacity, a true friend and a

February Crop Report. The monthly crop report for February was issued by Secretary of State Blacker Tuesday. It is compiled from returns received from 755 correspondents, representing 596 townships. Five hundred and six of these reports are from 378 townships in the southern four tiers of counties, and 134 reports are from 120 townships in the central counties.

The weather conditions during January were very favorable for the growing wheat. Correspondents in all sections of the state, with few exceptions, report that the crop suffered no injury. The ground in all parts of the state was well covered with snow nearly all the month. The average depth in the counties of the southern section on the 15th ranged from six to ten inches, the average for the section being seven inches. The average depth in the counties on the central section on the same date ranged from four to eleven inches, the average for the section being seven inches. Much of this had melted off by the end of the month, and the average depth in the counties of each section on the 31st ranged from two to five inches. On February 1, bare spots appeared in most fields, and a day or two later the

fields were nearly or quite bare. Since the first of this month the weather has been mild, thawing more or less every day and freezing only lightly at night. From the 1st to the 8th the average day temperature at Lansing was 36 degrees F., and the average night temperature 25 degrees F. The highest temperature in this time was 49 degrees on the 7th, and the lowest 18 degrees on the 5th and 6th. Light rain or snow has fallen every day except on the 5th.

The total number of bushels of wheat reported marketed by farmers in January is 951,948. Of this amount 182,982 bushels were marketed in the first or southern tier of counties, 139,744 bushels in the second tier, 188,057 bushels in the third tier, 22,008 bushels in the fourth tier, 176,117 bushels in the fifth and sixth tiers, and 12,046 bushels in the northern counties. At thirty-four elevators and mills from which reports have been received there was no wheat marketed during the month. The total number of bushels of wheat reported marketed in the six months, August to January, is 9,850,935, which is 1,069,847 bushels more than reported marketed in the same months last year.

The quantity of wheat reported marketed in January is 877,644 bushels less than reported in December. The total quantity reported marketed in the six months, August-January, is 32 per cent of the estimated crop of 1891. The quantity marketed in the same months of 1890-91 was 38 per cent of the crop of 1890.

Farm animals of all kinds are wintering well. The condition, as reported, ranges from two to four points below a full average.

### Women Working and Reading.

Mrs. E. W. Crafts, of Sharon, read an excellent paper before the Grass Lake farmers' club on the above subject, from which we clip a few well expressed thoughts as reported in the Grass Lake News:

"I have no doubt I shall voice the veriest kind of treason when I say that while I certainly think women in general should read more, I do not think that it follows that less work will bring about the desired reformation. There is the style of woman who will read at all costs. The bread may run over, the babies may cry, the place in general suggest the ragged edge of despair, but the serenity of its guardian angel remains unruffled while she pursues the fortunes of an impossible hero and weeps in sympathy with an equally impossible heroine.

There is the woman who says she has no time to read, but whose house is deluged with useless fancy work of her own construction. Would it not be well for her to allow the elegance of simplicity and intelligent conversation to make up for a lack of blue worsted dogs and hand-painted scoop shovels? There is another who devotes all her spare time to calling on her neighbors and going shopping, who couldn't think of joining a literary society because it would take her so much from home.

Then there is the novel reading woman. She is the only case in which I should advise more work and less reading. She is a drug on the market. The ideas of life are perverted, her strength is sapped by her emotion, she is a morbid, over-sensitive, dissatisfied woman. Show me a novel-reading girl

and I will show you a dismal failure as a woman. She will be the first to find out that her husband is not a prince, that her babies are not cherubs, that life in general is far from her ideal. We pity her, but with the wealth of noble literature with which the country is provided there seems small excuse for her. I should suggest as a remedy that work be supplied in plenty and reading with such scarcity that even an article on metaphysics would be refreshing to her. Perhaps I am fanatical upon this subject, but when I am asked shall women read more I say yes, most decidedly yes, if they will let alone the worse than trashy novels with which the country is flooded. Put cigarettes in the pockets of your boys but keep novels by Ouida, Amelia Rivers and Tolstoi out of the libraries of your girls. The one may destroy the body, the other may destroy the soul.

Then there is the great class of women whose bodies are overworked and whose minds are underfed. Women who are worn and weary with much serving, whose lives are one dreary round of duties that are never done and the monotony of whose existence is never broken. Statistics show that our insane asylums are being filled with just such women. The primary cause cannot be found in work. It may and undoubtedly does injure the health of many but it does not the mind.

A husband never spends a dollar to better advantage than when he invests it in a book for his wife, and a daughter can never lay up happiness for future years in a more realistic way than when she takes the mending basket from the tired hands of her mother and replaces it with a newly cut magazine."—Enterprise.

### A MISLEADING LETTER.

Investigated by a Sentinel Reporter.

Indianapolis Sentinel, Jan. 29.

There has recently appeared in the papers of Indianapolis and throughout the state the following letter purporting to emanate from Secretary Cook, of the Indianapolis Board of Health: "In reply to your favor of the 20th inst. we will say that the Indianapolis Board of Health has never made a recommendation regarding bakers' powder. It has never endorsed or condemned any brand."

This letter as it appears in the paper as an advertisement is addressed to no one and had such a "fishy" look that a reporter for the Indianapolis Sentinel was led to investigate. He called first on Dr. Frank A. Morrison, president of the Board of Health, and propounded to him the following questions:

1st. Did the Board of Health of Indianapolis authorize and direct its chemist, Dr. Peter Latz, to make an examination of certain brands of baking powders?

Dr. M.—Yes, a qualitative examination of all brands on this market.

2nd. Did not Dr. Latz state in his reports that the following brands were found by him to contain alum or ammonia or both? viz: Atlantic and Pacific, Calumet, Crown, Early Rising, Forest City, Kenton, Queen, Bon Bon, Royal, Rucklehaus, Seafoam, Climax.

Dr. M.—Yes. 3rd. Did not the report further state that alum and ammonia were generally regarded by physiologists as detrimental to health and therefore injurious ingredients.

Dr. M.—Yes. 4th. Did not the report further state Dr. Price's Cream Baking Powder contained no deleterious ingredients.

Dr. M.—Yes. 5th. Do you personally regard alum and ammonia as detrimental to health and therefore injurious ingredients in a baking powder?

Dr. M.—Officially I decline to answer; personally I do regard them as injurious.

Dr. George J. Cook, Secy. of the Board of Health, was next visited at his residence and the same queries put to him. He made substantially the same replies as Dr. Morrison, except that he was doubtful whether question No. 3 was in the report as filed by the Board, although he was sure that it was in Dr. Latz's original report.

When Dr. Cook was asked whether he regarded alum and ammonia as detrimental to health and therefore injurious ingredients in a baking powder, he, like Dr. Morrison, declined to make an official statement, but said personally that he would not knowingly use a baking powder containing either of them if he could get a pure Cream of Tartar powder.

These questions and answers seem to cover the ground pretty thoroughly, and whichever of the companies manufacturing a powder condemned in the city chemist's report is trying to use this peculiar fragment of a letter to break the force of its fall, will not derive much benefit from the scheme.

COUNTY.

Miss Sarah McCarty, of Augusta, died on Feb. 2d. Chas. Tarbell, of Chelsea, has been granted a pension. South Lyon now has a singing school with sixty members. Dexter now has a cigar factory. H. Rogers is the proprietor. Miss Mary Graves, of Mooreville, died Jan. 28th, aged 75 years. Chelsea is a good peanut town. One firm there sold 250 bushels during 1891. John Kuster has purchased a half interest in Fairchild's meat market at Ypsilanti. St. Mary's church, at Chelsea, is out of debt and has a balance in the treasury. On Jan. 28th, John R. Moore, one of the pioneers of Lyndon, died, aged 71 years. Frank Cosgrove fell on a slippery sidewalk at Ypsilanti, last week, and broke one of his arms. On Feb. 27th, seven directors of the Chelsea Recreation Park Association are to be chosen. W. D. Mead and A. A. Wood have been elected trustees of the Presbyterian Society at Saline. Company C, 1st Regt. M. S. T., has received applications from 39 young men at Britton for membership. An addition is to be built to the Lutheran church at Chelsea. Funds are now being raised for this purpose. Mrs. Polly Powers, of Whittaker, died on the last day of January, after a long illness, aged seventy years. Already contracts have been made for erecting fifteen dwellings in the vicinity of Clinton during the present season. J. Croakin and P. Sloan have formed a co-partnership for the purpose of carrying on the produce business at Dexter. Homer T. Galloway, who has had charge of the Livingston county poor farm for six years, has sent in his resignation to take effect April 1st. Jacob Smith, of Clinton township, died on Tuesday of last week, aged 72 years. He was an old pioneer of that vicinity, having lived in that township since 1835. Following are the directors elect of the Cleary Business College at Ypsilanti: P. R. Cleary, D. W. Springer, W. H. Sweet, E. P. Goodrich and M. O. Straight. The depot at Fowlerville had a narrow escape from being destroyed by fire, a short time ago. It was burned in the floor, but that was about all the damage done. Dundee is on the verge of electric lighting. The council granted a franchise to a company last week, and next Thursday evening will make a contract for lighting the streets. Philip Clark died Sunday last, at his home here. He was one of the pioneers of Waterloo, but came to this place a few years ago. His funeral took place Tuesday.—Chelsea Standard. A quiet wedding took place at the home of Geo. Theurer, south of Saline, last Thursday, the contracting parties being John Rothfuss and Miss Katie Theurer. Rev. Lederer officiated. Wm. W. Torrance has got his pension claim corrected. The claim was badly mixed with a fraudulent one, made by a man in Bay City, upon Mr. Torrance's record. The Bay City man has skipped to Canada.—Milan Leader. The Farmers' Alliance and co-operative association, of Gregory, was transferred on Thursday last to the National Union. U. A. Gates will be in charge of the stock the same as before. They expect to put in \$8,000 or \$10,000 worth of goods.—Pinckney Dispatch. Grass Lake. William H. Walker, for the past sixty years a resident of Grass Lake, and one of the most prominent business men, died at his home here Thursday, aged sixty-eight years. He was a zealous member of the Methodist church, a Royal Arch Mason and was held in the highest esteem.—Tribune. A few days since while C. B. Isbell was leading a young horse out in the yard by some sudden cause the horse fell, Mr. Isbell losing hold of the tie-strap and in reaching for it the horse jumped to its feet at the same time striking one of the shoe corks upon Mr. Isbell's finger, severing it close to the second joint.—Saline Observer. Oscar Kirchgessner and Albert Morschhaeuser, who works in the bakery, were cutting wood Tuesday afternoon when Albert got in the way of Oscar's axe, and the result was a gash cut in the top of his head. It was not a dangerous wound, however, but it was hard to tell which boy was the most frightened. Dr. Lynch dressed the wound and made the lad as comfortable as possible.—Manchester Enterprise.

The united efforts of the ladies of North Webster and South Hamburg have given birth to a society known as the Ladies' Benevolent Society. The object of this society is to aid the worthy poor wherever found and to educate in its members a true missionary spirit. The officers are as follows: President, Mrs. A. Olmeyer; vice-president, Mrs. A. J. Sawyer; secretary, Miss Mabel Pryor; treasurer, Miss Blanche Butler.—Dexter News. The management of the Dundee Agricultural Association have decided to give the free use of the track and stalls on the grounds to all owners of trotting horses during the coming season, for driving and training of such horses. The track has a most excellent reputation among horsemen of the state and far beyond as being the best track in the state, and this action of the management will doubtless bring to Dundee the best class of horses for training. Several horsemen have already given notice of their intention of being here with a string of fast steppers.—Reporter. Emery A. Stowell has purchased from H. Walting & Son, the Eureka roller flouring mill in this village, and soon will assume the management thereof. Mr. Stowell will doubtless prove a popular manager of the mill and conduct a large business. It is a finely equipped mill and has enjoyed a goodly patronage under the management of its founders, Messrs. Walting, but owing to poor health of each they find it necessary to retire therefrom. In the deal Mr. A. Walting takes Mr. Stowell's farm near Belleville, and designs to soon remove thereto and engage in farming.—Reporter.

Specimen Cases. S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and Rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him. Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg, doctors said he was incurable. One bottle of Electric Bitters and one box of Bucklen's Arnica Salve cured him entirely. Sold by Eberbach & Son, Ann Arbor; and Geo. Haussler, Manchester, drug stores.

The debtor may have the consolation of knowing that there is always somebody thinking of him.—Columbian Post. Starting Facts. The American people are rapidly becoming a race of nervous wrecks, and the following suggests the best remedy: Alphonso Hempling, of Butler, Pa., swears that when his son was speechless from St. Vitus dance, Dr. Miles' great Restorative Nervine cured him. Mrs. J. R. Miller, of Valparaiso, and J. D. Taylor, of Loganport, Indiana, each gained 20 pounds from taking it. Mrs. H. A. Gardner, of Vistula, Ind., was cured of 40 to 50 convulsions a day, and much headache, dizziness, backache and nervous prostration by one bottle. Trial bottles, and fine book of marvelous cures, free at Eberbach & Son's, who recommend and guarantee this unequalled remedy.

Dexter. Charles Dwyer was here on business a few days last week. John Bohnet, of Chelsea, was visiting friends here last week. A dance at Wm. Smith's on Friday, Feb. 5th, was well attended. E. Beck's saloon was closed Friday by the sheriff on account of a note not being paid when it became due. George Vinkle has sold his house and lot on B. st. to Mr. John Schieferstein, sr. George has been working in Port Huron for some time. John O. Thompson, editor of the Dexter News, and Miss Mary Harrington, both of Dexter, were married Jan. 30th, at the house of the bride's mother. H. J. Rogers will soon start a cigar factory here. He has rented the Smith store and will use both stories for his business, which will give employment to five or six men. Reider Bros. have moved Bilby's old shop back and will soon begin building their carriage repository and work shop, which will front on the street. D. L. Sackett is doing the carpenter work. B. F. Arksey will soon move in his building which has just been vacated by Reider Bros. Mr. Arksey intends to go into the carriage business again. Mr. Fisk, an expert horse-shoer, will occupy the basement.

Is He Your Friend? Is the family doctor your friend? How many unnecessary visits does he make you? WEALTH—Is something which people seek, and which few are indifferent to no matter what form it presents itself in. "pecuniary" which is used in speaking of a man's wealth, comes from the Latin word which means cattle, and is formed by a man's wealth being by the cattle he possesses. Wealth is not in silver, and in gold no matter in what a man may consist, it is all vanity and of no avail unless in connection with health. It is fully understood this when "the first wealth is health." I have no doubt if he had known the virtues of S. S. S. that he would recommended its use to all suffering from the diseases for which it is recommended. Treatise on Blood and Skin mailed free. SWIFT SPECIFIC CO., Atlanta, Ga.
