#### Death of Nelson Booth.

Nelson Booth died at his home, No. 48 E. Liberty street, Tuesday morning, of consumption, aged 52 years.

The deceased was born in Lodi township in January, 1840, and has lived nearly his whole life in this county. He was educated at the University of Michigan. Until 1880, he was engaged in farming, owning one of the best farms of 400 acres in Pittsfield township. He purchased a half interest in the old Gregory house, and was engaged in the hotel business until his health failed. He was a sufferer from consumption for a number of years and spent several years in Mexico and the southwest, in an attempt to regain his health, but without success. He returned to Ann Arbor about two years ago, and for several months has been confined to his house. He leaves a widow and one son—Walter H. Booth.

#### Hon. W. C. P. Breckenridge.

William Campbell Preston Breckenridge, the representative of the Lexington district of Kentucky, was born at Baltimore, August 28th, 1837. After his common school education was finished, he entered Centre college, of Dansville, Kentucky, then took up the study of law at the University of Louisville, Ky., and received his degree on Feb. 27th, 1857. He was elected to the 49th and 50th congresses, and was re-elected to the 51st congress as a democrat, receiving 20,920 votes, against 13,265 votes for A. M. Swope, republican, and 734 votes for Alfred Cobb, prohibitionist. Mr. Breckenridge comes from a family of orators and is, himself, regarded as one of the most brilliant orators on the democratic side. His father was a celebrated Presbyterian clergyman. He was also, at one time, professor of Equity Jurisprudence at Cumberland College.

Mr. Breckenridge will lecture before the Students' Lecture Association, on Saturday evening, March 5th, having for his subject, "Southern Problems."

#### The Ladies Do the Honors.

It takes the ladies to do things right, and it is fortunate that leap-year comes every fourth year in order that the ladies may have the privilege of setting an example for the gentlemen to follow during the following three years. The ladies of Ann Arbor Commandery certainly took advantage of this privilege and set the Sir Knights a sample that will bankrupt them if they should attempt to give a similar series of parties to that given by the ladies at Masonic Temple, last Friday evening.

The ladies fairly out-did themselves. The spacious rooms were decorated and adorned in a handsome manner. The dainty handiwork of the ladies was seen on every side. Bunting, flowers and pictures were displayed in profusion. The well-laid tables in the banquet room were a sight to set a hungry man crazy, the delicacies being prepared by the ladies themselves. Three large tables were set, ropes of smilax extending from the chandeliers

to groups of potted plants on the tables.

Dancing was carried on in the large main room and in the drill room, the Chequamegon furnishing two orchestras for the occasion. The ladies did the honors well, and their partners had nothing to complain of in the way of attention. Those gentlemen who had been lax in their attentions heretofore were paid off, the ladies quietly leaving them to adorn the walls and talk to each other. The programme was a long one, it being nearly three o'clock when it was finished. About 125 couples were present, and the occasion was one of the most enjoyable ones ever given here.

#### The Michigan G. A. R. Encampment.

The finance committee that has been soliciting subscriptions for the coming G. A. R. encampment has met with unusual success, and nearly the entire amount needed has already been subscribed.

At a meeting of the executive committee, on Tuesday evening, a number of minor details were arranged. The badge committee was instructed to have a medallion of Gen. Sherman struck on the badges for the occasion. The following additional committees were announced:

Printing—C. B. Davison, Robert Shannon and H. A. Sweet.

Decoration—Harrison Soule, James H. Wade, Hamilton Reeve, Conrad Noll, Eli S. Manly and Warren E. Walker.

Music—Robert Campbell, W. H. Jackson, Alvin Wilsey.

Campfires—W. K. Childs, George H. Pond, W. J. Herdman, P. B. Rose.

Accommodations—J. Q. A. Sessions, J. M. Perkins, A. F. Martin, F. Pistorius, P. Irwin, James H. Webb.

Badges—Henry S. Dean, Charles H. Manly.

#### Resolutions of Respect.

At a meeting of the wardens and vestrymen of St. Andrew's church, held February 24, 1892, the following memorial resolutions were unanimously adopted by a standing vote:

Resolved, That as we behold the vacancy in our number to-night, we realize with more than ordinary acuteness that Death loves a "shining mark," and while we bow with humble submission to the dispensation, yet it is with profound sorrow that we miss from our official circle and from our parish our brother, Charles H. Richmond, who for so many years of faithful stewardship has been untiring in his devotion to the welfare of his beloved church, till when the dread messenger so recently came, he was found still at his post, our honored and respected senior warden.

Resolved, That in placing on record this slight testimonial to the worth of our lamented brother we cannot better express our high appreciation than by certifying how deeply we realize that it must be many years before we can hope to fill so well the place made vacant in our number by his loss. Always present when duty called us together, ever ready with wise counsel in the various emergencies of parish life, by his manly adherence to conscientious convictions, by his orderly and systematic attention to business details, by his incorruptible integrity and wide experience in positions of honor and trust, by his quiet and unostentatious demeanor as a citizen and fellow parishioner and by his willing devotion of all of these to promote what he believed to be the true and best interests of the church and parish, he has made a lasting impression upon the history of St. Andrew's. Such was the lamented brother whose loss we mourn, and with whose family we deeply sympathize.

Resolved, That the secretary spread these resolutions upon our records, certify a copy of the same and transmit it to the bereaved family and cause their publication in city papers.

CHARLES S. DENISON,  
Secretary.

#### Sewers Receive a Set-Back.

The sewer election on Monday excited considerable interest, and an unusually large vote for a special election was polled. The friends of the project were active and got out, while the opponents of the proposed system were likewise at work. There were 1405 votes cast as follows:

No..... 809  
Yes..... 1497  
Majority No..... 206

Five votes were thrown out as being illegally cast, two or more ballots being folded together.

While the vote of Monday was against the proposition submitted, it does not necessarily follow that the vote shows that our citizens do not want sewers. Many of those who voted "No" on Monday, are heartily in favor of sewers, but they do not approve of the present system, nor of the method of paying for the sewers. Nearly every citizen has a different plan to present, and the result of the special election will be to get these parties together and unite upon plans which will be acceptable to all.

#### A Deplorable State of Affairs.

On Sunday evening no less than three attempts at criminal assault occurred in this city, right under the shadow of the dome of the University. The ladies who were the victims of these assaults, none of whom were seriously injured, have requested that their names be withheld, and for this reason the Argus is unable to give the statements of the dastardly outrages. The attempts, from the clues furnished the officers believed to be the same man, were bold and brazen, more the acts of a crazy man than of one in his senses. One assault was made in the house of one of our professors, another within half a dozen feet of the door of another professor's residence, and the third not twenty feet from the residence of the lady and within the hearing of her son's voice.

These attempts have been the subject of comment among our citizens generally during the week and should the villain be caught, the result might not be that contemplated by the law. It is a fact that within the past six months not less than nine criminal assaults have been attempted in this city. None of these have proven successful fortunately. The officers are using every effort to get some clue to these latest outrages, but it is very doubtful if he will be caught as the descriptions of the villain are very meager.

#### Washtenaw County and the World's Fair.

Washtenaw county has "faired" well at the hands of the State World's Fair Board, which has nearly completed the appointment of the committees throughout Michigan. The following will be the representatives from this vicinity who will act in conjunction with others in making the Peninsula state's exhibit worthy of our commonwealth:

Second Congressional Committee—Jackson county—M. G. Loenneker, chairman; Charles H. Higdon, E. W. Barber, William H. Withington, James O'Donnell, Jackson; L. D. Watkins, Manchester. Lenawee county—Geo. D. Horton, chairman, Fruit Ridge; L. C. Baker, Lafayette Ladd, William Humphrey, L. W. Hoch, Adrian; Geo. S. Tiffany, Tecumseh. Washtenaw county—Henry S. Dean, chairman; Frederick Schmid, William April, S. W. Beakes, Ann Arbor; C. H. Kempf, H. D. Platt, Ypsilanti. Monroe coun-

ty—John Strong, chairman, South Rockwood; H. A. Conant, Walter Hackett, Monroe; A. C. McCormack, Grafton; C. M. Roe, Erie.

The members from this county, who have been appointed on the auxiliary committees to assist in the work, are as follows: Paper and paper stock, Clark Cornwell, of Ypsilanti; cattle, W. E. Boyden, of Delhi Mills; sheep, A. A. Wood, of Saline; poultry, Geo. J. Nisley, of Saline, and C. W. Mansfield, of Ypsilanti; pomology, E. H. Scott, of Ann Arbor, and L. D. Watkins, of Manchester; millers' products, G. Frank Allmendinger, of Ann Arbor; music, A. A. Stanley, of Ann Arbor; food supplies, Dr. V. C. Vaughan, of Ann Arbor. The complete committee on educational exhibits, which yet remains to be appointed by Chairman Weston, will undoubtedly include a good representation from Ann Arbor and Ypsilanti.

There are nineteen persons at Dundee who want to handle the U. S. mails at Dundee, under watchful eye of Postmaster Johnson. That official is satisfied with his present force and the illustrious nineteen will have to wait.

On Tuesday evening, the children of school district No. Seven of Scio township, held a Washington's birthday entertainment at the school house, the purpose being to raise funds for the Michigan educational exhibit at the World's Fair as well as to honor the memory of the father of his country. The net proceeds for the fund were about \$1.

Prof. Bert Walker, the young aeronaut who left Milan, the first of last December in company with M. N. Burgess for Hong Kong, China, arrived there the 3rd day of January, and writes an Adrian friend a short descriptive letter of his trip and present surroundings. He is making balloon ascensions.—Milan Leader.

The Toledo Bee, Blade and Commercial are in a peck of trouble for publishing naughty things about George E. Hause, formerly of this village, now a teacher at Fostoria, Ohio. Last Saturday he brought suit against these papers for \$15,000 each for publishing a statement last December that he was a bigamist and an adulterer, which George declares wholly false and malicious.—Milan Leader.

Saturday, Mr. C. V. Paul met with a severe accident while at work at his farm, east of village, about a shed. The side of the shed fell, striking him on the leg below the knee. He was taken up and carried into the house by his son-in-law, Curt Reynolds. While doing so the bone was heard to snap. Dr. Richardson was called to attend the injury, and placed the leg in a plaster cast.—Dundee Reporter.

A Dexter barber recently moved into a building formerly occupied as a military store, and has been in hot water ever since. The ladies think, or pretend to do so, that it is still a place where they can get hats and ribbons, and now flock to the store in larger numbers than ever, much to the annoyance of the proprietor, who is both a bashful and a married man.

Webster is one of the townships where the farmers are noted for raising big crops and good stock. John Stanton is one of the progressive men who help to give her that reputation. He is always up with his neighbors, but last week Friday he

knocked out all previous records by selling to Jedele & Stabler the finest flock of sheep ever marketed here. The flock numbered 91 heads, and the average weight per sheep was better than 124 1/2 pounds. If any of our friends, or John's, can beat that we should be glad to hear from them.—Dexter News.

One day last week as Horace Wisner was driving by Iron Creek pond, he saw a little girl in the water, and lost no time in reaching the spot and rescuing her just as she was going down for the third time. It proved to be Ora VanValkenburg, and he wrapped her in a blanket and took her home. She was alone, and had not Horace come along just as he did, she would certainly have been drowned.—Manchester Enterprise.

They had quite hurrying times at the southern brewery last Saturday. The injector refused to work and the water in the boiler got low, the steam raised rapidly and was oozing out at every joint filling the building like a fog. The men became alarmed and ran to the house and informed Mr. Koch, who was sick. He hastily dressed and going to the brewery attached the steam pump, probably just in time to avoid an explosion.—Enterprise.

Rev. Kilpatrick, formerly pastor of the Congregational church here, but for some time past shepherd over a similar denominational flock in a county north of us, is not having clear sailing. He has been promulgating doctrines not considered orthodox by the officers of the church and they asked him to resign. Thereat the congregation got its back up and ordered him to stay. And stay he does, of course.—Grass Lake News.

It is an undeniable fact that Fowlerville is one of the best markets as well as mercantile towns in this part of the state, notwithstanding she may not contain as large a number of inhabitants as some of our sister towns, yet she has a fine farming country tributary to it to make up for the deficiency in the number of population. The large amount of produce brought to town and the large amount of goods carried away proves this to be true.—Fowlerville Observer.

Frank Keller, the young pugilist who is doing his part to give Ypsilanti notoriety, met a Waterloo at San Francisco, Monday evening, in a match with Billy Smith. So far as the reports go, Keller seems to have had the best of the battle for 18 or 20 rounds, but Smith finished him in the 24th. The match was before the California Athletic Club, for a purse of \$1,500.—Sentinel.

Backus & Smith, of Webster, sold the first of the week in the Buffalo market, an unusually fine flock of half-blood lambs. A flock of over 180 lambs averaging 100 pounds each is a figure not often reached among sheep feeders; yet Backus & Smith reached that figure in their flock last Monday, and we are inclined to think they can give the ordinary sheep-feeder some strong points on the care of sheep. Over seven cents per pound was realized.—Dexter News.

Jacob Schmetter, who has been working for Conrad Hafner, presented an order to one of our merchants, last week, with his employer's name signed to it, and received about \$35 worth of clothing, after which he left town. When it became known that the order was forged, a warrant was sworn out, and placed in the hands of deputy sheriff Staffan, who arrested Mr. Jacob in Detroit last Friday. He is now in jail at Ann Arbor awaiting his hearing, which will take place March 1st.—Chelsea Herald.

A little six-year old daughter of John Sears experienced a cool bath last Sunday. One of the family had been drawing water from the cistern with a hook (there being no pump) and the cover not being securely fastened down when the little child, who was around, stepped into the hole and was soon at the bottom. The cistern is deep and was nearly full of water. The family seeing her fall were soon at the spot and fished her out, though not until she was thoroughly ducked.—Saline Observer.

Postmaster Carpenter assumed the duties of his new position last Thursday morning, with but two changes in the force: Miss Ruth Carpenter becomes assistant postmaster in place of Millard Fletcher, and Mrs. Randall succeeds Miss Cremer as clerk. Harry Wheeler remains mailing clerk and Miss Sewell distributing clerk. Fletcher will go into business, and Miss Cremer will accompany her father to the state of New York.—Sentinel.

Mr. and Mrs. L. E. C. Thorn celebrated their golden wedding on Wednesday, Feb. 17, at their home three miles south of this city, on the farm where they have spent more than four-fifths of their long married life. About fifty guests, mostly relatives, were present to help the bride and groom of a half century ago keep the anniversary. A gold-headed cane, set of gold tea-spoons,

two gold napkin rings and a cake basket were among the "wedding gifts." Rev. M. S. Woodruff, rector of St. Luke's church in this city, making the presentation. An original poem, written especially for the occasion, was given by Miss Luna Marvin, of Utica, and the event as a whole was very enjoyable.—Ypsilanti Commercial.

Frank Whitman, a competent young machinist of this city, has recently completed a five-horse power reversing engine that seems to be a great improvement over those in ordinary use. By the application of a cut-off valve of his own invention, and a simplification of the reversing apparatus, he accomplishes his change of motion with a single eccentric; instead of the two ordinarily used. The same principles can be applied to ordinary stationary engines, but this seems peculiarly adapted to furnish power to steam launches. It is at present in the Worden shop on River street. Castings and work were all done in Ypsilanti.—Sentinel.

The Attorney General of Michigan has decided that fishing with single lines was not a violation of the law. The law was made to prohibit fishing with set lines over spawn beds during the spawning season, which has greatly depleted the stock of fish in many of the inland lakes. A set line is a long line fastened across a stream or poles set in various ways in a lake with numbers of short lines with hooks attached, but single lines used in any way do not violate the law. Any one can fish with single lines through the ice without any fear of prosecution for any violation of the present fish law. Those who enjoy fishing through the ice can breathe the breath of liberty and fish to their liking without fear of the molestation of law or a fish warden.

Last Monday morning, Feb. 15, Miss Ida R. Bostwick, a popular young lady of this city, and Charles F. Wimmer, of Laramie, Wyo., were married at the bride's home, by Rev. M. S. Woodruff, rector of St. Luke's. May Harrison, of Ypsilanti, and Charles S. Spencer, of Bay City, acted as bride's maid and best man. The happy couple took the 8:25 train for the west. They will probably return to Ypsilanti in the spring after an extended trip through Kentucky, Tennessee and the west. Mr. Wimmer is manager and a large stockholder in the Standard Horse Company, whose headquarters and ranch are at Laramie. Mr. and Mrs. Wimmer take with them on their wedding trip the best wishes of the multitude of her lifelong friends, and of the many he has made in his few months' stay in Ypsilanti.—Ypsilanti Commercial.

Feb. 10th being the anniversary of Mrs. Asa Thompson's birthday, a few of the ladies near her age assembled at her home by invitation from her children and gave her a genuine surprise. After spending a short time in pleasant chat Mrs. Byron Thompson read a very nice poem dedicated to their mother, after which the company were invited to sit down to a sumptuous repast prepared by the daughter and daughters-in-law, at which time they presented the mother a beautiful pen holder and pen. There were twelve guests at the table whose united age was found to be 721 years, the eldest being 72, the youngest 44. The boys, Byron and Sylvester, escorted the ladies in their carriages from and to their homes, and all seemed to feel many years younger for having been so kindly entertained.—Stockbridge Sun.

**A Little Girl's Experience in a Lighthouse.**  
Mr. and Mrs. Loren Trescott are keepers of the government light house at Sand Beach, Mich., and are accompanied with a daughter, four years old. Last April she was taken down with Measles, followed with a dreadful cough and turning into a fever. Doctors at home and at Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "handful of bones."  
—Then she tried Dr. King's New Discovery and after the use of two and a half bottles, was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you may get a trial bottle free at the drugstores of Eberbach & Son, Ann Arbor, and Geo. Haussler, Manchester.

A number of chickens and a washing, which was hung out to dry, were stolen of John Hall one night last week. Mr. Hall tracked the thieves through the snow for two hours, but with no result.

**JACK AND JILL.**—There are various accounts as to how the man got into the moon. A common one with us is that he was banished for having been detected by Moses in the act of gathering sticks on the Sabbath. In German legend he committed the same offense, and was given the alternative of being scorched in the sun or frozen in the moon. In Icelandic myth the man becomes the two children familiarly known as Jack and Jill, who were kidnapped by the moon. There we see them stand with bucket or pole across their shoulders, falling away, one after the other, as the moon wanes. And so it is that "Jack fell down and broke his crown, and Jill came tumbling after."  
Now, just as sure as the moon wanes just so sure does disease wane under the influence of S. S. S. The difference being, however, that Jack and Jill never go up the hill any more in the latter case, the eradication of disease by this medicine being complete and permanent.

"It is a pleasure to inform you of the good that S. S. S. has done me. I had blood poison several years ago which had never been eradicated from my system. Last November it broke out in the shape of salt-rheum on the back of my hands. I spent sixty dollars trying to be cured by the treatment of physicians and taking other medicines and never found any benefit from any treatment until I commenced taking S. S. S. That cured me sound and well, and now I feel that I am a well man. I took only three bottles. I have recommended the medicine to a great many people, and find that it is benefitting them as well as myself."  
S. S. BURRELL,  
Horse Plains, Mont.  
S. S. S. never fails to relieve the worst cases of blood poison when taken by the directions, and before some vital organ has become impaired so as to render a cure impossible. We will mail a valuable book on the blood and skin to any who will apply for it.

The only thing which may defeat Cleveland's nomination is the ambition of a lot of small fry politicians to get complimentary votes in the national convention.

The sewerage question is not by any means settled. It is true that on Monday the proposition submitted to the people was defeated on a very heavy vote.

It is said that the question of location was the chief lever used to get the signatures to this protest, but had the subscribers stopped to think a moment they would have seen how ridiculous were the statements made considering location.

Another statement which has been attributed to those who have charge of the protest in order to get signatures is that "President Angell is trying to get the appropriation through, has written several letters on the subject, and his plan is to have the building located near the University."

The sewerage question will be brought up again probably in a modified form, after a few months' rest, and let us hope that the next time the proposition will be such as to commend it to the sober judgment of the people, who, we think, really want sewerage.

It is a question whether or not a petition which is circulated among the public really represents the opinions of those whose signatures are subscribed to it. Often it is the case that the petition is signed merely to accommodate the circulator or to assist the person in whose interest the paper is circulated.

It has often been said that a good-sized petition can be secured "to hang almost any man in town." While this is an exaggeration, petitions can be secured for or against almost any project, no matter how worthless or how beneficial it may be.

Ann Arbor has a specimen of this at present. The congressman from this district is making an effort to secure for Ann Arbor a government building and he has good prospects

for success. The common council passed a vote of thanks to Congressman Gorman and urged him to use every possible means to secure the passage of the bill. A government building is needed here, as everybody who has occasion to visit the post-office any evening between the hours of six and seven will admit.

Ann Arbor has everything to gain and nothing to lose from the passage of such a bill, and when the subject was first suggested it was far from anybody's thought that there would be the slightest objection. Nor does the Argus believe that there is any real objection except in one quarter, notwithstanding the fact that it is reported that several hundred of our citizens have signed a protest against such an appropriation.

The ticket must be printed in the same form as is provided in the general law, and the board of election commissioners for the township, city or village, must furnish the ticket. They can get the printing done at such places as they choose.

It is not intended, however, that any person who desires to run for office shall be prohibited from furnishing slips, or seeking, within the provisions of the law, to have his name written or pasted on the ticket by electors when they are preparing their ballots in the booths.

The question resolves itself to this: Do the citizens of Ann Arbor desire a public building? If they do, they can have it without the cost of a cent to the city. All that is needed is a united support of the bill now before congress, and the chances are that the building will be forthcoming.

So much discussion has been had over the question as to whether or not the election law passed by the last legislature applies to local elections, that the Attorney-General has given his opinion in regard to it. The elections take place in this county within a few weeks, and that none of our officers may make an error in regard to the matter, the Argus prints the following opinion received from Attorney-General Ellis:

DEAR SIR: There have been so many questions asked by local officers of various townships, incorporated villages and cities, relative to the application of the general election law to local elections and town meetings to be held in the spring of 1892, that I desire to say to such officers, through the medium of your paper, that:

Act No. 190 of the Public Acts of 1891, known as the general election law, as limited by Act No. 194 of the Public Acts of the same year, applies to all local elections held in the various cities, villages and townships of this state. That such elections must be held according to the provisions of said general law, so far as the same are applicable thereto. It is provided among other things, in section one of Act No. 194, that, "all the provisions of such general law relative to the arrangement of polling places (which would include the providing and arrangement of booths), the manner of voting and receiving of votes, and the canvass and declaration of the result of such election, are made applicable to such municipal and township elections;" but the time for opening and closing of the polls shall not be affected by reason of Act No. 190.

The time for opening and closing of the polls in township elections is controlled by section 704 of Howell's Statutes, which provides that:

"The polls shall be opened at nine o'clock in the forenoon, or as soon thereafter as may be, and shall be closed between the hours of three and six o'clock in the afternoon, and the inspectors shall cause proclamation to be made at least one hour before the closing of the polls, that the polls of the election will be closed at or within the specified hour, naming it."

Section two, of Act No. 194 provides that:

"The township board of each township, and such persons as shall be elected therefor by the common council of the various cities and villages in this state, shall be the board of election commissioners for such township, city or village respectively, and shall perform such duties relative to the preparation and printing of ballots as are required by law of the board of election commissioners of counties, and the like duties and privileges as are enjoined and granted by the laws governing general elections, upon the various committees of the different political organizations, are hereby prescribed for the city, village or township committees, in elections held pursuant to said act; except that no vignette or heading for the ballot, other than the name of the party shall be necessary."

It will be necessary to hold the caucuses for the nomination of candidates at least five days before election day, as section three of the act provides that "the names of candidates shall be given in by the committees of the various political organizations, to the board of election commissioners of such municipality, not less than five days before each election, and the proof copy of the ballot shall be open to the inspection of the chairman of each committee at the office of the township clerk, and city or village clerk or recorder, not less than two clear, secular days before such election."

The words "political organizations" or "political party" used in this act, must be construed to mean any respectable body of citizens who are electors of any township or election district, and who assemble themselves together in the manner provided by law, and hold a nominating caucus or convention.

Hence it is only necessary, in order for a person to have his name printed upon the ticket, that he should be nominated by a respectable body of electors properly assembled, who are entitled to vote for him at the election.

Any person who is not nominated, or who is placed in nomination by persons who reside outside of his election district, would not be entitled to have his name printed on the ticket.

It is not intended, however, that any person who desires to run for office shall be prohibited from furnishing slips, or seeking, within the provisions of the law, to have his name written or pasted on the ticket by electors when they are preparing their ballots in the booths. All such votes and the votes for any person, when on the ballot, should be counted under the same directions as govern the counting of votes for regular candidates whose names are printed on the ballots.

By section 4, of Act No. 190, it is provided: "No election district or voting precinct under the provisions of this act shall contain more than five hundred electors according to the poll lists of the last preceding general election. When any election district or voting precinct shall contain over five hundred electors it shall be the duty of the township board in townships, and the city council in cities, to divide such voting precincts into two or more election districts."

In case the division is made in a township or incorporated village, the provisions of chapter eight of Howell's Statutes, are to apply and govern such division.

If the division is made in cities, and there are no special provisions in the city charter existing relative thereto, then the division, the election commissioners, and the election inspectors, and all matters arising by reason of the division, must be provided for by ordinance of the common council. The common council has power to make all necessary rules and regulations in connection therewith, to fully carry out the provisions of the law.

In all voting precincts in cities where there are special provisions in the charter for designating inspectors of election, in cases of division of voting precincts, such inspectors should be designated as directed in the charter and would be the inspectors of election under the law.

A. A. ELLIS, Attorney-General.

Will Probably Get a Pension.

The Washington dispatches of Monday give the following concerning a Washenaw county lady.

"The bill to pension Mary Jewett Telford has been favorably reported by the House committee on invalid pensions. She performed services as nurse in Nashville, Tenn., and on November 28, 1863, was commissioned at St. Louis, Mo. Her services as nurse were rendered under the name of Mary Jewett. She was discharged from the service as nurse in 1864, and returned to her home in Lima, Washenaw county. Her severe work in hospitals brought on spinal difficulty and nervous fever, which compelled her to withdraw from the service as nurse. Her services as nurse are fully established by affidavits and letters. She was a healthy woman when she commenced her duties, and she has not been healthy since that time. She is totally incapacitated for mental toil, and is able to perform but little physical labor. She was married to Jacob Telford in 1864, at Lima, and her husband is living and receiving a pension of \$8 per month for a gunshot wound through the groin at Stone River, Tenn., while he was a member of Company D, Fifteenth Indiana Infantry."

TESTIMONIALS.  
"Any book written by Russell H. Conwell, of Philadelphia, will be graphic, interesting, and stored with fact and suggestion. His life of Rev. Chas. H. Spurgeon cannot fail to be this."  
—J. M. GELSTON, Pastor, Presbyterian church.  
"Russell H. Conwell is well known to Ann Arbor audiences as a master of stimulating oratory. It is only necessary to add that he is carrying on a church in the new Grace Temple, Philadelphia, and Temple College more like that of Mr. Spurgeon than any other man. He is doubtless well fitted to write such a book as will be of intense interest to this subject."

The regular monthly social was given by the ladies of the M. E. church last evening.

Miss Catharine H. Carroll, of E. Ann street, died on Wednesday of consumption, aged 24 years, 6 months. The funeral will be held tomorrow morning at 9 o'clock. The affliction falls heavily on the family, as it is but a few weeks ago that a son died from the same cause.

Officer Eaton, of Ypsilanti, was in the city yesterday looking after a thirteen year old girl who had left her home in that city and started out in life on her own account. The girl's name is Jennie Stephenson and her mother lies almost at the point of death. The girl was seen in the city Wednesday night, but yesterday the officers could find no trace of her.

One son died a few months ago and a daughter several years since, both from this same disease. The funeral was held on Monday afternoon, Rev. C. A. Young officiating.

James S. Schoonhoven, of Elgin, Ill., who was arrested by Sheriff Dwyer last week, was before Justice Butts, Wednesday, for examination on the charge of perjury in connection with a divorce in the circuit court last fall. He waived examination and gave \$2000 bonds for his appearance for trial at the May term of the Circuit Court.

Otto Eberwein, a clerk at Hutzel & Co.'s, was seriously burned about the face, neck and hands this morning at eight o'clock. He went to the cellar to draw some iron varnish, which in some way caught fire and exploded. Eberwein, although badly burned then, fought the fire until he had it extinguished, receiving several other burns. Fortunately, his eyes were uninjured.

A world of truth is found in the following clipping: "In the beginning God created the heaven and the earth and all things therein. He then created men and women and left the loafers on the corners and in due time they multiplied and spread into the depot, postoffice and stores. In the latter place they sit and explain state and national problems that have vexed great minds and exist by partially sampling goods. While he is thus engaged, his wife is out washing for his neighbors and the poor, helpless children are left at home to care for themselves as best they can."

Alexander, the Nast of the Ann Arbor Argus, presents Congressman Gorman in the act of placing a ladder against a tall tree, from a high limb of which swings the proposed new government building, like an oreole's nest. Gorman is going to climb the ladder and pluck down the building for the Ann Arbor people. There is one trouble about the cartoon—the ladder is too short to reach the limb, (which, by actual measurement, is an inch too high, he is going to lose his balance, strike the earth with a "dull thud," and break his neck. But suppose he doesn't, how in the name of the saints is he going to hang on to things and pluck the building too, having but one arm? Mend the illustration, Mr. Cartoonist.—Adrian Press. You are mistaken in your measurements, Mr. Press. That ladder is just the right length, and you'll see Gorman bring down that plum in safety.

One act transpired at the opera house, Tuesday evening, which was not down on the programme, Sheriff Dwyer and several of his deputies taking the leading parts. An attachment was sworn out against Mr. Cleveland by a man named Hall, who had been in his employ in another company for three years. The claim under which the attachment was taken out was a disputed one, and neither party would give in. The attachment was served just before the curtain rose, the property levied upon being the handsome silk draperies which

were used in the first part. The curtain rose, and the first part was nearly over, when Hall demanded that the officers take immediate possession of the property. The curtain was lowered, the drapery removed, and the management making an explanation of the trouble to the audience the performance went on without further interruption. Mr. Cleveland furnished bonds for the amount of the property, and it was released by the sheriff.

A new system of voting goes into effect at the coming election. The system is so radically different from the old one that many mistakes are liable to happen. A good scheme and one that has been adopted in many places, would be for the council to establish schools of instruction and demonstrate the practical workings of the new methods.

Goldrick, of Northfield; Fr. O'Rourke, of Wyandotte. Each of these gentlemen made happy remarks.

And said main track, side track and turnouts shall be constructed under the supervision and to the satisfaction of the Board of Public Works.

SEC. 3. The power used to propel the cars used upon said road shall be animal, electrical or steam, and they shall not be propelled at a speed exceeding six miles per hour and shall be in force as often as the City Council shall prescribe.

# CHEATING IN HORSE BLANKETS

Nearly every pattern of a Horse Blanket is imitated in color and style. In most cases the imitation looks just as good as the genuine, but it hasn't the warp threads, and so lacks strength, and while it sells for only a little less than the genuine it isn't worth one-half as much. The fact that Horse Blankets are copied is strong evidence that they are THE STANDARD, and every buyer should see that the A trade mark is sewed on the inside of the Blanket.

Animated by the first breath of spring, the local politicians of Washtenaw are beginning to crawl out of the cracks.

Betsy Wilson, of Ypsilanti, has sued William Washington at the law, William having secured the use of Betsy's affections, which he neglected to return. The parties are high life colored folks, and the affair casts a gloom over the community.

Rev. John L. Davis, pastor of the African M. E. Church, of Ypsilanti, makes lamentation and charges that the pastors of white churches slight him and fail to properly recognize him. Can such things be, in the land of the free and the home of Capt. Allen? "Help, Lord, for the godly man ceaseth," in Ypsilanti!

Horrible threat by the Saline Observer:

There is an individual belonging to the male rank, and well along in his teens, in our vicinity, who is fitting himself for that home where moss and rust doth corrupt, and where hash is the chief luxury for breakfast. Deviltry is his only idoll and the cord of his freedom is shortening unless he mends his ways very soon.

Prof. Reighard is a university professor and has made a discovery that shall send his name rattling down the funnels of fame through ages yet to evolve. After sitting in long-haired solemnity several weeks over the question of allowing the base-ball team to go east, the faculty of the University has decided to permit it. It is said the umpire is having a coat of mail constructed of aluminum, with a double row of jagged fortifications as an after-defense.

Oscar Kirchgessner and Albert Morschhauser, Manchesterian woodchoppers, were working together the other day, and they by some means becoming entangled in each other's names, Kirchgessner's axe accidentally opened Morschhauser's scalp, Kirchgessner upbraided Morschhauser for getting in the way and dulling his axe.

Nineteen pretty girls filed into an Ypsilanti justice court last week. They were there to see what would be done with the 20th girl who had been saying unpretty things about another. Some said the story was true, "so there!" others that No. 20 was "a mean lying thing," and they "could just bite her head off!" The president of this grotto of nymphs adjourned the case.

Ann Arbor has a Jimmie Blythe-man in the person of Willie Gross, eleven years old, who was recently found by the police skulking about at 3 o'clock in the morning, having stolen during the night \$5.40 and a revolver. As law shields him from the reform school till he is 12 years old he was let go. He is not too young, however, to have the dust fanned out of his pantaloons by losers of cash.

Let us all beware lest our faith be not well founded. From boyhood we have been accustomed to a picture of Christopher Columbus, and until recently never doubted that it was the result of a snap shot from a kodak. Now comes Prof. Adams, of Cornell, to Ann Arbor, and gives it out that no two pictures of Columbus agree, and that it is doubtful whether a picture of him was ever taken. Again, we had been led to suppose that the tracks of Columbus where he jumped ashore at San Salvador, were still visible in the clay. Adams says six islands lay claim to being the first that was pressed by Columbus' "No. 13s." We had grown up in the belief that Christopher's remains were resting in Havana. Adams says they are at San Domingo. The great question with which we are now confronted is: Was there any Christopher Columbus anyway, or is it all razzle-dazzle.

BEECHAM'S PILLS for a bad Liver.

The Castalian of '92. "The Castalian is to be out on Tuesday."

The Castalian of '92 is in no way inferior to its predecessors, and in many points it surpasses them. The volume contains 206 pages of well chosen literary matter, most of it being the work of students, the results of prizes offered by the managing board. The book contains twenty-eight full-page cuts, also drawn from designs furnished by students. The mechanical work on the book is without a flaw, the paper being of a superior quality and the printing in a seal brown ink, which renders a novel and pleasing effect. The cover is black, flexible cloth with a scroll "U. of M., Castalian, '92," heavily embossed in gold.

The frontispiece is a full-page photogravure of the Waterman Gymnasium, which is soon to adorn the campus. The dedication shows a weary-faced maiden holding at arm's length a scroll upon which appears "Dedicated to Our Alma Mater."

The volume contains three excellent cuts of as many of the university's most popular teachers—Prof. Richard Hudson, Prof. Victor C. Vaughan and Prof. Mortimer E. Cooley. Biographical sketches are contributed of these gentlemen by three of their colleagues in the faculty.

The prize story is entitled, "An Ann Arbor Possibility," and deals with college life, among the "coeds" principally.

One of the most important features in the book is a symposium discussing student life in American, German and Japanese colleges. James H. Tufts discusses the German universities; Herbert B. Adams, student life at Johns Hopkins; Thomas D. Seymour at Yale; Max Winkler at Harvard; and T. Kategoria in the Japanese colleges.

The poetical features of this volume are varied and numerous, and treat of all subjects. The effusions are no less than ten in number, the prize poem being the shortest. It contains but two verses, and is entitled "At One—at Three."

The volume contains a full list of all the class organizations and of all the university societies, each being preceded by a cut drawn for the special purpose. Full-page cuts are given of the members of the base-ball team, the foot-ball team, the glee club and banjo club. Among other good features of the book is a complete list of the literary students, with the Ann Arbor address of each. The "grinds," for once, are good, insinuating personalities being omitted and witty hits on faculty and students taking their places.—U. of M. Daily.

Farms can be had on the crop plan, or long time cash payments. It is not an uncommon thing to pay for a farm from the proceeds of one crop.

It has all of the advantages of an old country in the shape of school, church, market, postal & railway facilities and all the chances of a new country in the way of cheap lands, rich soil, and increase in values.

# The Chicago Herald

Is a handsome sixteen-page weekly newspaper, filled with the most entertaining reading that brilliant minds, well trained in every department of literature, can produce. It has the advantage of the fast-mail service and is delivered at the majority of post-offices on day of publication.

THE CHICAGO HERALD is the foremost journalistic champion of Western interests, and, believing that these are assailed by the protective tariff, it is an uncompromising opponent of a system that takes from the many to enrich the few. THE HERALD is broadly and progressively democratic in politics, but it is bound to no party, save as that party stands for principle and justice. Believing that the safety of the republic now partly a return to constitutional methods, to economy in administration, to the abolition of war passions and to the summary defeat of the powerful interests that have allied themselves with the leaders of the republican party for the purpose of promoting selfish interests at the expense of the whole people, THE HERALD favors return of the democracy to power and will labor intelligently to that end.

A special feature of THE SATURDAY EDITION OF THE HERALD, and one to which much space is devoted, is the weekly record of the progress of the World's Fair, with fine illustrations. This alone makes it indispensable to those who intend to visit the fair, and to those who do not a comprehensive description will be the next best thing. In addition to this THE SATURDAY EDITION OF THE HERALD contains a synopsis of the news of the week, full Market Reports, a Household Department, Completed Stories by popular authors, Book Reviews, "Gossip of the Stage," Base Ball, Turf and Athletic Sports, and last, but by no means least, the news of the world attractively presented and truthfully told. The Choral Union at Chicago.

An invitation from the World's Fair musical committee has been received by Prof. Stanley, for the Choral Union to assist in a grand musical festival to be held in Chicago some time in May, 1893.

An enthusiastic meeting of the Democratic society was held last evening in the law lecture room. In the absence of Mr. Harvey, Mr. McEncroe was chosen secretary pro tem.

A motion prevailed that the society celebrate Jefferson's birthday by giving a banquet, and the following committees were appointed to look after the preliminary arrangements:

Committee to canvass the Democratic students—Messrs. Smith, Kuhn and Wentworth.

A College Education Attacked From a Business Point of View.

A boy is not educated when he leaves college any more than a jockey has won a race after a morning's practice.

Which report was adopted by a yeas and nays vote as follows: Yeas—Messrs. Keech and Schuh—2. Nays—None.

Resolved, That in the matter of the construction of the track of the Ann Arbor and Ypsilanti Street Railway within the city limits, that the report of J. B. Davis this day made be in all things approved and adopted, and that said railway tracks be constructed in accordance thereto, except for the present permission is granted to said Street Railway Company, to lay the centre of the street in front of the lands of Herman Krapf and to run the same along the south line of said street.

The Greatest Strike. Among the great strikes that of Dr. Miles in discovering his New Heart Cure has proven itself to be one of the most important.

PACKARD STREET, OR SOUTH YPSILANTI ROAD, STREET RAILWAY. To the Honorable Board of Public Works, of the City of Ann Arbor.

In the matter of the extension of the motor line into the city of Ann Arbor, along the center line of South Ypsilanti Road, from the present city limits to the old city limits, under the terms of an Ordinance approved February 18th, 1892, I would report as follows:

Said railway must be constructed along the center line of said road at the grade of the same for the top of the rails in the same manner as any other street railway.

Said track should be constructed on track stringers like an ordinary street railway, said stringers to be buried as usual. If this is impracticable, the main track should be constructed as short as possible, not over seven (7) feet in length, and laid thicker than usual if need be to secure the requisite stability of the track.

Any turn-out must be laid so there will be (100) one hundred feet of straight track clear of curves to give standing room for the motor and two cars. The space between the gauge ends of the nearest rails in the branches of the turn-out must be (5) five feet for the cars to pass each other, and for the safety of passengers and train-men.

Which resolution prevailed by a yeas and nays vote as follows: Yeas—Messrs. Keech and Schuh—2. Nays—None.

On motion the Board adjourned. WM. J. MILLER, Clerk.

ADDITIONAL LOCAL.

Lent commenced on Wednesday. "The Festival of Days" netted about \$400 for St. Andrew's parish. The Two Sams now have for an attraction in their windows a pair of handsome Japanese pheasants. The new organ for the Presbyterian church is now in position and will furnish music for the first time on Sunday. Although the sewer question was voted down on Monday, the agitation of the question will yet prove beneficial and will bring forth a plan that all can unite on. George Brooks was brought from Pontiac by Deputy Sheriff Brenner, Wednesday, to answer to a charge of bastardy preferred by a young colored girl of this city. The pulpit at St. Andrew's was filled by Rev. R. E. MacDuff, of St. Paul's church, Flint, last Sunday. He delivered two able discourses, the one in the evening being especially to the young people of the parish. The Topeka, Kan., cotton mill has been destroyed by fire. Loss, \$30,000. Senor Saenz Pana, an independent, will be a candidate for the presidency of Brazil.

Excursion to Detroit.

On Friday, March 4th, Miss Ida Benfey, an impersonator of some reputation, supported by the U. of M. Glee Club, will give an entertainment in the Detroit Rink for the benefit of the Woman's Gym. In order that the people of Detroit may be convinced that the University students are interested in and really want the women's annex to the gym, it is earnestly desired that at least 300 or 400 students go to Detroit to attend this entertainment, on the excursion rates that will be offered. \$1.50 will cover all expenses of the trip, including seats reserved in the best portion of the rink. The size of the U. of M. delegation is likely to affect strongly the financial prospects of the gym. If a large and enthusiastic crowd should attend, testifying to our active interest in the matter, a corresponding interest can be much more easily awakened in the public, and financial assistance will be more readily forthcoming. The attendance of University women is especially desired, in view of their peculiar interests in the matter, and every arrangement will be made to render the trip a pleasant one for them. Several of the faculty ladies, whose names will be published later, will chaperon the girls. The train leaves Ann Arbor at 4:42 on Friday afternoon, reaching Detroit at 6:15, and returns at 10:22 p. m., the trip thus consuming only Friday evening. Round trip tickets, including admission to the rink, at \$1.50, will be on sale during chapel time in the ladies' reading room every morning next week. If at least 100 tickets are not sold there to the women of the University, there will be some reason for outsiders and even college people to affirm, "The girls don't want the gym. What are they doing for it?"

Killed by the Fast American Express.

Fred S. Earl, of Ypsilanti, a young man of twenty years of age, lost his life at the Michigan Central depot last Tuesday evening by jumping from the fast American Express which passed through here at 5:52 going at the rate of twenty miles an hour. He had boarded the train at Ypsilanti where they stopped for orders. The train does not stop here. Earl's companion jumped all right but Earl was drawn under the car, his legs badly mangled and he died two and a quarter hours afterwards from the effects of the shock. Coroner Clark empaneled a jury consisting of George W. Cropsey, Theop. Porter, R. Waterman, Thos. Haley, M. B. Gelston and G. B. Reed.

Conductor F. H. Jones of the American express train swore that no passengers were allowed on the train. It passed through here at a speed of twenty or twenty-five miles an hour. He did not know any one was on the train except the employes. A person stealing a ride could pull a chain and stop the car. He was on the rear of the last car and saw a man lying on the north side of the track near the rear end. He signaled the train to stop.

Gibert Gray, of Jackson, bridge foreman, was looking out from the platform of the third car. The man jumped off, struck on his feet and fell forward so that he could not see him. He told the conductor there was a man under the cars. The conductor rushed to the whistle cord and stopped the train. He jumped off and ran back to where the young man was lying with his legs badly mangled. He said his name was Earl and he lived in Ypsilanti.

Station Agent Hayes testified to the conductor's notifying him of the accident and telephoning for Dr. Kapp.

Dr. Kapp found Earl very weak and his left leg crushed off above the knee. The right thigh was very much lacerated and crushed, but no bones were broken in the right limb. He was removed to the hospital and died about forty-five minutes after getting there. He had a bruise on his right cheek and temple and a scalp wound but his skull was not fractured. His death was caused by the shock.

The jury decided "That Fred S. Earl came to his death on March 1, 1892 at the University hospital at 8:45 p. m., by receiving injuries in jumping from the American Express train while in full motion at Ann Arbor at 5:52 p. m."
