What Our Farmers Raise and What Live Stock They Own.

THE TOWNSHIPS WHICH LEAD IN CROPS.

The Sheep and the Wool Clip of the County by Townships.—Other Interesting Facts.

According to the thirteenth annual report of the Secretary of State on farms and farm products, a copy of which is just received at this office, there were in 1891, 3,416 farms in Washtenaw, or an average of a trifle over 113 acres to the farm of, which 81 acres was improved. The township with the most farms is Ypsilanti, which contained 266. The township with farms of the smallest average size was Ann Arbor, the average being 771 acres. The largest average farms are in Lyndon, the average being 168 acres. In Scio the average farmer has 160 acres. The number of farms in the various townships are as follows: Ann Arbor, 235; Augusta, 184; Bridgewater, 198; Dexter, 109; Freedom, 177; Lima, 156; Lodi, 158; Lyndon, 121; Manchester, 227; Northfield, 162; Pittsfield, 113; Salem, 207; Saline, 167; Scio, 135; Sharon, 129; Superior, 188; Sylvan, 169; Webster, 136; York, 266; Ypsilanti, 179. The total number of improved acres of land in farm in the county is 278,538 and of the unimproved 387,855,

LIVE STOCK AND WOOL.

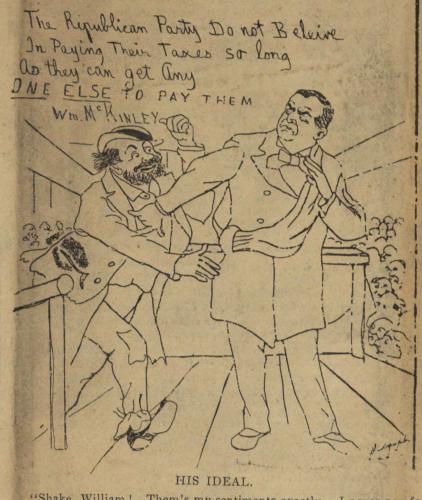

There were in 1891, in this county, 11,553 horses, 10,201 milch cows, 7,576 cattle other than milch cows, 11,073 hogs and 120,646 sheep. This did not include the horses owned in the cities. York had more horses than any other township, its numbers being 910. Augusta had the least number, 310. Ann Arbor town had 434; Pittsfield, 519; Scio, 675; Saline, 331; Bridgewater, 775; Manchester, 601. York also has the most milch cows, 772. Dexter has the least number, 295. Scio has the largest number of cattle other than milch cows, 675, and Saline foots the list with 202. York has the most hogs. 1,047, while Salem has only 202. Manchester comes to the front in sheep, having 9,197, while Augusta is put down for only 1,583. The number of sheep in the county was 3,382 more in 1891 than it was in 1890 when 117,264 sheep were enrolled. The production of wool in 1890 in this county was 833, 002, or a little less than five pounds a head. As the wool statistics are of considerable interest they are given in full in the following table:

WHEAT GROWING.				

Washtenaw county stood third among the counties of the state in the number of bushels of wheat raised, during the years 1890, 1889, 1888. In 1887 it was ninth and in 1860 it headed the list. The average yield per acre in 1890 was 17.21 bushels. In 1887 it was only 11.18 bushels and in 1886 it was 19.78 bushels. It 1889 the average yield was 15.21 bushels per acre. In 1889 the value of the wheat raised was \$675,606, while the secretary figured that it had cost \$829,100 to

In 1890 there were 57,929 acres sowed to wheat in the county and the yield was 996,751 bushels. In 1891 there were 64,525 acres planted. The largest yield per acre was in Lima where the average was 20.2 and the lowest was in Superior, 12.91. The greatest number of bushels, 76,682, were raised in Saline, the smallest number, 23,113, being in Augusta. Saline had 4,163 acres of wheat and Augusta only 1,343.

George A. Peters for Congress.

The first nominee for Congress in this district is George A. Peters of Scio. Everybody knows "Gus" Peters and nearly every party has known him. Just now he is one of the leaders of the People's party. The People's party held their convention in Jackson Monday night and Tuesday morning. The Detroit Evening News thus describes it:

The congressional convention of the people's party met promptly this morning at the court house to nominate a candidate. An hour's wait was again made for the Wayne delegates, but Wayne county showed up only one delegate-S. J. Lawrence. He said the others got left. John O.Zabel backed squarely out for the nomination. For this "walking malaria," which neither puts one to bed nor allows him to work or study, Pe-ru-na should be taken as directed on the bottle. A course of Pe-ru-na will entirely cleanse the system of every particle of the malarial poison. Therefore, if you have any kind of bad feeling which you attribute to malaria, by all means follow this treatment. It at once restores the appetite, clears the befogged senses, and brings back the hopeful state of mind which malaria is sure to destroy. A thorough use of it will convince you of its wonderful power in all such cases. Pe-ru-na can be relied on to cure these cases and restore to perfect health as speedily as the chronic nature of the difficulty will allow. Should constipation exist at the same time Man-a-lin should be added. The Pe-ru-na tones up the nervous system and enriches the blood, giving strength and vitality, while Man-a-lin restores the activity of the excretory glands, enabling the system to rid itself of accumulated poison, bringing back to this most unfortunate class of invalids the flush and good feeling of perfect health. For President-

GROVER CLEVELAND,

For Vice-President-ADLAI E. STEVENSON,

Democratic State Convention.

Democratic State Convention.

The Democrats of Michigan will meet in State Convention, at Hartman's Hall, in the city of Grand Rapids, on the 17th of August next, at 10 o'clock a. m., for the purpose of placing in nomination candidates of the party to be presented to the people at the coming State election.

The State offices for which candidates are to be named at this convention are: Governor, Lieutenant-Governor, Secretary of State, State Treasurer, Auditor General, Attorney-General, Commissioner of the State Land Office, Superintendent of Public Instruction, and Member of the State Board of Education.

By the action of the Democratic State Convention, held at Muskegon, May 4th, 1892, the Democratic State Central Committee is directed to include in the present call the nomination of a candidate for United States Senator.

It will also be the duty of this convention to nominate one Presidential Elector and one Alternate Presidential Elector for the Eastern Electorial District, one Presidential Elector for the Western Electorial District, one Presidential Elector and one Alternate Presidential Elector for the western Electorial District, and like candidates for each of the twelve Congressional Districts of the State.

According to the rule adopted by the Democratic State Convention held in Detroit in 1880, and since followed, every county in the State is entitled to one delegate to the State Convention for each 500 votes cast for Governor at the last general election, and one additional delegate for a fraction of not less than 250 votes, All delegates must be residents of the countes they represent.

The delegates from each congressional district will meet in caucus at 10 o'clock a. m. on the morning of August 17th, at quarters te be hereafter designated, and recommend candidates for Presidential Elector, and persons for service upon the several committees of the convention. Each district will be entitled to one Vice President of the convention, one Assistant Secretary, and one member each of the committees on

WATER COMMITTEE REPORT.

To the Common Council:

Your committee on water, to whom was referred the resolution of Alderman Ferguson relative to the rental of fire hydrants from the Ann Arbor Water company, have given their careful attention to the subject matter of the resolution and would respectfully

report:
The contract made May 6th, 1885, by the Mayor, Recorder and Alderman of the city of Ann Arbor with the Ann Arbor Water company calls for an annual rental of \$4,500 for 100 fire hydrants for thirty years, which under the rule of construction laid down by the Supreme Court is equivalent to an obligation for \$135,000. As this sum is largely in excess of the amount of is largely in excess of the amount of tax which the city raised in the year 1885, or could levy in that year, the Council for that year had no authority under the charter to make the contract in question. Hence the contract is clearly void. Under Section 186 of our city charter which is copied verbatim from the charter which was in force at the time the contract was made, the Council of 1885 could not burden the revenues of the Councils of 1892 or of 1914. In recent years the Council has 1914. In recent years the Council has determined that it was impossible to make an electric light contract for more than one year and we are satisfied that the only kind of a contract that the council can make with the water company calling for an annual rental, without an enabling act of the Ann Arbor City, August 1, 1892.

legislature and vote of the people is an annual one. Similar provisions in other charters of cities in this State have been construed by the courts to prevent the making of these 30 years contracts without complying with the provision calling for an enabling act of the legislature and a vote of the people. We may instance the cities of Niles and Monroe, where the courts have declared similar water contracts

The Water Works Company made the contract with the city with full knowledge of this provision of the charter. Their franchise to furnish charter. Their franchise to furnish water to private consumers is not questioned and your committee feels that the Council is willing to make a fair and just contract with the Water Works Company to furnish water to the city for fire purposes for the en-

suing year.
The contract calls for a hydrant to be placed at every 700 feet of extension of the water mains at an annual rental of \$40, and under this provision the city is now paying for 23 fire hydrants in addition to the 100 for which they now pay \$4,500. The water rental now reaches \$5,420. Within the past year about a dyear patitions for fire hydrants. about a dozen petitions for fire hydrants made by citizens and tax payers have been denied because the revenue of the city could not stand the heavy additional burden which would be entailed. Your committee believes that if hydrants were placed at intervals of 700 feet so that water could be thrown on all the buildings of the city

the water rental would be increased to \$10,000 or more, a burden which the city could not bear without increasing the tax allowed to be levied by the charter. Nor is it at all necessary that hydrants should be placed at intervals of 700 feet to furnish fire protection. Each of our hose wagons carries 1,000 feet of hose, so that if the hydrants were placed as far apart as 2,000 feet, the firemen could reach all buildings

In the belief of your committee the rental for extra hydrants is out of all proportion to the expense entailed upon the Water Works Company, they are put in for use only in case of fire and very little water is used from most of them, the expense consists mainly in putting down the main and the first cost of the hydrants and this is of advantage to the company in increasing the number of their private water consumers. If the present water contract is continued in force for the

between them.

hydrant now put in would cost the city Your committee is advised as has been stated above that the contract made in 1885 with the Water Company is void. It hence becomes the duty of this Council to contract with the company for water for fire purposes

for the ensuing year. We would therefore recommend: First, That an ordinance amending an ordinance relative to water works passed June 1st, 1885, which is submitted with this report, be passed so that that part of the ordinance creating a liability for fire hydrant rental for the sums stated be repealed. ance submitted also provides that until the Water Works Company makes a new contract with the city, the city shall pay for use of the hydrants only such sums as the use is reasonably

Second, That a resolution be passed asking the Water Works Company to make a new contract with the city for the ensuing year.

worth,

Third, That your committee or a special committee as the Council sees fit, be empowered and instructed to investigate what other cities under recent contracts are paying for fire hydrants rental and be instructed to report to the Council such facts as they deem will be of service to the Council in making a fair contract with the Water Works Company.

All of which is respectfully submitted.
