The Register Fight Continued.

The Register Publishing Company's imbroglio has taken a new turn. Yesterday Judge Kinne, in Monroe, granted an injunction restraining assignee John W. Bennett from selling the property advertised to be sold tomorrow until further order of the court and giving him ten days in which to answer the petition of Selby A. Moran, John Koch and William G. Henne, on which petition the injunction was granted. The petitioners are then given five days in which to reply when the matter in their petition is ready for trial. The petitioner, Selby A. Moran, sets forth the organization of the company, his position as director, superintendent and manager and avers that of the \$25,000 capital stock \$16,610 has actually been issued, of which he himself, holds \$11,900, consequently a large majority. At the annual meeting in January, 1893, Moran, A. B. Stevens and N. D. Corbin were elected directors. The petition states "and your petitioner avers that soon after the election of said Stevens and Corbin as directors of said company your petitioner is informed and avers the fact to be that the said Stevens conspired and confederated together to cheat, wrong and defraud your petitioner by pursuing a line of conduct intended by them to ruin his shares of stock in said company by rendering them valueless Samuel D. NEVER A FAILURE.

The Red River Valley of Minnesota and North Dakota has never had a failure

of crops. It produced 30,000,000 bushels of wheat

besides other cereals in 1890. Farms can be had on the crop plan, or long time

cash payments.

It is not an uncommon thing to pay for a farm from the proceeds of

one crop.

It has all of the advantages of an old country in the shape of school, church, market, postal & railway facilities and all the chances of a new country in

the way of cheap lands, rich soil, and increase in values. It is one of the most

fertile and promising regions in America not yet fully occupied. In the rush to the far

west, however, this rich valley has been over-looked.

It has room for a million more people. Write to

A VETERAN'S VERDICT.

The War is Over. A Well-known Soldier, Correspondent and Journalist Makes a Disclosure.

ist Makes a Disclosure.

Indiana contributed her thousands of brave soldiers to the war, and no state bears a better record in that respect than it does. In literature it is rapidly acquiring an enviable place. In war and literature Solomon Yewell, well known as a writer as "Sol," has won an honorable position. During the late war he was a member of Co. M. 2d. N. Y. Cavalry and of the 13th Indiana Infantry Volunteers. Regarding an important circumstance he writes as follows:

"Several of us old veterans here are using Dr. Miles' Restorative Nervine, Heart Cure and Nerve and Liver Pills, all of them giving splendid satisfaction. In fact, we have never used remedies that compare with them. Of the Pills we must say they are the best combination of their nature we have ever known. We have none but words of praise for them. They are the outgrowth of a new principle in medicine, and tone up the system wonderfully. We say to all, try these remedies."

—Solomon Yewell, Marion, Ind., Dec. 5, 1892. These remedies are sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles \$5, express prepaid. A STOP THIEF CRY.

We are not hearing so much about the paralyzing effect on our industries of "the threat of free trade" as we were. The cause of this subsidence of the calamity wail in the editorial columns of our Republican contemporaries is the appearance in their news columns of dispatches from various manufacturing points throughout the country telling of the starting up of mills and factories. Here, for instance, is the veracious Grand Rapids Herald of Wednesday, which prints several dispatches announcing the resumption of operations by a number of the principal mills in New England. One of these dispatches is from Fall River, Mass., and it imparts the cheering information that twentythree (count 'em-23) factories in that city will start up next Monday. Immediately following this dispatch appears one from Manchester, to

MANCHESTER, N. H., Sept. 5,-The twelve mills of the Amoskeag company, employing 5,000 males and 4,000 females, will start up Monday next, after a month's shutdown. Agent Shaw has issued formal notice of the resumption, which was decided upon by the board of directors in Boston, Satutday. The mills will run full time with no cut

Then next follows the subjoined dispatch:

LOWELL, Mass., Sept. 5—The ingrain department of the Lowell Manufacturing comdany started up today. The cotton department of the-Hamilton mills also started and the print works will start next Monday.

Almost every day the news columns of our Republican contemporaries contain Associated Press dispatches announcing the starting up of industrial establishments in various sections of the country. The financial scare is over, the hoarded money is returning once more to circulation to perform its accustomed function of supplying the lifeblood of commerce, and manufacturers are hastening to avail themselves of the improved monetary condition to secure the necessary funds to resume operations. They shut down their mills in the first place because of the financial stringency, and not from a lack of orders or from any fear of "Democratic tariff tinkering." This is concluas they are able to effect arrangements to secure the currency to pay most universally approved. The case their workmen they are starting up will be appealed. their mills again,

and given power to select his assistants. Rev. Mr. Osborn was made treasurer. A long and acrimonious dispute was caused by a resolution to suspend for a year the operation of the "New York year the operation of the "New York east" plan of providing for superannuated preachers. The arguments betrayed a good deal of dissatisfaction with the scheme under which ministers receiving only \$300 a year were expected to contribute as much as those who were being paid \$3,000. The resolution was adopted at last by a vote of 70 to 50.

Dr. Potts, editor of the Michigan Christian Advocate, announced that the Methodist Publishing company greeted the conference with a check for \$2,253.23 out of the paper's profits. He \$2,253.23 out of the paper's profits. He said that The Advocate had a circulation of 9,378 in the Michigan conference; of 7,693 in the Detroit conference and 2,819 outside, making 19,890 altographor.

Bishop Bowman acknowledged the receipt of a draft of \$2,734 from the United States book fund.

The conference took a recess at noon until this morning. The afternoon was devoted to committee meetings.

One of the important matters which the conference is expected to settle is the purchase of the residence on Cass park now occupied by Bishop Ninde. The church holds an option on the property for \$18,000.

EXCITED FOPULACE.

ROANOKE, VA.

A Mob Gathered at the Jail to Lynch the Prisoner-The Mayor of the Town Shot In the Foot and Several of the Mob

ROANOKE, Va., Sept. 21 .-- Robert Smith, a negro, assaulted and nearly killed Mrs. Henry Bishop, wife of a welltodo farmer of Botetourt county.

Mrs. Bishop was at the market with a load of produce and Smith bought a box of grapes. He asked her to go with him to get them in and taking her to a house nearby, locked the door and bound her. Then drawing a razor he demanded her money. She gave it up and while doing so jerked the razor from his hand. The negro choked her, threw her down and pounded her head with a brick, leaving her for dead.

Mrs. Bishop shortly afterwards regained consciousness and returning to
the market told of the outrage. Detective Baldwin soon arrested the
negro. The excited crowd attempted
to take Smith away from the officer
and lynch him, but Baldwin with the

Our FALL STOCK, selected by us in New York during the past fortnight, surpasses anything ever shown in Ann Arbor before. We desire every one to see and appreciate the good things we have been enabled to secure. Times were hard, and New York merchants anxious to sell. We bought at prices entirely satisfactory to ourselves, and in turn propose to sell at prices which will be MORE than satisfactory to the buying public.

We know of but one way to secure your attention and that is to offer such inducements as will positively compet you to drop in during this "Seven Day Sale." Chances to make large sums of money at one fell swoop come rarely, but opportunities to make it little by little come every day. This is such an opportunity, and a thousand people ought to take immediate and enthusiastic advantage of it.

MESSRS. FOLEY & Co., Chicago.

GENTLEMEN:—I had a scrotulous taint of the blood from childhood. An ulcer began on the side of the nose, having all the appearances of most malignant cancer, became about the size of a silver dollar and exuded a thin, offensive matter. The agony of mind I suffered cannot be described as I contemplated the progress of the disease.

disease.

I was induced to try the Clinic Sarsaparilla; it appeared to neutralize the poison in the blood, the ulcer ceased. The diseased tissues in the bottom and edges of the sore seemed to loosen and the natural flesh to take its place. Thus the cure continued until an even surface remained. No part of the disease remains.

PETITIONS AND COMMUNICATIONS.

To the Common Council: The Board of Public Works would recommend a change in the route the proposed main sewer, since the first route was determined. The Board engaged Alderman Manly to procure a necessary right of way over private property. He reported that this right of way could not be obtained without condemnation proceedings. The City Engineer acting under the instruction of the Board, has drafted a plan of a shorter route for the main sewer, which feasible for making connecis more feasible for making connections without crossing the railroads, and lies entirely along the streets, excepting that along the Michigan Central grounds, and the road very generously offers to permit the city to use their ground for this purpose. The

of Main street be changed to the following route: From Main street east along Summit street to Fifth avenue; thence north along Fifth avenue to Depot street; thence east along Depot and Cary streets to the east line of State street; thence Board of Public Works that the more the east line of State street; thence north, crossing railway; thence easterly along Michigan Central company's land to Fuller street; thence easterly along Fuller street to the river and to the outlet thereof, south of Bridge No.

All of which is respectfully submit-ed. By order of the Board of Public Works.

W. J. MILLER, Clerk.

Ald. Manly moved that the report be accepted, adopted and placed on file. Adopted.

To the Common Council:

The Board of Public Works beg leave to submit the following report of its doings in the matter of bids for hard burnt brick, and for two cars of Portland cement, for the main sewer. The Board caused notice of the City's papers and also distributed among well-known producers and dealers in brick and cements; and as a result, on the day set for clasing such offers. wants to be published in local newsthe day set for closing such offers, had four bids for the brick and nine bids for the cement, of responsible parties, is able and converted to direct the layand of which bids are submitted herewith. All of the bids were for brick and cement f. o. b. cars at Ann Arbor, subject to inspection. Each bid was accompanied by sample of brick proposed to be delivered.

All things considered, we recommend tract be made with such company for 30,000 or more hard-burnt brick for the main sewer, at their bid, being \$6.25 per thousand, f. o. b. cars at Ann Arper thousand, f. o. b. cars at Ann Arbor. We recommend that the bid of Louis Rohde for two cars of Buckeye American Portland Cement in burlap sacks, \$2.23 per bbl., 380 lbs. net; (4 bags to bbl.), f. o. b. cars Ann Arbor. At a meeting of this Board and Ald. Martin, Ald. Ferguson, and Ald. Snow, markers of the Sawar Committee of

members of the Sewer Committee of the Council, the matter of purchasing 600 feet of 24 in. cast iron pipe was discussed at length, and it was the sense of the meeting that iron pipe should be used where the sewer runs to be exposed to the frost. The iron pipe were then and there ordered.

Respectfully submitted by order of the Board of Public Works. W. J. MILLER, Clerk.

Ald. Martin moved that the report | ted. be and the same is hereby approved and confirmed.

property from the McCourt heirs in the month of May last.
Your petition further represents: that he took as he supposed, great pains to determine the condition of the title to such property prior to the payment of the purchase money for the same, and applied to the city treasurer for information as to the lein for taxes thereon and was informed that all taxes had been made and discharged.

Your petititioner further represents: that he is now advised that said city treasurer was in error as to the payment of such taxes; that there is unpaid thereon a tax for the construction of a sidewalk along Felch street fronting on said property.

Your petitioner further shows; that he has been advised that there is a question involving the legality of such sidewalk tax, arising from the fact that the city never acquired title to the lands now occupied by said Felch street.

REPORT OF FINANCE COMMITTEE. To the Common Council:

Your Committee on Finance, to whom was referred the report of the Board of Public Works relative to salary of City Engineer would respect-

fully report as follows: The matter in question is highly important, affecting as it does, every tax payer in the city, directly as regards salaries paid, and by a far greater ex-

their ground for this purpose. The Board would therefore recommend that the route of the main sewer east much to pay to an engineer capable of

Board of Public Works that the main sewer shall be completed in from three to four months. During this time they propose to hire an assistant to the City Engineer at a salary of \$2.75 per day, or a little more than seventy dollars per month. This will probably be money well spent.

At the request of the Board, the Common Council has also appointed Prof. Chas. E. Greene consulting engineer, to act with the City Engineer during the building of the main sewer. For his services during the proposed three to four months, the sum of \$500 will be required, being at a rate of from \$125 to \$166 per month, according to the time.

It will be seen that the salaries of the three engineers foot up to about \$370 per month, exclusive of minor help. Adding the salary of the Street Commissioner, \$66.66, who is expected to devote his entire time to sewer con-

We believe this borders on extravais able and competent to direct the lay ing of the main sewer without the aid of a consulting engineer, and we not consider it wise or economical to employ two high priced men to attend to the same work.

We therefore recommend that Mr. that the bid of the Ann Arbor Brick Company be accepted and that a contract he made with such company for 1, 1893, until further notice from this Council, to take full charge of the lay-ing and construction of the main sewer, under the supervision of the Board of Public Works, thereby making Mr. Key responsible for the success or failure of his work.

We recommend that Mr. Rosencrans be employed at \$2.75 per day, if his services shall be considered positively needed by the Board of Public Works, to assist Mr. Key with his work, until further notice from the Common Coun-

We further recommend that the Council reconsider its action of May 15, 1893, whereby Prof. Chas. If Barytes and other adulterants of white lead are "just as good" as Strictly Pure White Lead, why are all the adulterated white leads always branded Pure, or

"Strictly Pure White Lead?"

This Barytes is a heavy white powder (ground stone), having the appearance of white lead, worthless as a paint, or write lead, worthless as a paint, costing only about a cent a pound, and is only used to cheapen the mixture. What shoddy is to cloth, Barytes is to paint. Be careful to use only old and standard brands of white lead.
