ABOUT THE RE-INCARNATION OF SOULS

The Coming Columbian Concert—The Late Nelson Sutherland—Human Race at Three O'Clock To-Day—A Slick Forger Caught—Moloney's Mighty Jump.

Fun at 3 O'Clock To-Day.

Those who love to see a fine human race should not miss securing a reserved seat on the east front steps of the court house at 3 o'clock this afternoon. The race will be between two butchers, and will be for blood (butchers generally are for blood) unless stopped by the society for the prevention of cruelty to animals. The contestants are Slim Jim Cannon and the ponderous Martin Vogel. Distance 20 rods on Fourth avenue, from the center of the Ann and Fourth street crossing to the Cook house. The prize is understood to be \$5, and the belt, made from the tail of a Texas steer. Connor being very slim compared with Vogel, will run weighted with sand-bags, to keep him from going up in case he "busts" a suspender or anything, while Mr. Vogel will be attached to a hot air balloon as a precaution against wreck should he trip and fall. The race between blubber and barebones will be exciting and will make a record in sporting history that will go thundering down the ages, especially if Vogel gets a fall.

This Fellow Was Slick.

John R. Seville, a Philadelphia detective, left Lansing, last Sunday, having in custody one of the most celebrated forgers that this progressive age has furnished. His name is Robert E. Harvey. His operations have been principally with banks, and it is probable that the sum of his clever forgeries would run far into the thousands. He is wanted in five states. He has at least 23 different aliases, among them being the name of C. E. Hiscock, president of the Ann Arbor Savings bank. About two years ago this slick fellow operated at Waterloo, Iowa, under Mr. Hiscock's name. He was looking for a good place to locate the Ann Arbor furniture factory, and concluded that Waterloo was just the place. He also incidentally forged some paper there, as "C. E. Hiscock." At Chicago he also found that Mr. Hiscock's credit was excellent, and combining his own cheek with Mr. H.'s name and credit, did a thrifty business among the banks there. Forged checks in the name of C. E. Hiscock on the First National bank of this city kept coming by every mail, till the sum ran up into the hundreds. It is probable that Robert E. Harvey is about done with the world, outside of solid walls.

Maloney Took a Jump.

Michael Moloney was wanted in Ann Arbor on the charge of having walked away with the contents of a Michigan Central freight car that stood in the yards in this city. Michael was in Toledo, and as he refused to come to Michigan without an invitation, Deputy Sheriff Peterson went down and extended that courtesy. He had in his possession several articles commonly worn by a gentleman "of the first water." The authorities here had declined to issue a warrant for Moloney without a complaint of some one who had seen Moloney in possession of some of the missing property, so the officer went over and hypnotized his man and made him willing to overlook any little breach of etiquette like the lack of a warrant. Arriving at Ypsilanti, the prisoner, from whom the handcuffs had been removed before starting, at the suggestion of the railroad detective, suddenly passed through the car and to the platform, and sprang off the train, which was yet at a high speed, and was gone from mortal view. As soon as the cars were sufficiently slowed to allow of a safe jump the officer sprang after his man, heard him pattering along on the stones and soon had him in his clutches. He had turned a few cartwheels in the dark and was yet a little dazed when caught. Citizens assisted in handcuffing him, for he had become ugly and fought like a tiger. He was brought to jail without further incident.

"We are the People!"

Ruh-rah! Ruh-rah! Michigan, Tra-la-la! or words to that effect. Cornell came, saw and was "overcome." Sound the he-wag! Beat the drum! Rasp the bombajar! Smash your plug hat or the other fellow's. Do anything. If you want to find the United States on the map, look for Ann Arbor and the United States will be found lying all around it. Annually for years the U. of M. has met Cornell on the field of manslaughter and been "done-up." Saturday at Detroit it was different. The foot ball teams met there and Cornell was sent home in a winding sheet, on a bier inscribed "12 to 4 in favor of the U. of M."

The result of the tussel with the "crack" team of the east was hardly expected in Ann Arbor, but nevertheless a large crowd of citizens and U. of M. students, including co-eds, went to Detroit to witness the game. Cornell met its Waterloo, and Michigan is spelled with a "Double M." The U. of M. rejoices. Ann Arbor rejoices. Washtenaw rejoices. The whole state of Michigan rejoices and is glad. The professors are dizzy with delight and even the president is said to be not quite calm under such a decided victory. Ru-rah Ruh—! Well, what is it, "devil"? Oh, copy! Here, take this just as it is. Can't write more anyway. Have to go out and join the celebration.

The Late Nelson Sutherland.

In the demise of Nelson Sutherland, whose death was announced in last Friday's Argus, the city of Ann Arbor has sustained an irreparable loss. Under his masterly hand, the streets and sidewalks of Ann Arbor have improved more in the past five or six years than ever before in its history. The street funds have been carefully and economically expended and the improvements have been largely of a permanent character. In whatever public capacity he was called upon to act, he was thorough in execution. As a deputy sheriff, he was always the one called upon by the lawyers to act when difficult cases were to be handled, recognizing that he knew no such word as fail. As an alderman of the city, without compensation, he gave his time and his intelligent energies to the city work. As a street commissioner he worked in season and out, often getting up in the night to cover up some work with his own hands because a rain had set in.

Nelson Sutherland was born in the township of Pittsfield, August 18, 1840 and was married to Miss Gebie Drake, of York, November 22, 1866, who, with two children, survives him. His children are Mrs. Ada A., wife of Rev. Louis P. Jocelyn, and Frank Sutherland, both of this city. Mr. Sutherland was engaged in farming until the year 1878 and also in the milk business in Pittsfield. During that year he removed to Ann Arbor, where he has since resided. He was several times elected constable of the first ward by large majorities and served for a number of years as deputy sheriff. In the spring of 1887 he was elected alderman of the first ward by a very large majority and the first year of his term had the expenditure of the street fund in that ward. So well and economically was it expended on permanent improvements that when the new mayor in the spring of 1888 looked over the council to select a chairman of the street committee who should reform the hitherto slipshod manner of conducting street work, Nelson Sutherland was the logical choice. So well did he do the work that when the office of street commissioner was created the following year, Mr. Sutherland was chosen to that position, which he held during the succeeding administrations. He devoted himself wholly to the city's interests and declined other less laborious and more remunerative positions.

He was a man who was thoroughly loyal to his friends but who never followed an enemy. He possessed a clear judgment, quick decision and great executive ability. Honest, upright and fearless, he was also kindly and companionable, a man of intelligence who will be missed by all who knew him, and more especially by those who knew him best.

The funeral was held at his residence on Division street on Sunday afternoon and was very largely attended. Rev. Mr. Bradshaw in his remarks paid a feeling tribute to his memory. The pall bearers were E. B. Hall, W. J. Miller, Dr. J. A. Dell, E. K. Frueauff, T. J. Keech

and G. Frank Allmendinger. The Knights of Maccabees attended the funeral in a body.

For the Columbian Organ.

On Friday evening an enthusiastic meeting of students, members of the faculty and citizens was held in Frieze Memorial hall of the University School of Music. It was presided over by Prof. Francis W. Kelsey, president of the University Musical Society. He explained the object of the meeting, being to devise means to extinguish the debt of \$8,000 still resting on the Columbian organ, and make the dedication organ recital December 14, the great event in the musical history of Ann Arbor. He related how when the organ was first offered at the low price of \$15,000 they had made great efforts to raise the money. They considered the chance one of a lifetime. The great music director, Theodore Thomas, had pronounced it the finest organ in America. There was no other instrument, about which clustered so much historical interest. It was the result of four hundred years of civilization in America, and national interest would be always centered about the Columbian organ for centuries. The citizens of Ann Arbor, and friends of the University, had subscribed \$7,000 when the financial wave of depression struck the country. The board of trustees felt that as soon as possible the citizens of Ann Arbor and the alumni would come to their rescue. Now was the time to do so, and try to clear the debt before the organ was dedicated. Prof. Kelsey then outlined a general plan of subscription. Those that subscribed \$25 would be entitled to a ticket to the concert with the first choice of seats, then those who gave \$15, then \$12.50, and down to \$2. This was generally discussed by those present and approved. A central committee of seven was appointed, and a sub-committee consisting of Moses Seabolt, James H. Wade, Ottmar Eberbach, Dr. William F. Breakey, Maj. W. C. Stevens, G. Frank Allmendinger, Eugene K. Frueauff, E. F. Mills, H. S. Dean, Fred H. Belser, S. W. Clarkson, John Duffy, John V. Sheehan, William Arnold, Dr. David Zimmerman, Fred Schmid, J. D. Ryan, H. J. Brown, D. Fred Schairer, George Moore, George Wahr, E. E. Beal, S. W. Beakes, Judge William D. Harriman, George H. Pond, Joe T. Jacobs, J. E. Beal, J. J. Goodyear, A. C. Schumacher, Hon. C. G. Darling.

Every citizen of Michigan, and particularly of Ann Arbor and Washtenaw county, should feel honored by the great Columbian organ of the exposition being placed in University hall. It will add to the pleasure of generations of students and citizens. It is an honor that would be coveted by the citizens of the largest cities of the world. Every one should try to do his part in trying to clear the debt at once, so that, as Prof. Kelsey said, "each note will sing out of debt."

The organ, very fittingly, will be played at the dedication concert by the master hand of Prof. Stanley, who has worked so faithfully and industriously for its success. The people will be privileged and he will have the honor and privilege to show the melody and tone of the great instrument.

About Re-Incarnation.

Claude Falls Wright, of London, lectured on "Theosophy and Re-Incarnation, at Frieze Memorial hall, Wednesday evening. His is the old theory retouched, from the ancient Hindoo, that the human soul, after death, lays around loose for awhile waiting for another job, and finally gets into another body as soon as there is a show and lives another life in the flesh. That a soul does not go to heaven, Claude Falls Wright, of London, proves by showing that no soul dies without some bad in it. Therefore it cannot go to heaven; and as no soul dies without some good in it, it cannot go to hell, there being no evil in heaven and no good in hell. So the souls hang around somewhere on the confines of eternity and snaps up the first chance that offers for getting into a nice new body. Thus, a fellow who all one life had been a man, is just as likely as not to turn out a woman, the next time we he lives on earth; and a woman of a thousand years ago may be a gentleman today, or a swaggering, swearing ward politician, around in his shirt sleeves wanting to fight, or bets on the election—and get left if he bet on a democrat.

Claude Falls Wright, of London, contends that the ancient christians believed in the doctrine of re-incar-

nation, and that Christ said nothing against it; that John the Baptist was merely Elias, re-incarnated.

It appears to be the doctrine of Claude Falls Wright, of London, that the Almighty always has on hand a lot of souls who want to get back on earth, and become re-individualized, and it would appear that the number of souls in waiting exceeds the list of bodies prepared for them. Hence, we have no doubt that fierce struggles often arise among several souls for possession of a single body, and it accounts for the peculiar monstrosities that sometimes come into the world—some with more heads than necessary; others with a number of legs disproportionate to the needs of the body. Such undoubtedly represent the contentions that have taken place between "two souls with but a single body." Neither being willing to resign, the body is wrecked in the effort to contain a colony instead of a single soul. This is not as it should be. It should be so that instead of a race between a dozen starters for the same body, a single soul is let slip at a time, and thus avoids unseemly scramble for material existence.

It is pleasant to contemplate—under Mr. Claude Falls Wright, of London's theory—that the great, the wise, the good, are not lost to earth forever; that they will be here again, doing business, as it were, "at the old stand." But in proportion to the joy we feel at this, is the sorrow and dejection that comes over us when we contemplate the renewal of acquaintanceship with old creditors whose death was a receipt as we thought, for all dues against us. We are likely also to meet again on earth the book agent, killed by dogs when we were young; and that infernal spring poet may rise up again; also our mother-in-law, whom we fondly hoped was in heaven to stay! These thoughts rushing over us make us almost wish we had never invested in the re-incarnation stock of Claude Falls Wright, of London. But, whether his theory be true or false, we see trouble ahead for it. Scientists tell us—and unquestionably with truth—that the machinery of the universe is slowly running down; that it will finally come to a dead standstill; that in 3,600 years it has lost a sixty-fourth part of a second. The running down may seem slow but it is merely a question of time. When this period arrives there will be no heat and no motion. The earth will be a "dead ball" on the billiard table of the gods, and as cold as the heart of a gas plumber. It will not sustain human life. Where then, O Claude Falls Wright, of London!—where are you going to get your bodies with which to re-incarnate your souls?

It won't do! Our theosophic stock is for sale at a sacrifice.

ADDITIONAL LOCAL.

Edwin C. DeWolf, of Michigan City, Ind., senior in the Engineering department of the University, is in jail on a charge of appropriating a quantity of engineering apparatus of Prof. M. E. Cooley, the value of the property being about \$300, it is said. He claims to have only "borrowed" the property.

Harry Hawley, son-in-law of Christian Mack, of this city, is reported to have purchased the controlling interest in the Chicago Times. Mr. Hawley was lately of the Denver Times. The Register asserts that Mr. Hawley got his newspaper start in its office. Some young men possess the power of rising above their pernicious surroundings.

The Keystone club will hold a Thanksgiving reunion at the Zukey lake club house. Ald. Ferguson is president of the club, and by virtue of his office, must under the constitutions and by-laws of the body and by oath, furnish the banquet at his private charge. This falls to the lot of each man who is annually elevated to the presidency, which is the least penalty the club has seen cause to inflict.

By request, Mr. J. F. Schuh has about decided to let 500 sewing machines go on the club plan, with gold prizes amounting to \$1,500.00. About two years ago Mr. S. disposed of 300 machines on the club plan. Everybody who went into the club was well pleased, some getting machines as low as \$2.00, and none paying more than \$34.00. The list of prizes in this club will be from \$1.00 to \$500 in gold, and you can pay 50 cents to \$1.00 per week. This is the best opportunity ever offered to get a sewing machine on small payments.

DUNDREARY'S OTHER BROTHER

Hon. John B. Corliss, of Detroit, who, unexpectedly to himself and to the surprise and regret of everybody else, was upheaved on election day as one of the congressmen-elect, appears to possess those qualifications that endowed the brother of Lord Dundreary, concerning whom that distinguished person said: "You ought to know my brother Sam. Sam's a great ass—you'd like him!"

The Honorable John B. Corliss has written a letter to President Dole, of Hawaii, in which he announces the defeat of Congressman Griffin, who made a speech defending the course of the administration in regard to Hawaiian affairs, and acquaints Mr. Dole with the important fact that he, Corliss, has been chosen to succeed Mr. Griffin, adding: "I rejoice with the people of Hawaii upon the establishment of another republic."

There can be no question that the Pacific republic will now enter on an unexampled career of prosperity. It had simply been waiting for the recognition of the Honorable John B. Corliss, without whom it could do nothing. Now let the welkin ring! Let tin horns be blown and bells rung. Let the world know that John B. Corliss has recognized the Hawaiian government, and that he rejoices. Seize your pen, ye dreaming poet, and in accents loud as may be, send abroad the joyful notes; Corliss has blessed the Haw-way baby!

As the time for the meeting of congress draws near, the rumors as to the intention of the president to make prominent the question of currency reform in his forthcoming message become more pronounced. The importance of the issue is admitted by all parties. Facts in connection with recent bond issue have furnished a valuable object lesson on the subject. The time is also opportune since there is no other question of so great importance to engross the attention of congress.

its support the sound currency men of all parties. Our present currency is a sort of conglomerate, much of it the outgrowth of emergencies. It is less a system than an aggregate of fragmentary measures called out by the necessities of unusual conditions. In view of the general recognition of the need of a change, it ought not to be too much to hope, should the president present to congress some well thought out plan if currency reform, that progress will be made in the direction of the establishment of a sound financial system. Several plans of reorganization have been suggested, but that which has attracted most attention, and which, with certain modifications, will it is said, receive the recommendation of the president, is known as the Baltimore plan, and was gotten up, or approved, by the convention of bankers which recently met in Baltimore. It has already been approved by many of the most conservative men of the nation, and by the leading journals of the country. It is in no sense partisan. The outlines of the system were given in the Argus of Nov. 16th. If it is to have the endorsement of the president and secretary of the treasury, it should receive the careful study of all well informed citizens, to the end that the efforts of the president and congress to secure to the country a better monetary system may be sustained by the people.

According to the Coldwater Courier, Mr. Patrick Bishop recently made a highly satisfactory experiment with ground wheat as hog feed. He took seventeen head of hogs, old and young, weighing in the aggregate 1,450 pounds and on the 10th of September commenced feeding them ground wheat. After feeding them forty bushels of wheat which cost six cents for grinding, he weighed them again, Oct. 31st, and they tipped the scales at 2,600 lbs, a gain of 1,150 pounds. This increase at the then price of pork, 4 1/2 cents a pound, was worth \$48.78, giving a return for the wheat fed of \$1.22 per bushel, more than double what could have been realized for it in the market. All over the country farmers are making similar experiments and in every instance that has come under the observation of the Argus, the returns have been large, ranging from 50 to 100 per cent. That there is large profit on wheat (at present prices) for animal food, and that it is coming into quite prominent use as such, is shown by the fact that conservative investigators agree that during the crop year the amount used for this purpose will reach at least 75,000,000 bushels and may reach a total of 100,000,000 bushels.

Talk about hard times and depression of business and other manufacturing calamity croaks, because of democratic rule. Here comes the Clinton woolen mills, and makes its statement for October, which shows that it did the most work in its history under the second month of the "Wilson free trade" bill that was going to smash all business flat. During October there were used 50,000 pounds of clean wool and 38,000 yards of cloth were made. The protection liars who control the mill and influence the operatives, would die of mortification, if lying wasn't a cardinal point in their makeup. According to the arguments of the congressmen who represented these factories, in the consideration of the tariff bill, every one of these mills would stop running and every employe would be without work, and disaster and ruin would follow. Yet here comes the Clinton mill right after the bill becomes a law, increases its output, uses more wool, makes more money, and keeps its plant running over hours to fill orders for goods. A proper placard to place over the door of the Clinton woolen mills would be, "The management of this factory is a tariff liar."—Adrian Press.

Congressman Wm. L. Wilson was accorded a reception at the Tremont house, Boston, recently, by his democratic admirers, and in the course of his remarks, alluding to the late defeat of the party, sized

up the causes of the same by saying that "the kick came from the heels of the American people—there was very little brains in it."

Already notice of twenty-six contests for seats in the next house of representatives have been filed by defeated republicans. Most of these contestants will probably be seated, not because right is on their side, but because the salaries are needed to make the g. o. p. solid for 1896.

James O'Donnell, of Jackson, has announced himself as a candidate for governor in 1896. He also has his lightning rod up for the senatorship to succeed Patton should the fluid fail to light on any of the candidates now in the field. James is a modest man.

ON THE FIELD OF BATTLE.

Otherwise the Football Arena—The Winners and the Wounded.

SPRINGFIELD, Mass., Nov. 26.—After each Harvard-Yale football game for twenty years now the writers of news history have been obliged to open the annual record of this encounter with the trite statement that "Yale again defeats Harvard." This, to be sure, is not literally the fact, because Harvard has since 1875, when the record began, wrenched two victories from the New Haven men. Harvard, though beaten, played good football against fates that might well-nigh be seen in the air. A Yale partisan, hoarse with his yelling for the Blues, praised the feeling which widely prevailed among spectators: "If I never before believed in Yale luck," said the Yale man, "I believe in it now. I assure you that while Yale had the better team, Harvard played the better football, if anybody can understand what I mean by that."

The game began at 2 p. m. before about 30,000 people—some say 40,000, and the battle waged hotly from beginning to end. Back and forth went the ball, now on Harvard ground and then on Yale, but the end of the first half saw Yale with a score of 12 while Harvard had but 4, in spite of splendid playing. The second half was hotly contested, so hotly that neither side scored and the game ended with the score of 12 to 4. Several men were hurt and much time was taken up by the doctors in examining the wounded. Wrightington's collar bone was broken. Hallowell was disabled, Murphy was taken away insensible, and Brewer was ordered off the field by the doctors. Jerrens also had to quit; so did Butterworth. Two men were ruled off for slugging.

Joy in Michigan University. DETROIT, Nov. 26.—The fiercest struggle at football that ever took place on Michigan soil was the game between Michigan and Cornell universities. It was pluck against pluck, strategy against strategy, strength against strength, and Michigan developed the most strategy, had the most strength, but in pluck honors were even. The game took place on the grounds of the Detroit Athletic club. The victory places Michigan in the position of worthy foe of Yale, Harvard, Princeton or Pennsylvania. The score was Michigan 12, Cornell 4, and when all was over blue and yellow was all the colors that could be seen, while the Michigan men went wild. Villa had his leg wrenched and had to leave the field and one or two others were hurt.

CHICAGO, Nov. 26.—Besides the two big games of football—Yale-Harvard and Michigan-Cornell—the following were played: At Chicago—Northwestern university 0, Chicago 36; at Springfield, Mass.—Brown 20, Dartmouth 4; at Indianapolis—Butler 58, Washburn 0.

TRANS-MISSISSIPPI CONGRESS. In Session Today at St. Louis—The Subjects It Will Discuss.

ST. LOUIS, Nov. 26.—Today the seventh annual meeting of the Trans-Mississippi congress was called to order at Entertainment hall, Exposition building. This will be the most notable gathering in this city during the present year. Daily sessions will be held, ending on Friday. The convention is composed of ten delegates from each western state, one from each county, one from each city for every 10,000 population, and three from each business organization, with an additional one for each 100 members. The chief subjects for discussion are "The Remonetization of Silver," "Irrigation of Arid and Other Land," "Disposition of Indian and Public Lands," "Niagara Canal," "National Bankrupt Law," "Improvement of Western Rivers and Harbors," "Anti-option Legislation," "Mining Laws" and "Admission of Territories to Statehood." Among the more prominent delegates here are Governor Waite, of Colorado; ex-Governor Prince, of New Mexico; Delegate-elect Cannon, of Utah, and A. C. Fiske, of Denver, president of the Bimetallist league.

ARMENIANS APPEAL FOR HELP. Every Citizen of This Country Asked to Give at Least One Cent.

MINNEAPOLIS, Nov. 26.—Herant M. Ki. retchjian, who figured prominently in the parliament of religions at the World's fair, and who has since been engaged in interesting the people of the United States in the condition of the people of Armenia, his native land, is now organizing Phil-Armenic associations throughout the United States, and has issued what he calls a thanksgiving proclamation to the people of the United States asking every citizen to subscribe at least one cent to a fund to be used to liberate Armenia from Turkish rule. He reviews the atrocities alleged against the Turks and makes an impassioned appeal. Western money can be sent to the Security bank, Minneapolis. He has also appealed to the president for mediation to the governors of the southern states to protest to England against her indifference. American editors are also appealed to in general.

Gold Payment of Revenues. WASHINGTON, Nov. 22.—It is expected that very soon after the meeting of congress a bill will be introduced to provide that a certain percentage of the revenues of the government (the exact rate not yet determined) shall be paid in gold.

WHOLESALE STEAL.

Bookkeeper Seely Embezzles a Large Fortune.

GOTHAM BANK ROBBED OF \$354,000.

The Rascal Exposed by the Adoption of a New System of Keeping Accounts, Makes Himself Scarce and Confesses to His Attorney—A Second Party Alleged to Have Got Most of the Swag—The Bank Claimed To Be Sound.

NEW YORK, Nov. 26.—Samuel C. Seely, an assistant bookkeeper in the National Shoe and Leather bank, has disappeared with \$354,000 of the bank's funds. Seely was aided by a confederate, the bank officials are certain. Indeed they go so far as to assert that the identity of Seely's accomplice is known to the police and that detectives either have him in custody or will soon apprehend him. This confederate was not an attaché of the bank, though it is intimated that he was a depositor. According to Vice President Pease Seely has been fleeing the bank for some time past. His method was not ingenious, neither was it brilliant. It was arduous, difficult and dangerous, but without successful.

Threatened with Exposure He Skips.

According to Mr. Pease's statement the entire execution of the scheme lay in transposing the accounts with the assistance of a confederate. On Thursday, Nov. 15, the bank began to prepare for the inauguration of a new system of book-keeping. This, of course, blocked Seely's game. The introduction of a new method of keeping accounts would necessitate a review of the books and such a review would probably, if not certainly, disclose the deficiency. Exposure stared Seely in the face. Pease and his associates suspected nothing wrong until Friday, but when on the evening of that day their suspicions were aroused Seely had disappeared.

The Bank Declared All Right.

Work was commenced on the bank books and accounts and early last week the investigation resulted in the discovery of Seely's wrong-doing. Vice President Pease says: "The moment we discovered the existence of an irregularity in our accounts we called in the bank examiner and subsequently asked the assistance of the clearing house. The stability of the institution, however, has not been in the least impaired by this unfortunate affair. How Mr. Seely accomplished his work is difficult to say. That it required close figuring and accurate calculations is evident. He must have kept a private set of books for his own information—a sort of record of his own shortcomings."

Been Stealing for Nine Years.

For a time it was feared that the bank depositors would become alarmed over the defalcation, but though a number called at the institution they were easily assured that all claims would be met without difficulty. Seely was under \$7,500 bonds to the bank. He is 40 years of age and resided with his wife and two children in Brooklyn. He had been in the bank's employ fourteen years, but his operations are said to have extended only through a period of nine years. Lawyer Angel, his counsel, asserts that Seely was victimized by his accomplice, who is said to be Frederick Baker, a lawyer. Angel says Seely got only \$11,000 of the large amount taken.

Confessed His Crime to His Attorney.

Angel is a personal friend of Seely, and says that the latter came to him and confessed his crime. He was advised to give himself up, but declined, saying that he would take his chance of running away. He said that his confederate got nearly all the money, and told who he was. The confederate, Angel said, was too old to run away, and besides was a lawyer and knew what he was doing. Angel also said that it would be almost impossible to convict the confederate.

Was He Seely's Accomplice.

FLUSHING, L. I., Nov. 26.—Frederick R. Baker, a wealthy resident, was drowned in Flushing bay. Mr. Baker resided at Sands Point. Living with Mr. Baker were his wife and two sons. The two sons went gunning in a boat, and the wind beginning to blow freshly the father got anxious and went out in a boat to look up the "boys." The boys found his capsize boat as they were returning home and under it was their father's body. A fact that makes this occurrence of more significance is that Baker is alleged to be the man who is implicated in Seely's embezzlement, and the question arises whether the case is not suicide.

FIRST SUIT OF ITS KIND.

Organized Labor Trying to Enjoin a Lowering of Wages.

PITTSBURG, Nov. 26.—A bill in equity has been filed in court here by President M. M. Garland and Secretary J. C. Killgallon, of the Amalgamated association, against President W. C. Kronmeyer and Secretary John Jarrett, of the Tinned Plate Manufacturers' association and the United States Iron and Tin Plate Manufacturing company. The bill asks for an injunction restraining the defendants from operating the Demmler tin plate works at lower wages than those named in the wage schedule of the tin plate workers, and asks that this contract between the workers and the manufacturers be declared in force. This is the first suit of the kind ever filed and will test the validity of a wage schedule. A few weeks ago the Demmler plant started up non-union, the union men refusing to take a reduction in wages.

Another Dangerous Counterfeit.

OMAHA, Nov. 26.—A new and dangerous counterfeit has made its appearance in Omaha. It was presented and detected at the Commercial National bank. It is a \$2 silver certificate with the portrait of William Windom and the signatures of W. S. Rosecrans, register of the treasury, and E. R. Noecker, treasurer of the United States; Series of 1891 and of the plate E fourteen. The workmanship is fine and the bill will pass almost anywhere. The only weak feature of the bill is the fibres composing the paper.

O'Donnell Wants a Fight.

CHICAGO, Nov. 26.—James J. Corbett has issued in behalf of Steve O'Donnell a challenge to fight any heavy weight in the world to a finish for \$5,000 a side, the contest to take place the same week as the Corbett-Fitzsimmons fight. A forfeit of \$1,000 was deposited with Will J. Davis, of Chicago, and the man first covering the amount will be given an opportunity to meet O'Donnell.

They had just emerged from the telephone exchange where they were employed. "Sometimes," said one of them, "I think that I would like to go on the stage and act or on the lecture platform. Then, again, I think not."

"I think not all the time," was the positively spoken rejoinder. "Still it must be nice to play upon the emotions of the multitude." "Of course it is. That's what makes it so jolly in the telephone exchange. When we talk sweetly to some man through the phone, I can tell by the way he coos back that he is smirking in the most absurd manner. And if I want to make him angry I can tell him the line's busy and ring in his ear. I tell you, my dear, when it comes to playing on the emotions of the multitude Sarah Bernhard will have to give extra matinees if she wants to surpass us in opportunity."—Kate Field's Washington.

Amos Ketcheson, of Whittaker, buried 15 bushels of potatoes at the back end of his farm. Subsequently he concluded to remove them to a safe place fearing, perhaps, that they might be stolen. He left the hole, however, and Ketcheson thinks of removing that to his cellar.

John K. Robison, grandson of Hon. John J. Robison, is a mechanical and electrical engineer, and is now at Ajaccio, the birthplace of Napoleon, on the Island of Corsica. He was sent by the U. S. Government to study in foreign countries their methods of mechanical and electrical engineering.

A supposed female ghost, which turned out to be a woman, was recently caught near the seminary building at Ypsilanti, with a stick of wood in each hand. The marshal caught the "ghost," who begged not to be exposed. Ross thought she was already sufficiently exposed and let her go without revealing her name.

Lima. Wedding bells rang nearly all the week in Lima.

Fred Kline and Miss Eschelbach were married Tuesday, Nov. 20th. John Schantz and Miss Detling were married Thursday, Nov. 22.

Mary Wood has a new piano. N. E. Freer, of Ann Arbor, was here on legal business Tuesday, Nov. 20.

Alex Dancer is to have an auction and move to town.

WASHTENAWISMS.

A reading room is projected for Chelsea. Dr. Jefferson, of Milan, has taken a trip to Europe. Aaron Derbyshire, of Willis, has sold his farm for \$4,000. The Glazier Stove Co. intends to add two five-ton die presses to their equipment.—Chelsea Standard. Nathan Isabell, of Saline, shipped a car load of beans last week. Prices should be very good since election. The donation for Rev. Mr. Marshall, of Saline, recently, netted him about \$50, over and above the wear and tear. "Who will be our next deputy sheriff, after January?" inquires the Saline Observer. Dunno. What have you been doing? Charles M. Van Orden, of Chelsea, died Monday last week. He had lived most of the time since 1837 in the vicinity where he died. In the absence of the postmaster who does such things, O. F. Blum buys grain and re-gums the new issue of postage stamps, at Bridgewater. Herbert H. Smith and Miss Ella V. Biemel will beguile the evening Thanksgiving hour, at Ypsilanti, by standing as principals in a matrimonial affair. The marriage of Miss Jennie E., daughter of Mr. and Mrs. James M. Hudler, of Chelsea, to Mr. Arthur E. Walker, of Detroit, will take place Nov. 29th.—Standard. There is not room enough in Saline for all the hitching posts the town needs. On busy days many farmers are compelled to hitch their horses to the corporation line. R. W. Hemphill, of Ypsilanti, has banked a turnip grown on the Starkweather farm, and weighing 18 pounds and six ounces. This is the greatest "turn-up" we have heard of since the election. A vote by the M. E. congregation at Ypsilanti, on the question of the resubmission of a prohibitory amendment to the state constitution, resulted in a practically unanimous vote in favor of it. A recent social in Webster netted \$46, which will be used to keep the wind from whistling through the branches of the poor and needy, among whom should be included some of those who placed their money wrong, before election. Dr. George D. Herron, a renowned sociologist, has been secured to deliver a course of three lectures at Ypsilanti, on "The Christian State." It is enough to say in favor of the doctor, that he began life as a printer, and never evolved backward. Charles Bell, who has been employed as a repairer by the jewelry firm of Stone & Carpenter, has accepted a position at Jackson.—Ypsilanti Sentinel. That is nothing unusual. There are hundreds of other men who have accepted positions in Jackson, but are not in the jewelry business. A petition was recently presented to the acting mayor of Ypsilanti, asking his veto in the matter of an order for a change in the line of the property owned by the Baptist church. He refused, remembering that worse men than he have been roasted at the stake for meddling with religious affairs. A flag raising, with appropriate ceremonies, takes place today at the Shaw school house in Saline. It was won by the school, at the Washtenaw fair, for the greatest attendance of any school ten miles distant from Ann Arbor. A social will follow in the evening at the home of Ira Bidle. When some of the young evil-doers of Saline heard of the appointment of Brainard as marshal, they snickered and proceeded to raise Ned. But the new marshal grabbed an armful of them and started for the lock-up. When he let them go they were not snickering, but the marshal was. A movement is on foot looking to the earlier closing of the stores and other business places of Chelsea. Lest the movement may create some apprehension, we will add that saloons will be exempted from the operation of the proposed new rule. Otherwise, of what use would the early closing of the other business places be? People in Ypsilanti who contemplate having their houses get afire should exercise a little sense and select such a time as would be most convenient for the department to get out. Their carelessness in this regard has been the cause of much annoyance. Only last week, a fire alarm was inconsiderately turned in while the driver was at breakfast, and as the man who sleeps there was still in bed, undressed, it required much time before he could dress and make his toilet properly before answering the call. However, he put up with the rude disturbance of his sleep and got the department out, after a while.

An addition to the Chelsea electric light station is being built. It is said that workmen are "raising the dust" in a Manchester bank. Well, that is what a bank is for. John Schantz and Mrs. Mary Oker Detting, of Chelsea, were married at Chelsea, last Thursday. Dexter's young ladies have in contemplation the production of Jephtha's Daughter, during the holidays. A colored family has colonized at Rawsonville—the first that ever ventured upon squatter sovereignty in the history of the place. Martin & Hall, of Bridgewater, left their cabbages out over night too many times and lost between 4,000 and 5,000 heads. From a paragraph in the Enterprise it would appear that there was a lynching bee in Manchester last Wednesday: "The Methodists hung their faithful old bell, yesterday." The wheelmen of Ypsilanti have been defeated in their efforts to secure of the council the use of certain sidewalks. The "fathers" stood firm and the wheelmen took "a header." An anti-dead-beat association has been formed at Ypsilanti, and hereafter it will be more tolerable for Sodom and Gomorrah than for the fellow who promises to pay and won't do it. Fifty men and three dogs at Ypsilanti hurled themselves with great force upon six rats in a trap, the other day, and killed every last one of them. It was like the slaughter of democrats, election day. The friends of Judge Kinne, circuit judge of this district, are going to boom him for the supreme bench to succeed Justice McGrath, democrat, whose successor will be elected next April.—Dexter Leader. A new furnace will be placed in the M. E. church, of Saline; then it will be good bye to smoke and cold feet, and confidence will be restored in the good old Methodist theory of a furnace in its creed. The cornfield of Matthew Keeler, of Sharon, returned a yield of 100 bushels per acre. It is understood that while the sluggard slept, Mr. Keeler sat up nights and tilled it out, before the drouth got hold of it. Mrs. Rhodes and her trimmer narrowly escaped suffocation by coal gas a few nights since. The cover to the stove was accidentally left partially open when they retired and the gas poured out until discovered in the morning.—Saline Observer. The Saline English Composition club has recently been engaged in dissecting Gray's Elegy from a literary standpoint and find it in a horrible condition—just literally honey combed with polly-syllables and other malignant microbes, and the wonder now is how it ever lived so long. Friends of Anton Dexter, of Milan, to the number of a house full, sprang in on him one evening last week and surprised him clear to the bottom of his socks. Then he recalled that it was his fiftieth birthday and when he reflected that he was loaded up with half a century he sat down and felt very weak and decrepit. A sad and fatal accident occurred at Chelsea, Thursday, last week, the victim being Jacob Hesel-schwerdt, of Sharon. He was delivering a load of wood at Boyd's hotel, and in turning his team backed the wagon over a high bank. The load was upset, and Mr. Hesel-schwerdt falling off was partly covered by the wood, receiving injuries from which he died soon afterward. He had been many years a resident of the county and was universally esteemed. The wife and eleven children survive him. Any lack of interesting items in the Sentinel this week may be attributed to the fact that the publisher has been removing his "lares et penates"—we believe that is proper Latin—from one residence to another.—Ypsilanti Sentinel. The editor of the Sentinel is a good enough newspaper man, but he ought not to suppose himself an expert in all directions, and especially should he not undertake to become his own surgeon, in so difficult and complex an operation as removing his "lares et penates." It is a wonder that he lived. C. F. Conrad, of the Dexter Leader, formulates a political platform which he thinks would better things, and in some respects we quite agree with him, especially as to his 6thly, under which the people are given power to recall any member of congress who develops disability or turns out a knave or a fool, and elect in his stead a different animal. Of course this would just about depopulate congress as at present constructed and as built for the next term. It would be a most wholesome measure, however, and the Argus trusts Conrad may survive to see the fruition of his scheme.

Ypsilanti poultry show from Dec. 21 to 28, inclusive. Ypsilanti grange will commemorate the birthday of Whittier Dec. 3d, at 1:30, p. m. An Ypsilanti jury has awarded Joe Pierce \$10 and costs against Wm. Jones, for popping over Joe's dog. Rev. Mr. Meister, of Adrian, will remove to Freedom as soon as he can discover a suitable domonic domicile. Manchester has a horse trader, who if he does not make at least two exchanges a day, feels like committing suicide. The clock and bell for the new high school building at Ypsilanti, weigh 2660 pounds—a "striking weight" as it were. Fr. Kennedy, of St. John's church, Ypsilanti, is filling in a depression between the church and the parsonage, with nearly a thousand loads of dirt. This week it is said that a young professional man, of Chelsea, will go to the frigid north of the state for a wife, and one of the prominent young ladies of the village will grab a Detroit gentlemen. Mrs. Smith, wife of the editor of the Commercial, visited Colorado, for her health and while there, secured an opportunity to vote at the recent election. The Sentinel does not quite understand how Mrs. Smith brought it about. It was unquestionably allowed in compliment to Ypsilanti. Mr. and Mrs. Philip Keusch, of Chelsea, celebrated their 25th wedding anniversary, yesterday. A high mass of thanksgiving was celebrated by their pastor, Rev. W. P. Considine, at eight o'clock. In the evening a reception of invited guests took place and congratulations and an elegant repast followed. Johnny Wright, a boy, was so discouraged at being compelled to live in Ypsilanti that he stole a coat and vest, and expressed a desire when arrested to be sent to the Lansing reform school, did little Johnny Wright. It wasn't right, of course; but so it goes down there. Some are driven to crime, others to suicide. The Manchester Enterprise says that republicans and democrats alike, "in this neck of the woods would be pleased to have Fred Freeman appointed deputy county clerk under the new dispensation." Well, Fred would suit us just as well as any other republican, and we shall submit to whatever happens. The dead should keep still, till the resurrection. A Sharonite says that "it will take a brave democrat to run for office, next year." No it won't. The most cowardly democrat in the county (except the coward who deserted his party this year), knows that after one session of the republican legislature, any democrat in the county who may choose to run for office, can lick his opponent as easily as a hound pup can lick a skillet. Readers of the Enterprise will remember an item about tramps robbing a peddler near Jerusalem about a year ago.—Enterprise. Now see here! There may be a few of your readers who are so ignorant of the bible that they never read of the fellow who started from Jerusalem for Jericho and was robbed, but to copying it almost bodily and pretend that it was an original piece of news in the Enterprise of a year ago is the baldest presumption. A warrant has been issued for the arrest of a man, who in spite of all rules and in defiance of personal warnings, recently visited the Manchester township small pox hospital. The warrant is in the hands of an officer who will serve it just as soon as he is sure that no small-pox is hanging around the blockhead, who at present is like a hog which ate a can of nitro glycerine and was given the freedom of the town, nobody daring to kick him for fear of an explosion. Free Church farmers are losing their pigs with some unknown swine malady. A correspondent of the Commercial, who is up in hog lore, recommends pouring down the sick swine half a pint of melted lard with enough ginger in it to keep the porker guessing where the fire is. The stuff is to be given from a long-necked bottle. Grab the hog by the ears and pull up. He will sit back on his haunches and sing you a tune with his mouth wide open. Then "give it to him." He will take it, and never mistrust that he has swallowed part of another hog. The ginger will keep him from reflecting. In a day or two do so some more, and squealer will be well. Of course it will take two persons to administer the remedy—one to hold up the hog by the ears, the other to give him his tonic. Still if you have good teeth you can do it alone. Grab one ear with your jaws, and you have a free hand with which to use the bottle.

THAT'S QUEER!

You say a collar and cuff that are waterproof?
Yes.
And perspiration will not affect them?
Yes.
And when dirty you need only wipe them off with a wet cloth or sponge?
Yes.
Wonderful! How are they made?
A linen collar covered on both sides with waterproof "CELLULOID." Looks exactly like a linen collar.
Is it the only waterproof collar and cuff made?
No, but it is the only one made with the linen interlining and consequently the only one that can give entire satisfaction, because it is the best.
How can I know that I get the right kind?
Because every piece is stamped as follows:

Inquire for that and refuse anything else, or you will be disappointed. Suppose my dealer does not have them?
He probably has, but if not, send direct to us, enclosing amount. Collars 25c., Cuffs 50c. State size, and whether collar wanted is stand-up or turned-down.
THE CELLULOID COMPANY,

Fred Schill, sr., of Manchester township, while returning from the home of a neighbor, fell and received a fracture in one of his legs. Augusta township board has appointed Elias B. Stone, supervisor in place of County Clerk Elect Damsburg. "This is Elias which was for to come." Jack Jibb and Mr. Jones, small-pox nurses at the Manchester hospital, will remain there till Mr. Hermidinger is sufficiently well to allow of the premises being fumigated. Some men are gifted with the conviction that a fighting bull-dog is of some account in this world, and six of them happened to be polled on a jury yesterday.—Ypsilanti Dept. Times. What!—bulldogs? Manchester people talk about it in their sleep, and when they awake find they have been dreaming about starting a canning factory. It would not be surprising if, in their waking moments, they were to start out and do a thing like that. They have just found out at Ann Arbor that Pete Lehman, of Chelsea, who is to be deputy county treasurer, under Wm. Rehffuss, is a republican. What den-e ignorance.—Manchester Enterprise. Yes, there is a lot of it somewhere. Gottlieb Benz, of Webster, has erected a snug shed for his team, on the Lutheran church grounds. His team will undoubtedly appreciate the innovation. Looks queer however, to witness a "close communion" shed on Lutheran church grounds. J. L. Lowden, D. C. Eaton and C. H. Roberts have been designated by the probate court to array themselves each in a suit of boiler iron or other bullet proof material, and go out and determine the necessity of a drain, known as Mill Lake drain. They met yesterday at Chelsea town hall, but thus far no casualties have been reported. **The World's Fair Tests showed no baking powder so pure or so great in leavening power as the Royal.**

We Pay \$10 Each for Ideas
We need TWENTY or MORE original and striking designs for Newspaper Advertisements of SANTA CLAUS SOAP. The manufacturers, The N. K. Fairbank Company, authorize us to pay TEN DOLLARS EACH for approved drawings with appropriate reading; or \$5.00 each for designs or reading matter only. This offer is open to all. The competition will close December 1. As soon as possible after that date we will pay for accepted designs and return the others. Remember, for complete, acceptable advertisements we pay.
Directions.—Make drawings with black ink on heavy white paper, or card board. Do the work in outline. Elaborate shading will not print well. Space in papers will be four inches square. Draw to larger size than you prefer, but have design square. The idea is most important. If that is good we can have it redrawn and still give you credit. Avoid poetry. Get up an ad. that would make you buy the article.
Points.—Santa Claus is pure, high-grade Soap—made for laundry and general household use—a favorite wherever known. Merits generous praise. Sold by all grocers, wholesalers and retail.

Nervous, Despondent, Diseased Men!
Emissions, Varicocele, Seminal Weakness, Self-Abuse, Syphilis, Gleet, Stricture, Unnatural Discharges, Loss of Vital Fluid in Urine, Impotency, Sexual and Mental Weakness, Kidney and Bladder Diseases, Positively CURED OR NO PAY! 16 YEARS IN DETROIT. 200,000 CURED.

Like Father, Like Son.
Young or Middle Aged Man—You have led a gay life or indulged in the vices of early youth. You feel the symptoms stealing over you. Self-abuse, or later excesses have broken down your system. Mentally, physically and sexually you are not the man you used to be or should be. Lustful practices reap rich harvests. Think of the future. Will you heed the danger signals? Are you nervous and weak; despondent and gloomy; specks before eyes; back weak and kidneys irritable; palpitation of heart; dreams and losses at night; sediment in urine; weakened manhood; pimples on face; eyes sunken and cheeks hollow; poor memory; careworn expression; Varicocele; tired in morning; lifeless; distrustful; lack energy, strength and ambition. Our New Method Treatment will positively cure you. It will make a man of you and life will open anew. We guarantee to cure you, or refund all money paid. No names used without written consent. \$1,000 paid for any case we take and cannot cure!

SNATCHED FROM THE GRAVE!
A Warning From the Living.
Emissions Cured. "At 15 I learned a bad habit. Had losses for seven years. Tried four doctors and nerve tonics by the score, without benefit. I became a nervous wreck. A friend who had been cured by Drs. Kennedy & Kergan of a similar disease, advised me to try them. I did so, and in two months was positively cured. This was eight years ago. I am now married and have two healthy children." C. W. LEWIS, Saginaw, Mich.
Varicocele Cured. "Varicocele, the result of early vice, made life miserable. I was weak and nervous, eyes sunken, helpless in society. In this dream and losses night, no ambition. The "Golden Monitor" opened my eyes. The New Method Treatment of Drs. Kennedy & Kergan cured me in a few weeks." I. L. PETERSON, Ionia, Mich.

Syphilis Cured. "This terrible blood disease was in my system for eight years. Had taken mercury for two years, but the disease returned. Eyes red, pimples and blotches on the skin, ulcers in the mouth and on tongue, bone pains, falling out of hair, weakness, etc. My brother, who had been cured of Gleet and Stricture by Drs. Kennedy & Kergan, recommended them. They cured me in a few weeks and I thank God I consulted them. No return of the disease in six years."
W. B. M., W. L. M., Mich.
A Minister Speaks. The Rev. W. E. Sparks, of Detroit, says: "I know of no disease so injurious to the mind, body and soul of young men as that of Self Abuse. I have seen many victims of this awful habit. Drs. Kennedy & Kergan for treatment. I can heartily endorse their New Method Treatment which cured when all else failed."
A Doctor Recommends It. "I know nothing in medical science so efficient for the cure of Syphilis and its sequelae as the New Method Treatment of Drs. Kennedy & Kergan. Many cases which had baffled scores of physicians were cured in a few weeks. I have seen this with my own eyes and know it to be a fact."
T. E. ALLISON, M. D.

Blood—Have you been guilty? Has your blood been diseased? Are you weak? Do you desire to be a man? Are you contemplating marriage? Our New Method Treatment will positively cure you. Cures Guaranteed or No Pay! Consultation Free.

The U. of M. students jollified in the jolliest manner last night. The celebration had something to do with a football game that took place Saturday in Detroit. Bonfires, lanterns, guns, crackers, "ru-rah's", tuzzahs and fun galore ruled the campus.

In familiarizing himself with his coming duties as county clerk, the first thing Mr. Dansingberg did was to tackle a marriage license. He felt awfully awkward at the business, but the prospective groom felt awkward, also, and didn't notice it. In fact neither of the two novices noticed the embarrassment of the other.

Nelson E. Freer, attorney, is now located with C. R. Whitman, in the practice of law. Mr. Freer is a graduate of the law department of the University, and has done an extensive collection business for the McCormick Machine Company. He is a young man who appears to have in him the stuff of which good lawyers are composed.

J. J. Findlay, of Oxford, England, who is investigating the common school system in America, lectured in Tappan hall last week, and made the remarkable confession that the English system of common schools was practically that of 500 years ago. England's great mistake was in putting technical schools ahead of secondary education. He finds the American common school system immeasurably in advance of that of England.

A portrait of ex-Gov. Alpheus Felch, painted in 1846, when the now memorable ex-governor was 42 years old, will be hung in the supreme court room in the state capitol at Lansing, during the January term of court. The portrait was painted by Joseph A. Haskall, an artist of considerable prominence, and much real merit, and who met with reverses in his old age, and recently died in the poor house at Syracuse, N. Y. For many years the painting has hung upon the walls of the Calhoun county court house at Marshal.—Courier.

The Ann Arbor Argus prints a touching obituary of an old oak, that for half a century has stood in the middle of one of the sidewalks in the city, and says that "for years it has stood as a silent witness to the growth of the city." Yes, blamed if it hasn't, and it's been a silent witness to some of the noisiest swearing ever provoked by unexpected contact with pedestrians on dark nights, whereby noses have been skinned, shins barked, and belladonna shocks received. But is it the man-bruiser that stood in front of Judge Kinne's residence? If so, we shall believe that electric railroads have more backbone than Ann Arbor councils.—Adrian Press.

It seems as though the marshal ought not to have made a fuss with street car conductor Mullison for running his car faster than the law allows. The cars are often run much slower than the law allows, especially if one is in a hurry for the car. Then it is quite likely not to run at all.

"The Tornado" Friday night, at the Grand opera house, drew a fairly good house. The tornado scene was thrilling and realistic as also was the shipwreck at sea. Those magnificent stormy scenes brought on another storm—a storm of applause. Some excellent dramatic talent was also exhibited.

"On the Bowery" Saturday night could have been bettered by better actors. There was but one really worthy impersonation, and that by an old gentleman who took the part of the farmer seeing the sights of New York. Steve Brody, who jumped from Brooklyn bridge, owns the show and was with it.

BISSELL'S REPORT.

OPPOSES A POSTAL TELEGRAPH.

It Does Not Pay in England, He Says, and Would Do Worse Here.

The postmaster general does not favor the postal telegraph, a system advocated by his predecessor. The conditions in this country, he says, are such as would enormously increase the large deficit. He takes as example the system in Great Britain, which is a comparatively small territory, and shows that the postal telegraph entails a total annual loss of about \$2,000,000. He points out that in a country where the territory is so large the cost of a postal telegraph would far exceed any possible receipts or benefits.

The postmaster general believes in civil service in the post office department. He says: "If the system has produced such good results in the clerical force of the department it is reasonable to inquire whether something like could not be applied with advantage to the lower grade of postmasters. For more than one generation the American people have been trained to regard the postoffice as inseparable from the varying fortunes of the two great political parties and in some instances even as legitimately following the vicissitudes of mere factions within a party.

"This fallacy is to be deplored. The intelligence of our people has long outgrown the notion that any one political party enjoys a monopoly of administrative talent. * * * The postal service must either be taken out of the political field altogether and surrounded with the same conditions which conduce to the health of a private business or be divided, for administrative purposes, into two sections, the one political and the other non-political, each under a separate head."

As to the bill now pending in congress to relieve the postmaster general of the responsibility of postoffice appointments Bissell says: "Whether such a plan is or is not the best that can be devised, it is at least the formulation of a plan which is entitled to the most earnest, careful and immediate consideration and may become a foundation upon which to build."

Monetary Commission Mooted.

WASHINGTON, Nov. 26.—There is a prospect that if congress fails to take action upon the suggestions for the modification of the national currency system, which it is understood will be recommended by the president or the secretary of the treasury, there will be an effort to secure legislation looking to the appointment of a monetary commission on the lines of the bill suggested by the Commercial club of Chicago.

BIDS FOR THREE TIMES THE LOAN.

A Syndicate, However, Likely to Get the Latest Bond Issue.

WASHINGTON, Nov. 26.—The bids for the \$50,000,000 bond issue recently offered by Secretary Carlisle were opened at the treasury department at the appointed hour. It was stated at the department that a hurried calculation showed that the total number of separate bids was 297, aggregating \$154,370,900. The largest bid was the syndicate bid of the United States Trust company, Drexel, Morgan & Co., and others, at \$17,077 for the whole sum or none. This bid was the largest offered, as the aggregate of bids above this figure was only for about \$10,324,150 of the loan, leaving about \$39,675,850 at a less figure.

It therefore seems quite probable that the syndicate bid will be accepted, although Secretary Carlisle stated that he could not express an opinion as to the result until today, when the awards will be made. According to the terms of this bid the government will pay 2.875 per cent interest on the \$50,000,000, as against 3 per cent, carried by the February issue. There is a possibility, however, that a close calculation will disclose the fact that there is a sufficient number of bids at a better rate than this, which, with the second syndicate bid at 116.888, or 2.889 per cent, may make a combination slightly more advantageous to the government than the other, although this is very improbable.

Has a Cure for Typhus.

BERLIN, Nov. 26.—Professor Behring has come out with a new discovery—typhoid serum. He claims that it acts curatively (in the case of typhus fever) with about as large a percentage of success in treatment as the diphtheria serum.

LABOR AT WAR WITH ITSELF.

Novel State of Affairs in a Chicago Industrial Fight.

CHICAGO, Nov. 26.—The fight between the Knights of Labor carpenters and the Building Trades Council carpenters continues to flourish. It is said that the matter will be carried into the criminal court on a charge of criminal conspiracy against the leaders of the latter organization. The grounds of the case will be as stated by the counsel of the K. of L. men in a letter to Ryan and others of the opposing faction, that "the Building Trades Council have carried on a warfare of extermination against their [the K. of L.] organizations; that the methods employed have been to procure the discharge of all members of either of the above organizations wherever they should be found working.

"There is little doubt but that the officers and business agents of each of the above organization [affiliated with Trades Council] can be indicted for criminal conspiracy if they are guilty of the conduct with which they are charged. I am sure that the organization which I represent would very much prefer to peaceably settle whatever differences may exist between them and your organization rather than be compelled to invoke the law." But the attorney warns the Trades Council and others that hereafter all cases will be immediately prosecuted.

FATAL FIRE AT SPRINGFIELD.

Two Men Burned to Death and \$100,000 in Property Destroyed.

SPRINGFIELD, Ill., Nov. 26.—The most destructive conflagration that has occurred for years has visited Springfield, resulting in the destruction of half a block of buildings in the business portion of the city. The fire originated in S. M. Little & Co.'s big livery barn, corner Fourth and Adams streets. Little's livery barn, Emanuel Salzenstein's livery barn, Smith and Lyon's transfer barn, Huntley's wholesale drug store, the armory of company C, Fifth infantry, I. N. G., the merchant tailoring establishment of George W. Anderson, and Vincent Hemberger's undertaking establishment were burned, with most of the contents. Over 100 horses were burned to death. George Brewer and Davis, sleeping in Little's livery barn, were burned to death. The loss is about \$100,000.

Celebrated the Birth of Bryant.

PRINCETON, Ill., Nov. 26.—The centennial of the birth of William Cullen Bryant was fittingly celebrated in this city, the home of his only living brother and the home from childhood of his four brothers and two sisters. William Cullen Bryant also spent several years of his life in this city, although he always maintained the old homestead at Cummington, Mass. Among those taking part in the exercises were Mrs. I. H. Elliott, of the Woman's club (under the auspices of which the celebration was given), who presided; S. C. Bates, of this city; President Finley, of Knox college, and John Howard Bryant.

Was a Fraudulent Will.

GUTHRIE, O. T., Nov. 26.—The failure of the Boston store, John Jacobs, proprietor, has developed much fraud. The store was closed on attachments of several clothing and dry goods houses, and it was shown that but \$6,000 assets were on hand to cover liabilities amounting to over \$50,000. The receiver appointed has ascertained that before the failure large quantities of goods were shipped out of the town to other towns and probably sold out.

FUR GARMENTS, CLOAKS AND CAPES

Live legitimate Merchandising finds its truest expression here. Our efforts in the direction of making our **Cloak Department** the **Foremost, the Most Popular** in the State, have been successful beyond expectation. Its fame as a Cloak Center extends in every direction. As an exponent of everything that is correct in **Style, Make and Fabric**, it is recognized by all. No passe garments here. No attempting to palm off previous season's styles to this fall's make. If a winter coat can be found in our entire department, not new this fall, the finder can have it **Free**. Who else can make this offer? This is the reason everyone comes to **The Store** when they want an up to date garment.

OUR FUR GARMENTS.

Have this year divided the honors with our Cloth Garments. We have now in stock a full line of Capes and Coats of every kind of fur worn. Every garment sold is fully guaranteed to be absolutely perfect and satisfactory in every respect.
