A Former Freedom Minister.

A recent News-Tribune contains a cut with an interesting article on Rev. John Hildner, pastor of Saint Paul's Mr. Hildner is the son-in-law of Jonahan Josenhans, of York township, and a brother-in-law of Gerhard Josenhans, of Ann Arbor. He was stationed at one time in Freedom. His many friends in Washtenaw county will be interesed in the following extract:

"John Gothold Hildner, the pastor, was born of German parents at Syra, Greece, the center island of the Cyclades, a group of islands in the Aegean sea or Grecian Archielago, on Feb. 6, 1837. His father was then a missionary of the Church of England, being sent out by the Church Missionary Society in Islington, England. At the age of fourteen John was sent to Malta, an island sixty miles south of Sicily, Italy, in the Mediterranean, the site of the shipwreck of the vessel which was conveying St. Paul as a prisoner to Rome. He studied here at the Protestant college till 1854. He then at the age of seventeen became a sudent in the missionary seminary at Basel, Switzlerland, where he graduated in 1859 after a course of five years study.

In the same year that he graduated he was ordained as a miniser of the German Evangelical church in the city of Mannheim, in Ban, Germany. Soon his woe:

After thirteen years' continuous service, he received a call from St. Paul's German Evangelical church in Detroit, just erected and numbering about thirty members, which he accept ed, becoming its pastor Feb. 16, 1873, on the day it was dedicated. Here he has remained until the present. He seems to be a pastor of good staying qualities, and judging from the esteem in which he is held by his people, the alertness of his step, his vigorous mien and buoyant spirit, it looks much as if his twenty two years of service in St. Paul may, God willing, be yet duplicated just as likely as not.

Teachers in Session.

The teachers of the county assembled in the high school hall on Saturday and listened to a very instructive and interesting programme, arranged by School Commissioner Cavanaugh. The forenoon was taken up in discussing a paper presented by Prof. L. D. Wines, of the Ann Arbor high school on Mathematics in the lower grades. A special feature was the music furnished by two little girls from the Ypsilanti schools.

The afternoon session was taken up in discussing a paper presented by Prof. ensuing year: President, Prof. Evan was true. He told the Dean of the Essary, of Manchester; treasurer, Vernon Sawyer, of Webster; secretary, Miss

The Bloomer Woman Will Continue to Bloom In Spite of All.

The English Philistine surpasses all the rest of his kind the world over. The new woman in bloomers has lately attracted his ire, and he has been fighting her with a bitterness as ungallant as it is amusing. The other day he inserted the following advertisement in the "agony" column of the London Standard: Deuteronomy, Fifth Verse, Twenty-second Chapter.—"The woman shall not wear that which pertaineth to a man, for all that do so are an abomination unto the Lord thy God."

This was, of course, intended to clinch the matter, because the British Philistine always wages war with the Bible in one hand-preferably the Old Testament—and is able to draw therefrom a text to prove anything. But woe to a wicked, carnal and sacrilegious generattion! The new woman would not be put down with a text. She had no text of her own, but she launched at the Philistine the following, which must have added not a little to the poignancy of

KILLED BY THEIR ARMOR.

It Weighed Too Much For the Stoutest Russian Soldiers.

One of the interesting features of the late czar's funeral was, as usual, the two men clad in mediæval armor, one on horseback and the other on foot.

The mounted knight had his visor open, and his armor was of burnished gold, which glittered in the sun. He symbolized life.

was coal black steel. His visor was closed, and in his hand he bore a drawn two handed sword, the blade of which was shrouded in crape. He symbolized 15

The weight of these two suits of armor is so great that, notwithstanding the most gigantic men of the imperial guard being selected to don them, the one on foot who officiated at the obsequies of Emperor Nicholas I fell dead from exhaustion on reaching the church of SS. Peter and Paul, where the imperial mausoleum is situated. While at the funeral of Alexander II the black knight fainted during the march from the Winter palace to the place of interment and was carried to the hospital, where he died the same night.

A similar fate overtook the black knight at the recent czar's funeral. It was observed that he could scarcely drag himself along during the latter part of the procession through the capital, and on reaching the fortress he sank unconscious to the ground and has since died. The stone was presented to the governor several water on guage at engine house has been years ago by the person who took it from the stomach of a deer. The valuable little concretion is oblong in shape, about 11/2 inches in length and of a bluish gray color. One end tapers to a blunt point; the other is flattened and has an aperture through which the spongy, porous interior may be plainly seen. When in ase, the opening is applied directly over the wound, and the pithy substance which forms the interior of the stone is supposed to "suck out" and absorb the poisonous venom, whether injected by a deadly serpent or a rabid dog. Persons who have seen the stone applied declare that it adhered firmly to the wound as long as there was a particle of venom in the system. -St Louis Republic.

COUNCIL PROCEEDINGS.

[OFFICIAL.]

COUNCIL CHAMBER. (ANN ARBOR, May 20 1895.) Called to order by President Hiscock.

Roll called. Quorum present. COMMUNICATIONS FROM THE MAYOR.

(1) Ald. Brown moved that the communication be laid on the table.

The motion prevailed as follows:

Yeas—Ald. Moore, Maynard, Allmendinger, Brown, Ferguson, Shadford, Prettyman, Coon, Butterfield, Cady, Pres. Hiscock—11. Nays-Ald. Koch, Snyder, Laubeu-gayer, Taylor-4.

(2) Referred to ordinance committee. (3) Referred to lighting committee.

COMMUNICATIONS AND PETITIONS. To the Honorable, the Common Council of the City of Ann Arbor.

Gentlemen: Gentlemen:

I will also suggest to your honorable body to immediately investigate the feasibility and advisability of reorganizing the Board of Public Works. The Board to consist of one tax-paying elector from each ward, whose duty shall be to look after the interests of his ward. There shall also be one appointed from the city at large who shall be the chairman of the Board and shall exercise the same functions in the exercise the same functions in the Board as does the president in the common council, but he shall have no vote only in case of a tie. All members of said Board shall be appointed by the mayor with the approval of the common council and may be removed by the council and may be removed by the same authority. All members repre-senting wards of even numbers as 2nd, 4th, 6th, and also the member at large will be appointed on years of even date and all representing wards of odd num-bers appointed on years of odd date, all to hold office until their successor shall have been duly appointed and qualified. W. E. WALKER, Mayor.

To the Honorable, the Common Coun cil of the City of Ann Arbor.

Believing it my duty as mayor, to do that which in my jndgment is for the best interests of our city, and believing as I do, that although the charges against A. M. Clark, President of the Board of Public Works, for "Misconduct in Office" were on investigation before this council not sustained by a majority vote, but being lost on a tie it is not such vindication as your honorable body and citizens of Ann Arbor have a right to demand and will certainly not give confidence in the accused. I do, therefore, by virtue of the power vested in me by Section 83 of the Charter of the City of Ann Arbor, with the consent of the Common Council, remove A. M. Clark from the Board of Public Works of this city. W. E. WALKER,

To the Honorable, the Common Coun cil of the City of Ann Arbor.

Gentlemen: I will also call your attention to the importance of advertising for bids for lighting the city for the next five years. As I understand the present contract expires on January 1st next and should the contract be awarded to an outsider he or they would need time to erect their plant.

W. E. Walker,

THE ROYAL BAKING POWDER

possesses a peculiar quality, not possessed by any other leavening agent. It makes bread, biscuit, cake, muffins or rolls which may be eaten when hot without inconvenience by persons of the most delicate digestive organs.

Yeast, and all baking powders that produce the leavening gas by fermentation, as is well known, destroy those nutritive elements of the flour which are the most healthful and the greatest aids to a perfect assimilation of the food.

The Royal Baking Powder leavens the food perfectly by purely mechanical means, without changing or impairing any of the elements of the flour, thus making it both delicious and wholesome.

The latest investigations by the United States and Canadian Governments show the Royal Baking Powder superior to all others in purity and leavening strength.
