FOURTH WARD SEWER

Project Also Met With Defeat pathos all through its entire length The Ann Arbor Courier Inat the Council's Hands.

The Proposed Saloon Ordinance Fails eral characters. of Passage and Mayor Walker's Veto of the Fourth Ward Sewer Was Sustained.

Two matters of great importance came up for discussion and settlement at the council meeting Monday, namely the ordinance to allow the saloonkeepers to open their doors at 6 a. m. and close them at 10 p. m. standard time, and the question as to whether the Fourth ward sewer should be constructed. It was plain to even the most ordinary observer that a determined effort had been put forth by the opponents of both measures to defeat them and that the chances were their efforts would be successful. The after results showed how well the work had been done and the ordinance and resolution both of them went down in defeat. All the aldermen except Ald. Coon were in their places when President Hiscock called the council to order.

When the question of passing the saloon ordinance as drafted came up for discussion, Ald. Moore offered an amendment to it that the time of opening the saloons be 7 a. m. and of closing at 9 p. m. standard time.

Ald. Brown in speaking against the amendment said that if the amendment carried it would be a bad movement. 'These business men," he said, "occupy many places, pay rent and taxes, and pay their debts. They ought to have just rights so long as this business is recognized by our government and ought not to be subjected to hardships. To open at 7, which means 7:30 local time, does not give them time to clean for the privilege of doing business. The state law expressly states that cities may pass ordinances to close the saloons between 9 and 11 p. m. This early hour is intended for villages, where there is no organized police force, and the law-makers did not mean that 9 o'clock was the proper time any more than 11 o'clock.

Ald. Maynard in speaking in favor of the amendment said the saloon business was not like the grocery business. It was during the last hour at night when the saloous were open that the most damage the most violence and the was the Decision Arrived at by Capt. That three-quarters of the 1,000 remaining after taking out the women students are most shooting was done.

Ald. Grossman spoke in favor of the saloon men and told of one local option town of 6,000 inhabitants where last Friday evening on the call of the climax, the Courier goes on: Of the had seen more drunks than he had drug stores in that town. He claimed proposed changes. It was attended by that if the saloons were closed at 7 p. m. there would be just as many drunken men; they would only start at it

Ald. Brown again spoke in favor of he opposed it because it would burden the city with expenses. Now the county bore part of them. When he was county clerk he learned that in eight years the expense of prosecution was twice as much as the fines amounted to, and it would be likewise in this city under the ordinance.

The vote being taken on the amendment it stood as follows:

Yeas-Ald. Maynard, Moore, Dell, Shadford, Rhodes, Soule, Cady, Danforth-8. Nays-Ald. Koch, Grossman, Laubengayer, Burke, Brown, and President Hiscock-6.

On the final vote to pass the ordinance as amended, Ald. Rhodes changed his vote to "nay" and the council stood a tie. The ordinance did not pass and the state law is thus operative in the

Ald. Maynard offered a resolution to have the city clerk notify the mayor of the action of the council before 9 a. m. the next day. Ald. Brown thought such an action would be insulting and moved to lay the question on the table which was carried.

The mayor's veto of the council's action in the fourth ward lateral sewer matter then came up in which he gave as the reason for his veto that a majority of the property owners were against sewerage, but he recommended that a different plan be followed so that certain portions could be sewered. The mayor's veto was sustained by the fol-lowing vote: For the veto—Ald. Maynard, Moore, Laubengayer, Shafford, Soule, Rhodes, Cady, Danforth, Presdent Hiscock; against it—Ald. Koch, Brossman, Dell, Burke, Brown-5.

City Clerk Mills read a petition in which 213 residents were against sewerage to 35 for it. Ald. Burke said the petition was not a fair one, the man who took it around was prejudiced names for the sewer on one he had. A lic works also recommended that the ewer be built.

This was opposed on the ground that such a vote could not legally be taken without special authorization by the legislature. Pending this motion, the meeting adjourned.

The decision of the various committees appointed to consider these changes was adverse to them and the council unanimously adopted the report of its committee. Rep. Sawyer Denies the Authorship of the Amendment.—E. F. Johncon Defends It.-But 1.500 Voters Would Be Added.

Never has there been a greater unanimity of public opinion in Ann Arbor than exists against the proposed constitutional amendment introduced y Representative Sawyer, permitting tudents to vote in Ann Arbor. Mr Sawyer when at home Saturday, saw this and came out in a column and a deny the authorship of the amendment which he introduced and to deprecate any fault finding with him as to the introduction of the amendment, as he sire to father. Having done penance for the offense, the Argus is inclined to believe that his constituents will forgive him, if he does not further offend them by pressing the proposed amendment. The only defender of the proposition so far is the Courier, makes of it, claiming that it will add but 200 new voters to the city. The Argus simply desires to call attention to the Courier's ridiculous mathematics by which it arrives at this result. The Courier says.

"The Argus gets up a great scare Second, Of the remaining 1,000, over three-quarters are under 21, the usual time of entrance being 17 or 18 years of age. This leaves practically only a part of the seniors, the smallest class in college. Third, Of this remaining 500 over one-half live in Michigan, supported by parents, living outside of Ann Arbor, while most of the remain der are similarly situated at homes in Ohio, Indiana or Illinois. Summing this up it looks as though there would not be 200 students who could avail themselves of this, but they should be llowed to vote somewhere."

Marshal Peterson's Charges and Affidavits Against Sheriff Judson.

A matter that has occupied the at-A matter that has occupied the attention of a great many people this past week, has been the charges and affidavits made by Marshal Peterson against Sheriff Judson, as to the amount of lilerty allowed the three prisoners who are confined in the jail in connection with the Richards mur-

The first intimation was given Saturday morning, when three young men stated that they had seen Rupert Jones in Fred Brown's saloon, asking for some bottled beer. The back door of Brown's saloon opens onto the alley which runs alongside the jail: Sheriff Judson was greatly put out at the statements, which soon became noised abroad and reached his ears. He denied the charges and said that he could produce affidavits to prove that the statements were false.

Marshal Peterson then introduced the affidavits of two young men who claimed that they had seen Jones. Don Stark swore that he saw Rupert Jones going into Brown's saloon Saturday morning unattended. He further deposed that when Sheriff Judson took him to the jail to identify Jones, he said it was the same man he saw in the alley unattended by an officer. J. Stewart Cole also swore that he saw Jones in Brown's saloon on Saturday morning about 9 o'clock unattended

by any officer.

Marshal M. C. Peterson swore to an affidavit in which he stated that on Wednesday or Thursday of last week he saw Larkins in the jail yard in the custody of no officer; also that on March 15, in the morning, he saw Rupert Jones in the hall of the jail alone when the door was unlocked, thus enabling the prisoner to go at large if he

On Saturday, Mr. Peterson had a statement in the Washtenaw Evening Times, in which in addition to giving the facts as above sworn to, he stated that, in spite of Mr. Judson's belief in the innocence of the prisoners, he is making no effort at finding the guilty

In rebuttal of these charges Sheriff Judson secured a statement from the bartender of a saloon in which it was said Jones had been seen, who said that Jones did not enter there at any time Saturday, accompanied or unac-companied; also from his deputy sher-iffs that not one of the three men had been away from the personal supervision of officers since being confided to the sheriff's care, and further stated that his deputies are still quietly at work on the case.

While scoffing at the story and affi-davits of Marshal Peterson, the sheriff says that Jones has been out of his cell several times, but always in the com-pany of a deputy or himself. A few days ago he was taken to a Huron st. barber shop to have his hair cut, and was taken for a little walk on another occasion, but the story of his hanging around saloons unaccompanied is emphatically denied.

Nansen's Fram.

Nansen invented the model of the Fram, making her hull round and slippery, like an eel, with no corners or sharp edges for the ice to seize upon. She is the strongest vessel ever used in arctic exploration. He said that pressure would simply lift her on the ice, and so her bottom, near the keel, was made alprotected. The many experts who said her design would not save the Fram

Rossini's Laziness.

Rossini was one of the most indolent of men, and in his younger days used to do most of his composing in bed. Once he had almost completed a trio, when the sheet fell out of his hand and went under the bed. He could not reach it, and, rather than get up, he wrote another. The lazy man, if he works at all, does so by spurts, and Rossini, working against time, wrote "The Barber of Seville" in 13 days. When Donizetti was told of this, he remarked, "It is very possible—he is so lazy!" The overture to the "Gazza Ladra" was written under curious circumstances. On the very day of the first performance of the opera not a note of the overture was written, and the manager, getting hold of Rossini, confined him in the upper loft of La Scala, setting four scene shifters on guard over him. These took the sheets as they were filled and threw them out of the windows to copyists be-

Took Her Advice

A clergyman in a southern state was called to perform a marriage ceremony in a poor white settlement. After the knot was tied the mother of the bride placed before the guests refreshments in the form of rye whisky. The pastor, by virtue of his office as a Christian min ister, remonstrated with her for thus starting in life the new couple. The mother, a large woman, about a foot arms akimbo and looking him straight in the eye, said, "Look a yere, mister preacher, yer kim yere to marry this yere couple. Yo've married this yere couple. Now git. "-New York Tribune.

Fitzsimmons is Now Champion.

Robert Fitzsimmons defeated James J. Corbett at Carson City, Nev., Wednesday, in the fight for the heavy weight ougilistic championship of the world, and having done so says he will retire from the ring. The battle was the fastest and one of the biggest that was ever fought in a prize ring. For five rounds Corbett punished his opponent terribly and then he began to weaken, whilst Fitzsimmons, on the contrary, seemed to be growing stronger. In the fourteenth round Corbett tried to get in a left handed blow on Fitzsimmons' head. The latter did not attempt to defend nimself from it and swung around with his right hand on Corbett's head staggering him. He followed it up with a wicked blow with his left under the heart and Corbett was licked.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand for twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order. WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remedy Robert Brokaw was given a surscalding pain in passing it, or bad effect following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up Dixboro Monday.

MILES' RESTORATIVE NERVINE cures nervous prostration. Not miraculously, but scientifically, by first removing the germs of disease, and then supplying healthy nerve food, increasing the appetite, helping digestion and strengthening the entire system. Desperate cases require prolonged treatment as shown by that of Mrs. M. B. Reed, of Delta, Iowa, who writes: "As the result of a lightning stroke, the physicians said I had a light stroke of paralysis, my limbs would all draw up. I would have throbbings

in my chest that seemed unendurable. For three months I could not sleep and for three weeks did not close my eyes. I prayed for sleep, and

felt that if relief did not come I would be dead or insane. I took Dr. Miles' Restorative Nervine and the second night slept two hours and from that time on my health improved; slowly at first, but steadily and surely. I took in all 40 bottles, and I cannot expects how grateful I am, for I am now perfectly well, and have taken no medicine for over four months." Dr. Miles' Nervine is sold by druggists on guarantee that first bottle benefits or money refunded. Book on heart and nerves free. Dr. Miles Medical Co., Elkhart, Ind.

MISSISSIPPI IS RAGING.

The Town of Birds' Point Almost Entirely Inundated.

WATER OVER COTTON BELT TRACK.

Many Farmers Had Planted Wheat for the First Time This Year and Now Their Crops Are Ruined-Ten Families Taken Off a Sawdust Pile-Thousands of Homeless People Taken to Memphis, Where Relief Is Extended to Them.

St. Louis, March 16.-In southeastern Missouri on the Mississippi river Birds' Point is almost entirely inundated, and the Cotton Belt and Iron Mountain railways will probably have to abandon their trains into that place. The water is over the Cotton Belt track nearly one foot at several points between Birds' Point and Smithton, the first station

Forty thousand acres of land in Mississippi county, Mo., are protected by levees which were built since the last flood. They are holding against the water, but the Iron Mountain railway embankment, which forms the southern boundary of this drainage district, is not raised to the grade of the levees Water has commenced pouring over the railway and will flood all this territory Many farmers in this district planted wheat for the first time this year feeling safe from floods, and the growing crop, which was half a foot high, will be entirely destroyed.

Work Night and Day,

At Caruthersville, Mo., work on the levee is being kept up night and day, and in Pemiscot county the levee is in good condition. Twelve miles below Osceola, Ark., the levee broke and the flood is doing great damage in that section. At Tyler, thirteen miles below Caruthersville, there were ten families on a sawdust pile for protection, having been driven from their homes.

At Cottonwood, nine miles below Caruthersville, the water is in nearly all houses, both business and dwellings. At Gayoso, six miles above Caruthers ille, the water is all over the town and from three inches to two feet deep in the houses. Prisoners had to be moved from the jail to the court house to escape the water. Gayoso is the county seat of Pemiscot county.

MADE HOMELESS BY FLOODS.

Large Number of People Rescued from the Overflowed Districts.

Memphis, Tenn., March 16.-Nearly 2,000 homeless and half-starved persons rescued from the overflowed districts for in this city Tuesday. The refugees are mostly negroes of the lower classes who show scant appreciation of the charity extended. The citizens' relief commission, practically backed by unlimited capital, merchants, bankers and corporations having subscribed great of rescuing the inhabitants of the territory, forty miles north and an equal distance south of Memphis. The entire government fleet stationed here, through Captain Fitch, engineer in charge, has been pressed into service. Manned by crews familiar with the father of waters, the fleet gives great assistance to other rescue steamers. The situation is critical. News is expected hourly of breaks in the levees in either direction, and when this happens, as it surely will the loss to property and stock will reach into the thousands. The first loss of life has been reported, a whole family of five negroes having been drowned at Marion. Sensational stories of wholesale drowning at Nodena, Ark. are denied by steamer hands fresh

Will Profit by Floods.

Perry, O. T., March 16.—Business men of Blackburn and Osage City, towns on the Arkansas river, are building half a dozen barges or boats, and during the rise of the river will ship corn to New Orleans on the Arkansas river. They buy corn at from 6 to 12 cents per bushel and get good prices in New Orleans.

Of this amount \$60,000 will be charged to the city of Ashland.

Fatal Fire at Chicago.

Chicago, March 16.—Barbara Newman was burned to death in the home of her uncle, William Spier, 3643 Vernon avenue, Monday night. Her cousin, Rose Mayfield, jumped from a second-story window, after being badly burned, and was seriously injured in the fall. Mr. Spier, an invalid, was rescued with difficulty, while his wife and sister were slightly burned in saving the four children of the family.

March, April, May.

Almost every one has come to believe that March, April and May is a season that brings derangements of the body dependent on blood impurities. This belief is an old one, is nearly universal, and has arisen, not as the result of the teachings of the medical fraternity, but has been learned in the bitter school of experience. Depression of the nervous system at the approach of spring is a fertile source of blood impurities-general lassitude, dull, heavy sensations, continual tired feelings, with irregular appetite, and sometimes loss of sleep.

Pe-ru-na meets every indication and proves itself to be perfectly adapted to all their varied peculiarities. Pe-ru-na invigorates the system, rejuvenates the feelings, restores the normal appetite and procures regular sleep. That tired feeling which is the natural result of the depressing effect of warm weather immediately after the invigorating cold of winter, quickly disappears when Peru-na is taken. Thousands are daily testifying to its priceless benefit.

All who desire Dr. Hartman's latest book on this interesting subject can obtain one for a short time free by addressing The Pe-ru-na Drug Manufacturing Company, Columbus, O.

(From the Kalamazoo Telegraph.) The following statement is one of great interest to many a citizen of Kalamazoo, and a man as well known as Mr. Wallace should carry more than ordinary weight with our readers. Here it is as taken

"My name is John A. Wallace. I am
a member of the firm of J. A. Wallace & Co., doing business as tinners, etc., at 106 Eleanor Street, Kalamazoo, in which city I also reside. For the past nine or ten months I have been having attacks of kidney complaint, the pain in my back over my hips was very severe at times; my urinary system was also in a bad state of derangement, sometimes the urine was scanty and then again the amount would be excessive, and a difficulty of passage always existed. I heard of Doan's Kidney Pills at a time when I felt that I was going to be sick, but their use warded off an attack, and I am now feeling very much better; the urinary organism has regained a normal condition, and the terrific pain in my back is much reduced in severity, while it is now fast going away altogether. I am continuing the use of Doan's Kidney Pills, with positive feeling that they will effect on me a permanent and speedy cure. I have unbounded confidence in Doan's Kidney Pills as a remedy for all kidney ailments; have good reason to be, as they have done so much for me.

Can you ask any more than this? Doan's Kidney Pills are relieving more backs of the burdens they have been forced to bear through the kidneys than all other means devised, and, better still, they are doing this right here in Michigan. Ask any one who has ever taken them and see what they

dor extraordinary and plenipotentiary of the United States to France: Henry White of Rhode Island, to be secretary of the embassy of the United States to Great Britain.

Hay Was Born in Indiana

John Hay was born in Indiana 50 years ago. He graduated at Brown university in 1858, and began the practice of law in Illinois in 1861. President Lincoln appointed him assistant secretary and kept him in that capacity through-out his administration. He also acted as Lincoln's adjutant and aide-de-camp and he was brevetted lieutenant colonel and colonel. Entering the diplomatic service in the sixties, he was at various times charge at Vienna, first secretary at Paris, and secretary of legation at Madrid. In 1876 Mr. Hay connected himself with the press and for nearly six years devoted himself to editorial work on a leading New York newspaper. In 1875 he entered politics, taking an active part in the presidential campaign of 1876, 1880, and 1884, being then a resident of Cleveland, O. President Hayes appointed him first assistant sec retary of state, which post he filled for nearly three years. Since his retirement from office Colonel Hay has resided chiefly in this city.

Porter of Revolutionary Stock. General Horace Porter came of revolutionary stock. He was born just 60 years ago in Huntington, Penn. Soon after his graduation from the military academy at West Point he was assigned to duty in the south, then in secession. He was an ordnance expert, so most of his service was in the artillery branch on the staffs of McClellan, Rosecrans and Grant, where he earned a reputation as a gallant and fearless fighter as shown by his brevets. He served in the Chickamauga and Wilderness campaigns and the first assault on Charleston, where he was wounded. General STATE OF MICHIGAN, COUNTY of Washtenaw, ss. Has Held the Office Before.

The appointment of Mr. Henry Wnite to be secretary of the American embassy in Great Britain is practically a reappointment, as Mr. White had held this office for eight years previous to the beginning of Mr. Cleveland's last administration. He has been in London most of the time since his displacement and the fact was brought out after his nomination was sent to the senate that he had rendered Mr. Olney imelan negotiations. The present socretary, Mr. Roosevelt, resigned some time ago.

GETTING AFFAIRS INTO SHAPE.

Public Business Running More Smoothly at the White House

Washington, March 16.—Business begins to run more smoothly at the White House. The mails are enormous and the clerical force is heavily taxed to keep up with the rush, yet there is a ed never a word. Nothing daunted, he system about the proceedings that facilitates the transaction of a great deal till at last she slowly turned her head of business in a short time. The president himself is to be credited with this for his wide experience in departmental methods has enabled him to direct the course of papers with accuracy and speed to their proper places and to re-

> Facilities for the press, heretofore unknown at the White House, have been provided by Secretary Porter. A commodious table and comfortable seats have been placed in the lobby of the secretary's office in such a favorable position that the reporters for whom the place is reserved are enabled to see for themselves all the president's visiters, and to talk with them if they desire, and there is a general air of welcome in the place

ner to the proper official.

The president also is setting down to a prudent set of rules for his own health and comfort. In office hours he is a hard worker, but hereafter the White House is to be closed to official callers at 4 o'clock, and at that hour the president will retire from his office and after a brief rest in the private portion of the White House, in company with Mrs. McKinley, he will go out of doors and take some exercise, walking or riding, according to the

Henderson's Right to a Seat.

Washington, March 16.-The senate Tuesday discussed at some length the right of John A. Henderson to a seat in the senate from Florida on the appointment of Governor Bloxham. Pasco asked that Henderson be sworn in as Call's successor, but Chandler, Lodge, and Allen all protested at once that the case should go to the committee on elections for investigation. Hoar, Pasco and Vest joined in the discussion and debated the rights of governors to fill senatorial vacancies. After a prolonged debate the credentials of Henderson were referred by the senate to the committee on privileges and elections without division.

The New Tariff Bill.

Washington, March 16.—The Demo-cratic members of the ways and means committee received their first official information on the new tariff bill Tuesday when the bill was considered at a secret session of the full committee. Chairman Dingley announced that he desired to report the bill to the house when it meets at noon Thursday. Mr. McMillin, Democrat of Tennessee, complained that this plan would not give the Democrats sufficient time to analze the measure and prepare a report. Half an hour was consumed in sparring over this point, and no definite conclusion was reached.

Fort for Solicitor General.

Washington, March 16.-It is said to be definitely settled that J. Frank Fort of Newark, N. J., will be appointed solicitor general. Mr. Fort nominated Garrett A. Hobart for vice president at the St. Louis convention.

STAMPEDE TO SAVE DUTIES.

Withdrawals from Bond at New York Surpass All Records.

New York, March 16.-When, on Saturday last, the duties on withdrawals reached the remarkable total of \$1,488, 000 it was believed that the panic begun on last Wednesday had reached its culmination. Monday's aggregate showed, however, that the panic had really only begun on Saturday. When the doors of the custom house closed at 5 p. m. Cashier Northup had collected exactly \$2,667,979.51. The aggregate is the largest in the history of the New York custom house for one day, previous record being \$2,308,000, made Aug. 1, 1872, when the late A. T. Stewart made his famous payment of \$1,000,000 on goods with-

Monday's record breaking total was made up of \$2,178,515.36 on withdrawals from bonded warehouses, and \$489,464.15 paid in direct duties upon Monday's port arrivals. The largest sum received from one firm was \$190,000. Most of the goods involved in the panic are raw sugar, woolens, dress goods and tobacco. The custom receipts since last Wednesday have been \$6,089,642.

GOT HIS PENSION BY FRAUD.

Government Gets a Judgment for \$9,874 Against Francis M. Rhodes.

St. Louis, March 16.-The judgment of the United States circuit court in awarding a verdict allowing the government to recover \$9,847 from Francis M. Rhodes of Hannibal, Mo., which it is claimed he received by fraudulent representation, was affirmed by the United States circuit court of appeals.

The government alleged that it had been induced to pay this sum as a pension, upon his representation that he contracted catarrhal ophthalmia, a disease of the eyes, while engaged as a soldier, while in fact he was so afflicted before he entered the service. Rhodes was a private in Company K, Fortysecond regiment, Missouri volunteer in-

Three Negroes Lynched.

Tallahassee, Fla., March 16.-Three negroes, Jim Gilmore, Jim Miley and Otis Miller, were taken from the sheriff Tuesday by fifty armed men, strung up to trees and their bodies riddled with bullets. The crime for which they were lynched was the murder of John Barefield, postmaster at Blue Springs, and his assistant, John R. Turner, on March The murder was committed for the purpose of robbery.

All Nations To Be Invited.

New York, March 16.-Mayor Strong, as chairman of the Grant Monument association committee, has sent a letter to President McKinley asking that representatives of all foreign governments be invited to take part in the naval ceremonies on the occasion of the placing of the sarcophagus containing the body of General Grant in the tomb at Riverside park on April 27.

Dog Bite Causes Two Deaths.

Wilkesbarre, Pa., March 16.-John Cramer, a 16-year-old boy, living at Duryea, died Monday night from hydrophobia, as the result of being bitten by a rabid dog. The boy' sufferings were so terrible to witness before death that his father, Jacob Cramer, was overcome by the horror of the scene and dropped dead at his son's bedside.

Will Resume Operations.

New York, March 16.-Operations are to be resumed in the American Sugar refinery, Brooklyn, which has been shut down about one year. Over 200 men have been put on the night shift and 300 on the day shift. The Havemeyer refineries increased their force of workmen by employing 200 men.

Smallpox Victim at Chicago.

FRANCE IN FAVOR OF COERCION.

All Europe Alarmed Over Emperor William, Whose Vagaries Cause the Utmost Concern to His Family and to Diplomats Who Wish for the Peace of Europe-Alleged Secret Alliance Between Russia and Greece.

London, March 16.-The decision of the French chamber of deputies approving the policy of France in adhering to the concert of the powers has had a good effect upon the stock exchange here. Consols went up 5-16. Foreign securities were firm. According to The Times' dispatch from Athens a tendency toward despondency is beginning to show itself at the Greek capital, the "last hope of a rupture of the concert of Europe having been shattered by the decision of France to join in the coercion.'

The dispatch adds: "There is much speculation as to whether the forces of the powers will proceed to active measures against Colonel Vassos' troops. While it is formally announced that orders have been given to both the Greek troops and ships in Crete to opose force by force, it may be doubted whether orders have really been given.

Brave Words Indispensable. "Brave words, however, are indispensable in the prevailing popular mood. The king and the government have no choice but to swim with the tide.

The Daily Mail says: "The vagaries of a certain continental sovereign are causing profound anxiety to his family and especially to the diplomats who recognize that the concert of Europe may at any moment be disturbed. Pinching guests and trying to trip them with his sword are among the antics attributed to the insane sovereign."

The paragraph unmistakably hints at

Emperor William of Germany. Later in the day prices on the stock exchange relapsed somewhat on the weakness of the Paris and Vienna markets, where is was rumored that the crown prince of Greece had started for Thessaly.

CONSTANTINOPLE IN DANGER.

Secret Agreement Between Greece and Russia

Constantinople, March 16.-Frederick Palmer cables The Press from Athens

"I learn that secret negotiations are proceeding between King George and the Russian government. This information comes from a high and absolutely trustworthy authority. Russia, undoubtedly, is playing a two-faced game with the Turkish government, and with the powers as well. There is an explicit understanding that, when the Greek army crosses the frontier, Russia shall find a pretext to seize Constanti-

nople

"The understanding, so far as King George is concerned, is that in the general conflict in the Balkans, which is sure to follow fighting on the frontier and the disruption of the Turkish empire, which would follow a seizure of Constantinople by the Russians, Greece is to be encouraged to seize Macedonia with the czar's promise in advance that she shall be permitted to retain that province. The action of France in deciding to stand by Russia and to send troops to Crete means that action in Europe is expected and determined upon, and France does not intend to be on the outside when the final settlement comes. The situation seems today more serious than it has appeared since the first expedition from Greece landed

Instructed to Blockade.

London, March 16.-In the house of lords Tuesday the Marquis of Salisbury, replying to the Earl of Kimberly, the Liberal leader, said that instructions had been given to the admirals in command of the foreign fleets in Cretan waters to commence the blockade of the Island of Crete without any further delay. The premier added that an admirable statement of policy of the powers had been made in the French chamber of deputies by M. Hanotaux and M. Meline (the minister for foreign affairs and premier respectively), in which he

heartily concurred. IGNOBLE END OF TIP.

The Famous Elephant Put to Death by

Strangulation. Bridgeport, Conn., March 16.-Tip, a monster elephant which has been shown throughout the country for many years past, was put to death by strangulation Tuesday. While the brute's feet were chained to stakes, firmly driven into the ground, men with block and tackle drew a rope taut about his neck until he was dead. The operation was completed in fifteen minutes. Tip had developed vicious tendencies, and his death was determined upon in order that he might have no opportunity to kill his keepers or people visiting the show. Monday he was given poison, but without marked effect.

Last Saturday evening those university students who are graduates of the State Normal, had a very delightful time. His fellow debaters are both every-day life. Mr. Moss enters fully into the spirit of each author and his interpretations are most excellent. During the rendition of the pathetic selections almost breathless silence reigned and while he was giving the humorous sketches, subdued laughter was audible, which burst into applause at the finish of each selection. The association and visiting friends were delighted with the entertainment.

To the efforts of H. O. Severance, president of the association, is largely due not only this pleasant reunion of last Saturday evening, but also the formation of this organization of the Normal graduates—an association which will do much to bring our two great sympathetic relations.

Although there have been several animated picture machines here this season, the one now exhibiting here is undoubtedly the best of the lot. This wonderful machine is the marvel of the age, and the one used here is the To the Electors of the Fourth Ward best of its kind. The realism of all of the views is almost increditble. One never becomes tired of watching the poetry of motion," in men and animals, shown in such infinite variety by this matchless machine. There is en tertainment in it for all classes of people-for the grave and the gay, for youth and for old age—for people of all sorts and of all conditions. The facility with which this intricate mechanical wonder is managed is not the least interesting thing about it. But the Amet Magniscope furnished

only part of the entertainment. A no inconsiderable part of the amusement is furnished by a phonograph of wonderful power, and last but not least, that part of the show furnished by the dexterity and skill of Carl DeVaro, is worth more than the price of admission charged for the whole show. Mr. De Varo's slack wire performances are the equal of those of any performer in the country. His performances with the rifle seem impossible of achievement.
