\$9.00 In the Several Courses and Will Receive Diplomas.

> Professor Perry's Reception and Other Sociable Festivities Occupy Some Time.

The past week has been one of considerable flutter, flurry and excitement for the 81 young ladies and gentlemen who are this morning receiving their ing as follows: who are this morning receiving their diplomas and graduating from the Ann Arbor High School, thus taking their initiative step in life's rough' journey. Of these 81 people it is said that fully 60 will go in for a higher education and enter the different departments of the University in the fall. In the early part of the week the questions that most occupied the attention of at least a portion of the graduates were "Have I tion of the graduates were "Have I passed?" "Shall I receive a con?" What will I get, an A, B or C diploma?" The question set at rest and having received their credits, the jubilant young people turned eagerly to the amusement part of the commencement program and enjoyed themselves to their fullest capacity.

The first event of commencement week was the class day exercises which were held in High School hall Wednesday afternoon. The hall was appropriately decorated for the occasion with the colors of the senior and junior classes. The senior colors, green and white, were arranged in the front of the hall, and those of the junior class, yellow and black, were placed in the rear. The program opened with a selection of music by the High School orchestra. The class orator, Ralph L. Morse, then gave his oration on "Popular Demands." He said that popular demands were the bane of the American people. Women as well as men were affected by these demands. Man must be educated for every exigency. Kings and lords have been rejected, but still worse characters are springing up, such as millionaires and money thieves.

The class poem by Miss Vera Connor, represented the studies of the four years as a series of battles through which the class had come to victory.

The class history by Harry R. Brown, of Chillicothe, O., was particularly good, and the author was interrupted by frequent bursts of applause as he reached each period of his well written Speaking of the class he said. the faculty hailed them with delight. Chute stroked the hair on his bald spot and Wines grew short in comparison with us." He then proceeded to mildly roast the several members of the class, and related the various events which had happened during the four years, interspersing his remarks with numerous jokes. The history was ended in bursts of applause.

The class essay "American Patriot" ism," by Miss Bessie E. Cordley, was well delivered, showed fine thoughts and sentiment and was received accord.

The class prophecy by Miss Laura I. Mills was very fine. She represented the prophecy as given by the Owl in the High School chapel and read the various fortunes from a pack of cards.

The next on the program was the presentation of the class memorial, a striking and lifelike enlarged portrait of Prof. J. G. Pattengill. The presentation address was made by A. Perry

Miss Esther Matchett told what she thought of and knew about "Athletics," and Theo. Zimmerman made an ingenious defense of "The Breeze" and its editors, relating some of the trials

The company then repaired to the dancing hall where they enjoyed themselves until 11:30, when they took the 81 HAVE GRADUATED train for home one and all declaring it the greatest success of any class banquet and party that was ever held.

Last evening the whole senior class was given a reception by Prof. and Mrs. W. S. Perry at their home 61 E. Washington st., and there were few if any, Class Day Exercises, Class Banquet of them who were not present to enjoy the hospitality of the genial superinhendent and his amiable wife. Mr. and Mrs. Perry were assisted in caring for their numerous guests by the members of the High School faculty.

## ASKING QUESTIONS.

It Is a Woman's Prerogative, and She Uses It.

Timely Questions and Prompt Answers Have Resulted in Great Satisfaction

to Many Women.

Sensitive women hate to ask their physicians those delicate questions that only a woman understands, and therefore write to Mrs. Pinkham, at Lynn, Mass., as she has ever proved their most accurate adviser, and knowing that their letters will be read

and answered by one of their own sex. Thousands of such letters have been received within a few months from those afflicted with the various forms of female diseases. and it is needless to say the answers have brought comfort and relief.

That sense of dragging in the groin, suppression of menses, bearing-down pains, headache, nervousness, blues, etc., are symptoms that require prompt measures.

The cure is, in most cases, rapid. Lydia E. Pinkham's Vegetable Compound should be promptly taken, and Mrs. Pinkham will furnish any advice required, free. Following is another letter of thanks:-

"Please accept my thanks for the

little book which you have sent me. It has opened my eyes, and told me that there is a remedy for suffering women. There is no need for women to suffer, if they will only take Lydia Pinkham's Vegetable Compound. I suffered for years with painful menstruation, thinking there was no remedy for

it; but after reading your little pamphlet, I thought I would give your medicine a trial, and it is wonderful how quickly it relieved me. I recommend it for all women who suffer with painful menstruation." -MRS. GEORGE NEHRBOSS, Crittendon, Erie Co., N. Y.

The farmers along the Saline road east of Clinton, are awakening to the importance of bettering the condition of the roads and are becoming interested in the "good roads movement," which has already been commenced with good results by our wheelmen and business men. These farmers recently offered to furnish teams and draw the gravel. providing the Clinton people would furnish the money with which to buy the gravel and pay the shovelers, and said the offer would hold good for all the gravel the wheelmen would be able to furnish. The proposition was accepted and money enough has already been raised to warrant them in commencing the work. It is proposed to raise money enough to buy all the gravel needed to make good the first five miles of the road. Let the good work go on. -Tecumseh News.

Washtenaw is justly celebrated for the number of its divorces. A sensational case is in court over there, wherein, a Ypsilanti husband sues for infidelity, and testifies that his wife fell in love with a doctor, and kissed him more than 100 times in the husband's presence. The remarkable thing in this instance is that a case of love in Ypsilanti should last so long as 100 kisses.

MANY HOLD PLACES ALL NIGHT.

The Day Ushered in at Midnight by the Chiming of Bells in Hundreds of Church Steeples-Ceremony of Presenting the Sword Hilt Performed by the Lord Mayor-After a Visit to St. Paul's the Queen Returns to Buckingham Palace.

London, June 22.-The last stroke of 12 had not died away in the midnight steeples a tumultous peal of bells announced the diamond jubilee day. The vast crowds that filled the miles of streets and squares answered with ringing cheers, and here and there the singing of "God Save the Queen." The

CORONATION OF QUEEN VICTORIA, JUNE 28,

crowds that peopled the streets and squares all night in the hope of a good view of the procession were amazing in their sublime patience. Waiting for twelve, fourteen and sixteen hours, as many of these people did, jammed together, is a feat of endurance that could only be sustained by some overmastering desire. Quite half of these jubilee waiters were women, many of them with the pale, careworn look of the London worker, yet all enduring the backbreaking tediousness with the utmost good nature. Some had campstools, some sat on projections of buildings, on curbstones, or leaned in doorways and the angles made by stands. Refreshments were in order everywhere, and the police had little trouble, cheery good humor being the note of the night. During the long hours snatches of song and occasional bursts of cheering showed that the people were determined to enjoy the festival of patriotism and loy-

A clear sky and a cool air kept the spirits of the crowd at the topmost point throughout the vigil. With dawn the hope of queen's weather merged into certainty, and the world here prepared itself in fullest confidence for a day of pleasure.

## THE PROCESSION MOVES.

Brilliant Escort of Her Majesty Queen Victoria.

The march began at 8:45 and the great cortege proved a welcome relief to the waiting multitude. Booming of cannon ers who came to this country two announced that the queen had actually months ago, were instantly killed at the started and the hearts of thousands of Bops gold mine Monday night by a fall insurance people and members of Lloyds beat more placidly as they remembered the premiums on \$5,000,000 that had been wagered with them whether or not her

The procession was practically in three sections as far as St. Paul's, though the last two en route to the cathedral were consolidated as they moved into Piccadilly. The first to take up position was the colonial procession, which formed on the embankment and moved via the Mall, thence past the palace, where her majesty viewed it from a window over the route to St. Paul's. The second procession passed the palace fifty minutes after the colonials had climbed Constitutional hill. It more than eloquently filled in the picture of Britain's war strength; more than magnificently completed the carnival of gorgeous costume and color.

The Queen at Last. When the first part of the sovereign's

escort rode into view the whisper ran electrically "She's coming." The Second Life guards, who headed the escort, were soon succeeded by the escort of British and foreign princes. But for these the crowd had but few eyes, for the commander-in-chief who followed behind them none. They could see the queen's horses—it was the queen to shake the earth, renewed again and again as her majesty's carriage approached. The famous eight Hanoverian creams, cream in color with long tails, white, cold, almost fish-like eyes and pink noses, their manes richly woven with ribbons of royal blue, were

The carriage in which her majesty rode now came abreast. It proved to be a carriage with a light running body, built about a quarter of a century ago, and of which her majesty is known to be very fond. The body was dark claret, lined with vermillion, the mouldings outlined with beads of brass. Beside her majesty rode the Princess of Wales and opposite her majesty her royal highness Princess Christian. On the left of her majesty rode his royal highness the Duke of Cambridge and on the right his royal highness the Prince of Wales, who was followed by the Duke of Connaught, the general officer commanding.

### AT TEMPLE BAR.

Ancient Ceremony of Dutiful Submission

The lord mayor and the city officials, on horseback, arrived ten minutes before the queen was due, and very striking were their appearance. Sir Faudel-Phillips wore the earl's robe to which lord mayors are entitled when crowned heads visit the city-a cloak of ruby silk, velvet lined, with white silk and edges with ermine. Sheriffs Ritchie and Rogers wore the sheriff's velvet court dress, scarlet gowns and chains. The "Verye Goodbye sword," known as "Queen Elizabeth's pearl sword," presented to the corporation by the maiden queen at the opening of a royal exchange, A. D. 1570, was carried by the lord mayor. The sword is three feet eleven inches long with a fine Damascus mystery the world over.

On the arrival of the queen the lord mayor uncovered. Approaching the carriage of her majesty his lordship, with all due obeisance, presented the hilt of the city's pearl sword, which was undrawn. This was the ancient ceremony of dutiful submission. The queen lightly touched it, thus returning it to the lord mayor in token that his submission was graciously accepted by his sovereign. Her majesty then commanded the lord mayor and sheriffs to proceed and the procession moved towards St. Paul's amid roars of cheers that seemed in the narrow streets to be echoed and re-echoed.

## Arrival at St. Paul's.

The great bells of St. Paul's broke out in happy chorus as the queen's carriage in front of the steps of the city catheapproached standing beside the improvised altar now began the simple service. A Te Deum by Dr. Martin, organist of St. Paul's, composed for the occasion,

As the sonorous "Amen" died away Queen," to which the great choir, in a wondrous volume of harmonious sound, responded "And Mercifully Hear Us When We Call Upon Thee." The bishop of London, in full canonicals, then read a short Collect, after which, as her majesty sat with bowed head, the archof Canterbury announced the benediction. Then, amidst the further ringing of bells, the national anthem was sung and the queen drove on into other scenes, and then to Buckingham palace where she arrived at 1:30 p. m. It was the greatest day London had ever seen.

Ayer Post and Tie company, was attacked by four robbers on the prairie near Leavitt and Twenty-ninth streets late Monday afternoon, terribly beaten with revolvers, robbed of \$458 and left unconscious beside his buggy. His assailants sped north with their booty to the banks of the south branch of the river, sprang into a skiff, and pushed off for the op-posite shore. Their boat capsized in midstream just as the lumber schooner W. L. Filer was passing, and the robbers saved themselves from drowning by clambering into the yawl that the schooner was trailing.

At 10 o'clock Philip Courtney and August Bartkowski were arrested and locked up at the Hinman Street station and about the same time John Bartkowski, brother to August, was captured by Deering street policemen in Fuller street, near the river. Manistique to within six miles of the town of Munising on Lake Superior, a distance of thirty-five miles, extends a railroad which was built by the Chicago Lumber company. This road has been purchased by the Ann Arbor Railroad company, which will put in a car ferry slip at anistique. The same company will complete the line to Munising and also build an air line to Negaunee on the Duluth, South Shore and Atlantic and the Chicago and Northwestern road, from a point ten miles south of Munising, the whole line to be sixty-three miles long. Work on the lines will begin at once.

Boats will be run to Manistique during the winter instead of Gladstone, and a special boat will be built for navigating Green Bay in the winter time, which will be run here continuously. The object of the extension is to secure the flour trade of the west by way of the South Shore and the Northern Pacific, and also to open up a rich timber country, between Manistique and the Marquette iron range. The new road may also touch the city of Marquette. is the most important railroad deal consummated in many years and means much for the advancement of the upper peninsula's industrial interests.

FRIDAY, JUNE 25, 1897.

Prof. Wenley made a great hit by his commencement address in Ypsianti this week, which proved one of the most notable addresses of the kind ever delivered there.

Detroit is about to pass a bicycle ordinance. Let Ann Arbor not follow, but lead. The bicycle is here to stay and a bicycle ordinance is just as necessary as any other.

The first mayor of Greater New York should be a democrat. It has been proven over and over again that a democratic administration is less apt to be an extravagant one than a republican.

Let every reader of the Argus show his or her patriotism by joining in the celebration of the 121st anniversary of American Independence in Ann Arbor this year. All will have a good time and all should rally round the old flag

Mark Hanna controlled the Ohio state convention and the Foraker faction was downed. The men, who have the loaves and fishes to distribute, win out, but when those loaves and fishes are given out, then the men who did not get or distribute loaves and fishes jump into control.

The mayor's veto of the new tele phone company's bond approved by the council Monday night has considerable merit back of it. The bond was absolutely worthless, being simply the promise of a company without a cent's worth of property in the city, to ensure certain things being done. In fact it was a bond with no sureties. This is one of the cases which clearly illustrates the value of the veto power.

H. L. CONE IN TROUBLE AGAIN.

This Time It Was for Assault and Battery, not Abduction.

Henry Lee Cone, the medical student who created a sensation some weeks ago by stealing his baby from his wife in this city and taking it to Cincinnati, where he stopped under an assumed name, claiming to be a widower, is again in trouble. After the abduction of the baby Mrs. Cone went to Battle Creek to live with her father, Mr. Gros. Recently Cone put in an appearance where his wife and baby were stopping, and demanded admittance to the house. The doors were locked and an officer was sent for to protect them. Cone left and has since been living in another section of the city. Recently he has been picking berries for a living. Thursday morning of last week he started out to the berry farm and on the way met his wife's brother, Ed. P. Gros. He is alleged to have made an assault upon Gros, pushed him off his against a tree and cut the tire. Gros got out a warrant for the arrest of Cone on a charge of malicious destruction of property. He was arraigned before and was held for trial at the next term of court, the bail being fixed at \$500. The officer took him to the city hall. and as the city jail was being fumigated and no prisoners could be admitted, he was locked up in the police room. Cone opened a window adjoining another block, reached across and climbed into the window of a physician's office and made his escape, and has not been captured.

Mrs. Cone has commenced proceedings in the Calhoun county court for States would not be all. For this comdivorce.

## EXPORT BOUNTIES.

SENATOR CANNON INTRODUCES LU-BIN'S SCHEME TO HELP FARMERS.

He Makes a Hot Speech and Floors All Opponents-Present Protection Is One Sided and Robs the Farmer-He Now Sells In a Cheap and Buys In a Dear Market-Can Be Protected Only by Export Bounties on Farm Products-If He Free Trade.

bill which is likely to make trouble for to Chelsea. the Republican leaders and which may break down the whole protective system. The amendment favors the Lubin farm products. This scheme is now beauthor, David Lubin, but also by the granges of many states and by trades graphed the Dexter officers." unions and ministers. It makes its fight tariff reform work that has been done. when introducing this amendment. He

spoke in part as follows: It was with great surprise, upon an examination of the measure, that I found that the great class of our population who have from the beginning not only supported the protective tariff party by their votes, but have supported the protective tariff principle by their industry from the beginning of its operation, were in a large degree excluded from any of its benefits. It is, I say, to supply a very patent omission from the measure as it now stands that the amendment is proposed and will be advocated here until a vote shall be had thereon.

The bill as it is offered today affords no protection to agricultural staples. There is remaining, I presume, no advocate of the protective tariff system who will contend that in this bill, with these import duties, there is afforded export our surplus, nor are there remaining at the present time in the school of protection very many men harness horse which will be unsurwho will contend and none who will prove that the indirect protection afforded to the farmer by the tariff on manufactured goods is sufficient compensation to him for the vast cost entailed upon him in carrying the protective tariff system upon manufactured goods.

It has become apparent to all thoughtful observers, and certainly it is known to all who have any direct connection with the agricultural industry of the various centers where trotting has com-United States, that the farmer cannot, and the man who reads him well knows ported as winning races in fast time, that the farmer will not, much longer bear this burden.

There are three remedies possible. The second remedy, and one which I, as a believer in protection, would be ready to accept rather than to hold to ready to accept rather than to hold to advantages, is becoming a sort of an anand vote for an inequitable bill, would be absolute free trade, by which the turf. After a busy day at the farmer might buy as cheaply as he is track, owners and drivers congregate compelled to sell, and that remedy this upon the numerous boats plying the beautiful river, make new acquaincongress will not seek to enforce. There remains, then, but the third—the application of an export bounty which shall in a measure give restitution to the in a measure give restitution to the farmer for the higher prices which he is meeting bids fair to surpass all previcompelled to pay in protected markets. ous ones in all respects.

No proposition based upon the declaration of equal protection to all the industries of the United States is complete, nor can there be successfully made a contention that it is just, unless it gives to the exporter of agricultural staples from the United States an equivalent benefit to that given to the mann. facturer by the imposition of an import

A duty of 25 cents a bushel upon wheel, took the wheel and smashed it wheat is a delusion and a snare. The farmer of the United States gets no benefit from it. The imposition of duty upon cotton, if that were attempted, would be of no value to the cotton producer. Justice Lewis and waived examination, The imposition of a duty on rye is of no value to the farmer of the United States. Every other protected industry has a direct benefit from this tariff, because where we do not produce in the United States sufficient for our own consumption and a quantity considerable in extent for export the import duty serves hart's this afternoon. as a means whereby the local producer can enhance the price to the local consumer.

The immediate benefit to the farmer derived from the treasury of the United paratively small expenditure to him he would receive for these staples more than \$225,000,000 in higher prices than he now receives. It is true that this would increase the price of breadstuffs to the consumers in the cities, but under the declaration made here today that with higher prices the people will be more able to buy we will have a larger consumption of wheat and wheat flour and other agricultural staples in the cities of the country than we have

Mr. Butler-Mr. President, the senator from Utah said he was in favor of about \$13,000,000 export duty on wheat at 10 cents a bushel. If we pay an export bounty of 10 cents a bushel, that will raise the price of every bushel of wheat, whether exported or consumed at home, that much, will it not?

Mr. Cannon-Certainly it will. Mr. Butler-Then, for an investment of \$13,000,000, which the government would pay out in the shape of an export bounty, the wheat farmers of the coun-000,000 or \$70,000,000, would they

Mr. Cannon-They would, if there be any truth in the protective principle. Mr. Butler-That would be a very good investment.

"A License to Steal." That must have been embarrassing

information to the United States senate which Statistician Carroll D. Wright furnished that body last week concerning the labor cost of lumber in this country and in Canada. His figures showed that, while the average wages in Canadian sawmills is \$1.41 and \$1.71 per day here, the average labor cost of 1,000 feet of lumber is \$1.28 in Canada and only 91 cents here. The decreased cost of production in this country is attributed to the superior machinery used. Of course the figures prove the free trade contention that the rate of wages paid does not indicate the cost of production—that low wages are very often more expensive to employers, and vice versa. But these hard facts furnished by an officer of the government will not dissuade the lumber barons from their purpose to get a tariff on Canadian lumber so that they can the more effectually rob American consumers. Protectionists care nothing for facts. What they want is a license to steal.—National Single

Could Not Weaken Such Testimony As This.

(From the Kalamazoo Telegraph.) The following statement is one of great interest to many a citizen of Kalamazoo, and a man as well known as Mr. Wallace should carry more than ordinary weight with our readers. Here it is as taken

down by our representative:
"My name is John A. Wallace. I am
a member of the firm of J. A. Wallace & Co., doing business as tinners, etc., at 106 Eleanor Street, Kalamazoo, in which city I also reside. For the past nine or ten months
I have been having attacks of kidney complaint, the pain in my back over my hips was very severe at times; my urinary system was also in a bad state of derangement, sometimes the urine was scanty and then again the amount would be excessive and a difficulty of passage always existed. I heard of Doan's Kidney Pills at a time when I felt that I was going to be sick, but their use warded off an attack, and I am now feeling very much better; the urinary organism has regained a normal condition, and the terrific pain in my back | Pres. I am continuing the use of Doan's Kidney Pills, with positive feeling that they will effect on me a permanent and speedy cure. ### High Duties On Buttons.

The button manufacturers, present in their demands for tariff duties. Mc-Kinley duties are entirely too slow for for \$575.00 and respectfully request the button infants. The following is porters:

The proposed duties on buttons, as per schedule of the finance committee and would prove a severe hardship on goods used by the poorer and middle classes, and also to manufacturers of various garments used by the mass of Dell, Sweet. Brown, Vandawarker, goods used by the poorer and middle ing data will give some idea of the inequalities of the proposed duties:

Agate Buttons-Present duty, also McKinley bill, 25 per cent; proposed duty of one-twelfth of 1 cent per line per gross, plus 15 per cent ad valorem, would average from 67 to 161 per cent, bearing heaviest on the class of goods that make up the great bulk of the importations. The following schedule, taking the styles that sell, shows the range proposed:

"Resolved, by the board of directors of the New State Telephone Company that said company accept the provisions of an ordinance adopted by the corner of Washtenaw and S. Unirange proposed:

this country would not warrant the 189' investment of the necessary capital in a plant needed to make the various styles wanted. It is evident that the intention is to exclude these goods in the interest of some higher cost goods. The proposed duty would be a real hardship and bear heavily on the class of people who buy "china buttons," as well as on the manufacturers of cheap shirts, underwear, etc.

Bone Buttons (to sew on)-Present duty, 35 per cent; McKinley bill, 50 per cent; proposed duty, from 106 to 194 per cent. These goods are mostly sold to manufacturers of cheap underwear, children's waists, clothing, etc.

## Republican Criticism of Taxed Hides.

According to the protective theory the imposition of a tax on noncompeting articles adds to their cost to the consumer. This theory would be aptly exemplified in the proposed duties on hides, as the people would be compelled to pay more for their footwear. It is estimated that the increased cost of boots plan. and shoes for one year under the proposed duty would amount to \$20,000,-000. With free hides our manufacturers of leather goods have been able to build up a great export trade in footwear. As Mr. Blaine said when it was proposed to put a duty on hides in the law of 1890, "It will yield a profit to the butcher only—the last man that needs it." The interests of the tanners and shoe manufacturers are vastly more important than the interests of butchers and western ranchmen. - Chicago Times-Herald, Republican.

The Shakers have made a great hit. Their Digestive Cordial is said to be the most successful remedy for stomach troubles ever introduced. It immediately relieves all pain and distress after eating, builds up the feeble system and makes the weak strong. The fact is, foods properly digested

are better than so-called tonics. The Cordial not only contains food already digested, but is a digester of other foods. Food that is not digested does more harm than good. People who use the Cordial insure the digestion of what food they eat and in this way get

as compared with the past methods of administering medicines deserves a passing comment. Scarcely a generation ago the threat of a dose of the nauseous drugs of the day was sufficient to suppress the worst of evil propensities in the most wicked boy. When actually in need of medication, he was held in the chair and gagged to exhaustion in the parental anxiety to measure the capacity of his unwilling stomach with the bulky contents of the justly hated bottle. Frequently the struggle had more to do with the perspiration than the medicine. Very often, for obvious reasons, the bottle broke before the fever. Castor oil was a punishment, rhubarb was a terror and senna an abomination.

The nauseous mixtures of our grandparents are now replaced by the elegant and almost tasty compounds of modern pharmacy. The essentials of the former medicines are now given in the forms of condensed extracts and alkaloids, in proportionately reduced bulk and in consistently concentrated form. Single remedies with special indications take the place of the old fashioned shotgun mixtures. Tablets, pellets and pills no longer offend the palate, and even quinine, the bitterest enemy of taste, now sues for favor in sugar coated armor. The irritable stomach which denies the usual approach to the internal economy is now diplomatically checkmated by an injection under the skin, which, although a longer way round, is a surer Forum.

Blessed Are the Poor!

Representatives of the crockery interest who have gone to Washington to protest against the new tariff complain that the proposed schedules discriminate against goods used by the poor and in favor of those purchased by the rich. Blessed are the poor, but they need expect little help from a protective tariff. -Philadelphia Record.

"I was troubled with quinsy for five years. Thomas' Eclectric Oil cured me. My wife and child had diptheria. Thomas' Eclectric Oil cured them. I would not be without it in the house for any consideration." Rev. E. F. Crane, Dunkirk, N. Y

Manufacturers Against the Tariff Bill. One of the most striking indications

of the growth of sentiment against high protection and of a liberal sentiment upon tariff matters is the movement against the pending tariff bill by the Manufacturers' Association of the United States. Mr. A. B. Farquhar, an extensive manufacturer of agricultural machinery at York, Pa., is at the head

of the movement. It is well known that in the manufacture of agricultural implements and machinery Americans are far in advance of their competitors in any other land and that the products of their factories may be seen in the fields all over the partment a protest against the procivilized world. These people need no protection and are well able to take care of themselves. All they ask is to have untaxed raw material, so that they will not be placed at a disadvantage.

A great list of other industries are practically in the same position and desire free raw material more than they desire protection. It is also significant that the manufacturers, in their petition to the senate, declare that their ability to employ American labor will be greatly impaired by the passage of the tariff bill. They ask that the Chinese wall that is obstructing the foreign trade and crippling American enterprise shall be broken down.

The plea which has been used for years by the protectionists - namely, that protection is in the interest of American labor-is shown by census figures to be a sham. Of the 5,000,000 persons employed in manufacturing in the United States it is shown in the petition that less than 200,000 are employed in occupations subject to active foreign competition and 616,000 in occupations subject to moderate foreign competition. The remainder, over 4,000,000, do not come at all in competition with foreign labor.

It is very plain that the Dingley bill is not designed, any more than any other high protective measure was designed, to protect American labor or to produce revenues for the government. It is designed primarily to protect the trusts and to foster monopoly.—Baltimore

Age Saves Shoe Leather.

A New Yorker of middle life has discovered that the older he grows, the longer he wears his shoes, and consequently the less is his shoe bill. As a young man he wore out at least four pairs a year. Two now suffice him, without tapping or any repairing. The thinnest of single soles now wear twice as long as double soles did. He walks quite as much as he ever did, but his tread is less heavy, and that is why his shoes wear longer.

His experience is that of others who have reached his years. The reverse is notoriously true. The younger a child is, the sooner he will wear out his shoes. All fathers and mothers will agree to that. - New York Sun.

Class Woolens.

IT SURPRISES THE REPUBLICANS.

Some Heated Words Occur Between Allison and Foraker-Japan in an Ugly Mood Over Uncle Sam's Plans for the Annexation of Hawaii-The Fight Over a Recently Appointed Consul Causes Senator Cullom Considerable Worry.

Washington, June 22.-The wool schedule was taken up in the senate Tuesday. The first contest came on motion to reduce the rate on first-class wool from 11 to 10 cents a pound. It was carried by 55 to 13.

The appouncement of the result was followed by a mild sensation on the Republican side. Carter of Montana said the vote disclosed a purpose to reduce the wool rates and served notice that a day of reckoning would come when the combination would hear more about the matter. He suggested a postponement of the wool rates. Foraker of Ohio vehemently reinforced Carter's remarks and announced that unless the agreement that he supposed had been reached on wool were respected every senator must act for himself. Allison endeav-ored to smooth matters and mildly resented the suggestion of a combination. He intimated a willingness to postpone the disputed rates, but with rising temper, said: "Senators are not to be driven and the senate is not a good place to drive."

"And that is why I won't drive," retorted Foraker.

Allison Shows Feeling. "Nor will I," came in Allison, for the first time flushing and showing great feeling. If there had not been an insinuation of a combination he would have

moved a postponement of all paragraphs open to question, but with the senate "thrown into a condition of excitement" he did not propose to submit to threats

"And therefore it is," proceeded Allison, passionately, "I am not to be driven by threats by anybody. We are told we are in a combination, and that the combination will not vote for the bill. I am for the bill and expect to perfect it and vote for it and I do not wish to be charged, as a member of the finance committee, directly or indirectly, with dealing with this question in a covert

Replies with Biting Scorn.

Foraker remained on his feet, and with biting scorn he replied to Allison: "If anybody is excited," he said, sarcastically, "we have only to look about the chamber and see who the excited persons are." He proceeded to show that entirely new features had been proposed on the wool schedule which senators had not had an opportunity to examine.

Quay came in to inquire as to what the agreement was to which Foraker referred. The Ohio senator said the agreement was informal, but Quay was informed as to it, having been invited to attend a meeting when senators considered what could be done toward an agreement on certain features of the wool schedule. Subsequently the results of this meeting had been laid before the finance committee.

"In fact, you were present and aparty to the agreement," said Foraker, blandly, to Quay.

DOES NOT LIKE THE IDEA. Japan in an Ugly Mood Over Annexation of Hawaii.

Washington, June 22.-Uncle Sam is likely to have a great deal of trouble with the Japanese over Hawaii. The Japanese minister filed at the state deosed annexation of Hawaii to the United States. The protest is based upon the contention that Japan has treaty with Hawaii which permits the migration of Japanese subjects to the islands under certain conditions. Pursuant to the terms of that treaty large numbers of Japanese have made Hawaii their home. If now the United States annex the islands these subjects of the mikado will lose the rights which they have obtained, as the system of the United States is vastly different from that of Hawaii. The Japanese claim that they are so largely interest-ed in Hawaii that they should have been consulted as to annexation. They contend that their interests are so great

as to entitle them to consideration. Of course it is well understood that Japan is aggrieved because she had designs of her own upon Hawaii, and because the United States has stepped in and beaten her at her own game. The president and Secretary Day are not at all worried about Japan's protest. That there will be more or less friction with the mikado's government before all the affairs of the three nations incident to annexation are finally arranged is expected. But that they will be amicably adjusted in the end no one doubts. At the same time most of the administration do not conceal that they have a little anxiety as to what may have happened in Hawaii since the last steamer left Honolulu. There have been rumors of the appearance in that harbor of one or two Japanese cruisers, and also mutterings of an uprising among the native Kanakas. The next steamer from Honolulu will arrive in San Francisco on Sunday.

MAKES CULLOM VERY TIRED.

Charges Against Paul Neumann, Confirmed as Cologne Consul.

Washington, June 22.-The fight waged against Paul Neumann, recently appointed and confirmed as consul to Cologne, Germany, is causing Senator Cullom no end of worry. All sorts of charges have been filed against Neumann, and his friends have been summoned posthaste to Washington to refute them.

In view of the latest phase of the matter Senator Cullom is placed in a rather ticklish position, and he declares that henceforth Chicago candidates for federal positions will have to bring affidavits from clergymen that they are all right if they want him to do anything for them.

Macartney Also Goes Free. Washington, June 22.-Judge Bradley has sustained the motion of the defense in the case of John Macartney, broker of this city on trial for alleged contempt of the senate sugar trust investigation committee and ordered the jury

to return a verdict of acquittal. The ground of the judge's decision was that the questions asked were individual questions of Senator Allen and not committee questions. Mr. Macartney was the last of the alleged recalcitrant witnesses to be tried, so that the record stands—acquittals six, convictions one—namely, Elverton R. Chapman of New York city, who served twenty-five days (actual) in jail.

Washington, June 22.-The president Tuesday sent the following nominations to the senate: J. Otis Humphrey, to be attorney for the southern district of Illinois; Charles P. Hitch, to be marshal for the southern district of Illinois; Richard Yates of Illinois, to be collector of internal revenue for the Eighth district of Illinois; John Goodnow of Minnesota, to be consul general at Shanghai, China; Horace W. If diseased, however, they cannot, and the blood continually becomes more impure. Every drop of blood in the body goes through the kidneys, the sewers of the system, every three minutes, night and day, while life endures.

puts the kidneys in perfect health, and nature does the rest.

The heavy, dragged out feeling, the bilious attacks, headaches, nervous unrest, fickle appetite, all caused by poisoned blood, will disappear when the kidneys properly perform their functions.

There is no doubt about this. Thousands have so testified. The theory is right, the cure is right and health follows as a natural sequence. Be self-convinced through personal proof.
