## A DEMOCRATIC DAY.

Democratic Victories General Throughout the Country.

### VICTORY IN NEW YORK

Hanna Got a Scare in Ohio, But Won by Five Votes.

New York City Gave Van Wyck 82,000 Plurality.—New York State Goes Democratic by 60,000.—Other Great Gains.

Democracy came out from its eclipse last fall and showed heavy gains at Tuesday's election. The figures given below tell better than any words of the political revulsion which has occurred since the tremendous republican victories of last fall.

In Greater New York Van Wyck, democrat, is elected by a plurality of 82,000 over President Seth Low, the citizen union candidate, and 135,000 plurality over Gen. Tracy, the republican candidate. The entire democratic ticket was elected and the control of the whole city with its 32,000 employees, will be democratic. At present the republicans are in control of both New York and Brooklyn.

In Detroit, Mayor Maybury is elected mayor by 2,200 over Clarence Black, who united all the republican factions. Ald. Thompson, democrat, is elected city treasurer by 5,000 majority and the democrats have made gains in the council. This city gave McKinley about 8,000 majority.

The states which had up state tickets Tuesday went as follows:

Colorado—Democratic and populist fusion, 1,000 plurality. Bryan carried this state by 134,882, but the silver republicans this year had a ticket of their own.

Iowa—Republican 30,000, democratic gain of 35,000.

Kentucky—Democratic 25,000, democratic gain of 25,000.

Maryland—Democratic legislature by very small majority. The present legislature has 3 republican majority.

Massachusetts—Republican by 86,000, democratic gain of 87,000.

Nebraska—Democratic and populist fusion by 10,000, fusion loss of 8,000.

New York—Democratic by 60,000, democratic gain of 328,000.

Ohio—Republican by 20,000, democratic gain of 27,000.

Pennsylvania—Republican by 124,000, democratic gain of 171,000.

Virginia—Democratic by 60,000, democratic gain of 40,000.

The democratic gains in seven states were sufficient to wipe out McKinley's majority of the popular vote of last year and place a democratic plurality of 100,000 in the place of it, and if at the next presidential election states go as they did on last Tuesday and the remaining states stay in the columns where they were placed in the McKinley avalanche of last year the democrats would have a majority of 37 of the electoral college.

### VAN WYCK ELECTED MAYOR.

Tammany Victorious in the Greater New York Municipal Election.

New York, Nov. 3.—The result of the first municipal election in Greater New York completely reverses the conditions of 1896, when McKinley's plurality in the same territory was 56,865. The plurality of Van Wyck, Tammany candidate for mayor, is about 85,000, and the entire ticket is elected by majorities ranging from 70,000 to 100,000. Coler's plurality over Finch, Republican candidate for comptroller, is over 100,000. Both Van Wyck and Coler were free silver adherents in 1896. Alton B. Parker, Dem., for judge of the state court of appeals, carried Greater New York by 106,000, and his total plurality over Wallace, Rep., below the Bronx river, will not be less than 108,000, insuring his election and Democratic success in the state.

Such a rush to the polls has never been known except in presidential years. Rainy weather failed to dampen civic enthusiasm. The registration was abnormal. The total of 567,256 was only 11,452 behind that of 1896. Last year only 6.66 per cent. failed to vote for president, and the estimated total vote this year of 528,000 shows that the falling off does not much exceed that of 1896. The vote for Tracy, the Republican mayoralty candidate, was divided by the candidacy of Seth Low upon a Citizens' union ticket. Low was second and Tracy third in the contest. The George vote was inconsiderable. The death of its leader evidently disintegrated his following, and thousands evidently voted for Tammany candidates. It is claimed that young George lost many votes through the failure of inspectors to affix his poster to mayoralty tickets.

The unofficial vote for mayor follows: Van Wyck, 235,800; Low, 149,873; Tracy, 101,833; George, 20,386; Gleason, 521. The vote for Van Wyck is about 44.25 per cent. of the total vote case, or less than the 45.21 per cent. cast for Bryan in 1896 in the same territory. The united vote for Low and Tracy shows 14,127 more than Van Wyck received. The metropolitan district is normally Democratic and the plurality for Van Wyck is a return to normal conditions in an election not influenced by national issues.

It Will Open at the Armory Next Monday Evening.

The fair for the benefit of the building fund of the new St. Thomas' Catholic church which will open at the Light Infantry armory on Monday evening next is assuming larger proportions every day and its financial success is already assured. Through the liberality of the local merchants and friends of the church a very large array of useful articles will be placed on sale and everything will be either sold outright or drawn for before the fair closes.

### ELKS IN CHELSEA.

They Had a Good Time in That Town Last Night.

The early part of the week members of the B. P. O. Elks in this city received through the mails large shipping tags, which bore this inscription "Tie this on your coat and come to Chelsea Social session, Chelsea, Mich., Thursday evening, November 4, 1897." Following out the suggestion thus made a party of the jolly fellows numbering in all 80 people under the leadership of Jas. R. Bach left Ann Arbor at 5:55 last evening. They were reinforced at Dexter by other members and several from Jackson were also present. On arriving at Chelsea they were met by the Chelsea contingent headed by Supervisor Hiram Lighthall, and escorted by a band were marched to the town hall, where they disbanded and "browsed" around at their own sweet will until the town bell called them to the supper table. After that had been fully discussed cigars were passed around and then under the chairmanship of Mr. Lighthall a social session was commenced which lasted until 1 a. m. Speeches and songs followed each other in rapid succession, no one who was called on daring to refuse. Policemen Greene and McNamara were faithful in the discharge of their important duties and kept plenty of arrests on hand to supply the material. The Ann Arbor boys returned home on the early morning trains today.

### SALE OF THE UNION PACIFIC

Brings Up a Reminiscence of an Old Ann Arbor Newspaper.

The sale of the Union Pacific in Omaha on Monday by Special Master in Chancery W. D. Cornish, has brought out the fact that the idea of a railroad from the Atlantic to the Pacific was started in the city, then village, of Ann Arbor by Judge Samuel W. Dexter, the publisher and one of the editors of the Emigrant, in the year 1829.

In outlining the route, the writer suggested a line, which foretold in a remarkable manner the transcontinental route made up of the New York Central to Buffalo, the Lake Shore and Michigan Southern to Chicago, one of the Chicago-Omaha roads to Omaha and the Union Pacific and Oregon short line to Oregon and Portland.

Other papers took up the project, but remained for Asa Whitney, a wealthy New York merchant, to begin a campaign of agitation and education, which subsequently resulted in the charter given to the Union Pacific by congress.

### Midnight Prowlers in Pittsfield.

Sneak thieves have been busy in Pittsfield for some time past to the great discomfort of the people who are victims of the nocturnal depredations. Thursday night of last week George Sperry's cellar was entered and a crock of butter, one of lard, two pounds of beefsteak and some canned fruit were taken. The next evening Fred Hutzel's cellar was entered and about 11 pounds of butter and a quantity of lard was taken. From another farmhouse they were frightened away the same night.

It looks as though someone was either laying in a winter's supply of eatables or else had a ready market for what they stole, as during the week Herman Reyer had 200 chickens stolen and N. C. Carpenter had every chicken he owned except one stolen. All of the houses visited are on the motor line and it behooves the residents on that road to keep a sharp lookout for these nocturnal visitors.

## TO DETROIT BY SPRING

An Electric Road Will Now Assuredly Be Built.

### THE M. C. AT ITS BACK

At Least That Is What the Detroit Journal Says.

Company Was Incorporated Wednesday With \$400,000 Capital and 11 With Old Railroad Men Among Its Promoters.

Articles of incorporation of the Detroit, Ann Arbor & Ypsilanti Electric Railway were filed at Lansing Wednesday. The capital stock of the company is \$400,000, and among the incorporators are James D. Hawks, president of the Detroit & Mackinac railway; S. F. Angus, John C. Liggett, Obadiah Birmingham and M. J. Griffin, of Detroit. It is intended to build from the present terminus of the Detroit Electric Railway on Michigan ave, in Springwells to the city line of Ypsilanti, connecting there with the Ypsilanti & Ann Arbor motor line, and, probably, eventually consolidating with it.

The projectors of this road will probably acquire Albert Pack's interest in the Detroit & Saline Plank Road Co.'s property, and take up the project of building the road to Ypsilanti. M. J. Griffin, as contractor, will begin work next week on the road in Springwells, and if no delay is experienced in getting franchises from the township of Dearborn the road will be built to Dearborn and probably to Wayne this winter. The winter, of course, is an important factor to be considered in the work. The bond issue of the road is practically all subscribed.—Detroit Free Press.

The Detroit Evening Journal, of last evening, states the prevailing opinion in Detroit is "that this road is fostered by people connected with or inspired to a considerable degree by the Michigan Central railroad, in its general policy of pulling every string which will shut off opposition lines and make its own hold more secure."

The Journal speaks of the proposition as the most alluring to Detroit minds and predicts that the line would treble the business between Ann Arbor, Ypsilanti and Detroit.

### CRUSHED UNDER A BUILDING.

Fred Stoll, of Ypsilanti, Is Suffering From Partial Paralysis.

Fred Stoll, a 16 years old Ypsilanti youth had such a narrow escape from instant death Saturday as does not fall to the usual lot of mankind, and it has left him partially paralyzed. A little old shop building was being moved on his father's premises at 211 Babbitt st. It had been jacked up on blocks and stone work had been placed under each corner for a foundation. It was necessary for somebody to take out the blocks and Fred suggested that he crawl under the building and do the job. He was allowed to do so and just as he got one of the blocks out, the jacks sunk down owing to the partial caving in over an abandoned vault.

Luckily Fred was lying stretched lengthwise with the joists or he would have been crushed to death. Mr. Hathaway got a prop under the building and raised it up as soon as possible, and a sister of the boy tried to pull him out from under the building as it was being raised on the props. The prop happened to be weak and giving way the building came down, this time partially on the lad's head. He was rescued at once and Dr. Cowie was called, who found the boy's skull was fractured at the base. He was vomiting blood and in a very precarious condition. As a result of the accident he has become cross eyed and every time he sticks out his tongue it goes to one side, showing that there is a pressure on the nerves leading to the eyes and tongue, making a partial and temporary paralysis.

Dr. Cowie cannot yet say whether the affection will be permanent, but has hopes that the lad will recover, although in 95 cases out of 100 it proves fatal.

### A Large Funeral.

The funeral of General Eugene Robinson at Detroit Sunday afternoon was one of the largest and most imposing that has taken place in that city in many years. Nearly 1,000 men in uniform were in line, comprising Knights Templar from other cities besides Detroit and fully 450 members of the Fourth Regiment, M. N. G. Ann Arbor Commandery turned out 35 swords among whom were Sir Knights W. G. Doty, B. F. Watts, W. W. Watts, J. R. Bach, H. Wirt Newkirk, Ross Granger, J. F. Hoelzie, W. H. Butler, J. W. Bennett, H. T. Morton, George F. Vandawalker, Oscar Burkhardt, George Rhead, L. C. Goodrich, A. C. Nichols, J. T. Avery, George Blum, W. H. Whitmarsh, Alvick A. Pearson, Charles E. Hiscock, and W. A. Clark, of Ann Arbor. The other 15 were from Ypsilanti.

Mrs. Henry Wade Rogers, wife of the President of Northwestern University, is in town for a few days' visit.

### A Successful Young Ann Arborite.

It is a pleasure to a newspaper to chronicle the success of a fellow townsman, or one who has been born and brought up in the town, and that pleasure comes to the Argus this week in speaking of the upward move in the business world made by Herbert C. Watts, of Syracuse, N. Y., Monday. On that day he acquired by purchase the interest of C. S. Ball in the best optical business in Syracuse.

In 1893 Mr. Watts founded for Mr. Ball the business which he has now purchased, and he has seen it gradually grow from a small beginning to the excellent business that it now is. This has been accomplished by steady application to business and persistency in doing good work. The latter he is eminently fitted to do. He studied the optical business under Dr. Fleming Carrow, professor of ophthalmology at the U. of M., and graduated from his teachings a finished optician. Since then he has had five years of experience at the business and it is needless to say they have been well and profitably spent. This is evidenced by his purchase of the business on Monday.

Mr. Watts is a son of J. C. Watts, of E. Liberty st. He was born and brought up in Ann Arbor, and left here something over four years ago to go to Syracuse, his present home. His friends, in this city, who knew him so well and favorably, are pleased to hear of the present brightness of his material prospects in life and wish him unbounded success in the future.

### Worked, Banqueted and Toasted.

One of those pleasant Masonic gatherings for which Ann Arbor is justly celebrated took place Thursday evening of last week when Golden Rule Lodge, No. 159, made Master Masons of Fellowcrafts Robert E. Wilson, George M. Shelmire and J. C. Henderson, and followed up the work with a bountiful spread and speeches.

From the Ypsilanti lodges there were present the following: Phoenix Lodge, No. 113, Worshipful Master W. S. Carpenter and Brothers A. C. Fingerle, J. D. Lawrence, Earl Haner, A. L. Lamb, W. B. Eddy, L. M. Spencer, H. C. Gordon, Eugene Edson and William Meanwell; Ypsilanti Lodge, No. 128, Worshipful Master Charles Stevens and Brothers J. E. McGregor, George Wilson and L. M. James. And besides these there were others. The only regret on the part of the visitors was that they had to hurry away before they had digested their suppers, but W. S. Carpenter, master of Phoenix Lodge was left behind to look after their interests.

When the brothers had eaten their fill cigars were passed around and W. W. Watts was called to the toastmaster's chair. Speeches were made by W. S. Carpenter, of Ypsilanti, Judge H. Wirt Newkirk, Mr. Kauffman, Mr. McDonald, Junius E. Beal, George P. McCollum, R. E. Wilson, I. N. Kinney, H. G. Prettyman, Dr. C. G. Darling and L. C. Goodrich. The banqueters did not separate until near midnight.

Cooley, Prof. B. A. Hinsdale, and others of the university, took part in the animated discussions that followed each paper. The sessions were well attended.

## ABOUT IRREGULARITY.

A Chat With Miss Marie Johnson. The balance wheel of a woman's life is menstruation.

Irregularity lays the foundation of many diseases, and is in itself a symptom of disease. It is of the greatest importance that regularity be accomplished as soon as possible after the flow is an established fact.

Lydia E. Pinkham's Vegetable Compound is the greatest regulator known to medicine. "My health became so poor that I had to leave school. "My mother, who from experience is a firm believer in the Pinkham remedies, thought perhaps they might benefit me. I followed the advice Mrs. Pinkham gave me, and used Lydia E. Pinkham's Vegetable Compound and Liver Pills and am now as well as I ever was."—Miss MARIE F. JOHNSON, Centralia, Pa.

Charlie Miller, of Manchester, was up a tall hickory tree the other day getting some nuts, when the bough broke and he fell "kerplunk." He did not say anything for some time and his companions thought he was hurt but he finally got up and climbed into the buggy, vowing he had had enough hickory nutting to last him for some time.

The home of Henry Calvert in Ypsilanti was totally destroyed by fire at 4 o'clock Saturday morning. Mrs. Calvert had got up to heat some water and had gone back to bed when she and her husband were startled by hearing something fall and immediately their room was full of smoke. They got out the furniture but that was all. There was a small insurance on the place.

The Ypsilanti Needle Work Guild at its annual meeting Saturday elected the following officers: Honorary president, Mrs. P. W. Shute; president, Mrs. W. H. Guerin; secretary, Miss Margaret Murphy; treasurer, Mrs. F. P. Bogardus. The section presidents, so far named, are Mesdames Bogardus, Carpenter, Coquillard, Damon, Parker, Rexford and Swift and Miss Nora Murphy.

Mrs. Catherine A. Canfield, of Ypsilanti, who lives alone, had a narrow escape from asphyxiation by coal gas Saturday evening. She had retired for the night very early and about 8 o'clock was discovered at the front door endeavoring to rally herself, she having just had strength enough to get that far, although almost completely prostrated by the gas escaping from the furnace which was defective.

## Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the Liver and Kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle at Eberbach Drug and Chemical Co., Ann Arbor, and Geo. J. Haussler, Manchester.

## The Michigan Hen.

An editor whose wife sold eggs and paid off the mortgage probably on his office, is responsible for the following: We have read of Maude on a summer day, who raked barefooted the new-mown hay. We have read of the maid in the early morn, who milked the cow with the crumpled horn. And we've read the lay that the poets sing, of the rustling corn and the flowers of spring. But of all the lays of tongue or pen, there's naught like the lays of the Wolverine hen. Long, long before Maude takes her hay, the Wolverine hen begins to lay; and ere the milkmaid stirs a peg, the hen is up and has dropped her egg. The corn must rustle and the flowers must spring, if they keep up with the barnyard ring. If Maude is in need of a hat or gown, she does not take her hay to town; but she goes to the store and obtains her suit with a basket full of fresh hen fruit. If the milkmaid's bean makes a Sunday call, she doesn't feed him on milk at all; but works up eggs in a custard pie, and stuffs him full of a chicken fry. And when the old man wants a horn, does he haul to the druggist a load of corn? Not much; he simply robs a nest; to town he goes—you know the rest. Here he lingers, and talks, perchance, of true reform and correct finance; while his good wife stays at home and scowls, but is saved from want by those self-same fowls; while the husband is lingering there, she watches the cackling hen with care and gathers the eggs, and the eggs she'll hide, till she gathers enough to stem the tide. Then hail! all hail to the Wolverine hen, the greatest blessing of all to men. Throw up your hat and make Rome howl for the preserving barnyard fowl! Corn may be king, but it's plain to be seen that the Wolverine hen is Michigan queen.

After meals you should have simply a feeling of comfort and satisfaction. You should not feel any special indications that digestion is going on. If you do, you have indigestion, which means not-digestion. This may be the beginning of so many dangerous diseases, that it is best to take it in hand at once and treat it with Shaker Digestive Cordial. For you know that indigestion makes poison, which causes pain and sickness. And that Shaker Digestive Cordial helps digestion and cures indigestion. Shaker Digestive Cordial does this by providing the digestive materials in which the sick stomach is wanting. It also tones up and strengthens the digestive organs and makes them perfectly healthy. This is the rationale of its method of cure, as the doctors would say. Sold by druggists, price 10 cents to \$1.00 per bottle.

## Indian Summer.

In Michigan, Indian summer usually occurs about the middle or last of October. Scientists differ in regard to the cause of this phenomenon. A change in the condition of the upper strata of the atmosphere, confining the radiating heat rays in the lower strata, is generally held to be the true explanation. The smoky condition of the atmosphere is thought by some scientists to be attributable to the decay or slow chemical combustion of leaves, grass and various other vegetable matter under the action of the frost and sun. The early settlers thought the smoky appearance of the season was due to the forest and prairie fires kindled by the Indians. Hence the name Indian summer.

## Cotton Raised in This County.

William Henry, an old ex-slave, who whiles away his time by carrying the United States mail between Milan and Stony Creek at an enormous (?) salary, has been trying his hand this summer in raising cotton. As a result he has succeeded in raising some as nice and large cotton bolls as we ever saw in Dixie's land, two samples of which may be seen at the sanctum teetotum of this office. The question naturally strikes one something like this: If a small lot of cotton can be so successfully raised in Michigan, why not a great deal? Was this a particularly favorable season? Etc.—Milan Leader.

## The Small Unwashed.

The Lapp baby belongs to the class of the small unwashed. When its mother is in a particularly neat frame of mind, she daubs fat on it, and that is all the bathing that the youngster is likely to get, as it outgrows fondling and fat dubbing in time.

## A BACK BLOW.

The Weapon Small—but None More Certain or Effective.

In these times when backs are lame, when almost every other one we meet has aches or pains—"a weak back," "a bad back," a back that makes their life a misery to bear—and still they go on day by day in pain and suffering. Now 'tis the saddest thing in the world to give this played out back "a blow" that will settle it, and put in its place a new one equal to any. It's just like this: hit at the cause; most backaches come from kidney disorders. Reach the kidneys, start their clogged-up fibres in operation; when this is done you can say good-bye to backache.

Here is a case from Battle Creek: Mr. Josiah M. Shoup lives at 51 Broad Street, he was a member of the Battle Creek police force for many years. As a member of the force he served the city well, but the rough weather he was often subjected to laid the foundation of kidney disorder, which has troubled him very much. Here is what he says about it:

"About three years ago, while on the police force, I contracted from exposure a kidney trouble, which has since given me no end of trouble. The pain was right through my kidneys and across the small of my back; if sitting down and I wanted to stand up, I had to arise very slowly and gently to avoid increasing the pain; I had such tired-out feelings all the time, and I was steadily getting worse. About two months ago, hearing of Doan's Kidney Pills, I got a box. Their action and effect was most complete, they removed the old aching pains for good. I can now get around as quickly as anybody. Doan's Kidney Pills are certainly as represented."

For sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

## NEWS OF THE ELECTION

Persistent Rainfall in Greater New York.

BUT VOTERS TURN OUT EARLY.

Claims of the Four Leading Campaign Committees—It Cost the City \$2,000 to Vote Four Men in Central Park—President McKinley Casts His Vote at Canton—Not Much Interest Taken in the Iowa Election—Fatal Riot at Frankfurt, Ky.

New York, Nov. 2.—Rain, which fell more or less persistently throughout the forenoon, had little effect to restrain the voters of greater New York from giving expression to their preferences for city and borough officials. The polls opened at 6 o'clock and within two hours a good third of the votes had been polled in the residential sections of New York and Brooklyn. From that time forward the polling proceeded a little less rapidly, though still with enough animation to keep the clerks of election from gossiping, so that there was at noon but a small fraction of the registered vote remaining uncast. In the suburban precincts the voting was little behind. It cost \$2,000 to vote four of the seven registered men residing in Central park. These four men voted at One Hundred and First street and Eighth avenue, where a special booth had been built for them. Inspectors, ballot clerks and police had to be furnished for the four voters. The men live in McGowan's Pass tavern. By 9:30 o'clock all had voted and the inspectors and ballot clerks were free to discuss politics or anything else until sundown, but the booth had to be kept open in accordance with the law until 5 o'clock. The other three voters in the park were named Conway, the shepherd, and his two sons, who live at the sheepfold and vote at Eighth avenue and Fifty-sixth street, where there is a big district.

### Van Wyck and Low Vote.

Robert A. Van Wyck, Democratic nominee for mayor, voted at 6:40 o'clock, casting ballot No. 19. He spent thirty seconds in the booth. There was no crowd at the polling place and there was no demonstration. It was nearly two hours later when Seth Low appeared at the place where he was registered. He spent two minutes in the booth. His coming and going were not marked by any demonstration.

The ante-election "claims" of the chairmen of the four leading campaign committees is as follows: Democratic estimate gives Van Wyck a majority over all other candidates combined of 20,000 and plurality over Low, the next highest, 130,000. Republican estimate gives Tracy a plurality of 75,000; Citizens Union estimate gives Low a plurality of 15,000; George estimate gives George a plurality of 65,000. There are 1,522 election districts and, of course, as many polling places in greater New York, divided as follows: Borough of Manhattan and the Bronx, 883; borough of Brooklyn, 516; borough of Queens, 76; borough of Richmond, 47. To reach a total of 529,000, an average of nearly 350 votes for each district must be attained. In 1896 the total vote in this same territory was 536,254.

### PRESIDENT CASTS HIS VOTE.

Marks His Ballot in a Carpenter Shop by Candle Light.

Canton, O., Nov. 2.—At 10:10 President McKinley left his mother's home to vote. He was accompanied by Mr. George B. Freese, editor of The Repository. It was five blocks' walk to the Fulton street polling place, Precinct C, First ward, which was in a carpenter shop. On the way Judge Ricks and his old neighbor, Judge McCarty, joined the president. He entered the precinct voting place at 10:20. "William McKinley, 815 Tuscarawas street, No. 164," read the clerk. The president was in the booth one minute and twenty seconds, put his cross on the blanket sheet with eight tickets by candle light, the curtain of the booth resting on his shoulder, and the president being in plain sight of the crowd that had gathered. Entering and leaving he returned the salutations of all the election officers. After voting the president took a walk about some of the streets of his home city, doffing his hat in reply to the salutation of people, who made many manifestations of their love and admiration for their fellow-citizen.

Columbus, O., Nov. 2.—At the governor's office there was a lack of news from the state but advices from various parts of this city indicated that half the registered vote of Columbus was cast by 9 a. m. Hon. George K. Nash, chairman of the Republican state central committee, said Republicans in Ohio were too busy voting and getting the vote out to send him messages. His information from this city shows a heavy vote, notwithstanding the rain. Cleveland, O., Nov. 2.—The weather was dismal and dreary and the rain fell in a constant drizzle. The indications throughout the Western Reserve are that if the proportion continues throughout the state the vote will fall off by 200,000 over last year.

### INTEREST LAX IN IOWA.

The Weather Was Favorable but Few Voters Made Their Appearance.

Des Moines, Ia., Nov. 2.—The polls opened at 7 o'clock. The weather was cool and crisp, a perfect autumn day. The temperature was so low that frost covered everything. The country polls opened at 8 o'clock. At 8:30 o'clock the vote was remarkably light, but 50 per cent. polling in comparison with last year. Some city precincts showed as light as 75 per cent., but enthusiasm was almost dead. Many voters failed to register and did not come to the polls at all.

State, county and city offices were closed and at an early hour the corridors of public buildings were almost deserted. The day was a legal holiday, but the business houses were all open and remained so except for two hours legally allowed employees to vote. Political headquarters closed at 8:30 o'clock.

### RIOT IN KENTUCKY.

Four Men Are Killed During an Election Row.

Frankfort, Ky., Nov. 2.—A riot in which Frank Egbert of the fire department was riddled with bullets and Deputy Sheriff Teakins, John Smith and Howard Glone were fatally

wounded, occurred at 1:45 a. m. The tragedy was the result of an attempt on the life of Ben Marshal and other political workers about midnight. The dead are: Howard Glone, Frank Egbert, Deputy Sheriff Teakins, Walter Gains, colored.

William Smith is probably fatally wounded. Several are wounded slightly by the shots fired. Egbert and his party claimed that the Democrats were corraling negroes outside of the city to prevent them from voting.

Lexington, Ky., Nov. 2.—The election in this city and county was a most bitter contest. The Republicans and National Democrats, led by W. C. Breckenridge, had a fusion ticket opposed to the silver Democrats. Every hardware store sold out its stock of firearms.

### The Keystone State.

Philadelphia, Nov. 2.—Rain fell almost continuously. This had its effect and even a lighter vote was cast in the early hours than had been anticipated. In the city there is no doubt that the Republican city ticket, headed by Colonel Clayton McMichael for city treasurer, will be elected by majorities exceeding 50,000 and that the plurality for the Republican state ticket will also go beyond that figure. Swallow, the Prohibition candidate for state treasurer, received many votes from those who have not heretofore voted the Prohibition ticket.

### Rainy Day at Detroit.

Detroit, Nov. 2.—A steady, drenching cold rain with no apparent prospect of cessation was the kind of weather furnished for the Detroit municipal election. Mayor Maybury's adherents claimed that it was Democratic weather and tended to add to the Democratic majorities which they have confidently been predicting. The Republicans insisted apparently with equal confidence that Clarence A. Black will be the next mayor, but they did not claim as large majorities as the Democrats.

### Muddy Roads in Colorado.

Denver, Nov. 2.—The weather was clear and cool, but the roads are so muddy in the city as well as in the country, on account of the heavy snowstorms one week ago, that many voters did not take the trouble to go to the polls. The small groups at the various polling places in this city when the polls opened at 7 o'clock in the morning were in marked contrast to the crowds in line last year, and there is no doubt the vote will be much smaller than that of 1896.

### Cloudy Weather in Virginia.

Richmond, Va., Nov. 2.—Weather was cloudy in Richmond and all over the state, with rain on the coast. The vote in one half of the city exceeded expectations while in the other half it was very light. A dramatic incident of the campaign and coincident with the tragic end of Henry George was the death at Staunton of Colonel James Cockrane, the Republican senatorial candidate for the Ninth district. He expired suddenly after a vigorous campaign.

### First Election Returns.

Boston, Nov. 2.—Brainfree was the first town to report the vote for governor. The vote is: Wolcott, Rep., 311; Williams, Dem., 131; Everett, National Democrat, 28.

Boston, Nov. 2.—Rain prevailed all over Massachusetts, and as a consequence voting during the early hours was slow. The feeling which has been general that Governor Wolcott is sure of re-election doubtless also affected the volume of the vote.

### Election in Nebraska.

Lincoln, Neb., Nov. 2.—Few reports have come into political headquarters from over the state. In a few of the larger towns outside Lincoln and Omaha nearly an average vote was polled, a majority of ballots going in early. The blanket ballot did not cause the confusion expected, but it is feared by political managers that the count will be slow.

### Downpour in Maryland.

Baltimore, Nov. 2.—The polls opened during a perfect deluge of rain that appeared to have extended to all parts of the state and effectually checked the voting in the first hour. It also had a tendency to keep the party workers away from the polling places, and the result was one of the quietest times ever seen here on such an occasion.

### Little Interest in Kansas.

Topeka, Kan., Nov. 2.—Bright, clear weather prevailed throughout Kansas. As there were no state officers to be elected and no considerable part of the state was interested in the election or defeat of the same men, the campaigns have been thoroughly local, and little general interest was taken in the results.

## Children Cry for Pitcher's Castoria.

PEARY'S ESKIMOS ARE ILL.

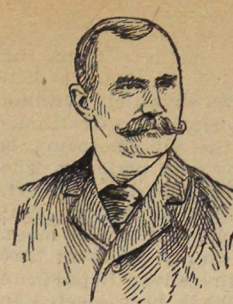

People Brought from the Arctic Are Suffering in New York.

New York, Nov. 2.—The party of six Eskimos whom Lieutenant Peary brought here and who are now in Bellevue hospital are having a hard time of it. Aulun-Gua-Wosa, the matron of the party, is critically ill, but the Bellevue physicians have hopes of saving her life.

The troubles of the whole party are caused by the climate. They are suffering from pneumonia and kindred complaints—diseases which it would be supposed they could ward off the best. Instead of contracting pneumonia from the cold they apparently contract it from the heat. They complain much of the "excessive heat" and long for a sight of the ice-clad fields of their native land.

### Sore Throat.

In a letter to Dr. Hartman, dated Dec. 27th, 1896, George A. Blanchard, of Washington, Ga., writes: "My throat had been in the habit of getting sore every year for the last twenty years, and if any medical skill did me any good it was so little I did not know it. Two years ago my wife was down sick two months, tried two doctors, but the case was a stubborn one of female trouble. I found in Pe-ru-na not only a good, safe remedy for sore throat, but one for weakness and nervous prostration. I quit the doctors and purchased a bottle of Pe-ru-na, and in three days after my wife got up and she has been going ever since, and I have not been bothered with that bad sore throat. It used to last at least fifteen or twenty days. Since we have used your medicine my wife has not lost a single day and she gained over fifty pounds."

In a later letter, July 22d, 1897, Mr. Blanchard writes: "All of the sickness we have in the family is when we cannot get Pe-ru-na. We people in the South think Pe-ru-na is a God-sent blessing. I recommended Pe-ru-na to friends of mine that had asthma and one bottle cured them. Whenever Pe-ru-na is used it speaks loudly for itself."

Dr. Hartman, the original compounder of Pe-ru-na, has a recent book on chronic catarrh which will be sent free by The Pe-ru-na Drug Manufacturing Co., Columbus, O.

### Slang.

The difference between ancient and modern slang was amusingly illustrated in a recent incident at the Chautauqua assembly, when the teacher of English literature asked, "What is the meaning of the Shakespearian phrase 'Go to?'" and a member of the class replied, "Oh, that is only the sixteenth century expression of the modern term 'Come off.'" The two phrases, while apparently opposite, do, in fact, substantially mean the same thing.—Chicago Chronicle.

### A Human Bloodhound.

In Abyssinia they have a very picturesque fashion of identifying thieves. There is an official nominated for the purpose in each district. Upon receiving information of a robbery he gives his confidential servant a dose of certain herbs, afterward a pipe of tobacco.

The man drinks and then smokes. In due course he begins to rave and to crawl about on hands and knees. Then the thief catcher puts a rope about his loins, and on all fours he perambulates the neighborhood, sniffing like a hound, enters a house at last and goes to sleep upon the floor. That is legal evidence of the owner's guilt.

He has to pay the value of the stolen goods or to "square" the thief catcher, which, as a rule, comes to much the same thing.

FRIDAY, NOVEMBER 5, 1897.

It is time for democrats to get together. Where they have done so victory has perched upon their banners.

The republicans can extract what comfort they can out of the returns from Pennsylvania. They will not care to read the New York returns.

Tuesday was a democratic day. It was also a day when the voters of New York settled down with the voters of Ohio made Boss Hanna shake in his boots. Hanna feels better now, but it was a close call.

For the first time in five state elections New York has gone democratic and has turned the enormous republican majority of 268,000 of last year into a democratic majority of 60,000. The people have spoken once more.

For the next four years the democrats will control Greater New York, the second largest city in the world with 32,000 employees and a pay roll of \$33,000,000. This naturally means that at least 32,000 men in New York city will be hustling hard for the election of a democratic president in 1900.

Scarcely a day passes without complaints coming in about the crowd of loafers who hang around the opera house and Savings Bank blocks every evening. They swear and tell disgusting stories loud enough to be heard by passers-by and keep at it till late at night. The Times respectfully insists that these nests be cleaned out at once.—Times.

The editors of the Argus cordially endorse this request seeing that they are among the parties who are most seriously discommoded by the existing state of affairs. We have already preferred our complaint to the chief of police and the mayor, both of whom have promised their hearty co-operation in abating the nuisance and we hope soon to see it an accomplished fact. There is no reason why this state of affairs should not be remedied if the ordinance relative to disorderly persons and the state law prohibiting the use of profane or obscene language within the hearing of women are rigidly enforced.

The ordinance before the council in reference to bicycles is drawn in the interest of the safety of the bicyclists and the general public. Unfortunately all who ride the wheel are not equally discreet and the average wheelman is more in danger from some freak or careless rider than he is from any accident which may occur to his own wheel. The use of lanterns at night will be particularly commended. It is opposed by bicycle liversies on account of the number of lanterns they will have to buy, but the wheelmen who has to buy but one can then ride at night without incurring the danger of collision with some other rider. The wheelmen themselves should be the stoutest advocates of this ordinance which gives them a definite position in the road, where if they have any accident caused by a careless or malicious driver, they can more easily recover civil damages. Such an ordinance as the one proposed is in force now in nearly all of the progressive cities of the country and the few dollars expense to bicycle liversies should not be allowed to stand in the way of the good of the general public. If lanterns are required in the city, the wheelmen on the Whitmore Lake path will probably keep themselves equipped with lanterns, making it possible to ride on that path with safety at night.

He will also begin next Sunday evening a short series of illustrated travel lectures, as follows:

All these lectures will be accompanied with stereopticon views.

# A DEMOCRATIC DAY

(Continued from First Page.)  
IN NEW YORK STATE.

## Result Is a Reversal of Pluralities Given Republicans in Last Two Elections.

Albany, N. Y., Nov. 3.—The completed returns from the state are coming in slowly, and demonstrate that the Republican landslides of the past two years have been reversed by the changing of something like 240,000 votes. Governor Black's plurality in the state last year was over 200,000. John Palmer, the Republican secretary of state, won the year previous by over 100,000. The indications are that these enormous pluralities have been swept away, and a reverse plurality of between 30,000 and 50,000 is given.

The greatest surprises of the returns are the great gains made in the assembly by the Democrats, many of them being in counties and districts where there was no expectation on the part of the Democratic managers of winning. Republicans explain these gains by attributing them to the heated municipal campaigns and the trading of votes. The returns indicated that the Republicans will still control the assembly by a largely decreased majority. More surprising, perhaps, than the returns on the state and assembly district tickets were results of the municipal campaigns in the large cities. New York, Buffalo, Rochester, Binghamton, Syracuse, Utica, Albany, Troy and Schenectady elected Democratic mayors.

In Albany the conditions were very similar to those in New York. Two Republican candidates split up the vote of that party and allowed the Democrat to win. The combined Republican vote was 2,000 in excess of the Democratic vote. In Buffalo and Rochester Republican success was thought to be almost assured prior to the election, but the results are foreign to the predictions.

The latest returns on members of the assembly (lower house of the state legislature) give the Republicans a majority of twelve in a total membership of 150. In the last assembly the Republican majority was seventy-eight. Three Citizens' Union nominees were elected in this city. The senate, which holds over, has a Republican majority of twenty.

## SHAW ELECTED IN IOWA.

Chairman McMillen Says His Plurality Will Reach 30,000.

Des Moines, Ia., Nov. 3.—Returns are late in the reaching headquarters of the state central committees. Chairman McMillen of the Republican committee contends Shaw's plurality will reach more than 30,000. Reports received from fifty counties give Shaw a plurality of 20,320 and the estimates of the Republican committee is that the other forty-nine will not do so well. Republicans claim sixty-three in the house out of 100, and forty out of fifty in the senate. Chairman McMillen's estimate of the vote is as follows: Republican, 230,000; Democrats, 200,000; Prohibition, 7,000; gold Democrats, 5,000; Populist, 3,000. Returns from the first forty-three counties show 19,000 plurality for Shaw, an average Democratic gain of 400 to the county. This was reduced later to 307 to the county. The Democratic state committee concedes Shaw's election by 15,000, but gains are claimed in the legislature. Walsh admits thirty-nine Republicans in the senate, counting newly elected members and hold-overs. Democrats claim thirty-eight members of the house. Republicans concede them thirty-seven.

Dubuque, Ia., Nov. 3.—Dubuque county will give White, Dem., for governor, 1,700 majority; Bryan had 1,322. For the first time in thirty-six years the Republicans elect a sheriff. Democrats elect all other officers.

## MARYLAND IS DEMOCRATIC.

State Senate Will Be Republican and the Lower House Democratic.

Baltimore, Nov. 3.—With semi-official returns from all the counties in the state except St. Mary's and Calvert, and fairly good estimates from there, the Democrats appear to have elected enough members to the next legislature to give them a majority of five on joint ballot and to insure them a United States senator to succeed Senator Gorman.

Official returns may be necessary to decide the position of some of the counties, and these may alter the result, but from the best obtainable figures at this time, the Democrats appear to have a total of sixty-one legislative votes, while the Republicans have fifty-six. The state senate will be Republican by a probable majority of four, while the Democrats appear to have captured the lower house by a majority of nine.

## Show Divided Results.

Wichita, Kan., Nov. 3.—Sedwick county returns not yet complete show divided results. Republicans have elected sheriff, clerk and treasurer, while fusion candidates for register of deeds, surveyor, coroner and commissioner were chosen. The result on commissioner is a surprise as the district comprises three wards of the city which are Republican usually. No reports are in yet from neighboring counties.

Topeka, Kan., Nov. 3.—Complete returns from Topeka city and Shawnee county show entire Republican county ticket elected by majorities ranging from 110 to 1,200. Cook, Rep., for sheriff, has 110 majority over Kepley, Fusion.

## Tyler Elected in Virginia.

Richmond, Va., Nov. 3.—Richmond has elected the Democratic state ticket, headed by J. Hoge Tyler for governor, by a majority exceeding 50,000. Returns indicate that the Democrats will have their usual overwhelming majority in the legislature. The vote was a very small one, and little interest was taken.

## Michigan Mayors Elected.

Detroit, Nov. 3.—The official returns with but three precincts lacking, give Maybury for mayor 2,100 plurality over Black (Rep.); William B. Thompson, (Dem.) is elected treasurer over Grunow (Rep.) by something like 4,000. Robert W. Webb (Dem.) is also elected a justice of the peace. The Republicans elect John A. Schmid city clerk by something over 2,000, and also elect Felix A. Lemki as justice. The Democrats gain two aldermen, and the new council will stand twenty-one Republicans to thirteen Democrats.  
At Port Huron, Stevenson (Rep.) was

elected mayor over Wellman (Dem.) by 245 plurality.

## Colorado in Doubt.

Denver, Nov. 3.—Returns from the state are meager and the result is still in doubt. The News says that William H. Gabbert, Democrat-Populist candidate for judge of the supreme court, is probably elected by 8,000 majority. The Republican says that Charles D. Hayt, Republican and silver Republican candidate, will have 3,000 majority or more. Hayt carried this county by about 7,000 majority. The entire silver Republican ticket appears to have been elected in this county.

The Denver Times claims the election of Hayt, Rep., for judge of the supreme court, by about 2,000 plurality. Returns are in complete.

## The Result in Virginia.

Richmond, Va., Nov. 3.—The result of the election in Virginia is a Democratic victory. While not more than 70 per cent of the entire vote of the state was cast the Democrats elected their candidates by a majority estimated at 50,000. The legislature is unquestionably Democratic, and the Republican contingent will be much smaller than last year. The returns received give little hope of success anywhere to the nominees of the Populist and Republican parties, and the combined representation of both in the last legislature, which was thirty-eight out of 140, will be decreased.

## South Dakota Returns.

Sioux Falls, S. D., Nov. 3.—Out of eight judicial circuits in the state the Republicans elect five judges. The Democrats elect in one and the Populists win in the two Blackhill circuits. The Republican victories come as a surprise to them as well as the opposition. In the Second circuit Judge Jones overcame a Populist majority of 1,100 and won by a majority of 700. A very light vote was polled throughout the state, not more than 60 per cent. having been cast.

## Quiet Election in Pennsylvania.

Philadelphia, Nov. 3.—Pennsylvania held its quietest election in many years. The feature was the mark of disapproval of Senator Quay and his methods by the extensive scratching of the name of James S. Beacon, candidate for state treasurer. Returns indicate a substantial Republican majority, but Beacon had a great scare.

## Governor Wolcott Re-Elected.

Boston, Nov. 3.—Massachusetts re-elects Wolcott (Rep.) governor by 168,000 votes, against 80,000 for Williams (Dem.), and 17,500 for Everett (gold Dem.). The lower house of the legislature will stand 200 Republicans to forty Democrats, while the senate will stand thirty-three Republicans to seven Democrats.

## Nebraska Goes Democratic.

Omaha, Neb., Nov. 3.—Nebraska has gone Democratic. The fusion state chairman claims the state by from 20,000 to 25,000 plurality. The Lincoln State Journal (Rep.) concedes the defeat of the Republican state ticket. The chairman of the Republican state committee makes no statement.

## Kentucky Democratic Again.

Louisville, Ky., Nov. 3.—Kentucky has gone Democratic. The returns indicate that Sam J. Shackelford, the silver Democratic candidate for clerk of the court of appeals, has from 5,000 to 7,000 plurality. Louisville has elected a Democratic mayor by at least 4,000.

## Citizens Win in Salt Lake.

Salt Lake, Utah, Nov. 3.—Returns received by The Tribune up to 2 o'clock in the morning show the election of Clark (Citizens' Reform) for mayor, by a plurality of 30 votes.

## INVADE AFRIDI STRONGHOLD.

British Soldiers Are Encamped in the Maidar Valley.

Simla, Nov. 3.—A dispatch from Mastura says that Sir William Lockhart's columns are encamped in the Maidar valley, a hitherto unknown district, which the Afridis had boasted no invader could penetrate. A column visited the notorious mosque and grove at Bagh, where the Afridis rising originated and which has been the center of the political and fanatical intrigue that has animated the outbreaks of the tribesmen. The mosque was left untouched and was not entered, but the trees in the grove were hewed down as a mark of punishment and a sign of victory. The enemy offered a feeble resistance and was easily dispersed, but as yet the tribesmen have made no proposals of peace.

## Would Not Accept the Reduction.

Marion, Ill., Nov. 3.—Mine owners served notice that a reduction from 30 cents a ton to 25 cents would be made at the Ohio and Mississippi Valley Coal company, the Crab Orchard and the Ohio Valley mines. The men refused to accept the cut and at a meeting held resolved not to return for less than 33 cents per ton, claiming that to be the least paid in this district, hence all work at the above mines shut down.

## Rolled Down an Embankment.

Sedalia, Mo., Nov. 3.—A mixed passenger and freight train rolled down a forty-foot embankment on the Sedalia, Warsaw and Southwestern road at noon, three miles north of Warsaw. Engineer John Minnier was instantly killed. Fireman Charles McConas had a leg broken and Brakeman Price, Conductor W. L. Bass and Fred Schwettman, a passenger, were badly hurt.

## Embezzler Sentenced.

Helena, Mont., Nov. 3.—B. D. Hatchers pleaded guilty in the United States court to misappropriation of \$90,000 of funds of the Northwestern National bank of Great Falls, and was given a sentence of five years in the penitentiary. Forty-five other indictments against Hatchers were dismissed. The result is a great surprise as a long contest was expected.

## Wants \$25,000 Damages.

Appleton, Wis., Nov. 3.—William Michelstetter of Seymour has filed a claim against the Chicago and Northwestern road for \$25,000 damages, alleged to have been received in the Christian Endeavor wreck at Chicago last summer. He says he was injured about the back.

An east end London clergyman who sent out invitations to a jubilee banquet among the poor of his parish and received 70 acceptances on announcing that he would have no beer lost 53 of his guests and was besieged by the newspapers.

# THE RESULT IN DOUBT

The Republicans and Democrats Claim Ohio Legislature.

## BUSHNELL'S ELECTION ADMITTED.

The Cry of Fraud Is Raised, Republicans Recalling the Incidents of 1885 and Democrats the "Crime of 1877"—Van Wyck Elected Mayor of Greater New York—Empire State Election—Shaw Wins in Iowa—Late Returns.

Cleveland, O., Nov. 3.—Mr. M. A. Hanna dictated and signed the following telegram: "To M. E. Stone, General Manager, the Associated Press—From returns which are authentic and reliable I claim the Republicans have a majority of three on joint ballot outside of Hamilton county. M. A. HANNA."

Colonel Dick, Senator Hanna's manager, is unwavering in his claim that Senator Hanna will have at least seventy-five votes on joint ballot of the legislature.

Cincinnati, Nov. 3.—The following statement of the situation in Ohio has been made by J. R. McLean upon request: "The Democrats believe that they have elected the state and legislative ticket. An honest return will show it. JOHN R. McLEAN."

Columbus, Nov. 4.—Democratic state committee no longer claims the election of their state ticket, but announced that their majority in the legislature on joint ballot will not be less than six and possibly be nine as predicted earlier in the day by Chairman McConville. Chairman Nash in the afternoon stated that the Republican plurality on the state ticket would be from 12,000 to 15,000, and that the Republicans will have at least three majority in the legislature on joint ballot for senator. Among the doubtful ones has been Delaware county, which reported in the afternoon the election of the Republican representatives by 26 plurality. Chairman Nash announced that the legislature would stand 75 Republicans and 70 Democrats.

## Cry of Fraud Raised.

The closeness of the vote has caused intense feeling and the usual cry of fraud. When the result was in doubt in 1885 it was discovered that the tally-sheets were forged. The Republicans have telegraphed to all their county committees to beware of the frauds of 1885. And when the Republicans were claiming the legislature by only one or two majority on joint ballot, the Democrats telegraphed their county committees to beware of all sorts of frauds and to remember that it was a majority of one by which the great "crime of 1877" was committed that defeated Tilden. The state headquarters will be kept open all week, or until the official counts are made in all of the eighty-eight counties of the state. It is expected that there will be trouble in some of the close counties. There will no doubt be much agitation in all of them.

## Hamilton County Vote.

The total vote in Hamilton county was 31,176. Of this 66,504 votes were in Cincinnati and 14,742 in the county exclusive of Cincinnati. The only candidate elected on the straight Republican ticket was county infirmity director, for whom only the county outside of Cincinnati has the right to vote. The average majorities of the fusion senators was 1,673; for the ten fusion representatives the average was 2,223. The highest majority on the fusion ticket for county officers was that for board of control, 5,996; the next highest was for prosecuting attorney, 5,220. Four of the seven county officers elected on the Democratic fusion ticket are independent Republicans and one senator and four representatives are also independent Republicans.

## McLean Hints at Fraud.

Cincinnati, Nov. 3.—The Enquirer (Dem.) does not concede the election of either Bushnell or the Republican legislature. It charges manipulation of the returns by the Republicans for the purpose of assisting in what it calls "dirty work" in close counties. Its claim for the legislature being Democratic is based on the election of Democratic representatives in Lucas county (Toledo) and on the election of nine of the twelve in Cuyahoga. On the other hand, The Commercial-Tribune (Rep.) claims Bushnell's election by 20,000, and that the legislature is Republican. Neither paper publishes specifications of what counties are claimed for the legislature.

Those who so vigorously applauded the verdict of the jury in the Richards' murder trial when it was announced by Foreman Robert Campbell, last Friday morning, will probably not soon forget the plain old fashioned talk by Judge Kinne for the extreme inopportune of their ill-advised efforts. He combed them down in great shape and further assured them that if he knew who had done it, he would send them to prison for contempt of court. They will probably think twice before they again applaud in a court of justice.

New York, October 16, 1897.

To the Mayor and Common Council:

At the first National Convention of Mayors and Councilmen, held at Columbus, Ohio, September 28 to October 1, there were present 418 delegates, representing 101 cities in 23 different states. At this convention a permanent organization was formed to be known as the League of American Municipalities, and a copy of the constitution adopted is sent herewith. You will observe from the constitution that the object of the organization is to improve the administration of municipal work in all departments by the following means:

First—The perpetuation of the organization as an agency for the co-operation of American municipalities in the practical study of all questions pertaining to municipal administration.

Second—The holding of annual conventions for the discussion of contemporaneous municipal affairs.

Third—The establishment and maintenance of a central Bureau of Information for the collection, compilation and dissemination of statistics, reports and all kinds of information relative to municipal government.

The Bureau of Information, which will be started at once, will furnish a service of incalculable value to municipalities holding membership. To this Bureau each municipality will furnish all published public reports, and thus a complete and reliable library of municipal reports will be established, from which the secretary is required to furnish all information requested by members. The Bureau will also gather, compile and disseminate special information pertaining to all lines of municipal work, such as street lighting, paving, water supply and rates, water filtration, street cleaning and garbage disposal, fire and police departments, salaries and wages of municipal officials and employees, taxes and special assessments, municipal finance, sewerage, and, in fact, everything of interest and value to city officials in the discharge of their duties. In this connection the Bureau will undertake to promptly supply municipalities holding membership special reports on any and all subjects upon which information is requested. The establishment of this Bureau will bring to the service of the municipalities of America a reliable, economical, methodical and rapid medium for the interchange of statistics, experience and knowledge pertaining to all branches of municipal work.

At the annual conventions of the League, to which every city is entitled to send its mayor and as many members of its councilmanic board as it desires, all the important questions involved in municipal work will be discussed by experts and officials of experience. These discussions cannot fail to aid city officials in the work of giving and securing better municipal service.

The means furnished by this League, through its Bureau of Information and its annual conventions, for the careful study of the great and growing question of municipal ownership of public service industries, cannot be lightly estimated.

The unanimous sentiment of the Columbus convention, which was a representative body and which planned and formed the permanent organization, was that the League of American Municipalities would be promptly and cordially supported by the patriotic officials of American municipalities as a movement for the betterment of municipal conditions, with the inevitable results of facilitating departmental work, securing improved public services and lessening the burden of the taxpayers.

As to the membership the constitution of the League says:

"Any municipality in the United States or Canada may become a member of this organization."

"Each and every municipality becoming a member of this organization shall pay an annual membership fee, on or before December 1, as follows: Cities under 25,000 population, \$20; between 25,000 and 50,000, \$30; between 50,000 and 100,000, \$40; between 100,000 and 200,000, \$50; over 200,000, \$60."

The Executive Committee invites your city to become a member of the League of American Municipalities and assures you that the benefits to be derived from membership will be worth many times the amount of the annual dues. The committee submits herewith a resolution for the consideration of your councilmanic body and prays for its adoption, or the passage of any other form, suitable to local conditions, for the same purpose.

Respectfully yours,  
JOHN MACVICAR, Mayor,  
Des Moines, Ia.,  
C. A. COLLIER, Mayor, Atlanta, Ga.,  
SAMUEL L. BLACK, Mayor,  
Columbus, O.,  
JOHN WARNER, Mayor, Peoria, Ill.,

Trenton, N. J.,  
C. M. LEITCH, Pres. Council,  
Wilmingon, Del.,  
B. F. GILKISON, Secretary, New York  
Executive Committee.

Ald. Soule moved that the subject be referred to a Special Committee.  
Adopted.

Pres. Luick appointed Ald. Soule, Brown and Hamilton as such Special Committee.

## REPORTS OF STANDING COMMITTEES.

## ORDINANCE.

Chairman Cady presented an ordinance entitled "An Ordinance Relative to Livery, Feed and other Barns," which was given its third reading by sections and placed on its passage.

To the Honorable the Common Council: Gentlemen:—

Your ordinance committee has asked me for an opinion regarding the validity of an ordinance now before them entitled, "An Ordinance Relative to Livery, Feed and other Barns."

Under the charter the city has power to regulate and abate nuisances. If it can be shown that a livery stable, or any other building is maintained in such a manner so as to be injurious to the public health, the city through its board of health may order it cleaned, or they may file a bill in chancery to abate the nuisance as was done in the Foundry Water Pond case.

The weight of authority in this country holds that a livery stable is not a nuisance per se, or in itself, though it may become a nuisance if not conducted, kept and used in a proper manner. In the case of Phillips vs. the city of Denver, 41st American State Reports, at page 230, where its charter provisions relative to nuisances are broader than those contained in our own, the court says: "The power conferred is not sufficiently specific or definite to warrant such unrestrained municipal legislation affecting private property. The grant of power to regulate lawful occupations and business places is certainly not an express grant of power to locate or prescribe the limits of carrying on lawful occupations upon private premises. The grant of power to regulate and prevent the carrying on of business dangerous or detrimental to public health, and to declare, prevent, or abate nuisances, is not to be construed as vesting the city council with authority to prohibit, at their discretion, the existence of well-constructed, well-regulated, and well-conducted livery stables."

"Ordinances of the kind in question, though not strictly criminal, are highly penal, and cannot, unless free from legal and constitutional objection, be permitted to preclude the rights and privileges of the citizen in respect to the use and enjoyment of his private property."

The city certainly cannot enforce the ordinance now under consideration for the reason that it prohibits the erection and maintenance of livery stables in certain blocks and discriminates and for that reason is clearly void.

Very respectfully,  
THOS. D. KEARNEY,  
City Atty.

Whereupon the question was, "Shall this ordinance pass?"

Yeas—Ald. Grossman, Koch, Sweet, Soule—4.  
Nays—Ald. Moore, Hamilton, Dell, Brown, Vandawarker, Rhodes, Spatheff, Danforth, Cady, Pres. Luick—10.

Chairman Cady presented an ordinance entitled "An Ordinance Relative to Bicycles," which was given its first reading by title.

Ald. Moore moved that the ordinance be placed on its second reading.

Adopted.

Whereupon the ordinance was given its second reading by sections.

Ald. Koch moved to amend section one by inserting "six" in place of twelve in line three.

Lost as follows:

Yeas—Ald. Koch, Soule, Pres. Luick—3.  
Nays—Ald. Moore, Hamilton, Grossman, Dell, Sweet, Brown, Vandawarker, Rhodes, Spatheff, Danforth, Cady—11.

To the Common Council:

Your Committee on Lighting would recommend that an electric light be ordered placed at the corner of Hill and Lincoln ave. also at the corner of Tappan and Oakland ave. and also on Washtenaw ave. midway between South University ave. and Hill.

And further your Committee would recommend that the pole light at the corner of Willard and Forest ave. be swung across the street, and that the light at the corner of Main and Kings-land streets be moved two feet south, the work to be done at the expense of the New State Telephone Co.

## A Man of Action.

In a provincial town three men were in love with the same girl, the elderly widower foolishly, the impecunious younger son passionately, the curate mildly.

The elderly widower, who had four children, talked to her about the advantages of a comfortable income and maternal duties. The impecunious younger son raved about romantic marriages and the picturesque side of poverty. The curate ate buttered toast and lisped on indifferent subjects.

The girl listened to the elderly widower with a demure smile and a coy blush. She sat with clasped hands and a burning face, eagerly drinking in the impecunious younger son's flights of imagination. While the curate cooed she knitted red petticoats for paupers.

The elderly widower proposed. His tone was moderate, his language dignified. He bade her pause and reflect. The two most desirable things in the world was in his power to offer her—a Christian home and a ready made family.

She thanked him with tears in her eyes and took a week to think it over.

The impecunious younger son also proposed. He pleaded passionately, eloquently. Let her fly with him, he urged, to the uttermost ends of the earth, not a prosaic, inexpensive railway journey somewhere within reach, but a regular extravagant expedition to the antipodes, utterly beyond their means. He clasped her in his arms, and she sobbed upon his breast.

The curate married her.  
It was a quiet wedding.—Pick Me Up.

## Carving the Donkey.

A schoolboy was recently presented with a pocketknife, with which, boy-like, he cut and marked everything that came in his way, from the dining room table to the cat's tail. A few days after he had become the happy possessor of the knife his father was startled by seeing two men bringing home the young hopeful in a very dilapidated condition. The father, of course, was very much alarmed and inquired of the boy who had hit him.

"Nobody hit me," the boy answered between his sobs. "A donkey kicked me in the eye."

"Eh?" echoed the father. "Haven't I told you thousands of times that donkeys and powder are not fit things for boys to play with? What were you doing to the donkey?"

"I wasn't playin with him at all," said the boy. "I was only tryin to cut my name on his back."—Pearson's Weekly.

## A Vision of the Future.

Clarence King, formerly chief of the United States geological survey, says: "The time is not far distant when a man can start out of Denver and travel to Klondike, stopping every night at a mining camp. Already two American stamp mills are pounding away on the borders of the strait of Magellan, and the day is approaching when a chain of mining camps will extend from Cape Horn to St. Michael's. I believe we are about to enter upon a century which will open up vast resources and will be the grandest the earth has ever known. Before the end of the twentieth century the traveler will enter a sleeping car at Chicago bound via Bering strait for St. Petersburg, and the dream of Governor Gilpin will be realized."

Arrangements have been made by the oratorical board for a pronouncing contest to take place in University hall, Nov. 19. The opposing students will be under a captain chosen from the past-graduate members of their respective departments. An effort will be made to elect a number of co-eds as contestants.

The football game between the old graduates and the U. of M. eleven Saturday afternoon, demonstrated one fact at least, and that was that although somewhat rusty for lack of practice, the old boys were still in it and could hold their own on the gridiron as well as they ever did. The game ended in a victory for the "old grads" 15-0, but the U. of M. team learned something by the defeat, namely, to play swifter ball than they have done so far this year.

With the exception of a short residence in Detroit, Mrs. Hawkins had lived all her life in Ypsilanti.

The Times' Ypsilanti correspondent is authority for the statement that two Ann Arbor Romeos paid a surreptitious visit to two Normal school girl students in their rooms at between 1 and 2 o'clock Sunday morning. The means they took to effect an entrance was not by a rope ladder, however, but by the porch of the house. The noise they made awakened the owner of the house who turned out on deshabille with his revolver in hand and held the young man in that position until an officer who happened along very opportunely took charge of the Romeo and locked him up for a couple of hours, probably to cool off his ardor.

## The Use of the Great Toe.

The negroes of the West Indies use the great toe constantly in climbing. Several years ago, while spending some time at one of the famous resorts in Jamaica, I had an opportunity to observe the skill with which the black women, who do a great part of the menial labor, carried stone, mortar and other building materials on their heads to the top of a five story tower in a part of the hotel not then finished.

Much of the unerring accuracy with which they (women and girls) chased each other up and down the long ladders, with heavy loads skillfully poised on their woolly pates, was due to the firmness with which they grasped each rung of the ladders with the great toe. They did not place the ball or the hollow of the foot on the rung, but the groove at the juncture of the great toe with the body of the foot, and they held fast by making the back of the other toes afford the other gripping surface. In much the same way the Abyssinian native cavalry grasp the stirrup. And I have seen a one armed Santo Domingo black, astride the rear ox in a wheel yoke, guiding a lead mule with a rein held between his great and second toes, while his only arm was devoted to cracking his teamster's whip.—Overland Monthly.

## ATHENS THEATER ATTRACTIONS

This Evening and Tomorrow

The attraction at the Athens Theater tonight will be De Wolff's "Uncle Tom's Cabin" company. The original Miss Kate Partington, unquestionably the best "Topsy" known to the American stage, is with the De Wolff company. Two brass bands, white and colored, and a troupe of jubilee singers are special features. The transformation scene of 15 minutes duration comprises "Eva in Heaven!" commencing with "The Bower of Roses," "The Bower of Butterflies," "Recording Angel," "The Cobweb Grotto," "The Silver-Lined Cloud Drop," "The Bower Elysium."

Tomorrow afternoon a matinee performance of "Uncle Tom's Cabin" will be given, and in the evening a vaudeville performance will be put on. The manager of the Kalamazoo opera house in a telegram to Manager Lisemer says this company is one of the best attractions he has had this season.

The Prisoner of Zenda.

Daniel Frohman sends us the announcement from the Lyceum Theater, New York, that the company which is to appear at the Athens Theater, Tuesday, Nov. 23, to play, "The Prisoner of Zenda" is one which he has selected and rehearsed with great care, and that he desires us to assure theater-goers that they may expect an admirable performance of Anthony Hope's famous romantic drama, which Mr. Frohman regards as possessing the greatest love story of the 19th century. Like the "Two Orphans," it will doubtless go on for many years. The company is a very large one, and carries all the scenery for the five important acts.

"The Wrong Mr. Wright."

The appearance of that prime favorite Mr. Roland Reed, at the Athens Theater, is always a pleasant event in the theatrical year. Mr. Reed has grown steadily in popular favor, and today stands pre-eminent as a portrayal of legitimate eccentric comedy roles. Wednesday evening next he will begin his annual engagement at the Athens Theater, presenting for the first time a comedy from the pen of Mr. George H. Broadhurst, with the title of "The Wrong Mr. Wright." The play tells an interesting and highly amusing story and gives Mr. Reed splendid opportunities in a novel role. It is said to be the best character this popular actor has ever had. The scenes of the play are laid at Old Point Comfort. Mr. Reed has surrounded himself with an exceedingly clever company, which includes that charming actress, Miss Isadore Rush, who has been a delightful role that is really new to the stage. She will doubtless surprise her many admirers with her charming toilets.

## The City Electric Lights.

At the meeting of the common council Monday evening the committee on lighting paid its respects to the Ann Arbor Electric Co. on account of the poor quality of light which has been furnished the city for some months past, in the most vigorous language. A sample of its quality can be found in the following paragraph taken from the report: "During the last month pedestrians have been compelled to carry lanterns so that they might safely walk our streets, and strange to state these lanterns outshine the glory of the would-be 2,000 candle power arc lamps furnished by the proprietors of this firefly lighting plant."

## BLADDER TROUBLES.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.
