SCHAIRER & MILL

Ann Arbor's Greatest Bargain Store.

The Spaniards Have Surrendered to Gen. Shafter.

Will Be the Spanish Soldiers Surrendered.

Yellow Fever Has Appeared Among Our Troops .- Porto Rico Will Be the Next Point of Attack by Gen. Miles.

Santiago has fallen. Gen. Toral has surrandered not only Santiago but 5,000 square miles of Cuban territory on the understanding that the Spanish soldiery surrendered shall be sent to Spain. The surrender took place yesterday afternoon just before the final time set for the bombardment. While the number of Spaniards surrendered has not yet been given, it is believed to be not far from

The siege of Santiago had lasted two weeks and was remarkable in many respects and in none more than the heavy percentage of loss through death and sickness of soliders and sailors engaged on both sides. Looking back over the record of these two weeks it is seen that a great ironclad squadron has been destroyed, that nearly 1,000 Spanish sailors have been drowned or killed by shell and flame, and that an untold number of Spanish soldiers have died in the trenches of Santiago.

On the other hand about 250 American soldiers have been killed, and, in round numbers, 2,000 more have been sent to the hospitals from wounds, fevers and other ailments. Our fleet had a remarkable exemption from disaster in the many engagements it has had with the forts at the entrance of the harbor and with the Spanish squadron.

'Next is Porto Rico," said Secretary Alger, after receiving news of Santi-"And then, ago's formal surrender. if need be, Havana."

Gen. Miles wires: A portion of the army has been infected with yellow fever and efforts will be made to separate those who are infected and those who are free from it, and keep those who are on board ship separated from those on shore.

The Porto Rico expedition will be omposed in all probability from the en at Chickamauga.

A CHANGE OF VENUE

Granted.

granted in the case of Stockwell vs. lines of the highest science. Washtenaw County Judge, which pracrefusing a change of venue in the cas Doane et al. The case grew out of the cur soldiers at the front. fact that the plaintiff was once arrestand some money besides. After he was than mere mention. released. Stockwell claimed he was under the above title. He then applied for a change of venue on the ground the service. that the case had excited such publicity that he could not secure a fair trial, and the fact that the leading defendant were the sheriff and his chief deputy, into whose hands the drawing of the jury and summoning of talesmen was left, was also held out as a just ground for a change of venue. The case will now be tried in some contiguous cir-

to alight from the train at Dowagiac.

The case of Wadhams, Ryan & Reule vs. the Western Assurance Co. was reversed. The plaintiff's stock of goods caught fire last December. The flames were subdued and the greatest damage suffered was "smoke damage." They were insured in 11 companies. Ten of them settled. The Western Assurance Co. refused to. Case was brought and the jury returned a verdict of \$402. The Assurance Co. appealed. The case being reversed it will necessitate a new trial. There are no fears whatever but that the plaintiffs can again secure a verdict.

DR. VICTOR C. VAUGHAN

Has Been Made Division Surgeon by President McKinley.

Dr. Victor C. Vaughan, who is work ing with the boys in blue at Santiago, has received a merited promotion, President McKinley having sent in his name as division surgeon, with the RETURNED TO SPAIN rank of major, just before the adjournment. Some of our daily contemporaries in the state had it that the President had appointed him surgeon of the 33d Michigan. This was manifestly a mistake as Gov. Pingree had previously appointed him to that position. He has simply been promoted to a higher sphere. The Free Press has the following sketch of the well known talented and patriotic doctor:

Victor C. Vaughan was born in Randolph county, Mo., October 27,1851. As a boy he received instruction from a tutor, as was common in the south, until 16 years of age, when he entered the Central college of Fayette, Missouri, where he remained one year, going from that institution to Mt. Pleasant college, at Huntsville, Missouri, from which latter he graduated in

After finishing his course he accept ed a professorship in the college as a teacher of Latin, which position he held for two years. At the end of that time he entered the literary department of the University of Michigan, taking his master's degree in 1875, and the following year adding the title of Doctor of Philosophy.

In 1876 he entered the medical department of the University of Michi-

gan, graduatng therefrom in 1878. He immedately began the practice of his profession in Ann Arbor. In 1886 he was given charge of the department of physiological chemistry and the following year was made director of the hygienic laboratory and professor of hygine and physiological chemistry.

Dr. Vaughan's prominence in his profession is unquestioned and for important discoveries in the science of chemistry and medicine he has won for himself world-wide fame. It is his knowledge of hygiene that won for him In the Stockwell-Judson Case Was his recent military appointment with rank, in the United States army, it be-The supreme court handed down sev- ing the most apparent desire of the eral decisions last Tuesday of interest war department to conduct the Ameriin this county. University Hall Will Have a Dome as Well as Roof.

NEW LAW BUILDING

Is Now Assuming Large and Handsome Proportions.

Many Other Repairs on the Campus in the Mechanical and Chemical Laboratories, the Museum and at the Hospitals.

University hall is to have a new dome, where at all people with a sense of the artistic will rejoice even though the new dome may lack the massiveness of the old one, which added greatly to the appearance of the main building. The new dome will be 30 feet high and will be octagonal part way up. It will have somewhat the appearaance of the old one, though in the pen drawing of the plans it looks more "squatty. In front and over the main entrance is considerable filagree work. Secretary Wade says it is a place for the band to be stationed during the commencement. The new roof and dome which are to be constructed this summer will cost between \$8,000 and \$10,000.

Secretary Wade does not propose to take any vacation this summer, and this has grown to be a custom of his. He will have his hands full enough to keep him out of mischief, for there are a good many improvements to be made about the campus this summer.

The outside walls of the old law building are being torn down so that the new bricks may be put up to make the whole building uniform. The law building is assuming very great proportions and will almost overshadow the main building. There are a number of ceilings to be put up in this building that are not in the contract of the builders.

Some \$3,000 will be spent on the chemical laboratory, repairing rooms for various professors, putting in skylights, and adding a new roof.

The mechanical laboratory will also come in for \$2,000 worth of repairs.

The sum of \$1,000 will be devoted to repairs at the hospitals and a sun room will be added to the homeopathic hospital. This is a much needed addition and the benefits of it have been clearly demonstrated by the sun room of the university hospital.

Quite a little work will be done at the museum in the way of kalsomining, painting and repairing the floors.

in another column, will be completed and accept the chair of mechancal en-The woman's gymnasium, as noted this fall. The plumbing in the gym- gineering in the college. nasium will have to be torn out as the pipes are said to be full of lime, and of course new plumbing will take its

PROF. M. E. COOLEY

Has Been Promoted to Be Chief Engineer of the Yosemite.

Prof. Mortimer E. Cooley, who was appointed engineer of the Yosemite with the rank of passed assistant engineer, has been promoted to the grade of chief engineer in the same auxiliary

cruiser. This means an increase in his pay from \$2,000 to \$2,800. The Yosemite has been ordered to make one ofAdmiral Watson's squa dron to proceed to the coast of Spain. It has been off the coast of Porto Rico,

blockading the port

of San Juan, and is the ship manned by the Michigan Naval Reserves. It has been furnished with charts of all the ports of Spain, with charts of the Mediterran and with charts which would lead it all the way to Manila which may be the ultimate destination of the squadron, to protect these islands, when the war closes from any German aggressions.

Prof. Cooley is at home on the sea. He thoroughly understands the duties of his position and is one of the most popular professors in the university, as he was the first to enter the U.S. servie. He was born in Canandaigua, N. Y., March 28, 1855. The rudiments of his education were gained in a district school in the vicinity of his home. At 16 years of age he entered the Canandaigua academy, living during his college course in a room of astonishing smallness and doing his own cooking.

While considering the vague prospect of a college education he applied for a cadetsip in the naval academy at Annapolis in 1874. In a class of 27 his rank was seventh in order of general merit.. Graduating from the academy in 1878 he was ordered to the ship Quinnebaug and later to the Alliance, upon which two vessels he made the customary cadet's cruise around the world.

In 1880 Mr. Cooley was detached from the Alliance and placed on waiting orders. In 1881 he was ordered to duty in the bureau of steam engineering at the navy department again a few months later to be detached and sent to Ann Arbor under the law of 1875 by which certain officers in the navy are sent to certain educational institutions to give instruction in ma-

rine engineering and ship building. In 1882 he was commissioned assistant naval engineer to rank from 1880. He was ordered at that time to hold himself in readiness for sea service and when it was learned that the navy department intended to use his abilities at almost any time he was prevailed upon by the regents of the University of Michigan to resign his naval office

Prof. Cooley is a recognized authority on all subjects bearing upon steam machinery, and it is his special knowledge of the subject together with his previous naval experience that led to

Prof. Cooley is a member of the United States Naval Institute, a fellow of the American Association for the Advancement of Science, a member of the American Association of Mechanical Engineers and a member of the National Association of Stationary Engineers. He is a charter member of the Michigan Engineering Society, and a member of the American Society of Naval

THE SUMMER SCHOOL.

the War.

The attendance in the summer school is larger than ever before in spite of reduce its numbers. The attendance in The attendance in the law department is upward of 30.

The students are drawn from a wide expanse of territory. The literary students report to Secretary Mensel in the faculty room, the law students to Secretary Johnson in the old chapel, Cormick, of Northfield, and J. H. now fitted up for the summer as the Kingsley, of Manchester; prosecuting law library. Law lectures are given in Tappan hall. During the first week the several courses in rhetoric are being given under the direction of Miss Gertrude Buck, Ph. D., of Vassar College, Prof. Scott having gone to Washington, D. C., for that time. She is Rev. J. T. Sunderland has resigned at present beginning a course of lecthe pastorate of the Unitarian church tures on "New Methods in the Teachin this city, which he has held for the ing of English Grammar." A numlast 20 years. He goes to Oakland, ber of public lectures are promised in both departments. Prof. Thompson will speak on "The Judicial System of the Jews," Prof. Knowlton on "The preacher of national reputation and his Jewish Commonwealth," Judge Lane on "The Lawyer," Prof. Wilgus on "Magna Charta." Prof. Johnson will also probably lecture on "The Right of a Teacher in the Public Schools to Inflict Corporal Punishment."

Early Wheat Marketing.

The Kyer Milling Co. on Monday received the first new wheat of the season. N. J. Kyer, the president of the company, says that in his experience of many years, he has no recollection of farmers marketing new wheat so early in the month.

A Carpenter's Story

Sciatic Rheumatism Compelled Sarsaparilla Cures Rheumatism, Catarrh and Heart Trouble.

"I had an attack of sciatic rheumatism and took medicines for two months without permanent benefit. I then began at once. After I had used two bottles I the Occidental hotel. was able to resume my work, which is that of a carpenter. I took three bottles in all of Hood's Sarsaparilla and it entirely cured me of rheumatism and also of catarrh and heart trouble. A year afterward the rheumatism returned, but after taking two more bottles of Hood's Sarsaparilla I was entirely relieved, and I have never had the disease since that time. My wife is taking Hood's Sarsaparilla for catarrh and it is helping her.' GEO. P. MARKS, Tustin, Michigan.

story of Romeo and Juliet is re-peated every day in modern life, with the excep-tion that Juliet does not die by poison. She dies because of her own neglect or ignorance.

Neglectfulness causes much of woman's peculiar sickness. Neg-lect of the minor

lect of the minor troubles causes serious complications. The irregularities, the burning, dragging ache, the debilitating drains that mark the progress of feminine diseases, are passed lightly over or are borne in ignorance of their cause. Their continuance means death or insanity. This is all unnecessary. So-called female weakness can be cured. It can be cured quickly and permanently, and right in the privacy and permanently, and right in the privacy of the home without the humiliating local treatment so universally insisted upon by physicians. Dr. Pierce's Favorite Prescription does this and more. It acts directly on the delicate organs concerned and makes them strong and healthy. It banishes the usual discomforts of the expectant period and makes baby's coming easy and almost painless. It tones and strengthens the parties. nerves. At all medicine stores.

W. R. Malcolm, Esq., of Knobel, Clay Co., Ark., writes: "My wife for perhaps four months previous to the birth of our child took the 'Favorite Prescription.' This strengthened her entire system and child-birth, to her, was very easy, being attended with little pain. Our baby Ruth is thirteen months old and she has never been sick a day, not so much as had the colic; she is hearty and stout, and pretty as a picture—pretty because she is healthy, and we very much blame Dr. Pierce's family medicines for it.

We keep Dr. Pierce's Golden Medical Discovery, the 'Favorite Prescription' and 'Pleasant Pellets' in our home and use them. We have been married almost three years and I have called a physician into my family but one time—at birth of our baby."

Rosy cheeks. The rich, pure, red blood of health makes them. Keep the blood pure and yeu will have them. Constipation causes impure blood. Dr. Pierce's Pleasant Pellets cure it promptly and permanently and never gripe. They are purely vegetable and perfectly harmless. No other pill acts so naturally and perfectly. Denggists sell them. fectly. Druggists sell them.

Surely as a shipping point, Hamburg Junction has great advantages.

have been. Probably one cause was that people were resting and recuperating for their opening harvest work. resting him while making a bicycle trip But the same rest could have been had to Detroit, under the impression that in the pews, to say nothing of the mental and spiritual refreshment attendant thereon. Say, folks, go to church and far worse for those who profess sacred indolent repose. If a professor of divine grace ignores or goes back on his Christian vows, he is full of hyprocisy and a manner of unclaenness. When Sunday comes scour your neck and ears, put on a clean dickey and go to the sanctuary like a civilized human being. It will do you good, do the preacher good and at the same time set a proper example before the world.

Parents Were Alarmed.

"Our little boy was always troubled with sick headache, due to derange-ment of the stomach. He became very much worse and we were alarmed. We gave him Hood's Sarsaparilla and it acted like a charm. He has never had sick headache since taking the first bottle," MRS. ALBERT FROST, Pokagon, Michigan.

Hood's Pills are the only pills to take with Hood's Sarsaparilla. Be sure to get Hood's.

Quite Ridiculous.

Shopwalker-We are selling these goods, madam, at ridiculous prices-Customer-I should say so! I can buy them cheaper at half a dozen places. -Ally Sloper.

"I suffered for months from sore throat. Eclectric Oil cured me in twenty-four hours." M. S. Gist, Signature Hawesville, Ky.

Now for the Blue Ribbon Meeting. Michigan has already been affording

the light barness steppers opportunities for bread winning this season, but these earlier contests will be greatly eclipsed when the famous Grand Trotting Circuit opens at Detroit July 18 and continues until July 23. Never before in the history of the sulky has there been such an array of speed as is now bottled up awaiting the tap of the bell at the magnificent course so beautifully located near the banks of the River St. Claire.

The first three days of Blue Ribbon

week will be especially attractive as

the liberal reward of \$30,000 awaits

the sucessful in the nine events set down for that part of the program. Interest naturally centers in the exciting struggle for the Merchants and Manufacturers' Stake for which a field of 16 fleet young trotters will compete. This is set down for Tuesday in accordance with the time honored custom established since 1889 when the first race for this rich prize took place. Most of the horses engaged for the tenth of these noted contests have

shown great form this season, an example being furnished by Lurline Mc-Gregor who took a record of 2:1134 last Tuesday in Brooklyn, N. Y., to Miss week. The pacers in the Chamber of Commerce stake are even faster so that Lincoln. They will spend the summer heats below 2:10 are sure to result from this race.

One of the big sensations of the week is on Monday when seven of the fastest pistol ignited the fireworks in John sidewheelers in the world meet in the Bush's store window and rockets, pin 2:04 pace. There is Chehalis, the California wonder, that recently won a great victory at Denver, stepping one mile in 2:051/4, an unheard of feat for June. His neighbor, Anaconda, that mark the large number of broken arms forced him out there, will renew the conflict at Detroit, and besides the cracks from the Pacific Slope there are Frank Agan and Frank Bogash the redoubtable Indiana whirlwinds: Bumps, who carried everything before him last year and is faster than ever now; Rubensteln, the magnificent Ohio champion, one of the handsomest horses on the turf, and Giles Noyes, from Chicago, a hard nut to crack even in this select company. This great race has been arranged for the opening day so that those who take advantage of the one fare rate for the round trip on all the railroads and steamboat lines running to Detroit may get full value for their money. After seeing this brilliant commencement persons from a distance holding excursion tickets may remain until Wednesday and witness the exciting contests for the Merchants and Manufacturers', Chamber of Commerce and the other rich stakes. Every lover of clean sport in Michigan should take a week's vacation and celebrate the recent triumph of American manhood on land and sea, by witnessing the letter from Alaska, and, before they prowess of our peerless horses in the greatest of our National recreations.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill makes the statement, that she caught soon followed by the Indiana. There cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could their shells were wrongly placed. The cure her. Her druggist suggested Dr. ships could see nothing of their target, King's New Discovery for Consumption | a high ridge of hills cutting off all view was carried down with it, breaking his she bought a bottle and to her delight hip and crushing the thigh and one found herself benefited from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was .- Free trial bottles of this Great Discovery at Miss Ida M. Dixon, of Dexter, were married June 29. They will reside in Chicago.

Friendship for Friends.

The dogs of Constantinople are the scavengers of the city. For this reason, as well as from innate humanity, the Turks are tolerant of them, although visitors to the city find them unamiable. As a proof of their intelligence and recognition of friends, Maj. Johnson relates an experience of his own. "One evening I was walking with an English officer, when a dog came Grass Lake News: Last Sunday up and licked his hand. He told me morning notwithstanding favorable to notice that she would follow us to weather, attendance at public worship the boundary of her district, as he had in our churches was not what should once petted her and she had never forgotten it. Exactly as he had said, she followed us a little way, and stopped short in the middle of the street. She wagged her tail and looked wistfully after us, but did not stir when we called her. A few nights afterward. returning alone to my hotel, I passed thereby draw a healthful line between the same spot, when I suddenly felt your own and pagan customs. It looks a cold nose put into my hand and a bad for publicans and sinners to stay tongue licking my palm. I looked down away from God's house, but it looks and saw the same dog. She had recognized me as having been with her things to stay at home on Sunday in friend, the officer, and, as before, she followed me to the boundary of her district."

New Rapid-Fire Gun.

In recent experiments with Vicker's six-inch, rapid-firing gun the accuracy was such that two of the projectiles in a round of ten discharges went through the same hole in a target. It is anticipated that picric acid will be adopted by the British authorities as an explosive for shells.

One of nature's remedies; cannot harm the weakest constitution; never fails to cure summer complaints of young and old. Dr. Fowler's Extract of wild Strawberry.

the The Kind You Have Always Bought

Toral Hoists a Flag of Truce Over Santiago.

WORD FROM GEN. SHAFTER

He Reports He Has Santiago Surrounded on the North Side.

Washington Officials Believe That General Toral Will Yield Unconditionally-Story of the Bombardment of the City by the Fleet-Boys of the First Illinois Regiment Anxious to Charge the Trenches-General Miles in Cuba.

Washington, July 12.-General Shafter wires the department that since o'clock a flag of truce has been flying over Santiago and that the Spanish commander is considering an unconditional surrender. Officials here think it likely that the city will surrender at once, but they have no official information to that effect beyond the brief dispatch mentioned.

Washington, July 12.-The following dispatch from General Shafter was received here at 9:30 a. m .:

"Playa del Este, via Hayti, July 12 .-Headquarters Fifth Army Corps.-Adjutant General, Washington: It has been very quiet. But little fighting. A flag of truce up since 2 o'clock, considering the proposition to surrender, now that I have town surrounded on the Lines were completed at 5 p m. by Géneral Ludlow right down to the bay. The line is rather thin, but will have it strengthened in the morning by General Henry, who has just arrived at headquarters. Only three or four casualties. No one killed so far as can learn. Expect to have two of the new batteries in position tomorrow. Great deal of suffering among the people who have gone out of Santiago. Am doing my best to relieve it, but am not SHAFTER." entirely successful.

SHELLED BY THE FLEET.

Big Battleships Open Up on Santiago de Cuba.

Playa del Este, July 12.-The navy did its first work here since the destruction of Admiral Cervera's squadron, when, acting in conjunction with the army, three warships shelled the city for an hour. It is said that this is the first naval bombardment of a city since the British fleet fired on Alexandria. Egypt, in 1882. The Brooklyn, Indiana, and Texas ranged themselves in the afternoon about half a mile apart along the Morro peninsula, east of Aguadores. The Indiana held the most western position, being about half a mile east of

that place. The vessels were about 800 yards off shore. The Brooklyn opened the firing with her port battery. She fired seven shots, when the Texas opened and was was an interval of two minutes between the shots, which had been agreed upon to give the ships opportunity to receive word from the army headquarters if inland. They fired over the ridge of hills at a range of 10,000 yards, north by west. There was no answer to the fire of the Americans, either from the Morro or the outlying batteries, though the ships were in easy range of the

eastern battery. Shortly after the bombardment began a heavy rain set in, accompanied by thunder, which crashed as loud as the shells from the Texas. In the intervals between the peals of thunder and the roar of the shells could be heard the shots of the artillery ashore, the land forces having begun their attack at the same time the ships opened fire. This is the first naval attack that has taken place in the rain. The firing ceased shortly after 6 o'clock, on receipt of a report from General Shafter that the missiles were landing too close to his lines. It is expected that the bombardment will be resumed.

ANXIOUS TO FIGHT. First Illinois Boys Anxious to Charge into the Trenches.

Playa del Este, July 12.-General Shafter's position has been greatly strengthened by the arrival of reinforcements of Illinois volunteers. Colonel Turner's First Illinois regiment from Chicago and Colonel Jack Foster's Sixth Illinois now occupy positions between General Wheeler's and General Lawton's divisions, and before Santiago is taken the Illinois boys will see some severe fighting. The positions occupied by the First and Sixth is close to the front, and already desultory firing has taken place between the American sen-tries with Turner and Foster and the Spaniards in the trenches.

Colonel Turner's boys are anxious for active service, and are ready and willing to charge into the trenches. This order may be given, and the Chicago boys will have an opportunity to demonstrate their courage under a heavy fire, for the Spanish position in front of the First and Sixth Illinois is fortified with artillery and rapid-fire guns. Santiago is now completely surrounded by the American and Cuban forces, the last gap being filled by the Illinois and Ohio troops. The Spaniards now have no avenue of escape left and must surrender. General Shafter is decided not to take that city by assault, as it would cost too many lives. He will force the Spaniards to surrender by bombardment and starving them out.

"HEAD MONEY" FOR JACKIES. Men Who Destroyed Cervera's Fleet Will Get \$200,000.

Washington, July 12.-Something of \$200,000 will be paid by this government as "head money" to the brave officers and sailors who destroyed Cervera's fleet. This is according to the law which provides payment of \$100 a head for every man on the ships of an enemy when these ships are destroyed. There is an old adage in the navy about the distribution of money earned in this manner. According to the jack tars of the navy, the money is poured over a ladder, whereupon all that falls

MAY SURRENDER BILIOUS-NESS

bosses many a body and burdens many a mind. You can't enjoy the food you like because you are bilious. You take all sorts of precautions, and yet the bilious attack leaps on you like a tiger from ambush. You know the feeling! The blood seeming on fire with a dull heat; the boring pains in the eyes; the head seeming to open and shut; the horrible nausea. You know the irritability which precedes and the languor that follows the attack. It's miserable, isn't it? Why not cure the trouble? There's a pill that will cure biliousness. Dr. J.C. AYER'S PILLS are an acknowledged specific for this derangement.

A. Swanger, Texarkana, Tex., writes: "For fifteen years I have used Ayer's Pills, and find them very effective in bilious complaints. I have yet to see the case where they have failed to cure."

If You are Billous
DO NOT FAIL TO AYER'S PILLS

through goes to the officers and what remains on the rungs goes to the sail-Nevertheless, every man in Admiral Sampson's fleet will receive a purse, small or great.

Admiral Sampson will receive over \$10,000 as his share, and Commodore Schley will receive only about \$4,000 of the "head money." It is estimated that Captains Taylor, Evans, Phillips, Chadwick, Higginson, Clark and Cook will receive about \$2,500 each. After the other officers of the warships receive their share the remainder will be divided among the sailors who may receive something like \$20 each.

DESTITUTION IN PORTO RICO.

All Classes Praying for a Speedy Settle-ment of Hostilities.

Provincetown, Mass., July 12.-Captain McKenna of the British brig Ethel, who arrived here from Arceivo. Porto Rico, for orders, brings a story of great destitution at San Juan and other places and a deep interest among the inhabitants of the island in the progress of the war.

Capitain McKenna left Arceibo June 21. At that time reports from all parts of Porto Rico indicated a condition among the natives nearly bordering on starvation. At Arceibo flour was selling at \$1 a pound, salt fish 30 cents per pound and other provisions at a price so high that none but the wealthy could get them. Captain McKenna said that while he was at Arceibo he fed on an average fifty persons per day. Several American and British newspapers reached Captain McKenna while he lay at Arceibo and he says that the natives actually fought to get possession of them, so eager were they to learn of the progress of the war. All classes are praying for a speedy settlement of hostilities and the majority express sympathy with the United States, whose efforts, they believe, will result in bringing them relief from the irksome rule of Spain.

Tell Your Wife

to take Carter's Cascara Cordial for Indigestion, Dyspepsia and Habitual Constipation. It will cure her and tone up her entire system. I makes rich blood and gives a good appetite Price 25 cents. For sale by H. J.

A Wonderful Statement

From Mrs. J. S. McGillas, of 113 Kilburn Avenue, Rockford, Ill.

"I was dreadfully ill-the doctors said they could cure me, but failed to do so.

"I gave up in despair and took to my bed. I had dreadful pains in my heart, fainting spells, sparks before my eyes, and sometimes I would get so blind I could not

see for several minutes. I could not stand very long without feeling sick and vomiting.

I also had female weakness, inflammation of ovaries, painful menstruation, displacement of the womb, itching of the external parts, and ulceration of the womb. I have had all these

complaints. "The pains I had to stand were something dreadful. My husband told me to try a bottle of Lydia E. Pinkham's medicine, which I did, and after taking it for a while, was cured."

JUDGE FOR YOURSELF.

Which is Better, Try an Experiment, or Profit by an Ann Arbor Citizen's Experiment?

Something new is an experiment
Must be proven to be as represented.
Be successful at home or you doubt it.
The statement of a manufacturer is
not convincing
Proof of merit
But the endorsement of friends is.
Now, supposing you had a bad back,
A lame, weak or aching one
Would you experiment on it?
You will read of many so-called cures.
But they come from far away places.
It's different when the endorement
comes from home.
Easy to prove that it is so.
Home endorsement is the proof that
backs every box of Doan's Kidney
Pills.
Read this case.
Mrs. O. Warner, of Geddes Ave

Mrs. O. Warner, of Geddes Ave., ays: "My kidneys troubled me for ears. In the summer of 1897, I was very bad and all the medicine I took did not do me the least good. I had severe pains through my loins and kidneys, could not straighten up, and my friends often remarked about my going around in a stooped position. I could not rest comfortably and felt tired and worn out all the time. My head ached a great deal and I had frequent attacks of dizziness. The kidney secretions became badly affected and dispersive of the secretic secre fected and deposited large quantities of brickdust sediment, were highly colored and unnatural in appearance. Friends advised me to try Doan's Kidney Pills and gave me a few. These did me so much good that I got more Eberbach & Son's drug store. continued the treatment until the trouble was thoroughly removed and I now feel as bright and well as ever."

Shafter Hammers Away at Santiago de Cuba.

WASHINGTON IS NOTIFIED.

The Fleet to Co-Operate with General Shafter's Army in the Bombardment.

Washington, July 12.-A cablegram was received from General Shafter Monday morning between 3 and 4 o'clock. It announced that a joint bombardment would probably begin at daylight. It appears that the affair of Sunday was only a preliminary artillery skirmish.

General Corbin said that active operations at Santiago were to be resumed and are probably now going on. Everything was in perfect condition for the attack. It is understood that the navy will co-operate with the army.

Washington, July 12.—On leaving the naval war conference at 1 o'clock Secretary Long said that nothing had been received indicating that a decisive engagement was on at Santiago on the part of either the army or fleet. In answer to an inquiry the secretary said that he expected to get news of the fall of Santiago at any hour, but added, however, that his expectation was based largely upon his hopes. The indications are that all truces are off and that the final struggle may even now be on

Washington, July 12.-The war department Monday made public three dispatches from General Shafter received in the early hours of the morning and about 1 o'clock in the after-STATE OF OHIO. (CITY OF TOLEDO,) 88

FRANK J. CHENEY makes an oath | 1:30 a. m.: "Playa del Este.—The navy has promised after the bombardment ly conclusive they will make the attempt. As soon as Henry's reinforcements arrive we will surround the town and can knock it to pieces with our light guns. Captain Goodrich of the St. Louis assisted me very ably in disembarking troops.'

Twenty-three minutes later the following was received: "My plans for Monday are to keep up the bombardment of the trenches and city and complete the investment on the northwest by the troops which have just arrived at Siboney, one regiment of which, the First Illinois, has now reached me."

HOBSON AND MEN EXCHANGED.

Heroes of the Sinking of the Merrimac Again in Our Lines.

Antonio, Jamaica, July 8. [Copyrighted, 1898, by the Associated Press.]-Assistant Naval Constructor Richard P. Hobson of the flagship New York and the seven seamen who, with him, sailed the collier Merrimac into the channel of the harbor of Santiago de Cuba on June 3 last, and sunk her

LIEUTENANT RICHMOND P. HOBSON.

there, were surrendered by the Spanish military authorities in exchange for prisoners captured by the Am. can forces. Hobson and his men were escorted through the American lines by Captain Chadwick of the New York, who was awaiting them. Every step of their journey was marked by the wildest demonstrations on the part of the American soldiers, who threw aside all semblance of order, scrambled out of the intrenchments, knocked over tent guys and other camp paraphernalia in their eagerness to see the returning heroes, and sent up cheer after cheer for the men who had passed safely through the jaws of death to serve their country.

Courteous, but Very Formal. The meeting between Colonel Astor and Major Irles was extremely courteous, but very formal, and no attempt was made by either of them to discuss any thing but the matter in hand. Major Irles was given his choice of three Spanish lieutenants in ex-change for Hobson and was also inselected Lieutenant Aries, and the other two Spanish officers were conducted back to Jaragua. It was then not later than 4 o'clock, and just as everything was finished and the two parties were separating, Irles turned and said courteously enough, but in a Washington, July 12.—Major General tone which indicated considerable de-Miles has arrived off Santiago and will fiance and gave his hearers the imbe renewed at once: "Our understand-

UNCONDITIONAL SURRENDER.

The President's Ultimatum Regarding the Offer of General Linares.

Washington, July 12.- The offer of the Spanards at Santiago to evacuate the town and retreat across the island has been declined. The purpose of General Linares was to cross over northward to Holguin, sixty miles distant. Once there, it might be possible for him to make his way to Havana, although the route would be beset with innumerable difficulties. This could not be conLa Grippe,

R. C. C. SHULTS, of Winterset, Iowa inventor and manufacturer of Shults' Safety Whiffletree Coupling, writes of Dr. Miles' Heart Cure. "Two years ago an attack of LaGrippe left me with a weak heart. I had run down in flesh to mere skin and bone. I could not sleep lying down for smothering spells; frequent sharp darting pains and palpitation caused a constant fear of sudden death, nothing could induce me to remain away from home over My local physician prescribed Dr. Miles' Heart Cure and in a few days I was able to sleep well and the pains gradually lessened, and finally ceased. I reduced th the doses, having gained fifteen pounds, and am now feeling better in every way than ! have for years." Dr.

Miles'

templat mi by the president and his war cabinet, nor would we permit General Linares to remove his army to Spain as had been suggested in some quarters, for the moral effect would be bad.

The president's ultimatum was expressed by an authoritative source as

"The only solution of the situation is the absolute and unconditional surrender of General Linares' army and that will take place if it requires the whole of the 225,000 men in the United States army to accomplish it.'

General Miles will reach the army before Santiago with the reinforcements within a day or two, and if the end is not reached there shortly afterwards, it will be for him to advise whether this vast army is to be called into play.

CAPTURE OF EL CANEY.

Gen. Lawton Calls Attention to the Difficulties Under Which It Was Done.

Port Antonio, Jamaica, July 8.—General Lawton in his report after the assault upon and capture of El Caney by his division during the first day's fighting, says: "It may not be out of place to call attention to this peculiar feature of the battle. It was fought against an enemy fortified and entrenched within a compact town of stone and concrete houses, some with walls several feet thick, and supported by a number of covered solid stone forts, and the enemy continued to re sist until nearly every man was killed or wounded with a seemingly desperate

Captain Carbaugh, adjutant general, says: "The action of the American troops at El Caney will always have a place in history as an illustration of a successful assault upon a fortified town by foot soldiers.'

MANILA SPANIARDS.

Live in Hope of Receiving Assistance

Hong Kong, July 9.—A dispatch from Manila says that Admiral Dewey will remain inactive until General Merritt arrives. The rebels are practically doing nothing, but the Spaniards are strengthening their position, destroying huts and woods and constructing intrenchments. The authorities have enacted a penalty of \$1,000 against any body who shall raise the prices of provisions. The Spaniards assert that, de spite the loss of the waterworks, there will be no famine during the rainy sea son. They are confident that an ample force from Cadiz will arrive soon and annihilate the Americans, and they still hope to conciliate the natives. In the meantime they declare that they will endure patiently whatever come and resist to the uttermost.

ST. PAUL SINKS A SHIP.

The Spaniards, However, Succeed in Sav ing the Cargo.

St. Thomas, July 12.-A pigeon dispatch dated San Turce, Porto Rico, on July 9 reads:

"The Spanish today succeeded in landing the last of a cargo consisting of six 8-inch guns, dynamite rifles and army supplies from the Antonio Lopez, wrecked at the entrance of San Juan harbor to escape capture. The Lopez is a total loss. It was perforated by St. Paul and Yosemite on Friday

"The Yosemite ventured to within three miles of Morro, and the Spanish trained a 10-inch rifle at the cruiser. They neglected to lock the breach, and the chief gunner was decapitated, four of his men killed and seven wounded San Juan is blockaded by four cruisers. but other ports are open. Disorders in the volunteer ranks continue. The ne-gro machedors have been disarmed They terrorized the interior. The Yosemite prevented the Hamburg steamship Galacia from entering San Juan on Saturday. A Frenchman, the Saint Simon, ran the blockade. Formal notice has been given to all captains if they once enter San Juan harbor they must stay there.

"Is marriage a failure?" one asked. "Yes," said the proprietor of the gents' furnishing store. All noted his positive asseveration. "Because," went on the proprietor of the gents' furnishing store, "when a man's single and wears holes in his hose he buys new ones, but when he's married his wife darns them for him." It seemed a selfish view to take of an important question.-New York Journal.

DOWN THE POTOMAC. An Ann Arbor Boy Describes a Visit

Washington, D. C., July 5, 1898.

Editor of the Argus: Presuming that it would be of interest to the readers of the Argus, I give you herewith an account of my trip down the grand HALF ENOUGH VOTES old Potomac on the steamer which plies between this city and Mt. Vernon on the right, and historic Marshall Hall almost directly opposite on the left bank of the river. Everyone knows that the former is the old home of General George Washington, and where all that remains of our first president lies in state in an iron casket incased in purest marble, just at the brow of the hill overlooking the water and sheltered 'neath wide spreading trees, with a winding path leading down to the river side, where the state of California caused to be erected a beautiful arbor for the benefit of all who desire to visit the place by water. The estate, now comprising about 800 acres, is in the hands of a society of ladies who charge 25 cents admission to the grounds for the purpose of keeping the place in repair. The homestead formerly comprised some 5,000 or more acres. The mansion and out-buildings are in splendid preservation and the grounds are well kept. An aged colored man, once the slave of John Washington, stands gauard at the tomb during the hours when visitors are allowed inside tor's point of view, a pattern for others with age he tells how he himself helped to lay the last body in that tomb 43 gown, were chased by the "bull dogs." years ago. Having Trouble in the Townships. Free Press: The Detroit, Ypsilanti livered one by one by the elevator. & Ann Arbor Eletric Railroad Co. is having considerable trouble just at ice collided with each other and fell present. Two weeks ago the people living along Michigan ave., in Springfall off the platform. He charges that wells township, raised a row because his physician, nursing and medicines they have to pay two fares through the township, and the township board took it up and is now threatenng to prosecute the company or take up its tracks in the township. Then it was discovered that the grading of the roadbed was from a foot to two feet higher than the level of the road. The Springwells board ordered the company to lower it 18 inches, or be prosecuted.

Now the Dearborn village council, the company for having graded 18 inches higher than the level of the road through its township.

Rapid-test soundings were required in some work on a railway line between Paris and Havre, where the cast iron viaduct of Bezous was replaced by an arch bridge alongside. The old foundations for six channel piers were removed to the bottom of the river. It was required that the river bed should be carefully leveled. After it had been dredged the bottom was explored by means of a horizontal bar of iron about twenty feet long, which was suspended at each end from a framework uniting two flatboats in catamaran fashion. This beam was lowered close to the bottom and the boats were gradually moved along in the direction transverse to the length of the bar. When the scraper encountered no irregularity the suspending chains hung vertically, but as soon as either end was deflected by contact with any obstruction an electric circuit was closed, which caused an alarm to be rung. The boat was stopped and the obstruction located by means of sounding poles. In this way small stones down to a diameter of four inches were easily located and the bed of the river was leveled to within that amount of irregularity. This method proved rapid and successful.—Savannah News.

When Charles Reade was at Ox ford he was not always, from a procthe ncilosure. In a voice quivering to be guided by. Cobden's Independence.

A story is being told in England of Cobden when he refused office from Lord Palmerston. "On arriving in London he went to Cambridge house, and finding the prime minister sitting Palmerston, before we come to business I ought to say that I consider your having made the proposal you have made, to a man who has been attacking you so steadily for so many years, a proof of great magnanimity; but don't you think that it would really be better that I should first change my principles and then go into your cabinet, than that I should first go into your cabinet and then change my principles?" Lord Palmerston struck his hand violently on the table and exclaimed, 'Mr. Cobden, what did you go into public life for?'

No Flattery Accepted.

De Mille-"If there is one thing I detest, it is flattery." Measley-"That's so! As I was saying to Sniggleton the other day: De Mille is generous to a fault, but he cannot stand flattery." De Mille-"By the bye, Meastaking the cue from the Springwells ley, I'll just draw you a check for that board, has decided to bring suit against little amount. No thanks, my dear fellow."-Truth.

Fly Speculations.

A Washington correspondent reports the findings of the government bureau of entomology in the matter of the house-fly. The fly is an enormously reproductive creature, and, if a fair chance is given to it, can supply any demand in a very short time. Practically all flies are bred in stables. The eggs do best in horse-droppings. They are easily killed by chloride of lime or kerosene, and as the new flies make for water as soon as hatched, a dish of poisoned water in a stable is effective in reducing their numbers. The way to keep a stable clear of flies is to spray all fresh manure with kerosene. The most hopeful token of the abatement of flies in cities, however, is to be found in the substitution of electricity for horses, but that is still so far off that there is every prospect that the fly question will still be actively discussed long after the Cuban question is settled.-Harper's

A Mighty Structure. The greatest structure ever raised by

the hand of man is the Great Pyramid of Cheops, founded 4,000 years ago, and measuring 746 feet square on the base and 449 feet high. It took twenty years: in construction; 100,000 men worked for three months, and being then relieved, were succeeded by an equally large corps. The massive stones were brought from Arabia, 700 miles away. The cost of the work is estimated at \$145,000,000.

Notice of Drain Letting.

Notice of Drain Letting.

Notice Is Hereby Given, That I.
Daniel W. Barry, County Drain Commissioner of the County of Washtenaw, State of Michigan, will, on the 28th day of July, A. D. 1898, at the lower end of drain, in the Township of Dexter, at nine o'clock in the forenoon of that day, proceed to receive bids for the cleaning out of a certain drain known and designated as "Doane and Ferris Drain," located and established in the said Township of Dexter, and described as follows to-wit: Commencing in Dexter No. 1 Drain in the se corner ne ½ of n w½ section 23, and running thence north and west along the line of said drain one hundred and sixtytwo (162) rods to a small lake on the e½ of sw¼ section 14.

Said job will be let by sections. The section at the outlet of the drain will be let first, and remaining sections in their order up stream, in accordance with the diagram now on file with the other papers pertaining to said drain, in the office of the County Drain Commissioner, to which reference may be had by all parties interested, and bids will be made and received accordingly. Contracts will be made with the lowest responsible bidder giving adequate security for the performance of the work, in a sum then and there to be fixed by me, reserving to myself the right to reject any and all bids. The date for the completion of such contract, and the terms of payment therefor, shall be announced at the time and place of letting.

Notice is further hereby given, that at the time and place of said letting, or at such other time and place thereafter to which I, the Drain Commissioner aforesaid, may adjourn the same, the assessments for benefits and the lands comprised within the "Doane and Ferris Drain Special Assessment District," will be subject to review for one day, from nine o'clock in the forenoon until five o'clock in the afternoon.

The following is a description of the several tracts or parcels of land constituting the

TOM PEPPER'S REFORMATION. Tom Pepper launched out on the rough of trade, With a nice little stock in a nice little store.

was paid.

And Tom had a chance as few men had before.

The days passed by and he did fairly well, But the trade didn't grow as he'd thought Each one that came he would generally sell, But the crowd didn't come as teey ought.

Bye and bye, Tom grew troubled and down-hearted got, His shelves were a playground for flies; He didn't feel better when a friend said he

ought
To "spruce up" and the "advertise."

"Advertising cost money-won't do any

He said, "All the folks know I'm here— They know I sell groceries—all kinds of food, And an ad will not help me, I fear."

At last by dint of much coaxing and talk,
(Even Tom's wife was surprised)
That week he arranged and cleaned up his
stock.

And the next, for a chance, advertised.

Each week his ad in the Argus was seen,
And the people came to the store.

Now Tom is brighter than he's ever been,
And his worst business troubles are o'er.

KILLED AND WOUNDED. Casualties Before Santiago During July

1, 2 and 3. Washington, July 12 .- Adjutant General Corbin received from General Shafter a revised and corrected report of the casualties before Santiago on July 1, 2 and 3. It slightly increases the number of killed and wounded as given in his first report, and is as fol-

Killed, 23 officers, 208 men; wounded, 80 officers, 1,203 men; missing, 81; to-tal, 1,595. General Shafter is of opinion that the number of missing will be reduced somewhat.

First Illinois Reaches Cuba.

Off Santiago, Cuba, July 12.—Colonel Henry L. Turner's First Illinois regi-ment, consisting of 1,350 Chicagoans, has landed on Cuban soil. With the First came 930 recruits for the regulars and several batteries of artillery. The men are all in excellent spirits, and declare that they are anxious to get to the scene of hostilities. An immense supply of provisions and ammunition was brought by the transports. The fleet consisted of the City of Macon, Gate City, Hudson, Comanche, Unionist and Specialist. It was convoyed by the gunboats Machias and Wilmington and the tug Leyden.

Sunday's Bombardment of Santiago.

Kingston, Jamaica, July 12.-[Copyright, 1898, by the Associated Press.]-The Brooklyn, Indiana, and Texas, under Commodore Schley, began the bom-bardment of the city of Santiago at 5:15 Sunday afternoon in obedience to a request from General Shafter, conveyed by a signal from the shore. The warships lined up from east to west, a quarter of a mle from shore, and fired over the limestone cliffs that come down to the sea and hide the city, five miles away. The bombardment was continued for one hour.

Three May Be Saved.

Washington, July 11.-Admiral Sampson has cabled the navy department that in his opinion three of the Spanish vessels may be saved. The Colon is certainly in good condition, he reports, and there are reasonable hopes of saving the Maria Teresa and the Vizcaya. This is the only news received from Sampson in a day or more, the cables apparently being interrupted or in bad REPORTS OF STANDING COMMITTEES. working order.

General Miles Sails.

Charleston, July 11.-The transports Yale and Columbia, having on board the commanding general of the army, Nelson A. Miles, and staff and 1,700 men, intended as reinforcements for General Shafter before Santiago, got away at 2 o'clock in the afternoon. General Miles and staff are on the

Troops to Go to Honolulu.

> Respectfully submitted, F. M. Hamilton, Emmett Coon, Committee on Finance.

Adopted as follows: Yeas—Ald. Hamilton, Richards, Koch, Dieterle, Sweet, Exinger, Van-dawarker, Spathelf, Weeks, Coon, Nays-None.

To the Common Council:

Your Committee on Finance would Committee.

To the Honorable Common Council tric Co. for street lighting during the City of Ann Arbor:

The Honorable Common Council tric Co. for street lighting during the month of June at \$558.10, also the bill Resolved, and it is hereby ordered.

> tric Co. be directed in the future to turn on no lights when not provided for in the moonlight schedule unless ordered by the chairman of the Lighting Committee or in his absence by the City Clerk who is hereby instructed to consult the proper officials relative to the same and authorized to certify to

Respectfully submitted, Arthur Brown, F. M. Hamilton, Emmett Coon,

Committee on Finance. Adopted as follows: Yeas-Ald. Hamilton, Richards, Koch, Dieterle, Sweet, Exinger, Vandawarker, Spathelf, Weeks, Coon, Pres. Luick-11.

Nays-None.

ORDINANCE. The Ordinance Committee presented an ordinance entitled "An Ordinance to amend an ordinance entitled 'An Ordinance Relative to Sidewalks' passed March 6th, 1893; approved March 11th, 1893, as amended by an ordinance passed February 17th, 1896, approved February 18th, 1896," which was given its first reading by the fir

its first reading by title.

Ald. Hamilton moved that the ordinance be placed on its second reading. Adopted as follows:

Yeas-Ald. Hamilton, Richards, Koch, Dieterle, Sweet, Exinger, Vandawarker, Spathelf, Weeks, Coon, Pres. Luick—11. Nays-None.

Whereupon the ordinance was given its second reading by sections.

Ald. Hamilton moved that the ordi-

nance be referred back to the Ordinance Committee. Adopted.

STREETS.

To the Common Council: Your Committee on Streets would recommend that \$400 be appropriated for graveling N. Main st. and putting the street in shape for public travel between Catherine and Depot sts.; also that \$400 be appropriated to gravel N. Division st. between Huron st. and the 57 13 sinkhole near Detroit st., and for cov-754 05 ering that portion with Telford maca-

SIDEWALKS.

To the Common Council.

Your Committee on Sidewalks would recommend that the City Engineer pre-pare a profile of the grade of the side-walk on the west side of Seventh street between Huron and Liberty; on the east and west sides of Oswego street; on the west side of South State street between Williams and Jefferson.

And further, your committee would recommend that stone or cement sidewalks be ordered along the following streets and in front of the following property:
On the north side of East Williams in

front of D. K. E. Chapter House.
On the south side of East Washington from the east line of Fifth avenue

east, property of D. P. White and Mrs. Henderson. On the east side of South Ashley

street across the alley north of Liberty street. And that a plank sidewalk be ordered

on the east side of Second street be tween Jefferson and Madison. And your committee would further recommend that the grade of the side walk on the east side of Spring street between Summit street and Chubb and on the north side of Felch be-

tween Fountain and Miner be fixed and

established and submit resolutions fix-

ing such grades. Respectfully submitted
F. M. Hamilton,
H. C. Exinger,
Simon Dieterle, Geo. W. Weeks, Committee on Sidewalks.

Adopted as follows: Yeas-Ald. Hamilton, Richards, Koch, Dieterle, Sweet, Exinger, Van-dawarker, Spathelf, Weeks, Coon, Nays-None.

SIDEWALK GRADE RESOLUTION.

By Ald. Hamilton. Whereas, in the opinion of the Council the grade of the sidewalk on the east side of Spring street ought to be changed and fixed and established, the end that such street may be suitable for public travel. Therefore,

Resolved, and it is hereby ordered

that the grade of the sidewalk on and along the east side of Spring street from north line of Summit street to the south line of Chubb street be, and the same is hereby changed, fixed and established, so that the grade of said sidwalk on and along the street aforesaid shall be as follows, that is to say: At the northeast corner of Summit and At 107 ft north of center line of Summit

The elevation given being above the courses has been altered so that the official city datum and along the center line of such walk, and the grade lines to consist of straight lines between the several points or stations above stated.

Adopted as follows: Yeas -Ald. Hamilton, Richards, Koch, Dieterle, Sweet, Exinger, Vandawarker, Spathelf, Weeks, Coon, Pres. Luick-11. Nays-None.

By Ald. Hamilton.

Whereas, in the opinion of the Council the grade of the sidewalk on the north side of Felch street ought to be changed and fixed and established, to

Gentlemen,—We, the undersigned property owners of the block bounded by Main, William and Liberty sts. along the north side of Felch street the duties which will ultimately ren-from west line of Fountain street to der them suitable for higher gunnery or and Fourth ave. respectfully petition ed as presented and that the bill for the east line of Miner street be and the same is hereby changed, fixed and established, so that the grade of said And your Committee would further recommend that the Ann Arbor Elecsaid shall be as follows, that is to say: said shall be as follows, that is to say

At the northwest corner of Fountain The elevation given being above the Elixir, if it does not cure any cough,

Best Papers the Best Mediums.

There is much good solid sense for every advertiser in the following paragraph from a thoughtful eastern advertiser: The daily paper is by far the safest and most certain method of reaching the public. It should not be difficult for any intelligent man who has lived for any time in a community to know just what papers will serve him as advertising mediums. It isn't at all necessary to examine the books in the newspaper's counting room or to get their affidavits of circulation. A paper that you read yourself and that your neighbors read and respect and that you know to be widely read and respected, you can safely rely on as a satisfactory medium for reaching people of your own kind.

YOU HAVE GETTING RESULTS FROM The

Detroit Journal WE'RE GIVING

MORE CIRCULATION.

Did You Ever Notice?

The best business houses in Detroit use THE DETROIT JOURNAL largely—more largely every year.

Nearly every successful general advertiser uses THE DETROIT JOURNAL.

Some advertisers are not allowed in THE DETROIT JOURNAL.

Gun Practice in the British Navy, The naval authorities have had their attention specially directed to the desirability of improving the gunnery practice on board ships of war. The struction, and the duration of the men in the second class will have a shorter period of study. On the other hand, duly qualified captains of guns can be promoted to the rank of leading seamen, provided they have passed in seamanship and are otherwise considered suitable. There is to be an increase of pay to captains of turret and captains of turret guns, the terms "turret" and "barbette" being, for the purposes of the revised regulation, synonymous. New regulations have also been made affecting acting seamen gunners, and some new ratings have been created, the object being to encourage the younger seamen, at the early period of their course, to learn der them suitable for higher gunnery or torpedo ratings. Extra pay is to be given in addition to their gunnery or

Youthful Marriages in Algiers. A census was taken lately in Algeria and it was found that the youngest Arab married man was 12 years old, and that there were many boys who were married at 13 and 14, while some at 15 years of age had several wives. There is a youthful Algerian widower of 15, and divorced husband of the same age. Girls are still more precocious, and are sometimes married when only 11 years old, though 12 is the more usual age. There are 189 widows of 15 and 1,176 divorcees of the same age.

1898. Date.	Apr	May	May	May	June	June

Ann Arbor, July 1, 1898 To The Hon. Mayor and Members of the Common Council.

Gentlemen:-Your Board of Health respectfully submits its monthly report

There have been held four meetings at which all members of the Board were present; thirty-two inspections have been made and nearly all of such nuisances thus inspected have been abated.

The Zuern butcher shop on East Washington street has not as yet been connected with the sewer, which should be done at once. Please instruct the

Board of Public Works to that effect. Your Board also requests that you instruct the Board of Public Works to have all stores and business property in the down town district connected quired by Sec. 10 of the Ordinance

with the sewer so that we may keep this district in a better sanitary condition, which it is impossible to do now Respectfully,

Your Board of Health, ELI W. MOORE, President. H. B. DODSLEY, Inspector. ERNEST A. CLARK, Health Officer

Ald. Hamilton moved that the recemmendation of the Board be concurred

Adopted.

To the Hon. Common Council:

Gentlemen:-Pursuant to your reso lution passed at the special session held on the 24th day of June, 1898, I prepared a bond to be executed by the Detroit, Ypsilanti & Ann Arbor Railway and one surety, the contents of which hand, as it appeared before the which bond, as it appeared before the erasures and interlineations, may be seen by an examination of the annexed paper marked "Exhibit A."

The bond, as first prepared, was submitted to the company in Detroit on the 29th day of June and the officers of the company refused to furnish any surety for the same. I then adjusted the paper to meet the demands of the company and I herewith submit it, duly executed, with the statement, however, that in my opinion the city might be unable to realize upon the paper at the maturity thereof if the company should 290 25 attempt to avade it.

I also herewith submit certain correspondence between the company and myself which needs no explanation.

Respectfully submitted, O. E. BUTTERFIELD, City Attorney.

June 26, 1898. Mr. J. D. Hawks,

Pres. Detroit, Ypsilanti & Ann Arbor Railway, Detroit, Michigan. Dear Str:-Pursuant to your proposition made through the Mayor and myself on the 23d inst., the city has de-termined to pave from curb to curb and has directed me to secure your execution of a bond to reimburse the cost of the pavement between the rails in six and twelve months' time. They wish however that you would construct the Y at the corner of Ann street on the west side of Main rather than on

east side. I have prepared a bond which I shall submit for your signature on the 29th if agreeable to you. In the meantime please rush forward your materials for \$5336 61 the other portion of the improvement so that there may be no further cause for delay in the paving.

Very respectfully yours, O. E. BUTTERFIELD, City Attorney.

Detroit, Mich., June 29, 1898. Mr. O. E. Butterfield, City Attorney, Ann Arbor.

Dear Sir:-I have your letter of June 25th, together with proceedings of Common Council, June 24th. This resolution of the Council is agreeable to me, provided, it is definitely understood that the "Y" on the west side of Main street, is for the purpose of turning our cars, in taking care of excursion parties to and from Ann Arbor. We expect to haul two trailers, so that the "Y" must extend down the street far enough to turn three cars.

The switches and curves of the court house loop will be put in place so that the paving will not have to be torn up later to put them in. I have ordered the rails, ties and poles for the work on Main street, and hope we may be able to get them in time so as not to interfere with your paving operations. Yours truly,

J. D. HAWKS, President.

EXHIBIT A.

Know All Men by these Presents, that the Detroit, Ypsilanti & Ann Arbor Railway, a corporation duly organ-ized and existing under the laws of the professional duty to suffering humanity state of Michigan, as principal, and the Union Trust Company of the city of Detroit, Michigan, as surety, are held and this great chemist, patiently exand firmly bound unto the city of Ann perimenting for years, has produced Arbor, a municipal corporation duly results as beneficial to humanity as organized and existing under the laws of the state of Michigan in the sum of His assertion that lung troubles and four thousand dollars lawful money of consumption are curable in any climate the United States, to be paid to the is proven by "heartfelt letters of gratisaid City of Ann Arbor, for which pay-ment well and truly to be made, we pean laboratories in thousands from bind ourselves, our successors and assigns firmly by these presents.

Sealed with our seals and dated this

29th day of June, 1898. Whereas, the City of Ann Arbor aforesaid is about to construct a brick pavement upon that portion of Main street in said city lying between the north line of Catherine street and the south line of Williams street, and

Whereas it is claimed by the said City of Ann Arbor that the above bounden Detroit, Ypsilanti & Ann Arbor Railway is legally bound to pave that portion of said street lying between the rails of its tracks and tween the rails of its tracks, and

Whereas, differences have arisen be-tween the said City of Ann Arbor and the above bounden Detroit, Ypsilanti & Ann Arbor Railway, because said Railway desclaims any such legal obligation, a settlement of which in due course of law would tend seriously to delay the public improvement aforesaid. Now therefore, the condition of this obligation is such that if the above bounden Detroit, Ypsilanti & Ann Arbor Railway shall replace its present equipment upon that portion of Main street above mentioned with tubular iron poles, steel ties on concrete foundation and grooved girder rails, and use its best efforts to do the same, at such time and in such manner as not to delay the work of paving said street, and shall further pay to the said City of Ann Arbor the cost of so much of said pavement on Main street as lies between the rails of the said railway, including all spaces between double tracks and switches, at the rate per square yard paid by the city for the construction thereof in the first instance, according to the measurement failure or delay due to the fault of said Railway in respect of the replacement of said equipment as aforesaid, then this obligation to be void, otherwise to

remain in full force. The Detroit, Ypsilanti & Ann Arbor

> By J. D. HAWKS, Its President.

tage of his generous proposition. Please tell the Doctor that you saw this in the Ann Arbor Argus.

Tactics of Hunted Deer.

An Oxford county sportsman who is much interested in the habits of wild game reports seeing three deer chased by dogs in the deep snow. It was impossible for them to run fast, and they adopted tactics that were at once novel and practical. They were running single file. The first thing that attracted attention as unusual was the action of the leader, which stopped suddenly, jumped to one side and let the other two run by in the path he had made. Very soon the new leader jumped out and let his followers run ahead as long as the leader could stand it to make the path in the deep snow. This was kept up until they went out of sight, and the sportsman had learned something new.-Kennebec (Me.) Journal.

Mothers, Do You Know

that paregoric and many so-called soothing syrups and most remedies for children contain opium in some of its forms, and that opium and morphine of the City Engineer, one-half thereof to be paid in six months from this date then remember these are facts, and and the balance in twelve months from this date, and shall further pay all damages caused to the said city by any large results are facts, and avoid them as you value your child's life. Carter's Cascara Cordial is a purely vegetable article, carefully prepared, and will relieve your child of that sour stomach, which induces diarrhea, relieve constipation and bring natural and healthy sleep, such as nature intended. Get a bottle from your druggist and you will be delighted by the results. Price 25 and 50 cents. For sale by H. J. Brown.

CASTORIA The Kind You Have Always Bought Bears the Signature

TWO TOILERS.

Two men toiled side by side from sun to sun. And both were poor;
Both sat with children when the day was done About their door.

One saw the beautiful in crimson cloud And shining moon;
The other, with his head in sadness bowed,
Made night of noon.

One loved each tree and flower and singing

on mount or plain; No music in the soul of one was stirred By leaf or rain.

One saw the good in every fellow man, And hoped the best;
The other marveled at his master's plan, And doubt confessed.

Was satisfied; The other, discontented, lived in woe, r, discontented, ... And hopeless died. —Boston Transcript.

A VANITY BOOK.

Personal Record Keeping Whose Interest Excuses Its Vanity.

In the beginning one's parents must be the authors, or if the parents will not then some devoted aunt may win for herself the warmest thanks in years to come. When Heart's Delight came to earth some 15 years ago, a substantial volume was bought to be her book. Into this went first the genealogy of the family on father's and mother's sides as far as there was knowledge of it. Photographs of great-great-grandparents, grandparents and parents were inserted. The wedding dress of the paternal grandmother was shown by a small piece, and the maternal side was rich with bits of the wedding dresses of mother, grandmother and great-grandmother. Photographs of father and mother at the time of their marriage and when Heart's Delight was born were also added. To these were added one of the house and the room which the little maid made blessed by her coming. The announcement card went in and letters written for her welcome. Mamma wrote a description of the wonder, and papa took her photograph.

All this was for the beginning, but as months went on there was more to chronicle. Baby's ways, the coming of her first tooth, her first word and when sums Over Which Egyptian Children Puzit was spoken, when she began to creep and then to walk-all these were recorded. Into the book went, too, such treasures as the first sock, the first little shoe, a piece of her first colored dress. Everything of whatever kind that marked a beginning found a permanent place in the Vanity Book, and the story of the child's life may be read therein.

As the child developed the character of the items naturally changed. When she went to school, her early efforts supplied more material, sometimes in the shape of school work and sometimes as stories of childish temptations or griefs and joys. Heart's Delight's first letter is entered in the book.

There are so many tokens here that grow older. The first invitation to a nevertheless. party, the first theater programme, and child. Her first party dress, of course, divided among ten persons in such a was shown in the book. Throughout the book are photographs of Heart's Delight herself as she grew toward girlhood and of the girls and boys who given is: There are seven men, each were her friends.

Long ago the bookmaking fell into the hands of the girl herself, and she adds to it all that points to the story she is making. Everything of pleasure, of special benefit in her life, is to be recalled from this book, and even now she prizes it above all her possessions. What will it be to her when she is 50? daughter when some one writes "Finis" to it for her? What would you not give for such a book left you by your mother or father? It would be worth more than

There is a great deal of pleasure to be found in making such a book for oneself, though if one begins it after childhood he loses much that went into the little one's book. It will become filled, however, with the important things of life, each making these for himself. A vanity book is one of the best things in the world to show how one's ideas of values change and how life's horizon expands. It records a life with some of those which preceded it and gave it its bent and those which accompanied and de veloped it. Though it may be vanity, it is yet a vanity with a lesson. - New York Sun.

The Apple Dumpling.

Apple dumpling day was a red letter one in my boy's calendar. When I had such a dainty bit in my bag, it seldom staid there many minutes. Although I had dispatched a hearty breakfast before starting, out would come the dumpling. Just to have a look at it and to see if it is as big as mother generally makes them," I would say to myself. Then I would turn it about and admire its size. From handling the dainty to tasting it was a sure process. "I'll have one little bite, only a nibble," I would say.

When I had got my tooth into that dumpling, Adam with his apple wasn't one. Then I would hurry on to make Pills. "One cent a dose." At all druggists. up for my dawdling with only the hunk of barley bread in my wallet, the joys of the dumpling behind me, and before me the day's drudgery, with perhaps a thrashing thrown, in. - "Life of Joseph Arch."

Chilly. "Poor papa!" said Ethel. "He has a

dreadful cold." "Must have caught it while sitting by himself," said Chollie, who knew

when he tried.—London Tit-Bits.

The siege of Troy was mostly a myth. According to Homer's own figures, if there ever was such a man as Homer, Helen must have been at least 60 years of age when she first met Paris, and even in the heroic period of the world women of that age were a trifle passe.

SHOE HIEROGLYPHICS.

Occult Symbols That Have Been Devised to Deceive Womankind.

"People often ask me the meaning of the apparently crazy hieroglyphs and figures that are stamped on the inner side of the uppers of ready made shoes nowadays," said an F street shoe dealer. "As every shoe manufactory has a secret stamp code of its own and there is, therefore, no possibility of the general public learning more than that such codes exist, I may as well tell you that the vanity of modern mortals, and especially women, is at the bottom of these peculiar stamped characters and figures. You'd be surprised to know, for instance, how many women there are who imagine that they wear a No. 3 shoe when in reality their size is a couple of figures larger. A shoe salesman who understands his business can tell precisely the number of the shoe a woman customer wears at a glance. But as often as not a woman whose foot is a No. 5 calls for a shoe a couple of sizes smaller, and the mysterious stamped hieroglyph scheme was devised for the purpose of encouraging her in the belief that her foot is a couple of sizes smaller

than it really measures in shoe leather. "When a woman calls for a No. 3 to fit a No. 5 foot, no shoe salesman of this era who cares anything for his job is going to say, 'Madam, your foot requires a No. 5.' He simply breaks out a shoe of the style she requests that he feels confident will fit her comfortably and lets it go at that.

"A woman rarely thinks to inquire if the shoe is really of the size she asked for, for she takes it for granted that the salesman has given her what she demanded. But when a woman does ask, for instance, 'This is a No. 3, is it?' it's the salesman's business to unblushingly reply, 'Yes'm, it's a No. 3.' The woman customer might examine the hieroglyphs inside the uppers for a week without finding out any different, and even if she had the key to the puzzle it would only make her feel bad; so what would be the use?"- Washington Star.

ARITHMETIC 1700 B. C. zled Their Brains.

Probably the oldest copy book for home lessons in arithmetic was recently unearthed in Egypt. The papyrus, which was found in excellent condition, dates from the period about 1700 B. C.—that is, about 100 years before the time of Moses, or almost 3,600 years ago. It proves that the Egyptians had a thorough knowledge of elementary mathematics almost to the extent of our own. The papyrus has a long heading, "Direction how to attain the knowledge of all dark things," etc. Numerous examples show that their principal operations with entire units and fractions were made by means of addition and multiplication. Subtractions and divisions were not known in their present are treasures, more valuable as they form, but correct results were obtained

Equations are also found in the papywith this are other programmes of rus. Among the examples given is this those things which have impressed the one: Ten measures of barley are to be manner that each subsequent person receives one-eighth of a measure less than the one before him. Another example one has seven cats, each cat has eaten seven mice, each mouse has eaten seven grains of barley. Each grain of barley would, if cultivated, have yielded seven measures of barley. How much barley has been lost in that way? The papyrus also contains calculations of area, the calculation of the area of a circle and its transformation into a square, and What will it be worth to her son or finally calculations of the cubic measurements of pyramids.-Philadelphia

Children Cry for Pitcher's Castoria.

Shaking Hands.

Men shake hands with strangers of Residence and Office, 48 Fourth Ave., North their own sex with far greater readiness than do women. Two men, on being presented to one another, will frequently extend the hand in a grasp of greeting, which gives opportunity to form a general idea of each other's make up, and know whether they are attracted or repulsed. Occasionally there is a man with sufficient good nature and courage to refuse another man's hand without causing offense. There are men who have been so impressed with the dis coveries of bacteriology that they maintain handshaking to be the cause of dissemination of disease germs. The bare hand comes in contact with innumerable germs looking for pasturage on some vulnerable spot of our anatomy. A cut or abrasion on the hand leaves a door open for the admission of the enemy. Therefore it is with reason that men argue against promiscuous handshaking out of the home among the men met in business life. Science long ago frowned upon the practice of promiscuous kissing, which prevailed among women. Is the ungloved handshake also doomed? -New York Ledger.

Pawnbrokers' Balls.

The Lombards were the first great money lenders; and of the Lombards, the princely Medici family of Florence were the first to make the lending of money a regular business; hence, the loan offices came to adopt the arms of the Medici family on which were three gilt balls. By some the origin of these balls is traced to the exploit of Averardo de Medici, a commander under Charlemagne. The bold warrior slew how frigid the old gentleman could be the giant, Mugello, whose club had three iron balls, which the family adopted as their coat of arms. Be this as it may, three balls are commemorative of the Medici family, who were

The influence of Stephen A. Douglas. the democratic candidate for president against Lincoln, is thus shown: "Cairo, III., 20th.-The dispatch from Mr. Douglas to the Union men at St. Louis, has completely squelched the secession feeling in Egypt. In almost every town in Southern Illinois companies are organizing to fight for the Union."

Appeal to Pingree.

Butler Lamb, of Chicago, will be remembered here as the university student who was shot in the arm during a scuffle while the hair cutting hazing here last spring was at its heighth. He next turned up in the Michigan agricultural college as a book agent and student. The hair cutting mania struck that institution and Lamb was suspected of it. He writes: "On the evening of May 31, at 10 o'clock, I was seized by a mob of college students and carried to the bank of the Red Cedar river. From thenec they picked me clear off the ground, hurled me through space into the water below. My knee struck a rock in the bed of Rev. W. L. Tedrow's parents for the the stream, doing me great damage, past seven weeks. of Dexter. children, of Saginaw, are visiting with Michael Grossmann, of W. Liberty st. ARMY NOTES.

Sergeant Seabolt received a letter written on a cuff the other day.

Six bundles of papers were sent to Chickamauga for the Y. M. C. A. tent Tuesday. Co. A. now has to march eight miles

four days out of every five, the fifth day being spent in camp drilling. Company A received about \$3,500. July 3, as their pay from the time they entered the service up to July 1, at the

rate of \$15.60 a month for the privates. Brig.-Gen. Roe, the new commander of the brigade in which the Thirty. first Michigan is placed, inspected the regiment for the first time Monday. He praised the men highly.

Major Kirk's batathion, in which are the Ann Arbor and Ypsilanti companies, made a long march last Thursday and returned with only four members n the ambulance, an e Capt. Gutman, of the Monroe company, of the Thirty-first Michigan, died

Wednesday at Chattanooga, of typhoid fever. His wife, brother and family doctor were with him at the time of his death. The regiment is now paid up in full to July 1. When the troops leave the ing office, for they like fat, that United States they will be given a month's pay in advance, and their

wages will be doubled while in the

enemy's country. The paymaster will travel with the regiment. Target practice at Chickamauga Park has begun, and the batatlions are marched eight miles into the country to a rifle range for target pratice. They leave in light marching order, carrying a half of shelter tent, a rubber blanket, haversack, canteen, and gun. After the practice, they camp out in the shel-

ter tents for the night, and return early

next afternoon. The new Michigan Y. M. C. A. tent is proving a popular feature at Camp Thomas, and the report of its secretary, Mr. B. B. Johnson, of Ann Arbor, for the week ending July 1, is very gratifying. The report shows the number who have availed themselves of its privileges for the week to have been 3,125; that 3,800 sheets of paper and 2,175 envelopes were furnished gratis, and that 2,500 letters have been sent out and stamps to the amount of \$30.50 sold. Since the tent opened a gross of steel pens have been used in penning love messages to friends at home.

Funny rumors without any foundation run through camp. The latest is that the war department intends to make the Thirty-first suffer for the politics of its colonel, and that the regiment is to be ordered back to Mackinaw Mich. Another is that the regiment is to be left at Chickamauga Park for the same reason, until the end of the war. A still more presistent rumor is that Gen. Brooke has his eye on the Thirty-first, and intends to keep it at the park until he gets away. Then the regiment is to go with him wherever he goes.

Chivalry and Commercialism. The Colonel-Yes, sah. that feud, stanted, sah, ovah a gallon of cidahsweet cidah, at that-has cost the lives of twenty of Kaintucky's bravest sons, pathologist of the Michigan asylums, sah. The Yankee-Huh, that is nothing! We had a lawsuit over a calf in our neighborhood that cost over \$11,-000.-Indianapolis Journal.

Dr. Miles' Nerve Plasters 25c. at all druggists.

A YEAR OF 13 MONTHS

It Is Proposed on Jan, I. 1900, to so Divide the Year.

It is suggested that on Jan. 1st, 1900. months be instituted. If such a division be made the first 12 months would have 28 days, or four weeks each, and the new month 29 days, to make up 365 and 30 in leap years. After a few days there would be no need to refer to calendars, as the same day of the week would have the same date through the year. If Jan. 1st were say, Monday, every Monday would be the 1st, 8th, 15th and 22d; every Tuesday the 2d. Miss Emily Pitkin and Miss Lucille 9th, 16th and 23d and so on through Goddard returned Saturday from Petro- the year. The changes of the moon would be on about the same dates through the year, and many calculations, like interest, dates of maturing notes, Easter and many other important dates would be simplified. - Dowagiac Standard.

> Plan Your Summer Outing Now, Go to Picturesque Mackinas via the Coast Line.

> It only costs \$13.50 from Detroit. \$15.50 from Toledo, \$18 from Cleveland for the round trip, including meals and berths. One thousand miles of lake ride on new modern steel for illustrated pamphlet.

> Adress A. A. Schantz, G. P. A., Detroit, Mich. Kissing Under the Mistletoe.

The practice of kissing under the mistletoe is of very ancient origin, as it dates from the days of the Druids, when, no doubt, it had a religious meaning.

Children Cry for Pitcher's Castoria.

Weary Willie is tired and so are we, so we shall not have much of an ad. this week, which will please the boys in the printis, advertisements with big white open spaces that say nothing but cost just as much as solid reading

We have five large

GASOLINE STOVES

left, but our small ones are all sold out. These high four and five burner stoves we will close

\$7.95 and \$8.95

and educate you to run them and guarantee their successful use.
