Beside The Bars.

Grandmother's knitting has lost its charm; Unheeded it lies in her ample lap, While the sunset's crimson, soft and warm, Touches the frills of her snowy cap.

She is gazing on two beside the bars, Under the maple—who little care For the growing dusk, or the rising stars, Or the hint of frost in the autumn air.

One is a slender slip of a girl, And one a man in the pride of youth; The maiden pure as the purest pearl, The lover strong in his steadfast truth.

Sweet, my own, as rose of June," He says, full low, o'er the golden head, it would sound to her like a dear old tune Could grandmother hear the soft words

For it seemed but a little while ago Since under the maple, beside the bar She stood a girl, while the sunset's glow Melted away 'mid the evening stars,

And one, her lover, so bright and brave, Spake words as tender, in tones as low; They come to her now from beyond the grav The words of her darling so long ago.

'My own one, sweet as a rose in June!" Her eyes are dim and her hair is white, But her heart keeps time to the old love tune As she watches her daughter's child to-night.

A world between them, perhaps you say. Yes. One has read the story through;

But little you dream how fond a prayer Goes up to God, through His silver stars, From the aged woman gazing there. For the two who linger beside the bars.

HOW HE WON HER.

"You can never do it, Charley; it's im-

"Well, success to you! and if there is any way in which I can assist you I shall be happy to be your servant. But what is

your plan of operation-can't you dis-

These were the concluding remarks. The

conversation had lasted nearly an hour, be-tween Charley Giles and his best chum,

Mark Tapley. The particular in which Charley was so confident of success was the

act of marrying Fannie Beattie, the only

daughter of Squire Beattie, one of the great men of Lonsdale. I say one of the great men, because the Squire had a for-

midable rival in greatness in the person of

Ebenezer Dunn, the village merchant.

Dunn had been the Postmaster of Lonsdale

for the previous seven years. He had been elected to represent that quiet village in the General Court of the State at four con-

ecutive elections; and the worthy Lons

dalians would almost as soon have thought of seeing morning come without its accom-panying light as to see the Board of Select-

Ebenezer Dunn. In vain had Richard Beattie, Esq., talked to his would-be con-

stituents of the injustice of giving one man

all the offices, and advised them to select

some one who was able to represent them

fitly; they either could not or would not take his hints; so Dunn was re-elected,

and thanked his customers for their trade

and their votes at the same time; and

they, good, honest souls, remained content so long as taxes were not raised, there was

no serious drought and their crops sold well.

Dunn was a model of a Postmaster. The few months preceding each election he was very polite and attentive; professed to sell molasses and muslins a trifle cheaper than

their market value; often referred to the long time he had served his townsmen and the pleasant associations connected with

his experience as a public servant; hinted

at a treat, if elected, and always provided

it. These were the reasons why Dunn always was elected and Beattie never was.

Charley Giles was sharp-sighted—most poor fellows in love with belles and heir esses are. He knew that Squire Beattie

aspired to office, but was very unfortunate in obtaining it. He also knew just the rea-

sons why he never was elected, and that

was more than the Squire knew himself. Of this knowledge Charley meant to avail himself of and elect the Squire to any office

he should prefer, and thus gain his consent

to the longed-for marriage with his daugh-ter. To this end he took Mark Tapley in-to his confidence, and the two consulted to-gether and arranged their plans. They de-

cided, after ascertaining what position the Squire would prefer, to make him a favor-ite with the whole people, to allow Dunn to be nominated, as usual, and to defame

him at the very last moment. Then he would have no chance to defend himself; the people would drop him and take up the most popular man, which would be the Squire. Their motto was: "All's fair in large and relition."

The next morning Charley called upon the Squire, by whom he was received very

coolly, but that made no difference to the

table, and commenced to talk politics.

up, as he always did. At first the political

with the present incumbent; of the chances

to expend as they saw fit during the cam paign; that he should take a list of the

wants of all the poor of the town who might

call upon him, and send the applicant, with

his or her list, to them; that he was to remain away from all caucuses and rallying

meetings, and that in case he was elected

to such positions as he chose he was to con

sent to the marriage of Charley with his daughter. But if he was not elected, Charley was to relinquish all claims to Fannie's hand, and they were to refund the \$50

The next move of the young men was to

pay \$25 of their funds at the counter of Ebenczer Dunn, for which he was to de-

liver goods to whomever they ordered. Then they visited Quibs, the crippled bask-et-maker, Crazy Mag—whom everybody

said was crossed in love in early life-and

some dozen others of the town's unfortu-nates, and told them all when they wanted

any of the little delicacies of life to call on

Squire Beattie. Then they induced the

Squire to present a load of wood to the de-bating club, so that they could have a fire in the school-house without appropriating the wood belonging to the district. As a

compensation the club chose the Squire an

honorary member of its great body. This movement Beattie did not think much of, but the young men did; it caused people

to talk of him and that was all they wanted

Applications were soon made for the Squire's charity, and he patiently heard their tales of suffering, then sent them to

Save Your Money-Good Advice to Young Men.

The Earl of Derby, one of the forement statesmen of England, on a recent public occasion made the following remark: "You will sometimes hear people talkyoung people, especially—as if there was mething mean and poor about the habit of frugality, and as if squandering were the habit of a generous nature. If ever that fallacy is uttered in your hearing, just put your foot upon it and trample it out. There is a world of wisdom in this brief remark, of which all young men should take heed. Every young man who saves a part of his income, whatever the amount of his income may be, is more respected for so doing. It shows a habit of self-denial which strengthens his whole character and makes it more manly, bolder, and re elevated.

In spending what you do spend, and ought to spend, spend it freely and generously—not all for yourself. Never show a mean and miserly spirit, and the way not to show it is not to possess it. But, on the other hand, let no temptation to squander ever interfere with the habit and the rule
—which should be inflexible—to lay aside

The Jews in Europe.

The present position of the Jewish race altogether anomalous. The Jews are at once the most cosmopolitan race on earth; but they neither found a State of their own, nor do they become absorbed in the populations of the countries they live in. It seems difficult to believe that this contradiction can be a parmanent one. The scandalous oppression under which they long suffered forced them to be a caste apart. It was as futile for them to hope for a genuine national life of their own as it was to hope to share the national life of others. Their enfranchisement puts the alternative before them to do either the one or the other; and the one or the other they will in the natural course of things do. It is obvious that the race is in a state of transition; and all final or dogmatic judgments about it are as unreasonable as they are impertinent. But it needs no prophet to see that the sentiment of nationality which has attained in our days a force hitherto unknown in the world must inevitably turn the scale one way or the other. Either some sudden impulse, of which at present there are few signs, will lead the race to attempt the task, whether possible or impossible, of founding a Jewish State in the East, or else continued intercourse with the Christian world, the continued sharing of its public life and continued intermarriages between Jews and Christians, will gradually lead to the absorption of the people by the other nations of the earth. No one but themselves will venture to say which would be the better alternative; but the latter certainly appears the more likely. But it is probable that they will long hover between the two paths, too full of individuality to be easily absorbed, and with too little political cohesion for any great national enterprise to be feasible. And for countries like Germany, where they are very numerous, or like Roumania, where they live among a much less ener getic people, the results of this dubious position will not be without inconvenience, either to themselves or to those among whom they live. It is idle to complain of what is inevitable, and of what is very largely the result of Christian misdeeds in the past. - Saturday Review.

Copper Mining.

The first mass of copper found in the Lake Superior country was discovered in the rapids of the Ontonagon river in 1865, in removing it to the mouth of the river in grew fainter with hunger, until they were 1843, and was then taken to Washington, half-crazed. Exhausted, they rolled on the where it still remains. The mass was pure

copper and weighed about 3,000 pounds.

The largest mass of pure copper was taken from the Minnesota mine, in Ontonthemselves from dying in these agonies of agon county, the rough weight was 500 hunger, they drew lots and delivered up tons, and produced 446 tons of pure cop-per. The thickest part of this mass was diggers. This is what followed: fragment of mind to the pursuit of that fabulous animal—the coming man. Well, dear grandmammas (no, the grandmammas know us too well to sneer at us!), but bachelor uncles, spinsters and childless widowers, if we are the creatures you describe has not the mistaken training of currences both in the Cliff and Mispessor. currences, both in the Cliff and Minnesota | and two or three rebels hauled upon it unin their earlier workings. til the miserable Yankee was lifted from

The Phoenix has turned out a number of the ground and hung suspended by the large masses, the largest weighing over 200 thumbs, while his weight seemed tearing tons. The Central has also produced a his limbs from his shoulder blades. The large amount of mass copper, the largest of which weighed over 20 tons. A mass was found at the surface of this mine, partly mined by a primitive race, that weighed 53 tons. Masses of 80 to 100 tons have been found in the Copper Falls and National mines. Masses of from one to 50 tons have been found in all the mines that have been worked to any extent, except the Calumet and Hecla, the Schoolthat have been worked to any extent, except the Calumet and Hecla, the Schoolcraft and Osceola. The largest piece found in the Calumet and Hecla, weighed less than a ton. Mass copper is being found in the Minong mine on Isle Royale, The largest piece found so far weighed about three tons.

It is stated in regard to the mining done | with a gleeful wink : by the primitive races, that at only one point on Isle Royal the amount of labor performed by those ancient men far exceeds that of one of our oldest copper mines on the man to fool with. I'm old pizen, I am, when I git started. Jest hear 'em that has been constantly worked with a squeal will yer?' large force for over 20 years; or stated in 'Then walking these stone hammer marks upon the surto follow), abolish all misery by our insight face. The discovery of this old work was into the problems of life and, in short, renovate this old planet; and remember, knives, spears and fish hooks are frequently renovate this old planet; and remember, the schoolgirl of to-day is the woman of the world's to-morrow.

As for the girl who interviews her dress maker with such preseverance, and can only be supported by candy during the tedium of study, she will doubtless have tedium of study, she will doubtless have found at the Minnesota, at the bottom of a pit 18 feet in depth; the mass was ten feet long, three feet wide and two foot wide, and weighed 6 tons. On digging out the pit, which was filled to the top with earth and decomposed vegetable matter, the mass was found to rest on sticks of oak timber, and had been raised about five feet by the ancient miners. There was over ten cartloads of stone hammers at this

The Count De Lesseps came here as the

Monroe doctrine of American control over unparalleled in its savage vindictiveness, works of that nature, and Capt. James B. Eads followed this, showing the Congressional Committee that Do Lossops' schome was impracticable from engineering difficulties, and the enormous expense it would involve. He then read to the committee a paper in advocacy of his plan of a ship railway. He demonstrated that a substantial and durable ship railway can be built for half the cost of a canal with locks, and for one-fourth that of a canal at tide level; that such a ship railway can be built in one third or one-fourth of the time needed for the construction of a canal; that, when built, ships of the maximum tonnage can be moved with safety at four or five times greater speed than in a canal; that a greater number of vessels per day can be trans-ported by the railway than can possibly be transported by the canal; that the capacity of a ship railway can be easily increased to meet the demands of commerce; that the cost of maintenance of the roadway and olling stock would be much less than that of the canal, and that a railway can be constructed and operated in localities where it is not practicable to construct a canal. He explained his plan by means of drawings which showed a pit of 3,000 feet long, in which the railway should be made into the harbor to the depth of thirty feet; then showing the cradle into which the ship is to be fitted, and explaining how the ship is to be kept in place in the cradle by means of blocks six or ten feet apart; then showplan. But Capt. Eads seems to have the

The Mt. St. Gothard tunnel, between Switzerland and Italy, is the longest work of its kind in the world. The enterprise was commenced by M. Louis Fahre of Geneva in 1872. The length of the tunderly of the standard in length of nel is 91 miles, and has bored in less than natt, the river Reuss about at the Devil's Mark and Charley, who gave them orders on the store, and told them to call again. In a few weeks they made their second in the score and told them to call again. But when it dawned upon him that Grant was likely to receive the nomination for President ground, and pressed in their bowels by leaning against sticks of wood laid across from the Republican party, his grief and his surprise knew no bounds. "This thing," he sadly said, "must be stopped." He could not save his indignation until his hereditary foes had made their nomina-His great anxiety was to prevent his hereditary foes from making so terrible a mistake, which is kind in Tilden.

> was casting about him for a medium by which he could communicate his fears respecting the nomination of Gen. Grant for a third term, he received an invitation to dine in Boston with the State Committee of the regular, or anti-Butler Democracy. He did not go, but he wrote a very able letter, in which he confided his fears respecting the safety of the Republic to the regular Democracy of Massachusetts. The writer said that Washington was the originator of the unwritten by the safety of the purpose. ator of the unwritten law against a third term. We have seen this statement somewhere before. Then Mr. Tilden, rising to the importance of the occasion, added that the Father of his Country invented this unwritten law for fear that "indefinite re-eli gibility would degenerate into a practical life-tenure," which was putting the case very nicely indeed. But the great Cipherer has abiding faith in the people; and he added that "in the choice between the Republic and Empire, we must believe that the people will be true to their ancestry and to mankind. We regret to say that these noble sentiments were received with a blank apathy on the part of the assembled De-mocracy of Massachusetts. Whether they had had too much of Tilden, or too much fish-balls and hulled corn and milk does not appear. But they refused to be scared

> into applause.
>
> Mr. Tilden has so often, and for so many years, predicted that the country was going to the dogs, that it would seem almost cruel to disappoint him. Ten years have nearly passed, and the aged philosopher and politician has well-nigh despaired of seeing the Republic subverted for the Empire. They were lately taking steps in that direcfew friends attempted to substitute their private judgment for the popular will; and Mr. Tilden's wicked nephew did his best to hasten the overthrow of the Republic when he offered to buy the Electoral vote of Oregon, and bribe the Electors of South Carolina. Nevertheless the Republic is as far from being overturned as it ever was. But Mr. Tilden thinks that Grant's re-

The following article we clip from the Lansing Republican, supposed to be from the pen of Regent Duffield: For fear some of the friends of the University may be alarmed without cause, on account of recent unfavorable reports, it may be well for them to know the most of them to know the second of the seco

recent unfavorable reports, it may be well for them to know:

1. That the new homeopathic professor, Dr. Wilson, is a very valuable accession, and that the inauguration of the hospital will take place on the 12th inst.

2. That the new "chair of education" under Prof. Payne is already an assured success, and is recognized by those intending to teach, "as just what they need."

3. That some of the floor beams were rather too tight in the museum building, but Regent Shearer, who was there on Friday last, suggested some very simple methods of strengthening the beams, and the defects will soon be remedied.

emedied.

4. That the recent testimony of a very inelligent and impartial student, viz.: "that the
University is a splendid college, and that both
himself and his chum like it better and better
very day," seems to be at present the general
pinion,—no better instructors being found
hywhere than there are now in the Univerity.

sity.

5. That the next meeting of the Regents will take place Tuesday, March 23, at 10 A. M., and that it will be time enough to blame them after the meeting is over. They only ask for simple justice. The immense amount of work that they have done this last year is not a matter of record, and it has been equally difficult and mpartial.

The friends of the University anticipate very valuable assistance from the counsels of Messrs. Shearer and Grosyenor, the new mem-bers of the board just fresh from the people, and we believe they will not be disappointed.

TO THE PUBLIC.

We have this day sold our business and good-will to an incorporated company bearing our firm name, and pledged to maintain its high reputation. The stockholders of the new company are the members of our late firm, with the addition of others, who for many years have aided largely in buildng up the successful business of our house. M. S. SMITH & CO. February 1, 1880.

ANNOUNCEMENT.

In starting out under our new arrangenent, we have decided to institute some changes in the methods of our business.

We shall hereafter adhere strictly and under all circumstances to a one price system, believing that both the interest of buyer and seller will be best subserved thereby. We have accordingly placed the price of all our wares at the lowest possible point at which they can be sold, and have marked every article in plain figures. Only goods of fine quality will find a place in our colection, and, as heretofore, every article will be guaranteed as sold. Asking for the new combination the con-

tinued favor of the public, which we shall earnestly endeavor to merit, we are, respectfully, M. S. SMITH & CO.

Red Ribbon Locals.

The people of Mooreville were addressed by Mrs. Boise, of Grand Rapids, last Sabbath, on temperance.

An entertainment is to be given at the town line school house, between Augusta and York, March 25th, for the benefit of the

A social is to be given in Lodi town hall, Friday, March 26th, by J. H. Hicks, assisted by the members of Ann Arbor and Saline Reform Clubs. The Superior meeting last Sabbath was

addressed by Rev. C. T. Hoyt, of Whitmore Lake. A rousing speech and ten new signatures was the result. The meeting in the fifth ward last Sunday evening was addressed by a member of the

law class, Mr. Witmyer, who maintained his excellent reputation in that line. Next Sabbath the meeting at the opera and a reply made to the liquor dealers' circular recently published in the papers. D. F. Schairer, successor to C. H. Millen

Drs. Wilson and Allen, both of this city, have taken a firm stand upon the alcohol question, affirming that it is neither a food nor a medicine, and consequently not a necessity in medical practice.

A committee of thirty, consisting of fifteen ladies and the same number of gentlemen, has been appointed to solicit provisions for the guests' table to be set in the F. H. Isham, formerly of Salem, has opera house basement during anniversary

> The Reform Club meeting at the opera house, Sabbath afternoon last, was an excellent one. The Hamburg "boys" proving themselves entertaining talkers, They went to Delhi in the evening, and held a good meeting there also, making a lively day of it.

Mrs. Schuyler, the temperance lecturer of this city, accompanied by her husband and Mr. and Mrs. Wm. Burk, attended a temperance meeting at Hamburg last Tuesday night. Fifty-four signers were secured, as the result of Mrs. S.'s one hour

The officers of the club are assured by Chaplain McCabe, of Chicago, that he will, if possible, be present during the anniversary week, accompanied by Mr. and Mrs. Wilson, the great singers. There is every reason to believe that their coming is not only possible, but probable, and that another great attraction will be added to the already alluring array.

The Dundee reform club people have fitted up a pleasant room, which is occupied as a place for meeting Sunday afternoon. A variety of attractions constitute the entertainments, among which is the reading of books and papers, social conance, and are doing excellent work.

Opening of the Homeopathic Ampitheatre and Hospital.

According to announcement the new hoshomeopathic department of the University, 3 P. M.; and social from 3 to 6 P. M. Full was formally opened for business last Fri- orchestra in attendance. day evening. At an early hour the audience commenced gathering, and at 8 o'clock very neat and tasty one save the wretched and villainous seats-was crowded with people. After the band had discoursed several pieces of music the Dean of the homeopathic department, E. C. Franklin, M. D., stepped forward and introduced Rev. Wyllys Hall, who asked the blessing of God upon the new edifice, its future

work and workers. Dr. Franklin then delivered the address of welcome. He stated that through many trials and much patient waiting, the efforts of the homeopaths and their friends had been crowned with success. The little giant of homeopathy stood that night on equal terms upon the campus with its older neighbor across the way. He referred to the pioneer life of the profession, and of the rapid strides it had made in the hearts of the people in nearly all parts of the world, but gave the Americans credit for better appreciat ing its virtues than any other nation. The first recognition by the legislature was spoken of, and the difficulty experienced in btaining justice for their cause, until finally, in 1875, two professors were appointed, one of whom, Prof. S. A. Jones, had struggled through all difficulties and still held his position. To-day their efforts were crowned with a glorious result, for they were taking a perpetual lease of one of the largest ampitheaters in the western states, and one of the most complete hospi-University, who have 160 courses to select tals in the country, belonging to this parfrom. He made an eloquent appeal Wednesday evenings from 7 to 8, and Sat- for free beds in the hospital, showing conclusively how they could be made not only profitable to science but to the commonwealth at large in a pecuniary point of view. A lying in hospital for women was also needed. Catholic Europe in this respec displayed a noble example. What will Puritan America do? This portion of the speakers' remarks ought to be read by every citizen of the State. They were to the point, and touched upon a sadly neglected

subject. Business America has too long forgotten suffering humanity. Books nor teachers cannot give to the student experience, and to thoroughly prepare our future physicians, familiarity with disease must be had. A hospital is their only opportunity, and he appealed to every one present to send all cases possible to the clinics and

Dr. I. N. Eldridge, of Flint, then read a brief paper congratulating the people upon the triumph of right, and recounted the history of the department, its fights in the legislature and the state supreme court, the appealed to.

During the reading of Dr. Eldridge's paper a little flurry of excitement was caused by the fainting of a lady upon the lower tier of seats, the room being extremely warm, and the building illy ventil-

Dr. A. I. Sawyer, of Monroe, was next called upon, and said a few congratulatory words. During his remarks he related being driven from his quarters in Cleveland by a mob in the early days of homeopathy. Also spoke of a young student starting out for nimself in Medina, Ohio, who upon walking the streets in company with a young lady, was followed by the school children of the place and regaled with the duck like sounds of "quack! quack! quack!" and the lady he referred to was before him in the audience. But he lived down the bitter prejudice, and to-day Ohio has 500 meopathic physicians.

Prof. Wilson was next called upon and was particularly happy in his remarks, so much so that the villainous, straightbacked, cramped-up seats seemed endurable while he was speaking.

He also enlarged upon the idea of Prof. Jones, respecting the free treatment of persons now in county alms houses and being supported by the people. Mayor Smith was afterward called upon

by the audience, but did not responded. The exercises were interesting, and listened to attentively by those present. We understand a supper was held afterward for the guests from abroad.

J. W. Bradford. FARM FOR SALE.

Choice Property-Well Located-Very Cheap. One of those rare pieces of valuable property seldom offered at a saleable price; an opportunity that should not be overlooked by any one who wants such a farm. I have decided to sell, and now offer for sale, at a decided bargain, the south part of the "Old Thomas Homestead," in the Town of Pittsfield, Containing 187 Acres-All Plow Land-Suitable for General Farming.

Suitable for General Farming.

The Farm includes "The Wood Orchard," twenty-two acres, all "Red Baldwins," known throughout the State as one of the finest. It is young and quite healthy, and while in my possession has been thoroughly cultivated and trimmed, as a result of which it harvested last Fall nearly 3,000 barrels of apples, which sold for about \$5,000. With proper care you can safely depend on an equal result at least every other year.

The property lies within half a mile from Saline, an unusually good market for farm products.

Where will you equal this: A farm with no waste land, within a half-mile of a village, comparing favorably in its markets, schools and society with the neighboring cities, and an orchard, that alone, with reasonable care, will pay for the farm.

I will make very favorable terms, asking only one-third in cash, and will make balance payable in yearly payment of \$1,000, with seven per cent, and a privilege of paying at any time before due, I have decided to sell, and stratt sell within sixty days.

For further information, call on D. C. Anderson, Ann Arbor, or address me, D. HENNING, 975-978

88 South Water St., Chicago.

Boys on the Farm.

"Why dont you say a good word in the paper for the boys?" asked one of the neighbor boys as he came into the room where I What is the matter now, Guy?" I ask"Nothing in particular," he answer-

"Don't tell me! I know better! Boys don't wear such solemncholy faces for 'nothing in particular.' Come, out with "Well, then, it isn't any one thing in

particular, it is everything put together that makes me so mad. I want to get somebody to write a whole book about the way grown folks treat us boys. I tell you—and I want you to put it in the paper—that the boys have a hard time of it on the farm. We are hauled out of bed before sunrise to milk the cows, cut the wood and do forty other things that nobody else wants to forty other things that nobody else wants to do. I wouldn't mind the work if we ever got any thanks for what we do, or even had anything that we could call our own. No matter how much we do, or how well we do. it, grown folks are always finding fault. I wonder if they expect us to know how to do everything just right. I guess the men have forgotten that they were boys once.

Then the old folks never think that we boys like to have something of our own. There's father now, he is always complaining because the father now, he is always complaining because the decision of the Supreme Court confirming the Constitutionality of the election but the duty of Courtest to confirming the Constitutionality of the election between the duty of Courtest to confirming the Constitutionality of the election but the duty of Courtest to confirming the Constitutionality of the election but the duty of Courtest to confirming the Constitutionality of the election but the duty of Courtest to confirming the Constitutionality of the election of the supreme confirming the Constitutionality of the election of the supreme confirming the Constitutionality of the election of the supreme confirming the Constitutionality of the election of the supreme confirming the Constitutionality of the election of the supreme confirming the Constitution and the supreme confirming the confirmin cause I don't take an interest in the farm. How can I take an interest in the farm or anything about it? He never gave me an interest in anything of my own in my life except a pair of rabbits, and the first time

except a pair of rabbits, and the first time they got into the garden my rabbits had to go. Last year I wanted some chickens of my own, some pure blooded ones you know, but he wouldn't hear a word of it. Then I begged for a piece of ground where I might raise what I pleased. Do you suppose I got it? Not much! And now to top off with he wouldn't let me go now to top off with he wouldn't let me go so school this winter, says I've got learning enough for a farmer, as if I ever expected to be a farmer! I hate the old farm, and I'll not stay on it a day after I am of age! If father wanted to make a armer of me, he took a mighty queer way

Well, well, Guy! That will do for once. Please take these letters to the of-fice for me and I'll think over what you have said."

And I did think the matter over until I came to the conclusion that there was a good deal more truth than poetry in Guy's boyish outburst. Like his father, a good many men take a "mighty queer" way to make farmers of their boys. They show the boys only the hardest most barren side of property in the following the father was a good many men take a "mighty queer" way to make farmers of the report of the following the father was a good deal more truth than poetry in Guy's recorded in last report: boys only the hardest, most barren side of farm life, and then wonder why it is that their sons leave the farm the first chance

If you want your boys to "stick to the farm, stick the farm to the boys." Teach them to like the farming so well that they will have no desire to leave the old home until they leave for homes of their own. You can do this by making home attractive, by taking pains to show them the bright side of farm life, and by showing them that a man can be a former and a genthem that a man can be a farmer and a genter, \$100.

Provide your boys with good books, magazines, agricultural works and papers; and instead of sitting in the corner during the long winter evenings, and bewailing the failure of one crop, predicting the failure of another next season, and declaring that "farming don't pay, and a farmer's life is a slave's life," read with your boys, study with them, play chess, back-gammon, and checkers with them, and if you should happen to go coasting and skating with them pen to go coasting and skating with them once in a while, you would feel all the bet-

Give your boys an interest in the farm. fone is interested in chickens, let him take charge of the poultry; and if another shows a taste for gardening, give him a patch of ground and let him work it. Require them to keep thorough and systematic accounts of their work, and deal squarely with them. If at the end of the year the boys have done fairly well, do not withhold the praise they have honestly the Syrup will cure Pullmonary Consumption in the first and second stars. The Syrup will cure Pulmonary Consumption in the first and second stages, will give great relief and thing, don't be discouraged, and don't discourage them—point out their errors and let them try again. I might go on and write a whole sermon on this subject, my heart is full of "good words," for the boys; but I have said enough to open the eyes of men like Guy's father, and to show them their duty.

their duty. From the Detroit Post and Tribune. The Number of Days Bees Were Out in January and February, 1880.

As a record showing the extraordinary weather we have had during the past two months, I send an extract from my bee

January 4—Bees out to day—first time for nearly six weeks. So far the weather for the winter has been mild and cloudy. January 6—Bees flying a very little. January 7—Bees flying a very little.

January 11—Bees flying a very little.
January 17—Bees out five hours. January 18—Bees out two hours.

January 19—Bees out two hours.

On that day I supplied all my colonies with flour candy—that is I took common

white sugar and made it into candy and thickened with flour, making it as soft as it could be handled. The bees ate this candy

January 25-Bees out two hours. January 26—Bees out two hours. January 27—Bees out four hours. Number of days in January on which bees flew, 10. FEBRUARY.

February 12—Bees out four hours. February 16—Bees out six hours; examned two colonies and found brood (hatched

February 17-Bees out all day. February 22—Saw two bees out. February 24—Bees out half an hour.

-honey and water.
February 27—Bees out all day.
February 28—Bees out all day. Saw on this day first (willow) pollen on tree bees. Pollen is food for brood. Since the 28th the bees have not been out, but are quiet. All have eggs and brood. Number of days n February on which bees were out, eight. The hives are on their summer stands and packed around with 8 or 10 inches of saw-With less packing around them they would have flown oftener—the sawdust tending to keep the temperature even-cool when it is warm and warm when it is cool. and the even temperature tends to keep the bees quiet. A. B. WEED.

At a recent potato show in England, nearly 1,400 plates were shown, a large number of which were of American vari-

A farmer should look ahead, think in advance of his work and have his plans well laid. The winter is a good time for his mental labor. Mr. Mechi, the famous farmer of Rothamstead, England, says of his balance sheet for 1879: "This is the first time in the

last fifteen years that my farm balance has been on the wrong side, and it proves to me how sad must be the financial position of a vast number of British agriculturists." A successful dairyman feeds his cows night and morning the year round, and in each feed puts a teaspoonful of salt. He small, secret, every day acts of our life. considers this method of salting cows preferable to the usual one of giving animals salt once or twice a week, and thinks his nothing that will cause you disquietude on method adds largely to the amount of milk

The best way to preserve manure is to haul it to the field on which it is needed as fast as it accumulates. Have a wagon or sled always ready on which to throw the manure as it accumulates and haul it out when there is a good load, and spread it on at once. This is the latest approved

A few hours, and sometimes days, might at this season of the year, be profitably spent in looking over the tools and machines and putting them in repair. A bolt will be found wanting in one place and a nut in another. These can be attended to now, and save much trouble when work

A correspondent advises the use of soft soap in cleasing fruit-trees of insects. One of his trees in a young orchard looked badly, and was full of abts; he applied soft soap to the tree, trunk and branches, and ing promptly done. Keeps a good assortment of Cutlery, Locks and Tools, which will be sold cheap.

A correspondent advises the use of soft soap in cleasing fruit-trees of insects. One of his trees in a young orchard looked badly, and was full of abts; he applied soft soap to the tree, trunk and branches, and in a short time the leaves fell off, and the tree seemed to be dead. But it soon put No. 36 South Main Street, out new leaves, and grew more vigorously upon Adam from eating an apple after and a Specialty—Singers Made as Good as New.

ANN ARBOR. 938-989 than before.

Washington Letter.

Vritten for The Courier. Washington, D. C., March 12, 1880. General Logan fairly frightened the Democrats out of their wits on the Fitz John Porter case by his admirable speech, and when at its close the Republican caucus decided that it was best to keep up the discussion as long as the Democrats desired, the zealous Confederates began to look about for some means of retreat. Finally they have found temporary comfort in postpon-

ing the bill for a time.

The Democrats of the House are no more fortunate. Some inconsiderate member called up the bill to prohibit political assessments, and assailed the Republican
party. The retort has been seriously damaging to the Democratic character. The
aging to the Democratic character. The hasty Democrats wish they hadn't. The | mammas about their last new suit, they object of this bill is to disfranchise a large number of soldiers who draw pensions, and in other ways to reduce the Republican vote. It has no honest purpose, and it is believed

capital by their course, they would learn something, and get through with the session as soon as possible. Waiting for Republican blunders, they experience only distion laws, and the duty of Congress to con-trol Federal elections, threaten to withhold appropriations for the enforcement of these This will be the biggest blunder yet,

and will commit the Democratic party to disloyalty and lawlessness beyond dispute. The report coming from General Grant that he will be in New Orleans about the 15th, gives rise to the supposition that he is coming into the political field to take observations, and if the prospect is not then sufficiently encouraging, he will withdraw. In despair at the way in which Tilden is carrying on his canvass for the Presidency, several other Democratic candidates are using all sorts of means to lead him off. Among other expedients they are trotting out a large number of dark horses. This will not scare Mr. Tilden, who is an old

acres, sect. 25, Lodi, \$1. QUIT-CLAIM. Firm Hendrickson to Carl D. Hendrick-February 24—Bees out half an hour.
February 26—Bees out seven hours. On this day I commenced stimulative feeding honey and water and the seven hours. On property in Ann Arbor, \$1.

Old Maid Philosophy.

The writer rallied a young lady friend some time ago and chaffed her upon being an "old maid" She replied: "I am past thirty. I have a good home. I think you know I have had abundant opportunities to marry. I have been bridesmaid a score of times. I ask myself with which one of the beautiful girls that I have seen take the marriage vow would I exchange to day? Not one. Some are living apart to day? Not one. Some are living apart from their husbands; some are divorced; some are wives of drunken men; some are hanging on the ragged edge of society, endeavoring to keep up appearances; some are toiling to support and educate their children, and these are the least miserable; ome tread the narrow line beyond the boundary of which lies the mysterious land, and some have gone out into the darkness and unknown horrors, and some are dead. A few there are who are loved and honored wives, mothers with happy

homes; but, alas, only a very few." A ship on the broad, boisterous, and open ocean, needeth no pilot. But it dare not venture alone on the placid bosom of a little river, lest it be wrecked by some hidden rock. Thus it is with life. 'Tis not in your dying bed; spend it in nothing which you might not safely and properly be doing

if death should meet you in the act. If Christians must contend, let it be like the olive and the vine, which shall bear most of the fruit; not like the aspen and the elm, which may make the most noise. If the streets of heaven are paved with gold it must also be remembered that gold has no commercial value up there. You might as well have a bag of sawdust for a Christmas gift as a cartload of gold in

"We old maids," remarked Miss Stibbins, "love cats because we have no husbands, and cats are almost as treacherous I. I. CRINIFILL,

A Buckeye Leap Year Ball.

A young editor describes a leap year party at Avondale, O., as follows: The ladies opened their own dainty and perfumed pocket books and took the pin-money which they had been laying aside to purchase a lace tie, a new spring bonnet, or some other knick-knack of fashion, and footed the bill like little men. And another

After the gentlemen had made their toi-lets and pulled down their three-buttoned vests, they descended from their boudoirs awaited the coming of their lady escorts.

It was found by the gentlemen to be a delightful experience. And then it was so nice to sit around in chairs, all in a row,

church in a certain town in one of the expired he received the appointment of chaplain of the state prison. Elated at this lucky opportunity of getting rid of him, the congregation came in full numbers to hear his farewell sermon, perhaps ess to compliment than to annoy him with their presence. Great was their astonishment, and still greater their anger, when the reverned gentleman chose for his text the following words: "I go to prepare a place for you * * * that where I am there ye may be also."

Christ church, Boston, is over 150 years old. Erected in 1723, it can claim a greater age than any other church in that city. From its belfry were swung the lanterns that flashed their signal to Paul Revere, on the night of his famous ride to Lexing. ton, in warning of the expected English campaigner and knows how to go for any- raid. The furniture of the chancel is plain and antique, while the prayer-books and Bibles are honored with age, and were be-stowed in 1733 by King George II.

One Box and Six Bottles. If you are suffering from a combination of liver or kidney diseases, and constipation, do not fail to use the celbrated Kidney-It is a dry compound as easily prepared as a cup of coffee, and in one package is as much medicine as can be bought in six dollar bottles of other kinds.

"I Am All Played Out" is a common complaint. If you feel so, get a package of Kidney-Wort and take it and you will at once feel its tonic power. It renews the healthy action of the Kidneys, Bowels and Liver, and thus restores the natural life and strength to the weary healy. Get a how and next to the weary body. Get a box and use it at once.

When we consider that Fellows' Compound Syrup of Hypophosphites supplies the deficiency to unhealthy blood, restores the nervous element, and produces healthy action to the various organs and forces of the body necessary to sound mind, we wonder at the imbecility everywhere apparent.

Workingmen. Before you begin your heavy spring work after a winter of relaxation, your system needs cleansing and strengthening to prevent an attack of Ague, Billious or Spring Fever, or some other Spring sickness that will unfit you for a season's work. You will save time, much sickness and great expense if you will use one bottle of Hop Bitters in your family this month. Don't wait. See another column.

Facts vs. Theory.

In regard to the method of coloring but-John George Thenrer to Godfrey Die- | fed and cared for will make yellow butter; the fact is that not one in ten will, except This is just the reason that the very best
