

REPUBLICAN STATE CONVENTION

A Republican State Convention, to select four delegates at large and two from each Congressional District...

In accordance with a resolution adopted at Grand Rapids, May 16th, 1878, every county is entitled to one delegate for each 500 votes cast for Governor at the last general election...

Under a resolution of 1880, no delegate will be entitled to a seat who does not reside in the county he proposes to represent.

JAMES MILLMAN, Chairman. RICE A. BEAL, D. O. FARRLAND, JAMES SPENCER, E. S. APPLEBY, C. W. LEECH, S. S. ALLEN, H. W. HATHORN, W. S. ALGER, W. S. GEORGE, H. C. BERRISSON, EDWARD W. RICE, EDGAR WEERS, T. H. CHANDLER, T. A. FANCHER, J. H. HARRIS.

Republican State Central Committee. H. E. THOMPSON, Secretary.

The County of Washtenaw is entitled to sixteen delegates.

THE LATE GOV. WM. A. HOWARD.

The subject of this sketch who died at Washington on Saturday, April 10th, 1880, was at that time holding the position of Governor of Dakota. He had completed his 67th year two days previous to his death, having been born at Harrisburg, Vermont, on the 8th day of April, 1813.

His early days were spent as a mechanic in Albion, N. Y., where he worked at the cabinet trade until 1832, when he entered the academy at Wyoming, N. Y. Here for four years he worked his way through the school by employing all spare time at his trade.

Considerable discussion followed, pending the adoption of the majority report, and it was finally made the special order of business for the afternoon session.

From 1872 to 1876 he was a member of the Republican national committee, and delegate at large and chairman of the Michigan delegation in the national convention of 1868, 1872 and 1876.

Gov. Howard has been a cripple for many years, suffering intensely at times from ill health. He never was blessed with a strong physique, which was always a bar to his advancement.

The Regents convened in adjourned session, Tuesday evening, the entire board answering to their names. The President presented a notice served upon him from the Supreme Court, respecting the University case now pending there...

After the report of the committee on credentials, the convention divided into three caucuses, one for each representative district, to decide upon delegates to the State convention...

An executive session was then entered into. Wednesday morning upon reassembling, Regent S. S. Walker reported that the committee upon the preparation of a general catalogue, had accomplished the work...

The committee on literary department reported favorably upon the temporary appointment of Prof. Frieze as President, at a salary of \$2,500, fuel and lights, during President Angell's absence.

Regent Cuthbert then presented a majority report of the special committee to whom had been referred the matter of employing counsel in the suit now pending in the Supreme Court—being the Rose-Douglas case—signed by himself and Regent E. C. Walker.

Regent Van Riper presented a minority report. The report reviewed the case in question at some length, recited the former action of the board at its March meeting in 1879, when it unanimously decided not to employ counsel...

At the opening of the afternoon session the question upon the adoption of the majority report was voted upon with the following result: Ayes—Regents Outehoe, E. C. Walker, and S. S. Walker—3.

Centenary Memorial Service. The Channing Centenary at the Unitarian Church last Sabbath was a very pleasant occasion. The pulpit was surrounded with a forest of flowers, and plants.

The Republican County Convention for Washtenaw county assembled at the court house in this city, Wednesday noon. Called to order by Andrew J. Sawyer, chairman of the Republican county committee.

Notes Editorial. The State convention of Iowa has instructed its delegates for Blaine, Kentucky and Missouri for Grant; and Massachusetts will probably send an Edmunds delegation.

A Little Democratic irregularity of the field kind where the power is had and the use a close one, comes from Ludington. The two candidates for supervisor were Hon. O. A. Stanfield, present representative in the legislature, Republican, and B. J. Goodsell, Democrat.

Scotland was growing broad and liberal in its views through the influence of this modest unassuming man's teachings. Judge Cooley read a paper upon "Changing as a social reformer."

County Items. The Baptist society, besides enlarging and improving their church, add a spire. The Herald wants the Chelsea boys to organize a company of State troops.

To meet his traveling expenses those who desire to attend the recital will be asked to pay an admission fee.

Dr. Kapp, Breakay and George, constituting the city board of health, report the sanitary condition of the city as good. There were 78 deaths during the year 1879, two of which were suicides. The scarlet fever epidemic continued during the first part of the year, and a few isolated cases were reported during the last four months of the year. The measles raged somewhat during the spring and summer, but no deaths were reported. The board were allowed \$25 each by the council for their year's services.

The Postoffice department has recently ruled that a rubber stamp may be used to print the words "Please remit," "This account is over-due," "We are in need of money," etc., upon statements and other commercial papers without changing their character as third-class matter. This ruling does not, however, apply to receipts or other partly printed papers having "the expression of a monetary value." The use of a printed signature to such paper does not alter their character as first-class matter.

The Albion Republican, in speaking of the reform club of this city says: "The red ribbon club of Ann Arbor also celebrated its third anniversary last week. A free dinner was given, the opera house was handsomely decorated, and several able and popular temperance speakers from other places addressed the club, among the number Gen. Samuel Cary. Music was furnished by a chorus of forty voices. This club numbers 400 members, is in a very flourishing condition, and is about to build an opera house, paying between \$2,000 and \$3,000 for the land on which it is to be erected."

The sooner the youth of this country are compelled by the scope and tendency of our public school system to recognize that only one boy in a hundred can be a lawyer, doctor or clergyman, the better it will be for the American people. To that it is essential that our methods of training shall cease to foster the silly and abortive preference for so-called gentlemanly pursuits—shall square face the fact that manual labor is the sphere in which are destined to move, and that it is a mechanical skill and genius which has transformed the world, and which should command the highest prices in the race of life.

A year or so ago the readers of this paper will remember quite an extended account given of the dealings of John Sears charged with forging the name of John Sperry upon a note given Dr. Herdman of this city, and his subsequent flight. Two or three weeks ago Sears was arrested in Chicago, and brought back to answer the charges. Since which time he has remained in the county jail, having a partial hearing last week before Justice Granger. It will be remembered that Sears was accused of forging the name of Sperry to two notes given to Dr. Herdman, the first of which he had paid up, the second lacking about \$30 of being paid, which amount we understand Sperry made good. Another note, given Comstock F. Hill for \$60, we understand, also had Sperry's name upon it. The case was called before Justice Granger Wednesday but adjourned until next week Friday.

Mayor W. B. Smith and Chief Engineer C. B. Davison, left for Waterford, N. Y., last Saturday night, and upon arriving at Niagara Falls the next morning found the snow three inches deep—how's that for weather? They arrived at Waterford, some thirteen miles above Albany, on the Hudson, on Monday morning, and immediately proceeded to the factory of L. Burton & Son. They were shown the workings of the steamers made by this firm, and upon a test of a 24 class engine made for their benefit, water was sent through the pipes within seven minutes, the engine and water in the same being cold at the commencement. They contracted for a 3d class engine, and the same is now under process of construction, but owing to the large demand for this class, it will be some thirty days or more before it will be completed. The heater and other necessary appliances are included in the contract, the committee doing away with superfluous silver plating and gingerbread work, and taking those necessities in their stead, which would otherwise have cost extra. The contract price is \$2,200. Tustey Chief Engineer Davison spent an hour or so very pleasantly looking over the fire department of Albany, and is indebted to Chief McQuade—who has held his position uninterruptedly since 1849, the oldest officer of the kind in the United States—for many courtesies extended. Mr. Davison arrived home Tuesday night, and Mayor Smith the following morning.

The librarian's report stated that 126 volumes have been added to the library during the year, of which number 114 were purchased and 12 presented. Eighteen volumes of magazines have also been bound and 11 volumes of bound magazines presented. Whole number of books in library, 2,355. The average circulation of books per week has been 97, and of magazines 27. There have been 50 new members during the year. Mrs. Hunt, Mrs. Cooley, Mrs. Crane, Mrs. Jaycox, and Mrs. D'Ooge were re-elected members of the board, their term of office having expired. Mrs. Adams was elected president, Mrs. Ten Brook, vice-president; Mrs. D'Ooge, secretary; and Mrs. Jaycox, treasurer. After the election of officers the association adjourned.

University Items.

The sophs have their hop the latter part of the month.
Mr. Thomas read a paper on Goethe last Monday evening at President Angell's.
Several philanthropic ladies have formed an association for the purpose of securing cuts for the new hospitals.
There are two French clubs in town, one exclusively composed of members of the University, the other with students and residents of the town.

This year there will be two days devoted to field exercises, one on May 15, the other in June. Prizes are offered, but in order to retain them they must be won by the same person on both days. The fencing club will be well represented.

The Christian Association was tendered a social at the Methodist Church by the Young People's Society last Friday evening. It was well attended and the evening was pleasantly passed in conversation, the eating of a supper, and the hearing of several fine selections of vocal and instrumental music.

The full Board of Regents met on Tuesday and Wednesday, and by a vote of 5 to 3 stood by the October resolution, not to employ counsel in the suit against Douglas now before the supreme court. The three new Regents, Shearer, Grosvenor and Van Riper, voted with Regents Clinch and Duffield.

Monday morning not a little excitement and commotion was seen around the Main Hall, both among society men and independent. The former had chapter here, and the latter that they had recently lost fifteen men from their ranks in consequence of the new society. Soon a notice was posted of calling a meeting of the Chronicle Association for Tuesday. It was then ascertained that two of the independent editors had joined the Delta, and had resigned their positions on the board of editors. At the meeting the resignations of Messrs. Haire and Dubur were accepted and Messrs. Helmle and Pond were elected to fill the vacancies. The meeting then adjourned, and again "white winged peace broods over land sea."

A Close Call for Main Street.
Last Tuesday evening at about 8 o'clock a barn belonging to C. Eberbach, on the alley in the rear of his drug store on Main street, was discovered to be in flames. Frank Hangsterfer, who occupied the same, immediately rushed to the barn, but the flames had made such progress that he was unable to rescue three horses which he kept there, and they were burned up together with harness, hay, feed, etc. A new phaeton and two or three wagons were saved. He estimates his loss at about \$300 above his insurance, which amounts to \$800. He had a policy of \$275 upon his three horses.

Mr. C. Eberbach had stored in the building several carboys of acids, muriatic, sulphuric, etc., and a fresh invoice of bottles, and places his loss from \$80 to \$100, insured.
The cause of the fire is one of the unsolved mysteries, as there had been no one in the barn for two hours previous to the fire, and then the hostler had no light, and as usual locked the barn door upon leaving. It must have been the work of an incendiary.
At one time it seemed as though the Leonard House could not be saved, and the rear of Eberbach's drug store became so heated that it caught once or twice, and every light in the rear windows were broken. The rear of the Leonard House was badly burned also, but when the fire companies got to work they soon extinguished these and reduced the blaze so that the danger given to Dr. Herdman, the first of which he had paid up, the second lacking about \$30 of being paid, which amount we understand Sperry made good. Another note, given Comstock F. Hill for \$60, we understand, also had Sperry's name upon it. The case was called before Justice Granger Wednesday but adjourned until next week Friday.

It has been our misfortune to witness a large number of quite serious conflagrations in different places, and we wish to say for the fire companies here, that we never saw better or more efficient work done. With the facilities to do with they accomplished what seemed almost impossible, and earned the gratitude, at least, of our business men. Perhaps it might not be out of place to add that such tinder boxes in the rear of our business blocks are extremely dangerous. The people owning property in these blocks ought to be sufficiently interested in this matter not to allow any more wooden barns erected so near such a large quantity of valuable property.

The Bower-Godfrey Case.
Mr. L. D. Godfrey, whom B. Frank Bower ejected from his room at Detroit, died Thursday evening last week. At the time of writing the item referring to the episode in the last COURIER, we little thought of such a sad termination, or our language would have been less light. The death of Mr. Godfrey, however, is accredited to the use of stimulents to an inordinate degree, rather than to the effects of the wound received from falling upon the pavement, and the testimony upon the inquest would indicate that while the wound might have produced concussion of the brain, and so been the immediate cause of death, it could not be decided whether it was produced by the first fall or the second, after he had arisen and started for the house; and also, if he deceased had been in a healthy condition, and not saturated with alcohol, the result would not have proved fatal.

It is exceedingly unfortunate for Mr. Bower that the result has terminated as it has, but to show the feeling toward him in Detroit, we copy the following correspondence between Messrs. Maybury and Conolly, Mr. Bower's attorneys, and the prosecuting attorney, Mr. Breovort:

MAYBURY AND CONOLLY TO MR. HENRY N. BREVOORT:
The finding of the jury in the case of L. D. Godfrey was such as to associate Mr. Bower with the case that led to Mr. Godfrey's death. Under the circumstances it is necessary to notify you on behalf of Mr. Bower that he is prepared to justify his course in the inquest and we further desire that, if after hearing all the testimony in the case taken at the inquest with care and impartiality, you purpose directing a complaint to be issued, it should be instituted without delay.
MR. BREVOORT TO MESSRS. MAYBURY AND CONOLLY:
Your communication is received. The testimony in this case was very elaborately taken, as much so as it could be on trial, and after being thus placed in possession of all the facts that were found, and in forming my judgment, I am prepared to say without qualification that I see no reason or basis of complaint against Mr. Bower; and that he did what any other person would have done under like circumstances, and that the fatal termination was the accidental part of the affair.

The Detroit Post and Tribune of April 13th also says of the affair:
"Mr. Bower has certainly maintained a very manly attitude and pursued a course that he speaks the integrity of his motives all through the time subsistent to the election. That he had nothing to conceal, and so far from avoiding investigation solicited it, to place him under bonds to appear at any time when wanted."

It is perhaps unnecessary for us to add anything to the above. From an acquaintance with Mr. Bower extending from his childhood to the present time, we can say for him that he has always been honest, upright, temperate in all his habits, and is held in high esteem by the citizens of this city, all of whom express regret that the accident should place him in such an unpleasant attitude, to say the least. We are informed that Mr. L. D. Godfrey was at one time a member of the bar in this city, and a highly respected citizen. His ability was unquestioned, and but for the love of the glass which brings sorrow and desolation to so many hearts, stones, and destroys the usefulness of so many of our best men, would have taken good advantage of the lawyers of Detroit. The sad ending of his life is but another temperance lesson to our youths and young men about entering business or professional life.

WILLIAM W. NICHOLS,

DENTIST!
Successor to G. W. North, office, 19 South Main Street, opposite National Bank. Residence, 37 Liberty Street. Nitrous Oxide gas administered when requested. 981-1

Without showing the condition of our teeth, Every laugh exposes them. In order not to be ashamed of them let us use that standard dentifrice, SOZODONT, which is sure to keep them white and spotless. No tartar can encrust them, no canker affect the enamel, no species of decay infest the dental bone, if SOZODONT is regularly used. It is a botanical preparation, and its beneficial effects on the teeth and gums are marvelous, as it removes all discoloreds, and renders the gums hard and rosy. 980-984

Science in the service of the house-keeper has produced the beautiful, pure, harmless, yet efficient AMERICAN BALL-BLUE for the laundry.

MR. CARL OF THANKS.—Mr. C. Eberbach desires to return thanks to the members of the fire department, especially, and to the citizens generally, for the very efficient aid rendered in extinguishing the fire in the rear of his drug store last Tuesday night. He considers that no more danger from a disastrous conflagration was ever known in the city, and his thankfulness is in proportion to the magnitude of the work done in averting the danger. C. EBERBACH.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES

WASTING DISEASES.

Asthma, Bronchitis, Consumption, Brain Exhaustion, Chronic Catarrhs, Diarrhoea, Chronic Diarrhoea, Dyspepsia or Loss of NERVOUS ENERGY.

Are positively and speedily cured by Fellows' Compound Syrup of Hypophosphites

The merit of this remarkable remedy is due to its peculiar property of restoring the wasted tissues of the body to their original firmness and vigor. It is well known that for every thought and action there is death or decay of an amount of material proportional to the magnitude of the thought or action. This waste is supplied by the unsupplied nutritive tissue. The precocious activity of youth, the untimely struggle for wealth and fame in the middle age, and old age itself cause an undue degree of material losses.

It is said that if strawberry plants are sprinkled every night, while blossoming, with a solution made of one quart of a pound each of ammonia and common salt (probably crystals) dissolved or mixed in two barrels of rain water, that the size and quantity of fruit will be greatly increased.

Castoria

Millions of Mothers express their delight over Castoria. It is nature's remedy for assimilating the food. Castoria No. 1, it is pleasant to take, and unlike Morphine Syrups, it is harmless. Castoria regulates the Bowels, destroys Worms, Cures SOUR CURD AND WIND COLIC, and all Febrile Disorders. What gives health and vigor to the system is the Mother. Children cry for Pitzer's Castoria. It is the most reliable, effective and popular article dispensed by Druggists.

CENTAUUR LINIMENTS

Physicians and Veterinary Surgeons endorse the Centaur Liniments. Millions of men, women and children in all countries use them, and from scores of Diseases, Rheumatism, Lumbago, Sciatica, Strabismus, Tetters, Pimples, Itch, Salt Rheum, and all flesh, bone and muscle ailments of Animals.

Catarrhal POISON

Wei De Meyer's Treatise on Catarrh explains the following important facts:

Small Industries on the Farm.

The comparative profit of large and small farms is a question that will not stay silent. In few cases the subdivision of land and economy of system tend favorably on returns generally, however, the want of capital, incapacity for systematic effort, or little wastes and leakages make unprofitable undertakings comparatively unprofitable.

FARM FOR SALE.

I will sell fifty acres of land, on the north side of the road, including brick house, two barns and carriage house; or eighty-seven acres on the north side of the road, including the J. Wing place, with good buildings; or will sell the whole farm combined, as purchase may desire. The land is located on the Dexter road, three and one-half miles west of Ann Arbor City, and is a fine state of cultivation.

food, vegetable and animal, which a small flock obtains in its voluntary pursuit of the grain, they will be healthy and prolific. But it is extremely difficult to fulfill all these conditions.

The Housewife's Table.

The following is a very valuable housewife's table, by which persons not having scales and weights at hand, may readily measure the article wanted. For each recipe, without the trouble of weighing, allowance to be made for any extraordinary dryness or moisture of the article weighed or measured.

Electric Lamps.

Wabash, Indiana, has adopted the electric light and a dispatch from that city says: As the clock struck 8, four Brush lamps, of 3,000 candles power each, put forth a noon-day light for one mile in circumference. They were suspended in the iron flag staff on the court house, which towers 100 feet above the business part of the town.

A Blind Man's Pleasures.

Prof. Fargate, the blind member of Parliament, says that when at twenty five he lost his sight there were many things of which he was passionately fond, and he revealed that those things to his son, who followed him. No one enjoyed salmon fishing in the Tweed or the Spey more than he did, no one more enjoyed throwing the fly in some quiet stream in Hampshire or Devonshire than he did, and he declared the light to be beyond their expectations. Many who came expecting to see the lamps were disappointed, otherwise they would have seen that this city is the first in the world to adopt the electric light for general illumination.

Pronunciation.

A copy of Webster's Unabridged Dictionary was offered at a teachers' institute in Pennsylvania to any teacher who would recite the following paragraph and pronounce every word correctly, according to Webster. No one succeeded in earning the dictionary, although nine teachers made the attempt.

The Greatest Blessing.

A simple, pure, harmless remedy, that cures all kinds of Rheumatism, neuralgia, keeping the blood pure, stomach regular, kidneys and liver active, is the greatest blessing ever conferred upon man. Top Bitters is that remedy, and its proprietors have cured all kinds of Rheumatism, neuralgia, and all other ailments of the system, who have been saved and cured by it. Will you try it?
