

HOW IT IS MAINTAINED.

The democratic platform has a plank in which occurs this sentence: "The right to a free ballot is the right preservative of all rights, and must and shall be maintained in every part of the United States." This is a most excellent sentence, and is worthy of a place in the platform of any party, and that the democratic party, whose in tolerance in this line is proverbial, should seek to blind the people by it is not at all astonishing. They are noted for smooth talk and fine promises, but when it comes down to their actual record it is black with crime, and even in the purest parts tinged with the shade of Hades. They very well know that the republicans at the south are not allowed to vote as they choose, nor are they even allowed to express their political preferences without danger of being shot down like so many dogs in the street. Every meeting which they attempt to hold is broken up by the "freedom shrieking" democrats. They will know that the above declaration is only a "catch" for voters, and a lie direct to all their acts. But lest our mere assertion may be questioned, we will give a few figures from voting precincts in the south where the republican voters are largely in the ascendancy. In the last political campaign the following votes were returned from heretofore largely republican precincts. Is further comment necessary?

FORTY DAYS AND FORTY NIGHTS.

It has often been remarked, that were it not for having to pay for the necessities of life, such as food, drink and wearing apparel, there would be some chance for a poor man to lay up money. It now appears that a portion of these necessities are merely the result of habit, and can be dispensed with, if not entirely, at least almost entirely. One Dr. Tanner, of Minnesota, is demonstrating the thing in the interest of science, in New York city. He started out some three weeks ago in an attempt to fast forty days and forty nights. So far he has succeeded. Physicians have been constantly in attendance, watching him every hour, and swear that he has not touched a particle of food since undertaking the feat. If he should succeed the world can dispense with the great wheat crops, and pork, and beef, and corn, and other great food supplies, just as well as not, and live on fish. It is but passing to a live passion, this filling up one's stomach two or three times a day with food. It is entirely, utterly and vainly foolish. It is wofully extravagant too. Just see how it cuts up the week's wages. When you are hungry just take a glass of water, that's all that's necessary. If your child cries for a cookie, give it a tumbler of *agua pura* to quench its hunger. What a blessed thing it is to find this out. What an extravagant advance science has made in this experiment of Dr. Tanner's. What a grand future will await this man away down in the ages to come—after death, perhaps. What a noble benefactor to the human race his insane experiment will prove! His name should be written on the sands of time and washed by the waves of eternity, or something of that sort. He should be clothed in purple and gold and placed side by side with George Francis Train. He should be allowed the entire benefit of his experiment, which he doubtless will be.

The evil effect of Dr. Tanner's experiment is still to come. All over the country will be fools who will endeavor to repeat the same thing. In every village and city will spring up forty days and forty nights fasters, and not being physicians, or understanding the "tricks of the trade," will end up in an insane asylum or a coffin. Instead of a help to science, in our opinion it will be a detriment to the country.

NOTES EDITORIAL.

J. A. G.: James's Agonia! Get there. Not patient. Stead it if you want to. The party that opposed all the constitutional amendments is now seeking power by using a very pleasing mask.

There's still a man who has any accident about the Hillsdale champion crew. They have earned their good name on several occasions. On or about the 1st of August the Adrian Press will commence the publication of a daily, "to be continued as long as it is supported."

Secretary Schurz is to help the republicans of Indiana lay out the democratic ticket in October, and with it all hopes of electing Hancock in November.

Notwithstanding repeated denials by the democrats, the Cleveland Leader says that it is true that Mr. Hancock is a Roman Catholic, and a very ardent one, too.

Some democrats of Rochester, N. Y., have taken a perpetual oath never to drink any more liquor—that is, until Hancock is elected, which is one and the same thing.

The same party that held the infamous "extra session" of Congress to bluff off President Hayes—but didn't accomplish their purpose—is the one seeking power through a union general.

The country demands a change "was" what several democrats remarked in their ratification speeches. Some how the country is pretty quiet about it. If such is really the truth, why don't the people join in the cry? The stampede don't flourish. The Tilden mule buyer, has been chosen again as chairman of the democratic national committee. Jewell, the chairman of the republican committee is also from Connecticut, and will watch that mule business this campaign.

What glorious figures our democratic friends are, in 1852 the southerners put in a northern president to help them steal the territories. In 1856 they put in another to help them prepare for the rebellion. In 1860 they put in another to help steal the results of the war.

Gen. Hancock is one of the dangerous soldiers whom the present democratic Congress forbade by statute to go near the polls on election day, because their presence there, even for the purpose of preserving the peace, would be dangerous to the liberties of the people. Does democracy mean nothing but hypocrisy?

It is now said that Gen. Hancock will not resign his place in the army for two reasons. One is he may not be elected, and in that event would be just so much out; and the other is that if elected Congress will restore Fitz John Porter to the army, and he can fill his own place by appointing Porter to the vacancy.

The greenback party is to be congratulated upon the withdrawal of Gen. Sam. Carey from its ranks. He has come out for the democratic candidates, where his sympathies have always been except when he got \$30 or \$40 a night to spout for the greenbackers. The democrats are welcome to all "sich." They carry no strength with them, but on the contrary drive voters to the opposite party.

The Egyptian obelisk, known as Cleopatra's needle, a present from the khedive of Egypt to America, has arrived safely at New York harbor, and will be soon set up again. It is said to have been erected 1,400 years previous to the birth of Christ. Haven't heard anything from the David Davis party—consisting of himself—since Hancock's nomination. Where will the venerable free rider go? Perhaps his poudrous weight, added to that of Hancock's, might break the democratic phalanx in twain. 'T would be a tough thing for our party to stand up under.

The Irishmen of this country are becoming convinced that the democratic party is not worthy of their support, was abundantly proven by the immense national mass meeting of republican Irishmen, held at Indianapolis last week. There was a large attendance and great enthusiasm. The Irish vote is to hereafter divided.

A New York man walks on the water by means of a pair of zinc shoes containing air chambers large enough to support his weight.—Buchanan Record. The democratic party better buy up a huge lot of those shoes, for when the popular wave sweeps along next November they will need something more than their present stock of mud to keep them afloat.

Commissioner Le Duc has recently selected sites for tea farms in Georgia, and has extended to Washington, leaving an assistant to complete the work. He thinks that he will have no difficulty, as the problem of tea culture at the south, or at least in Georgia, has been already solved. A quality of tea equal to that imported from Asia is raised in quantities in that state at a cost of not more than twenty cents a pound, and readily finds a market at from forty to fifty cents.

An old soldier in the Springfield (Mass.) Union says: "All of the republican soldiers under Hancock will work against him. We have to choose between two soldiers, one a West Pointer, who has been fed by the government, and one who is a volunteer soldier and who made himself; and we shall vote for the volunteer. More than that, the veteran association is going to work to prepare a pamphlet contrasting Garfield with Hancock as soldiers, and the balance you may be certain will be in favor of Garfield."

An absurd story was started that a Grap club of sixty members had united with the democracy in Chicago. That city was diligently searched but no such club could be found. Then the democrats hit upon St. Louis as the place where said club had swung over. But every republican in St. Louis denied the allegation. And now the liars are all divided up as to location, some asserting one place, and some another. This is the way the grand "turn overs" to the democracy all turn out. They are merely imaginary ones, emanating in the dizzy brain of some "anthozoostic" supporter of that party.

Hon. P. A. Orton, a very prominent democrat of Wisconsin, who has repeatedly been honored by that party because of his ability and deserts, has come over to the right side, and will hereafter be found in the ranks of the republican party. His defection will make a big gap in the democratic ranks in Wisconsin, and will increase the republican majority about 5,000. He was his main stay for years, but has now got his eyes opened to the enormity of the crimes of that party, and their utter intolerance while professing great liberality, and howling themselves hoarse over freedom of speech. Mr. Orton is only one of the many who will follow shortly.

The democracy are having as much trouble as the old woman who lived in her shoe did with her children, and more too. There are two sets of democratic electors nominated in Virginia which split don't patch work a cent; then Senator Brown, of Georgia, has a sore throat and can't speak in the coming caucus; the New York break don't weld together "not a bit" good, which is likely to give New York to Garfield beyond the least doubt; and last, but not least, "Blue jeans" Williams and Landers don't lay down together like good little Hoosier lambs, which added to the unpopularity of English, bids fair to give Indiana a position which will not require any work by republicans. Just give the democracy rope enough and they will hang themselves as usual.

The democratic lie that Gen. Grant was a supporter of Gen. Hancock was nailed ever since maintained that it was a hokum. In a recent issue of the Living Age, in that line, comes the following interview with Gen. Grant, from Denver, Col., in which he said: "I can say without hesitation that I will give Garfield my hearty support. There is no reason why any republican should not vote for Garfield. I know him to be a man of talent, a thoroughly accomplished and upright man. I have nothing against Hancock, but Garfield is the man for the office." He denied the report that he had complained of Conkling and Logan having deceived him. He had no letter from either of them, either before or after the convention, since his return to America. He said that of all men, Conkling and Logan were the last for him to find fault with, and he felt more proud of the 306 that stood by him than as if he had received the nomination by unfair means.

The following table shows the electoral votes of the several states, and the democratic and republican chances for carrying the election:

Table with 4 columns: State, Republican, Democratic, and Debatable. Lists electoral college counts for various states.

Virginia is going to choose republican presidential electors this fall. The democrats have divided into two parties. The readjusters having met and put in the field a complete electoral ticket, which will divide the democratic vote as to give the republican ticket a majority.

They are having a "high old time" over their high school at Kalamazoo. Many of the citizens there are in favor of lopping it off entirely, or making those who receive its benefits pay for it. This idea is purely an aristocratic one, which would result in giving the children of wealthy parents an education, and keeping in ignorance hundreds of poor children. The money expended for the carrying on of our schools is just so much paid for the stability of our government. In the education of the masses rests the safety of our republic. In the ignorance of the masses we are sure to drift into a monarchy, which undoubtedly is the ultimate object of the enemies of our school system. There may be in many of our schools much that is unnecessary for a good practical education, and this dress will in time be swept away, but when it comes to waging a war upon high schools, and sweep-

ing them out of existence, a move in the wrong direction being made, and one which will be a blot upon our history and a disgrace to our people. The wealthy man who burdens the taxes he pays to educate the children of his poor neighbor, which scores them to the country as good, law abiding citizens, is miserably and contemptible in spirit, and dragging down upon his own head retribution. Nor do we believe it possible to secure such a result. Our people have too long enjoyed the blessings of our excellent free school system to have it struck such a deadly blow.

A Smart Woman.

A nice, respectable lady not a thousand miles away, had long noticed, to her dismay, that her "worse half" was growing foolishly suspicious and jealous of her.

"Help, murder, watch! Oh, is that you?" and madam popped her little head up from the foot of the bed.

"There, there," said the chagrined husband, "say no more, dear, I'm so glad it didn't hit you!"

The New Water Skates.

If the "water skates" invented by a commercial traveler named Soule, says the Philadelphia Times, shall be as well adapted to other feet as they seem to be to his, we may find in them a solution of the problem of preserving life in case of steamboat disaster.

Democratic Testimony.

W. M. Springer, of Illinois, a leading member of the present house, is a strong and well known democrat. He is not a partisan liar. In a recent speech at Sullivan, Ind., he said:

Fatherly Advice.

Don't run in debt. Don't buy what you don't need. Don't spend all your salary whatever it is.

The Man with an Item.

Some supposed friends of a newspaper have peculiar ideas as to what kind of items a paper really requires. Not long since a gentleman came into the Galveston News sanetum and said:

Sunday-School Hymns and Music.

It seems to us high time that the songs of the Sunday-school, the prayer-meeting and the regular church service should become more closely allied to each other, so that while the latter shall be made more hearty and earnest, the former shall be less unworthy of a place in the mind and heart with the grand truths and magnificent literature of the Bible.

Boomer & Boschert's Cider.

Boomer & Boschert's Cider is a pure, refreshing beverage, made from the finest apples, and is sold in bottles of 12 and 24 each.

Temperance at the White House.

On the avenue leading to the white house at Washington there is a restaurant where liquor is sold. A sign is thrust out greeting the approaching visitor with the warning, "Your last chance here as he returns from the white house he is met by the words on the reverse side, "Your first chance again."

A Perfect Substitute for Sulphate Quinine.

CINCINNATI, prepared by Billings, Clapp & Co., Chemists, of Boston, Mass., is a concentration of all the alkaloids of Peruvian Bark, and is preferred by physicians on account of its cheapness as well as its superiority.

Castoria.

Millions of Mothers express their delight over Castoria. It is nature's remedy for assimilating the food. Unlike Castor Oil, it is pleasant to take, and unlike Morphia Syrup, it is harmless. Castoria regulates the bowels, destroys worms, cures Sour Curd and Wind Colic, and cures Feverishness. What gives health to the Child promotes rest to the Mother.

Never.

Since healing remedies have been used by suffering men has there been known such absolute Pain-relieving agents as the CENTAUR LINIMENTS.

Centaur Liniments.

They soothe, heal and cure. They heal Ulcers, Wounds, Galls, Old Sores, Broken Breasts and Sore Nipples; Cure Pain in the Back, Rheumatism, Sciatica, Lumbago, Neuralgia, Rachea, Tetter, Pimples, Itch, Salt Rheum, and all flesh, bone and muscle ailments of Animals.

Robert Ingersoll.

He keeps away from bar-rooms, he never utters a profane word, he gives liberally to all good works, whether Catholic, Baptist, Methodist or what not; his word is taken by everybody who ever had dealings with him, and nobody who has ever known him would ask for his bond.

A Good Story About Garfield.

One day I noticed a fugitive slave come rushing into my office with a bloody head, and apparently frightened almost to death. He had only passed my tent a moment when a regular bully of a fellow came riding up with a volley of oaths began to ask after his "nigger."

TO AGRICULTURISTS.

The undersigned are now manufacturing a salt for fertilizing purposes that is peculiarly adapted to the use for which it is designed. It is entirely free from dirt, or hard lumps, and is made by a process which leaves incorporated in the salt all the valuable plant food, as well as ingredients calculated to feed and render soluble the Ammonia already contained in the soil.
