THE "ROGUES" GALLERY.

Here they are, Sir, if you please, portraiture number four. (The chair, Sir? Take your time, Sir, down and look them over.)

IT NEVER COMES AGAIN.

There are gains of all kinds, but none so certain as the gain of knowledge.

THE GOLD YIELD OF THE PLACERS.

It has been estimated that when the water is thrown upon the placers and the working of the ground by the hydraulic process commences, the yield of gold will average fifty cents a cubic yard.

THE VALUE OF THIS PROPERTY.

The copper mine, the gold mines already partly developed or waiting development—the one most patently at present of great value, being the vein of free gold connected with the copper mines—the New Placer with the wealth of gold which has in the past been proved to be contained in the deposits, and the abundance of timber and fuel found on the two grants—these are the inducements which the property has long held out to capital, and the San Pedro and Canon del Agua company has been the first to perceive the true value of the land, and purchasing it, to proceed energetically and earnestly with the development of its resources.

THE SAN PEDRO MINES.

The property of the San Pedro and Canon del Agua mining company, which Gen. Grant has recently been made president, is situated at the New Placers and consists of about thirty-five thousand acres of land, most of it covered with pine timber, and contains within its limits the San Pedro, Queto, San Ysidro and Sandia mountains, all of which are known to hold minerals in large quantities.

REPUBLICAN CANDIDATES.

Who the Republicans are asked to Vote For. From the Lansing Republican we take the following brief sketches of the candidates for state offices.

THE PRESIDENTIAL NOMINEES.

James M. Cass, of New York, was born in Dutchess county, New York, in 1806. He was the best of his common schools and removed to Michigan in 1830.

PRESENCE OF MIND.

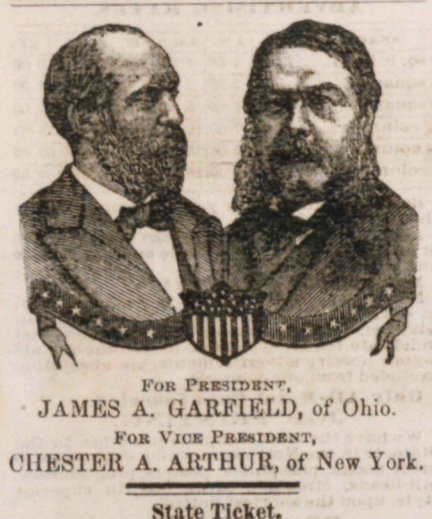

The following hints will be found of much importance in every family. 1. If you are in the habit of drinking a glass of beer, and let him alone.

JUVENILE SMOKERS.

A British physician, observing the large number of boys under fifteen years of age on the streets with cigars and pipes in their mouths, was prompted to examine the habits of the young smokers.

JACOB'S WELL.

Just at dusk we reached this sacred shrine of all pilgrims through the Holy Land. We were very weary with our long journey, it was too late to carry but a few minutes, there was nothing to be seen but the ruins of an old chateau built by the Crusaders, and a large space once walled up and arched over, but now in a dilapidated and neglected condition, the mouth of the well being almost entirely choked up with loose stones.

FOR PRESIDENT, JAMES A. GARFIELD, of Ohio. FOR VICE PRESIDENT, CHESTER A. ARTHUR, of New York.
