

FRIDAY, AUGUST 5, 1881.

TAKE YOUR CHOICE.

You must either wear or stoop. Fall over, stand or grope. You must either serve or grope. Must be slow or be covered. Must, in fine, be block for wedge. Must be slow or be covered. Must be slow or be covered.

SOME DAY, SOMEWHERE.

The evening fallish hushed and fair. A calm in all the summer air. A prophesy of rest somewhere. Some day, somewhere, on heart oppressed. It matters not, it would be best. Only to lie and be at rest.

Observations on the Comet.

I told you so.—Mother Shipton. Whar for, stranger.—All Astronomers. I regard it as a half-breed.—Conkling. Me too.—Platt. The vapors of an ill-defined nucleus.—Several Professors.

No good Preaching.

No man can do a good job of work, preach a good sermon, try a law suit well, doctor a patient, or write a good article when he feels miserable and dull, with sluggish brain and unsteady nerves.

Causes of Intemperance.

Let us now review rapidly the principal causes of alcoholic intemperance: 1. Insufficiency of material wants. 2. Bad and ill-ventilated homes. 3. Insufficient and inappropriate food.

The Small Boy's Explanation.

Angelica had invited her "best young man" to the evening meal. Everything had passed off harmoniously until Angelica's seven-year-old brother broke the blissful silence by exclaiming: "Oh, my, you oughter seen Mr. Lighted the other night, when he called to take Angelica to the drive, he looked so nice, 'stittin' long side of her with his arm—"

Millionaires.

It used to be a great thing to be a millionaire—that is to be worth a million—but that was in the old-fashioned time before the war. Nowadays millionaires are almost common. You can get a million in a gun on Fifth avenue without hitting one.

How a Frog Grows.

Nowhere in the animal kingdom is there so favorable an opportunity for peeping into Nature's workshop as in the metamorphosis of the frog. From the egg it is when it comes from the egg, and remains so the first four days of its life, having neither eyes nor ears, nostrils, nor respiratory organs. It crawls and it breathes through its skin.

Better than Quinine.

Few constitutions can stand the continuous use of quinine. It is not only a very expensive medicine, but will ultimately cause the patient to succumb to its powerful influence upon the nervous system. But if you want to get rid of Malaria and all Fevers of that nature, use the Lion Malaria and Liver Pad and Body and Food Plasters. The whole treatment for one dollar. For sale by druggists.

How she Fixed Him.

The young man was evidently honest in his intentions, but three years of constant courting had failed to overcome his excessive bashfulness. In the summer of 1877 I was at a respectable distance apart. Said the young man, having spent five minutes in search of a subject: "How do you get along with your cooking?"

Forms of Lightning.

A flash of lightning is a very large spark of electricity.—just the same thing that one sees given by an electric machine in a lecture on natural philosophy, the only difference being that the best machine will not give a spark more than a yard long, while some flashes of lightning have been estimated to be several miles in length.

Mothers! Mothers! Mothers!!!

Are you disturbed at night and broken in your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of Mrs. Winslow's SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it.

FILES! FILES! FILES!!!

A Sure Cure Found at Last. No One Need Suffer from the Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. Williams' Indian Ointment. A single box has cured the most chronic cases of 25 and 30 years standing.
