Major W. C. Ransom has accepted an invitation to deliver the oration at the laying of the corner-stone of the new court house at Kalamazoo on July 4. There would seem to be a fitness in his selection as the orator's father, the late Governor Ransom, was the first judge to hold court in the old court house under the state constitution.

President White, of Cornell University when asked by an Evening Journal reporter yesterday whether he was a free trader, as reported, replied that he could not refer to what has already been published on that point. Recently he said: "When a young man leaves college he is generally a free trader, but when he comes to look about him and see the business interests of the country that have been fostered by protection, he generally modifies his theory." As near as anybody can get it, then, Mr. White is theoretically a free trader, but from a practical business standpoint he is for protection every time. There are plenty of men in Detroit like him. Free trade does very well to dream about, but when it comes to voting for it the business men call a halt.

THE CONVENTION.

The Republican National Convention convened in Chicago at noon on yesterday. The day's proceedings, though characterized by much earnestness, developed nothing indicative of a special turn of the tide in any direction. The session was occupied in the usual preliminary business of the convention, much of the time being occupied in calling the roll of the delegates and the election of a temporary chairman. Powell Clayton, of Arkansas, as candidate for the position, was defeated by John R. Lynch, one of the colored delegates from Mississippi, as indicated in our special dispatch below, received this morning:

Chicago, June 4, 1884.

To the ANN ARBOR COURIER: Rejection of Clayton and nomination of Lynch, colored, as chairman, yesterday—a Blaine defeat. Arthur gaining. No ballot to-day.

J. E. BEAL.

The following special dispatch came to hand at 12:30 to-day. It would indicate that the convention holds an evening session to prepare for taking the first ballot on to-morrow:

Chicago, June 4, 1884.

To the ANN ARBOR COURIER: Convention adjourned until seven p. m.

J. T. JACOBS.

The latest estimate of the first ballot for the three leading candidates gives Blaine 240, Arthur 300, and Edmunds 55.

THE CENSUS.

Appropos of the census-taking begun this week, it may be well to call the attention of our readers to section 13 of the census law with reference to giving the requisite information to enumerators. It reads as follows:

"That each and every person more than 18 years of age, belonging to any family residing in any township, or census district, and in case of the absence of the head and other members of any such family, then any agent of such family, shall be, and each of them hereby is required, when thereto requested by the census enumerator, to render a true account, to the best of his or her knowledge, of every person belonging to such family, and whoever shall willfully fail or refuse shall be guilty of a misdemeanor, and upon conviction thereof shall forfeit and pay a sum of \$70, or be confined in the county jail not more than six months. And every owner, lessee, agent or manager in charge of any establishment of productive industry, of farm, and every president, treasurer, secretary, general agent, or managing director of every corporation owning or operating any such establishment or farm, who shall, when thereto requested by the census enumerator, willfully neglect or refuse to give true and complete answers to any inquiries authorized by this act shall forfeit and pay a sum not less than \$500, nor more than \$5,000, and in addition shall be guilty of a misdemeanor, and on conviction thereof shall be imprisoned in the County Jail for a term not exceeding one year. And it shall be the duty of the census enumerator to promptly notify the prosecuting attorney of his township or census district under the provisions of this section."

DECORATION DAY.

The forenoon program of the Post of G. A. R. was carried out in detail, the graves of various soldiers being decorated as follows: Eight graves in the fifth ward cemetery, representing some forty soldiers, forty-five graves in Forest Hill cemetery, and nine in St. Thomas'. By vote of the Post, the graves of Mrs. Lawrence and Mrs. Breakey were decorated. The former, as president of the Sanitary Commission, devoted three-fourths of her time during the war to the interests of the Commission. Mrs. Breakey was for several months a nurse with the Army of the Potomac.

Rain threatened about the time the procession formed after dinner but it happily passed over, leaving a splendid afternoon for the remainder of the exercises of the day. The procession, one of the finest and largest our city has had, left the court house square at 2 p. m. and marched in the following order to University Hall: Chequamegon band, Company A, Band of the O. L. M. A. and the cadets, the city fire department, German band, Knight Templars, Welch Post G. A. R. and sailors, closing up with the carriage containing Ex-Gov. Austin Blair and others.

Arriving at the Hall at 2:30 p. m., the exercises as per program given in our last issue were presented to an audience of perhaps two thousand persons. Ex-Gov. Blair delivering the address of the day. The vocal music was furnished by a double male quartette in charge of Prof. Wilsey. The opening dirge was given by the Che-

quamegon boys. At the close of the exercises at the Hall, the various organizations returned to the court house square and dispersed.

The observance of the day throughout is regarded on all hands as being the best Ann Arbor has ever favored with, and much credit is due those who had the program in charge. The Orchard Lake cadets, guests of the city, made a fine showing, as did also Company A, and the others.

The Circuit Court.

May 28. The appeal of Mary C. Emery, et al, from the decision of the Probate Court, before the Circuit Court, we went to press last week, Judge Pease, of Three Rivers, presiding, the verdict by order of the Court was for the will; until first day of next term given to prepare, serve and notice for settlement bill of exceptions.

In appeal of Hebron E. Camburn vs. Darwin C. Griffen, plaintiff was nonsuited, and judgment rendered for defendant for \$83, and costs.

The case of Benjamin P. Crane vs. James M. Ashley, assumpsit, was continued.

Decree of divorce was granted in the case of Mary Riggs vs. Chauncey Riggs.

June 4. In the case of Eva C. Davison vs. Edgar A. Davison, a decree was granted.

DEXTER DRAIN.

The case of Mary Lyman, et al, vs. Thomas Murry and Edward A. Nordinman, bill to restrain collection of ditch tax, came up yesterday, and proofs and arguments were given, Sawyer & Knowlton for plaintiffs, and E. G. Embler for defendants. As the decisions of the Court this morning are of general interest, we give the case detailed notice.

In 1853, the three county drain commissioners, acting under a law of 1861, in applying to the Probate Court for a special commission for the construction of a drain in Dexter township, failed to give notice of the same to the persons owning land through which the drain was to be cut. In due course of time a drain was laid out and completed under the name of "Dexter Drain, No. 1."

In 1883, the county drain commissioner attempted to clean out and widen the ditch, acting under the law of 1881. The cost of the same was spread upon the tax roll of the town of Dexter, and parties interested in the drain filed a bill to set aside the tax and enjoin its collection.

In giving his decision this morning, Judge Joslyn, sustaining the plaintiffs, held, first, that the commissioner of 1883 did not obtain jurisdiction because of their failure to serve notice of the application hereof, upon the owners of the land through which the ditch was cut. Second: That the commissioners in establishing the drain failed to state in their specifications of the same the width and depth of cut upon each man's land over which the ditch passed.

The decision is of special interest to the various drain commissioners and others.

Adam has come and gone, bringing a very fine show, a hot day, and a big crowd.

The visit of a large show to a city attracts a crowd from the moment it arrives at the depot until it leaves, after the evening performance is given, it is a very interesting sight to watch the unloading and loading of a show such as Forepaugh's, and his visit to our city last Saturday called out, very early in the morning, a large crowd of ladies and gentlemen to watch the unloading of the three long trains from Jackson. The operator at the Central told us that at 2 a. m. there were several ladies at the depot, who evidently were bound to be early enough to see the sights; at 3 a. m. there were at least two dozens ladies at the depot, among others. The unloading began at five a. m., and continued until perhaps 8 o'clock, a large number being in attendance through the whole.

Through the courtesy of press agent, Mr. C. A. Davis, we were favored with a special tour of the tents in the afternoon. Our visit was first to the menagerie, where the display of animals was fine, a special tent being devoted to Mr. Forepaugh, Jr.'s, large herd of twenty-eight elephants. The "Light of Asia," with an elephant about the same size, was given a special tent under the general menagerie canvass. Whether the elephant is a genuine sacred white elephant we are not competent to judge, suffice it to say that between the Light of Asia and the companion elephant there is a noticeable difference of color, the white elephant being of a light ash color. The specimen will be rated by all a very pretty one.

When our trip through the menagerie was finished, we took seats in the circus pavilion, and enjoyed a varied performance from the two rings and central stage. Space forbids our detailed notice of the same, as it also does of the very fine so-called "side-show," which we visited at the close of the afternoon entertainment.

By the way, we are also indebted to Mr. Connelly, connected with the press work of Mr. Forepaugh, for special courtesies of the afternoon. Forepaugh was in Detroit Monday, and has dates through the state during the week.

The Common Council.

The following business was transacted at the council meeting Monday night last:

The petition of Herman Labbe and five others for the construction of a sidewalk on the east side of Fourth street, from Packard to Madison, was referred to the sidewalk committee. Likewise the petition of A. F. Martin and four others for the construction of a sidewalk, plank or concrete, five feet wide, on the east side of Main, from Packard south to the Toledo railroad.

E. J. Knowlton and twenty-four others, residents of the Fourth ward, represented to the council that their ward, especially between Fourth, Ninth, Iggalls and Huron streets, is without any adequate water supply for use in case of fire; they therefore ask that two cisterns shall be put in—one at or near the crossing of Lawrence and Iggalls, the other at the crossing of Lawrence and State streets, or elsewhere in the ward as the council may deem best. Referred to committee on fire department.

To the same committee was also referred the communication in behalf of S. Granger, to the effect that though a regular member of Protection Hose Company for the last three years, he had received no pay for the last two years.

The finance report for the month of May was read and adopted. Orders amounting to \$496.50 were thus allowed. The street committee reported in favor of the petition of Thos. F. Leonard and others for laying a stone gutter on each side of Fourth street from Ann to Catharine streets. Report adopted. The property owners are at the expense of laying the gutter.

Some fifty resolutions by the sidewalk committee ordering walks built or repaired opposite the property of various owners were adopted.

On motion \$1,060 was transferred from the contingent to the general fund to meet the payment of the different bills audited Monday evening.

A motion to draw a warrant for \$238.86 from the dog tax fund in favor of the treasurer of school district No. 1, was adopted.

An ordinance, in substance as follows, was adopted: To require the construction of stone sidewalks, laid pursuant to the ordinances of the city relative to sidewalks, within certain limits of the city, namely, on Main street, from Liberty to Ann, on Huron street, from Second to Fifth, and on Ann street from Main to Fourth. Persons failing to comply with the terms of the ordinance shall be fined not less than \$25 nor more than \$75, and costs, to be recovered before any justice of the peace; and in default of payment of such fine, offenders shall be sentenced to the county jail not to exceed sixty days. The ordinance takes effect after due publication.

Permission was granted to the Ann Arbor Van Depoele Light and Power Company to erect, construct, complete and operate an electric light works to furnish light and power for use for chemical and mechanical purposes in the city. The company was empowered to use the streets, etc. If the company fails to erect the works in sixty days and any other works in sixty days and operation within three months from date, the authority granted by the council is forfeited. A clause giving this company the exclusive right to erect and operate works in the city for five years was stricken out.

The sum of \$105 was allowed to cover the city's share of the expense of erecting the same.

The application of a Miss Moore, of the University, filed last year, asking damages for injuries received from a defective sidewalk, was referred to the city attorney.

Following the monthly reports of the city officers the council adjourned.

Mr. TenBrook writes also the introductory and concluding chapters of the volumes.

We are indebted to Dr. A. L. Worden, of Des Moines, Iowa, for a detailed account of the recent medical alumni organization in his state. The account informs us about twenty-five were present who partook of a fine banquet given the association by the doctor. In the list of toasts we notice one to "Our Dean, Dr. Palmer." Dr. Worden was made president for the ensuing year, and Dr. Rose M. Upton, Marshalltown, secretary and treasurer.

The freshman and sophomore classes of the literary department had a fine tilt for several days last week in various rushtes and bat escapades. Late Friday night, just preceding Forepaugh and a big crowd, the sophs distributed very freely, and posted up in various public places, a paper headed "Attention Freshies!" the purport of which was that after 9 a. m., "no freshman wearing a class hat shall be allowed to appear on any public street, avenue, highway, alley, by-path, common or public garden, or in any hall, shed, or booth that is used as a place of public resort, within the corporate limits of the city," and that no freshman shall carry a cane upon or about any of the aforementioned places. "We are told by the paper that it was "resolved, that for each and every offense, the hat, cane, or anatomy of the criminal shall be liable to confiscation, or all three at the discretion of the executive committee. Signed (in blood), Ann Arbor, June 4, 1884. C. H. Smith, Secretary."

Monday morning in chapel President Angell gave the boys a talk, and the official usage stating that acts of a certain nature would be considered a "grave offense" adorned the bulletin board. All's quiet on the Huron now. Which class is ahead?
