### WORTHY Of Confidence.

AYER'S Sarsaparilla is a medicine that, during nearly 40 years, in all parts of the world, has proved its effi-cacy as the best blood alterative known to medical science.

sarsaparilla (extracted from the root of the genuine Honduras Sarsaparilla) is its base, and its powers are enhanced by the extracts of Yellow Dock and Stillingia, the Iodides of Potassium and Iron, and other potent ingredients.

Is your blood vitiated by derangements of the digestive and assimilatory functions? is it tainted by Scrofula? or does it contain the poison of Mercury or Contagious Disease?

He never nad enjoyed good health, was despondent and the great love he bore his mother, is the only thing that has kept him from committing the deed before, it is thought. He was an industrious young man, and

had a hard row in life, it is evident. At the January meeting of the horticultural society, in Adrian, in conversation with Secretary Garfield and Mr. Scott of Ann Arbor, we learned that both gentle-men were feeding surplus stock of Hubpard squashes to cattle, with the best of results. They considered them worth ten to twelve dollars per ton to feed stock. Our farmers had better make a note of this fact rather than sell at from three to five

lollars per ton, as many did last fall, in a glutted market. - Adrian Times. Of the death of Burton Alley, of Dexter, the Leader says: "Burton Alley, a member of the firm of Alley Bro.'s, departed this life on Wednesday morning, Feb. 11, 1885, in the 49th year of his age, of consumption. Deceased was born in Webster in the year 1837, and was married to Miss Ellen Carr in January, 1859. He commenced business life in Dexter in 1856, as a drug clerk for Dr. Wm. Dowlman, afterward worked for D. Warner, Smith & Alley, Beal, Smith & Alley. Commenced business with his brother James in 1860. At intervals he traveled for New York and Detroit houses, hoping the change might benefit his health. By

strict honesty and sterling integrity he won the respect and unbounded confi-dence of all who knew him. Such was his character for probity that, with little or no capital he established himself in the general mercantile business in Dexter, and for more than 20 years continued, with one brief interval, in the same business up to the day of his death. He has been a consistent member of the M. E. church for 28 years, and as far as health permitted, active in the work of his church. He has been sick for eleven years with the disease of which he died, but most of the time has been able to be about and attend to his business. In conversation he expressed strong hope in Christ, and since the death of his son has longed to depart and be with Denny. As a Christian citizen and business man he was much respected, and his departure is a great loss to our community. Of his own family only his wife and one daughter survive; but an aged mother, several brothers and sisters, and many personal friends remain to

mourn his death."

For real genuine hard work for more than five years without cessation, we will compare our record

Counting the Cost. The following article, from the Jackson Citizen, will interest many of our citizens,

loubtless, as it refers to this county quite pointedly: In the report of the senate committee on the Ionia house of correction some comparative figures are given showing the cost of conveying prisoners to that place. For services of sheriffs and constables there was paid out of the treasury in 1883 the large sum of \$17,770, while in 1884 the amount increased to the alarming sum of \$26,682, more than 50 per cent, in one year. Naturally we turn to the report for Jackson county and find that the average cost Rev. A. L. Crittenden and Elisha H. of conveying each prisoner to Ionia was smith are the only men now living in \$14.50, while from Washtenaw it was \$20.45; from Lenawee \$27 and from Kal-

amazoo county it was \$18.

The total expense given for the month of December for this purpose is \$5,312. Of this sum Jackson county received \$185.25, while Oakland county received \$534.75, Kalamazoo \$386 and Washtenaw county the amazing sum of \$1,247.95 or one-fourth of the whole amount. The recent report of the Jackson county board of supervisors bore heavily upon the justices and officers here; but it would be worth while to have them compare our record with that of Washtenaw. Ordinarily one would suppose that Jackson should have ten times as many criminals as Washtenaw, and the expense ought to be in the same proportion, but this report shows that Washtenaw county beats us about seven times in the matter of graboing fees from the treasury. Indeed it appears that Jackson is the lowest on the list of surrounding counties in this mat-ter of fees. It has been charged that Washtenaw beat the record in this way. Wherever a stranger out of work drifted nto town a constable immediately arrested him as a vagrant, and the justice be fore whom he was brought suspended sent-ence on him and told himto leave town. Befere he could get out of the corporation a second constable would arrest him on the second charge of vagrancy and in spite of law, justice or humanity he had o go to Ionia for six months. The justice got his fees, the officer made eight or ten dollars clear profit and everybody was satisfied with the deal, except possibly the poor fellow who was so cruelly wronged. In all the bills the fliocers charged for four hack fares, when in all probability neither officer or prisoner had any such luxurious mode of conveyance. The state paid for it and the officer pocketed the \$2 extra. The more this matter is probed the worse it is found to be, and

### A Questionable Scheme.

EDITOR COURIER :- An article in the Sunday issue of one of the Detroit dailies makes a somewhat novel proposition re- known or given. Since that time a letspecting the removal of the hospitals of the medical department of the university to Detroit. The scheme is to unite the Detroit medical college and the medical department of the university in a sort of 'You tickle me and I'll tickle you," combination. It is proposed that the Detroit college send its students to Ann Arbor for the preliminary studies, taking two years here and then have all the students attend the Detroit college in their senior year, because of the improved clinical advantages the large hospitals of that eity are supposed to furnish.

The proposition finds favor in the eyes of some of the professors it is stated, but how any one, having the best interests of the university at heart, can countenance it, is difficult to see. To be sure the attendance of the 140 students of that college for two years at Ann Arbor is tempting bait, but whether it would compensate for the loss of the senior class and the honor of graduating the same, is a ques-

life of ours seems to be."

From a copy of the Daily Denver Times of February 6th, we take the following account of the death of Mrs. A. S. Pettit, which was referred to in the last us of the Courier .

The people of Denver were shocked this morning upon learning of the death of Mrs. A. S. Pettit, the wife of the well known real estate man. Mr. and Mrs. Pettit were married June 4, 1884, so that up to the time of her death they had only been married eight months and one day. The day after Christmas Mr. Pettit took his wife east for a visit to his relatives in New York state and Michigan. and they returned home only a week ago to-day. Mrs. Pettit had been suffering for a long time with trachitis, a disease similar to croup. It is supposed that she caught cold on her eastern visit, which greatly aggravated her disease, and ultimately turned it into pneumonia, causing her death. She was attended by Drs. Bucknum and Steadman, and her case was not considered serious until night before last. After that time she continued to grow worse and died last night at 8 o'clock. Mr. Pettit is completely prostrated by the sudden death of his wife, and no arrangements for the funeral have as yet been made. However, it will not take place before Sunday, as her brother, who has been telegraphed for at Detroit, Michigan, cannot arrive before that time.

Mrs. Pettit was a Presbyterian and attended services regularly at the Central church. She was a highly accomplished lady and was possessed of a most amiable disposition. Always most considerate of the wishes of others than of herself, she was loved by all who knew her. Her father and mother, Mr. and Mrs. Chase, have been with her since her return home, and are very much affected by the loss of their daughter.

The disfiguring eruptions on the face, the sunken eye, the pallid complexion, indicate that there is something wrong going on within. Expel the lurking foe to health Ayer's Sarsaparilla was devised for that purpose; and does it.

About the only city in the state of Michigan too poor to pay one of its local papers for publishing an official report of the doings of its council is Ann Arbor. It would seem as though the people had a right to know what the city council was doing, and we believe that every petition, every resolution, every document of any kind coming before that body should be published in full, so that the people may know what their guardians are doing, and how they are doing it. The people have a right to know every transaction of the common council. and the city can afford to pay for its pub lication, as is done elsewhere.

### WE DO NOT CLAIM

that Hood's Sarsaparilla will cure everything, but the fact that on the purity and vitality of the blood depend the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, we are naturally led to the conclusion that a remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it, as Hood's SARSAPARILLA undoubtedly does, must be the means of preventing many diseases that would occur without its use; hence the field of its useful-ness is quite an extended one, and we are warranted in recommending it for all de-rangements of the system which are caused by an unnatural state of the blood.

Gentlemen—I was a great sufferer from Salt-Rheum on my limbs, for a dozen years previous to the summer of 1876, at which time I was cured by Hood's Sarsaparilla. The skin would become dry, chap, crack open, bleed and itch intensely, so that I could not help scratching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla (in the summer of 1876) they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that if I stooped over they would crack open and actually bring tears into my eyes. The first bottle benefited me so much that I continued taking it till I was cured I used one box of Hood's Olive Ointment, to relieve the itching. Hoping many others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am,

ANN ARBOR, Feb. 14, 1885.

C. H. Buhl, Esq.

Dear Sir—The undersigned members of the law faculty of the University of Michigan, desire to express their grateful sense of your munificence of giving your valuable law library for the use of the law department. It is not only the largest acquisition ever made in our department, but is intrinsically of great value in supplying a pressing want never yet met by the University appropriations. We have worked under great disadvantages in being confined for the student's mean's means of reference to a comparatively small collection of works of prime necessity. We have never had the facilities needful for the extended study of jurisprudence in the library. Our own work has had to be done by the aid of other libraries, and members of our classes who wished to follow out and verify doctrines full, have had to do much of that work elsewhere. Your handsome donation is very encouraging, both as showling an interest in the weliare of the University and as a recognition of the importance to the community of full and liberal culture in the scleace which deals most directly with the peace and good order of society. Whether your good example is or is not a harbinger of further benefits from generous men, it will secure you a lasting and honored remembrance among those who best appreciate by what means the interests of communities are elevated and most surely established.

Wishing you every good thing that may add to the comfort of a life well spent, we are your obliged friends and servants.

Hair restorative in the world is Hall's Hair Renewer. It cures all diseases of the scalp, and stimulates the hair glands to healthful action. It stops the falling of the hair; prevents its turning gray; cures baldness, and restores youthful color and freshness of appearance to heads already white with age. The following are a few illustrations of what is done by

Vegetable Sicilian HAIR RENEWER:

MRS. HUNSBERRY, 344 Franklin Ace., Brooklyn, N. Y., after a severe attack of Erysipelas in the head, found her hair—already gray—falling off so rapidly that she soon became quite bald. One bottle of HALL'S HAIR RENEWER brought it back as soft, brown and thick as when she was a girl.

\*\* MR. Kesling, an old farmer, near Warsaw, Ind., had scarcely any hair left, and what little there was of it had become nearly white. One bottle of HALL'S HAIR RENEWER stopped its falling out, and gave him a thick, luxuriant head of hair, as brown and fresh as he ever had.

Forestry.

The following article, from the pen of Prof. Emil Baur, of this city, appeared in the Evening News of Feb. 12th, and is commended to the people of this state. If it could be read by every man, woman and child in the State of Michigan, it would be a good thing. If it could be read by every member of the legislature, and acted upon, it would be better still. Why will our law makers not consider these things that are of such vital interest

to all the people ? Is it not time that petitions were sent to the legislature from all parts of Michigan, especially from the counties that border on our lakes, bays and large rivers for the enactment of laws for the protection of trees along said water courses and for the plantation of forest trees in said localities by exemption from taxation of such standing forests and tree plantations where the fires and the ax have left a bare,

From what we have heard on the topic of forestry at the Washtenaw Pomological society at Ann Arbor, from men like Prof. Steere, Dr. Garrigues and others, we are convinced that the climate of our state is injuriously affected, and the danger and damage from winds, floods and nundations greatly increased by the destruction of our forest trees. Laws already tion of trees upon the highway should be carried out, and overseers should promptly allow 25 cents per tree planted upon the highway according to law, and prevent the cutting down of trees on the highway. Why not plant fruit and nut trees alo the highway, as is done in Germany?

Good housekeepers are frequently annoyed by oil marks on papered walls against which careless or thoughtless persons have laid their heads. These unsightly marks may be removed by making a paste of cold water and pipe clay, or fuller's earth, and laying it on the surface without rubbing it on, else the pattern of the paper will then likely be injured. Leave the paste on all night. In the morning it can be brushed off and the spot will have disappeared, but a renewal of the operation may be necessary if the oil spot is old.—Philadelphia Press.
