From St. Nicholas, ELIZABETH ZANE.

This daunt'ess pioneer maiden's name
Is inscribed in gold on the scroll of fame;
She was the lassie who knew no fear
When the tomahawk gleamed on the far frontier.
If deeds of daring should win renown,
Let us honor the damsel of Wheeling town,
Who haved the saven with deep disdam— Who braved the savage with deep disdain— Bright-eyed, buxom buxom Elizabeth Zane.

They were close beset by the dusky foe;
They had spent of powder their scauty store,
And who the gauntlet should run for more?
She sprang to the portal and shouted, "1;
'Tis better a girl than a man should die!
My loss would be but the garrison's gain,
Unbar the gate!" said Elizabeth Zane,

The powder was sixty yards away,
Around her the foeman in ambush lay;
As she darted from shelter they gazed with awe,
Then wildly shouted, "A squaw! a squaw!"
She neither swerved to left or right
Swift as an antelope was her flight,
'Quick! open the the door she cried, amain,
"For a hope forlorn! 'Tis Elizabeth Zane!" No time had she to waver or wait,

No time had she to waver or wait, Back she must go ere it be too late; She snatched from the table its cloth in haste And knotted it defly about her waist. Then filled it with powder—never, I ween, Had powder so lovely a magazine; Then, scorning the bullets, a deadly rain, Like a startled fawn, fled Elizabeth Zane. She gained the fort with her precious freight;

She gained the fort with her precious freight;
Strong hands fastened the oaken gate;
Brave men's eyes were suffused with tears
That had there been strangers for many years.
From flint-lock rifles again there sped
Gainst the skulking redskins a storm of lead,
And the war-whoop sounded that day in vain,
Thanks to the deed of Elizabeth Zane.

Talk not to me of Paul Revere,
A man, on horseback with naught to fear;
Nor of old John Burns, with his bell-crowned hatHe'd an army to back him, so what of that?
Here's the beroine ploup and brown,
Who am the gauntlet in Wheeling town,
Here is a record without a stain—
Beautiful, buxom, Elizabeth Zane.

The fact is that Madame Nilsson had been asked by some nuns who keep a school for poor girls if she would be so extremely kind as to sing once to those little ones, as it would make an impression on them which they would never forget. Mme. Nilsson, too happy to do so much good with so little I was afflicted with Eczema on the Scalp, Face, Ears and Neck, which the Druggist, where I got your remedies, pronounced one of the worst cases that had come under his notice. He advised me to try your CUTICURA REMEDIES, and after five days' use my scalp and part of my face were entirely cured, and I hope in another week to have my neck, ears, and the other part of my face cured. HERMAN SLADE,

She told Her Majesty's bandmaster that she was very sorry not to be able to accept the Queen's invitation for that evening, as she had an engagment which she could not evade, and that at any future opportunity she would be happy to receive Her Majesty's command, but that she could not sing at court that evening. Not obey the Queen's command? Not obey an order to sing at court? Why, every artist coming to London, desired, before all, the honor of being invited to court! CUTICURA REMEDIES are sold everywhere. A QUESTION.

It is a question among those who have the interest of the republican party at heart in Washtenaw county, whether or not such articles as appear in the Detroit Post from time to time, and especially the letter in the last Sunday edition, relative to the politics and politicians of this county, are not productive of injury instead of good to the republicans.

These articles show a division in the democratic ranks to be sure, but does the parading of these divisions and dissensions before the public not tend to heal them up rather than to widen them? Does not the publishing of these petty party quarrels not give the leaders of that party just the pointers that republicans, by all means, should conceal from them? Do not the democratic leaders know better where and how to patch up their party after the republicans have pointed out the rents, than they would had silence been maintained?

it the better he succeeds.

These are simply questions that have arisen in the minds of some republicans hereabouts. Whether they are right or or wrong is a question also.

calm(?) argumentative(?) able(?) dispassionate(?) convincing(?) editorial(?) last week, refers to a "hasty contemporary's screed," its "lamentable ignorance" contemporary" referred to were in search of knowledge, that remarkably brilliant futile; everything that is worth knowing could evidently be found in the noddle of commentary on university affairs, and "affairs in general."

But there are some things upon which this newspaper Boreas fails to enlighten its contemporary or the people. It makes no difference with the princi-

ple involved whether Prof. D'Ooge is to be absent one year or ten years. "Why is "the university's fair name

and reputation at stake" in aiding the maintenance of a college in Europe? Some of the tax-payers of Michigan would be pleased to know why they should be taxed to support a foreign institution when it is difficult for them to pay the taxes necessary to carry on their schools at home? What benefit are the people of Michigan "in general" to derive from this school

Is it possible that "one of the university's sons is taking advantage of the privileges there offered"? and the people of Michigan forced to pay \$2,200 per year for that precious privilege! Should the people not be grateful for such privileges? Or rather is it not this sort of extravagance that renders it difficult for the true friends of the university to obtain from the legislature the necessary appropriations for its legitimate expenses? as was painfully apparent at the last session of the legislature.

Another point which our contemporary, in its zeal to strike us, has entirely overlooked. The pay of the janitors which was reduced from \$500 to \$450 per annum. The question naturally suggest itself, if the people of Michigan can afford to pay \$2,200 yearly to aid one student in pursuing his education in Europe, can they not afford to pay a workingman, who puts in ten or more hours a day (without any vacation) a living salary?

These ideas may not adjust themselves to the capacity of the individual who in his ardor to call his neighbor hard names and display his own erudition, forgets the use of reason and candor in his studied(?) article; but there are many of the common people who would be glad to faithfully and earnestly discharged the have the matter satisfactorily explained.

It is most assuredly a matter of congratulation among us Yankees, that the Puritan won the first of the series in the great international yacht races now being contested in New York harbor. It is to be hoped she will be as successful in the contests to come and send the English Genesta home without the Queen's cup.

Since Mark Twain wept over the grave of his primal ancestor, Adam, there has been nothing more pathetic than the meeting of Bret Harte and Joaquin Miller at the grave of Dickens, as described by the latter. Their eyes filled with tears, they clasped each other's hands in silence, and though strangers before, went out of the sanctuary sworn and eternal friends. It was real affecting.—

A Searcher After Knowledge.

EDITOR COURIER:-The article of "A Friend of the University," in the last COURIER, evidently written from the stand point of a professor, tempts a few inquiries from the stand point of a citizen, who considers himself a good friend of the University, also,

Granting that "The American School by the friends of a few prominent instiversity of Michigan is one," we have yet to learn of what particular benefit to the fore we present the following questions:

If the writer is not in error there have been several professors sent abroad at public expense. If that is a fact, we agree with the article in the COURIER that such

action is justly subject to censure. Another query. If Prof. D'Ooge's expenses are to exceed his salary to such an extent as asserted, why is he anxious to make such a sacrifice? If it is not for his personal advancement as a professor or in the attainment of knowledge, why loes he seek such an outlay of money?

Rev. R. B. Pope's Pastorate.

At a regular session of the quarterly conference, of the M. E. church, Monday evening, the 7th inst., the following resopressive of the feeling of the members in reference to parting with their pastor,

Resolved, By Quarterly Conference of said Church,

1. That we hereby express to him our appreciating sense of the efficiency of his dispensation of the Divine word. His general Ministry has been marked by signal ability.

2. We recognize with much pleasure the prominence of his local qualities. In this endowment God has specially favored him, thereby giving to him a power for enlarged influence and usefulness.

3. We would give special prominence also to his quenchless zeal in the Master's work. He has not only been indefatigable in labor in his own parlsh, but his devotion to the work has often taken him to regions beyond, where at a sacrifice of time and money he he has wrought to help poor churches, taking no remuneration in return.

4. His sympathy for others in affliction and want is a conspicuous trait in his character. Especially is this shown in the chamber of the sick, at the couch of the dying, and while mingling with the bereaved.

5. His charity is such that his friends often fear that his liberality is too profuse; be that as it may, he thus secures the approval of the Master who ever loves the cheering giver.

6. In going from us Dr. Pope and his famwill carry with them our aarm, christian tian sympathies and our prayers will follow them, and at any time when opportunity serves, we shall most cordially greet them at our religious meeting, at our social gatherings, and at our homes.

Among other things the much disputed question, "What is smut?" was discussed at length. Two opposing views were taken and warmly contended for.

Rev. David H. Taylor.

Rev. David H. Taylor, a minister of the Congregational church, died at his home in the 6th ward, Friday last, aged 56 years, of consumption. He had filled pastorates in Saginaw, Lapeer, Fenton, and other cities of the state, and was greatly esteemed wherever known. He graduated from the University with the class of 1857, and his funeral sermon was preached Monday by one of his class-

A telegram was received here by Dr. Riker yesterday announcing the death of Rev. D. H. Taylor, at his home in Ann Arbor, at 3:45 yesterday morning. Mr. Taylor has been slowly declining for a year past with that dread disease, consumption, and it is with feelings of deepest sorrow that it becomes the duty of the Independent to chronicle his untimely death. For a number of years Mr. Taylor occupied the puipit of the Presbyterian church in this village, ably and well—an earnest christian worker, devoting his whole time and ability to the labors connected with his ministry. On leaving Fenton he took up his residence at Ann Arbor, where he pursued his studies at the University and took the degree of Doctor of Philosophy. He was an earnest student and profound thinker, and cut off as he is in the mature years of his studentship, his death is made especially sad. The news of his death reaches us too late to make an extended notice of his life and work, but we will take occasion to do so hereafter. The funeral services occur at Ann Arbor next Monday afternoon.

ABSENCE OF MIND.

A Ballad commemorative of a recent accident in the First Ward

In fair Ann Arbor's famous town
There lives a timid man,
Who purchased him a "shooting-iron"
When burglar raids began. Then with a cow-boy's recklessness He placed it ev'ry night, With watch of gold and wallet plump, Beneath his pillow white.

And ev'ry morn when he arose Returned it to its case, And wound his golden "turnip" up To keep old time in place.

But once upon a hapless morn,
When merry elves of sleep
Had tangled up his thoughts in probLems intricate and deep,
He placed the time in weapon's case,
And worked with might and main
To wind his "shooting-iron" up—
B:t labored all in vain.

At this in mute astonishment,
The weapon of defense
Lay quite dumfounded for a moMent;—then it took offense. T' avenge th' indignity it chose
A mirror for a targe,
And knocked it to a million atoms
By premature discharge,

In the first flush of his excite-Ment, and alarm and fright, The man maintained some one had cha ged His watch with dynamite. He now has swapped his weapon off,
And is of the belief.
A pitchfork's good enough to prick
The conscience of a thief.

Mrs. Thomas Fitzimmons, living on section 3, Ann Arbor town, near Northfield, met with a serious loss last Monday afternoon. The engine of a thresher engaged in threshing wheat at her place had fired up using ralls for fuel. A spark found its way to the wheat stack and in an instant, nearly, it was all ablaze. Water happened to be plenty, about twenty men were there to use it. and what is wonderful to releate, the flames were so kept in check that the barn, though only ten or fifteen feet distant from one of the stacks was saved. It is estimated that about 300 bushels of wheat were destroyed. By using wood in the engine the insurance policy upon the property was vitiated, so had the barns burned not a cent of insurance could have been collected. Washtenaw mutual holds a policy of \$330 on one barn, \$200 on another, and \$750 on personal property, but can not be called upon for any loss.

DIED.

KENDALL—On Thursday, the 10th of Sept. 1885
Walter Kendall, of Foster's Station, aged 45

years.

Dear father has gone from this strange world of ours,
No more to gather its thorns with its flowers;
No more to linger where sunbeams must fade,
Where on all beauty, death's fingers are laid,
Weary with mingling life's bitter and sweet,
Weary with parting and never to meet,
Dear father has gone to yon golden shore,
To sing with the loved ones who have gone long before.

Dear father is resting from sorrow and sin, Happy where earth's conflicts enter not in, Joyous as birds when the morning is bright When the sweet sunbeams have brought us light

But we know we shall meet him if Thy promise we keep.

Angels were anxiously longing to meet. One who walks with them in heaven's bright street. Loved ones have whispered that father is blest, Free from earth's trials and taking sweet rest, Yes! there is one more in angelic bliss,—One less to cherish and one less to kiss. Yes, we hope he has gone to that heavenly shore. To dwell with the angels and God evermore.

BILIOUSNESS. Bilious symptoms invariably arise from indigestion, such as furred tongue, vomiting of bile, giddiness, sick headache, ir-regular bowels. The liver secretes the bile and acts like a filter or sieve, to cleanse impurities of the blood. By irregularity in its action or suspensions of its functions, the bile is liable to overflow into the blood, causing jaundice, sallow complexion, yellow eyes, bil-ious diarrhea, a languid, weary feeling and many other distressing symptoms. Billious-ness may be properly termed an affection of the liver, and can be thoroughly cured by the grand regulator of the liver and biliary organs, BURDOCK BLOOD BITTERS. It acts upon the stomach, bowels and liver, making healthy bile and pure

blood, and opens the culverts

A Safeguard. The fatal rapidity with which slight Colds and Coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYEN'S CHERRY PECTORAL.

Nothing else gives such immediate relief AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Mc., says:

"Medical science has produced no other anodyne expectorant so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago,

"Il., who says:—
"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of so greatvalue as AYER'S CHERRY PECTORAL, for treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious beenchial and pulmonary affections."

AYER'S Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered to the public. There is not a household in which this There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numberless instances, cured obstinate.

in numberless instances, cured obstinate cases of chronic Bronchitis, Laryngitis, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treat-ment of Croup and Whooping Cough. These are all plain facts, which can be verified by any body, and should be remembered by everybody.

A writer in the Whitmore Lake Sun has this to say of Ann Arbor's R. R.: "The T. A. A. & N. M., is constantly managed by gentlemanly officials and employees and is becoming a good road. One thing we noticed that was a very pleasing attraction, and a thing of very rare occurrence in railroads; that is the directness of this road. It runs in a conous straight line for many miles. In Mrs. Benj. Day, Mrs. J. N. Bailey, Mrs. I the whoels and so lost his life. He was a man highly respected, and the sad affair causes much sympathy for the wife and family in their terrible affiction.

The university city has been again hon ored by the selection of Prof. A. B. Prescott as one of the vice-presidents of the American Pharmaceutical Association its recent session at Pittsburgh.

At a meeting of one of the commi tees of the board of regents Monday even ing, J. C. Knowlton was elected assistant professor in the law department, at a sala ry of \$1,200 per year. Prof. M. W. Harrington was elected to the chair of physics. The chair of astronomy had been previously filled by the appointment of Prof. J. M. Schaeberle.

The Chinese exhibit at the university, which has been a "drawing card" for excursionists from all over Michlgan to Ann!Arbor, still re-mains unpacked.—Evening News.

And from the present scare about build ngs tumbling down, it might be just as well for the "exhibit" if it is never unpacked in the museum building. If one can judge by appearances, there isn't a building in the city in a more shaky cor dition than the new museum building. If it doesn't all cave in some day, appearances are mighty deceiving.

The Chicago Inter Ocean has the folow item in reference to a U. of M graduate: "Prof. Abram Van Eps Young, di rector of the summer school of chemistry at Harvard college, has accepted the chair of chemistry and mineralogy at the North-western University. Professor Young took his baccalaureate degree at the University of Michigan. He has been twice elected Fellow of Johns Hopkins University, and at two different times has studied chemis-try in Europe."

The plans for this feet in size, two stories high above the basement, to be covered with a hip roof. According to the present plans the first floor will be used for iron working machinery of various kinds, and a superintendent's office and sitting room will also be located upon this floor. The wood working machinery will be upon the second floor with carpenter shop and pattern making machinery. In the basement wil be located the testing and hydraulic ma-chinery, experimental engine, and other apparatus for experimental purposes. The buildings occupied at present by the mechanical department are to be used as engine and wash rooms.

To the above might properly be added the following quotation from the columns of the Adrian Press of Sept. 11th:

When a lady announces her intention to take the veil, it is understood that she goes into seclusion, renounces the world and becomes a nun. But here comes Will Payne, of Ann Arbor, a son of Prof. W. H. Payne, and announces his intention of publicly taking the Vail, with proper religious ceremonies, on the 17th of September. Anno, "Domino" eighteen hundred eighty-five o. But he does not go into seclusion and become a nun thereby. No nun for him, no, none, and when he says he is going to take the Vail, he means Miss Estelle Vail, one of the brightest and most estimable young ladies of Lenawee county, and a daughter of Mr. and Mrs. Hiram Vail of Seneca. Though this ceremony will give her a Payne for life, she does not shrink from the ordeal, but seems to look forward to the event with the most pleasant anticipations as the culmination of events that bring life-long happiness. Rheumatism

It is an established fact that Hood's Sarsaparilla has proven an invaluable remedy in many severe cases of rheumatism, effecting remarkable cures by its powerful action in correcting the acidity of the blood, which is the cause of the disease, and purifying and enriching the vital fluid. It is certainly fair to assume that what Hood's Sarsaparilla has done for others it will do for you. Therefore, if you suffer the pains and aches of rheumatism, give

this potent remedy a fair trial.

A Positive Cure. "I was troubled very much with rheumatism in my hips, ankles, and wrists. I could hardly walk, and was confined to my bed a good deal of the time. Being recommended to try Hood's Sarsaparilla, I took four bottles and am perfectly well. I cheerfully recommend Hood's Sarsaparilla as one of the best blood purifiers in the world." W. F. Wood, Bloomington, Ill.

I have been afflicted with rheumatism. Before 1883 I found no relief, but grew worse. I then began taking Hood's Sarsaparilla, and it did me more good than all the other medicine I ever had." H. T. REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder. "I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances.

E. G. Love, Ph.D." "It is a scientific fact that the Royal Baking Powder is absolutely pure.
"H. A. MOTT. Ph.D."

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious sub-stance. Henry Morton, Ph.D., President of Stevens Institute of Technology." "I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome. S. Dana Hayes, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American Institute, New York, and at State Fairs throughout the country. No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world. Note-The above Diagram illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound

more than ordinary kinds, it is far more economical, and, besides, affords the advan-

tage of better work. A single trial of the Royal Baking Powder will convince any

fair-minded person of these facts. * While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strengt are to be avoided as dangerous.

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

THE CREAT ROCK ISLAND ROUTE Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted road-bed; smooth tracks of continuous steel rail; substantially built culverts and bridges; rolling stock as near perfection as human skill can make it; the safety appliances of patent buffers, platforms and air-brakes; and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and the Missouri River are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars, in which elaborately cooked meals are leisurely eaten, "good Digestion waiting on Appetite, and Health on both." Between Chicago and Kansas City and Atchison, are also run the Celebrated Reclining Chair Cars.

THE FAMOUS ALBERT LEA ROUTE Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route, Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Newport News, Richmond, Cincinnati, Indianapolis, and Lafayette and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.
