CONSTIPATION

There is no medium through which disease so often attacks the system as by Constipation, and there is no other ill flesh is heir to, more apt to be neglected, from the fact material inconvenience may not be immediately felt from irregular action of the bowels. When there is not regular action, the retention of decayed and effete matter, with its poisonous gases, soon poisons the whole system by being absorbed into it, causing piles, fistula, headache, impure blood and many other serious affections. The Ann Arbor papers are busy in discussing the lawlessness, disorder and general hoodlumism prevailing in that city. The COURIER, without at all disputing the facts alleged by the others, declares that they ought to keep still about the matter, and not let the world find out how bad a place Ann Arbor is. This is about the logic of the Couralier's protests, and it does not seem to be good. The most effective way of suppressing any evil doing which the authorities fail for any reason to suppress, is to give it the clearest publicity; and the suppression of evil doing is more important to the welfare of a community than the name of it.—Ypsilantian.

This sounds very much like the unfairness of the Ypsilantian in olden times. It was hoped that a change would do away to a great extent with that paper's but it doesn't seem to do so. Nothing good can come out of this place in the reputed evil deeds are magnified as with a powerful glass.

Perhaps they are purple-and if they are not they should be, for the page devoted to them could not be improved upon very well. Certain it is that blue would not enhance their beauty. When this critical critic says: "Nor does one relish the name of fairy lilly for mountain flax," he simply lies about it, for nearly every one does relish it. In fact we are inclined to believe that the one who wrote that criticism had better go and tone up his system a little. He'll (or she'll) feel better afterward. There is not an illustration among the twenty-four but deserves words of praise-some of them being extremely delicate and beautiful. The letter press also is perfect.

SILVER COINAGE.

The impression is becoming quite general that the continued rapid coinage of silver dollars, far beyond the demand for them, is threatening the currency system of the country. This makes the subject at | creditors as likely to affect their relations.

CITIZENS' LEAGUE REPORT.

In another column will be found the report of the doings of the Citizens' League for the past year. We believe in the League, and that its work is a good one. We are in full sympathy with its efforts to make this community a better and purer one. But it is a question whether any benefit will come from parading in the public prints, to be scattered broadcast over this state, some of the assertions therein made. It gives an impression abroad that the facts in the case do not justify, and works an injury to our city unjustly. The good points and good things of Ann Arbor are carefully excluded from one's mind when reading such a report, and the bad things are made to appear worse than they really

One other thing might be mentioned in this connection. The executive committee are in error in stating that the attention of the present council has been called to violations of laws by petitions from themselves or any one else. Not a petition of the kind has been presented to this council, and consequently has not been "insultingly received" as stated, and that part of the report is an injustice to the members of the council. When a body of this kind sanctions a document like the one published, it should be careful and tell the truth. Still further many people of Ann Arbor will read the last paragraph of the report with many grains of allowance—but people outside the city will probably swallow the whole thing.

In the bright little city of Caro, they have recently recovered from a diphtheria scare. There were several cases among children, two proving fatal. And now they have traced the disease to a well in the school grounds, the water from which was used to supply the schools. The analvsis showed the water to be in a villainous liquid. The soil of Caro, like the soil of Ann Arbor, is porus, and impuriities soon leach through into the wells and poison the water. This should be a warning to other places than Caro.

The Supreme Court of Michigan has recently decided that the city of Albion must pay a judgment of nearly \$3,500 as damages because of an accident caused by a defective side walk." So says an item going the rounds of the press. This is a warning that other places should heed. Other cities are liable if they have defective walks, and it would be well for cities and villages to look well to their

The Citizens' League.

the Citizen's League has been prepared by the executive committee:

At the time of organizing the Citizens' League of Ann Arbor, it was the hope and wish of its members that its work might consists imply in assisting the city officials to enforce the laws as they stand on the statute book, especially with reference to the lilegal sale of liquor and the maintenance of gambling dens and houses of prostitution.

At different times, by respectful petitions, the executive Committee has called the attention of specific/state laws and city ordinances. In every case these petitions met with an insulting reception and it soon became evident that whatever was done by the Citizens' League must be done indepently and at its own expense. The amount received from annual dues was small but enough to warrant the commencement of regular work.

Accordingly action was begun against Mary Schaeffer, of the 5th ward for selling whisky without a U. S. license and her trial in Detroit would have resulted in conviction, had not the case been withdrawn on condition of her leaving Ann Arbor. Complaint was also made against her in a justice court here, which resulted in her being convicted and sentenced to pay a fine of \$59.00 and \$29.00 costs and be imprisoned in case she did not. sentenced to pay a fine of \$50,00 and \$29.00 costs and be imprisoned in case she did not leave the city at once with her family. She paid the fine and costs and left the city forthwith

with.

In January complaints were made against Oscar Garrison and Fannie Garrison for keeping a bawdy house. Mrs. Garrison deposited \$50 with the justice to secure her recognizance and then left the city. Before leaving she assigned said sum to her attorney, to whom, upon the advice of the prosecuting attorney, it was paid less the costs and \$10 to the League. Another warrant was issued but she has remained away ever since. Her husband left the city before the warrant could be served.

In February complaints were made against Charles Allen and Sata Allen for keeping a bawdy house. Upon the advice of the Citizens League defendants were discharged on condition of leaving the city. They left im-

In July complaint was made against John Hoepich for selling liquor to minors. The complainant asked to have the case dismissed because it appeared that the defendant acted under coercion on the part of his em-

acted under coercion on the part of his employer.

A large amount of "Dead work" has been done by various members of the League, but these are the only cases in which much has been accomplished. The most serious embers accomplished. The most serious embers assument has been occasioned by the lack of sufficient means, individual members of the executive committee making frequent donations when the treasury was empty. Is there any need of work? We are sorry to answer, "Yes, very much." Houses of prostitution still exist, unmolested by the city authorities. Saloons are opened via side door or back door on Sundays and after hours at night. Students aud minors have no difficulty in getting liquor or finding gambling places. One student informs the committee that he was invited to two gambling places before he had been in the city two days.

The prospect of co-operation with the city authorities appears smaller now than when their League was organized. The common bouncil seems determined on imposing no restraint upon thesale of intoxicating liquors, no action being taken when their attention spublicly called to the notorious violation of state laws and city ordinances by saloon (seepers whose names are given. The public prints gave the name of the proprietor and he location of one of our five gambling dens ome weeks ago, and still it flourished. If his state of things is to continue, if our city filicials are bent on giving free reign to saloons, gambling dens and houses of prostituion, it behooves all good people who have he welfare of Ann Arbor at heart to unite as ne man in the most vigorous warfare against il violators of law. Some years ago, I remember of going to church, and an old gentleman preached about some men and women who came over to this country a good many years ago, for what they called "freedom to worship God." A few years ago there was a good deal of excitement in San Francisco. Some classes of people that they called the hoodlum classes elected men to office that favored them in every way. The result was, no gambler could be effectively 16 years of age, 28; idiots, 9; blind 2; prosecuted, and every effort to carry out the laws against the law-breaking classes was effectually hindered. The officers were known as the "hoodlum officials." Now this happened the other side of the Rocky Mountains. I suppose it would be impossible for a similar thing to happen upon this enlightened side of the Rockies. I should feel like knocking a man down who should suggest that such a calamity could happen in these enlightened Eastern communities. But what confuses me is to get a proper name for the officials in any community who do not really favor the hoodlum classes (for that is impossible), but who strong-

ly appear to do so. I understand a gentleman by the name of Sherman, living in Ohio, found out this fall that the negroes in South Carolina and Alabama were prevented from holding free and unrestricted political meetings, and that he brought the matter before the citizens in Ohio in such a way, that the majority of them voted this month that the thing was wrong, and they threaten to have a new President if the thing is not changed. Do you know anything about this man Sherman? Is he a kind man? Does he care for anybody but the negroes in the south? Do you think we could get him to bring the matter before the people of Ohio so that they would vote in favor of our having free and unrestricted religious meetings in Michigan? I could mention many other things which have tended to unhinge my supposed connection with the nineteenth century. But perhaps I have encroached too largely upon your time.

Burdette has a peculiar drawl in afternoon and evening, in Shakespeare. his speech, somewhat after Mark Twain, with this difference: Twain's is one continuous drawl with no rising or falling deflection; Burdette soars up and down as occasion demands. The story recited by the lecturer was a familiar one, got off in an entertaining manner, and gave general satisfaction. The listener was not made much wiser by listening, but he enjoyed what he heard. It was funny.

Louise Pomeroy, one of the finest actors on the American stage to-day, is to appear at the grand opera house this week, three times: Friday evening in "Hamlet," Saturday evening in "The Twelfth Night," and Saturday afternoon matinee in "Romeo and Juliet." She is supported by a good company, and the kindly feeling manifested toward her in the engagement of last week gives evidence of a grand reception for these three appearances. For a lady to take the part of Hamlet is indeed a trying test, but in assuming this character Miss Pomeroy leaves nothing to be desired. The fand rapidity with which slight Colds and Coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other ano-

"Medical science has produced no other ano-dyne expectorant so good as AYRR'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lynge." The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of so great value as AYER'S CHERRY PECTORAL, for treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious escuchial and pulmonary affections."

AYER'S Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it.

well by it.

AYER'S CHERRY PECTORAL has,
AYER'S chertages, cured obstinate in numberless instances, cured obstinate cases of chronic Bronchitis, Laryngitis, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as ment of Croup and Whooping Cough. These are all plain facts, which can be verified by anybody, and should be remembered by everybody.

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points W est, Northwest and Southwest.

The Rock Island system includes in its main line and branches, Chicago, Jolie, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Les, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns, villages and stations.

Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted road-bed; smooth tracks of continuous steel rail; substantially built culverts and bridges; rolling stock as near perfection as human skill can make it; the safety appliances of patent buffers, platforms and air-brakes; and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and the Missouri River are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars, in which elaborately cooked meals are leisurely eaten, "good Digestion waiting on Appetite, and Health on both." Between Chicago and Kansas City and Atchison, are also run the Celebrated Reclining Chair Cars. THE CREAT ROCK ISLAND ROUTE

THE FAMOUS ALBERT LEA ROUTE

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route, Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of lowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Newport News, Richmond, Cincinnati, Indianapolis, and Lafayette and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

O fly,
The cause of much profanity!
Go die,
Dammed fly,
Thou Teaser of humanity!
The autumn comes, the summer dies,
Thou'rt powerless to tantalize.
Ha! Ha!

The cold
Takes hold
Of thee at night; I'm glad of it!
Ah, me!

A Strange Community.

Mounting my pony early in the mornng, accompanied by two stout-hearted ellows, who, like myself, were bent on penetrating the gloomy unknown, we were soon twenty miles east of the great state of Colorado and in the extreme southwest of Kansas. Hill, mountains canvons stretched all around us Hastening obward, we were soon in a beautiful town, the subject of our sketch.

Warrant stamped on every shoe. As the town be well to give its locality It is southwest of Kansas. The valley is some ten miles wide at this place, and the soil is very fertile. It is called Viorle,

and has a population of 1,000.

Viorle is a distinct town. It makes its own laws, passes sentence of death, regulates all matters of equity and dictates the religious and social status. Viorle has no hotel, no place for a stranger. We could get nothing to eat only at private houses. Viorle wondered at us getting there, and sternly discussed the propriety of ejectment. It had been a long tin since strangers were in their midst. However, after a long parley and due deliberation we were permitted to remain. The town was laid out and settlement commenced by a company of religious bigots in the spring of 1868, since which time select families have been added. In the beginning it was decreed that all things should be held in common.
