KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected,
the disease perpetuates its taint through
generation after generation. Among its
earlier symptomatic developments are
Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas,
Purulent Ulcers, Nervous and Physical Collapse, etc. If allowed to continue, Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases,
Tubercular Consumption, and various other dangerous or fatal maladies, are
produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effectual an alterative that it eradicates from ual an alterative that it eradicates from the system Hereditary Scrofula, and the kindred poisons of contagious diseases and mercury. At the same time it en-riches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

Is composed of the genuine Honduras Sarsaparilla, with Yellow Dock, Stillingia, the Iodides of Potassium and Iron, and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe AYER'S SARSAPARILLA as an

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine, in the world.

BILIOUSNESS.

Bilious symptoms invariably arise from indigestion, such as furred tongue, vomiting of bile, giddiness, sick headache, irregular bowels. The liver secretes the bile and acts like a filter or sieve, to cleanse impurities of the blood. By irregu-larity in its action or suspen-sions of its functions, the bile is liable to overflow into the blood, causing jaundice, sallow complexion, yellow eyes, bil-ious diarrhea, a languid, weary feeling and many other distressing symptoms. Billous-ness may be properly termed an affection of the liver, and can be thoroughly cured by the grand regulator of the liver and biliary organs, BURDOCK BLOOD BITTERS. It acts upon the stomach, bowels and liver, making healthy bile and pure blood, and opens the culverts and sluiceways for the outlet of disease. Sold everywhere and guaranteed to cure.

Captain Ericsson furnishes the serious war paper of the number, which is both important as a contribution to history and interesting to the general reader, since it describes the principals of construction of the original Monitor, and the performances of "The Monitors" as a class, from the point of view of the inventor. A LEGISLATOR'S STORY.

The peculiar political changes which have occurred in Michigan within the past few years, causing it to be transferred from the list of surely Republican States to that of doubtful ones, give a seasonable in-terest to a story told by Mr. M. J. Ludington, Jr., of Verona, that State, an ex-member of the Michigan Legislature. Mr. Ludington, who is one of Verona Mills' most progressive citizens, was elected to the progressive citizens, was elected to the Legislature by an appreciative constituency some six years. That Mr. Ludington has not figured largely in public life since he returned from the State capital is due to a peculiar concatenation of circumstances that aptly illustrate by what apparently trivial matters a political career may be made or unmade:

"The second day of August 1879" in

"The second day of August, 1879," in the honorable gentleman's words, "was a very hot day, and I ate a hot dinner and got very warm. I got into my buggy after dinner and started toward Verona Mills. I had driven about three miles when I met a Northwest wind and hail storm. I got a little wet and became chilled. I drove on home, sixteen miles distant, and when I reached there felt sick. I went to bed and my wife made me some ginger tea. but not enough to sweat me. morning a pain, sharp and piercing as a knife, caught me in the ankles and I could scarcely step. The next day I could not walk at all. We did everything we could think of, with wormwood and vinegar, smartweed and other remedies, but with no good effect. Neither my wife nor I uld discover what the matter was

"In three or four days I could not stir nor turn in bed. A doctor was called in who said that I had rheumatism of the worst kind. He relieved me a great deal and drove out the pain wherever it caused swellings. I got better in six months and was able to walk a little, but the disease settled in my ankles and continued to trouble me. Last October (1884) I began taking a prescription which the doctor said would drive the swelling out of my ankles. In November the rheumatism began to scatter, first to my toes, then to my hips and back and all over me. I then quit taking the medicine, as I was getting worse. I tried everything in my efforts to get better, but continued to grow worse. Finally I could not turn over in bed and it nearly took my life to draw a long breath. My wife had to put mustard plasters on my breast and side to ease me so that I could breathe.

"I read an advertisement of Athlophoros in a religious paper published at Detroit, and though I had not much faith in it I sent for a bottle. I thought I should die before it arrived, so great was my pair In thirty-six hours after I had began taking the medicine I was cured of my rheu-matism, have been able to sleep ever since, and have had no more pain. That was the 14th of last May. I sent for and got six more bottles from Detroit. After taking four of them the swelling has nearly all gone, except in one of my ankles where I was hurt last fall, and that is getting better every day. Thank God for Athlophoros; it has done everything for me."

And all this long sickness came from a hot meal taken on a warm day, followed by a chill. If Mr. Ludington returns to public life it may be safe to say that he will go around with a bottle of Athlophoros as a cure for the physical evils from which not even legislators are exempt.

If you cannot get ATHLOPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We parfer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us, as directed ATHLOPHOROS Co., 112 Wall Street. New York

Tries to Excuse.

In my opinion the city of Ann Arbor eldom, if ever, did a more courteous and gracious act than when, by her common council, she unanimously resolved to send a delegation to Indianapolis to assist at the funeral ceremonies of the dead vicepresident of the United States.

From the articles published last week in the city papers editorially and correspondently in relation to the same subject, there appears to be some kicking against the city paying the cash expenses of this delegation. Wonder why we did not hear from the grumblers when the council appropriated money for Garfield's and Grant's funeral. The Scientific Associa-

Going back to the Decoration Day of 1884, it will be found that at the urgent request of several prominent citizens who claimed to pay a great deal of the city's taxes, the council was asked to pay and did pay \$100 and over for the expenses of the services held that day. What right had the city council to pay that bill? Were the citizens benefited in any way by those services?

Again, the council chosen in the spring of 1884 tendered an invitation to the American Association for the Advance ment of Science to hold their next annual meeting in this city, which invitation was accepted. Of course if they came they must be entertained, and it was argued by the mayor and other members of the preceding council (elected in '84) that the present body was responsible for their acts and must put their foot into the boot which had been so slyly prepared for them. When the time for the entertainment of these Scientists arrived, a large number of the heaviest tax-Garfield, and later of Grant, that decoration was no more than an ordinary mark of respect, to have omitted which would ment fund and several of these tax-payers have been so noticeable as to have brought attended the meeting of the council and insisted upon the money being appropricontempt upon the city. Ald. Lawrence offered the following: Resolved, That permission be granted the Ann Arbor Water Company to erect three Stand Pipes. One at the barn of J. A. Polhenus, corner of Main and Catharine streets; me at the east end of the Hamilton Block on Huron street; and one on the corner of Huand State street.

The Recorder offered as an amendment that the location of said pipes be under

council for the very gracious and courteous treatment they had received and tendered an invitation to the council as a body to attend a banquet to be given them on Tuesday evening next.

A lengthy report of city engineer, J. B. Davis in reference to the re-survey of the 2d ward, accompanied by maps and plats was received and read, and on motion accepted and ordered filed.

Ald. Lawrence arose to introduce a resolution, and in so doing made a few remarks. He said it had been alleged by certain parties that the council winked at at crime, tacitly consented to law breaking and evil doing, and allowed criminals to go unpunished in this city, and so on. He challenged any reporter, editor or other person to substantiate any such charge, and when such language was used it was either through ignorance or willful malice. When the citizen's league president made such charges he uttered that which was false, and was an unfit man to lay down a code of morals for this body. He did not believe there was a man in this council who would hesitate in the discharge of his duty. Ald. Lawrence then cited the law which made it the duty of the city marshal to see that the laws in relative to the liquor traffic were enforced, and offered the following

Resolution:

Resolved, That the marshal and his deputies are hereby instructed to see that the state law in reference to closing saloons on Sundays, Holidavs and after 10 o'clock in the evening; and the ordinances in relation to gambling and houses of ill-fame are properly enforced. Last Monday Phil. Stimpson's horse got up a little speed to shake off the ice slivers coming i down from the north, while delivering goods on Miller avenue, when all at once the vehicle Phil was riding in tipped over. It was a tremendous tip, and the eggs, butter, potatoes, flour, apples, kerosene, molasses and sugar all seemed to pile on top of Phil, making it a serious question with him for a time whether he was alive or not. But after calling a couple of men to look him over, he took their assurance that he was not dead, and after being helped up, and failing to discover any bruises or hurts, went about gathering up the debris with a terrible but unexpressed sentiment welling up to his lips.

Ah there, Ypsilanti! Give ear while I pour out the torrent of news that has been accumulating during the week past. Firstly, it sail about our uncommon council who last Monday night voted out of the city funds the expenses of five patriolic aldermen to attend the funeral of Vice-president Hendricks at Indianapolis on Tuesday. One would think that in view of the water works debt the purse strings of the people should be more closely guarded. Water works. Yes they have started. The pumping began Monday. A Knowles compound duplex pump is pouring a million and a half gallons of swamp drainage into the pipes every day, which same amount is let out at the "blow off" to clean them.

The above froth was generated(?) by the Ann Arbor correspondent of the Ypsilantian. As Ann Arbor has no water works debt-and as the money to pay the first year's hydrant rental has been set aside for that purpose—and as there is about \$8,000 in the city treasury, the pure gall of such a statement is astonishing

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY tates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southness, and corresponding points West, Northwest and boutness. The Rock Island System includes in its main line and branches, Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianols, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns, villages and stations.

THE CREAT ROCK ISLAND ROUTE Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted road-bed; smooth tracks of continuous steel rail; substantially built culverts and bridges; rolling stock as near perfection as human skill can make it; the safety appliances of patent buffers, platforms and air-brakes; and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and the Missouri River are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars, in which elaborately cooked meals are leisurely eaten, "good Digestion weiting on Appetite, and Health on both." Between Chicago and Kansas City and Atchison, are also run the Celebrated Reclining Chair Cars.

THE FAMOUS ALBERT LEA ROUTE Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route, Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Newport News, Richmond, Cincinnati, Indianapolis, and Lafayette and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.
