A MARVEL OF PURITY.

Royal Baking Powder a Perfect Leavening agent, absolutely free from lime and alum.

The Royal Baking Powder is considered by all chemists and food analysts to be a marvel of purity, strength, and wholesomeness. It is a perfect leavening agent, making bread, cake, rolls, muffins, and other pastry light, delicious, and wholesome.

Furthermore, the Royal Baking Powder is now the only baking powder before the public free from lime and absolutely pure. This is due to the improved method by the use of which it has been made possible to produce a perfectly pure cream of tartar, from which all the lime has been eliminated.

Professor McMurtrie, late chemist in chief to the U. S. Department of Agriculture, Washington, D. C., says: "I have examined the cream of tartar manufactured for and used by the Royal Baking Powder Company in the manufacture of their baking powder, and find it to be perfectly pure, and free from lime in any form."

WM. McMURTRIE, Ph.D., Chemist in Chief U. S. Dept. of Agriculture.
