PROTECT OUR BREAD.

The machinery of the law cannot be put at work too speedily or too vigorously against the wholesale adulteration of the things we eat. Both the health and the pockets of the people demand protection.

There is no article of food in general use more wickedly adulterated than the lower grades of baking powder. For raising bread, biscuit or other food only the very best and purest baking powder should be employed.

The sale of adulterated baking powders has been prohibited by statute in several localities. It will be in the interests of the public health when their sale is made a misdemeanor everywhere.

The ordinary baking powder contains either lime, which, introduced into the system to too free quantities, causes serious disorders of the kidneys; alum, a corrosive poison, or lime phosphates, which are condemned by physicians as deleterious in their effect.

The absolute purity of the Royal Baking Powder makes it pre-eminently the most useful and wholesome leavening agent known. Containing no lime, alum, phosphate or other impurity, it leaves no alkaline or other residuum in the food.

We understand that Mr. E. E. Ann Arbor boasted of a boom and the supervisors tucked the taxes on to make it seem real. What a bond on supervisors don't know is hard to find.—Manchester Enterprise.

There was once on a time a Manchester gentleman who taught the board of supervisors a lesson they did not appear to know, about paying legitimate bills. By the way, a good story is told of another officer of that place. He came over to the county seat with a nicely made out bill against the county. Being presented to the committee, the chairman glanced it over and shook his head; the bill was wrong; the supervisors never paid for horse hire. "All right," said the officer, "I desire to conform to the law, of course," and so about one-third of the bill was cut off. The next member took it for examination. "I see you have \$2 a day charged for your time! That will never do! \$1.50 is all the law allows," said he. "Very well," replied the officer, and one-fourth of the balance was quickly amputated. As the bill was being passed to the next member the officer made a desperate dive for it, and grasping it, by a quick move flung it on the fire of the open grate, where the flames silenced the supervisors further trouble. A silence somewhat embarrassing followed, when the chairman ventured to speak: "I don't understand your action, sir; why did you destroy that bill?" The officer put his hand in his pocket and pulled out two or three coins, and remarked: "Gentlemen, there is all the money I have got. Just enough to take me home. Now if I had allowed that bill to have gone to the next member of the committee he would have given me in debt to the county, and as you see I am not in the condition to stand it."

The St. Louis Globe-Democrat of Sept. 5th, in speaking of the play in which Miss Marguerite Fish appears at the grand opera house on Friday evening next, says this:

"The charming farcical comedy-drama, 'Chip of the Old Block,' was greeted by a large and decidedly enthusiastic audience at Pope's theater last night, and evening. The serious plot that runs through the piece was lost sight of in the first place, and the comedy and the efforts of the comedians Scott and Mills, and the admirable assistance of the principal male characters, the Fishs, were received with shouts of applause. Robert Scott made an excellent old man of the extravagant type, Harry Mills, as Jack Lightfoot, the jockey, did a large amount of original work. His description of the steplee class being one of the best things heard here for a long time. Marguerite Fish was always a clever actress, and she has improved wonderfully since her last visit. Her acting is now of a more subtle and delicate work, surpassing in many respects Lotia. Her part is a very original and original character, and she was original and gave with excellent effect. Outside of the leading members of the principal male characters, the audience was filled with laughter by his overbearing and finally a little more of a naval encounter, he manages to balance with that peculiar wit which creates a double of laughter and applause. Harry Mills, the English jockey, plays with a wonderful coolness and a capital imitation of a Derby winner. His songs and dances were extremely good.
