"UP AGAINST THE WALL & OFF THE
RESERVATION, MOTHERFUCKER!"

Shoshone Indians in full war paint,
carrying rifles and giving blood curdling
war crys are putting white hunters up
against the wall and running them off the
reservations in Nevada.

"They looked up and saw us coming
down on them, and they didn't even have
time to get their trucks formed into a
circle, they started pleading and crying,
it was sickening, one of them went berserk
and tried to give us cigarette lighters
and mirrors, saying they were magic,
'look, fire comes from silver box'. It
was really sad. We gave them 15 min.
to get off the reservation ha! you
should have seen them go!"

Spokesman for the renegades, Rolling
Cloud said, "The white man has raped
his own land, now he comes to rape what
little we have. The white man wastes our
meat while our people go hungry."

Stanley Smart, a Shonone Indian, was
convicted Oct. 11 for possession of deer
out of season. Smart contends that as
an Indian he has the right to hunt any-
where regardless of seasons made by the
white man.

Rolling Cloud, "We're not making
threats to anyone, we just want to feed
our people, we'll use whatever means
necessary."

Pink is the color of love
because when you kiss someone you turn
pink
sometimes. The color of love is like a
Pinkest color.

If you love someone you either kiss them
on the lips or Fuck them.

King just got killed. Inevitable. I used
to want to die from natural causes until
I realized murder is the most natural cause
of all. War, assasination, murder. The
stupid killer shot him in the throat, we
heard, & probably figures he cut off King's
balls. That's not what happens. They get
transferred. Kennedy's got transferred to
American students, Malcolm X's to black
people -- King's to me a bit, where else?
If I die by any method other than assasina-
tion I haven't lived as boldly as I intend
to.

REVOLUTIONARY LETTER #4

Left to themselves people
grow their hair.
Left to themselves they
take off their shoes.
Left to themselves they make love
sleep easily
share blankets, dope and children
they are not lazy or afraid
they plant seeds, they smile, they
speak to one another. The word
coming into its own: touch of love
on the brain, the ear.

We return with the sea, the tides
we return as often as leaves, as numerous
as grass, gentle, insistent, we remember
the way,
our babes toddle barefoot thru the cities
of the universe.

THE AMERICAN INDIAN--THINKER, PHILOSOPHER

The American Indian had a sense of blending and belonging with Nature. He regarded himself as a brother to the other animals around him. He felt a part of Nature and therefore didn't try to conquer it.

He felt a sense of sharing of the land around him.

He felt that one had to live on an Earth level before reaching out to the spirit or Sky Land. First one must be able to walk on his hind legs with pride as a human being and look his brothers in the eye.

To him, sex was a perfectly natural thing. He did it and his little brothers did it. It meant reproduction of new life. What happened between a man and a woman was their business and nobody else's. There were no dirty pictures on out-house walls. No frustration because someone told them that sex was bad.

When the early missionaries arrived, the Indian women in some California tribes and Islander women had naked breasts, and this was sinful to them. But the sin was in their own heads. To these tribes this was a natural thing.

The Blessing of the Earth is the rebirth of Life when the Sun has reached its fullest south point. One can tell by the Sun-watcher Peaks. Then comes the time of the return of the sun. For if the sun did not return, there would be no rebirth of life.

It is the Blessing of Father Sun and the Earth Mother that brings forth new life. It is the He and She rains that nourish the ground with life-giving moisture. The light and heavy rains are called the He and She rains. It is the corn pollination by the stalks blending with the help of wind. This is shy in some tribes, the couples lived together until the Green Corn Ceremony when their marriages were all solemnized at that time.

The corn is the life food of many people.

In conclusion, I quote a Navajo prayer:

In beauty it is begun. Beauty
beneath, beauty above, beauty
all around me. In beauty it is
finished.

As our people say -- I have spoken.

A GUERRILLA'S WORD

Because my country is beautiful
like a sword in the air,
and bigger now and even
still more beautiful,
I speak out and defend it
with my life.
I don't care what traitors
say
we've blocked the way
with thick tears
of steel.

The sky is ours.
Ours our daily bread,
we've sown and harvested
the wheat and the land,
ours
and forever belong
to us
the sea,
the jungles,
and the birds.

This is November 20, the night of the New Moon, in Sagittarius. Tomorrow the Sun goes into Sagittarius. Sagittarius--the Centaur, half man, half horse--an archer, shooting his arrow high in the sky. Sagittarius--the Sage, ruled by Jupiter, gods of the gods, god of prosperity.

In September Uranus entered Libra for the first time in eighty-four years. Uranus--the planet ruling the revolution, change; Libra, the sign of harmony, balance, justice. On November 13, Uranus conjuncted with Mars, that means they came within 6 degrees of each other--their energies combined--Uranus: revolution - change; Mars: war, passion, energy--whew. This doesn't happen very often--every other time this combination portended wars, huge wars--of course. "There's a shit storm a comin'." (Eldridge Cleaver)

On December 11 Uranus will conjunct with Jupiter in Libra. Uranus, bringing revolution also brings self-expression, originality, inspiration, and will. Jupiter is the ruler of the higher mind, enthusiasm, expansiveness, experience, it brings increase on all levels. Watch the Revolution, watch all wars, listen to your muses, do what you know is right--and don't be afraid of change.

Mercury is in Scorpio now. Mercury, the messenger of the gods, rules communication, the lower mind of facts. Scorpio brings regeneration, intense feelings, desire--a lot of people have been readily communicating their desire for regeneration lately--a lot of people are trying a lot harder than usual to communicate. On the 27th Mercury goes into Sagittarius--the Sage, the archer, half man, half horse, the higher mind, wisdom--people communicating these things, in this way--perhaps as an extension of communicating their desires, their desire for regeneration.

Jupiter is the ruler of Sagittarius--it entered Libra November 15 and will stay there at least the rest of this year. Jupiter, the planet of the higher mind, wisdom, prosperity--Libra--harmony, balance, justice--a holy combination. These are times of big changes and violence--these are also times for learning and putting things into perspective--don't be afraid of what happens, it is all in preparation for even more, and we are all a part of it all.

500 Mexican students have been killed in the recent revolt in that country. 500 of our Brothers & Sisters! 500 people our age, they were killed by the pigs, by the government, by GOVERNMENT, this government, that government, it makes no difference, they're all the same government. AND THEY KILLED 500 of OUR BROTHERS & SISTERS! Are we next? It's happening now.

11 of our brothers & sisters were arrested in Detroit on conspiracy charges, 30 of our brothers & sisters have been arrested in Berkeley on conspiracy charges! Conspiracy means that you don't actually have to do anything, all you have to do is talk about it, THINK ABOUT IT, if you think or talk about it you're guilty of conspiracy, that's right, that's right! So don't commit any thought crimes, big brother is watching. Don't conspire--DO IT!
