ANN ARBOR, FRIDAY, JANUARY 24, 1862. Vol. XVII.

From the Richmond Whig. Another Yankee Doodle.

Yankee Doodle had a mind To whip the Southern traiters, Because they didn't choose to live On cod ish and potatoes. Yankee Doodle, doodle-doo, Yankee Doodle dandy. And so, to keep his courage up, He took a drink of brandy.

Yankee Doodle said he found By all the census figures, That he could starve the rebels out, If he could steal their niggers. Yankee Doodle, doodle doo, Yankee Doodle dandy, And then he took another drink Of gunpowder and brandy.

Yankee Doodle made a speech ; Twas very full of feeling ; I fear, says he, I cannot fight, But I am good at stealing. Yankee Doodle, doodle-doo, Yankee Doodle dandy, Hurrah for Lincoln, he's the boy To take a drop of brandy.

Yankee Doodle drew his sword, And practised all the passes; Come, boys, we'll take another drink When we get to Manassas. Yankee Doodle, doodle-doo, Yankee Doodle dandy, They never reached Manassas plain, And never got the brandy,

Yankee Doodle soon found out That Bull Run was no trifle, For if the North knew how to steal The South knew how to rifle. Yankee Doodle, doodle-doo, Yankee Doodle Jandy, 'Tis very clear I took too much Of that infernal brandy.

Yankee Doodle wheeled about, And scampered off at full run, And such a race was never seen As that he made at Bull Run. Yankee Doodle, doodle doo, Yankee Doodle dandy, I havn't time to stop just now To take a drop of brandy.

Yankee Doodle, oh! for shame, You're always intermeddling ; You had better stick to peddling. Yankee Doodle, doodle doo, Yankee Doodle dandy, When next I go to Bully Run, I'll throw away the brandy.

Yankee Doodle, you had ought To be a little smarter; Instead of catching wooley heads, I vow you've caught a tartar. Yankee Doodle, doodle doo, Yankee Doodle dandy, Go to hum, you've had enough Of rebels and of brandy.

Correspondence of the Albany Evening Journal. Letter from Thurlow Weed.

application for manufacturing purposes.

Our No. 3 Machines are especially adapted to all kinds of light and heavy Leather York, in Corriage Trimming, Boot and Shoe Making Harners, Making, etc., etc.

They creof extra size, and with an arm long enough to take under it and stitch the largest give dislets. There is scarcely any part of a Trimmer's stitching that cannot be better done with them than by hand, so, too, the saving of time and labor is very great. The table of these machines is 24 inches long, and the shuttle will hold six times the usual quantity of thread. The large machine works as fast as small ones.

We would mak for our Letter A Machines, the special attention of vest Makers and Dress Makers, and all those who want Machines for light manufacturing purposes. They embody the pridelyles of the standard machines, making like them the interlegiched sitch, and are destined to be not elebrated for PAMLY SEWING and light manufacturing purposes as pair standard machines are for manufacturing purposes in general.

We have always on hand, loraming cautures, sing twist lines are for manufacturing purpose in general.

We have always on hand, loraming cautures of the most EXPERIENCED and SKILIFCL NIESES in New Parkland, and has been used with NEVER that the BOWELS.

Depend upon it, workers, it will give rost to yourselves, and all kinds upon the long than the largest part of light of least the over the years, and can and and sold this article for over the years, and can and and sold this article for over the years, and can and and sold this article for over the years, and can and can and can be well as the years and can be well as the years and can be well as the proper of the manufacturing purposes as four standard machines are for manufacturing purposes in general.

We have always on hand, loraming cancers, we present the symples administered.

THOMPSON & SON,

"Nary Recruit." A good one is told of a wag of a fellow who applied to Col. — for a Lieu- ROTARY CARD PRESS, tenant's commission to recruit for his regiment. Col - gave him a recom mendation to the Adjutant General, when off goes our friend to Columbus, and makes his application. The Adjutant refused him at first but the candidate for military honors insisted, saying that "he guessed he had better let him INVITATION CARDS, have it;" and seemed so determined and earnest in his appeals, that the Adjutant

finally granted him a commission.

The "newfangled Lieutenant" left greatly elated at his success; came down to Cincinnati, and purchased him a full suit of "blue and brass," and made a visit to Col. \_\_\_\_\_'s headquarters, where his "most intimate friends" failed to recognize him. The Lieutenant hired a days he made his report to the Adjutant pared to print General in the following style: To the Adjutant General of the State of

Sin:—Having the pleasure of making my first report, I have to say—"Nary recruit," as yet. Yours respectfully,

Nature Will Out.

A Pennsylvanian, now in the army, relates a traditionary anecdote of the Secretary of War, which is probably as true as the posthumous stories of the juvenile days of great men generally are. It was the custom aforetime in Pennsylvania for mothers to ice an apple, a silver dollar, and a Bible before their children as soon as they were able to toddle about, and, with a mother's interest and satisfaction, watch them make their choice, It was considered indicative of their more matured predilections. In accordance with this custom the mother of the into stand on his pins, produced the articles and set them before the child, hoping in her heart h hoping in her heart he would select the Bible. But not so Simon. - The future Secretary of War took a somewhat deliberate view, and, with less rever ence than King Alfred, mounted atop the Holy Writ, pocketed the dollar and commenced munching the apple!
It is needless to add that he has been at that business ever since.

A TELEGRAPHIC EXPERIMENT .- It is a matter of curiousity as to how quick communication may be made by means of the telegraph. Experience has shown that it is an instantaneous process. A short time since an experiment was tried to illustrate the point. It was agreed that a telegrapher at New York city, in communication with Chicago, Illinois, should write the letter S -- which is done by making three dots-and that a Chicago telegrapher should instantly, on hearing the dots. respond by making the same signs. BLANK BOOKS The plan was carried out successfully, and the paper of the register at New York showed that the dots made by both operators stood so nearly together that it was impossible to write a single dot between the characters representing the two s's. The response from Chicago was recorded as quickly after RULED TO ANY PATTERN the signal from New York as it was possible for the Chicago telegrapher to make it. Many other experiments have been made with like results.

Let the youth who stands at the bar with a glass of liquor in his hand, consider which he had better throw away-the liquor or himself.

We look over the wide world. and all seems stormy and tempestuous but then we see the home circles, like sweet patches of sky seen among the clouds, and little children shining like stars in their midst.

Father Taylor, the eccentric and cloquent seamen's preacher, was once All Work warranted to give entire asked where he thought Ralph Waldo Emerson would go after death. The witty old man replied: "The dear, good, blessed soul! I don't see in him any evidence of saving faith; but then I don't know what Satan could do with him."

A magnificent set of silver is to be presented to Governor Hicks, by the loyal men of Kent county, Maryland, as a token of their appreciation

of his devotion to the cause of the Union, amid trials and danger. The Ten Per Cent Interest, (Or More.) set consists of a splendid pitcher and For any one willing to lend, I can at once invest on good unencumbered abundant REAL ESTATE security salver, and two beautiful goblets.

When Dr. Franklin was making his first experiments in electricity he wished to try its effects on a hen. and while holding the wire to the bird it struggled and he received the whole charge himself. On recovering from the shock, he good-naturedly remarked DECORATED TEA SETS, that instead killing a hen by electricity he had nearly killed a goose!

PILLS. Are you sick, feeble, and amplaining? Are you out of riler, with your system de-naged, and your feelings un-J.RICE

AFER'S

CATHARTIC

in her hair. After our chief was your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic. From Dr. E. W. Carterright, New Orleans.

Your Pills are the prince of purges. Their excellent malities surpass any cathartic we possess. They are nild, but very certain and effectual in their action on the owels, which makes them invaluable to us in the daily reatment of disease.

From Dr. Edward loyd, Bellimore.

Dran Bro. Avan: I cannot answer you what complaints
I have cared with your Pills better than to say all that we
core treat with a paraphree medicine. I place great dependence on an effectual cathartic in my daily contest with
disease, and believing as I do that your Fills afford us the
best we have, I of course value them highly. Dest we have, I of course value them highly.

Perseures, Pa., May I, 1855.

Dr. J. C. Aven. Sir: I have been repeatedly cured of the worst breathebe may body can have by a dose or two of your PIIs. It seems to arise from a foul stomach, which they cleanes at once.

Yours with great respect, ED. W. PREBLE, Clerk of Stewart Clarbin. Billions Disorders - Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I flud their beneficial effects upon the fiver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people. DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856. 
Sm: I have used your Fills in my general and hospi
practice ever since you made them, and cannot hesitate
say they me the best calimitic we employ. Their relating action on the liver is quick and decided, con
quently they are an admirable remedy for derangemen
of that organ. Indeed, I have seldom found a case
billook discare so obstimate that it did not really yield

Dysentery, Diarrhea, Relax, Worms. From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dyscatery and diarrhosa. Their sugar-ceating makes them very acceptable and convenient for the use of women and children.

Prom Rev. J. V. Himes, Pastor of Advent Church, Boston. Dr. Ayer: I have used your Pills with extraordinary success in my family and among those I am carled to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES. Wansaw, Wyoming Co., N. Y., Oct. 24, 1855.

Dran Sra: I am using your Cathartic Pills in my practice, and find them an excellent purpative to cleanse the system and purify the foundains of the blood.

JOHN G. MEACHAM, M. D.

Dyspepsia, Impurity of the Blood.

JOHN G. MEACHAM, M. D.

Constipation, Castiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vanglan, Mentred, Censela.

Too much cannot be said of your Fills for the cure of cotieness. If others of our fraternity have found them as efficacious as I have, they should John me in proclaiming it for the benefit of the multimase who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costieness to originate in the liver, but your Pills affect that organ and cure the disease.

From the Rev. Dr. Hawkes, of the Methodiat Epis, Church. H E A D

SENATE CHAMBER, Baion Rouge, La., 5 Dec. 1855.

Dr. Aver: I have been entirely cured, by your Pills, of Rheumatic Gout—a painful disease that had afflicted me by years.
