#### THE PICKET'S RUSE.

Private Joel Smapes, of a hard-workng, tough-sinewed regiment of Vermont colunteers, was a good shot and a smart soldier. He found great satisfaction in picket duty, and hardly came in from a day's exercise in that branch of military without having a report to make to his superior officer of some new work discovered, some conversation overheard, some little chance circumstance perceived, that might be of use in gaining an ad-

vantage over the enemy. Joel was a long, lank, yellow-haired fellow, not very soldierly in speech or bearing, but of infinitely more service than many a one of our snug, dapper, well-looking city soldiers. He was eatured and demure, suggested good humor and power of endurance, more than courage or discipline. But there was a twinkle about his small gray eyes, his round shoulders and flat build could He was among the first to offer his serthose clear, far-seeing eyes in sight, and Colenel of the Twenty-first Illinois Knox?" ### Power of Gentleness.

No bad man is ever brought to repentance by angry words; by bitter, scornful reproaches. He fortifies himelf against a reproof, and hurls back foul charges in the face of his accuser. Yet guilty and hardened as he seems, he has a heart in his bosom, and may be melted to tears by a gentle voice. Whoso, therefore, can restrain his disposition to blame and find fault, can bring himself down to a fallen brother will soon find a way to better feelings vithin. Dispatches to the Associated Press. The Chicago Times Suppressed. Chicago, June 3,

Shortly after midnight Judge Drummond issued a writ directing and enjoinsteps or measures to carry into effect the order of Gen. Burnside for suppression of the Times, until application for a permanent writ of injunction could be heard in open court to day.

At half past 3 o'clock this morning, after nearly the whole edition had been worked off, a file of soldiers broke into the office, took possession, and remained World," being to cast reproach upon some time. They left after giving notice that if any attempt was made to publish another paper the military would take posession of the office.

The following handbill is being circulated through the city

"All good and loyal citizens of Chicago who favor free speech, and the freedom of the prees, as guaranteed to us by the constitution we love and uphold, are invited to assemble in mass meeting in front of the Chicago Times office, Wed nesday evening, June 3, at 8 o'clock, to take counsel together in regard to the recent infamous order of Gen. Burnside, suppressing papers always democratic and consequently always loyal.
"Per order of the committee."

Special Dispatch to the Det. Free Press. Chicago, June 3.

A motion was made in the United States Court this morning by the Times counsel, to defer the application for in junction until notice of application could be given the military commandant at Camp Douglas. Judge Drummond in granting the motion said: "I may be pardoned for saying that personally and officially, I desire to give every aid and assistance proper to the government, and to the administration in restoring the Union, but I have always wished to treat that government as a government tion, and not a government of mere physical force. I personally have contended and shall always contend, for the right of free discussion and the right of comstitution, upon the acts of the officers of the government."

During the day the Times office seemed the center of attraction, and was visited by a large number of people.

In accordance with the call issued this forenoon, an immense meeting assembled at eight o'clock to-night in front of that office. The crowd soon filled the street, rendering it impassible The meeting shortly aftewards adjourned to the Court will be we cannot predict. Judge DRUM-House Square. Ann Arbor, May 22, 1868. SARSAPARILLA THE WORLD'S GREAT REMEDY

SCROFULA AND SCROFULOUS DISEASES.

From Emery Edes, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your Sarsapaz-HLLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules,
Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afficting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much.

From Mrs. Jane E. Rics, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SAR-BAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known firm of Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost everything a man could of both advice and medicine, but without any relief whatever, until I took your Sarsaparkilla. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as anybody's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your Sarsaparilla."

Erysipelas - General Debility - Purify the Blood. From Dr. Robt. Sawin, Houston St., N. Y.
DR. AYER: I seldom fail to remove Eruptions and
Scroplulous Sores by the persevering use of your
SARSAPARILLA, and I have just now cured an attack of Malignant Erysipelas with it. No alterative we possess equals the SARSAPARILLA you have
supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollais worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your Sarsaparelle. Together they have cured me. I am now as well and sound as anybody. Being in a public place, my case is known to everybody in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament, "I have used your Sarsaparelle. In my family, for general debitty, and it praying the blood, with very beneficial results, and feel confidence in commending it to the afflicted."

Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tanckhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your Sarsafarilla, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's cyclashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease. From Dr. Hiram Sloat, of St. Louis, Missouri.
"I find your Sarsararilla a more effectual emedy for the secondary symptoms of Syphilis, and for syphilitic disease than any other we possess. the profession are indebted to you for some of the set medicines we have."

best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER—My dear Sir: I have found your SARSATARILLA an excellent remedy for Syphilis, both of the primary and secondary type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a power-

ploy with more certainty of success, where a powerful alterative is required." Mr. Chas. S. Van Liev, of New Brunswck, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SABSAPARILA relieved, him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhæa, Whites, Female Weakness, are generally produced by internal Scrofulous Ulceration, and are very often cured by the alterative effect of this Sarsaparilla. Some cases require, however, in aid of the Sansaparilla, the skilful application of local remedies.

application of local remedies.

From the well-known and widely-celebrated Dr.
Jacob Morrill, of Cincinnati.

"I have found your Sabsaparilla an excellent alterative in diseases of females. Many cases of irregularity, Leucorrhea, Internal Ulceration, and local debility, arising from the scorolulous diathesis, have yielded to it, and there are few that do not when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhon of long standing, by two bottles of your SARSAPARILLA." Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia, when caused by Screfula in the system, are rapidly cured by this Ext. Sarsaparilla.

AYER'S CATHARTIC PILLS possess so many advantages over the other pur-gatives in the market, and their superior virtues

more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prof. A. D. WHITE, of the in Europe, has issued a pamphlet of 40 pages from the press of Henry Stevens, 4 Trafalgar Square, London, titled, "A Letter to William Howard Russell, LL. Chicago, June 3. The Canal Convention has concluded its labors. Everything passed off harmoniously. The proceedings this morning showed great diversity of interests, and the accomplishment of the object of the convention was at one time almost despaired of. The Milwaukee delegation, through Judge Hubbell, opposed the scheme of the enlargement of the canal Michigan University, spending the year at present as uncalled for by military nesity, and was opposed to adding to the indebtedness of the government. His remarks were not taken with good feeling by a majority. Another portion of Wisconsin wanted the Convention to endorse the proposed improvement of St. Clair Falls, Fox and Wisconsin Rivers. Minnesota and Iowa wanted the improvement of the Desmoines and Rock Island Rapids, &c., &c. Finding nothing could be accomplished, the friends of the scheme introduced a motion, which was adopted, to refer the resolutions, with amendments, back to the committee.

In the afternoon Mr. Ruggles, Chairman of the Committee on Resolutions, made a report in behalf of the Committee of Compromise, of resolutions endorsing the original canal enlargement and scheme, which were passed, without opposition, amid great applause.

This important and valuable book will be found of great interest to every intelligent American—allording the only living and truthful indication of the spirit, the firty freshness, the daring language, and gigantic schemes, of the Soxs or Liberty, in their inauguration and struggle for Independence; while at the same time it exhibits the various phases of the Tory opposition, their crafty insinuations, their cautious doubts, timid counsels, and open eumity. Here men, some already known, many long since forgotten, but all active partisans on either side, give unreserved vent to their patriotism or passion, their temporary fears or lofty aspirations, their individual sufferings and private misiortunes.

The materials of this work are taken from Ware and

iortunes.

The materials of this work are taken from WHIG and Toay Newspares, published during the American Revolution, Private Diaries, and other contemporaneous writings. They present to the student of this day the same view the readers of the Revolutionary period enjoyed—the manners and customs of the people, and the moral and religious, as well as political features of the time.

moral and religious as well as political leatures of the time.

The work contains nat only the current accounts, by both Whig and Toxy watters, of the different shirmishes and battles by sea and land, but, at the same time, gives a clear idea of the effect of those occurrences upon the peop.e and their homes.

It also embraces accounts of the balls, parties, marriages and deaths criticisms upon men and books, wed ding parties, sleigh-brides, the Whigs tarred and feathered by the Towies, and viceversa; fox hunts by the officers of the Hitish army; surphises, birthday celebrations, practical jokes by men whom we have been taught to believe were of the most serious natural disposition; particitie songs and ballads; horse-races, games, masquerades, reviews; aneclotes of the most celebrated men and women, popular merriments and usages, and the celebrations of national festivities.

The work carries the reader back into the homes, upon the very hardshones, the highways and battle-fields of the Revolution, and lets him bear the Whigs and Tories lampoon and abuse each other, and see the armies fight in their own way.

WONDERFUL SUCCESS. The attention and research of the most distinguished Chemists and Physicians for years have been devoted to the production of a remedy for those most distressing maladies Ngurangia and Ribermanish. After long study and many experiments, a specific preparation has been discovered. WATSON'S Neuralgia King, an Internal Remedy, is curing thousands of cases where all other remedies have utterly failed. We are assured that it is no mere "ANODYNE," relieving for the moment while the cause remains, but is a perfect SPECIFIC and CURE for those painful diseases. The vast number of Liniments, Embrocations and External Medicines, which act as stimulants of the surface only, Medicines, which act as stimulants of the surface only are merely temporary in their effects and of doub-virtue. etter Woln's or Hiadder, Difficult Menstrua-tion, and al other Diseases or Complaints produced by excessive di-charges or suppression of the Menses. Laties who desire to avoid the sufferings and incon-ventiones of these irregularities, or organic obstruc-tions, should not omit to regulate their systems by means of one or two of RADWAY'S PILLS, once or twice a week, and thus be free from the many and great in-conveniences to which ladies are generally subject.

DOCTOR RADWAY invites the attention of the intelli-gent reader to the facts here presented, showing the superiority of his PiLLS, as purgatives, over all other pills or purgative medicines in use. THEIR GREAT COMBINATIONS.

They are Aperient, Touic, Lax tive. At rative, Stimulant, Counter Irritant, Sudorific. They are more certain and thorough than the Drastic Pills of Albes, or Croton and Harlem Oil, or Flaterium; and more soothing and healing than Senna, or Rhubarb, or Tamarinds, or Castor Oil.

or Tamarinds, or Castor Oil.

AS ALTERATIVES,
They exercise a more powerful indusence over the liver and its secretions than caloned, mercury, blue pull, hence their importance in cases of liver Complaints and Splcen Difficulties, Jaundice, Dyspepsis, Blious Attacks, Headache, &c. In the treatment of Fevers, either Bilious, Yellow, Typhoid, and other reducing Fevers, they are superfort of quinine. Their influence extends over the entire system, controlling, strengthening, and bracing up the relaxed and wasting energies, and regulating all the secretions to the natural performance of their duties, cleansing and purifying the blood, and purging from the system all diseased deposits and impure humors.

THE CAUSE OF PILES. A large dose of the Drastic Pills will, by irritating the mucous membrane, produce a visitent expulsion of the contents in the bowels, but in so doing other secretions are suspended. In such cases, the stools will be found to be light-colored and watery, and attended with cramps, griping pains, nausea, sickness. By t is increased unnatural action of the b wels, the secretions of the kidneys and pancreas are diminished, followed by affections of the kidneys, bladder, arethra, piles, tenesmus, general prostration, costiveness, and indigestion.

Why Radway's Pills Cure Small Pox. In Small Pox, Scarlet Fever, Erysipelas, Yellow, Ty-phoid and other reducing Fevers, Puntation is highly essential. But to administer a dose of Drastic Phis the essential. But to administer a dose of Drastic Plus the irritation they would produce and the relaxation and depletion that would follow, would be likely to prove fatal. If physicians, in these cases, would give RAD-WAY'S PILIS, they would always cure their patients. In these diseases a mild, soothing, healing and gently stimulating laxitive is required, which is secured by ADWAY'S PILIS.

The cause of griping, nausen, sickness, tenesings and deblity, that is induced by a dose of drastic pills, is owing to their imperfect operation. If with the faces, the diseased humors, left circulating in the system, were expelled by these pills, there would be but little pain or griping. It is the absence of the bile and other humors which the imperfect pills fail to purpe out of the system that occasions the pain. By examining the stools evacuated after severe griping they will be found thin and watery. THE TRUE PILLS TO TAKE

CASE OF DYSPERSIA CURED. CASE OF DYSPEPSIA CURED.

For many years I have been afflicted with our national complaint, called Dyspepsia—my sufferings have been a constant succession of horrors. I have spent thousands of dollars with the hope of realizing a little bomfort and tranquility. All medication failed to relieve me, until I commenced to act up at the judicious advice you gave me so the 6th of April, 1855. And now, after using your Pills, I feel like a new man. God biess you, and may this letter induce other suffering victims to this accursed malady, to try the same means.

Changing Clothing.

It has come within the observation of many a reader that serious and severe illness has been induced, and even fatal sickness caused, by a change of clothing. Injury never comes, perhaps, by putting on more or warmer clothing, but by diminishing the amount incon-siderately. The first great general rule, and always the safest, is to make the change when you first dress in the morning; if you wait until you are uncomfortably warm during the day, it is most likely to be in the early part of the afternoon. In making the change, then, there are two or three causes of disease in operation; the fact of undressing endangers a check of perspiration; the garments about to be put on may not be perfectly dry, there may be no opportunity, even if they are dry, to warm them up to the heat of the body; and turther, just about the time you have changed, the cool and damps of the afternoon and evening begin to come on, increasing until dark, while having been thrown off your guard by the warmth of the morning, you may feel the necessity of a fire, and by tea time you are surprised with a disagreeable chilliness running over you; then the cold has been taken, to settle in the eyes, causing weakness and watering; or in the throat, creating a raw or burning sensation at the little hollow at the bottom of the neck, and top of the breast-bone; or on the covering of the lungs, to give the painful pleurisy; or in the lungs themselves, in the shape of a troublesome bronchitis or a dangerous pneumonia; or in the bowels, causing weakening diarrhea; or on the covering of the bowels, inducing peritoneal inflammation, to end probably in death in a few days, It is very unsafe to lessen the

amount of clothing sooner than the first of May, and then not in quality but in less thickness of the same material; from yarn socks to worsted; from a thick, knitted flannel shirt to one of common woolen flannel; then about the first of June to a gauze flannel; if this is oppressive to some, then employ Canton flannel. But it is certainly a great mistake for anybody to wear anything next the skin, even in the hottest summer weather, than woolen flannel. Silk shirts next the skin cannot be advocated on any tangible grounds; the moment a man begins to twaddle with you about "electrical influences, turn your heel upon him and set him down as a presumptive and impudent ignoramus .- Hall's Journal of Health

THE TRUE SOLDIER'S EXAMPLER.-" I send you," wrote Nelson, "my plan of attack, but it is to place you perfectly at ease respecting my intentions, and to give full scope to your judgment for carrying them into effect. We can, my dear Collingwood have no little jealousies. We have only the great object in view: that of annihilating our enemies, and getting a glorious peace for our country." These words of a British country." Admiral, almost sixty years ago, might bave been said, ought to be felt, by every Federal General, this blessed evening. But hear the rest.
