OUR COTTAGE IN THE VALE.

I remember many forms That were dear in early years When life was like the sweet spring-time, Sunshiny in its tears: From memory's pale, uncertain page, The names have passed away. The voices echo round me still, The merry cries of play; The old, delighted oft would seem, Among us girls and boys, Grew young again, or seemed to do, Amid our glee and noise: And the thrasher with his flail, And the milkmaid with her pail, Are mingled in the memory Of our cottage in the vale.

When many years had passed and gone, Again I sought that scene; The leafy wood, the singing stream
Were, there, our happy green:
And merry children blithe as we,
Were out with hoop and ball,
But ah! my mates like birds had flown, None answered to my call: Our humble cottage swept away, The garden choked with weed: Amid the wreck one rose I found, And the thrasher with his flail, And the milkmaid with her pail Come mingled with the memory Of our cottage in the vale.

An Unexpected Marriage.

Fulton, of the Baltimore American, sends a dispatch dated off Morris Island, Aug. 24, at noon, which says: "Ad miral Dahlgren, at midnight on Saturday, with five Monitors, bombarded Sumpter till 6 o'clock. The fort was struck over 100 times, the balls going through the sea wall. The whole parapet was also carried away. Sumpter fired one gun five times, but Moultrie, Gregg and Beauregard for three hours rained shells on the Monitors. They were struck several times, but no barm was done. Sumpter is defunct. The last gun was dismounted yesterday. To day a grand army and naval attack on Wagner and Gregg takes place .-Now that Fort Sumpter is defunct the rebels will be driven from Morris Island. Gilmore is determined to have possession to-night. Gilmore on Thursday, notified Beauregard that if he did not surrender the forts he would shell the city in 24 hours No attention was paid to the demand, and Friday night Gen. Gilmore threw 15 shells charged with Greek fire into the city. Satur day afternoon Beauregard sent down a flag of truce with an urgent protest, denouncing Greek fire as a most villanous compound, unworthy of civilized nations, and demanding more time .-The English, French and Spanish Consuls also denounced the short time given, and demanded more time to remove the subjects of their respective countries. #### EXCITING FROM KANSAS.

Leavenworth, August 21st, 1863. About 6 o.clock last evening, the guerilla chief, Quantrel, with a force of about 800 strong, crossed from Missouri into Kansas, near the town of Gardner, sixty miles below here, and immediately started for Lawrence, arriving before that town at 4 o, clock this morning. He posted a guard around the city, so

that the citizens could not escape, and with the temainder of his men commenced pillaging the stores, shooting citizens and firing houses. A gentleman who managed to escape, secre in a comfield near the town He reports that he swam the river at 8 o'clock, and on reaching the bluffs on this side, he had a plain view of the city, which was then a sheet of flames. From what he saw, he thinks the loss would reach two millions of dollars, and by this time perhaps much more, as they seemed determined to destroy everything that would burn.

To Bowen Brothers, Merchants, Chicago: Levenwoith, Kansas, August 21st. The city of Lawrence was sacked and

burned this morning, at four o'clock, by Quantrel and eight hundred guerillas. Send no more goods till you hear from us Great excitement exists here.

THE CITY OF LAWRENCE.

Lawrence, the capital of Douglass county Kansas, is situated on the right bank of the Kansas river, seventy miles from its month. It was well and substantially built and had a population of nearly 4,000 souls. The city was founded in 1854, by settlers from New England, under the auspices of the Emigrant Aid Society. It has always been a thriving, industrious, liberty loving

WHOLESALE BUTCHERY OF THE CITIZENS.

Levenworth, Kansas, Aug. 22. From citizens of Lawrence who arrived here for supplies and medicines I have gathered the following particulars regarding the burning of that city by Quantrell. The list of killed and wounded numbered some 180, a majority of wh m were killed instantly. The names cannot all be given now, however. A house that remained stand ing was filled with killed and wounded of all classes.

From the ruins of burned houses and charred remains, other victims are being found. But one total is standing, Quantrel having spared it in consequence of having made his home there some years since, without expense, but its proprieter was shot.

Most of those killed, were killed in their own houses, with their wives and children clinging to them, while the murderers placed pistols to their bodies

and shot them. In one case the guerrillas drove twelve men into the house, shot them, and burned the building. The inhabitants fled into ravines and bushes, and the fiends stood on banks and killed and wounded scores. Twenty-five negro troops were shot. They took all the money that could be found in pockets on citizens or in houses, including ladies' ewelry even to the rlogs on their

(A true Copy.) A WORD ABOUT

AFTER A THOROUGH TRIAL OF MORE THAN TEN YEARS, the time-pieces manufactured by the American Watch Co., of Waltham, Mass., have gained a firm hold upon the favor of the public, and ow, no less than 75,000 of them are speaking for themselves in the pockets of the people. From a very nsignificant beginning the business has increased w THAN ONE HALF of all the watches sold in the Unite States. Repeated enlargement of our factory buildings to supply the constantly increasing demand. Ard \*\* may here observe that notwithstanding the high price of labor and materials, we actually sell our products at ess prices than those current five years ago.

We refer to these facts only for the purpose of properly introducing another subject relative to our manu facture of watches Hitherto our chief object bas been to make good watches for the million at the lower possible price-something to take the place of the make believe watches called "Ancres," "Lepines," "English Patent Levers," &c., annually thrown upon this market, in countless numbers, by European workshopswatches which are the refuse of their factories, unsale able at home and perfectly worthless everywhere. This object we have accomplished, and now we have

o announce, that we have commenced the manufacture

AN IMPORTANT DECISION .- A man named Herman Rice enlisted in the service of the United States in California, while lacking six days of being eighteen years old. He received clothing and bounty from the government, and went with regiment into the field. After re turning home for awhile on furlough he rejoined his regiment and then deserted. On coming back he was arrested as a deserter, and yesterday applied for a writ of habeas corpus on the ground of having colisted while a minor. Judge Wilkins held that, although a minor, the fact of his having received clothing and bounty from the government rendered his enlistment valid, and refuse to discharge

Yes, Ella's happy voice is hushed, Once full of music and of glee; Tis silent, lo, its echo 's gone;

Ella, thy loved ones mourn for thee. Thy speaking eyes, kind, thoughtful, bright, Experience of maturer years;

Were lighted by a ray from heaven, And fitted for the purer spheres. A long sad train of weeping friends

Have borne thee to thy grave so lone; and those who knew to love thee most, Will miss and mourn for thee at home.

But wherefore mourn? for the dear child Liveth, where her glistening eyes See heavenly lights; her happy voice Has joined the chorus of the skies.

Then dry your tears, for very soon The autumn of your life will come; And then transported to that clime, You'll meet where fadeless pleasures bloom.

SARSAPARILLA

SCROFULA AND SCROFULCUS DISEASES. From Emery Edes, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your Sarsafar-ILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it As fast as our people try it, they agree there has been no medicine like it before in our dominunity."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin-From Rev. Robt. Stratton, Bristol, England.
"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your Sarsaparallla. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your Sarsaparallla. She has been well for some mouths."

cure until we tried your SARSATARILLA, She has been well for some months."

From Mrs. Jane E. Rice, a well known and muchesteemed lady of Dennisville, Cape May Co. N. J.

"My daughter has suffered for a year past with a scrofulous cruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esg., of the widely-known firm of Gage, Murray & Co., manufacturers of enamelled papers in Nashaa, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried aimost everything a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you tald me It imglit for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as anybody's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas - General Debility - Purify the Blood.

Erysipelas—General Debility—Furify the Blood.

From Dr. Robt. Savein, Houston St., N. Y.
Dr. Ayer: I seldom fail to remove Eruptions and Scrafulous Sores by the persevering use of your Sabsaparilla, and I have just now cured an attack of Malignani Erysipelas with it. No alterative we possess equals the Sarbararilla you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.
"For twelve years I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollais' worth of medicines—The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your Sarsaparilla. Took two bottles, and some of your Fills. Together they have cured me. I am now as well and sound as anybody. Being in a public place, my case is known to everybody in this community, and excites the wonder of all."

From Hon, Henry Monro, M. P. P., of Newcastle, C.

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament, "I have used your SARSAFRILLA in my family, for general debtity, and for prejfying the blood, with very beneficial results, and feel confidence in commending it to the afflicted." St. Anthony's Fire, Rose, Salt Rheum,

Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunckhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forchead. They rapidly spread until they formed a loathsome and viralent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tred every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had furthed the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die." Syphilis and Mercurial Disease.

From Dr. Hiram Sloat, of St. Louis, Missouri.
"I find your Sarsaparilla a more effectual
remedy for the secondary symptoms of Syphilis,
and for syphilitic disease than any other we possess.
The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of
Lawrence, Mass., who is a prominent member of
the Legislature of Massachuselts.

"Da. Ayer—My dear Sir: I have found your
SARSAFARILLA an excellent remedy for Syphilis,
both of the primary and secondary type, and effectual in some cases that were too obstinate to yield to
other remedies. I do not know what we can employ with more certainty of success, where a poweriul alterative is required."

Mr. Chas. S. Van Lieve, of New Brunswek, N. J.

ful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswek, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of Ayer's Sarsaparkilla relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him. Leucorrhœa, Whites, Female Weakness,

are generally produced by internal Scrofulous Ulcer-ation, and are very often cured by the alterative effect of this Sarsaparilla. Some cases require, however, in aid of the Sarsaparilla, the skilful application of local remedies. From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.
"I have found your SAESAPARILLA an excellent local debility, arising from the scrofulous diathesis have yielded to it, and there are few that do not when itseffect is properly aided by local treatment.

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have heen cured of a very debilitating Leucorrhea of long standing, by two bottles of your Sarsaparilla." Rheumatism, Gout, Liver Complaint, Dyspepsia Heart Disease, Neuralgia,

when caused by Scrofula in the system, are rapidly oured by this Ext. Sarsaparilla. AYER'S CATHARTIC PILLS possess so many advantages over the other pur-gatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been,

and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by
