

Proclamation by the Governor.

The order of the President, of the date of Feb. 1, 1864, requiring that a draft of five hundred thousand men, to serve for three years or during the war, be made on the 10th day of March next, for the military service of the United States...

The government of the United States will continue to pay the same bounties under this call as under the previous one.

By the act of the extra session, approved Feb. 5, 1864, both local and State bounties are authorized to be raised and paid.

By virtue of sections 8 and 9 of that law the Quartermaster General will pay at such times and places as he may designate a uniform State bounty of one hundred dollars to each person below the rank of a commissioned officer...

By virtue of sections 6 and 7 of the same act the townships and cities have power to pay a bounty of one hundred dollars to each of the persons mentioned in the next preceding paragraph...

The towns and cities are also authorized to pay a bounty not exceeding two hundred dollars, to such persons as enlist under the call made previous to January 1st, 1864...

The State bounty of fifty dollars will continue to be paid by the Quartermaster General to the veterans re-enlisting in their own regiments.

Under these liberal provisions I hope the entire quota of this State may be filled by the first of March.

Proclamation of Jeff. Davis.

A special to the Herald, Headquarters Army of the Potomac, Feb. 14, says: There is nothing special to report from this department.

COPPERHEADISM WILL STICK OUT.—It is indeed, bred in the bone and can not be entirely concealed, like the cloven foot of Satan it leaves its track behind it.

We give the above as a specimen of editorial courtesy and maliciousness, and of "P's" stupidity. The insinuated charge of "copperheadism" is too contemptible to be noticed, but our readers can see with what venom one is to be pursued who dare to differ from the sycophants who fawn around the administration.

The Medical College Enlargement.

We understand that the Regents of the University do not find the funds of the institution in such a state as to warrant the appropriation of the \$25,000 necessary for the erection of the proposed building for the accommodation of the Medical Department, and that with a view of getting aid from our citizens the following resolutions were adopted on Wednesday.

Resolved, That the committee on the Medical Department be and are hereby authorized to let a contract to the best advantage, to erect the addition proposed to the medical college, as soon as ten thousand dollars shall be provided from sources other than the treasury of the University.

Resolved, That Regent Knight and Professors Palmer and Douglas, be a committee to take such steps as they may deem proper, to raise the sum of \$10,000 from the citizens of Ann Arbor and other places, towards the construction of an addition to the medical college.

A meeting of prominent citizens was held yesterday forenoon, and preliminary steps taken to raise the sum asked.

Raid on a Railroad Train.

Baltimore, Feb. 13. A morning paper publishes the following: The passenger train which left Camden street depot Thursday night, for Wheeling and intermediate points was captured by a company of rebels, near Kearneysville depot, about eight miles west of Harper's Ferry.

The passengers, among whom of course there was great consternation, were more or less molested, in the shape of ransoms. Some produced greenbacks, others watches, diamonds and rings, as equivalents for their liberty.

The robbers of the afflicted passengers were very general. Not one of them escaped. One man is said to have lost over \$4,000 in greenbacks. The passengers made no resistance. They were surrounded by an overwhelming force of rebels. A good many threw their watches and money away, some of which have since been found.

Resolved, That the committee on the Medical Department be and are hereby authorized to let a contract to the best advantage, to erect the addition proposed to the medical college, as soon as ten thousand dollars shall be provided from sources other than the treasury of the University.

From Chattanooga.

New York, Feb. 15. The following dispatch from Chattanooga to the 12th is interesting.

The cavalry expedition under Grierson and Smith crossed the country from Corinth, moving South. It is understood in conjunction, the one to attack the other to cut off Polk's retreat and disperse the cavalry of Forrest, who is reported as scouring Central and Northern Mississippi.

The Washington correspondent of the Journal of Commerce writes: "The demand for General McClellan's History of the Army of the Potomac continues to be very great, and the first bound copies were delivered to members last evening. They were going off to-day by the cart load, and I do not see how the House can refuse to print the additional copies asked for. Unlike most public documents, the probability is that this one will be read by thousands from the first to the last page."
