Doings of the Common Council.

An adjourned session of the Common Council was held on Friday evening last, Mayor DEANE in the chair and all the members present except Ald. Rhodes. The chairman of the journal of the evening's proceedings as follows: The chairman of the Street Committee was authorized to widen and repair the bridge on Spring street. Verbal reports were made by the chairman of the Street and Sidewalk Committees. The committee to whom was referred the petition of numerous citizens asking that cows may be restrained from running at large, reported as follows: To the Mayor, Recorder, and Aldermen of the City of Ann Arbor: We acknowledge that there is much force in some points made by the petitioners, and that the petition is respectful and numerously signed, yet, after due examination of the reasons given in the petition and the laws now in force in the city in relation to the subject matter of said petition, we are of the opinion that our city is now noted for its fine shade and ornamental trees, and that these have all grown under existing laws. As to garden lawns or shade trees, whether enclosed by fence or not, the laws of the city now provide treble damages for any person who may suffer for injury done to the same, and if any cow or other animal shall have entered the enclosure of another than its owner, said cow or other animal shall be liable for the same, and it can be protected by so doing. By section three of Ordinance No. 1, all animals are forbidden to run at large in said city, and the exception to this in section eight of the same ordinance does not apply to any milk cows that are bred, raised, or kept in said city, and the measures of others than their owners. Thus our sidewalks are sometimes soiled by cattle, but your committee are of the opinion that the good taste of our city and owners of said walks will soon remove the difficulty; and are further of the opinion that the University grounds are but little disturbed by cattle when the fences are in proper order. Your committee are further aware that the petitioners fairly represent one party in this case, and that there are many reasons on the other side why the prayer of the petitioners should not be granted, further than the same is done by faithful enforcement of the laws now existing laws. The fact of the wants of poor people and their dependence to a large extent on a living on the milk of their cows, the danger of a rise in the price of milk, the consequent exorbitant price of pasture near the city, the expense of driving and re-driving the expense of mowing and cutting weeds and grass in the streets, and the large opposition existing among citizens to the prayer of the petitioners, have induced your committee to recommend the following resolution: Resolved, That the prayer of the petitioners, as referred to, be denied; and that the Marshal and his deputies be instructed to faithfully enforce the laws now in existence in relation to the subject matter of said petition. All of which is respectfully submitted. Dated, May 9th, 1873. (Signed) J. G. LELAND, Chairman. MOSES ROGERS, Committee.

YP-SILANTI ITEMS.

Mr. ELLI was sentenced on the 9th inst. to the House of Correction for 60 days, for drunkenness. While being taken from the Justice's office to the lock-up on some pretense he got away from the officer and made for the river. Although a good swimmer, when about the middle of the stream he was carried away by the current and drowned. His body has not yet been recovered. -Our city is ahead in some respects: Licenses to sell "prize candy packages," pens, etc., "with schedule," were refused to the many applicants who hang on to the Great Eastern Circus, notwithstanding their old licenses from Jackson and other places were presented as recommendations. -While the circus aforesaid was "recommending" on Wednesday some scamp broke into Pamba's Furniture Rooms and stole \$300 from his tool chest, in which it was kept. -The farmers hereabouts are looking glum. Very little plowing has been done-wheat winter-killed except in places where protected by woods. -The liquor war has not yet commenced, but by the way the lawyers are studying up the subject it is safe to say that both sides mean business. -"New brooms sweep clean"-our new officers are making it a dangerous thing for drunk men to appear on the streets.

INSTALLATION OF OFFICERS OF L. O. G. T.

At a regular meeting of the L. O. G. T. No. 320, held May 6th, the following officers were duly installed by JAMES G. PRICE, Grand Lodge Deputy: J. Sprague, W. G. T. Miss Lina Brown, W. V. T. F. M. Chase, W. S. N. Arkey, W. T. C. D. Goodrich, W. M. T. L. Hewitt, W. L. G. G. H. Francis, W. O. G. Miss Belle Kellogg, R. H. S. Miss Jessie Woodruff, L. H. S. James M. Cole, W. C. Miss P. M. Noble, W. A. S. H. C. Sellick, W. F. S. Miss Clara Woodruff, W. D. M. The Lodge meets every Tuesday evening at 7:30 o'clock, at Good Templar's Hall, has an active corps of working members, and is an active and prosperous condition. F. M. CHASE, Sec'y.

The committee designated by Hon. HENRY WALDRON to examine candidates for the appointment of Cadet Midshipman met at the Good Year House, Manchester, on Thursday of last week, and discharged the duty devolved upon them. Fourteen applicants presented themselves for examination, several of whom were from this city and vicinity. The boys all did themselves credit, but after weighing and measuring the difference the committee recommended FRANK D. MEAD, of the town of Ann Arbor, who was accordingly appointed by Mr. WALDRON. He received the official notification on Thursday evening last, with instructions. FRANK D. MEAD, of the town of Ann Arbor, is now a pupil in the High School of this city, junior class, and reputed a good scholar with established habits of industry and a record for honor and integrity to be proud of. He is 17 years old, seeks the appointment of his own motion, and will not do discredit to the position assigned him. Success to him.

AN EXHIBITION WORTH SEEING.

In a very short time ADAM FOREPAPE's aggregation is to exhibit at Ann Arbor. It consists of two Menageries, a magnificent Museum, and double Circus troupe. Many of our readers particularly those of a show giving disposition will remember what an excellent exhibition Mr. FOREPAPE brought to our State in 1870, and what general satisfaction it gave to all who attended, and the immense audiences it attracted. His present establishment is, we are informed, five times more extensive now than it was in 1870. At Washington, Baltimore, Pittsburg and Chicago, where it now is exhibiting it is pronounced the finest exhibition of the kind in the world. It does not travel by rail, but moves over the country on wheels, with an army of men and horses. It is to traverse our entire State during the months of May and June, and as it goes marching on "our people can judge of its magnitude and merit.

The committee of Aldermen appointed by the Common Council to investigate the capacity of the Bunker power to "elevate" water for the use of the city-see Council proceedings-should remember that "elevation" simply is not what the plan of the Citizens' Committee proposes. The Holly system of distribution requires a maximum power and pressure in readiness at all times. A power ample to "elevate" water into a distributing reservoir is not sufficient to work the Holly system with the best pumps that can be obtained; that it can not be relied upon for every day and hour in the year where continual pumping is necessary to keep up supply. What can be done at the Bunker power with the Holly at its lowest stages? is the question for the committee to consider.

At the recent charter election in South Bend, Ind., the Holly Water-Works scheme, persistent attempts to force which upon the city had been made, was "knocked higher than Gilderoy's kite." Even yielding the Holly pumps-as has been done by the citizens' committee here-failed to save the system, which is the same no matter what pumps are used. And let it be held in mind that wherever a test vote is taken, South Bend follows Toledo and adopts the stand-pipe system; the next best system after an elevated reservoir. Our Council should make a note of such facts.

The annual meeting of the State Sunday School Association is announced to be held in Kalamazoo, June 24, 4th, and 5th. President AXELSON is to deliver an address on Wednesday evening. Subject: "Intelligent Christianity the Stability and Power of the Nation."

The Ladies' Library Room will be open for the drawing of books on Saturday, at 2 o'clock P. M. Change to an earlier hour if the convenience of persons residing in the country. The Library will close at 6 o'clock P. M. L. L. PORTER, Sec'y.

Ladies are requested to call and examine the new Spring Goods which are sold at extremely low prices at Mack & Scribner's.

Hives-Syrup.-Carry a bottle of Dr. Ransom's Hives-Syrup and Tonic, or Honey Syrup, in your pocket, and a cold your throat with it every half hour, or hour, and it will restore the voice in twenty-four hours. It is of invaluable service to singers and public speakers, removes in a few minutes the hoarseness of the voice, restoring its natural smoothness. Only 25 cents per bottle.

COLE and CRAMP are being called by one dose of Dr. Miller's Magnete Balm. Do not fail to keep a bottle in the house. 25 cts. is the price. See advertisement in this paper.

A Central Pacific freight car is fitting up in New York, Philadelphia, and Boston are rapidly increasing those large figures. They are authorized agents in the three cities for the ANNO.

What can be done at the Bunker power with the Holly at its lowest stages? is the question for the committee to consider.

At the recent charter election in South Bend, Ind., the Holly Water-Works scheme, persistent attempts to force which upon the city had been made, was "knocked higher than Gilderoy's kite." Even yielding the Holly pumps-as has been done by the citizens' committee here-failed to save the system, which is the same no matter what pumps are used. And let it be held in mind that wherever a test vote is taken, South Bend follows Toledo and adopts the stand-pipe system; the next best system after an elevated reservoir. Our Council should make a note of such facts.
