THE UNIVERSITY WATER WORKS.—On Friday afternoon last a partial trial was made of the yet incomplete University Water Works.

The new number 6 Knowles pump, located in the engine room of the Laboratory, had been attached to the four-inch iron pipe leading to the cistern at or near the foot of the hill on State street, 4,000 feet distant, and to the same pump was also attached a long line of large-sized hose. As soon as the pump was started a stream was discharged through a 3-4 inch fire nozzle to a distance of 125 feet. A perpendicular solid stream was also thrown upon the high cornice of the medical building, and a broken stream upon or over the dome of the building, full one hundred feet high. When the reservoir or tank, being erected at the east end of the laboratory, to be elevated 45 feet and hold 40,000 gallons, is completed, water will flow into the third story of any of the college buildings, and the pumps will be aided by pressure in doing their work. The experiment was conducted under the direction of the Chief-Engineer Sanford, of the Fire Department, who pronounced it a complete success.

Since Friday this pump has been run for several hours at a time, at the rate of 40 gallons a minute, without materially diminishing the storage in the pumping cistern, which is supplied by a 6-inch pipe from a spring on the lands of Emanuel Mann, 4,000 feet distant. These tests show that the supply of water will be much greater than the needs of the University.

A FAMILY FEUD.—Jimmy and Mary Coleman, who live on Fourth street, are not, according to all accounts, the happiest pair in this world. Both are fond of their drop, and on Sunday last imbibed so freely that during the afternoon their otherwise good natures became so disturbed that they got into a quarrel, which soon came to blows. Mary selected the potato masher for her weapon, and Jimmy caught up whatever came within his reach. After a few blows had passed between them Jimmy went into the garden and began pulling up the vegetables upon which Mary had expended so much hard labor, and she retaliated with the potato masher and commenced demolishing the dishes. The noise of breaking crockery attracted Jimmy's attention, and he hastened into the house and gave Mary a severe chastisement for her unprovoked conduct.

In this engagement Mary came off with a bloody nose, a broken scalp, and a terribly disfigured countenance. To head the wounds thus inflicted, Jimmy called in a physician, who, after carefully dressing them, entered complaint to Marshal Stilling, and he in company with policeman Johnson hastened to the scene of the conflict and arrested them. Jimmy was fined five dollars, and Jimmy followed in the rear, marched off to jail, where they remained until Monday morning, when they were brought before Justice McMahon, when they took just seventeen dollars—which he probably had saved up to have a good time on the Fourth—to pay the bill for a few hours home amusement.

THE HORSE FOUND.—In our issue of April 23, mention was made of the sudden disappearance on the night of March 29th of a horse from the stable of Fred Chapin in this city. Chapin purchased the horse in question from H. L. Axtell, a former livery-stand keeper in this city, for \$140, and gave a check on the Savings Bank for that sum. Soon after commencing his business, Chapin was furnished by John McLean for the amount to secure a debt due him from Axtell. Last Tuesday Chapin accidentally entered a barn in Tecumseh and at once recognized his horse among several others. On inquiring a little he ascertained that about a month after the horse was stolen this city, it was disposed of by Axtell in Hillsdale, and from there taken to Tecumseh. Chapin returned to this city, made complaint, and Axtell was arrested by Deputy Sheriff McIntyre at Deerfield on Friday last. His examination will take place before Justice McMahon July 29th. Meantime Axtell is under \$500 bonds to appear on that day.

Colombia, the Gem of the Ocean.

The following is one of the songs to be sung at the coming Fourth of July celebration:

Colombia, the gem of the ocean, The home of the brave and the free, The shrine of our patriot's devotion, When liberty's torch stands in view, The banner make her colors bleed, When officers' horns stand in view; The banners make tyranny tremble, When borne by the red, white, and blue.

When borne by the red, white, and blue, When borne by the red, white, and blue, Thy banners make tyranny tremble, When borne by the red, white, and blue.

When we wined its wide desolation, And threaten'd its land to deform, The ark then of freedom's foundation, Columbia rode safe through the storm. With her garlands of victory around her, Whence proudly she bore her brave crew, With her flag proudly floating before her, The boast of the red, white, and blue.

The boast of the red, white, and blue, The boast of the red, white, and blue, With her flag proudly floating before her, The boast of the red, white, and blue.

The Sons of Columbia, come hither, To join in our songs with delight, May the wreath of glory never wither, May the star of their glory shine bright! May the service united never sever, But they to their colors prove true! The army and navy forever, Three cheers for the red, white, and blue.

Three cheers for the red, white, and blue, Three cheers for the red, white, and blue, The army and navy forever, Three cheers for the red, white, and blue.
