THE OLD CLOCK.

Memento of the good-by clock. When the hands in moments flew, To generations of the dead, Who turned on their great view.

To watch and grieve the appointed time, To wait in agony the chime, To hear the music of the chime, To see the hands in moments fly.

THE MOTHER OF CRIMINALS.

The New York Times, which first published the story concerning "Margaret," the mother of criminals, contains additional facts in regard to the family which were furnished by the United States Bureau of Education by Mr. Dugdale, the member of the New York Prison Association who brought to light the criminal genealogy of guilt.

His attention was first called to the discovery in confinement in Ulster County Jail six persons, all blood relatives, and carefully tracing back their genealogy, he discovered that the descendants, among others, of one unfortunate little vagrant and his sisters, Margaret died shortly after 1825, aged, it is believed, 65 years.

The family line of her and her sisters has been traced, and it is believed that the full number of descendants is at least 1,200.

The number whose fortunes are most clearly known are 700 males and 310 females; remainder unknown. Of these 106 were illegitimate, 164 profligate, 17 keepers of houses of ill-fame, 142 receiving out-door relief, 64 paupers, 40 almshouse inmates, 70 criminals.

The number of indictable offenses committed by them is 115; the number of years imprisonment they have suffered, 116; the number of years' individual confinement, 739; and of the whole 700, only 20 were ever acquired any property, and of these 8 lost what they gained.

This is a terrible record, yet it is necessary an imperfect one. As will be noticed, there are many of the guilty stock whose misfortune have been wholly lost sight of, while those whose careers have been most accessible have undoubtedly committed many no record. It is not, however, the only method of tracing their genealogy, for the fact that there was a better way to live than steeped in degradation, and the lesson taught by the criminal record of this family is one well worth pondering over.

It shows a more effective method of tracing their genealogy, for the fact that there was a better way to live than steeped in degradation, and the lesson taught by the criminal record of this family is one well worth pondering over.

GOSSIP OF THE DAY.

THEY know how to do it in Honduras on the American plan. The Minister from that land of teak and mahogany to England has cabbaged \$1,000,000 on a fraudulent loan, using his wife in the transaction.

A FEW months ago some valuable mills at Rockland, Canada, were set on fire by a passing steamer and destroyed. The owners of the property sued the company to which the steamer belonged, and have just recovered a verdict of \$210,000.

KOSUTH is living in comfort at Barracossa, a village between Turin and Rivoli, absorbed in the cultivation of fruit, flowers and vegetables, and keeping an eye on his collections of minerals and insects. Kosuth was 73 years old on the 16th of September.

THE California wheat crop is very short this year, yielding only 425,000 tons, of which 225,000 tons, or about 7,000,000 bushels, constitutes the export. The grape crop is immense, the largest ever known, and the wine production will amount to over 8,000,000 gallons.

An enterprising English resident of Hokaido, Japan, having set up a banking business and commenced the issuing of notes of hand, payable on demand, the Japanese government promptly suppressed his business by issuing a decree forbidding the circulation of the little I. O. U's.

THE Cincinnati papers record the death of Charlotte Crompton, at one time one of the most famous actresses on the American stage. She was born in 1816, and made her debut on the stage at Cincinnati in 1831. She seems to have lost her dramatic power several years ago, and of late has been but little heard of.

"WHAT is a statesman?" is the bold caption of the leading editorial in a New York illustrated weekly. The editor need not travel far to get an answer to his conundrum. Let him drop over to the Tombs and the Hon. William M. Tweed will enlighten him on the subject. We believe the "Boss" is the only man who ever claimed to be a statesman by profession.

At the funeral of his favorite daughter the Khedive of Egypt distributed among the crowd 450,000 pieces of silver coin, from 1 to 15 piastres each. Upon the lid of the coffin the jewelry of the deceased, valued at 8,000,000 forins, was exhibited. Twenty-four buffaloes were killed by the priests before the Mosque Rihah at Cairo, roasted and eaten, and then 3,000 priests said prayers by the tomb for seven days.

THE recent explosion at a celluloid factory in Newark, N. J., accompanied by serious loss of life, has led many to ask, "What is celluloid?" It is a newly discovered substance manufactured from gun-cotton, camphor, and several other ingredients. It can be made to resemble coral, ivory, tortoise-shell, etc., according as is desired. It is light, strong and capable of taking deep or delicate coloring, and is largely used in the manufacture of fancy goods.

THE floods in France during the latter part of September were more disastrous and widespread than those of the previous month. The rains came down in torrents for days and nights, swelling and overflowing the rivers and smaller streams, and causing extensive destruction in towns and country. Such rains and such a flood have never been known in that country. Many millions of dollars worth of property was destroyed, and many persons were drowned.

THE following from the Lincoln County (Ga.) Advocate shows to what dire misfortune any married man is liable: "Last week we announced, on the authority of a certain hardware merchant of this town, that his wife had just delivered of a pair of twin girls. This week, on the same authority, we have to announce that the wife of the same merchant has been delivered of another child. The last one is also a girl, weighs nine pounds, and the mother and child are doing well."

SOMETIMES an item gets into the newspapers which digs a pair of rowsels into the sides of the imagination, so to speak. Here is an instance from the New York Sun: "A Hartford man recently got a piece of tough meat lodged in the lower part of the esophagus, making breathing difficult and threatening inflammation, and was treated by Dr. Ellisworth, of that city, who killed a number of dogs, and, with the gastric juice of their stomach coatings, succeeded in dissolving the pieces in the course of the day."

SCORE one more for old Ireland! On the 30th of August last the hackmen of Paris, France, celebrated the annual feast in honor of their patron saint, who is no less a person than St. Fiacre, a native of Ireland, who came to Paris in the year 597—as long as 1,278 years ago—and invented cabs for the benefit of the Parisians, and they still persist in calling those vehicles by his name—fiacres.

THERE is no doubt that Henry M. Stanley is in the interior of Africa. The London Telegraph and New York Herald—the two newspapers whose joint exploration and correspondence he is—publish the first of his letters, written from the shores of the Victoria Nyanza Lake, in the heart of the mysterious, unknown land. His story reads like a leafy strand from wonderland, telling of queer countries and people, of terrible struggles with hunger and thirst, of bloody battles with ferocious natives, and of above all, of important discoveries and observations of great interest to the world at large.

COMMISSIONER PRATT, of the Internal Revenue Department, is preparing his annual report. We learn that it will present a favorable view of the national finances. The receipts for the first three months of the present fiscal year show an increase of revenue amounting to \$2,000,000, and the estimated receipts for the fiscal year will aggregate \$120,000,000, which exceeds those of last year by \$10,000,000. This is certainly an encouraging presentation, especially in

a season of such marked and general business depression. The improvement is partly due to the additional tax on whisky and tobacco.

THE NEWS CONDENSED.

THE New York Evening Post, in a review of the business and trade of that city, says the sales of this season are almost of those of any season since 1873. The unfinished Agricultural Hall, on the Philadelphia Centennial grounds, was blown down by a gust of wind last week. Five laborers were seriously and one fatally injured. A wrestling match for the championship of the world took place in New York last week between Antonio Garcia, champion of France, and Prof. Miller, Australian, the latter being victorious. The members of the Beecher-Dillon jury are clamoring for back pay.

A FRIENDMAN named La Page has been arrested at Suncook, N. H., on suspicion of being the murderer of Mrs. Josie Longmaid. The Stanzas, Lauman & Co. heavy dry goods dealers of New York, have failed. Liabilities, \$50,000.

JOHN H. CONTOUR, the millionaire confectioner, who died recently in New York, bequeathed to his sole heir and child, Charles H. Contour, the nice little fortune of \$4,000,000.

UNDER a number of colored men were returning to their homes near Brooklyn, a few days ago, they were attacked by a party of white men. One negro was killed, and one mortally wounded. Seven of those engaged in the assault were arrested. Several commercial suspensions have occurred in New York during the past week. Another horrible murder was reported by reason of a fight. An old man of 70, named Rufus Streeter, was found dead in a ditch near Barre, Vt., his head broken to a jelly, his abdomen ripped open, and the body otherwise mutilated. The crime was evidently committed for the purpose of robbery.

A SHOCKING domestic tragedy was enacted last week at Hackettstown, N. J. Jas. Richer shot and killed his two sons, aged 10 and 10, and shot at his wife, but missed her. He then shot himself in the head. The wound is not serious. Domestic trouble led to the crime. — Thomas M. Judd, member of the Massachusetts Legislature from Berkshire county, has been arrested for forging a note for \$1,000, on which he secured the money.

THE WEST. In a prize-fight at Cincinnati, the other day, between Frank Farrell and Jack Leonard, two young rogues, Leonard received injuries which will probably prove fatal. Three Italians have been convicted at St. Louis of the murder of one of their countrymen, sentenced to one year in prison. Two men were killed and several injured at St. Louis, last week, by the falling of the brewery of Fritz & Wainwright.

JUDGE FOREMAN, of the Third District Court of Utah, has taken the Mormon bill right by the horns. In his charge to the Grand Jury at Salt Lake City, the other day, he admonished them to be bold in the prosecution of individuals implicated in swindling the Territory out of lands and for illegal voting. He particularly urged them to indict every leader, proclaimer or instigator of polygamy, which he denounced as a walking ulcer and degrading crime. It is for the darkest days of anterior civilization. He said it existed only by the generosity of the government, but that the government was now in earnest, and that the Mormons would soon be made to realize it. — There was a bloody row at a mining camp 120 miles from Denver, Col., last week, 50 or 100 miners, with guns and pistols, playing a lively part. The notorious Maj. Graham, lately released from the penitentiary, was arrested and a miner, with which the friends of the latter came so incensed that they started out to lynch Graham, whom they completely riddled with bullets. A number of Graham's friends were then ordered to leave the country on pain of being treated in a similar way. — John Bulliner and Allen Baker, two of the Williamson county (Ill.) K. K. boys, have been found guilty of murder in the second degree, and sentenced to twenty-five years each in the penitentiary.

At our county fair grounds near Greenfield, O., one day last week, the seats around the race track fell, precipitating fully 1,000 people to the ground, severely injuring a large number of men, women and children. A letter has been received in St. Paul from a well-informed gentleman at Bismarck, predicting a red-hot Indian war next year, unless Congress take heroic measures to suppress it, before fiery indignation. He says frontiersmen insist that the Black Hills will be occupied within a treaty, or that the Indians will be stirred up as an enemy, and that the result will be most awful. Except a few timid ones, the people on the frontier do not fear the result in that case, believing that it will require more troops to be thrown into the country, giving them employment and adding to the population of the border. — San Francisco and other portions of California have just experienced another earthquake shock. The grand jury of Winnebago county, Ill., has indicted the two St. Louis editors, Foster and Edwards, who some time ago fought a duel near Rockford. The seconds and surgeons, and Postgate, the Inter-Ocean reporter, are also indicted. The grand jury also found indictments against Frank B. Jones, ex-Sheriff of the county, and Frank B. Wilkie, one of the editors of the Chicago Times, for conspiracy and subornation of perjury in obtaining affidavits to damage the character of Miss Egan, the young lady who some time ago received a verdict of \$25,000 damages for libel against the editor of the Times. James Egan, Cashier of the First National Bank of Hines, Ohio, having involved the institution by embezzlement, ended his life the other day by shooting himself through the heart with a pistol. — The village of Park Ridge, a suburb of Chicago, has narrowly escaped having a second Chicago. The fire broke out at 10 o'clock, and in 10, son of a prominent citizen, was enticed into a secluded spot by a couple of strangers, bound and gagged, and thrown into a carriage in waiting. The men then drove rapidly away. At the neighboring town of Jefferson they stopped to get a drink, leaving the boy under guard. The carriage was then driven to the edge of a cliff, where the men were drinking, he managed to slip the cords from his wrists and make his escape, and reached home safely. The affair created the wildest excitement in the village.

PROF. WALTER P. JENNEY, chief geologist of the Black Hills exploring expedition, returned to Cheyenne last week, having spent five months in the Hills. The Professor reports good fossils extending forty miles north from Hartney's Peak, and twenty miles to the south, and contains full in quantities that will pay from \$3 to \$5 per day to the man. There are bars on numbers of streams that will pay much more than that. Prof. Jenney corroborates Gen. Custer's report of the Hills, and says that they were a part of the same range when the government was then in settlement. The valleys are adapted to agriculture, and the hills and canons to stock-raising. The rainfall is plentiful, and timber abundant. JUDGE FOREMAN, of Salt Lake, has decided that Brigham Young must immediately pay over to Ann Tilton, the divorced wife, the alimony due her, now amounting to some \$10,000.

A FROGHELL SURGEON occurred at Baltimore a few days ago. An unknown young man threw himself from the top of the Washington monument to the ground below, a distance of 150 feet. Of course he was instantly killed, being crushed to a shapeless mass of flesh and bone. — A dispatch from Washington says: "The Attorney-General is in daily receipt of advices from Mississippi. Gov. Ames is averse to arming the citizens of the State for their own protection, for the reason that it would prove a great excitement. Everything is reported quiet."

THE colored men were attacked in the streets of New Orleans by unknown white assassins, a few nights ago, one killed outright, another mortally wounded, and the third slightly injured. The affair caused great excitement. Citizens assembled on the streets to denounce the great wrong, and in the afternoon an immense mass meeting was held at the Court House, when the stores were closed, and all night participants. Resolutions were adopted disclaiming all responsibility for the deed, and loudly calling for the prosecution and punishment of the assassins.

JOHN GAIN and his sister-in-law, Catherine Matthews, both colored, were hung by a mob in East Feliciana parish, La., last week. They were at the time under arrest for murder and had confessed the crime. Reports of the condition of the Southern cotton crops are very discouraging. Rain and rust are playing havoc with the great staple.

The epidemic prevails among the horses in all parts of the South, though in a mild form. WASHINGTON. A WASHINGTON dispatch says: "Although this government has repeatedly and emphatically expressed its desire to the Spanish government for the termination of the insurrection in Cuba, and tendered its good offices to procure an accommodation between the contending parties, it has never gone to the extent of the late treaty, and reported by the diplomatics threatening to acknowledge the rights of the Cubans in case hostilities be not closed before the 1st of January next."

The President returned to Washington on the morning of the 15th inst., and the first regular Cabinet session for several weeks was held at noon of that day. A SINGULAR episode happened at the White House one day last week. An insane colored man visited the Executive Mansion and stated that he had been discharged from the Maryland Penitentiary, where he was unjustly incarcerated. He claimed that President Grant was his father, and reported by reason of signs which were given him while in prison. He was arrested and on his person was found a five-barreled revolver, loaded in every barrel. — The President has made the following appointments: Charles M. Lynch, Collector of Internal Revenue, Nineteenth District of Pennsylvania; George B. Chesnut, Supervisor of the Nevada and Northern telegraph extension; James S. Hastings, Michigan, Agent for Indians of Red Cloud Agency, Dakota; John J. S. Valle, resigned; Col. Ben. R. Bonner, Marshall of the United States for the East District of Missouri. — Workmen on the Nevada and Northern telegraph extension have been driven off by the Indians of the Umattila tribe, who threatened to kill them if they continued.

The report of the Commission appointed to investigate the affairs of the Red Cloud Agency has been made public. It sustains Prof. Marsh's charges of incompetency against Agent Saville, but the faculty of dispensing with the services of disloyalty. The Commission reports that they find no evidence to sustain the charges against the late Secretary Delano and Indian Commissioner Smith. They recommend that Agent Saville be removed; that J. W. Stevens, J. H. Martin, and D. J. McCann be removed; and that the faculty of dispensing with the services of disloyalty be excluded from all future employment as inspectors; that bids for food, clothing, and wagon transportation be received at some suitable point in the West;
