

Democratic National Ticket.

For President—SAMUEL J. TILDEN.
For Vice President—THOMAS A. HENDRICKS.
ELECTORAL TICKET.
For Electors of President and Vice President—At Large—GEORGE V. N. LOTHROP, of Wayne.

DON'T TRADE VOTES.

We learn that efforts are being made by friends of certain Republican candidates to obtain votes from Democrats on promise of support for certain candidates on the Democratic ticket. Such efforts ought to meet with no countenance from any Democrat.

THOSE REBEL CLAIMS.

The Ann Arbor Argus wishes to know under what law the ballots are required to say "For representative in the 40th Congress." Section 50 of the compiled laws of 1871 provides that "the ballot shall designate the office to which each person named (on the ballot) is intended to be chosen." How can such office be designated, as on the Indiana Confederate ballot, by simply saying "for Congress?"

THOSE REBEL CLAIMS.

The attention of every voter is called to the following frank and manly letter from Samuel J. Tilden. It spikes the last radical battery. Read it and hand it to your Republican neighbor, that he may read it and thereafter sleep in peace.

He Has a Glorious War Record.

The persistent and slanderous attacks of the Adrian Times upon Hon. John J. Robison, are receding every day upon the head of the slanderer, and winning fresh supporters to Mr. Robison's standard. Two years ago, when Mr. Robison was a candidate for Congress, as notoriously many contemporaries and admirers of a statement as was ever concocted by the unprincipled brain of a thieving Radical demagogue, was written up and furnished the Grant-Collared organ of this city, which evolved it from its slanders column, to dupes its readers into the belief that Mr. Robison was, during the war, as rank and detestable a copperhead as was one of the editors of that sheet, and with as vile an anti-war record.

A Voice from South Carolina.

After Parke Godwin had finished his masterly oration to the business men of New York city, on the evening of October 11th, Judge Thomas J. Mackay, of South Carolina, made a forcible speech. The following is a portion of the Judge's oration.

STATE TICKET.
For Governor—WILLIAM L. WEBBER, of Saginaw.
For Lieutenant Governor—JULIUS HOUSEMAN, of Kent.

Let Democrats remember that Washington, on a full vote, is strongly Democratic, and that the whole ticket can be easily elected if Democrats will be true to their professions and each other. There is no danger of Republican success except through Democratic division.

JOSEPH BRUSH FENTON.—The Flint Globe, a Republican journal, gives the new Democratic candidate for Commissioner of the State Land Office the following good notice: Mr. Channey W. Greene, who was nominated by the Democrats of this State for the office of Commissioner of the State Land Office, declined some time ago to accept the nomination.

COUNTY TICKET.
For Judge of Probate—WILLIAM D. HARRIMAN, of Ann Arbor.

REPUBLICAN speakers and journalists who hold up the rebel debt as a scarecrow in the face and eyes of timid voters have a poor idea of the intelligence of their hearers and readers. If the Constitution did not stand in the way of the payment of the "rebel debt," if the Southern States and Southern political leaders had the least desire to pay a debt owing to Northerners and foreigners who will be denied the privilege of doing so, for the simple reason that there is no rebel debt, that is, no debt contracted by the late Confederacy now outstanding and due. We copy one of the Confederate bonds, the vision of which disturbs the nightly dreams of the average Republican:

LEGISLATIVE TICKET.
For Senator—JOHN L. BURLEIGH, of Ann Arbor.
For Representative in the State Legislature—At Large—JOHN H. HENDERSON, of Pitsford.

THE New York Herald's Charleston correspondent predicts that South Carolina will give Tilden a majority of from 2,500 to 10,000, and that Wade Hampton will get a larger majority than Tilden; and this despite the troops.

That is the legend inscribed upon the Confederate bonds and notes, and no "treaty of peace" having been made or "ratified," as "nominated in the bond," there is no debt to be paid by anybody. And now we hope that our Republican friends will get a quiet night's sleep.

THE New York Herald's Charleston correspondent predicts that South Carolina will give Tilden a majority of from 2,500 to 10,000, and that Wade Hampton will get a larger majority than Tilden; and this despite the troops.

In view of these facts every Republican who wishes to see the State Land Office in charge of a Commissioner both competent and should vote for the Democrat upon all officials connected with the departments at Washington, and probably on all custom-house officers, postmasters, and other employes of the Government wherever located. The circular call also makes a peremptory demand for the payment of all arrears on previous assessments. It is also understood that this latest order for "your money or your place" is for the first time made to embrace non-commissioned officers and private soldiers detailed for clerical duty in the War Department.

The Detroit Post, commenting on the joint indorsement by the Democratic and Republican State Committees of the Constitutional amendment increasing the salaries of Circuit Judges to \$2,500 a year, suggests that the members of the two committees would also no doubt concur in recommending the adoption of the amendment relative to constitutional amendments. We think not. The first amendment is right and should be adopted; the second, in our mind, unnecessary and unwise, and ought to be rejected.

PROF. RAMSON DUNN, of Hillsdale, whom the greenbackers of the district nominated for Congress, has declined the proffered favor, thus showing more sense than the men who constitute the majority in the Legislature.

REPORT has it that Carl Schurz, in his recent speech in New York, administered a rebuke to the merchants and business men of that city for their political apathy; in other words, for not actively promoting the election of Hayes and Wheeler.

THE Register, writing of the importance of the office of Register of Deeds, says: "Still there is perhaps no one county office in which so great a number of our citizens are interested, and none in which absolute accuracy is so necessary. Every person who either curbed by mortgage or loans money secured by a lien on real estate, or who has a mortgage, or who would avail of the right of a lifetime in his property, or who has a deed, a cloud by the title, or who has a large amount of money and great annoyance to remove."

THE New York Sun discloses the fact that during the Congressional career of Gov. Hayes he voted persistently against all resolutions or measures looking to a decrease in the volume of greenbacks, and as persistently in favor of measures looking to an additional large issue of greenbacks, to replace the circulation of the national banks.

And we can assign no better or stronger reason why Mr. Manly, the Democratic candidate should be elected. He has the experience which is valuable to the incumbent of that office, and which will insure the public against the mistakes and calamities the Register so vividly portrays.

It is a terrible thing for a Southern State to vote for Tilden and Hendricks, and that any of them is likely to do so is evidence (to all Republicans) that Democracy is a party of rebel sympathizers, devoid of love of country, patriotism, and all other good qualities. Yet no stone is left unturned to procure the electoral vote of those same Southern States for Hayes and Wheeler, and even the whole military power of the Government is to be used to compel the result. The same voters are classed as traitors or loyal men, according as they cast their votes. That's logic for you.

THE Chicago Tribune, the leading Republican organ in the Northwest, figures out a Republican victory, but by "the skin of the teeth." Claiming California, Florida, Nevada, and Wisconsin as sure for Hayes and Wheeler, its "morally certain" column counts up 174 electoral votes, or 11 less than the number necessary for a choice. And then it captures the 11 short votes by adding in New Jersey and Oregon, making the magic total of 185—not a vote to spare. Conceding that New Jersey may not "come into my parcel," it throws a fly for North Carolina, and even winks with one eye at Indiana and rolls the other at New York. As Hayes is more likely to lose California, Florida, Nevada, and Wisconsin than to win Indiana or New York, the Tribune's victory is next door to certain defeat.

And several other voters with whom we had not ever suspected it. We have heard that you were once a pupil in Zack Chandler's Sunday School class, but a prophet—never.

NO MORE frank, manly, or brave words were ever written than those which go to make up the letter of Governor Tilden in another column. They have the genuine ring, and mark the writer an honest man as well as a statesman. Again and again Democratic speakers and journals have repudiated the charge that Democratic success would insure the allowance and payment of the rebel claims of all sorts, and now with a few words of Mr. Tilden, in the face of a "solid South," that terrible bug-bear to the sectional Republican-burges the slender fashions deep. It is a noble letter, and ought to be read by every voter in the land. Pass it around.

Political Clippings.
The Hon. Matt. H. Carpenter has left town from active participation in the campaign for Hayes. His engagements upon the stump have all been canceled. Six years of Grantism have cost the country \$4,008,431,461 more than four billion dollars! Republican administration has also squandered \$300,000,000 of public lands. Its official salaries are paid to the amount of \$5,500,595. It has paid to swindling railroad corporations nearly \$100,000,000 more in the face of all this record the Republican party has the "cheek" to ask the people to give it four years more of power and plunder.

The Salaries of the Judges.
To the People of the State of Michigan: Believing that the best interests of this State, and true economy, demands a better paid Judiciary, and that the present salaries of Circuit Judges are unduly and grossly inadequate, we do most earnestly urge upon you, that in the coming election you will, irremediably amend the Constitution increasing the pay of Circuit Judges.
