

THE next regular term of the Supreme Court of this State will open on Tuesday next.

THE Marshall Statesman tells a deal of truth in this single sentence: "Michigan has never been afflicted with a more inefficient legislative body than the one just adjourned."

SENATOR MORTON has written a letter nominally indorsing the policy of President Hayes; or that is what the Hayes journals call it. It is really a good thing, but every paragraph carries a double.

AN ENTERPRISING Washington newspaper sends Ben Butler to Colorado; to turn sheep-farmer and United States Senator in place of Chaffee, whose term will expire March 4, 1879. "The best laid plans of mice and men," etc.

FLETCHER HARPER, senior member of the publishing firm of Harper & Brothers, and the youngest and last surviving of the four brothers who established and built up the house, died on the 29th ult., aged 72 years.

J. LOTHROP MOTLEY, the eminent historian, died in London on the 30th ult., aged 63 years the 14th day of April last. Will ex-President Grant attend the funeral of the Minister he removed to make a place for the poker-playing Schenck?

IS THERE any petty office within the gift of the President that an ex-United States Senator won't accept, provided there is money in it? We are led to ask this question by the report that ex-Senator Logan wants and expects to get the office of Collector of Customs at Chicago.

AS GOV. ROBINSON, of New York, requested the Legislature to reduce the appropriation for the new capitol to \$500,000 and promised to approve an appropriation for that sum, before he vetoed the \$1,000,000 appropriation (though individually of the opinion that it would be better to make no appropriation), those Republican journals which make haste to charge him with inconsistency or backing down show both their ignorance and their partisanship.

ATTORNEY-GENERAL DEYENS has appointed Thomas Sims, colored, to be a messenger in the Department of Justice: the same Thomas Sims whom, as United States Marshal, he captured and restored to his owner, in obedience to the fugitive slave law, and because of which at Wendell Phillips recently branded the official family of President Hayes as the "Slave-hound Cabinet." And now will Wendell's angry passions cool, or will he still "let loose the dogs of war"?

JUSTICE SWAYNE, of the Supreme Court of the United States, is a quasi indorser of Gen. Pillow's application for the judicial position made vacant by the death of Judge Emmons, of Detroit. He writes to Gen. Pillow: "I have not the slightest objection to your name being presented to the President, and if the appointment shall fall to you it will afford me pleasure to give you the greeting of fellowship and to extend to you every courtesy and kindness in my power." And Gen. Pillow files Justice Swayne's letter with his application.

THE Detroit Post has seen the Morton letter and is led to remark: "The would-be Administration organs have set up a loud cackle over this letter, claiming it as an indorsement of the President's Southern policy. It is no such thing. On the contrary, Senator Morton says distinctly that he believes that the President's Southern policy will prove a complete failure as to everything it was expected to accomplish." All of which our cotemporary of the Ypsilanti Commercial will put in his pipe and smoke with great gusto.

GEORGE H. BOKER, late Minister to Russia, says that he didn't resign. He wasn't anxious enough to throw up a good thing to resign, and therefore removed is the proper word to record against his name. He didn't believe in the resignation subterfuge, with letters complimentary, after the pattern set by Grant, Williams, Schenck & Co., and so "he stepped down and out" because his services were not wanted any longer. We admire his pluck. It is now given out that all foreign ministers are to be recalled, and new men sent abroad: men in sympathy, we presume, with "my policy."

WHEN the Lansing Republican can stop throwing mud at the Regents and professors of the University long enough to examine the legislative records, will it tell the public what amount of deduction was made from the pay of Senators and Representatives because of individual absences or on account of those frequent adjournments from Friday to Monday evening? How would the pay roll look measured by this constitutional provision? "The compensation of the members of the Legislature shall be \$3 per day for actual attendance and when absent on account of sickness." Would not the "gross neglect of duty" warrant a little "bullying" of the Legislature by the people? Will our cotemporary "rise and explain"?

That Democratic city of Albany is worse than Pontiac. There the workmen on the new State Capitol proposed to, and did pretty nearly do, to clean out the Legislature, for not passing the vetoed appropriation to carry on the work over the Governor's head. It was a high-handed outrage, and will hunt Albany.—Pondic Gazette.

Is that word "Democratic" logged in to cover up the fact that the Albany riot was incited and promoted by Republican leaders? Another fact: the real "workmen" had little or nothing to do with it. It was engineered by idle and worthless political hummers, and the body of the rioters was constituted mainly of men who would have done little or no work had the vetoed bill been passed into a law. Republican journals will fail to make political capital out of the Albany riot.

WE AGREE with the New York Sun that the appointment of Gen. Pillow, of Tennessee, as United States Circuit Judge, to succeed Judge Emmons, "would be exceedingly improper," not for the reason assigned that Pillow is a Southern man and the circuit a "Northwestern Circuit," but because the brag and bluster for which Pillow is notorious wholly unfit him for a judicial station. The circuit is comprised of the States of Michigan, Ohio, Kentucky and Tennessee, and a lawyer living in the latter State ought certainly to be as well posted in the "local laws" of Michigan and Ohio as one living in Michigan would be in the "local laws" of either Kentucky or Tennessee. Besides, in those modern days United States courts don't pay very much attention to "local laws" and the construction given them by State courts.

THE Corona American opens an article with the following sentence: "No one but a 'fool friend' of the Administration and the country would seriously advocate the formation of a new party, and closes it with this: "The Republican party, pursuing a course of honesty and justice, under the guidance of wise and unselfish men, will sweep the country at the next Presidential election; with the South, if that so happens, but just as well without it." The last quotation is a slap at Hayes and his Cabinet, who are said to design the resurrection of the old Whig party and its policy; the second will cause the intelligent reader to laugh in his sleeve at the idea of these "wise and unselfish men," and the "course of honesty and justice" which they are to pursue. Can they be Republicans?

BUT two of the many proposed amendments of the Constitution successfully ran the gauntlet of the two branches of the Legislature at the recent session, both of which are to be submitted at the election in April next. The first amends section 12 of article VI so as to empower the Supreme Court to appoint its own clerk. Under the present system the clerk of Ingham County is clerk of the Supreme Court. The proposed change is a good one. The second amendment is of section 7, article XV, and is in the interest of stockholders in all classes of corporations. The present section makes a stockholder liable for labor debts without limit; the proposed section limits his liability to an amount equal to the par value of any share of stock he may have owned during the time in which the labor was performed.

State Appropriations. From the Lansing Republican. The funds to be raised by taxation on the State at large are given in the table below. This statement is prepared from official sources, and persons who have gained information on this subject from certain statements made in other newspapers will here find occasion to amend their previous knowledge. The appropriations for the new Capitol made during the recent session are devoted to furnishing the building, the means for completing it being already in the treasury. Appropriations for building purposes, either completing, making additions to, or erecting new edifices, are levied for the Ionia House of Correction, the Pontiac Asylum, the State Prison, Normal School, Agricultural College, and Oldwater State School.

Table with 2 columns: Institution, Amount. Includes New Capitol (\$1,100,000), Agricultural School (\$50,000), Flint Institution (\$7,000), etc.

Including the general fund are the expenses of the State Department, the losses resulting from the Monroe county tax decision, and a large number of miscellaneous appropriations not listed in special assessments such as State Library, Pioneer Society, teachers' institutes, etc.

Mr. Tilden gives the death-blow to all attempts to force him into the White House. A venerable Southerner called on him recently and told him the people of the whole country would have sustained his claim and made him President had he taken a firm attitude early after the election and insisted upon his rights. Mr. Tilden, according to a correspondent of the Baltimore Sun, replied that he had thought carefully and most conscientiously over the subject in all its possible phases; that he had become convinced that should he adopt the course suggested it would be resisted by the Radical party to the extent of drenching the land in blood; that he shrank from the responsibility of precipitating another terrible civil war upon his countrymen, and consented to the compromise which averted so dread a disaster. He felt as keenly as any one the impropriety of the means by which the present result had been brought about, but for all that he did not regret his own action. As it was, the people of the United States understood it; the Democratic party to-day occupied such a proud attitude before the country as it had never occupied before, and no mortal power could resist its march to success in 1880.

The members of the Legislature pocketed their own pay to the last nickel, and then requested the Regents to cut down the salaries of the University professors about \$500 each. The regents will do nothing of the kind. It is the curse of the University that it is dependent upon the Legislature for anything. The Board of Regents might as well be abolished at once, if the suggestions of men who estimate the value of professional labor by the price of the farm are to be followed. First-class instructors could not be obtained if the salaries were to be regulated by the Legislature; nor can the University expect to obtain a satisfactory degree of stability if it is to be subjected to the whims of men who are willing to trade their votes to gain support for their pet schemes in other directions. The University may have too many departments tacked on, and may be weakened by such burdens, but that evil is the result of too much legislation.—Marshall Statesman.

M. W. Tarbox, formerly of the Saugatuck Commercial and Grand Rapids Times, and recently of the Jackson Times, is about to depart for Texas to accept a newspaper position. Marvin D. Richardson, dealer in dry goods at Morenci, Lenawee County, made an assignment on May 23. Liabilities, \$30,000, and the assets will scarcely pay 50 cents on the dollar.

STATE NEWS BRIEVITIES.

A Mr. Smith, over 100 years of age, was baptized at Niles recently. James J. Navarre, a native born citizen of Monroe, died in that city on the 26th ult., aged 73 years. W. D. Houghaling has obtained two judgments against the township of Kealamoosic, in the United States Court at Grand Rapids, aggregating \$10,775 default in payment of railroad aid bonds.

The smelting works at Wyandotte are still running on Western ore, which continues to arrive in considerable quantities. Nine thousand dollars' worth of silver was shipped to the East on Saturday evening.

The architects of Detroit agree in reporting building, both of a public and private nature, almost at a stand-still. Notwithstanding the decrease in the price of materials and labor less is being done than last year.

Niles a colored man named Curtis, on the 24th, had the bottom of a well 210 feet deep, had a brick fall on his head. The brick was broken into fine pieces, but the darkey kept at his work, only complaining a little of headache.

The St. James' Catholic Church at Grand Rapids, Father Linn's pastor, was robbed on the 22d of May of the sacramental service, valued at \$700. The burglars gained an entrance by removing part of the stained glass window.

The Muskegon News and Reporter says: "Reports from the headwaters of the Muskegon and White Rivers, of a doubtful nature, and a general hanging up of logs seems probable. D. W. Squire's logs are hung up on Brooks Creek. The logs are all hung up at on Butterfield and Dead streams. The logs are not all of Houghton Lake, as is generally supposed. On the north branch of the Pere Marquette River is hung up Morley, the water for flooding having been used up. The drives on White River are flooded half a day and then allowed to lie still two days, and some of the railways have not yet been opened. On the south branch of the Pere Marquette River is hung up Beaver Creek, 65,000,000 feet of logs were cut last winter, all of which are going to Ludington. On White River 65,000,000 feet were cut, and on Rogue River 50,000,000 feet.

ALLOW US TO Make a few Remarks.

Said a wise man: "Let me make the songs of a nation, and I care not who makes its laws." This was once quoted in the hearing of a celebrated wit, who replied: "But let me see the dress a man has worn and I will tell you his history." We leave it to others to argue pro and con as to which of them gave utterance to the more philosophical reflection. But we frankly confess that the weight of probability seems to us to rest with the latter proposition. Nothing external seems to be more indicative of character than the dress. We do not lay this down as a rule from which there can be no deviation, but common sense will support us in saying that clothing is a most important element in determining both individual and national character.

Clothing ranks next to food in importance. It cannot be absent without involving barbarism, partial or entire. The need of it was the first thing perceived by our first parents when they had attained by questionable means the knowledge of good and evil. If we trace the developments through which the clothing of mankind has passed since then, we are forced to the conclusion that the manufacture of clothing ranks next in vital importance to agriculture, which was given priority by the command to dress and till the ground. And as an element and indication of civilization it is of even higher value, the savage in his nakedness, the ancient Druid offering human sacrifices of bodies clothed like his own—in point, because our prices are as low as can be found anywhere in the State. We have taken extra pains this spring in making a large and fine selection of Boys' School Suits, also in suits with knee pants for boys from 3 to 8 years old.

A few more remarks and we will bring this to a close. My Merchant Tailoring Department is complete. In the future as in the past we shall endeavor to keep a large assortment of all the best goods at the market affords, in both foreign and domestic makes; and as for our trimmings and out it needs no comment, as thousands can testify to our superior taste and knowledge in that direction. Come and see us and be convinced of our desire to please you in quality, price and style. Yours truly, S. SONDELM, Ann Arbor, Mich.

MANHOOD: How Lost, How Restored! Just published, a new edition of Dr. CULVERWELL'S Celebrated Essay on the radical cure (without medicine) of Sterility, Impotency or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Exhaustion, Impediments to Marriage, etc., also, Consumption, Epilepsy and Fits, induced by self-indulgence or sexual extravagance. Secured by the celebrated author, in this admirable Essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine, or the application of the knife; and affords a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and rationally.

The Martin-Owens wrestling match took place in Terrace Garden, New York, on Wednesday evening, and Martin was not knocked by the Vermont. Now, Jake, stick to your bawling.

Hong Heng, that is the name over the door of a Huron street laundry, and the genuine chinaman industriously at work therein a "nine day wonder" to the boys—some of his boys not being so very juvenile.

Mrs. Youmans, of Pictou, Ontario, will address the young ladies' white ribbon club on Tuesday afternoon at the Opera House, and on Sunday afternoon she will address the Reform Club. She is an eloquent speaker.

Grinnell keeps right on selling sewing machines notwithstanding the expiration of the patents. He also has thread for the Singer machine already wound upon wooden bobbins. Look out for his new ad. next week.

But \$10 fine has been paid into the County treasury since the first of January, all that amount was paid by Justice Clark of this city. It is a model county or are our citizens over-moral or exceedingly forgetful?

The Court House bonds to be issued by the city will be 70 of \$100 each, and twenty-five of \$500 each. They will be coupon bonds during interest at 7-10 per cent. And now who will give the largest premium for these bonds?

Es-Sheriff Fleming has vacated the jail, and now resides in the house of J. M. Williamson, corner of Division and Catherine streets. He has made a good landlord of the party hotel. Sheriff Case will now try his hand at running it.

We defer any description of the new Court House, its size, style, number and size of rooms, etc., until after a contract shall be let. There is many a slip 'y' know, and even a first-class contract can't tell what crank may get into the heads of the supervisors.

We won't go home till morning, till daylight does appear? We guess that was the thought that uppermost in the minds of the ladies who were invited to the Sunday morning concert, and who were singing en route for home, long after daylight.

Jack & Schmidt purchased the first city stock this season's wool on Wednesday, paying 22 cents a large price considering the quotations in the eastern markets. Now that summer seems really to have really set in the sheep will probably be washed and shorn and the wool marketed at an early day. We think probably we will be able to get good prices in this wool as anywhere else.

Being afraid to trust the resolution of the Board of Supervisors passed a resolution requiring the \$20,000 to be deposited in the County Treasury in cash, amounting to but \$1,000, the same shall be expended to each \$2,000 drawn from the county fund, and to pay interest on the unexpended balances at the rate of 7-10 per cent. An economical streak that: taxing the people of the county to pay interest on money lying idle. Would it have been wiser to have indulged in just a little faith in the good intentions and promises of the city?

The Laboratory Suit—What is to be Tried, and How.

On the 28th ult. a paper was filed in the office of the County Clerk, signed by Messrs. Christianity and Webber, solicitors and counsel for complainants (the Regents of the University); A. J. Sawyer, solicitor for defendants (Rose, Beal, and Smith); and by S. T. Douglas, solicitor, and Ashley Pond, counsel, for defendant Douglas, stipulating substantially as follows:

1. That defendant Douglas is liable to account to and pay over to said complainants so much of the laboratory deficiency, so-called, as came into his hands, and which he has not accounted to the Regents, if any; and that defendant Rose is liable to account to and pay over to said complainants so much of said deficit as came into his hands, and which he has not accounted to his said Douglas or to said Regents, if any.

2. That the amount of said deficiency, for which the complainants are entitled to a decree against the party or parties liable therefor, is \$5,671.87; and that an interlocutory decree shall be entered for an account to be taken between defendant Douglas and Rose, under the direction of the Court and in open court, and that the amount and the liability of each. And all parties stipulate not to ask the Court for delay.

3. All parties agree that after such accounting, complainants shall take a decree against the party or parties found liable for such portion of the deficit as either may be found so liable, and that any amendment to the bill found necessary to support such decree shall be allowed by the Court without terms, either before or after the decree shall be entered.

4. Nothing is to be made therein, shall stop complainants from calling on defendant Douglas to account for any moneys received by him for their use not through said defendant Rose.

5. After the accounting between defendant Rose and Douglas, for a further accounting, under the direction of the Court and in open court, between complainants and defendant Douglas as to all moneys not included in the account, or the decree to be made therein, shall stop complainants from calling on defendant Douglas to account for any moneys received by him for their use not through said defendant Rose.

6. No admissions of fact or stipulation herein shall have any force or effect in any cause or proceeding other than the suit in which it is made.

In accordance with these stipulations it is expected that the suit will come on for trial before Judge Hinman, at the coming term of the Circuit Court to be commenced June 19.

These stipulations settle several of the contested points in advance of the formal trial: 1. The amount of moneys due from somebody connected with the laboratory to the University, \$5,671.87. 2. That Dr. Rose is legally liable to the Regents for any moneys received by him and not paid over to Dr. Douglas or the Regents, a point which has been questioned or disputed in some circles.

3. That Dr. Douglas is to be called to account in a second or supplemental suit for any moneys wrongfully received by him on commissions, interest, or otherwise, narrowing the issue in the pending suit to the moneys received at the laboratory and not passed over to the University. The counsel for the University will therefore have very little to do except to sit by and see the attorneys of Rose and Douglas fight the legal battle.

We have four more numbers (32-36) of Zeller's Popular Encyclopedia and Universal Dictionary, being the first four numbers of the work, which is the best and the most complete, and the most interesting, opening with the letter L and bringing the work down into the letter L, the new matter being added in supplements to each letter. This work, besides dealing with history, biography, sciences, arts and languages, is a complete encyclopedia, and is well as a dictionary, a definition and pronunciation. The editor is that distinguished scholar, L. Colange, LL. D. The price, 50 cents a number, brings it within the grasp of those who cannot afford the larger cyclopedias. Baker, Davis & Co., Philadelphia.
