BEFORE THE SNOW. BEFORE THE SNOW.

Winter is on us, but not yet the snow!

The hills are etched on the horizon, bare,
The slites are iron-gray, a bitter air,
With meager clouds that shudder as they go;
One yellow leaf the listless wind doth blow,
Like some new butterfly, unclassed and rare
Your footsteps ring in frozen alleys, where
The black trees seem to shiver as you go.

LOVE'S LAST SUIT. Love, forget me when I'm gone. When the tree is overthrown When the tree is overthrown
Let its place be digged and sown
O'er with grass; when that is grown,
The very place shall be unknown.
So courf I oblivion;
So, I charge thee by our love,
Love, forget me, when I'm gone!
Love of him that hies in elay
Only maketh life forlorn—
Cleuding o'er the new-born day
With regrets of yestermorn.

And what is love to him that's low,
Or sunshine on his grave that floats?
Love nor sunshine reacheth now
Deeper than the daisy roots,
So, when he that nigh me hovers—

But this could not last. By slow degrees the brain resumed its sway. He opened his eyes. Things were very dim to him, and the cold, chill hand of Death apparently was on him. He could not move his head, but as he gazed with dull, half-open eyes, the vision of his ove rose up to bid him welcome. Oh, ovely! it came nearer and nearer-it would touch him! yes, it bent down, and, breathing a soft petition for his recovery, then vanished.

Whirr-whirr-whirr! Did he dream still? No; voices distinctly fell upon his ears. Where was he? A shrill whistle broke the monotonous sound; the undulating movement of the car he had felt, or fancied,

seemed to cease.
"Hush!" some one spoke. Bertie opened his eyes. He was dreaming still. * * He lay upon a cush-ioned berth in a Pullman palace car. The lamp burned very dimly overhead. Daylight penetrated the curtains around him. He felt very weak and very cold, but he was not dreaming. How had he got there ?--what had happened ?--where was the snow? He called out. A gentleman entered oftly. "Where am I?" inquired Bertie,

"Hush, hush! quite safe; do not agitate yourself," replied the doctor, as Bertie fancied the new-comer to be.

THE GALLOWS. The Number of Judicial Executions in the

United States in 1877. The Chicago Tribune says there were 96 men hanged in the United States and Canada during the year 1877, of whom 43 were negroes, 2 were Chinese, and 1 was an Iddian. There were 3 double, 2 triple, 2 quadruple, 1 sextuple, and 70

single executions, which took place in the following States and Territories:

There is no hanging law in Iowa, Michgan, or Wisconsin; it follows that excluding these, last year there was no murderer executed in thirteen of the States of the American Union and five of the Territories. In the Northwestern States, Illinois, Indiana, Iowa, Kansas, Michigan, Minuesota, Nebraska, and Wisconsin, with a population of 8,580,-345 souls in 1870—it is probably nearer 10,000,000 now-there was no murderer hanged last year. Taking the great cities of the American Union and Canada, we find that there were executions only San Francisco, New Orleans, and Philadelphia; so that, with all their great criminal classes and tragedies of almost daily occurrence, no one was in 1877 brought to the scaffold in Chicago, Indianopolis, Louisville, Baltimore, Boston, Detroit, St. Louis, Jersey City, New York, Brooklyn, Cincinnattii, Cleveland, Milwaukee, Montreal, or Quebec. A NIGHT OF HORROR.

Scenes Attending a Convict Outbreak in Patagonia. A letter from Sandy Point, Patagonia

says the community has recovered from

the consternation into which it had been thrown by the unexpected revolt of the troops and release of the convicts. A fresh body, 200 strong, has landed with the intention of pursuing the rebels into the heart of the Pampas. It is feared, owever that their utmost efforts will unavailing, as the convicts have obtained three weeks' start. Justice is as likely to be vindicated by cold, hunger and the Indians as by the Chilian troops. Had the outbreak been executed as cleverly as it was planned, there is no doubt that the Chilian Government would have experienced great difficulty in recapturing the settlement. At first oth prisoners and guards acted in complete agreement. Forming themselves into organized bodies, they poured into the town, murdering all who resisted; and, happily, their newly-regained freedom turned the heads of the convicts. The desire of conquest yielded to lust and avarice. Throwing themselves into the richest houses, they plundered, burned, outraged and drank till all organization was lost. The town, next morning, looked as if it had been taken by storm, so great was the devastation. The following scene occurred in the house of a gentleman, one of the principal residents: About the middle of the night he and his two daughters were aroused by several deafening reports. They got up and dressed. In a short time a young English lady came to the farch. 6 September 4

SOMETHING FOR RATS AND MICE. Several correspondents write to announce the complete extirpation of rats and mice from their cow-stalls and pig-geries since the adoption of this simple plan: a mixture of two parts of wellbruised common squills and three parts of finely-chopped bacon is made into a stiff mass, with as much meal as may be required, and then baked into small cakes, which are put down for the rats to eat.—English Standard.

DRAINING A HOLEOW .- To drain a depression in a field where a clayey or hard pan subsoil prevents the sinking of rain water, and the lay of the land is unfavorable for ordinary methods of drainage, first dig a hole, as if for a well, through the impervious stratum at the bottom of the hollow, fill it up to the brim with refuse stones, remove the excavated earth so as to allow the surface water free access to the pit, and standing water will never injure the grass or grain crop in that part of the field.

Hon. C. E. WHITING, of Monona county, Iowa, says, and truly, that he is very positive that his experience teaches him that, with wide timber belts around his fields, the balance of the lands will produce more grass, more corn, or more wheat than the whole land would without the wind belts. And as his belts increase in height he finds an increased visible benefit to his crops. And he finds in his large experience that our cultivated forest trees year after year grow right along with immense rapidity in blissful ignorance of the reason why they should not grow. - Prairie Farmer.

MR. JAMES BURNELL, of Pacheco, has adopted for several years a method of sowing wheat which has never been described in the Patent Office, but which we have heard has been practiced and advocated by some of our farmers. He fastens a common sack of seed in front of him, on horseback, attaches his feet to guide reins and uses both hands in throwing the grain broadcast, right and left, in such quantity as suits him. Being elevated from the ground the seed obtains a wide spread. He says he can sow twenty acres a day without much fatigue in this way.—Pacfiic Rural

There is, perhaps, no denying the power of

the book, but concerning the pleasure or profit to be found in reading it, we can imagine some uestion. Some one has called Daudet the Hawthorne of France A certain similarity in the power with which he portrays character and unvails evil to the light of day, we notice in the "Nabob," but we fail to see the earnest purpose which seems to us to under lie, rather to permeate, most of Hawthorne's writings. About the only moral we should draw from the story would be the danger of accumulating great wealth, necessary enough in this day perhaps; still there are few who possess untold millions, and it is to be hoped most of these unfortunates have a little more common sense then our friend the "Nalyh". In suits ense than our friend the "Nabob." In spite however, of his unprepossessing appearance and lack of culture or refinement, his kindly the way in which persecutions are heaped upon him, and door after door of escape closec in his very face, as it were, leaves us with an unpleasant impression that M. Daudet decided against him at first sight and delivered him over to the fates and furies combined. Concerning the other characters, most of them are introduced to us already so im-bued with selfishness and iniquity that there is little chance for any development, good or bad. Jenkins is certainly a model hypocrite, but the very unctuousness of his smile savors whole duty to the parties litigant who appeared in your court, ought to receive punishment."

The balance of the letter relates to the danger of such a course to the fearless administration of justice.

The views of judge Van Zile are also confirmed by a letter received from another circuit judge.

Respecting the letter of Senator Christiancy to Regent Rynd, Judge Huntington only said (but evidently with a feeling he was unwilling to express) sensation of a tragedy that might have been avoided. One cannot help wondering it "art" might not have been as perfect with less of

DETROIT MARKET. The Detroit Free Press in its regular week-

ly review of the Detroit markets under date of March 6, says: The final settlement of the Silver bill is regarded b bankers, jobbers and all concerned in business affairs, whether favoring or disap-

proving the measure, as tending to materially

received. During the past week the wholesale dry goods trade has been more active at the low ruling prices. The print market continues unsettled, Pacific, Americans, Spragues, Atlens, lous and utterly unfounded in truth, Richmonds, Dunnells, Manchester and shirtd will not consent to ings have been marked down to 51-2c, Harnovel. There is no change of special importance ip woolen goods. The drug business has undergone an improvement during the past week, though business is by no means as brisk as usual at this stage of the season. The steady tone of prices which has characterized this market for some time past is no longer noted. Peru balsam has declined to \$1.75, bi-chromate of potash to 16a18c, bromide of potash to 52a55c, refined borax to 11a12c, glycerine, C. Opium (Turton) in bold at \$4.55 mills for a contract to the contract of the contract quantities or make contracts. Opium (Turkey) is held at \$4.85, while for castor oil and deverpowder former prices are shaded a trifle. Canary seed is very firm. Cubebs have advanced Ia2e per lb., and it is reported that the stock East is very light. Cuttlefish bone is orm and scarce. The eastern supply is controlled by two New York houses. There is, however, some East India bone in market which is somewhat broken and off color, that is being offered at a low rate. I pecae root is s being offered at a low rate. Ipecac root is out of first hands and prices have advanced. Virginia snakeroot is very scarce and 45c is now asked. Pink root is nearly out of market, and dealers are asking 55a60c per lb. The demand for pure white lead has improved and prices have hardened, dealers asking 81-2c

per lb.

The hardware trade continues quiet, and values unchanged. In groceries there has been a fair trade, with values generally steady. Teas, coffees and spices are firmly held. Can-ned goods, salt fish, prunes and dried fruits are dull. Sugars are firm at 91-2a95-Sc per lb. for standard A's; off A's, 91-8a91-4c; granulated, 93-4a10c; powdered, 10a101-4c; crushed, 101-2c, and yellows 73-4a81-2c per

The receipts of flour and grain for the week under review, were as follows: Flour, 6,421 bbls.; wheat, 78,997 bu.; corn, 1,342 bu.; cats, 4,757 bu.; barley, 6,826 centals; rye, 260 bu. The shipments were: Flour, 4,718 bbls.; wheat, 50,841 bu.; corn, 3,827 bu.; cats, 1,317 bu.; barley, 3,761 centals.

Such is always the case when a penal law is repealed unless there is a clause in the repealing act saving the right to prosecutesuch cases as are pending or of enforcing rights that existed at the time of the repealing. There being no saving clause in the repealing. There being no saving clause in the repealing ordinance the repealed ordinance is dead and cannot be enforced. A BLACKMAILING story was written and printed in the New York Sun, the intended victim being no less a personage than the high Russian Princess Sovaroff, who is now so ourning in New York, and said to be in high favor at the court of the Czar. The Sun publishers refused to divulge the author's name. Count Kalonorat, nephew of the Princess, went to the Police Court to obtain a warrant for the arrest of the publishers of the offensive article. He was informed that a warrant could not be issued. Upon subsequent legal advice, the Prin-cess resolved upon an entirely different course, and one that will tend to make the case not only celebrated, but of international importance. The blackmail having been attempted through the Postoffice, the offense comes within the jurisdiction of the National Government. The attention of the Russian Government will be called to the publication, and efforts made through it to have the United States Government take the matter up.

I cannot approve a bill which, in my judgment, authorizes the violation of sacred obligations. The obligation of public faith transcends all questions of profit or public advantage. Its unquestionable maintenance is the dictate as well of the highest expediency as of the most necessary duty, and should ever be carefully guarded by the executive, by Congress, and by the people. It is my firm conviction that if the country is to be benefited by a silver coinage it can be done only by the issue of silver dollars of full value which will defraud no man. A currency worth less than it purports to be worth will in the end defraud not only creditors but all who are engaged in a legitimate business, and none more surely than those who are dependent on their daily labor for their daily bread.
