

# Up North

Dad was trying to take a picture of me. But the fish was flopping around. It flopped right out of my hands it flopped in the water I was like "ahh come on"

Because that was second big fish I caught I tried and tried to catch another big fish. But... I caught a little fish I was mad because I didn't catch another big fish again the only one I caught was a little fish I didn't like that but I do still like fishing because fishing is fun and who does not like fishing? Then when it was getting dark we had s'mores and candy and the candy was mustache candy and sour candy and when it was getting dark we got to sleep in our one cabin it was so cool "thank you" I said "I can't believe that i'm going to sleep in my own cabin" When I was sleeping I was imagining all the things that I did today . I can't believe that I did all those things that I did I wish that I could go back in time so I can do it again.
